Any drug product that is identical, related, or similar to the drug product named above and is not the subject of an approved new drug application is covered by the new drug application reviewed and is subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance (address given above).

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053 as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82), finds that, on the basis of new information before him with respect to the product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to the foregoing finding, approval of NDA10-013, and all amendments and supplements applying thereto, is withdrawn effective June 22, 1981.

Shipment in interstate commerce of the above product or of any identical, related, or similar product that is not the subject of an approved new drug application will then be unlawful.

Dated: March 23, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17405 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 76N-0356; DESI 1543]

Conjugated Estrogens for Parenteral Use; Premarin Intravenous; Drug Efficacy Study Implementation; Rescission of Notice of Opportunity for Hearing and Reevaluation

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice rescinds a notice of opportunity for hearing for Premarin Intravenous, reclassifies the drug product as effective under revised labeling, and announces the conditions for marketing the drug product for the appropriate indication. The drug product consists of conjugated estrogens for parenteral use, and is used in the treatment of certain types of abnormal uterine bleeding.

DATE: Supplements to approved new drug applications due on or before August 11, 1981.

ADDRESSES: Communications in response to this notice should be identified with the reference number DESI 1543, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Supplements to full new drug applications (identify with NDA number): Division of Metabolism and Endocrine Drug Products (HFD-130), Rm. 14B-04, Bureau of Drugs.

Original abbreviated new drug applications and supplements there to (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for the report of the National Academy of Sciences-National Research Council: Freedom of Information Staff (HFI-35), Rm. 12A-16.

Requests for opinion of the applicability of this notice to a specific drug product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT: Margery Erickson, Bureau of Drugs (HFD-32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3650.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of July 25, 1972 (37 FR 14826), the Food and Drug Administration (FDA) announced its evaluation of reports received from the National Academy of Sciences-National Research Council (NAS-NRC) on certain estrogen-containing drugs for oral or parenteral use. Included in the announcement was Premarin Intravenous containing conjugated estrogens (NDA 10-402; Ayerst Laboratories, Division of American Home Products Corp., 685 Third Ave., New York, NY 10017), which was among the short-acting estrogens found to be effective for the indication "abnormal uterine bleeding." Subsequently, in the **Federal Register** of September 29, 1976 (41 FR 43114), FDA made the following announcement concerning that indication:

The National Academy of Sciences-National Research Council considered the indication, abnormal uterine bleeding due to hormonal imbalance in the absence of organic pathology, to be effective. As stated, however, the indication is deficient in that it does not consider necessary prior diagnostic steps or the use of progestational agents simultaneously or in sequence. Although the July 25, 1972 notice classified this indication as effective, the Director of the Bureau of Drugs has concluded that while estrogens

may have a use in some cases of dysfunctional uterine bleeding, the above indication is inadequate, incomplete, and not appropriate in labeling. Therefore, it is not included in the indications listed in the labeling conditions (41 FR 43115).

The notice further offered drug sponsors and other interested persons an opportunity to request a hearing on FDA's proposal to withdraw approval of this indication.

On October 29, 1976, Ayerst Laboratories (Ayerst) filed a request for a hearing on the proposed deletion of the abnormal uterine bleeding indication for its product, Premarin Intravenous. Included with the request for hearing was a proposal for revised labeling intended to overcome the objections to the indication as previously worded. Ayerst also supplemented its hearing request on November 29, 1976 and April 14, 1978 with documentation and legal arguments.

Based upon a reevaluation of all available data, the Director of the Bureau of Drugs concludes that there is a patient population for whom parenteral administration of this drug, on a short-term basis, is useful, and that drug product is safe and effective for the indication if the labeling conditions are revised as set forth below. Accordingly, the September 29, 1976 notice is rescinded as it pertains to Premarin Intravenous and the abnormal uterine bleeding indication.

Drug products containing conjugated estrogens for intravenous use are regarded as new drugs (21 U.S.C. 321(p)). A supplemental new drug application is required to revise the labeling in and to update any previously approved application providing for such a drug. An approved new drug application is a requirement for marketing such a drug product.

In addition to the product specifically named above, this notice applies to any drug product that is not the subject of an approved new drug application and is identical to the product named above. It may also be applicable, under 21 CFR 310.6, to a similar or related drug product that is not the subject of an approved new drug application. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers a drug product that the person manufacturers or distributes. Such person may request an opinion of the applicability of this notice to specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reevaluated all available evidence and concludes that the drug product is effective for the indication in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug is in a form suitable for intravenous or intramuscular injection.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

For profuse abnormal uterine bleeding due to hormonal imbalance in the absence of organic pathology such as submucous fibroids or uterine cancer and only when associated with a hypoplastic or atrophic endometrium.

c. In the Dosage and Administration section, the statement on usual dose of Premarin Intravenous is revised to read as follows:

One 25-mg injection, intravenously or intramuscularly. Intravenous use is preferred since more rapid response can be expected from this mode of administration. Repeat in 6 to 12 hours if necessary. Start immediately estrogen-progestin cyclic regimen such as conjugated estrogens 2.5 mg to 7.5 mg daily in divided doses (as tablets), for 20 days. During the last 5 to 10 days of therapy, an oral progestational agent should be given. Withdrawal bleeding may be expected in the next 2 to 5 days. It is important that therapy be continued and dosage not be reduced, otherwise breakthrough bleeding will occur. The above oral estrogen-progestin regimen should be repeated, beginning on day 5 of the cycle, during the next three subsequent cycles.

3. *Marketing Status.* Marketing of such a drug product that is now the subject of an approved or effective new drug application may be continued provided that, on or before August 11, 1981, the holder of the application has submitted (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(C)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) containing full information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) must be obtained before marketing such products. Under 21 CFR 320.21, the application is to include evidence demonstrating the in vivo bioavailability of the drug or information to permit waiver of the requirement. Marketing before approval of a new drug application will subject such products, and the persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70).

Dated: March 28, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17408 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 79N-0190; DESI 5378]

Eskatrol Spansule Capules; Withdrawal of Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration is withdrawing approval of the new drug application (NDA 12–042) for Eskatrol Spansule Capsules containing 15 mg dextroamphetamine sulfate and 7.5 mg prochlorperazine maleate per sustained-release capsule. The basis of the withdrawal is that the product lacks substantial evidence that each component of the combination drug contributes to the total effects claimed. The drug has been used in the treatment of obesity.

EFFECTIVE DATE: June 22, 1981.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 5378 and directed to the Division of Drug Labeling Compliance (HFD–310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Jean A. Peeler, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3650.

SUPPLEMENTARY INFORMATION: In a notice of opportunity for hearing published in the **Federal Register** of February 12, 1973 (38 FR 4279) (formerly

Docket No. FDC–D–582, now Docket No. 79N–0190), the Commissioner of Food and Drugs proposed to issue an order withdrawing approval of certain combination anoretic drugs. Among them was Eskatrol Spansules containing 15 mg dextroamphetamine sulfate and 7.5 mg prochlorperazine maleate per sustained-release capsule (NDA 12–042). The proposed order was based on lack of substantial evidence that the drug is effective as a fixed-combination, lack of proof of safety (because of the recognized potential for abuse of its amphetamine component), and failure to submit certain required reports. In response to the notice, Smith Kline & French Laboratories requested a hearing, but has since withdrawn its request.

Smith Kline and French has also withdrawn, insofar as it applies to Eskatrol, its later hearing request that responded to a notice of opportunity for a hearing published on July 17, 1979 (44 FR 41552) proposing to withdraw approval and remove from the labeling of all amphetamine drug products the recommendation for use in the management of exogenous obesity. Therefore, approval of the following new drug application is now being withdrawn.

NDA 12–042; Eskatrol Spansule Capsules containing 15 mg dextroamphetamine sulfate and 7.5 mg prochlorperazine maleate per sustained-release capsule; Smith Kline & French Laboratories, Division of Smith Kline Corp., 1500 Spring Garden St., Philadelphia, PA 19101.

Any drug product that is identical, related, or similar to the drug product named above and is not the subject of an approved new drug application is covered by the new drug application reviewed and is subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance (address given above).

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–1053 as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82), finds that, on the basis of new information before him with respect to the product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the combination drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling.

Therefore, pursuant to the foregoing finding, approval of NDA 12–042, and all amendments and supplements applying thereto, is withdrawn effective June 22, 1981.

Shipment in interstate commerce of the above product or of any identical, related, or similar product that is not the subject of an approval new drug application will then be unlawful.

Dated: April 1, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81–17404 Filed 6–11–81; 8:45 am]

BILLING CODE 4110–03–M

[Docket No. 79N–0081]

Frozen Fish Sticks, Frozen Fish Cakes, and Frozen Crab Cakes; Recommended Microbiological Quality Standards

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is updating the reference for the methodologies cited in the recommended microbiological quality standards for frozen fish sticks, frozen fish cakes, and frozen crab cakes and is issuing a correction to microbiological limits specified in the recommended microbiological quality standard for frozen crab cakes.

ADDRESS: Written comments on the revised recommended microbiological quality standards should be submitted to the Dockets Management Branch (formerly the Hearing Clerk's office) (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: R. B. Read, Jr., Bureau of Foods (HFF–120), Food and Drug Administration, 200 C St. SW., Washington, D.C. 20204, 202–245–1217.

SUPPLEMENTARY INFORMATION: In the Federal Register of June 3, 1980 (45 FR 37524), FDA issued recommended microbiological quality standards for frozen fish sticks, frozen fish cakes, and frozen crab cakes. The methodologies referenced in each of the recommended quality standards were contained in the "Official Methods of Analysis of the Association of Official Analytical Chemists," (AOAC) 12th Ed. (1975), sections 46.037, 46.038, and 46.039. The 13th edition of the AOAC has been issued and contains these methodologies under different sections.

FDA has revised each of the recommended quality standards to reflect the current AOAC reference. Section B of each of the recommended microbiological quality standards now refers to the "Official Methods of Analysis of the Association of Official Analytical Chemists," 13th Ed. (1980), sections 46.014, 46.015, and 46.016.

In addition, the microbiological limits specified in sections (b) (1) and (2) of the recommended microbiological quality standard for frozen crab cakes are incorrect. The complete text of the corrected and revised recommended microbiological quality standard for frozen crab cakes is as follows:

Recommended Microbiological Quality Standard

Frozen Crab Cakes

(a) For the purposes of this recommended microbiological quality standard the following definitions apply:

(1) A "frozen crab cake" is any frozen article designated by its label statement of identity as a crab cake and which is made from shredded crabmeat and non-crabmeat flesh filler and binder ingredients.

(2) A "sample of frozen crab cakes" is a collection of five subsamples (retail size packages), taken to be representative of the lot, provided that one subsample is taken from each of five different randomly chosen shipping cases when the lot consists of five or more shipping cases.

(b) When examined by the methods described in the "Official Methods of Analysis of the Association of Official Analytical Chemists," 13th Ed. (1980), sections 46.014, 46.015, and 46.016, a sample of frozen crab cakes should meet the following recommended microbiological limits:

(1) Aerobic plate count should not exceed either:

(i) 120,000 per gram in three or more of the five subsamples examined or

(ii) 1,200,000 per gram in any of the five subsamples examined.

(2) Coliform count by Most Probable Number (MPN) should not exceed either:

(i) 430 per gram in three or more of the five subsamples examined or

(ii) 4,300 per gram in any of the five subsamples examined.

(c) The provisions of this guide are not applicable to a lot of frozen crab cakes which has a date of manufacture less than 30 days prior to the date of the sample examination.

These recommended standards are recommendations and not regulations. FDA encourages their voluntary adoption by industry and by State authorities who may wish to incorporate them into State food regulations. See 21 CFR 10.90(c).

Copies of the corrected recommended microbiological quality standards for frozen fish sticks, frozen fish cakes, and frozen crab cakes are available for public examination between 9 a.m. and 4 p.m., Monday through Friday, in the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm.

4–62, 5600 Fishers Lane, Rockville, MD 20857. Requests for single copies of the recommendations may be made in writing to the Food and Drug Administration, Bureau of Foods (HFF–120), Division of Microbiology, 200 C St. SW., Washington, D.C. 20204.

Interested persons may submit written comments on the recommendations to the Dockets Management Branch (HFA–305), Food and Drug Administration, Rm. 4–62, 5600 Fishers Lane, Rockville, MD 20857 (preferably four copies and identified with the docket number found in brackets in the heading of this document). Received comments will be incorporated into the public file on the recommendation and may be seen in the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

Dated: June 2, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

[FR Doc. 81–17414 Filed 6–11–81; 8:45 am]

BILLING CODE 4110–03–M

[Docket No. 80N–0195; DESI 9048]

Methoxsalen Capsules; Drugs for Human Use; Drug Efficacy Study Implementation; Followup Notice

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice states the indication for which methoxsalen capsules are regarded as effective and states the conditions for approval and marketing of the drug. The drug is used in the treatment of vitiligo.

DATE: Supplements to approved new drug applications due by August 11, 1981.

ADDRESS: Communications in response to this notice should be identified with Docket No. 80N–0195, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Supplements to full new drug applications (identify with NDA number): Division of Anti-Infective Drug Products (HFD–140), Bureau of Drugs.

Original abbreviated new drug applications and supplements thereto (identify as such): Division of Generic Drug Monographs (HFD–530), Bureau of Drugs.

Requests for the report of the National Academy of Sciences-National Research Council: Public Records and Document Center (HFI–35), Rm. 12A–12.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD–310), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD–501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT: Douglas I. Ellsworth, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3650.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of November 3, 1970 (35 FR 16950), the Food and Drug Administration (FDA) announced its evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group (NAS–NRC) on Oxsoralen Capsules containing 10 milligrams of methoxsalen (that part of NDA 9–048 pertaining to Oxsoralen Capsules; held by Paul B. Elder Co., 705 E. Mulberry St., P.O. Box 31, Bryan, OH 43506).

FDA classified Oxsoralen Capsules as possibly effective for use to protect against sunburn, enhance pigmentation, increase tolerance of the skin to sunlight, and facilitate repigmentation of vitiligo. Affected persons were given 6 months to provide substantial evidence of effectiveness for the indications classified as possibly effective.

No person submitted data in support of Oxsoralen Capsules. Accordingly, in a notice published in the **Federal Register** of April 12, 1973 (38 FR 9256; formerly Docket No. FDC–D–611, now Docket No. 80N–0195), FDA reclassified Oxsoralen Capsules to lacking substantial evidence of effectiveness for the aforementioned indications, proposed to withdraw approval of those parts of NDA 9–048 that provide for Oxsoralen Capsules, and offered an opportunity for a hearing on the proposal.

Paul B. Elder Co. requested a hearing and submitted supporting data.

Upon review of all available evidence, the Director of the Bureau of Drugs concludes that methoxsalen capsules are effective for vitiligo. The other indications classified as lacking substantial evidence of effectivenesss are under review and will be the subject of a future **Federal Register** notice.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drug products.

In addition to the product specifically named above, this notice applies to any product that is not the subject of an approved new drug application and is identical to the product named above. It may also be applicable, under 21 CFR 310.6, to a similar or related drug product that is not the subject of an approved new drug application. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product that the person manufactures or distributes. Such person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug is effective for the indication in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and abbreviated supplements to previously approved new drug application under conditions described herein.

1. *Form of drug.* The drug product is in capsule form suitable for oral adminstration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

> Methoxsalen in conjunction with ultraviolet light is useful in the treatment of vitiligo.

3. *Marketing Status.* a. Marketing of such drug products that are now the subject of an approved or effective new drug application may be continued provided that, on or before August 11, 1981, the holder of the application has submitted (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD–356H (21 CFR 314.1(c)) to the extent required in abbreviated applications (21 CFR 314.1(f)).

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) must be obtained before marketing such products. Under 21 CFR 320.21, the application must include either evidence

demonstrating the in vivo bioavailability of the drug or information to permit waiver of the requirement, unless such evidence is already waived under 21 CFR 320.22(c). Marketing before approval of a new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70).

Dated: March 16, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17409 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 80N-0431; DESI 11738]

Oxymorphone Hydrochloride 2-Milligram Rectal Suppositories; Opportunity for Hearing on Proposal To Withdraw Approval of Pertinent Parts of New Drug Application

AGENCY: Food and Drug Administration (FDA).

ACTION: Notice.

SUMMARY: This notice reclassifies oxymorphone hydrochloride 2-milligram suppositories to lacking substantial evidence of effectiveness, proposes to withdraw approval of pertinent parts of the new drug application, and offers an opportunity for a hearing on the proposal.

DATE: Hearing requests due on or before July 13, 1981.

ADDRESS: Communications in response to this notice should be identified with the reference number DESI 11738 and the Docket number appearing in the heading of this notice, and addressed to the Dockets Management Branch, Food and Drug Administration (HFA–305), Rm. 4–65, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: Herbert Gerstenzang, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3650.

SUPPLEMENTARY INFORMATION: In a notice (DESI 11738) published in the **Federal Register** of August 26, 1970 (35 FR 13607), FDA announced that oxymorphone hydrochloride suppositories are possibly effective for the relief of moderate to severe pain.

Subsequently, in a notice published in the **Federal Register** of December 14, 1972 (37 FR 26623), oxymorphone hydrochloride suppositories were temporarily exempted (as Category V) from the time limits established for completing certain phases of the Drug Efficacy Study Implementation (DESI) program. The exemption was granted because this was the only narcotic analgesic in suppository dosage form and this route of administration could be a useful substitute for injections or oral medication. Oxymorphone hydrochloride suppositories were permitted to remain on the market pending completion of scientific studies.

That part of NDA 11–738 pertaining to Numorphan Hydrochloride Rectal Suppositories containing 2 milligrams oxymorphone hydrocholoride; formerly marketed by Endo Laboratories, 1000 Stewart Ave., Garden City, NY 11530.

Endo submitted a study by Dr. William Beaver and a study by Dr. Raymond Silk to demonstrate the effectiveness of the drug product. Another study by R. J. Trudrowski was discontinued and only a preliminary report was submitted.

The study by Dr. Beaver was a double-blind, twin-crossover comparison of the relative analgesic effect of oxymorphone by rectal suppository and intramuscular injection in 194 postoperative patients. of the 136 patients who completed the study, only 8 had been given oxymorphone 2-milligram suppositories. Any results derived from such a small number of patients are inadequate to serve as the basis for any conclusion of the effectiveness of this product and, indeed, Dr. Beaver makes no such claims for the study.

The study by Dr. Silk was a randomized, double-blind, complete crossover analgesic study in 100 postoperative patients comparing oxymorphone 2-milligram and 5-milligram suppositories with hydromorphone 3-milligram and placebo suppositories. This study was able to demonstrate that oxymorphone 5-milligram suppositories produced greater analgesia than the hydromorphone 3-milligram suppositories, while the oxymorphone 2-milligram suppositories and the hydromorphone 3-milligram suppositories produced essentially the same degree of analgesia. All three test drugs showed significant analgesic results compared to the placebo suppositories. Therefore this one study provides evidence of effectiveness for both oxymorphone 5-milligram and 2-milligram suppositories.

As only the Silk study supports the effectiveness of oxymorphone 2-milligram suppositories for the relief of moderate to severe pain, and the results of this study are not confirmed by evidence from any other well-designed study, the oxymorphone 2-milligram suppository is reclassified to lacking substantial evidence of effectiveness. Endo no longer markets the 2-milligram product.

A notice reclassifying the 5-milligram oxymorphone hydrochloride suppositories to effective, based upon the evaluation of the relevant data in the studies mentioned above, and a notice revoking the temporary exemption granted by the December 14, 1972 notice for oxymorphone suppositories, appear elsewhere in this issue of the **Federal Register**.

On the basis of all the data and information available to him, the Director of the Bureau of Drugs is aware of only one adequate and well-controlled clinical investigation, conducted by experts qualified by scientific training and experience, meeting the requirements of section 505 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and 21 CFR 314.111(a)(5) demonstrating the effectiveness of oxymorphone hydrochloride 2-milligram suppositories for use in the relief of moderate to severe pain. Without the submission of a second adequate and well-controlled study designed to determine whether the results of the first are replicable, the agency has no adequate basis for a conclusion that the product is effective.

Therefore, notice is given to the holder of the new drug application and to all other interested persons that the Director of the Bureau of Drugs proposes to issue an order under section 505(e) of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355(e)), withdrawing approval of those parts of the new drug application providing for the drug product listed above and all amendments and supplements thereto on the ground that new information before him with respect to the drug product, evaluated together with the evidence available to him when the application was approved shows there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in the labeling.

In addition to Endo Laboratories, this notice of opportunity for hearing applies to all persons who manufacture or distribute a drug product that is identical, related, or similar to the drug product named above, as defined in 21 CFR 310.6. It is the responsibility of every drug manufacturer or distributor to review this notice of opportunity for

hearing to determine whether it covers any drug products that the person manufactures or distributes. Such person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

In addition to the gound for the proposed withdrawal of approval stated above, this notice of opportunity for hearing encompasses all issues relating to the legal status of the drug product subject to it (including identical, related, or similar drug products as defined in 21 CFR 310.6) e.g., any contention that any such product is not a new drug because it is generally recognized as safe and effective within the meaning of section 201(p) of the act or because it is exempt from part or all of the new drug provisions of the act under the exemption for products marketed before June 25, 1938, contained in section 201(p) of the act, or under section 107(c) of the Drug Amendments of 1962, or for any other reason.

In accordance with section 505 of the act (21 U.S.C. 355) and the regulations promulgated thereunder (21 CFR Parts 310, 314), the applicant and all other persons subject to this notice under 21 CFR 310.6 are hereby given an opportunity for a hearing to show why approval of the new drug application should not be withdrawn and an opportunity to raise, for administrative determination, all issues relating to the legal status of the drug product named above and of all identical, related or similar drug products.

An applicant or any other person subject to this notice under 21 CFR 310.6 who decides to seek a hearing, shall file (1) on or before July 13, 1981 a written notice of appearance and request for hearing, and (2) on or before August 11, 1981, the data, information, and analyses relied on to justify a hearing, as specified in 21 CFR 314.200. Any other interested person may also submit comments on this notice. The procedures and requirements governing this notice of opportunity for hearing, a notice of appearance and request for hearing, a submission of data, information, and analyses to justify a hearing, other comments, and a grant or denial of hearing, are contained in 21 CFR 314.200.

The failure of the applicant or any other person subject to this notice under 21 CFR 310.6 to file timely written appearance and request for hearing as required by 21 CFR 314.200 constitutes an election by the person not to make use of the opportunity for a hearing concerning the action proposed with respect to the product and constitutes a waiver of any contentions concerning the legal status of any such drug product. Any such drug product may not thereafter lawfully be marketed, and the Food and Drug Administration will initiate appropriate regulatory action to remove such drug products from the market. Any new drug product marketed without an approved NDA is subject to regulatory action at any time.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that there is a genuine and substantial issue of fact that requires a hearing. If it conclusively appears from the face of the data, information, and factual analyses in the request for the hearing that there is no genuine and substantial issue of fact which precludes the withdrawal of approval of the application, or when a request for hearing is not made in the required format or with the required analyses, the Commissioner of Food and Drugs will enter summary judgment against the person who requests the hearing, making findings and conclusions, denying a hearing.

All submissions pursuant to this notice must be filed in four copies. Such submissions except for data and information prohibited from public disclosure under 21 U.S.C. 331(j) or 18 U.S.C. 1905, may be seen in the office of the Dockets Management Branch between 9 a.m. and 4 p.m., Monday through Friday.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052–1053, as amended (21 U.S.C. 355)), and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.82).

Dated: February 12, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

BILLING CODE 4110-03-M

[Docket No. 80N-0431; DESI 11738]

Oxymorphone Hydrochloride 5-Milligram Rectal Suppositories, Drugs for Human Use; Drug Efficacy Study Implementation; Reevaluation

AGENCY: Food and Drug Adminstration (FDA).

ACTION: Notice.

SUMMARY: This notice states the conditions for marketing oxymorphone hydrochloride 5-milligram suppositories for use in the relief of moderate to severe pain, for which it is now regarded as effective.

DATE: Supplements to new drug applications due on or before August 11, 1981; bioavailability data for new drug applications due on or before December 9, 1981.

ADDRESSES: Communications in response to this notice should be identified with the reference number DESI 11738, directed to the attention of the appropriate office named below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Supplements to full new drug applications (identify with NDA number): Division of Neuropharmacological Drug Products (HFD-120), Rm. 10B-34, Bureau of Drugs.

Original abbreviated new drug applications and supplements thereto (identify as such): Division of Generic Drug Monographs (HFD-530), Bureau of Drugs.

Requests for the report of the National Academy of Sciences-National Research Council: Public Records and Document Center (HFI-35), Rm. 12A-12.

Requests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling Compliance (HFD-310), Bureau of Drugs.

Other communications regarding this notice: Drug Efficacy Study Implementation Project Manager (HFD-501), Bureau of Drugs.

FOR FURTHER INFORMATION CONTACT:

Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3650.

SUPPLEMENTRY INFORMATION: In a notice (DESI 11738) published in the **Federal Register** of August 26, 1970 (35 FR 13607), FDA announced that oxymorphone hydrochloride suppositories are possibly effective for the relief of moderate to severe pain.

Subsequently, in a notice published in the **Federal Register** of December 14, 1972 (37 FR 26623), oxymorphone hydrochloride suppositories were temporarily exempted (as Category V) from the time limits established for completing certain phases of the Drug Efficacy Study Implementation (DESI) program. The exemption was granted because this was the only narcotic analgesic in suppository dosage form and could be a useful substitute for injections or oral medication. Therefore, oxymorphone hydrochloride suppositories were permitted to remain on the market pending completion of scientific studies. The studies have now been completed and evaluated for the following drug products:

NDA 11-738; Numorphan Hydrochloride Rectal Suppositories containing 2 milligrams or 5 milligrams oxymorphone hydrochloride; Endo

Laboratories, 1000 Stewart Ave., Garden City, NY 11530.

The two clinical studies submitted by Endo Laboratories supported the effectivenss of oxymorphone hydrochloride 5-milligram suppostories, but only one supported the effectivenss of the 2 milligram suppositories. Accordingly, the 5-milligram suppositories are being reclassified to effective for the indication described below and the 2-milligram suppositories are regarded as lacking substantial evidence of effectivenss. Endo no longer markets the 2-milligram suppositories. A notice offering an opportinity for hearing on the 2-milligram suppostiories, and a notice revoking the temporary exemption granted by the December 14, 1972 notice for oxymorphone suppositories, appear elsewhere in this issue of the **Federal Register**.

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). Supplemental new drug applications are required to revise the labeling in and to update previously approved applications providing for such drugs. An approved new drug application is a requirement for marketing such drugs products.

In addition to the 5-milligram product specifically named above, this notice applies to any drug product that is not the subject of an approved new drug application and is identical to that product. It may also be applicable, under 21 CFR 310.6, to a similar or related drug product that is not the subject of an approved new drug application. It is the responsibility of every drug manufacturer or distributor to review this notice to determine whether it covers any drug product that the person manufactures or distributes. Such person may request an opinion of the applicability of this notice to a specific drug product by writing to the Division of Drug Labeling Compliance (address given above).

A. *Effectiveness classification.* The Food and Drug Administration has reviewed all available evidence and concludes that the drug product is effective for the indication in the labeling conditions below.

B. *Conditions for approval and marketing.* The Food and Drug Administration is prepared to approve abbreviated new drug applications and supplements to previously approved new drug applications under conditions described herein.

1. *Form of drug.* The drug product is in suppository form suitable for rectal administration.

2. *Labeling conditions.* a. The label bears the statement, "Caution: Federal law prohibits dispensing without prescription."

b. The drug is labeled to comply with all requirements of the act and regulations, and the labeling bears adequate information for safe and effective use of the drug. The Indication is as follows:

For the relief of moderate to severe pain.

3. *Marketing status.* a. Marketing of such a drug product that is now the subject of an approved or effective new drug application may be continued provided that, on or before August 11, 1981, the holder of the application has submitted (i) a supplement for revised labeling as needed to be in accord with the labeling conditions described in this notice, and complete container labeling if current container labeling has not been submitted, and (ii) a supplement to provide full updating information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H (21 CFR 314.1(c)). In addition, on or before December 9, 1981, the holder of the application has submitted either evidence demonstrating the in vivo bioavailability of the drug or information to permit waiver of the requirement.

b. Approval of an abbreviated new drug application (21 CFR 314.1(f)) containing full information with respect to items 6 (components), 7 (composition), and 8 (methods, facilities, and controls) of new drug application form FD-356H must be obtained before marketing such a product. The bioavailability regulations (21 CFR 320.21) require any person submitting an abbreviated new drug application after July 7, 1977, to include evidence demonstrating the in vivo bioavailability of the drug or information to permit waiver of the requirement. Marketing before approval of an abbreviated new drug application will subject such products, and those persons who caused the products to be marketed, to regulatory action.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053 as amended (21 U.S.C. 355)), and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70).

Dated: February 12, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17410 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 80N-0431]

Oxymorphone Hydrochloride Rectal Suppositories; Drugs for Human Use; Drug Efficacy Study Implementation; Revocation of Exemption

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice revokes the temporary exemption for continued marketing of oxymorphone hydrochloride suppositories. The exemption is no longer needed because the question of the drug's effectiveness has been resolved. The 5-milligram product has been classified as effective and the 2-milligram product has been classified as lacking substantial evidence of effectiveness. Under the exemption, the drug was allowed to remain on the market for continued study beyond the time limit scheduled for implementation of the Drug Efficacy Study.

EFFECTIVE DATE: June 12, 1981.

FOR FURTHER INFORMATION CONTACT: Herbert Gerstenzang, Bureau of Drugs (HFD-32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301-443-3650.

SUPPLEMENTARY INFORMATION: In notices appearing elsewhere in this issue of the **Federal Register**, the Director of the Bureau of Drugs is reclassifying 5-milligram oxymorphone hydrochloride suppositories to effective for use in the relief of moderate to severe pain, reclassifying 2-milligram oxymorphone suppositories to lacking substantial evidence of effectiveness, and proposing to withdraw approval of that part of the new drug application pertaining to the 2-milligram suppositories.

These products have been allowed to remain on the market beyond the time limit established for implementing the Drug Efficacy Study (DES) on the condition that the manufacturer undertake additional clinical studies to determine the products' effectiveness. The temporary exemption to permit continued marketing as exempt category V was announced in a notice published in the **Federal Register** of December 14, 1972 (37 FR 26623).

The agency has reviewed data that the manufacturer submitted and the question of the products' effectiveness has now been resolved. Therefore, the temporary exemption granted by the December 14, 1972 notice, as it pertains to the following products in the Drug Efficacy Study, is hereby revoked.

NDA 11-738; Numorphan Hydrochloride Rectal Suppositories containing 2 milligrams

or 5 milligrams oxymorphone hydrochloride: Endo Laboratories, 1000 Stewart Ave., Garden City, NY 11530.

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053 as amended (21 U.S.C. 352, 355)) and under authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70).

Dated: February 12, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17411 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

[Docket No. 78N-0279]

Oytocin Citrate Buccal Tablets; Rescission of Proposal To Withdraw Approval of New Drug Application; Requirement for Labeling Directed To the Physician

AGENCY: Food and Drug Administration (FDA).

ACTION: Notice.

SUMMARY: this notice announces that oxytocin citrate buccal tablets have been evaluated as safe and effective for use in the induction of labor and treatment of hypotonic uterine contractions. Previously FDA had proposed to withdraw approval of the drug on the ground that it was not shown to be safe. New studies submitted by the sponsor have established the safety of the drug. Nevertheless, FDA is requiring that holders of approved new drug applications submit supplements to provide for revised physician labeling which says that oxytocin citrate buccal tablets are indicated for the medical rather than the elective induction of labor.

DATE: Supplements to approved new drug applications due August 11, 1981.

ADDRESSES: Supplements to new drug applications (identify with NDA number): Division of Metabolism and Endocrine Drug Products (HFD–130), Rm. 14B–04, Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

Reguests for opinion of the applicability of this notice to a specific product: Division of Drug Labeling compliance (HFD–310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: David T. Read, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3650.

SUPPLEMENTARY INFORMATION: In a notice published in the **Federal Register** of December 15, 1978 (43 FR 58634), the Director of the Bureau of Drugs announced an opportunity for hearing on a proposal to withdraw approval of the new drug applications for Tocosamine Sterile Solution, Spartocin Injection (NDA's 12–374 and 13–211, both containing sparteine sulfate), and Pitocin Citrate Buccal Tablets (NDA 13–508, containing oxytocin Citrate). Pitocin citrate Buccal Tablets were not in the DESI review, having been approved for marketing after the Drug Amendments of 1962. Only the manufacturer of Pitocin Citrate Buccal Tablets (Parke-Davis, Division of Warner-Lambert Co., Morris Plains, NJ 07950) filed a written notice of appearance and request for a hearing. Consequently, FDA published a notice on August 7, 1979, withdrawing approval of the NDA's of the two sparteine sulfate drugs (44 FR 46316). The notice of August 7, 1979, did not apply to NDA 13–508.

FDA has evaluated the data submitted by Parke-Davis on February 13, 1979, as establishing the safety of buccal oxytocin. The data submitted showed no significant difference between buccal oxytocin and intravenous oxytocin (approved as safe administration of oxytocin) in rate of decay of uterine activity after withdrawal of oxytocin, or in side effects to mother or fetus. Accordingly, those portions of the December 15, 1978 notice of opportunity for hearing applying to oxytocin buccal tablets or NDA 13–508 are rescinded.

The FDA Fertility and Maternal Health Drugs Advisory Committee has concluded that because the buccal and intravenous routes of administration are of comparable safety, the restrictions for the use of buccal pitocin should be the same as those for intravenous administration.

The physician labeling for Oxytocin Injection is required to include the following boxed warning.

EXPERT NOTICE

(Name of Drug) is indicated for the medical rather than the elective induction of labor. Available data and information are inadequate to define the benefit-to-risk considerations in the use of the drug product for elective induction. Elective induction of labor is defined as the initiation of labor for convenience in a patient with a term pregnancy who is free of medical indications.

This boxed warning is now also required for buccal tablet preparations of oxytocin. Holders of approved new drug applications for oxytocin citrate buccal tablets shall submit supplements on or before (*insert date 60 days after date of publication in the* **Federal Register**) to provided for the placement of the above boxed warning at the beginning of physician labeling and any other changes necessary to make the text of the physician labeling consistent with the above boxed warning. Marketing of such drug products that are now the subject of an approved new drug application may be continued provided that a supplement for revised labeling in accord with this notice is submitted on or before (*insert date 60 days after date of publication in the* **Federal Register**).

This notice is issued under the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–1053, as amended (21 U.S.C. 352, 355)) and under the authority delegated to the Director of the Bureau of Drugs (21 CFR 5.70).

Dated: February 27, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17403 Filed 6-11-81; 10:27 am]

BILLING CODE 4110-03-M

[Docket No. 75N-0187; DESI 10837]

Pro-Banthine With Dartal Tablets; Withdrawal of Approval of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: This notice withdraws approval of the new drug application (NDA 11–368) for Pro-Banthine with Dartal Tablets containing probantheline bromide and thiopropazate hydrochloride. The basis of the withdrawal is that the drug product lacks substantial evidence of effectiveness. The product has been used as an adjunct in the treatment of peptic ulcer.

EFFECTIVE DATE: June 22, 1981.

ADDRESS: Requests for opinion of the applicability of this notice to a specific product should be identified with the reference number DESI 10837 and directed to the Division of Drug Labeling Compliance (HFD–310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

FOR FURTHER INFORMATION CONTACT: J. Peeler, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–433–3650.

SUPPLEMENTARY INFORMATION: In a notice of opportunity for hearing

published in the Federal Register of February 28, 1978 (43 FR 8185), the Director of the Bureau of Drugs proposed to issue an order withdrawing approval of the new drug application for Pro-Banthine with Dartal Tablets containing probantheline bromide and thiopropazate hydrochloride. In response to the notice, G. D. Searle & Co. requested a hearing, but later withdrew the request. Approval of the following new drug application is now being withdrawn.

NDA 11-368; Pro-Banthine with Dartal, containing probantheline bromide and thiopropazate hydrochloride; Searle Laboratories, Division of G. D. Searle & Co., Box 5100, Chicago, IL 60680.

Any drug product that is identical, related, or similar to the drug product named above and that is not the subject of an approved new drug application is covered by the new drug application reviewed and is subject to this notice (21 CFR 310.6). Any person who wishes to determine whether a specific product is covered by this notice should write to the Division of Drug Labeling Compliance at the address given above.

The Director of the Bureau of Drugs, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053, as amended (21 U.S.C. 355)), and under the authority delegated to him (21 CFR 5.82) finds that, on the basis of new information before him with respect to the product, evaluated together with the evidence available to him when the application was approved, there is a lack of substantial evidence that the drug product will have the effect it purports or is represented to have under the conditions of use prescribed, recommended, or suggested in its labeling. Therefore, pursuant to the foregoing finding, approval of NDA 11-368 and all amendments and supplements applying thereto is withdrawn effective June 22, 1981.

Shipment in interstate commerce of the above products or of any identical, related, or similar product that is not the subject of an approved new drug application will then be unlawful.

Dated: March 23, 1981.

J. Richard Crout,

Director, Bureau of Drugs.

[FR Doc. 81-17406 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

Request for Nominations for Voting Members on Public Advisory Committees or Panels

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) requests nominations for voting members to serve on certain public advisory committees or panels of the Bureau of Medical Devices. Nominations will be accepted for current vacancies and those that will or may occur during the next 12 months. FDA has a special interest in ensuring that women, minority groups, and the physically handicapped are adequately represented on advisory committees and, therefore, extends particular encouragement to nominations for appropriately qualified female, minority, and physically handicapped candidates.

DATES: Because scheduled vacancies occur on various dates throughout each year, no cutoff date is established for the receipt of nominations. However, when possible, nominations should be received at least 4 months before the date of scheduled vacancies for each year, as indicated in this notice.

ADDRESS: All nominations and curricula vitae for the voting members of the respective advisory committee or panel must be sent to: Kay A. Levin, Bureau of Medical Devices (HFK-50), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7076.

FOR FURTHER INFORMATION CONTACT:

For Device Good Manufacturing Practice Advisory Committee: Lincoln I. Gluscevich, Bureau of Medical Devices (HKF-132), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-427-7194.

For Medical Devices Panels and Sections: Mary Jo Lyons, Bureau of Medical Devices (HFK-401), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301-472-7445.

SUPPLEMENTARY INFORMATION: FDA requests nominations for voting members as follows:

1. Device Good Manufacturing Practice Advisory Committee:
   a. Health Professional 1 vacancy 5/13/81
2. Circulatory System Devices Panel: 2 vacancies immediately; 1 vacancy 6/30/81
3. Surgical and Rehabilitation Devices Panel:
   a. General and Plastic Surgery Device Section: 4 vacancies 8/31/81
   b. Orthopedic Device Section: 1 vacancy immediately
   c. Physical Medicine Device Section: 2 vacancies immediately; 1 vacancy 8/31/81
4. Ophthalmic; Ear, Nose, and Throat; and Dental Devices Panel:
   a. Ophthalmic Device Section: 2 vacancies 10/31/81
   b. Ear, Nose, and Throat Device Section: 4 vacancies 10/31/81
   c. Dental Device Section: 2 vacancies immediately; 1 vacancy 10/31/81
5. Respiratory and Nervous Systems Devices Panel:
   a. Anesthesiology Device Section: 2 vacancies immediately; 3 vacancies 11/30/81
   b. Neurological Device Section: 1 vacancy immediately; 2 vacancies 11/30/81
6. General Medical Devices Panel:
   a. General Hospital and Personal Use Device Section; 2 vacancies immediately; 3 vacancies 12/31/81
   b. Gastroenterology and Urology Device Section: 1 vacancy immediately; 3 vacancies 12/31/81
7. Obstetrics-Gynecology and Radiologic Devices Panel:
   a. Radiology Device Section: 2 vacancies immediately; 2 vacancies 1/31/82
8. Clinical Chemistry and Hematology Devices Panel:
   a. Clinical Chemistry Device Section: 2 vacancies immediately
   b. Clinical Toxicology Device Section: 3 vacancies immediately; 1 vacancy 2/28/82
   c. Hematology and Pathology Device Section: 2 vacancies immediately; 1 vacancy 2/28/82
9. Immunology and Microbiology Devices Panel:
   a. Immunology Device Section: 2 vacancies immediately
   b. Microbiology Device Section: 3 vacancies immediately; 2 vacancies 2/28/82

Device Good Manufacturing Practice Advisory Committee

In accordance with the Medical Device Amendments of 1976 (Pub. L. 94-295), the function of the Device Good Manufacturing Practice Advisory Committee is to review regulations proposed for promulgation regarding good manufacturing practices governing the methods used in, and the facilities and controls used for, the manufacture, packing, storage, and installation of devices, and make recommendations to the Commissioner of Food and Drugs regarding the feasibility and reasonableness of those proposed regulations. The committee also advises the Commissioner with regard to exemptions or variances from good manufacturing practice regulations.

Medical Devices Panels

The functions of the medical devices panels and sections are to (1) review and evaluate available data concerning the safety and effectiveness of medical devices currently in use, (2) advise the Commissioner of Food and Drugs regarding recommended classification of these devices into one of three regulatory categories, (3) recommend the assignment of a priority for the application of regulatory requirements for devices classified in the standards or premarket approval category, (4) advise

on any possible risks to health associated with the use of devices. (5) advise on formulation of product development protocols and review premarket approval applications for those devices classified in the premarket approval category, (6) review classification of devices to recommend changes in classification as appropriate, (7) recommend exemption to certain devices from the application of portions of the act, (8) advise on the necessity to ban a device, and (9) respond to requests from the agency to review and make recommendations on specific issues or problems concerning the safety and effectiveness of devices.

Qualifications

Persons nominated for the health professional vacancy on the Device Good Manufacturing Practice Advisory Committee should have expertise in any one or more of the following areas: quality assurance concerning manufacturing of medical devices and/or sterilization of medical devices during the manufacturing process. Persons nominated for membership on this committee as well as the medical devices panels or sections shall have adequately diversified experience appropriate to the work of the committee, panel, or section in such fields as clinical and administrative medicine, engineering, biological and physical sciences, and other related professions. The nature of specialized training and experience necessary to qualify the nominee as an expert suitable for appointment may include experience in medical practice, teaching, and/or research relevant to the field of activity of the committee, panel, or section. The term of office is approximately 3 years.

Nomination Procedure

Any interested person may nominate one or more qualified persons for membership on one or more of the advisory committees, panels, or sections. Self nominations are also accepted. Nominations shall include a complete curriculum vitae of each nominee and shall state that the nominee is aware of the nomination, is willing to serve as a member, and appears to have no conflict of interest that would preclude membership. To permit evaluation of possible sources of conflict of interest, FDA will ask the potential candidates to provide detailed information concerning such matters as financial holdings, employment, and research grants and/or contracts.

This notice is issued under the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)) and 21 CFR Part 14, relating to advisory committees.

Dated: June 5, 1981.

William F. Randolph,

Acting Associate Commissioner for Regualtory Affairs.

[FR Doc. 81-17415 Filed 6-11-81; 8:45 am]

BILLING CODE 4110-03-M

Request for Nominations for Representatives of Consumer and Industry Interests on Public Advisory Committees or Panels

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) invites nominations for consumer and industry representatives to serve on certain public advisory committees or panels of the Bureau of Medical Devices. Nominations will be accepted for current vacancies and for those that will or may occur during the next 12 months. FDA has a special interest in ensuring that women, minority groups, the physically handicapped, and small businesses are adequately represented on advisory committees and, therefore, extends particular encouragement to nominations for appropriately qualified female, minority, and physically handicapped candidates, and nominations from small businesses that manufacture medical devices subject to the regulations.

DATE: Nominations should be received by July 13, 1981, for vacancies listed in this notice.

ADDRESS: All nominations and curricula vitae for consumer representatives must be submitted in writing to the Associate Commissioner for Consumer Affairs (HFE–1), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. All nominations and curricula vitae for industry representatives must be submitted in writing to Kay A. Levin, Bureau of Medical Devices (HFK–50), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910.

FOR FURTHER INFORMATION CONTACT: For Consumer Interests: Naomi Kulakow, Office of Consumer Affairs (HFE–40), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–5006. For Industry Interests: Mary Jo Lyons, Bureau of Medical Devices (HFK–401), Food and Drug Administration, 8757 Georgia Ave., Silver Spring, MD 20910, 301–427–7445.

SUPPLEMENTARY INFORMATION: FDA requests nominations for members representing consumer and industry interests for the following committee, panels or sections:

Committee, panel/section	Approximate date representative needed

Device Good Manufacturing Practice Advisory Committee

In accordance with the Medical Device Amendments of 1976 (Pub. L. 94–295, 90 Stat. 539–583), the function of the Device Good Manufacturing Practice Advisory Committee is to review regulations proposed for promulgation regarding good manufacturing practices governing the methods used in, and the facilities and controls used for, the manufacture, packing, storage, and installation of devices, and make recommendations to the Commissioner of Food and Drugs regarding the feasibility and reasonableness of those proposed regulations. The committee also advises the Commissioner with regard to exemptions or variances from good manufacturing practice regulations.

Medical Devices Panel

The functions of the medical devices panels and sections listed above are to (1) review and evaluate available data concerning the safety and effectiveness of devices currently in use (2) advise the Commissioner of Food and Drugs regarding recommended classification of these devices into one of three regulatory categories (3) recommend the assignment of a priority for the application of regulatory requirements

for devices classified in the standards or premarket approval category (4) advise on any possible risks to health associated with the use of devices, (5) advise on formulation of product development protocols and review premarket approval applications for those devices classified in the premarket approval category (6) review classification of devices to recommend changes in classification as appropriate (7) recommend exemption to certain devices from the application of portions of the act (8) advise on the necessity to ban a device, and (9) respond to requests from the agency to review and make recommendations on specific issues or problems concerning the safety and effectiveness of devices.

Consumer and Industry Representation

Section 513 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360c) provides that each medical device panel include as members one representative of consumer interests and one representative of interests of the device manufacturing industry. Each of the sections identified in this notice will also have a representative of consumer interests and representatives of industry interests. These representatives will be nonvoting members. Section 520 of the act (21 U.S.C. 360j) provides that the Device Good Manufacturing Practice Advisory Committee will have two members to represent the device manufacturing industry and two members to represent the general public. These four representatives will be voting rather than nonvoting members of the committee.

Nomination Procedure

Any interested person may nominate one or more qualified persons as a member of a particular advisory committee, panel, or section to represent consumer interests as identified in this notice. Any organization in the medical device manufacturing industry ("industry interests") wishing to participate in the selection of an appropriate member of a particular committee, panel, or section may nominate one or more qualified persons to represent industry interests. Persons who nominate themselves as industrial representatives are not included in the selection process. It is, therefore, recommended that all nominations be made by an organization or firm. Nominations shall include a complete curriculum vitae of each nominee and shall state that the nominee is aware of the nomination, is willing to serve as a member, and, in the case of consumer representative, appears to have no conflict of interest. The nomination should state whether the nominee is interested only in a particular advisory committee, panel, or section or in any advisory committee, panel, or section. The term of office is approximately 3 years.

Selection Procedure

The agency has instituted, on a trial basis, a new selection process for members representing consumer interests. This process temporarily replaces the procedures set out in 21 CFR 14.84(c). The voting groups that have previously elected consumer representatives have selected a consortium of consumer organizations. This consortium recommends two candidates to the agency, and agency staff makes the final selection.

Regarding nominations for members representing the interests of the device manufacturing industry, a letter will be sent to each organization that has made a nomination, and to those organizations indicating an interest in participating in the selection process, together with a complete list of all such organizations and the nominees. This letter will state that it is the responsibility of each organization to consult with the others in selecting a single member representing industry interests for that particular committee within 60 days after receipt of the letter.

This notice is issued under the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770–776 (5 U.S.C. App. I)) and 21 CFR Part 14, relating to advisory committees.

Dated: June 5, 1981.

William F. Randolph,

Acting Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

[Docket Nos. 75N-0139, 75N-0139F]

Wilzyme Tablets and Chymolase Tablets; Withdrawal of Approval of Parts of New Drug Application

AGENCY: Food and Drug Administration.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is withdrawing approval of those parts of Inolex Corporation's new drug application (NDA) that pertain to Wilzyme Tablets and Chymolas Tablets (NDA 12–724) because the holder of NDA failed to file a written notice stating its intent to participate in a formal evidentiary public hearing. The drug products have been used to control edema and inflammation associated with various disorders.

ADDRESS: Requests for an opinion on the applicability of this notice to a specific drug product should be directed to the Division of Drug Labeling Compliance (HFD–310), Bureau of Drugs, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857.

EFFECTIVE DATE: June 22, 1981.

FOR FURTHER INFORMATION CONTACT: Margery Erickson, Bureau of Drugs (HFD–32), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–443–3650.

SUPPLEMENTARY INFORMATION: In a notice (DESI 9955) published in the **Federal Register** of June 25, 1970 (35 FR 10393), following the evaluation of reports received from the National Academy of Sciences/National Research Council Drug Efficacy Study Group, FDA announced its conclusion that the oral proteolytic enzyme drug, Wilzyme, was "possibly effective" and "lacked substantial evidence of effectiveness," and that additional evidence was required to establish its effectiveness. In response to this notice, the manufacturer submitted data intended to establish effectiveness. After reviewing the data, the Director of the Bureau of Drugs, in a notice of opportunity for hearing published in the **Federal Register** of July 24, 1975 (40 FR 30995), concluded that Wilzyme and Chymolase (a preparation also provided for in NDA 12–724) lacked substantial evidence of effectiveness for all indications and proposed to withdraw approval of the new drug application.

In response to the notice of opportunity for hearing, the holder of the new drug application, Inolex Corporation (formerly Wilson Pharmaceutical and Chemical Corp.) 2600 Bond St., Park Forest South, Chicago, IL 60466, and the distributor for Chymolase, Warren-Teed Pharmaceuticals, Inc., subsidiary of Rohm & Haas Co., 582 W. Goodale St., Columbus, OH 43215, requested a hearing for Wilzyme and Chymolase.

In a **Federal Register** notice of December 21, 1979 (44 FR 75718), FDA ordered a formal evidentiary hearing for the drugs because there were questions of fact requiring resolution. However, not one filed a notice of participation on behalf of Wilzyme or Chymolase. Accordingly, in the **Federal Register** of February 20, 1981 (46 FR 13374), FDA issued a notice withdrawing approval of that part of NDA 12–724 pertaining to Chymolase Tablets for failure of the holder of the NDA to file a written notice of intent to participate in the hearing. Inadvertently, the notice did not include that part of NDA 12–724

pertaining to Wilzyme Tablets and incorrectly referred to Warren-Teed as the holder of NDA 12-724. Therefore, the notice of February 20, 1981, is amended to announce the withdrawal of approval of those parts of Inolex Corporation's NDA 12-724 pertaining to both Wilzyme and Chymolase.

FDA has determined that approval of Inolex Corporation's NDA should be withdrawn as it relates to Wilzyme and Chymolase because (1) there is a lack of substantial evidence that Wilzyme Tablets and Chymolase Tablets have the effects they are represented to have under the conditions of use prescribed, recommended, or suggested in their labeling; (2) there is a lack of substantial evidence that each component of Wilzyme Tablets and Chymolase Tablets, both combination products, contributes to the total effects claimed; and (3) Inolex Corp. and Warren-Teed Pharmaceuticals, Inc., failed to file a written notice of intent to participate in the hearing which was the subject of the December 21, 1979 notice.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 505, 52 Stat. 1052-1053 as amended (21 U.S.C. 355)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 5.1), approval of those parts of NDA 12-724 pertaining to Wilzyme Enteric-Coated Tablets and Chymolase Enteric-Coated Tablets is withdrawn, effective June 22, 1981. Approval of all parts of NDA 12-724 has now been withdrawn.

Dated: June 3, 1981.

Joseph P. Hile,

Associate Commissioner for Regulatory Affairs.

BILLING CODE 4110-03-M

National Institutes of Health

Cellular and Molecular Basis of Disease Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Cellular and Molecular Basis of Disease Review Committee, National Institute of General Medical Sciences, on June 29-30, 1981, at the Chevy Chase Holiday Inn, Lobby Conference Room, Chevy Chase, Maryland.

This meeting will be open to the public on June 29, 1981, from 8:30 a.m. until 10:00 a.m. for background information and discussion of issues relevant to the National Institute of General Medical Sciences and its National Research Service Award training activities and research programs. Attendance by the public will be limited to space available.

In accordance with provisions set forth in Section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on June 29, 1981, from 10:00 a.m. until 6:00 p.m. and on June 30, 1981, from 8:30 a.m. until adjournment for the review, discussion, and evaluation of individual grant applications. These applications and discussions could reveal personal information concerning individuals associated with the applications, disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Ms. Ellen Casselberry, Public Information Officer, National Institute of General Medical Sciences, National Institutes of Health, Room 9A10, Westwood Building, Bethesda, Maryland 20205 (Telephone: 301/496-7301) will provide a summary of the meeting and a roster of committee members.

Dr. Carl D. Rhodes, Executive Secretary, Cellular nad Molecular Basis of Disease Review Committee, NIGMS, National Institutes of Health, Room 950, Westwood Building, Bethesda, Maryland 20205 (Telephone: 301/496-7125) will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13-863, Cellular and Molecular Basis of Disease Research)

Note.—NIH programs not covered by OMB Circular A-95 because they fit the description of "programs not considered appropriate" in section 8(b)(4) and (5) of that Circular.

Dated: June 2, 1981.

Thomas E. Malone,

Deputy Director, National Institutes of Health.

BILLING CODE 4110-08-M

Research Manpower Review Committee; Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Research Manpower Review Committee, National Heart, Lung, and Blood Institute, June 22, 1981, National Institutes of Health, 9000 Rockville Pike, Building 31, Conference Room 8, Bethesda, Maryland 20205.

This meeting will be open to the public on June 22, from 8:00 a.m. to approximately 8:30 a.m. to discuss administrative detals and to hear reports concerning the current status of the National Heart, Lung, and Blood Institute. Attendance by the public is limited to space available.

In accordance with the provisions set forth in section 552b(c)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on June 22 from 8:30 a.m until adjournment on June 22 for the review, discussion, and evaluation of individual grant applications. These applications and the discussions could reveal personal information concerning individuals associated with the applications, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. York E. Onnen, Chief, Public Inquiries and Reports Branch, National Heart, Lung, and Blood Institute, Building 31, Room 4A21, National Institutes of Health, Bethesda, Maryland 20205, phone (301) 496-4236, will provide summaries of the meeting and rosters of the committee members.

Dr. Charles L. Turbyfill, Executive Secretary, National Heart, Lung, and Blood Institute, Westwood Building, Room 553, National Institutes of Health, Bethesda, Maryland 20205, phone (301) 496-7351, will furnish substantive program information.

Dated: June 2, 1981.

Thomas E. Malone,

Deputy Director, National Institutes of Health.

BILLING CODE 4110-08-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of the Secretary

[Docket No. N-81-1070]

Privacy Act of 1974; New System of Records

AGENCY: Department of Housing and Urban Development.

ACTION: Notification of new system of records.

SUMMARY: The Department is giving notice of a new system of records it intends to maintain which is subject to the Privacy Act of 1974.

EFFECTIVE DATE: The system shall become effective without further notice on July 13, 1981 unless comments are

received on or before that date which would result in a contrary determination.

ADDRESS: Rules Docket Clerk, Room 5218, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

FOR FURTHER INFORMATION CONTACT: Robert English, Departmental Privacy Act Officer, Telephone 202–755–5333. This is not a toll free number.

SUPPLEMENTARY INFORMATION: The system is Home Repair Service for the Elderly: Baltimore Sample Data File which will contain information about sample individuals contacted or attempted to be contacted in the first wave of this study in the summer of 1979. The purpose for establishing the system of records is to undertake a second wave of interviewing and home repair observations using a longitudinal panel research design that allows the analysis of change over time. The purpose of this second wave of data collection is to evaluate the long-term effects of participation in a subsidized home maintenance program on the state of repair of the housing stock and the well-being of the residents. The specific objectives include: (1) evaluating the effects of the Home Maintenance Program on the state of repair of elderly homeowners' housing units; (2) evaluating the effects of the program on the personal well-being of elderly homeowners; (3) evaluating the effects of the program on repair and maintenance decisions; (4) examining participants' evaluations of specific features of the Home Maintenance Program. All of the information analyzed and reported will be representative of the groups of participants and non-participants and not of any specific individuals. Appendix A, which lists the addresses of HUD's Offices, was published at 45 FR 67626 (October 10, 1980). A new system report was filed with the Speaker of the House, the President of the Senate, and the Office of Management and Budget on April 28, 1981.

HUD/PD&R–10

System name:

Home Repair Service for the Elderly: Baltimore Sample Data File.

System location:

Institute for Social Research, The University of Michigan, Ann Arbor, Michigan 48106.

Categories of individuals covered by the system:

Elderly homeowners who are participating in the Baltimore Home Maintenance Project and a control sample of elderly homeowners in Baltimore who are not participating in the Baltimore Home Maintenance Project.

Categories of records in the system:

The files will contain the following information on some, or all, of the sample points: street address, Zip Code, telephone number, name of eligible sample member, identification link to the interview, and observation information such as family structure, health status, dwelling unit condition, and repair needs.

Authority for maintenance of the system:

Title V of the Housing and Urban Development Act of 1970, as amended, Sections 501 and 502.

Routine uses of records maintained in the system including categories of users and the purposes of such uses:

To HUD contractor—for program evaluation.

Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the system:

Storage:

In file folders and on magnetic tape/disk/drum.

Retrievability:

Name, address, telephone number.

Safeguards:

Manual files will be kept in lockable cabinets in a secured area; computer records will be maintained in a separate secured area. Access to either type of record will be limited to authorized personnel.

Retention and disposal:

Personal identifiers will be destroyed after data have been collected and unified. Retention and disposal shall be in accordance with HUD Handbook 2225.6.

System manager(s) and address:

Director, Division of Housing Management and Special Users Research, TRS, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Notification procedure:

For information, assistance, or inquiry about existence of records, contact the Privacy Act Officer at the Headquarters location, in accordance with 24 CFR Part 16. This location is given in Appendix A.

Record access procedures:

The Department's rules for providing access to records to the individual concerned appear in 24 CFR Part 16. If additional information or assistance is required, contact the Privacy Act Officer at Headquarters. This location is given in Appendix A.

Contesting record procedures:

The Department's rules for contesting the contents of records and appealing initial denials, by the individual concerned, appear in 24 CFR Part 16. If additional information or assistance is needed, it may be obtained by contacting: (i) In relation to contesting contents of records, the Privacy Act Officer at the Headquarters location. This location is given in Appendix A. (ii) In relation to appeals of initial denials, the HUD Departmental Privacy Appeals Officer, Office of General Counsel, Department of Housing and Urban Development, 451 Seventh Street, S.W., Washington, D.C. 20410.

Record source categories:

Subject individuals, Professional Assessment Committee, Project Managers.

Authority: 5 U.S.C. 552a, 88 Stat. 1896; Sec. 7(d), Department of HUD Act (42 U.S.C. 3535(d)).

Issued at Washington, D.C., June 5, 1981.

Albert J. Kliman,

Acting Deputy Assistant Secretary for Administration.

[FR Doc. 81-17517 Filed 6-11-81; 8:45 am]

BILLING CODE 4210-01-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Int NOI]

Ellis-Pahsimeroi; Grazing Environmental Impact Statement

AGENCY: Bureau of Land Management (BLM), Interior.

ACTION: Notice of intent to prepare and consider an environmental impact statement (EIS) and invitation for public participation (scoping).

SUMMARY: Pursuant to Section 102(2)(C) of the National Environmental Policy Act of 1969, the BLM will prepare and consider an EIS for proposed grazing management in the Ellis-Pahsimeroi Planning Unit in central Idaho. All affected Federal, State and local agencies; affected organizations and

individuals and interested people are invited to participate in preparation of the EIS.

DATE: Two open houses will be held at the Salmon BLM District Office in Salmon, Idaho from 7 p.m. to 9 p.m. on June 24, 1981 and at the American Legion Hall in Challis, Idaho from 7 p.m. to 9 p.m. on June 25, 1981. Written comments may be submitted at the open house or mailed to the Salmon District Office no later than July 6, 1981.

ADDRESS: Comments should be sent to: District Manager, Ellis-Pahsimeroi EIS, Salmon District Office, P.O. Box 430, Salmon, Idaho 83467.

FOR FURTHER INFORMATION CONTACT: Jerry Wilfong, EIS Team Leader, Salmon District Office, P.O. Box 430, Salmon, Idaho 83467.

SUPPLEMENTARY INFORMATION: The Salmon District will prepare an EIS on the allocation of available forage on approximately 380,500 acres of public lands located in Custer and Lemhi Counties in central Idaho.

The proposed action will be based on multiple-use recommendations that were developed in the land use plan (Management Framework Plan) for the Ellis-Pahsimeroi Planning Unit. The multiple-use recommendations provide direction for maintaining and improving the vegetation, wildlife, soils and water resources by (1) adjusting livestock grazing to the inventoried carrying capacity, (2) implementing changes in grazing systems where deemed necessary, and (3) constructing additional range management facilities and conducting vegetation manipulations on selected areas.

Known alternatives to the proposed action which will be analyzed in the EIS are:

1. No change or continuation of the present grazing systems and levels of livestock use.
2. No grazing or complete removal of all livestock from public lands.
3. Maximum livestock utilization or grazing at a higher level than the proposed action and existing preference. No allocation of forage for wildlife or other uses.
4. Optimize wildlife and nonconsumptive uses or grazing at a lower level than the proposed action. Maximum allocation of forage for wildlife and nonconsumptive uses. Livestock allocations held at or below the existing preference.

A scoping process will be conducted in order to determine the significant issues to be analyzed in depth and to eliminate the less significant issues from detailed study. This scoping process will include a review of public comments and suggestions already received, a specific request by mail to interested parties for additional suggestions, and two open houses. Handouts for the open houses will include a draft of the proposed action and alternatives. All participants will be encouraged to identify significant issues or additional issues or additional alternatives which should be addressed in the EIS.

Jerry W. Goodman,

Acting District Manager.

[FR Doc. 81-17419 Filed 6-11-81; 8:45 am]

BILLING CODE 4310-84-M

South Dakota; Redelegation of Authority

June 5, 1981.

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: Section 3.1 and Section 3.6(m) of Bureau Order 701, as amended, authorize District Managers to redelegate their authority over oil and gas exploration operations within their jurisdiction.

Said authority, to the extent described below, is hereby redelegated to the detached South Dakota Resource Area Headquarters in Belle Fourche for well-drilling activities on Federal oil and gas leases in South Dakota:

1. Verifying existence and content of lease stipulations.
2. Granting staking permission to operator.
3. Representing Bureau of Land Management at on-site inspections prior to drilling and all subsequent inspections.
4. Preparing and signing stipulation memos to USGS regarding surface protection measures for Applications For Permit To Drill and Sundry Notices.
5. Conducting compliance inspections and preparing appropriate file documentation.
6. Providing environmental assessment information to USGS upon request.
7. Maintaining official case files.
8. Short-term temporary road rights-of-way issued for a period of not more than two years.

EFFECTIVE DATE: This redelegation will become effective July 13, 1981.

FOR FURTHER INFORMATION CONTACT: Montana State Office, 222 North 32nd Street, P.O. Box 30157, Billings, Montana 59107 (406)657-6291.

Michael J. Penfold,

State Director.

BILLING CODE 4310-84-M

Utah; Notice of Invitation To Participate in Coal Exploration Program-Northwest Carbon Corp.

June 4, 1981.

Northwest Carbon Corporation, a wholly-owned subsidiary of Northwest Energy Company, is inviting all qualified parties to participate in a program for the exploration of coal reserves on Tie Fork, near Hiawatha, Utah. The lands are located in Emery County, Utah and are described as follows:

T. 15 S., R. 7 E., SLM, Utah,
Sec. 34, all.
T. 16 S., R. 7 E., SLM, Utah,
Sec. 1, W½;
Sec. 2, all.
Containing 1,577.40 acres.

Any party electing to participate in this exploration program must send written notice of such election to the Bureau of Land Management, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111, and to Mr. Peter Matthies, Vice President, Northwest Carbon Corporation, P.O. Box 1526, Salt Lake City, Utah 84110. Such written notice must be received on or before July 13, 1981.

Any party wishing to participate in this exploration program must be qualified to hold a lease under the provisions of 43 CFR 3472.1 and must share all costs on a pro rata basis. A copy of the exploration plan as submitted by Northwest Carbon Corporation, is available for public review during normal business hours, in the following office, under Serial No. U-48658: Bureau of Land Management, Room 1400, University Club Building, 136 East South Temple, Salt Lake City, Utah 84111.

Robert E. Anderson,

Chief, Division of Technical Services.

BILLING CODE 4310-84-M

Issues of Concern and EIS Team Challis Wilderness Amendment

Notice is hereby given that the following Issues of Concern relating to a Wilderness Suitability Amendment to the Challis Management Framework Plan (MFP) have been identified through public comments received.

Issues of Concern

Identified wilderness issues are:

(1) Idaho has an oversupply of existing wilderness and does not need any more.

(2) The possible effect of wilderness designations on existing uses—i.e. grazing, hunting, ORV, mining, etc.

(3) Wilderness designations are perceived as "locking-up" public land areas and mineral resources.

(4) The BLM and Forest Service should jointly study their Boulder Creek units for wilderness suitability.

(5) Potential wilderness areas are being impaired by unregulated vehicle (ORV) use.

(6) There is a need for lands designated as wilderness to offset lands being developed.

(7) Public lands should be opened to multiple use and development to offset areas designated as wilderness.

(8) How can wildlife best be managed—wilderness or non-wilderness?

Environmental Impact Statement Team

A category II MFP Amendment requiring an Environmental Impact Statement (EIS) will now be written to formulate recommendations as to wilderness suitability or non-suitability of the four wilderness study areas involved and to respond to the issues identified.

The following EIS Team has been identified:

Dave Wolf—Team Leader—Recreation, Wilderness
Brad Keller—Wildlife
Bill Osborne—Range
Lamar Taylor—Range
Ben Garechana—Wild Horse
Dave Douglas—Geology, Minerals
Don Simpson—Lands
Nancy Vaughan—Archeology

Future notices will be given as the draft and final E.I.S. documents are available for review.

For more information contact: District Manager, Salmon District, BLM, P.O. Box 430, Salmon, Idaho 83467, 208–756–2201.

Dated: June 5, 1981

Jerry W. Goodman,

Acting District Manager.

BILLING CODE 4310-84-M

Bureau of Reclamation

Allen Camp Unit, Pit River Division, Central Valley Project, California; Notice of Intent To Prepare an Environmental Statement: Withdrawal

The Bureau of Reclamation published a Notice of Intent to Prepare an Environmental Statement on the Allen Camp Unit, Pit River Division, Central Valley Project, California on April 23, 1979. Because the proposed project was not economically feasible, the investigation was terminated and a concluding report was released to the public on May 27, 1981. Since the investigation has been terminated we are withdrawing the notice of intent and do not plan to prepare an environmental statement.

Dated: June 8, 1981.

Clifford I. Barrett,

Assistant Commissioner.

[FR Doc. 81-17398 Filed 6-11-81; 8:45 am]

BILLING CODE 4310-09-M

Contract Negotiations With the Hidalgo County Water Improvement District No. 5, Progreso, Tex.; Intent To Negotiate an Amendatory Loan Escalation Repayment Contract

The Department of the Interior, through the Bureau of Reclamation, intends to enter negotiations with the Hidalgo County Water Improvement District No. 5 (district), Progreso, Texas, to amend its Small Reclamation Projects Act loan repayment contract. The proposed amendatory contract covering cost escalation will be prepared pursuant to the Small Reclamation Projects Act of 1956 (Public Law 984, 84th Congress, 70 Stat. 1044), as amended, and other Reclamation law provisions.

The original contract between the district and the United States was executed on September 27, 1976, in the amount of $3,850,000; however, recent inflationary trends have caused construction costs to escalate to the extent that an additional $1 million is needed to complete project construction. The proposed amendatory contract will obligate the district to repay the total cost of the loan to the United States during a repayment period which will be negotiated. Negotiations must be completed before loan funds can be expended.

All meetings scheduled by the Bureau with the district for the purpose of discussing terms and conditions of the proposed amendatory contract shall be open to the general public as observers. Advance notice of meetings shall be furnished only to those parties having previously furnished a written request for such notice to the office identified below at least 1 week prior to any meetings. All written correspondence concerning the proposed amendatory contract shall be made available to the general public pursuant to the terms and procedures of the Freedom of Information Act (80 Stat. 383), as amended.

The public is invited to submit written comment on the form of the proposed contract not later than 30 days after the completed draft is declared available to the public. Unless significant interest is evidenced in the negotiations, the availability of the contract for public review and comment will not be publicized.

Written comments and requests for information concerning these contract negotiations should be directed to Mr. William E. Berg, Jr., Repayment and Economics Branch, Bureau of Reclamation, 714 South Tyler, Suite 201, Amarillo, Texas 79101, telephone (806) 378–5430.

Dated: June 5, 1981.

Aldon D. Nielsen,

Acting Assistant Commissioner, Bureau of Reclamation.

BILLING CODE 4310-09-M

INTERSTATE COMMERCE COMMISSION

[Volume No. OPY-3-089]

Motor Carriers; Permanent Authority Decision; Decision-Notice

Decided: June 5, 1981.

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of an application, together with applicant's supporting evidence, can be obtained from any applicant upon request and

payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

By the Commission, Review Board Number 2, Members Carleton, Fisher, and Williams.

Agatha L. Mergenovich,

Secretary.

MC-F-14631, filed May 11, 1981. ROBERT L. McCOY (515 South Judgement Street, Shullsburg, WI 53586) and RAYMOND M. HANNA (1115 East Lincoln Street, Belvidere, IL 61008—(Individuals)—CONTINUANCE IN CONTROL—G.M.C. MOTOR TRUCK SALES, INC.—LAND OVER TRANSPORTATION DIVISION—INITIAL COMMON CARRIER (P.O. Box 693, Dubuque, IA 52001). Representative: Carl L. Steiner, 39 South LaSalle Street, Chicago, IL 60603. Authority is sought by Robert L. McCoy (McCoy) and Raymond M. Hanna (Hanna) to continue in control of G.M.C. Motor Truck Sales, Inc Land Over Transportation Division, Dubuque, IA. McCoy and Hanna presently control Mc-Mor-Han Trucking Co., Inc., P.O. Box 368, Shullsburg, WI 53586, a motor common and contract carrier. The operating rights of Mc Mor Han Trucking Co., Inc., are contained in Certificate No. MC-136774 and Permit No. MC-143029. The Certificate authorizes the transportation of specified commodities over irregular routes between points in the U.S. In Permit No. MC-143029, it is authorized to transport specified commodities between points in the U.S., under continuing contracts with Eagle Picher Industries, Inc., of Reno, NV, Kraft, Inc., of Chicago, IL, Jewel Companies, Inc., of Melrose Park, IL, and Wis Pak, Inc., of Watertown, WI. Simultaneously, G.M.C. Motor Truck Sales, Inc.—Land Over Transportation Division has filed an application for a Certificate authorizing the transportation of *metal products* and *building materials,* between points in Jones County, IA, on the one hand, and, on the other, points in the U.S. The application, docketed as No. MC-155774, is published in this same **Federal Register** issue.

BILLING CODE 7035-01-M

[Volume No. OPY-3-090]

Motor Carriers; Permanent Authority Decision; Decision-Notice

Decided: June 5, 1981.

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action signficantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 2, Members Carleton, Fisher, and Williams.

[Docket No. AB–6 (Sub-94F)]

Burlington Northern, Inc.—Abandonment—Between Davis Spur and Ripley, MN; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that on June 3, 1981, the Commission issued a certificate authorizing Burlington Northern, Inc. to abandon its rail line between Davis Spur (milepost 133.97) and Camp Riley (mile post 114.02) in Crow Wing and Morrison Counties, MN, a total distance of 19.95 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979); and subject to the further condition that Burlington Northern shall keep intact all of the right-of-way underlying the track, including all the bridges and culverts, for a period of 120 days from this date to permit any State or local government agency or other interested party to negotiated the acquisition for public use of all or any portion of the right-of-way. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that;

(1) A financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) It is likely that:

(a) If a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) If a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the effectiveness of the abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, the abandonment certificate will become effective. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the effectiveness of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448) and 49 CFR 1121.38.

[Docket No. AB–6 (Sub-95)]

Burlington Northern Inc.—Abandonment—Between Barnesville and Downer, MN; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that on June 4, 1981, the Commission issued a certificate authorizing Burlington Northern Inc. to abandon its rail line between Barnesville (milepost 5.38) and Downer (milepost 9.09) in Clay County, MN a total distance of 3.71 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979); and subject to the further condition that Burlington Northern shall keep intact all of the right-of-way underlying the track, including all the bridges and culverts, for a period of 120 days from this date to permit any State or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of the right-of-way. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that:

(1) A financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) It is likely that:

(a) If a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) If a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days after publication of this Notice.

If the Commission makes the findings described above, the effectiveness of the abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, the abandonment certificate will become effective. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the effectiveness of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. BILLING CODE 7035–01–M

[Docket No. AB–18 (Sub-33) F]

Chesapeake and Ohio Railway Company—Abandonment—Between Manistee and Bay View and Between Traverse City and Rennies, MI; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a decision dated June 5, 1981, the Commission, Review Board Number 3, found that the public convenience and necessity require or permit abandonment by the Chesapeake and Ohio Railway Company of two lines of railroad specifically (a) the line of railroad extending between Valuation Station 133+00 (milepost 113.68) near Manistee and Valuation Station 19985+91 (milepost 247.98) at Bay View, a distance of 134.30 miles in the Counties of Manistee, Benzie, Grand Traverse, Kalkasa, Antrim, Charlevoix and Emmet, and (b) the line of railroad extending between Valuation Station

3784+44 (milepost 0.00) at Traverse City and Valuation Station 3638+00 (milepost 2.77) at Rennies, a distance of 2.77 miles in the Counties of Grand Traverse and Leelanau, a total distance of 137.07 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979); and the further requirement that the C&O shall keep intact all of the right-of-way, track bridges and drainage culverts for a period of 120 days to permit any state or local government agency or other interested persons to negotiate the acquisition for public use of all or any portion of this property. A certificate of abandonment will be issued permitting the abandonment unless within 15 days from the date of this publication the Commission also finds that:

(1) A financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) It is likely that:

(a) If a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) If a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the issuance of an abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions and amount of compensation, an abandonment certificate will be issued. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the issuance of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96-448) and 49 CFR 1121.38.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81-17429 Filed 6-11-81; 8:45 am]

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule 251 of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** on December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Applications may be protested *only* on the grounds that applicant is not fit, willing, and able to provide the transportation service or to comply with the appropriate statutes and Commission regulations. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the service proposed, and to conform to the requirements of Title 49, Subtilte IV, United States Code, and the Commission's regulation. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: June 5, 1981.

The following applications, filed on or after July 3, 1980, are governed by Special Rule 247 of the Commission's Rules of Practice, see 49 CFR 1100.247. Special rule 247 was published in the **Federal Register** of July 3, 1980, at 45 FR 45539.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.247(B). A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.gs., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirement oif Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed) appropriate authority will be issued to each applicant (except those with duly noted problems) upon compliance with certain requirements which will be set forth in a notice that the decision-notice is effective. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board Number 3, Members Krock, Joyce, and Dowell.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

MC 143594 (Sub-29), filed Jan. 29, 1981, previously published in the **Federal Register** issue of February 24, 1981. Applicant: NATIONAL BULK TRANSPORT, INC., P.O. Box 402535, Dallas, TX 75240. Representative: Patrick M. Byrne, P.O. Box 2298, Green Bay, WI 54306. Transporting *such commodities* as are dealt in or used by manufacturers and distributors of dispersing agents, between the facilities of Armak Pioneer Chemical Division, located at points in the U.S., on the one hand, and, on the other, points in U.S.

Note.—This republication modifies the commodity and territorial description.

BILLING CODE 7035–01–M

[Docket No. AB–125 (Sub-3F)]

Norfolk Southern Railway Co.—Abandonment—Between York and Clover, SC; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that on June 2, 1981, the Commission issued a certificate authorizing the Norfolk Southern Railway Company to abandon its rail line between York (milepost HG 26.7) and Clover (milepost HG 32.0) in York

County, SC, a total distance of 5.3 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91 (1979); and subject to the further condition that Norfolk Southern shall keep intact all of the right-of-way underlying the track, including all the bridges and culverts, for a period of 120 days from this date to permit any State or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of the right-of-way. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that:

(1) A financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) It is likely that:

(a) If a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) If a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the effectiveness of the abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, the abandonment certificate will become effective. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the effectiveness of ■ certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448) and 49 CFR 1121.38.

BILLING CODE 7035-01-M

[Ex Parte No. 311]

Expedited Procedures for Recovery of Fuel Costs

Decided: June 9, 1981.

In our recent decisions, an 18.5-percent surcharge was authorized on all owner-operator traffic, and on all truckload traffic whether or not owner-operators were employed. We ordered that all owner-operators were to receive compensation at this level.

The weekly figure set forth in the appendix for transportation performed by owner-operators and for truckload traffic is 18.3-percent. Accordingly, we are authorizing that the surcharge for this traffic remain at 18.5-percent. All owner-operators are to receive compensation at this level.

No change is authorized on the 2.1-percent surcharge for United Parcel Service. However, the surcharges on less-than-truckload (LTL) traffic performed by carriers not using owner-operators, and on bus carrier traffic is reduced to 3.1 and 6.8 percent, respectively.

Notice shall be given to the general public by mailing a copy of this decision to the Governor of each State and to the Public Utilities Commission or Boards of each State having jurisdiction over transportation, by depositing a copy in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy to the Director, Office of the Federal Register for publication therein.

It is ordered: This decision shall become effective Friday 12:01 a.m., June 12, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam. Commissioners Trantum and Gilliam were absent and did not participate.

Agatha L. Mergenovich,

Secretary.

Appendix.—*Fuel Surcharge*

Base date and price per gallon (including tax)

January 1, 1979 ..... 63.5¢

Date of current price measurement and price per gallon (including tax)

June 8, 1981 ..... 132.4¢

	Transportation performed by—			
	Owner-operator [1]	Other [2]	Bus carrier	UPS
	(1)	(2)	(3)	(4)
Average percent—fuel expenses (including taxes) of total revenue	16.9	2.9	6.3	3.3

	Transportation performed by—			
	Owner-operator [1]	Other [2]	Bus carrier	UPS
Percent surcharge developed	18.3	3.1	6.8	[3] 2.9
Percent surcharge allowed	18.5	3.1	6.8	[4] 2.1

[1] Apply to all truckload rated traffic.
[2] Including less-than-truckload traffic.
[3] The percentage surcharge developed for UPS is calculated by applying 81 percent of the percentage increase in the current price per gallon over the base price per gallon to UPS average percent of fuel expense to revenue figure as of January 1, 1979 (3.3 percent).
[4] The developed surcharge is reduced 0.8 percent to reflect fuel-related increases already included in UPS rates.

BILLING CODE 7035-01-M

Motor Carriers; Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings: With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher and Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Vol. OPY–4–186

Decided: June 8, 1981.

MC 59396 (Sub-35), filed May 28, 1981. Applicant: BUILDERS EXPRESS, INC., Access Road, Route 78, P.O. Box 5219, Clinton, NJ 08809. Representative: Morton E. Kiel, Suite 1832, 2 World Trade Center, New York, NY 10048. (212) 466–0220. Transporting *commodities in bulk*, between points in ME, VT, NH, MA, RI, CT, NY, NJ, DE, MD, VA, WV, PA, OH, and DC.

BILLING CODE 7035–01–M

[Volume No. 99]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice

Decided: June 8, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR Part 1137. Part 1137 was published in the **Federal Register** of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 2900 (Sub-447)X, filed May 19, 1981. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, P.O. Box 2408, Jacksonville, FL 32203. Representative: John C. Bradley, Suite 1301, 1600 Wilson Boulevard, Arlington, VA 22209. Applicant seeks to remove restrictions in its Sub-Nos. 296, 299, 346F, 370F, and 378, certificates to (1) remove all exceptions in its general commodities except Classes A and B explosives in each certificate; (2) allow service at all intermediate points between specified points in FL, GA, IL, IN, KY, MO, NC, OH, SC, and TX, in Sub-Nos. 299, 346F, and 378; and (3) remove restrictions in Sub-Nos. 296, 299, 346F, and 378 preventing transportation to and from certain geographic areas.

MC 111401 (Sub-619)X, filed May 4, 1981. Applicant: GROENDYKE TRANSPORT, INC., 2510 Rock Island Blvd., P.O. Box 632, Enid, OK 73701. Representative: Alvin J. Meiklejohn, Jr., 1600 Lincoln Center, 16660 Lincoln Street, Denver, CO 80264. Applicant seeks to remove restrictions in its Sub-Nos. 303, 304, 314, 315, 322, 330, 341, 351, 356, 366, 375, 376, 378, 380, 389, 390, 394 and 409 certificates to (1) broaden the commodity descriptions to "commodities in bulk" from dimethyldichlorosilane and methyldichlorosilane (in bulk, in tank vehicles), in Sub-No. 303; liquified petroleum gases (in bulk, in tank vehicles) and liquid chemicals (in bulk, in tank vehicles), in Sub-No. 304; liquid chemicals or chemicals (in bulk, in tank vehicles), in Sub-Nos. 322, 351, 366, (part 3, 380 (parts 1 and 5), 389 and 390 (part A, K, 2, 4 and 5 and parts B, 1); liquid fertilizer, in Sub-No. 314; fertilizer materials, dry fertilizer, insecticides, fungicides and herbicides, in Sub-Nos. 330 (part 5), and 390 (part B, 2), liquid distiller solubles, in Sub-No. 409 (part 1); printing ink (in bulk), in Sub-No. 315; crude oil, (in bulk, in tank vehicles), in Sub-No. 341 (part 1); petroleum lubricating oil (in bulk, in tank vehicles), in Sub-No. 341 (part 2); synthetic plastic, in Sub-No. 390 (part A (3)); corn flour (in bulk, in tank vehicles), in Sub-No. 366 (part 1); petroleum and petroleum products (in bulk, in tank vehicles), in Sub-Nos. 366 (part 2), 375 and 409 (part 2); liquid animal feed ingredients, in Sub-No. 378, and glycols, alcohols, acetates, Ketones, and their compounds and derivatives (in bulk, in tank vehicles) in Sub-No. 380 (parts 2 and 3) to "commodities in bulk and chemicals and related products" from dry fertilizer and fertilizer materials and insecticides, in Sub-No. 330 (parts 1, 2 and 4); dry fertilizer and dry fertilizer materials, in Sub-No. 356; chemicals, laundry supplies and paint, in Sub-No. 376; nitrogen compounds, in Sub-No. 380 (part 4); and coal tar products, in Sub-No. 394, (2) replace one-way authority with radial authority, in all Subs, (3) broaden the territorial description by substituting county-wide and city-wide authority for city-wide authority and facilities: Long Reach, WV to Tyler County, WV in Sub-No. 303; facilities at Harvey, LA to Jefferson Parish, LA in Sub-No. 304; facilities at Pine Bluff, AR to Jefferson County, AR in Sub-No. 314; Tulsa, OK to Tulsa and Osage Counties, OK in Sub-No. 315; facilities at Plaquamine, LA to Iberville Parish, LA in Sub-No. 322; Military, KS to Cherokee County, KS and Catoosa, OK to Rogers County, OK in Sub-No. 330; Ponca City, OK to Kay County, OK in Sub-No. 341; Meadville, PA to Crawford County, PA and Woodstock, TN to Shelby County, TN in Sub-No. 351; facilities at Atchinson, KS to Atchinson County, KS and Mapleton, IL with Peoria County, IL, Wynnewood, OK to Garvin County, OK, and Geismor, LA to Ascension Parish, LA and Louisville, KY to Jefferson County, KY in Sub-No. 366; Chalmette and Meraux, LA to St. Bernard Parish, LA in Sub-No. 375; Muskogee and Kingfisher, OK to Muskogee and Kingfisher Counties, OK, Lucerne, CO to Weld County, CO, Scottsbluff, NE to Scotts Bluff County, NE, Leoti, KS to Wichita County, KS in Sub-No. 378; Texas City, TX to Galveston County, TX, North Seadrift, TX to Calhoun County, TX, Bishop, TX to Nueces County, TX, facilities at Taft, LA to St. Charles Parish, LA and facilities at Brownsville, TX to Cameron County, TX in Sub-No. 380; facilities at Sterlington, LA to Ouachitas Parish, LA in Sub-No. 389; Longview, TX to Gregg County, TX, Kingsport, TN to Sullivan County, TN, El Dorado, AR to Union County, AR, Mt. Pleasant, TX to Titus County, TX, Arkadelphia, AR to Clark County, AR, Magnolia, AR to Columbia County, AR, Bossier City, LA to Bossier Parish, LA, Morningsport and Vivian, LA to Caddo Parish, LA, Nachitoches, LA to Natchitoches Parish, LA in Sub-No. 390; Stroud, OK to Lincoln County, OK in Sub-No. 394; and, Atchinson, KS to Atchinson County, KS, Cotton Valley, LA to Webster Parish, LA, Caney, KS to Montogmery, County, KS, Indianapolis, IN to Marion County, IN, Albuquerque, Ambrosia Lake and White Sands, NM to Bernalillo, McKinley and Donna Ana Counties, NM in Sub-No. 409; and (4) remove the AK and HI exceptions, in Sub-Nos. 315, 322, 390 and 394; (5) remove the joinder or tacking restrictions in Sub-Nos. 304 and 380; (6) remove the restrictions prohibiting the transportation of specified commodities to named points, in Sub-Nos. 304, 330 (part 3), 380 and 390; (7) remove originating at and/or destined to restrictions, in Sub-Nos. 322, 376, 380, 389 and 394 and (8) remove restrictions requiring transportation of specifed commodities, in foreign commerce only, in Sub-No. 366.

MC 116519 (Sub-103)X, filed May 27, 1981. Applicant: FREDERICK TRANSPORT LIMITED, R.R. #6, Chatham, Ontario, Canada. Representative: Jeremy Kahn, Suite 733 Investment Building, 1511 K Street, N.W., Washington, DC 20005. Applicant seeks to remove restriction in its Sub-No. 62F certificate which now authorizes the transportation of alloys, animal litter, calcium carbanate, clay, fertilizer and fertilizer ingredients, foundry supplies, nepheline cyanite, ores, sand and stone, in containers, between ports of entry on the U.S.-Canada boundary line, in Michigan and New York, on the one hand, and on the other, points in 37 states, by removing the limitation "in containers" from the commodity description.

MC 116806 (Sub-7)X, filed May 15, 1981. Applicant: HUTTON TRANSPORT, LIMITED, R. R. No. 1, Lakeside, Ontario, Canada, NOM 2G0. Representative: William B. Elmer, 624 Third Street, Traverse City, MI 49684. applicant seeks to remove restrictions from its Sub-Nos. 1, 2 and 6 certificates to (1) broaden the commodity descriptions in Sub-Nos. 1 and 2 from meat, meat products and meat byproducts to "food and related products" in Sub-No. 6 and part of Sub-No. 2 from cement, concrete, clay, brick and block and prestressed and precast concrete products to "clay, concrete, glass or stone products and building materials," (2) in Sub-No. 2 remove restriction to traffic originating at named points in Canada and (3) replace port of entry on International Boundary line origins at or near Buffalo, NY and Detroit, MI, with ports of entry on International Boundary line in NY and MI, in Sub-Nos. 1 & 2 and (4) change one way to radial authority between (a) ports of entry in NY and Buffalo, NY in Sub-No. 1 and (b) ports of entry in MI and Detroit, MI in Sub-No. 2.

MC 118959 (Sub-264)X, filed May 14, 1981. Applicant: JERRY LIPPS, INC., 130 S. Frederick St., Cape Girardeau, MO 63701. Representative: Donald B. Levine, 39 S. LaSalle St., Chicago, IL 60603.The application seeks to remove restrictions in Sub-Nos. 4, 10, 12, 31, 33, 40, 48, 64, 71, 79, 90, 102, 131, 137, 138, 141, 142, 146, 148, 150, 160, 169, 170, 175, 176, 180, 183, 187, 188, 194, 200, 202, 203, 207, 208, 215, 216, 217, 224, 227, 229, 230, 236, 237, 241, 242, 244, 245, 250, 254 certificates and letter notice E–1 and Sub-No. 136 permit to (1) broaden the commodity descriptions in Sub-No. 4, from pottery to "clay, concrete, glass or stone products"; in Sub-No. 10 from Flower pots and saucers to "clay, concrete, glass, stone, and rubber and plastic products"; in Sub-No. 12, from steel joists to "iron and steel articles"; in Sub-No. 31, from rubber to "rubber and plastic products"; in Sub-No. 33, from carpet or rug cushioning, rubber and plastic coated materials to "textile mill products and rubber and plastic products"; in Sub-No. 64, from aluminum trays, iron and steel channels, iron and steel trays, nuts, bolts, washers, fittings and accessories to "metal products and iron and steel articles"; in Sub-No. 71, from plastic plastic, products and pipe to "plastic and rubber products and building and construction materials"; in Sub-No. 79, from salt and salt products and materials and supplies used in the agricultural water treatment, food processing, wholesale grocery and institutional supply industries to "chemicals and related products and such commodities as are used in the agricultural water treatment, food processing, wholesale grocery and institutional supply industries"; in Sub-No. 90, from aluminum trays, iron and steel channels, aluminum channels, iron and steel trays, iron and steel angles, aluminum angles, nuts, bolts, washer fittings and accessories to "metal products and iron and steel articles"; in Sub-No. 102, from iron and steel prison bars to "iron and steel articles"; in Sub-No. 131, from red clay pottery to "clay, concrete, glass or stone products"; in Sub-No. 136, from plastic containers and closures to "rubber and plastic products"; in Sub-No. 138, from glass bottles to "clay, concrete, glass or stone products"; in Sub-No. 141, from adhesives to "chemicals and related products"; in Sub-No. 142, from iron and steel wire, cable and spirals to "iron and steel articles"; in Sub-No. 146, from paper trays, corrugated post, clay and clay products to "pulp, paper and related products and clay, concrete, glass or stone products"; in Sub-No. 148, from steel and aluminum storage buildings and storage building parts, attachments and accessories to "metal products and prefabricated buildings"; in Sub-No. 150, from clay, clay products, paper trays and corrugated post to "clay, concrete, glass or stone products and pulp, paper and related products"; in Sub-No. 160 from plastic articles to "rubber and plastic products"; in Sub-No. 169, from lawn mower parts and accessories to "machinery"; in Sub-No. 175, from plastic, plastic articles, tin, tin articles, iron and steel articles, rubber, rubber articles and resins to "rubber and plastic products, iron and steel articles and chemicals and related products"; in Sub-No. 176, from salt to "chemicals and related products"; in Sub-No. 180, from plastic containers to "containers"; in Sub-No. 183, from paper, paper products, cellulose products and textile softeners to "pulp, paper and related products and chemicals and related products"; in Sub-No. 187, from glass containers to "containers"; in Sub-No. 188, from janitorial equipment, materials and supplies to "such commodities as are dealt in by manufacturers or distributors of janitorial equipment, materials and supplies"; in Sub-Nos. 194 and 215, from bakery goods to "food and related products"; in Sub-No. 200, from salt and salt products to "chemicals and related products"; in Sub-No. 203, from food and food products to "food and related products"; in Sub-No. 208, from canned and preserved foodstuffs to "food and related products"; in Sub-No. 216, from

aluminum castings to "metal products"; in Sub-No. 227, from foodstuffs to "food and related products"; in Sub-No. 229, from corn products, soybean products and dessert preparations to "food and related products"; in Sub-No. 237, from cleaning, scouring and washing compounds and textile softeners to "chemicals and related products"; in Sub-No. 241, from plastic articles to "rubber and plastic products"; in Sub-No. 242, from phosphated nonalcoholic beverages to "food and related products"; in Sub-No. 244, from plastic bags to "rubber and plastic products"; in Sub-No. 245, from paper bags, wrapping paper and plastic bags to "pulp, paper and related products and rubber and plastic products"; and in Sub-No. 254, from vinyl and vinyl products, chipboard and chipboard products, polyethylene and polyethylene products, labels, specialty die cutting and packaging supplies to "rubber and plastic products, building materials and pulp, paper and related products"; (2) in Sub-Nos. 31, 71 79, 137, 146, 148, 150, 160, 175, 176, 183, 188, 194, 200, 202, 203, 215, 227, 229, 237, 241, 244, 245 and 250, remove exceptions to commodities in bulk; (3) in Sub-No. 194, remove the restriction against the transportation of frozen bakery goods; (4) in Sub-Nos. 12 and 71, remove the restrictions against the transportation of articles which because of size or weight require the use of special equipment; (5) in Sub-Nos. 102, 160, 180, 183, 208, and 236, remove "originating at and/or destined to" restriction; (6) in Sub-No. 224 remove ■ restriction limiting service to traffic having a subsequent movement by rail; (7) in Sub-Nos. 79 and 141, remove mixed loads restrictions; (9) change city to county-wide authority in Sub-Nos. 4 and 10 from Jackson to Cape Girardeau County, MO; in Sub-No. 12 from Madison to Madison County, IL; in Sub-No. 3 from Columbus, MS to Lowndes County, MS; in Sub-No. 48 from Mayfield, KY to Graves County, KY; in Sub-No 71 from Fayetteville and Glenville, WV to Fayette and Gilmer Counties, WV; in Sub-No. 136 (permit) from Highlands, TX to Harris County, TX; in Sub-No. 169 from Beaufort to Beaufort County, TX; in Sub-No. 176 from Grand Saline, TX and Rittman, OH to Van Zandt County, TX and Wayne County, OH; in Sub-No. 187 from Gas City, IN and Paducah, KY to Grant County, IN and McCracken County, KY; in Sub-No. 188 from Cairo and Downers Grove, IL to Alexander and DuPage Counties, IL; in Sub-No. 200 from Avery Island, LA to Iberia Parish, La; in Sub-No 203 from Chester and Steeleville, IL and Perryville, MO to Randolph County, IL and Perry County, MO; in Sub-No. 216 from Sheboygan, WI to Sheyboygan County, WI; in Sub-No. 217 from East Prairie, MO to Mississippi County, MO; in Sub-No. 229 from Muscatine and Mitchellville, IA to Muscatine and Polk Counties, IA; in Sub-No. 236 from Marion and LaPorte, IN to Grant and LaPorte Counties, IN; in Sub-No. 241; from Nicholasville, KY to Jessamine County, KY; and, in Sub-No. 254 from Cape Girardeau and Scott City, MO to Cape Girardeau and Scott Counties, MO, (10) remove plantsite limitations in Sub-No. 40 and E letter notice E–1 and replace Alton, IL with Madison County, IL; in Sub-Nos. 64 and 90 and replace Highlands, IL with Madison County, IL in Sub-No. 141 and replace Chillicothe, OH with Ross County, OH; in Sub-No. 146 and replace Oran and Bloomfield, MO and Paris, TN with Scott and Stoddard Counties, MO and Henry County, TN; in Sub-No. 148 and replace Breese, IL with Clinton County, IL; in Sub-No. 150 and replace Mounds, IL with Pulaski County, IL; in Sub-No. 175 and replace Homerville and Valdosta, GA and Picayune, MS with Clinch and Lowndes Counties, GA and Pearl River County, MS; in Sub-No. 183 and replace Green Bay, WI with Brown County, WI; in Sub-No. 207 and replace Clinton, IA with Clinton County, IA; in Sub-No. 208 and replace Muscatine and Iowa City, IA with Muscatine and Johnson Counties, IA; in Sub-No. 224 and replace Herrin, IL and Cape Girardeau, MO with Williamson County, IL and Cape Girardeau County, MO; in Sub-No. 227 and replace Lexington, KY with Fayette County, KY; in Sub-No. 230 and replace Sterling and Rock Falls, IL with Whiteside County, IL; in Sub-No. 237 and replace Alexandria, LA, and Houston and Beaumont, TX with Rapides Parish, LA and Harris and Jefferson Counties, TX; in Sub-No 242 and replace Houston, TX with Harris County, TX; in Sub-No. 244 and replace Yulee, FL with Nassau County, FL; in Sub-No. 254 and replace Elizabeth, NJ, Yulee, FL and Plainfield, IL with Union County, NJ, Nassau County, FL and Will County, IL; and, in Sub-No. 250 and replace Alexandria, LA with Rapides Parish, LA, and (11) change one-way to radial authority between various combinations of points throughout the US in all Subs and E letter notice E–1 except Sub-Nos. 183, 188, 203, 207, 215, 227, 241, 245, and 254.

MC 124263 (Sub-7)X, filed May 18, 1981. Applicant: SUN MOTOR LINE, INC., P.O. Box 32546, Oklahoma City, OK 73123. Representative: Jack H. Blanshan, 205 West Touhy Avenue, Suite 200–A, Park Ridge, IL 60068. Applicant seeks to remove restrictions in its lead and Sub-Nos. 1, 4, and 5 certificates to (1) broaden commodity

descriptions to "food and related products" from frozen fruits, frozen berries and frozen vegetables in the lead, from sweet cream, butter and plain and sweetened condensed milk and bananas in Sub-No. 1 and from frozen foodstuffs, in Sub-No. 4 and to "metal products, machinery and furniture and fixtures" from fireplaces, fireplace parts and accessories, and materials, equipment and supplies used in the manufacture and distribution of fireplaces in Sub-No. 5; (2) remove a facilities limitation and replace Centerville and Mt. Pleasant, IA with Appanoose and Henry Counties, IA; (3) remove the restriction to "in containers" in Sub-No. 1; (4) remove a mechanical refrigeration vehicle restriction in Sub-No. 4; (5) remove the "originating at and destined to "restriction in Sub-No. 5; (6) change city to county-wide authority from Watsonville, CA to Santa Cruz County, CA, Salinas, CA to Monterey County, CA, San Martin, San Jose and Santa Clara, CA to Santa Clara County, CA, Modesto and Patterson, CA to Stanislaus County, CA, Fresno and Sanger, CA to Fresno County, CA and Wichita, KS to Sedgwick County, KS, in the lead, and (7) change one–way authorities to radial authorities between (a) above named CA Counties, and, 1 KS county, and Oklahoma City, OK in the lead, (b) Normon, OK and points within 1 mile of Normon, OK, and, points in 4 States: New Orleans, LA, and, Oklahoma City, OK in Sub-No. 1; (c) 4 States, and, 16 States in Sub-No. 4, and (d) 2 IA counties, and, 6 States in Sub-No. 5.

MC 124263 (Sub-8)X, filed May 21, 1981. Applicant: SUN MOTOR LINE, INC., P.O. Box 32546, Oklahoma City, OK 73123. Representative: Jack H. Blanshan, Suite 200–A, 205 West Touhy Avenue, Park Ridge, IL 60068. Applicant seeks to remove restrictions in its No. MC–66836 permit to (A) broaden the commodity descriptions to "petroleum, natural gas and their products" from lubricating oils and greases; to "containers" from empty containers for lubricating oils and greases; to "metal products, machinery, chemicals and related products, and printed matter" from grease guns and pumps, insecticides, and advertising signs; and delete the restrictive phrase "in containers" wherever it appears; and (B) change its territorial authority to between points in the U.S. under contract(s), in its open-ended permit.

MC 126111 (Sub-11)X, filed May 18, 1981. Applicant: SCHAETZEL TRUCKING COMPANY, INC., P.O. Box 1579, Fond du Lac, WI 54935. Representative: Daniel R. Dineen, 710 North Plankinton Avenue, Milwaukee, WI 53203. Applicant seeks to remove restrictions in its Sub-Nos. 9F and 10F permits to (1) broaden the commodity descriptions from sweetened condensed milk to "food and related products", in both Subs and (2) broaden the territorial descriptions to "between points in the U.S." under continuing contracts with the named shippers in both Subs.

MC 139379 (Sub-11)X, filed April 17, 1981, previously noticed in the **Federal Register** of May 8, 1981, republished as corrected this issue. Applicant: LES MATHRE TRUCKING, INC., 417 8th Street, Story City, IA 50248. Representative: Larry D. Knox, 600 Hubbell Building, Des Moines, IA 50309. Applicant seeks to remove restrictions in its Sub-Nos. 2 and 5F certificates to (1) eliminate the except commodities in bulk restriction, in both certificates; (2) replace the facilities and city-wide authority with county-wide authority: (a) Saline County, NE, for Crete, NE, Crawford, Carroll and Hardin Counties, IA, for Denison, Carroll, and Iowa Falls, IA, in Sub-No. 2, and (b) Lancaster and Saline Counties, NE, for Lincoln and Crete, NE, and Crawford, Carroll, Hardin, Polk, Webster Counties, IA, for Denison, Carroll, Iowa Falls, Des Moines and Fort Dodge, IA, in Sub-No. 5F; (3) eliminate the restriction limiting service to the transportation of traffic originating at and destined to named points, in Sub-No. 2; and (4) authorize radial authority to replace existing one-way service between named counties in NE and IA and points in various combinations of States throughout the U.S., in both certificates. The purpose of this republication is to reinstate Omaha, NE, in lieu of Douglas County, NE, and Sioux City, IA, in lieu of Woodbury, IA. All other cities were to be converted except Omaha and Sioux City.

MC 145608 (Sub-5)X, filed May 28, 1981. Applicant: HENRY JOHNSON, INC., 4902 S. 61st Street, Omaha, NE 68117. Representative: Jack H. Blanshan, 205 West Touhy Avenue, Suite 200–A, Park Ridge, IL 60068. Applicant seeks to remove restrictions in its Sub-No. 43 certificate to (1) broaden the commodity description to "food and related products" from "confectionery and related advertising and display items"; (2) remove facilities restrictions; (3) remove the restriction "originating at the named origins and destined to named facilities at Reno for storage and transit"; (4) remove the restriction to transportation of shipments having a prior movement from named facilites; (5) enlarge Sullivan, IL to Moultrie County, IL and Reno, NV to Washoe County, NV; and (6) change one-way authority to radial authority between points in the above counties.

MC 145894 (Sub-4)X, filed June 3, 1981. Applicant: EQUIPMENT SUPPLIES, INC., 7736 W. 62nd Place, Summit, IL 60501. Representative: Stephen H. Loeb, Suite 2027, 33 N. LaSalle Street, Chicago, IL 60602. Applicant seeks to remove restrictions in its Sub-No. 1F certificate to (1) remove all exceptions from its general commodities authority except classes A and B explosives; and (2) remove the restrictions requiring transportation in containers or trailers having an immediately prior or subsequent movement by water or rail.

MC 145955 (Sub-23)X, filed May 4, 1981, previously noticed in the **Federal Register** of May 19, 1981, republished as corrected this issue. Applicant: CENTRAL TRUCK SERVICE, INC., P.O. Box 7154, Omaha, NE 68107. Representative: Arlyn L. Westergren, Suite 201, 9202 W. Dodge Rd., Omaha, NE 68114. Applicant seeks to remove restrictions in its Sub-Nos. 2F, 8F, 10F, 12F, 13F, 14F, 15F, 16F, and 17F certificates to (1) broaden the commodity descriptions to (a) "machinery and related products" from electrical appliances and accessories, in Sub-No. 2F; (b) "food and related products" from meats, meat products, meat by products, and articles distributed by meat packing houses, in Sub-Nos. 8F and 13F, foodstuffs in Sub-No. 14F, and pet food and pet supplies, in Sub-No. 16F; (c) "chemicals and related products, petroleum, natural gas and their products, rubber and plastic products, and clay, concrete, glass or stone products" from cleaning and polishing compounds, textile softener, lubricants, deodorants, disinfectants, hyochlorite solutions, paints, plastic bags and filters, in Sub-No. 10F; (d) "such commodities as are dealt in by manufacturers and distributors of containers and paper and paper products" from containers and paper and paper products, in Sub-No. 12F; (e) "chemicals and related products" from adhesives, in Sub-No. 15F; and (f) "such commodities as are dealt in by manufacturers or distributors of paper products" from paper products, in Sub-No. 17F; (2) eliminate "except hides and commodities in bulk" restrictions, in Sub-No. 8F; (3) replace Franklin, IL, and Topeka and Wichita, KS with authority to serve Chicago, IL, and Shawnee and Sedgwick Counties, KS, in Sub. No. 2F; and (4) change its one-way authorities to radial authorities between Cook County, IL and named points in IA, NE, KS, and MO, in Sub-No. 2F, and between

Chicago, IL, and Milwaukee, WI, and, points in the U.S., in Sub-No. 14F.

MC 146519 (Sub-9)X, filed May 26, 1981. Applicant: CALIANA MARKETING, INC., 2130 Prairieton Road, Terre Haute, IN 47802. Representative: Robert W. Loser II, 1101 Chamber of Commerce Bldg., 320 N. Meridian St., Indianapolis, IN 46204. Applicant seeks to remove restrictions in its Sub-Nos. 1F, 3F, 4F and 8F permits to (1) broaden the commodity description from scrap metal to "metal products" in Sub-No. 1F; from baking powder (except in bulk) to "Food and related products" in Sub-No. 3F; and from dry corn products (except in bulk) to "farm products" in Sub-Nos. 4F and 8F; and (2) broaden the territorial descriptions to authorize between points in the U.S., under continuing contracts(s) with named shippers.

BILLING CODE 7035-01-M

[Volume No. OPY-2-096]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: June 4, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority is issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 1. Members Parker, Chandler, and Taylor.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

FF 552F, filed May 26, 1981. Applicant: CAL-WEST CONSOLIDATORS, INC., 17023 South Central, Carson, CA 90746. Representative: William J. Monheim, P.O. Box 1756, Whittier, CA 90609, (213) 945-2745. As a freight forwarder, in connection with the transportation of *such commodities* as are dealt in or used by manufacturers, distributors, or retailers of floor coverings, drapery materials, and wall paper, (1) between points in CA, on the one hand, and, on the other, points in AL, AZ, CO, GA, NV, NC, SC, and UT, and (2) between points in AZ and NV, on the one hand, and, on the other, points in AL, GA, NC, and SC.

MC 13313 (Sub-3), filed May 27, 1981. Applicant: CUMMINGS TRANSFER CO., 740 29th Avenue W., Albany, OR 97321. Representative: Lawrence V. Smart, Jr., 419 NW 23rd Avenue, Portland, OR 97210, (503) 226-3755. Transporting *household goods*, between points in OR, WA, ID and CA.

MC 25823 (Sub-12), filed May 28, 1981. Applicant: WERCH TRUCKING COMPANY, INC., Route #2, Box 113, Berlin, WI 53923. Representative: Wayne W. Wilson, 150 East Gilman Street, Madison, WI 53703, (608) 256-7444. Transporting *general commodities* (except classes A and B explosives), between points in the U.S., under continuing contract(s) with Sperry-Vickers, of Omaha, NE.

MC 52793 (Sub-75F), filed May 27, 1981. Applicant: BEKINS VAN LINES, INC., 333 S. Center St., Hillside, IL 60162. Representative: David A. Gallagher (same address as applicant), (312) 547-2184. Transporting *household goods*, between points in the U.S., under continuing contract(s) with ROLM Corporation, of Santa Clara, CA.

MC 77972 (Sub-52), filed May 29, 1981. Applicant: MERCHANTS TRUCK LINE, INC., P.O. Box 908, New Albany, MS 38652. Representative: James R. Holt, P.O. Box 523, Collierville, TN 38017, (901) 853-7208. Transporting *machinery*, between points in Lee County, MS, Pulaski County, KY, and Henry, Madison, and Shelby Counties, TN, on the one hand, and, on the other, points in the U.S. Note: Applicant intends to tack the authority sought with its existing regular-route authority in Docket No. MC 77972 and Sub Nos. 4, 12, 13, 15, 17, 22, 28, 29, and 30, thereto.

MC 105733 (Sub-85), filed May 21, 1981. Applicant: RITTER TRANSPORTATION, INC., P.O. Box 1064-A, Rahway, NJ 07065. Representative: Chester A. Zyblut, 366 Executive Bldg., 1030 Fifteenth Street, NW., Washington, D.C. 20005, 202-296-3555. [Finance Docket 29629]

Petition of Consolidated Rail Corporation for Exemption of the Proposed Abandonment of the Malone Secondary Track

AGENCY: Interstate Commerce Commission.

ACTION: Notice of Exemption.

SUMMARY: The Interstate Commerce Commission exempts the abandonment of a 10.3 mile segment of the Malone Branch of Consolidated Rail Corporation (Conrail) from the requirements of prior Commission approval under 49 U.S.C.10903.

DATES: Exemption effective July 13, 1981. Petitions for reconsideration of this action must be filed on or before July 2, 1981.

ADDRESSES: Send pleadings to:

(1) Section of Finance, Room 5414, Interstate Commerce Commission, 12th St. and Constitution Ave., Washington, DC 20423;
and
(2) Petitioner's representative: Charles E. Mecham, 1138 Six Penn Center Plaza, Philadelphia, PA 19104.

Pleadings should refer to Finance Docket No. 29629.

FOR FURTHER INFORMATION CONTACT: Ellen D. Hanson (202) 275–7245.

SUPPLEMENTARY INFORMATION:

The Proposed Transaction

Conrail has filed a petition to exempt the abandonment of a 10.3 mile segment of its Malone Branch in Franklin County, NY, from the requirements of 49 U.S.C. 10903.

Conrail currently conducts no rail operations over the track. There are no stations, public delivery track, or private rail sidings located on the segment. No other freight rail carrier operates lines within several miles of the involved track. Conrail claims that abandonment will not affect any shippers or receivers of freight and will have no measurable effect opon its revenues and expenses. Moreover, Conrail predicts that there will be no impact upon rail employees or the environment and energy consumption. Other carriers and the public generally should not be affected.

Following abandonment, Conrail plans to sell the right of way and salvage the rails, ties, and other hardware.

The Statute

Rail abandonments require the approval and authorization of the Commission under 49 U.S.C. 10903. To obtain Commission approval, an application must be filed in compliance with *Abandonment of Railroad Lines and Discontinuance of Service,* 49 CFR 1121 (1978) (abandonment regulations). Conrail requests an exemption from 49 U.S.C. 10903 so that it will not have to file a formal application under the abandonment regulations.

Under 49 U.S.C. 10505, as modified by section 213 of the Staggers Rail Act of 1980 (Pub. L. 96–488, 94 Stat. 1895, October 4, 1980) (Staggers Act), the Commission is authorized to exempt a transaction when it finds that (1) continued regulation is not necessary to carry out the Rail Transportation Policy of 49 U.S.C. 10101a; and (2) either the transaction is of limited scope, or regulation is not necessary to protect shippers from the abuse of market power.

Discussion and Conclusions

Our detailed scrutiny of this abandonment is not necessary to carry out the goals of the rail transportation policy of section 10101a because the abandonment does not affect shippers, employees or competing carriers.

The proposed abandonment is very limited in scope. It will effect only a relatively short track segment which is currently not used in any rail operations. Service to shippers will continue to be conducted in the same manner as in the past.

Since the proposed transaction is of limited scope, it is not necessary to consider whether our regulation is needed to protect shippers from the abuse of market power.

Public Use Condition and Offers of Financial Assistance. In abandonment applications filed pursuant to 49 U.S.C. 10903, the Commission is required to consider two matters that have not been specifically considered in this exemption proceeding. First, 49 U.S.C. 10906 requires us to determine if the property to be abandoned is suitable for other public uses. If the property is suitable, we impose certain conditions to allow interested persons an opportunity to obtain the property. Second, 49 U.S.C. 10905, as modified by section 402 of the Staggers Act, allows interested persons to make offers of financial assistance to assure the continuation of operations over the line. Under the procedure provided by this section, financial offers may lead to continued subsidized operation of the line or sale of the line for continued operations by others.

Since the provisions of sections 10905 and 10906 apply only to applications under section 10903, we are not required to allow offers of financial assistance or impose any public use conditions when an exemption is given, because no application need be filed. We note, however, that these matters may be raised in petitions for reopening of this proceeding.

Labor Protection. In granting an exemption under section 10505, we may not relieve a carrier of its obligation to protect the interests of employees as required by 49 U.S.C. Subtitle IV. (See 49 U.S.C. 10505(g)(2).) Therefore, as a condition to this exemption, we will impose the same level of labor protection as is usually required in abandonment transactions. We have determined that the employee protective conditions developed in *Oregon Short Line R. Co.—Abandonment—Goshen,* 360 I.C.C. 91 (1979), satisfy the statutory requirements for protection of employees involved in an abandonment transaction.

Energy and Environmental Considerations. Our initial review of the proposal indicates that the abandonment will not significantly affect energy consumption or the quality of the human environment. However, in line with our recent decision in F.D. No. 29352, *Central of Georgia Railroad Company—Petition for Exemption from the Filing of an Abandonment Petition, 49 U.S.C. 10903–10906,* (not printed) decided December 9, 1980, we shall require Conrail to notify the following New York agencies of this proceeding and their opportunity to file a petition to reopen this proceeding on environmental grounds:

Mr. Frederick Rath, Deputy Commissioner for Historic Preservation—Board of Historic Preservation—Parks and Recreation, South Swan Street Building, Albany, NY 12223;
Jane Magee, CEQRA Coordinator, N.Y. State Department of Environmental Conservation, 50 Wolf Road, Albany, NY
Iven Vamos, Deputy Commissioner, For Planning and Development, N.Y. State Parks and Recreation, Empire State Plaza, Albany, NY 12238;
John Lussi, Director, N.Y. State Department of Transportation—Building 7A, Room 305, State Office Campus, Albany, NY 12232;
Larry Brown, N.Y. State Dept. of Environmental Conservation, Significant Habitat Unit, Delmar, NY 12054;
Robert Hansen, Coastal Management Unit, Department of State, 162 Washington Street, Albany, NY 12232;
Darwin Field, Director, Planning and Federal Program, 99 Washington Avenue, Department of State, Albany, NY 12231;
Peter Nye, Wildlife Resources Center, N.Y. State Department of Environmental Conservation, Delmar, NY 12054;
Louis Rossi, Director, Department of Transportation, Rail Division, Building No. 5, State Campus, Albany, NY 12232;
Ms. Elizabeth Wald, Land Use Specialist, New York State Dept. of Environmental Conservation, Bureau of Forest Resource Mgt., 50 Wolf Road, Room 414, Albany NY 12233.

Conrail must notify these agencies within 5 days of the publication of this decision in the **Federal Register**. Copies of correspondence and /or memoranda of communications with these agencies

should be submitted as evidence of compliance with this condition.

This exemption will become effective July 13, 1981. And party may file a petition to reopen this proceeding for reconsideration in accordance with 49 CFR 1100.98(d). This petition must be filed no later than 20 days following the date of publication. The filing of a petition will not automatically stay the effect of this action; we may, on our own motion or on petition, stay the effective date. A petition to stay must be filed no later than 10 days following the date of publication.

We find

(1) The application of the requirements of 49 U.S.C. 10903 to the abandonment by Conrail of the described 10.3-mile segment of its line in Franklin County, NY, is not necessary to carry out the transportation policy of 49 U.S.C. 10101a.

(2) This transaction is of limited scope.

(3) This decision will not relieve any rail carrier from an obligation to provide contractual terms for liability and claims which are consistent with 49 U.S.C. 11707.

(4) In light of the condition imposed in the first ordering paragraph below, this decision will not significantly affect energy consumption or the quality of the human environment.

It is ordered

(1) We exempt from the requirements of 49 U.S.C. 10903 the abandonment by Conrail of the 10.3 mile line described in its petition subject to the conditions for the protection of employees embodied in *Oregon Short Line R. Co.—Abandonment—Goshen*, 360 I.C.C. 91 (1979), and subject to the further condition that, within 5 days of publication in the **Federal Register**, it notifies the state agencies named in the body of this decision. Copies of correspondence and/or memoranda of communications with these agencies should be submitted for the record as evidence of compliance with this condition.

(2) Notice of our action shall be given to the general public by delivery of a copy of this decision to the Director, **Federal Register**, for publication.

(3) This exemption will continue in effect for one year from the effective date of this decision. The abandonment of the line segment must occur during that time in order to use this exemption.

(4) This decision shall be effective July 13, 1981.

(5) Petitions to stay the effective date of this decision must be filed no later 10 days after the date of publication in the **Federal Register.**

(6) Petitions to reopen this proceeding for reconsideration of this decision must be filed no later than 20 days after the date of publication in the **Federal Register.**

Decided: June 8, 1981.

By the Commission, Acting Chairman Alexis, Commissioners Gresham, Clapp, Trantum, and Gilliam.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

[F.D. No. 29254F]

Somerset Railroad Corp.; Construction and Operation of a Line of Railroad in Niagara County, N.Y.

AGENCY: Interstate Commerce Commission (ICC), Office of Policy Analysis, Energy and Environment Branch.

ACTION: Notice of intent to prepare a supplement to the Environmental Impact Statement (EIS) on Somerset Railroad Corporation's application to construct and operate a line of railroad in Niagara County, New York.

SUMMARY: The Somerset Railroad Corporation (Somerset Railroad) has announced its intention to amend a previously filed application for the purpose of obtaining ICC certification to construct and operate railroad facilities to supply coal and other materials to an electric generating plant currently under construction along Lake Ontario at Somerset, New York, by the New York State Electric & Gas Corporation (NYSEG). This notice describes the analytical framework within which the amended application will be considered under the provisions of the National Environmental Policy Act of 1969 (NEPA). It is anticipated that the supplement will be presented in draft and, following comments, final form. Public comment on this notice is invited.

COMMENTS AND DATES: Written comments addressing the contents of this notice should be submitted to Interstate Commerce Commission, Energy and Environment Branch, Room 5377, 12th & Constitution Ave., N.W., Washington, DC 20423, and should be filed on or before July 13, 1981.

FOR FURTHER INFORMATION CONTACT: Carl Bausch (telephone: 202-275-7916).

SUPPLEMENTARY INFORMATION: Somerset Railroad's original application, filed February 12, 1980, contemplated construction and operation of a line of railroad from a station on the Falls Branch Line of Consolidated Rail Corporation located in Gasport, NY to the electric generating plant site (Gasport Spur). The NEPA process undertaken for that application resulted in promulgation of a draft and final EIS, issued September 5, 1980 and January 16, 1981, respectively, which considered potential impacts associated with the Gasport Spur as well as alternative routes, including a line known as Hojack-West. The application to construct the Gasport Spur was denied in a decision issued March 6, 1981, but without prejudice to Somerset Railroad's amending its application to seek authority over the Hojack-West line of railroad.

Somerset Railroad now intends to seek certification of the Hojack-West line, with a new connection to the Falls Road Branch Line which would run in a generally northerly direction from the Conrail switch yards west of Niagara Junction along a transmission line corridor owned by the New York State Power Authority and Niagara Mohawk Power Corporation, and then along the north side of the Niagara University campus to the State Power Authority Forebay, and then along the Hojack-West right-of-way. The supplement will examine this alternative and other feasible alternatives, if any, to avoid Niagara University, the Forebay, and the Niagara escarpment area in the town of Lewistown. The supplement will employ data previously developed and new data, as appropriate, in making this examination. A third party consultant, Tera Corporation, will assist the Energy and Environment Branch in preparing the supplement.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-104]

Certain Card Data Imprinters and Components Thereof; Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Institution of investigation pursuant to 19 U.S.C. 1337.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on May 7, 1981, under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), on behalf of AM International, Inc., 1900 Avenue of the Stars, Los Angeles, Calif. 90067 and

Bartizan Corp., 24 Ashburton Avenue, Yonkers, N.Y. 10701. The complaint alleges unfair methods of competition and unfair acts in the importation of certain card data imprinters into the United States, or in their sale, by reason of alleged direct or induced infringement of (1) claim 7 of U.S. Letters Patent 3,272,120 and (2) claim 12 of U.S. Letters Patent 3,340,800. The complaint further alleges that the effect or tendency of the unfair methods of competition and unfair acts is to destroy or substantially injure an industry, efficiently and economically operated, in the United States.

The complainant requests the Commission to institute an investigation; during the investigation, to issue a temporary exclusion order prohibiting importation of the articles in question into the United States, except under bond; and, after a full investigation, to issue an order excluding said articles from entry into the United States for the life of each patent in issue.

AUTHORITY: The authority for institution of this investigation is contained in section 337 of the Tariff Act of 1930 and in § 210.12 of the Commission's Rules of Practice and Procedure.

SCOPE OF INVESTIGATION: Having considered the complaint, the U.S. International Trade Commission, on June 4, 1981, ordered that—

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, an investigation be instituted to determine whether there is reason to believe that there is a violation or whether there is a violation of subsection (a) of section 337 in the unlawful importation of certain card data imprinters and components thereof into the United States, or in their sale, by reason of alleged direct or induced infringement of (1) claim 7 of U.S. Letters Patent 3,272,120 and (2) claim 12 of U.S. Letters Patent 3,340,800, the effect or tendency of which is to destroy or substantially injure an industry efficiently and economically operated, in the United States;

(2) For the purpose of this investigation so instituted, the following are hereby named as parties upon which this notice of investigation shall be served:

(a) The complainants are—

AM International, Inc., 1900 Avenue of the Stars, Los Angeles, Calif. 90067
Bartizan Corporation, 24 Ashburton Avenue, Yonkers, N.Y. 10701.

(b) The respondents are the following companies, alleged to be in violation of section 337, and are the parties upon which the complaint is to be served:

National Business Systems, Inc., 3206 Orlando Drive, Mississauga, Ontario L4V 1R5, Canada
National Business Systems, Inc., 525 Executive Boulevard, Elmsford, N.Y. 10523.

(c) Ralph Elsas-Patrick, Unfair Import Investigations Division, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall be the Commission Investigative Attorney, a party to this investigation; and

(3) For the investigation so instituted, Donald K. Duvall, Chief Administrative Law Judge, U.S. International Trade Commission, 701 E Street NW., Washington, D.C. 20436, shall designate the presiding officer.

The phrase "and components thereof" has been added to paragraph (1) above on the basis of informal investigatory activities by the Commission which revealed that said card data imprinters can be imported in component parts as well as entirely assembled units.

Responses must be submitted by the named respondents in accordance with section 210.21 of the Commission's Rules of Practice and Procedure (19 CFR 210.21). Pursuant to §§ 201.16(d) and 210.21(b) of the rules, such responses will be considered by the Commission if received not later than 20 days after the date of service of the complaint. Extensions of time for submitting a response will not be granted unless good and sufficient cause therefor is shown.

Failure of a respondent to file a timely response to each allegation in the complaint and in this notice may be deemed to constitute a waiver of the right to appear and contest the allegations of the complaint and this notice, and to authorize the presiding officer and the Commission, without further notice to the respondent, to find the facts to be as alleged in the complaint and this notice and to enter both a recommended determination and a final determination containing such findings.

The complaint, except for any confidential information contained therein, is available for inspection during official working hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary U.S. International Trade Commission, 701 E Street NW., Washington D.C. 20436, telephone 202–523–0161.

FOR FURTHER INFORMATION CONTACT: Ralph Elsas-Patrick, Unfair Import Investigations Division, U.S. International Trade Commission, telephone 202–523–0440.

Issued: June 8, 1981.

By order of the Commission.

Kenneth R. Mason,

Secretary.

BILLING CODE 7020-02-M

DEPARTMENT OF JUSTICE

Antitrust Division

United States v. Spectra-Physics, Inc. and Laserplane Corp.; Proposed Final Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. Sections 16 (b)–(h), that a proposed consent judgment and a Competitive Impact Statement have been filed with the United States District Court for the Northern District of California in *United States v. Spectra-Physics, Inc. and Laserplane Corporation,* Civil No. C–78–1879 TEH.

The complaint in this case alleged that the December 1976 acquisition of Laserplane Corporation by Spectra-Physics, Inc. substantially lessened competition in the development, manufacture, and sale of laser-based machine control products and systems that are used on earth-moving machines.

The proposed judgment requires the defendants to license on a nonexclusive and royalty-free basis defendants' patents and other written machine control laser technical information which defendants owned as of January 1, 1980.

Public comment is invited within the statutory 60–day comment period. Such comments and responses thereto, will be published in the **Federal Register** and filed with the Court. Comments should be directed to Anthony E. Desmond, Chief, San Francisco Field Office, Antitrust Division, Department of Justice, 450 Golden Gate Avenue, Box 36046, San Francisco, California 94102.

Joseph H. Widmar,

Director of Operations.

United States District Court for the Northern District of California

United States of America Plaintiff, v. Spectra-Physics, Inc. and Laserplane Corporation, Defendants. Civil No. C 78–1879 TEH.

Filed: June 2, 1981.

Stipulation

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. The parties hereto consent that a Final Judgment in the form hereto attached may be filed and entered by the Court, upon the

motion of any party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16], and without further notice to any party or any other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed Final Judgment by serving notice thereof on defendants and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this Stipulation, this Stipulation shall be of no effect whatever and the making of this Stipulation shall be without prejudice to plaintiff or defendants in this or any other proceeding.

For the Plaintiff United States of America: William F. Baxter, *Assistant Attorney General;* James E. Figenshaw, *Attorney, Department of Justice;* Anthony E. Desmond, *Attorney, Department of Justice.*

For the Defendants Spectra-Physics, Inc. and Laserplane Corporation: Heller, Ehrman, White & McAuliffe, 44 Montgomery Street, San Francisco, California; Arnold & Porter, 1200 New Hampshire Avenue, NW., Washington, D.C; Robert J. Vizas, *Attorney for Defendants Spectra-Physics, Inc. and Laserplane Corporation.*

United States District Court, Northern District of California

United States of America, Plaintiff, v. Spectra-Physics, Inc. and Laserplane Corporation, Defendants. Civil No. C 78–1879 TEH.

Filed: June 2, 1981.

Final Judgment

Plaintiff, United States of America, having filed its complaint on August 18, 1978, and plaintiff and defendants by their respective attorneys having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law and without this Final Judgment constituting evidence or admission by any party with respect to any issue of fact or law:

Now, therefore, before the taking of any testimony and without trial or adjudication of any issue of fact or law, and upon the consent of the parties, it is hereby

Ordered, adjudged and decreed as follows:

I

This Court has jurisdiction of the subject matter herein and of the parties consenting hereto. The complaint states claims upon which relief may be granted against defendants under Section 7 of the Clayton Act, as amended (15 U.S.C. § 18).

II

As used in this Final Judgment:

A. "Defendants" shall mean Spectra-Physics, Inc. and/or Laserplane Corporation.

B. "Machine Control Laser Systems" ("MCL Systems") shall mean controls for earth-moving machines generally consisting of (1) a command post or tripod-mounted laser transmitter, (2) a detector or receiver, (3) a control box or electronic interface to the machine, and (4) either a hydraulic system which automatically controls the machine or an indicator or read-out that enables the machine operator to control the machine.

C. "Machine Control Laser Systems Components" ("MCL Systems Components") shall mean one or more of the following components for Machine Control Laser Systems: (1) a command post or tripod-mounted laser tranmitter, (2) a detector or receiver, (3) a control box or electronic interface to the machine, and (4) either a hydraulic system which automatically controls the machine or an indicator or read-out that enables the machine operator to control the machine.

D. "MCL Systems Technical Information" shall mean any written information, process, formula, or method for the manufacture of MCL Systems or MCL Systems Components.

E. "Person" shall mean any individual, partnership, firm, corporation, association, or any other business or legal entity.

III

The provisions of this Final Judgment shall apply to defendants and their officers, directors, agents, employees, subsidiaries, affiliates, successors and assigns, and to all other persons in active concert or participation with any of them who shall have received actual notice of this Final Judgment by personal service or otherwise.

IV

A. Defendants are ordered and directed to grant to any person who makes a written application therefor within a period of seven (7) years after the date of entry of this Final Judgment:

1. a nonexclusive royalty-free license to make, use and sell MCL Systems or MCL Systems Components under each United States letters patent which defendants had a right to license as of January 1, 1980, such license to be for the full unexpired term of each licensed patent; and

2. a nonexclusive royalty-free license to use for the purpose of making, using and selling MCL Systems or MCL Systems Components, any MCL Systems Technical Information within the possession of defendants as of January 1, 1980, such license to be for the duration requested by the applicant, and to be terminable by the licensee at any time if the MCL Systems Technical Information becomes within the public domain.

B. Defendants are enjoined and restrained from including any restrictions whatsoever in any license granted pursuant to Section IV except as hereinafter provided:

1. A reasonable fee designed to cover the defendants' administrative costs of issuing the license may be charged;

2. Reasonable provisions may be made to forbid the unauthorized use or disclosure to third parties of MCL Systems Technical Information. Defendants also shall have the right to apply restrictive legends to such MCL Systems Technical Information indicating its proprietary and secret nature and to require the return of all copies of such MCL Systems Technical Information upon the termination of the right to use it.

3. Reasonable provisions may be made for cancellation of the license upon breach by the licensee of any of the provisions included in the license.

V

A. Within fifteen (15) days of the date of this decree, defendants shall file with this Court on the public record and submit in writing to those persons set forth by plaintiff in Appendix A hereto as well as to all other persons known by defendants to be engaged in the manufacture or sale of MCL Systems or MCL Systems Components in the United States, a listing of all patents and MCL Systems Technical Information subject to licensing under this decree. Defendants also shall submit in writing this listing to all other persons identified by plaintiff, from time to time, within fifteen (15) days of such identification. Said listing shall generally describe the technology covered by said patents and MCL Systems Technical Information. Within ninety (90) days of the date of this decree, defendants shall by general description advertise all patents and MCL Systems Technical Information available for licensing under this decree in at least two major trade journals of the general construction industry.

B. Beginning ninety (90) days after the date of this decree and continuing annually thereafter, for seven (7) years, defendants shall submit to this Court and to the Assistant Attorney General in charge of the Antitrust Division written reports setting forth the patents and MCL Systems Technical Information which are available for license pursuant to Section IV, the fact and manner of compliance with Paragraph A of this Section V, a listing of persons submitting applications or making inquiries hereunder, and all licenses issued by defendants pursuant to this Final Judgment during the preceding year.

VI

Nothing in this Final Judgment shall prevent any person from attacking at any time the validity or scope of any patent nor shall this Final Judgment be construed as imputing any validity to any patent.

VII

For the purpose of determining or securing compliance with this Final Judgment, and subject to any legally recognized privilege, from time to time:

A. Duly authorized representatives of the Department of Justice shall, upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to defendants made to its principal offices, be permitted:

1. Access during regular office hours of defendants to inspect and copy all relevant books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of defendants and without restraint or interference from them, who may have counsel present; and

2. Subject to the reasonable convenience of defendants and without restraint or interference from them, to interview officers, employes, and agents of defendants, who may have counsel present;

V 46 J E 12 81 UMI

B. Upon written request of the Attorney General or of the Assistant Attorney General in charge of the Antitrust Division made to defendants' principal offices, defendants shall submit such written reports, under oath if requested, with respect to any of the matters contained in this Final Judgment as may be requested;

C. No information or documents obtained by the means provided in this Section VII shall be divulged by a representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party, or for the purpose of securing compliance with the Final Judgment, or as otherwise required by law; and

D. If at the time information or documents are furnished by defendants to plaintiff in accordance with this Section VII, defendants represent and identify in writing the material in any such information or documents to which a claim of protection may be asserted under Rule 26(c)(7) of the Federal Rules of Civil Procedure, and said defendants mark each pertinent page of such material "Subject to claim of protection under Rule 26(c)(7) of the Federal Rules of Civil Procedure," then ten (10) days notice shall be given by plaintiff to defendants prior to divulging such material in any legal proceedings (other than a grand jury proceeding) to which defendants are not a party.

VII

Defendants shall require, as a condition of the sale or other disposition of all, or substantially all, of the assets of the Construction Systems Division or the Laserplane Division that the acquiring party agrees to be bound by the provisions of this Final Judgment. An acquiring party subject to this provision shall file with the Court, and serve upon the plaintiff, its consent to be bound by this Final Judgment.

IX

Jurisdiction is retained for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders or directions as may be necessary or appropriate for the construction or carrying out of this Final Judgment, for the modification of any of the provisions hereof, for the enforcement of compliance therewith and for the punishment of any violation hereof.

X

The entry of this Final Judgment is in the public interest.

United States District Judge.

Attorneys for the United States.

United States District Court for the Northern District of California

United States of America, Plaintiff, v. Spectra-Physics, Inc. and Laserplane Corporation, Defendants. Civ. No. C–78–1879 TEH.

Competitive Impact Statement

Pursuant to Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16(b)], the United States hereby submits this Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this antitrust proceeding.

I. Nature and Purpose of the Proceeding

On August 18, 1978, the United States filed a civil complaint under Section 15 of the Clayton Act [15 U.S.C. 25], alleging that the defendants had violated Section 7 of the Clayton Act [15 U.S.C. 18]. The complaint charged that the December 8, 1976 acquisition of all the outstanding shares of Laserplane Corporation by Spectra-Physics, Inc. threatened to substantially lessen competition and create a monopoly in the development, manufacture, and sale of construction laser products and systems and machine control laser products and systems. During the course of pre-trial discovery, the Government concluded that the acquisition did not substantially lessen competition in construction lasers and advised the defendants that it would seek relief only with respect to machine control laser products and systems.

II. Description of Practices and Events Involved in the Alleged Violation

Prior to the acquisition, Laserplane Corporation was the dominant firm in the development, manufacture, and sale of machine control laser products and systems that guide and control heavy earth-moving machines for land leveling and farm drainage applications in the general construction and agricultural industries. At that time, machine control laser products and systems had not yet achieved widespread consumer acceptance and total sales were small. Prior to its acquisition of Laserplane, Spectra-Physics produced laser alignment products and systems generally and had produced the components of a machine control laser system which it attempted to sell principally for farm drainage. The Government contends that the acquisition substantially lessened actual and potential competition between Spectra-Physics and Laserplane and increased concentration generally in the development, manufacture and sale of machine control lasers.

Since the filing of the complaint, machine control laser products and systems have found greater consumer acceptance and several new companies have entered the market. The defendants' share of the machine control laser market has declined since the filing of the complaint.

III. Explanation of the Proposed Consent Judgment

The Government and the defendants have stipulated that the proposed consent judgment, which is in a form negotiated by the parties, may be entered by the Court at any time after compliance with the Antitrust Procedures and Penalties Act. The stipulation between the parties provides that there has been no admission by any party with respect to any issue of fact or law. Under the provisions of Section 2(e) of the Antitrust Procedures and Penalties Act, entry of the proposed judgment by the Court is conditioned upon a determination by the Court that the judgment is in the public interest.

The proposed judgment requires the defendants to grant to any person who makes a written application within a period of seven years a nonexclusive royalty-free license to make, use, and sell machine control laser products and systems under any United States patent which the defendants had a right to license as of January 1, 1980. All of the defendants' patents covering products and systems presently being used for machine control laser applications were acquired prior to this date. The proposed judgment also requires the defendants to grant to any person who makes a written

application within seven years a nonexclusive royalty-free license to use any written information, process, formula or method for the manufacture of machine control laser products and systems within defendants' possession as of January 1, 1980.

Because of the competitive importance of technology in this industry, patents and unpatented know-how were among the most important assets involved in the challenged acquisition. Compulsory royalty-free licensing of this technology should remedy the increased concentration and the other anticompetitive effects of the acquisition. Existing competitors in the market may be able to imporve their products and increase sales by obtaining licenses. Licensing may also attract new entry, particularly from manufacturers of heavy machinery which would be likely entrants but for their lack of technological expertise in laser systems. Licensing will also permit both new entrants and existing competitors to expand sales without the threat or fear of any suit for patent infringement.

The defendants are permitted by the proposed judgment to charge a reasonable fee to cover the administrative costs of issuing any license as well as to forbid the unauthorized use or disclosure of the information provided.

IV. Alternatives to the Proposed Consent Judgment

The proposed judgment is the product of lengthy negotiations with the defendants during continuously changing market circumstances. The Government originally sought divestiture of Laserplane's corporate assets by Spectra-Physics.

Although total divestiture has been, and will continue to be, the principal relief sought by the Government in Section 7 cases, the Government has concluded that compulsory, royalty-free licensing of technology is adequate relief in the unique circumstances of this case. Because of the nature of the product market and the current stage of development of the product, Spectra-Physics' manufacturing, sales, and distribution assets have relatively less competitive importance than such assets would have in other industries, whereas Spectra-Physics' technology has relatively more importance. The market has experienced substantial entry by new competitors since the Government filed suit, and the proposed relief is expected to provide additional encouragement to new entry. Finally, divestiture of physical assets in a manner that would ensure competitive viability for both Spectra-Physics and the divested entity would have been more difficult here than in the typical Section 7 case, because many of the assets, including manufacturing facilities, are non-divisible. Therefore, the Government concluded that the proposed relief would remedy the anticompetitive effects of the acquisition as adequately as divestiture would.

V. Remedies Available to Potential Private Plaintiffs

Any potential private plaintiffs who might have been damaged by the alleged violation will retain the same right to sue for monetary damages and any other legal and equitable remedies that they would have had, were the proposed consent judgment not entered. However, pursuant to Section 5(a) of the Clayton Act [15 U.S.C. § 16(a)], as amended, this judgment may not be used as *prima facie* evidence in private litigation.

VI. Procedures Available for Modification of the Proposed Judgment

As provided by the Antitrust Procedures and Penalties Act, any person believing that the proposed judgment should be modified may submit written comments to Anthony E. Desmond, Department of Justice, Antitrust Division, 450 Golden Gate Avenue, San Francisco, California 94102, within the 60-day period provided by the Act. The comments and the Government's responses to them will be filed with the Court and published in the Federal Register. All comments will be given due consideration by the Department of Justice, which remains free to withdraw its consent to the proposed judgment at any time prior to its entry if it should determine that some modification of the judgment is necessary in the public interest. The proposed judgment itself provides that the Court will retain jurisdiction over this action, and that the parties may apply to the Court for such orders as may be necessary or appropriate for the modification or enforcement of the judgment.

VII. Determinative Documents

No materials and documents of the type described in Section 2(b) of the Antitrust Procedures and Penalties Act [15 U.S.C. § 16(b)] were considered in formulating this proposed judgment.

Dated:

James E. Figenshaw,

Attorney, U.S. Department of Justice.

BILLING CODE 4410-01-M

DEPARTMENT OF LABOR

Employment and Training Administration

Employment Transfer and Business Competition Determinations; Applications

The organizations listed in the attachment have applied to the Secretary of Agriculture for financial assistance in the form of grants, loans, or loan guarantees in order to establish or improve facilities at the locations listed. The financial assistance would be authorized by the Consolidated Farm and Rural Development Act, as amended, 7 U.S.C. 1924(b), 1932, or 1942(b).

The Act requires the Secretary of Labor to determine whether such Federal assistance is calculated to or is likely to result in the transfer from one area to another of any employment or business activity provided by operations of the applicant. It is permissible to assist the establishment of a new branch, affiliate or subsidiary, only if this will not result in increased unemployment in the place of present operations and there is no reason to believe the new facility is being established with the intention of closing down an operating facility.

The Act also prohibits such assistance if the Secretary of Labor determines that it is calculated to or is likely to result in an increase in the production of goods, materials, or commodities, or the availability of services or facilities in the area, when there is not sufficient demand for such goods, materials, commodities, services, or facilities to employ the efficient capacity of existing competitive commercial or industrial enterprises, unless such financial or other assistance will not have an adverse effect upon existing competitive enterprises in the area.

The Secretary of Labor's review and certification procedures are set forth at 29 CFR Part 75. In determining whether the applications should be approved or denied, the Secretary will take into consideration the following factors:

1. The overall employment and unemployment situation in the local area in which the proposed facility will be located.

2. Employment trends in the same industry in the local area.

3. The potential effect of the new facility upon the local labor market, with particular emphasis upon its potential impact upon competitive enterprises in the same areas.

4. The competitive effect upon other facilities in the same industry located in other areas (where such competition is a factor).

5. In the case of applications involving the establishment of branch plants or facilities, the potential effect of such new facilities on other existing plants or facilities operated by the applicant.

All persons wishing to bring to the attention of the Secretary of Labor any information pertinent to the determinations which must be made regarding these applications are invited to submit such information in writing within two weeks of publication of this notice. Comments received after the two-week period may not be considered. Send comments to: Administrator, Employment and Training Administration, 601 D Street, NW, Washington, D.C. 20213.

Signed at Washington, D.C. this 8th day of June 1981.

Luis Sepulveda,

Acting Director, Office of Program Services.

BILLING CODE 4510-30-M

Mine Safety and Health Administration

[Docket No. M-81-110-C]

Metzinger Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Metzinger Coal Company, R.D. #1, Ashland, Pennsylvania 17921, has filed a petition to modify the application of 30 CFR 75.1400 (hoisting equipment; general) to its West Drift located in Columbia County, Pennsylvania. The petition is filed under section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cages, platforms or other devices which are used to transport persons in shafts and slopes be equipped with safety catches or other approved devices that act quickly and effectively in an emergency.

2. Petitioner states that no such safety catch or device is available for steeply pitching and undulating slopes with numerous curves and knuckles present in the main haulage slopes of this anthracite mine.

3. Petitioner further believes that if a "makeshift"safety device were installed it would be activated on knuckles and curves, when no emergency existed, and cause a tumbling effect on the conveyance which would increase rather than decrease the hazard to the miners.

4. As an alternate method, petitioner proposes to operates the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope, which have a factor of safety in excess of the design factor as determined by the formula specified in the American National Standard for Wire Rope for Mines.

5. Petitioner states that the proposed alternate method will at all times provide the same degree of safety to the miners affected as that afforded by the standard.

Request for Comments

Persons interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before July 13, 1981. Copies of the petition are available for inspection at that address.

Dated: June 4, 1981.

BILLING CODE 4510-43-M

[Docket No. M-81-74-C]

Mine Hill Coal Co.; Petition for Modification of Application of Mandatory Safety Standard

Mine Hill Coal Company, 247 Wallace Street, Pottsville, Pennsylvania 17901, has filed a petition to modify the application of 30 CFR 75.1400 (hoisting equipment; general) to its Little Buck Mountain Slope located in Schuylkill County, Pennsylvania. The petition is filed under Section 101(c) of the Federal Mine Safety and Health Act of 1977.

A summary of the petitioner's statements follows:

1. The petition concerns the requirement that cages, platforms or other devices which are used to transport persons in shafts and slopes be equipped with safety catches or other approved devices that act quickly and effectively in an emergency.

2. Petitioner states that no such safety catch or device is available for the steeply pitching and undulating slopes with numerous curves and knuckles present in the main haulage slopes of this anthracite mine.

3. Petitioner further believes that if a "makeshift" safety device were installed, it would be activated on knuckles and curves, when no emergency existed, causing a tumbling effect on the conveyance which would increase rather than decrease the hazard to the miners.

4. As an alternate method, petitioner proposes to operate the man cage or steel gunboat with secondary safety connections securely fastened around the gunboat and to the hoisting rope, which have a factor of safety in excess of the design factor as determined by the formula specified in the American National Standard for Wire Rope for Mines.

5. Petitioner states that the proposed alternate method will at all times provide the same degree of safety to the miners affected as that afforded by the standard.

Request for Comments

Persond interested in this petition may furnish written comments. These comments must be filed with the Office of Standards, Regulations and Variances, Mine Safety and Health Administration, Room 627, 4015 Wilson Boulevard, Arlington, Virginia 22203. All comments must be postmarked or received in that office on or before July 13, 1981. Copies of the petition are available for inspection at that address.

BILLING CODE 4510-43-M

Office of Pension and Welfare Benefit Programs

[Prohibited Transaction Exemption 81-48; Exemption Application No. D-2209]

Exemption From the Prohibitions for Certain Transactions Involving Bart Hackley Accountancy Corp. Employees Pension Trust Located in Encino, Calif.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits: (1) the proposed sale of a parcel of real property (the Property) by the Bart Hackley Accountancy Corporation Employees Pension Trust (the Plan) to Bart Hackley, a party in interest to the Plan; and (2) the past loans of money to the Plan by Bart Hackley and by Bart Hackley Accountancy Corporation (the Employer), also a party in interest to the Plan.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523-8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On April 24, 1981, notice was published in the **Federal Register** (46 FR 23341) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions

of section 406(a), 406(b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for the above-described transactions. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was distributed to interested persons in accordance with the requirements set forth in the notice.

No public comments and no requests for a hearing were received by the Department. The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly, the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply: (1) to the sale of the Property to Bart Hackley for a cash purchase price which would be the greater of: (a) the highest bid (b) the current appraised value; or (c) the cost of the Property to the Plan including the $167,500 purchase price and all Plan expenditures from the time of purchase to the time of sale, provided that the purchase price is not less than the fair market value of the Property on the date of sale; and (2) effective September 22, 1980, to the past interest-free loans to the Plan by Mr. Hackley and by the Employer totaling, respectively, $31,721.45 and $22,586.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions that are the subject of this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-50; Exemption Application No. D-2417]

Exemption From the Prohibitions for Certain Transactions Involving Contractor Service & Rentals, Inc. Profit Sharing Plan Located in Charlotte, N.C.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits the leasing of real property by the Contractor Service & Rentals, Inc. Profit Sharing Plan (the Plan) to Contractor Service & Rentals, Inc. (the Employer), and the subsequent sale of that property by the Plan to Mount Vernon Charter Corporation (MVC), a party in interest with respect to the Plan. The lease was entered into before the effective date of the Employee Retirement Income Security Act of 1974 (the Act), but after July 1, 1974, the date specified in the transition rules contained in sections 414 and 2003 of the Act.

EFFECTIVE DATES: This exemption is effective from January 1, 1975 until September 30, 1979 with respect to the lease and on March 24, 1981 with respect to the sale.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523–8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On April 14, 1981, notice was published in the **Federal Register** (46 FR 21855) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restriction of sections 406(a), 406 (b)(1) and (b)(2), amd 407(a) of the Act and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for the transactions described in an application filed on behalf of the Plan. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of

the facts and respresentations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that it has complied with the requirements of the notice to interested persons as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of sections 406(a), 406(b)(1) and (b)(2), and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the leasing by the Plan to the Employer of a parcel of real property located at 317 West Worthington Avenue, Charlotte, North Carolina (the Property), for the period from January 1, 1975 until September 30, 1979, provided the rental payments were not less than fair rental value, and to the sale of the Property by the Plan to MVC on March 24, 1981, for $186,400, provided such amount was not less than the fair market value of the Property on the date of the sale.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions which are the subject of this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510–29–M

[Prohibited Transaction Exemption 81–46; Exemption Application No. D–1752]

Exemption From the Prohibitions for Certain Transactions Involving Everett Clinic Inc. Employees' Profit Sharing Trust Agreement Located in Everett, Wash.

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption permits: (1) The proposed lease (Proposed Lease) of real property by the Everett Clinic, Inc. Employees' Profit Sharing Trust Agreement (the Plan) to the Everett Clinic, Inc. (the Clinic), the Plan sponsor; and (2) the agreement by the Clinic to indemnify and hold the Plan harmless regarding the Proposed Lease.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20216, (202) 523–8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: ON March 24, 1981, notice was published in the **Federal Register** (46 FR 18409) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for the above-described transactions. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition, the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was distributed to interested parties in accordance with the requirements set forth in the notice. No requests for a hearing were received by the Department. One public comment was received in which the applicant's representative disclosed that Olympic Bank of Washington (Olympic) has been appointed fiduciary solely with regard to the Plan's real property assets. The notice of pendency omitted the fact that Capital Consultants, Inc. has served as the Plan's investment manager since March 20, 1974 for the remainder of the Plan's assets and would continue in such role. The Department has concluded that these disclosures by the applicant's representative have no impact on the proposed exemption and

therefore the Department has decided to grant the exemption as proposed.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975 (c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code, shall not apply to: (1) The Proposed Lease by the Plan to the Clinic, provided that the terms and conditions of the Proposed Lease are and will remain at least as favorable to the Plan as those it could obtain from an unrelated third party; and (2) the Clinic's agreement to indemnify and hold the Plan harmless regarding the Proposed Lease.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-47; Exemption Application No. D-2192]

Exemption From the Prohibitions for Certain Transactions Involving the Profit Sharing Plan for Employees of McKenney's and Affiliated Companies Located in Atlanta, Ga.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits (1) the proposed sale of 100% of the common stock of McKeps Inc. (McKeps Stock) by the Profit Sharing Plan for Employees of McKenney's Inc. and Affiliated Companies (the Plan) to McKenney's Inc., and Affiliated Companies (McKenney's), the sponsor of the Plan and (2) the extension of credit in such sale by the Plan to McKenney's.

FOR FURTHER INFORMATION CONTACT: Richard Small of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216 (202) 523–8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18411) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for (1) the proposed sale of 100% of the McKeps Stock by the Plan to McKenney's and (2) the extension of credit in such sale by the Plan to McKenney's. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that it has satisfied the notification provisions as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department. The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest

of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive bnenefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and 406(b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to (1) the proposed sale of 100% of the McKeps Stock by the Plan to McKenney's and (2) the extension of credit in such sale by the Plan to McKenney's provided that at the time of the sale the terms of the sale and the extension of credit in such sale are at least as favorable to the Plan as those which the Plan could obtain in a similar transaction with an unrelated party.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

[Prohibited Transaction Exemption 81-51; Exemption Application No. D-2466]

Exemption From the Prohibitions for Certain Transactions Involving the Prudential Insurance Company of America's Property Investment Separate Account II Located in Newark, N.J.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption would exempt the acquisition by the Prudential Insurance Company of America's Property Investment Separate Account II (PRISA II) of the Emigrant Savings Bank Building (the Building) from the Emigrant Savings Bank of New York (the Bank) subject to an existing mortgage held by Fisher Forty-Second Street Company (Fisher), a party in interest with respect to PRISA II.

FOR FURTHER INFORMATION CONTACT: Alan H. Levitas of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216. (202) 523-8884. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On April 14, 1981, notice was published in the **Federal Register** (46 FR 21857) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (D) of the Code, for the transaction described in an application filed by legal counsel for PRISA II. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. The applicant has represented that it has complied with the requirements of the notification to interested persons as set forth in the notice of pendency. No public comments were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b) of the Act and section 4975(c)(1)(E) and (F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exmptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the

entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (D) of the Code, shall not apply to the acquisition by PRISA II of the Building from the Bank subject to an existing mortgage held by Fisher provided that the terms of the transaction are not less favorable than those obtainable in an arm's length transaction with an unrelated party at the time of consummation of the transaction.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-45; Exemption Application Nos. D-1649, D-1650 and D-2107]

Exemption From the Prohibitions for Certain Transactions Involving R & L Grell, Inc. Money Purchase Pension Plan, R & L Grell, Inc. Profit Sharing Plan and R & L Grell, Inc. Defined Benefit Pension Plan Located in Richvale, Calif.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits: (1) The assignment of an option to purchase a parcel of land (the Land) to the R & L Grell, Inc. Money Purchase Pension Plan (Money Purchase Plan) and the R & L Grell, Inc. Profit Sharing Plan (Profit Sharing Plan), by Larry Grell, vice president of R & L Grell, Inc. (R & L), on behalf of Heather Farms, a partnership owned one-third by Larry Grell and two-thirds by R & L; (2) the offer of an interest in the Land by the Money Purchase Plan to the R & L Grell, Inc. Defined Benefit Plan (Defined Benefit Plan) and the acceptance of the offer by the Defined Benefit Plan; and (3) the proposed lease of the Land by the Money Purchase Plan and the Defined Benefit Plan (collectively, the Plans) to R & L; and (4) the proposed guarantee of R & L's lease payments by three principal shareholders of R & L.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216; telephone (202) 523-8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18405) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for the above-described transactions. The notice set forth a summary of facts and representations contained in the applications for exemption and referred interested persons to the applications for a complete statement of the facts and representations. The applications have been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition, the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicants have represented that a copy of the notice was distributed to interested persons in accordance with the requirements set forth in the notice. No requests for a hearing were received by the Department. One public comment was received, in which the applicants' representative stated that the figures given in the notice of pendency for the net assets of the Money Purchase Plan and the Defined Benefit Plan were reversed. However, the correct figures were utilized in the notice of pendency to calculate the percentage of each Plan's assets involved in the transactions discussed above. The Department has determined that the use of incorrect Plan asset figures in the notice of pendency has no adverse effect on the proposed exemption and has decided to grant the exemption as proposed.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interest of the Plans and of their participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plans.

Accordingly, the restrictions of sections 406(a), 406(b)(1) and (b)(2) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply: (1) effective September 12, 1978, to the assignment of the option to purchase the Land, by Larry Grell on behalf of Heather Farms, to the Money Purchase Plan and the Profit Sharing Plan; (2) effective March 28, 1980, to the offer of an interest in the Land by the Money Purchase Plan to the Defined Benefit Plan and the acceptance of the offer by the Defined Benefit Plan; (3) to the proposed lease of the Land by the Plans to R & L, provided that the terms and conditions of the proposed lease are at least as favorable to the Plans as those they could obtain from an unrelated third party; and (4) to the personal guarantee of R & L's lease payments by Larry Grell, Lawrence Grell, and Roy Grell.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the applications are true and complete, and that the applications accurately describe all material terms of the transactions that are the subject of this exemption.

Signed at Washington, D.C., this 4th day of June 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-49; Exemption Application No. D-2371]

Exemption From the Prohibitions for Certain Transactions Involving Taylor Enterprises, Inc. Profit Sharing Plan Located in Mechanicsburg, Pa.

AGENCY: Department of Labor.

ACTION: Grant of individual exemption.

SUMMARY: This exemption permits the cash sale of a parcel of real property (the Property) located in Ocean City, Maryland by the Taylor Enterprises, Inc. Profit Sharing Plan (the Plan) to Taylor Enterprises, Inc. (the Employer), a party in interest with respect to the Plan.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, (202) 523-8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18413) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for the above-described transaction. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was distributed to interested persons in accordance with the requirements set forth in the notice. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the sale of the Property by the Plan to the Employer for a cash purchase price of the greater of (1) $98,239.67 or (2) the sum of the fair market value of the Property at the time of sale plus all Plan expenditures relating to the Property from the time of purchase to the time of the sale.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms

of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 9th day of June 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-84; Exemption Application No. D-1268]

Exemption From the Prohibitions for Certain Transactions Involving the Thompson Steel Co., Inc., Pension Trust A Located in Canton, Mass.

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits the past sale of corporate bonds by the Thompson Steel Company Pension Trust A (the Trust) to the Paul Revere Life Insurance Company (PRL), a party in interest with respect to the Trust.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Sandler of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, NW., Washington, D.C. 20216, telephone (202) 523-8195. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18415) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1) (A) through (E) of the Code, for the above-described transaction. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. the notice also invited interested persons to submit comments on the requested exemption to the Department. In addition, the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented that a copy of the notice was distributed to interested persons in accordance with the requirements set out in the notice. One request for a hearing and one public comment were received by the Department, both of which were subsequently withdrawn.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of the Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) the fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the intersts of the Trust and of its participants and beneficiaries; and

(C) It is protective of the rights of the participants and beneficiaries of the Trust.

Accordingly, the restrictions of section 406(a), 406 (b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to: (1) the sale by the Trust to PRL on August 8, 1977 of Montgomery Ward Credit 8¼ percent bonds due June 30, 2002; and (2) the sale by the Trust to PRL on October 20, 1977 of Diamond International Corp. 8.35 percent bonds due September 1, 2006, provided that the amount the Trust received for each sale of bonds was not less than their fair market value on the date of sale.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction that is the subject of this exemption.

Signed at Washington, D.C. this 7th day of June 1981.

BILLING CODE 4510-29-M

[Application No. D-1931]

Withdrawal of Proposed Exemption Involving the ABC Freight Forwarding Corp. Employees Profit Sharing Plan and Trust Located in New York City, N.Y.

In the **Federal Register** dated February 13, 1981, (46 FR 12363) the Department of Labor (the Department) published a notice of pendency of a proposed exemption from the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 and from certain taxes imposed by the Internal Revenue Code of 1954. The notice of pendency concerned an application filed by the trustees of the ABC Freight Forwarding Corp. Employees Profit Sharing Plan and Trust (the Plan) on behalf of the Plan.

On May 26, 1981, the applicants notified the Department that they no longer were seeking an exemption for the transaction as it is presently

described in the above cited notice. Accordingly, the applicants requested that the application for exemption be withdrawn from consideration by the Department. The Department concurs with the request. The notice of pendency is hereby cancelled and the application is considered withdrawn.

Signed at Washington, D.C., this 4th day of June, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, Department of Labor.

BILLING CODE 4510-29-M

[Prohibited Transaction Exemption 81-52; Exemption Application No. D-2233]

Exemption From the Prohibitions for Certain Transactions Involving the Parker-Hannafin Corp. Pension and Retirement Income Plans; Located in Cleveland, Ohio

AGENCY: Department of Labor.

ACTION: Grant of Individual Exemption.

SUMMARY: This exemption permits the sale of two undivided one-half interests in a 31.4 acre parcel of real property located in Irvine, California (the Property) by the Parker-Hannafin Corporation (the Employer), to the Ameritrust Company (Ameritrust), as Trustee for the Parker-Hannafin Corporation Pension and Retirement Income Plans (the Plans), if the Property is rezoned for commercial use.

FOR FURTHER INFORMATION CONTACT: Ms. Linda Hamilton of the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216. (202) 523-7462. (This is not a toll-free number.).

SUPPLEMENTARY INFORMATION: On March 24, 1981, notice was published in the **Federal Register** (46 FR 18407) of the pendency before the Department of Labor (the Department) of a proposal to grant an exemption from the restrictions of section 406(a) and 406(b)(1) and (2) of the Employee Retirement Income Security Act of 1974 (the Act) and from the sanctions resulting from the application of section 4975 of the Internal Revenue Code of 1954 (the Code) by reason of section 4975(c)(1)(A) through (E) of the Code, for transactions described in an application filed on behalf of the Plans. The notice set forth a summary of facts and representations contained in the application for exemption and referred interested persons to the application for a complete statement of the facts and representations. The application has been available for public inspection at the Department in Washington, D.C. The notice also invited interested persons to submit comments on the requested exemption to the Department. In addition, the notice stated that any interested person might submit a written request that a public hearing be held relating to this exemption. The applicant has represented it has complied with the requirements of the notice to interested persons as set forth in the notice of pendency. No public comments and no requests for a hearing were received by the Department.

The notice of pendency was issued and the exemption is being granted solely by the Department because, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type proposed to the Secretary of Labor.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code. These provisions include any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his or her duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does the fact the transaction is the subject of an exemption affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) This exemption does not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code.

(3) This exemption is supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption or transitional rule is not dispositive of whether the transaction is, in fact, a prohibited transaction.

Exemption

In accordance with section 408(a) of the Act and section 4975(c)(2) of the Code and the procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975), and based upon the entire record, the Department makes the following determinations:

(a) The exemption is administratively feasible;

(b) It is in the interests of the Plan and of its participants and beneficiaries; and

(c) It is protective of the rights of the participants and beneficiaries of the Plan.

Accordingly, the restrictions of section 406(a) and 406(b)(1) and (2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code, shall not apply to the cash sale of two undivided one-half interests in the Property (located at the northeast corner of Von Karmen Avenue and Michelson Drive in Irvine, California) by the Employer to Ameritrust as Trustee for the Plans, for a total of $13,670,000 provided this amount is no greater than the fair market value of the Property at the time of the sale, and provided that the Property is rezoned for commercial use.

The availability of this exemption is subject to the express condition that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to this exemption.

Signed at Washington, D.C., this 5th day of June, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

[FR Doc. 81-17453 Filed 6-11-81; 8:45 am]

BILLING CODE 4510-29-M

[Application No. D-1450]

Proposed Exemption for Certain Transactions Involving the Pridgeon & Clay, Inc. Restated Profit-Sharing Retirement Trust and the Pridgeon & Clay, Inc. Restated Pension Plan and Trust; Located in Grand Rapids, Mich.

AGENCY: Department of Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the

Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and from certain taxes imposed by the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt financing, conveyancing and leasing arrangements with respect to certain real property involving both the Pridgeon and Clay, Inc. Restated Profit Sharing Retirement Plan and Trust (the Profit Sharing Trust) and the Pridgeon and Clay, Inc. Restated Pension Plan and Trust (the Pension Trust) (collectively referred to as the Plans), and the Michigan National Bank of Grand Rapids, Michigan (the Bank), the Economic Development Corporation of the City of Grand Rapids (EDC), and the Pridgeon and Clay, Inc. (the Employer). The Bank, EDC and the Employer are parties in interest with respect to the Plans.

DATES: Written comments and requests for a public hearing must be received by the Department of Labor on or before July 24, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C-4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D-1450. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: C. E. Beaver, of the Department of Labor, telephone (202) 523-8671. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of sections 406(a), 406(b), and 407(a) of the Act and from the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(c)(1)(A) through (F) of the Code. The proposed exemption was requested in an application filed by the trustees of the Plans on behalf of the Employer and the Plans, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75-1 (40 FR 18471, April 28, 1975). The application was filed with both the Department and the Internal Revenue Service. However, effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicants.

(1) The Employer, a Michigan corporation created in 1948, has its principal offices and operations at 50 Cottage Grove, Grand Rapids, Michigan. This location is owned by the Plans and has been leased to the Employer since 1968. The Employer has authorized capital stock consisting of 10,000 shares of common stock, par value $10 per share with 3,300 shares issued and outstanding, all owned by Donald V. Clay. Its principal activities are the manufacture of metal flanges, brackets, hangers, and metal cutter dies for the automotive industry, including General Motors Corporation and Ford Motor Company. Historically, when there has been a decline in new car sales the Employer has experienced an increase in its "after market" sales. It employees number approximately 180 and, as of March 31, 1980, its total assets were $10,542,394, with total liabilities of $4,590,135. For the year ended March 31, 1980, its total revenues were $17,952,324, with total earnings before income taxes of $1,719,121. Also, the Employer owns insurance policies on the life of Donald V. Clay from which it is the beneficiary for the sum of $1,212,125.

(2) The Plans were established in 1948 and their last determination letter by the Internal Revenue Service was issued during 1978. The Profit Sharing Trust has approximately 120 participants and the Pension Trust has approximately 125 participants. As of March 31, 1979, the total assets of the Plans were $2,672,129 and as of March 31, 1980, they had increased to $3,067,495. The trustees of the Plans are Arthur R. Snell and John W. McNeil (the trustees) who are partners in the law firm of Miller, Johnson, Snell and Cummiskey of Grand Rapids, Michigan. This law firm has been legal counsel for many years for the Employer and its owner, Donald V. Clay. The Bank was appointed by the Trustees to be the investment manager and the custodian of assets of the Plans which have been invested in marketable securities. The Bank would have no responsibility as a fiduciary of the Plans' assets in the proposed transactions for which this exemption is requested. The law firm in which the Trustees are partners has represented the Bank in special matters; however, it does not represent the Bank in any capacity in the proposed transactions. The Bank has been for many years one of the primary lending sources for the Employer.

(3) EDC is a public body corporate and an instrumentality of the City of Grand Rapids, Michigan. Its sole function with respect to the proposed transactions would be to serve as a conduit for financing the remodeling and construction improvements on the real property owned by the Plans.

(4) The applicants are requesting an exemption from the prohibited transaction provisions of the Act for the following transactions. The Plans propose to borrow $1,500,000 directly from EDC in order to remodel and raze obsolete buildings and to construct new and modern facilities to be used in the Employer's primary manufacturing activities. This undertaking will help relieve conditions of unemployment and will help to encourage an increase of industry or commerce within the City of Grand Rapids. This demolition and construction is to be done to a separate portion of real property (consisting of 115,610 square feet with an orginal cost of $179,292) which the Plans own and lease to the Employer at 50 Cottage Grove, Grand Rapids, Michigan (the Project). As between the Plans, the Profit Sharing Trust owns two-thirds of the Project and the Pension Trust owns one-third. Since EDC has no funds, the Bank has agreed to indirectly finance this aforementioned undertaking of the Plans by purchasing from EDC, for $1,500,000, a tax exempt industrial development bond (the Bond), which would be issued and sold in accordance with the Michigan Economic Development Corporation Act and section 103 of the Code. In accordance with the terms of this financing, the Plans would convey legal title to the Project to EDC so that EDC could mortgage the Project to the Bank for security on the Bond. The Employer would execute and deliver a written guarantee to the Bank for payment of the Bond. Simultanously with these above transactions, EDC would execute an agreement with the Plans for leasing the Project to the Plans and for the repurchasing of the Project by the Plans from EDC upon retirement and redemption of the Bond and the payment of $10; and the Plans would execute an agreement with the Employer for subleasing the Project to the

Employer. Also at this time, the Plans would assign to the Bank, as additional security for payment of the Bond, their position as lessor under the sublease and the rentals to be paid to the Plans by the Employer.

(5) This sublease of the project from the Plans to the Employer would be the foundation for repayment of the financing of the Project. For the first five years of the sublease, the initial rentals of $237,000 per year ($19,750 per month) would yield the Plans a gross return of 14.6 percent on the $1,618,540 appraised fair market value of the competed Project. Furthermore, these rentals would be subject to adjustment every five years in accordance with the Bureau of Labor Statistics Consumer Price Index. At the beginning of the sixth year there would be an increase of the rentals of at least 5 percent per year to not less than $290,250 per year. This minimum increase is to ensure that the Plans will be able to pay their unrelated business income tax, which is computed to be less than $250,000 for the first 10 years of the lease agreement. The sublease would be an "absolute" net lease for the Plans for a term of 15 years with two renewal options of 5 years each by the Employer. The Employer would be responsible for all repairs, utilities, insurance, and taxes of the Project. In addition, the Employer would indemnify the Plans from any liability by reason of any action or casualty arising from the ownership and leasing of the Project. The interests of the Plan in the Project would be further protected by the Employer acquiring insurance coverage in the sum of $2,500,000 for public liability and $2,100,000 for property damage.

(6) Under the lease and repurchase agreement of the Project between EDC and the Plans, the Plans would be obligated to pay monthly rentals of $15,450, and no assets of the Plans, other than the Project itself, could be levied upon in case of default. These monthly rentals would equal the monthly payments which would be due the Bank by EDC for amortizing the interest and principal of the Bond. However, simultaneously with the execution and delivery of the above agreements, EDC would assign to the Bank its position as lessor under the lease and repurchase agreement and the rentals therefrom to ensure payment of the interest and principal on the Bond. These assignments by EDC and the Plans of the lease and repurchasement agreement and the sublease, respectively, would result in the Employer paying all rentals directly to the Bank where the rentals would be deposited in a "Bond Fund". Interest and principal of $15,450 per month owing on the Bond would be paid to the Bank from the Bond Fund and surplus amounts (initially) of $4,300 per month would be allocated to the Plans' bank account. Thus, EDC would have no function other than to serve as a conduit for the tax-exempt financing of the Project. Under Michigan law the Plans would continue to be treated as legal owner of the project with powers to assign the sublease with the Employer in part or in whole. The City of Grand Rapids would exempt the Project from any increases in assessed value for tax purposes for the next 12 years.

(7) The material terms of the Bond issued by EDC to the Bank would be $1,500,000 principal amount, 9¼ percent per annum (or $1,094,926), payable over 10 years on a 15 year amortization schedule. Payments of interest and principal would be made in 119 equal monthly installments of $15,450 with all remaining interest and principal due on the Bond in the sum of $756,376 paid in full on the 120 monthly installment. Under certain circumstances, acceleration of these monthly payments would be permitted. It is anticipated that 15 percent of future contributions by the Employer will be used for acceleration of monthly payments. If this acceleration of monthly payments is undertaken by the Plans and the Employer, the total interest paid on the Bond will be reduced to $804,589. The Bond would not become a general obligation of EDC or of any other political subdivision of the State of Michigan. It would be repaid solely from net revenues derived from leasing or selling the Project.

(8) The Trustees retained Elden J. Nedeau, SREA, MAI an independent, qualified real estate appraiser of Muskegon, Michigan to prepare an appraisal of the properties involved in the proposed transactions, including the current fair market value and rental values thereof. As of October 23, 1979, he determined that assuming completion of the Project on October 15, 1979, it would have a current fair market value of $1,618,540 with a fair rental value of $19,750 per month or $237,000 per year.

(9) The Plans have retained an independent fiduciary, Robert Bowman Company, a Michigan corporation located in Grand Rapids, Michigan, as investment manger (the Manager) for the Plans with regard to the proposed transactions. The Manager has represented that the Project and the proposed transactions as structured are in the best interest of the Plans and their participants and beneficiaries and are protective of the rights of the participants and beneficiaries of the Plans. In accordance with the provisions of the employment contract, the Manager will be responsible for monitoring all terms and conditions of the transactions and assuring that they are complied with and that the Trustees satisfy their fiduciary obligations and take all appropriate action for the protection of the rights of the participants and beneficiaries of the Plans. If the Manager determines it to be in the best interests of the Plans and protective of the rights of the participants and beneficiaries, the Manager has the authority to require that the Trustees terminate the lease agreement between the Employer and the Plans. In that event the Employer shall acquire the Project from the Plans at the current fair market value, as determined by an independent qualified appraiser, subject to all existing indebtedness and upon assumption of all obligations of the Plans under the lease and repurchase agreement with EDC and the mortgage and related Bond documents. The Bank and EDC will simultaneously release the Plans as provided in the lease and repurchase agreement. If the Employer is unable to perform, the Plans may prepay its rental obligations under the lease and repurchase agreement with EDC, and thus, accelerate the repayment of the obligations under the Bond. The terms of the Bond would impose a 3 percent penalty for acceleration during the first five years and no penalty during the last five years. This action would permit the Plans to terminate the lease and repurchase agreement with EDC and obtain a new lessee of the Project or sell the Project.

(10) These proposed transactions were recommended by the Trustees to be of optimum benefit to the Plans and their participants and beneficiaries. The Trustees reviewed past investments by the Plans, and concluded that the best investment returns on the assets held by the Plans has been real estate leased to the Employer. The Trustees felt that the proposed transactions would not only provide excellent investment returns to the Plans but would also provide adequate protection to the rights of the participants and beneficiaries of the Plans.

(11) In summary the applicants represented that the proposed transactions satisfy the statutory criteria contained in section 408(a) of the Act because (a) the proposed transactions

will add substantially to the assets of the Plans with no risk except to a small portion ($179,292 or 5.84 percent of current assets) of Plans' total assets; (b) there are adequate safeguards to protect the rights of the participants and beneficiaries in the guarantees, assignments, and insurance policies plus the limitation of repayment of the financing solely from the rentals or sale of the Project; (c) the financing of the Project has been negotiated at arms-length by the Trustees, and the appraisals of the Project as to fair market value and fair rentals has been conducted by an independent, qualified appraiser; and (d) the Manager has independently determined that the proposed transactions are appropriate for the Plans and in the best interests of the Plans and their participants and beneficiaries with adequate safeguards.

Notice to Interested Persons

Notice of the proposed exemption as published in the **Federal Register** will be posted on employee bulletin boards of the Employer and delivered by first class mail to former employees who are participants or their beneficiaries within fourteen (14) days after the notice of pendency of such proposed exemption is published in the **Federal Register.**

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(3) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of sections 406(a), 406(b), and 407(a) of the Act and the taxes imposed by section 4975(a) and (b) of the Code, by reason of section 4975(a)(1) (A) through (F) of the Code shall not apply to the financing, conveyancing, and leasing arrangements involving the indirect loan to the Plans of $1,500,000 by the Bank, the lease and repurchase agreement by EDC and the Plans, and the agreement for leasing the Project to the Employer by the Plans, or to the conveyances, assignments, guarantees and extension of credit according to the terms and conditions as described herein.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application is true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 5th day of June 1981.

Ian D. Lanoff,

Administrator for Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-2464]

Proposed Exemption for Certain Transactions Involving the RREEF MidAmerica Fund–II; Located in San Francisco, Calif.

AGENCY: Department of Labor.

ACTION: Notice of Proposed Exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the Internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the purchase of a shopping center by RREEF MidAmerica Fund–II (the Fund) from an unrelated party, and the assumption by the Fund of an existing lease to J. C. Penney Company, Inc. (Penney), a party in interest with respect to one of the employee benefit plans participating in the Fund. The proposed exemption, if granted, would affect Penney, the Fund, the J. C. Penney Company, Inc. Pension Plan Trust (the Plan) and other plans that have invested in the Fund.

DATES: Written comments must be received by the Department of Labor on or before July 27, 1981.

ADDRESS: All written comments (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D–2464. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Gary H. Lefkowitz of the Department of Labor, telephone (202) 523–8881. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for

exemption from the restrictions of sections 406(a) and 407(a) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (D) of the Code. The proposed exemption was requested in an application filed on behalf of RREEF MidAmerica, the Fund's investment manager, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secertary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. Penney is an employer whose employees are covered by the Plan. The Plan is a qualified pension plan with approximately 120,000 participants. The Plan is one of several plans which invests in the Fund.

2. The Fund is a group trust created on April 1, 1980, that meets the requirements of Rev. Rul. 56–267, 1956–1 C.B. 206. It is designed to afford plans, qualified under section 401(a) of the Code and thereby exempt from Federal taxation under section 501(a) of the Code, the opportunity to diversify their portfolios by investing, through the Fund in real properties. The Fund is engaged primarily in the business of acquiring, improving, operating and holding for investment income-producing real property (as well as personal or mixed property connected therewith), including commercial, office and industrial property dispersed geographically throughout the United States.

3. The Fund is designed for investment by pension or profit-sharing plans, and the minimum investment in the Fund is $1,050,000. At the present time, fourteen pension or profit-sharing trusts have subscribed to invest in the Fund. The total value of assets of the Fund is currently $84,900,000 of which $2,400,000 was invested by the Plan.

4. The trustees of the Fund are Messrs. Claude N. Rosenberg, Jr., Alexander F. Hogland, Paul Sack, Johnson S. Bogart, Richard J. Bertero, Orra C. Hyde, III, Donald A. King, Jr., Wayne R. Harkins and Dean M. Greenwood. Discretion over the investments of the Fund, within the limits of the investment objectives and criteria of the Fund, has been assigned to RREEF MidAmerica (RMA), a general partnership organized in May, 1979 under the laws of the State of California, primarily for the purpose of managing and operating real estate investment programs such as the Fund. RMA is a registered investment adviser under the Investment Advisers Act of 1940. Its address is 200 East Randolph Drive, Suite 7211, Chicago, Illinois 60601.

5. The general partners of RMA are Messrs. Rosenberg, Hogland, Sack, Bogart, Bertero, Hyde, King, Harkins, Greenwood and RREEF partners, a limited partnership, the general partners of which are Messrs. Rosenberg, John D. Leland, Jr. and Joseph A. Mark. Investment decisions with respect to real properties for the Fund are made by an investment committee of RMA which consists of all the general partners of RMA except RREEF Partners.

6. RMA also acts as investment manager for RREEF MidAmerica Fund-I, a group trust established in 1979. RMA is affiliated with the RREEF Corporation and RREEF USA Partners, which are registered investment advisers for other real estate funds having investment objectives similar to those of the Fund. The RREEF Corporation acts as the investment manager for four RREEF Funds, while RREEF USA Partners acts as the investment manager for RREEF USA Fund-I. In addition to the $2,400,000 that the Plan has invested in the Fund, the Plan has also invested $23,700,000 in other funds managed by RREEF Corporation and RREEF USA Partners. This aggregate Plan investment of $26,100,000 constitutes only 4.1% of the total assets of all RREEF Funds which are valued at $640,800,000. Messrs. Rosenberg, Leland and Mark also are principals and employees of Rosenberg Capital Management, a registered investment adviser which provides investment management services with respect to equity and fixed income securities.

7. None of the individuals mentioned above is an officer, director or employee of Penney or its division, Treasury Drug Company, nor do such individuals hold an equity interest in Penney. Neither Penney nor Treasury Drug Company, nor any officer, director or employee of such companies, has any ownership interest in, or employment capacity with, RMA or any entity affiliated with RMA.

8. The Fund has agreed to purchase the Cambridge Square Shopping Center (the Shopping Center) located in Atlanta, Georgia, from Columbia Square Corporation (Columbia). The Shopping Center is currently partially leased pursuant to various lease obligations, including one lease to Penney which was entered into on August 27, 1980. That lease is for 8,100 square feet of the Shopping Center's 64,269 square feet of rentable space. The leased premises shall be occupied by Treasury Drug Company. The Shopping Center was first brought to the attention of RMA by Coldwell Banker, an independent broker, on November 19, 1980, well after the date on which the Penney lease was entered into. Negotiations began shortly thereafter, and the Agreement of Purchase and Sale was signed on February 17, 1981. The applicant has requested relief from the restrictions of sections 406(a), 406 (b)(1) and (b)(2), and 407(a) of the Act and from the sanctions resulting from the application of section 4975 of the Code by reason of section 4975(c)(1) (A) through (E) of the Code. The Department sees no apparent violation of section 406 (b)(1) and (b)(2) of the Act and section 4975(c)(1)(E) of the Code. Accordingly, no exemptive relief is being proposed with respect to those sections.

9. The purchase price for the Shopping Center as stated in the Agreement of Purchase and Sale is $3,508,000, subject to possible increase under purchase provisions regarding purchase payments dependent upon certain gross rents from Shopping Center leases. RMA anticipates an overall acquisition cost of approximately $3,655,000 and closing is expected to occur on or shortly before September 30, 1981. Columbia will assign all existing leases, including the lease with Penney, to the Fund.

10. Neither Columbia nor any of its officers, directors or shareholders is affiliated with, in control of, or controlled by Penney or RMA, or in any way related to Penney or RMA, except as lessor to Penney and seller of property to RMA and the Fund.

11. The investment in the Fund by the Plan constitutes less than 3% of the Fund's total assets and less than 1% of the total assets in the Plan. The purchase price of the Shopping Center itself represents 4.1% of the Fund's total assets and within the entire Shopping Center, the subject lease with Penney represents about 12% of the rentable space.

12. The purchase price of the Shopping Center was arrived at by the parties through arm's length negotiation. Because of its expertise in transactions involving commercial real estate, RMA,

consistent with its normal practice, has not sought an appraisal of the property by a third party. Neither the Fund, RMA, nor any affiliates of RMA is participating in any commission in connection with the transaction, nor do RMA and its affiliates have any fiduciary obligation to Columbia.

13. The applicant represents that the proposed transactions meet the statutory criteria of section 408(a) of the Act because: (1) RMA believes that the Shopping Center is an excellent investment opportunity for the Fund, particularly at a time when such opportunities are difficult to locate; (2) the terms of the sale were arrived at by RMA and Columbia through arm's-length negotiations; and (3) the terms of the Penney lease have already been negotiated by Penney and Columbia, a corporation totally unrelated to, and independent of, Penney and RMA.

Notice to Interested Persons

Notice of the proposed exemption will be mailed by RMA to the appropriate fiduciary of each plan or trust that has subscribed to invest in the Fund. The notice will be mailed on or before June 22, 1981 of proposed exemption. The notice will inform interested persons of their right to comment with respect to the proposed exemption.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b) of the act and section 4975(c)(1) (E) and (F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of sections 406(a) and 407(a) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1) (A) through (D) of the Code shall not apply to the sale of the Shopping Center by Columbia to the Fund and the lease of a portion of the Shopping Center to Penny, which commenced on August 27, 1980, provided the sale and lease terms are no less favorable to the Fund than those available in arm's-length transactions with unrelated parties.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transactions which are the subject of this proposed exemption.

Signed at Washington, D.C., this 8th day of June 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

[Application No. D-2513]

Proposed Exemption for Certain Transactions Involving T. Rowe Price Associates, Inc. Employee Stock Ownership Plan; Located in Baltimore, Md.

AGENCY: Department of Labor.

ACTION: Notice of proposed exemption.

SUMMARY: This document contains a notice of pendency before the Department of Labor (the Department) of a proposed exemption from certain of the prohibited transaction restrictions of the Employee Retirement Income Security Act of 1974 (the Act) and the internal Revenue Code of 1954 (the Code). The proposed exemption would exempt the exchange of T. Rowe Price common stock (Price Stock) owned by the T. Rowe Price Associates, Inc. Employee Stock Ownership Plan (the Plan) for Charles Center Properties, Inc. (Charles Center) common stock (Charles Center Stock) owned by T. Rowe Price Associates, Inc. (the Employer). The Plan will also receive cash from the Employer equal to the difference between the value of the Plan's Price Stock and value of the Charles Center Stock. The proposed exemption, if granted, would affect the Employer, the participants and the beneficiaries of the Plan, Charles Center, and other persons participating in the transaction.

DATES: Written comments and requests for a public hearing must be received by the Department at or before July 17, 1981.

ADDRESS: All written comments and requests for a hearing (at least three copies) should be sent to the Office of Fiduciary Standards, Pension and Welfare Benefit Programs, Room C–4526, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20216, Attention: Application No. D–2513. The application for exemption and the comments received will be available for public inspection in the Public Documents Room of Pension and Welfare Benefit Programs, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, N.W., Washington, D.C. 20216.

FOR FURTHER INFORMATION CONTACT: Ms. Jan Broady of the Department,

telephone (202) 523–7222. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: Notice is hereby given of the pendency before the Department of an application for exemption from the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and from the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code. The proposed exemption was requested in an application filed by the Employer, pursuant to section 408(a) of the Act and section 4975(c)(2) of the Code, and in accordance with procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). Effective December 31, 1978, section 102 of Reorganization Plan No. 4 of 1978 (43 FR 47713, October 17, 1978) transferred the authority of the Secretary of the Treasury to issue exemptions of the type requested to the Secretary of Labor. Therefore, this notice of pendency is issued solely by the Department.

Summary of Facts and Representations

The application contains representations with regard to the proposed exemption which are summarized below. Interested persons are referred to the application on file with the Department for the complete representations of the applicant.

1. The Plan is an employee stock ownership and stock bonus plan, established by the employer in January 1975. As of December 31, 1980, the Plan had 281 participants and assets consisting of approximately $357,000 in cash or cash equivalents and 284,385 shares of Price Stock, aggregately valued at $2,559,465 based on a December 31, 1980 independent appraisal of $9.00 per share. Price Stock is not publicly traded. The Plan holds a 15 precent minority interest in Price Stock. The trustees of the Plan (the Trustees) are Messrs. Howard P. Colhoun, M. Jenkins Cromwell, and E. Kirkbride Miller. Each Trustee is an officer, shareholder, and employee of the Employer. Messrs. Miller and Cromwell are also directors of the Employer.

2. The Employer is a closely-held corporation which maintains its principal offices in Baltimore, Maryland. The Employer is in the business of providing investment advisory services to a number of mutual funds and to other investment clients. The employer is registered as an investment adviser with the Securities and Exchange Commission under the Investment Advisers Act of 1940. The Employer is also registered as an investment adviser under the securities law of various states. As of December 31, 1980, the Employer had under management, net assets in excess of $11 billion. As of December 31, 1980 there were 1,902,375 shares of Price Stock issued and outstanding.

The stock of the Employer, other than that held by the Plan, or held pursuant to distribution under the Plan, is owned by the directors and present or former employees of the Employer. These individuals are parties to an agreement with the Employer which restricts the alienability of Price Stock by requiring sales of such stock to the Employer at a predetermined price. Those employees receiving Price Stock from the Plan may either retain or sell their shares to any willing buyer subject only to a right of first refusal vested in the Employer and to the availability of exemptive relief from registration under the securities laws.

3. Among the assets of the Employer is all of the issued and outstanding common stock of Charles Center. Charles Center is a Maryland corporation formed in 1973. Charles Center's sole asset is a 99.9925 percent general partnership interest in a limited partnership (the Partnership) formed in Maryland in 1961. Holders of the remaining .0075 percent limited partnership interest include a director and two employees of the Employer. The Partnership's major asset is a leasehold interest in a 22 floor office building and appurtenant real property (collectively called the Building) located in Baltimore, Maryland. The Building is known generally as One Charles Center. The Building is a major office facility constructed in the early 1960's. The Building is currently encumbered by a Deed of Trust (the Building Mortgage) securing a debt owed to the Metropolitan Life Insurance Company (Metropolitan). The Building Mortgage is due and payable on January 1, 1982. The Partnership has the right to refinance the Building Mortgage over a term extending up to December 1, 1990. The Partnership also holds cash or cash equivalents totaling approximately $400,000.

4. The Building is subject to an Indenture of Lease (the Ground Lease) effectuated on October 27, 1964 between the Partnership as tenant and Metropolitan as landlord. The Ground Lease expires on October 31, 2004. The Partnership may extend the lease for two additional terms of 20 years each. The annual rental due under the Ground Lease is $111,800.04. As of July 1, 1976, the Building was leased (the Building Lease) in its entirety through 1990 to the Baltimore & Ohio Railroad Company (B & O). On April 30, 1979, B & O assigned the Building Lease to Chessie Resources, Inc. (Chessie). Both B & O and Chessie are members of a group of corporations known generally as the Chessie System. The Building Lease is a "net net" lease, requiring the tenant to pay, in addition to rent, all expenses associated with the Building. These expenses include Building Mortgage payments and refinancing charges as well as rentals due under the Ground Lease. Neither B & O, Chessie, nor any other occupant of the Building is related to the Employer. The annual rent due under the Building Lease is presently $200,000. This amount is to be increased to $300,000 for the years 1982 through 1985 and to $400,000 during the years 1986 through 1990, the final years of such lease.

5. Pursuant to the terms of an option agreement entered into between Charles Center and B & O during 1976 and subsequently assigned by B & O to Chessie in April 1979, Chessie has an exclusive right to acquire the Partnership at any time during calendar year 1982. However, Chessie must first notify Charles Center during the month of August 1981 before exercising the option. The purchase price would be a cash payment of $2,200,000 plus the current assets of the Partnership. Chessie would also assume the outstanding balance of the Building Mortgage at the time of the sale. The exact balance owed on the Building Mortgage will depend upon when the sale closes, but it is expected to approximate $7,000,000.

6. The Plan Trustees propose that the Plan be amended to become a profit sharing plan and that the Plan exchange all of its Price Stock for all of the Charles Center Stock. The Plan will also receive cash equal to the amount by which the value of the Plan's Price Stock exceeds the value of the Charles Center Stock. The proposed exchange is intended to facilitate the diversification of the Plan's holdings and to improve the Plan's investment return. The Employer will bear all expenses incidental to the transaction.

7. On January 1, 1981, the American Appraisal Company of Milwaukee, Wisconsin (American Appraisal), an independent appraiser, placed the fair market value for a minority interest transaction of the Plan's Price Stock at $9.00 per share. American Appraisal is familiar with the Employer and has appraised Price Stock during the five years of the Plan's existence. In addition, the firm's annual appraisal report has been relied upon by many employees of the Employer, who have sought to sell their shares of Price Stock

back to the Employer. The applicant has represented that in valuing Price Stock, American Appraisal has considered certain factors identified in Revenue Ruling 59–60, a ruling pertaining to the valuation of closely held stock. American Appraisal has also incorporated a 25 percent discount (the Discount) for illiquidity in determining the value of Price Stock. The Discount has been utilized on a consistent basis in all prior appraisals submitted by American Appraisal. The Plan acquired Price Stock during 1975–79; each acquisition utilized the Discount. The Discount takes into consideration a potential seller's inability to market Price Stock in an unrestricted fashion to third parties. It also includes certain resale impediments placed upon prospective purchasers. The applicant represents that discounts for non-marketability have been accepted by the Internal Revenue Service and have been ratified by the courts in cases decided under Revenue Ruling 59–60. Although the applicant acknowledges the contemplated transaction involves a redemption by the issuer, the applicant suggests this does not obviate the appropriateness of the adjustment for illiquidity because the stock, in the hands of the issuer as purchaser, will be no less illiquid than it is presently.

8. Several appraisals have been performed of the Partnership's leasehold interest in the Building. These appraisals have been conducted annually by Mr. Ronald Lipman (Lipman), CRE, MAI of the real estate consulting firm, Lipman, Frizzell, and Mitchell which is located in Baltimore, Maryland. Mr. Lipman is independent of and unrelated to the Plan or the Employer. In an appraisal of October 27, 1980, Mr. Lipman placed the value of the leasehold interest at $9,725,000. Mr. Lipman based this value on the assumption that Chessie would exercise its option to purchase the subject property in 1982. In an appraisal dated March 2, 1981, Mr. Lipman placed the value of the Building at $14,250,000. This figure was based on the assumption that the leasehold interest in the Building was not subject to the purchase option and the Building Lease. On April 8, 1981, Mr. Lipman rendered another appraisal opinion which concluded the leased fee interest was worth $13 million. The amount derived was based on the assumption that Chessie would not exercise the option to purchase but would rather continue as a tenant until 1990 under the subsisting Building Lease. For purposes of the proposed transaction, the applicant represents that the Plan will acquire the Charles Center Stock on the basis that Charles Center's interest in the leasehold is valued at $9,725,000, the lowest of the appraised amounts.

9. An independent fiduciary for the Plan has been retained with respect to the proposed transaction. The independent fiduciary is Mr. George D. Hubbard (Hubbard), a Maryland attorney with the Baltimore law firm of Semmes, Bowen and Semmes. Mr. Hubbard has substantial experience in the area of employee benefit matters. Neither Mr. Hubbard nor his firm represents the Employer or the Plan. Mr. Hubbard has preliminarily approved the proposed exchange. Before the exchange takes place, Mr. Hubbard will review the transaction again and give his final approval. The transaction will not be effectuated without Mr. Hubbard's final consent.

In making his preliminary determination, Mr. Hubbard has expressed his views on the questions of diversification and encumbrances to which the leasehold interest in the Building is subject. He has also commented on the reasonableness of the Discount utilized by American Appraisal in performing annual appraisals of Price Stock. With respect to the diversification issue, Mr. Hubbard indicates that as a result of the proposed transaction, there will be a greater opportunity for the Plan to diversify its assets regardless of whether or not Chessie exercises its option. Mr. Hubbard makes this statement based on his perception that a long term investment in the Building presents a much more normal and attractive investment for the Plan and its participants than an investment entirely in the stock of a corporation which is the sole source of assets contributed to the Plan and which is controlled by persons whose interests may not be entirely the same as the interests of the Plan participants as a whole. On the issue of encumbrances, Mr. Hubbard represents that Chessie must make the required payments or it will forfeit its interest under the Building Lease. Considering the financial resources of Chessie, its needs for office space, and its present commitment to the Building, he thinks it highly unlikely that Chessie would permit such a default to occur. If it did, he indicates the Plan would then own the leasehold interest in the Building free and clear of the Building Lease. In that case, the Plan should not incur any difficulty in releasing the Building and obtaining a considerably higher income than is currently available under the existing Building Lease. With regard to the reasonableness of the Discount, Mr. Hubbard believes the 25 percent adjustment is fair to Plan participants and within the range established by other independent appraisers in valuing the stock of closely-held corporations. He notes that American Appraisal has used the Discount percentage consistently in prior year appraisals of Price Stock and that the Discount has proven acceptable to Plan participants wishing to dispose of their shares of Price Stock. Mr. Hubbard states that since a third party would not purchase Price Stock without the Discount there is no reason to expect the Employer to do so.

In addition, Mr. Hubbard states that the proposed transaction is in the interests of the Plan and its participants and beneficiaries because it will allow the Plan to embark on a more suitable investment program than its current investment program. Mr. Hubbard notes that the earnings history of the Employer has not been an impressive one, and during the years 1975–79, Price Stock has ranged in value between $5.00 and $5.39 per share. Although he states the year 1980 was a good year for the Employer, there is no assurance this performance will continue. Therefore, he believes it would be a prudent decision for the Plan to divest itself of its Price Stock at this time rather than deferring such action until some time in the future when the current fair market price of $9.00 per share might not be available. He states that what the Plan can now acquire is an investment in a high quality office building at a price that is a fair one. This investment will either provide the Plan with cash within one year or it will remain an asset of the Plan having a substantially enhanced future value and generating a flow of income.

10. In summary, the applicant represents that the proposed transaction satisfies the statutory criteria of section 408(a) of the Act because: (a) the values of the stock to be exchanged will be determined by independent appaisers; (b) the transaction is subject to the review and approval of an independent fiduciary, and the transaction will not take place unless the fiduciary determines that the transaction is in the best interests of the Plan and its participants and beneficiaries; (c) all attendant fees and expenses will be borne by the Employer; and (d) the Plan will be able to divest itself of an asset producing little income for one

provisions of the Act and the Code, including statutory or administrative exemptions and transitional rules.

Notice to Interested Persons

Notice of the pending exemption will be given to all interested persons which include all present participants of the Plan as well as all former participants and beneficiaries who have vested account balances in the Plan, within five days of the publication of the notice of pendency in the **Federal Register**. The notice will be provided to participants and beneficiaries by either first class mail or personal delivery. In addition, notice will be provided to those participants currently employed by the Employer by posting a copy of the notice of pendency on appropriate bulletin boards. Such notice shall include a copy of the notice of pendency and shall inform interested persons of their right to comment on and/or request a hearing regarding the proposed exemption.

General Information

The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act, which among other things require a fiduciary to discharge his duties respecting the plan solely in the interest of the participants and beneficiaries of the plan and in a prudent fashion in accordance with section 404(a)(1)(B) of the Act; nor does it affect the requirement of section 401(a) of the Code that the plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries;

(2) The proposed exemption, if granted, will not extend to transactions prohibited under section 406(b)(3) of the Act and section 4975(c)(1)(F) of the Code;

(3) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department must find that the exemption is administratively feasible, in the interests of the plan and of its participants and beneficiaries and protective of the rights of participants and beneficiaries of the plan; and

(4) The proposed exemption, if granted, will be supplemental to, and not in derogation of, any other producing a steady stream of income which may be reduced to cash in the event a third party option is exercised. Furthermore, the fact that a transaction is subject to an administrative or statutory exemption is not dispositive of whether the transaction is in fact a prohibited transaction.

Written Comments and Hearing Requests

All interested persons are invited to submit written comments or requests for a hearing on the pending exemption to the address above, within the time period set forth above. All comments will be made a part of the record. Comments and requests for a hearing should state the reasons for the writer's interest in the pending exemption. Comments received will be available for public inspection with the application for exemption at the address set forth above.

Proposed Exemption

Based on the facts and representations set forth in the application, the Department is considering granting the requested exemption under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975). If the exemption is granted, the restrictions of section 406(a), 406(b)(1) and (b)(2) of the Act and the sanctions resulting from the application of section 4975 of the Code, by reason of section 4975(c)(1)(A) through (E) of the Code shall not apply to the exchange of the Plan's Price Stock for the Employer's Charles Center Stock and cash, provided the consideration received by the Plan is not less than the fair market value of the Plan's Price Stock at the date of consummation of the transaction.

The proposed exemption, if granted, will be subject to the express conditions that the material facts and representations contained in the application are true and complete, and that the application accurately describes all material terms of the transaction to be consummated pursuant to the exemption.

Signed at Washington, D.C., this 5th day of June, 1981.

Ian D. Lanoff,

Administrator, Pension and Welfare Benefit Programs, Labor-Management Services Administration, U.S. Department of Labor.

BILLING CODE 4510-29-M

Office of the Secretary

Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents summaries of determinations regarding eligibility to apply for worker adjustment assistance issued during the period June 1–8, 1981.

In order for an affirmative determination to be made and a certification of eligibility to apply for adjustment assistance to be issued, each of the group eligibility requirements of Section 222 of the Act must be met.

(1) that a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated,

(2) that sales or production, or both, of the firm or subdivision have decreased absolutely, and

(3) that increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production.

Negative Determinations

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.

TA–W–9405; Mayer, Rothkopf Industries, Inc., Orangeburg, SC

TA–W–9954; Logerfo Brothers, New York, NY

TA–W–9575; Hillsboro Manufacturing Co., Hillsboro, OH

TA–W–9414; Lake Erie Screw Corporation, Lakewood, OH

TA–W–9997 & 10,267; Huntington Alloys Inc., Huntington, WV and Burnaugh, KY

TA–W–9737; Medusa Corporation, Manitowoc, WI

TA–W–9672; Margie Sportswear, Inc., New York, NY

TA–W–9557; Patricia Gale Coat Co., Inc., Brooklyn, NY

TA–W–9101; Kelly-Springfield Tire Company, Tyler, TX

TA–W–11,316; Kelly-Springfield Tire Company, Fayetteville, NC

TA–W–10,583; D.A.B. Industries, Inc., Vassar, MI

TA–W–10,457; Michigan Blue Print and Supply Company, Detroit, MI

TA–W–10,403; Robins Products Company, Farmington, MI

TA-W-10,345; Capac Metal Products, Inc., Capac, MI
TA-W-10,879; Bethlehem Steel Corporation, Department #560, Bethlehem, PA
TA-W-10,471; Huron Tool & Mfg. Company, Lexington, MI
TA-W-10,406; Target Stamped Products Corporation, Vernon, OH
TA-W-10,999; Butler Taconite Company, Keewatin, MN
TA-W-10,909; SMC Manufacturing Co., Deckerville, MI
TA-W-10,456; H&S Manufacturing Co., Antioch, IL
TA-W-10,261; Magco Plastics, Inc., Cumberland, RI

TA-W-10,544; South River Coat Company, South River, NJ

Investigation revealed that sales by manufacturers for which the subject firm produced under contract did not decline.

TA-W-10,533 & 10,533A; Rome Turney Radiator Company, Rome and Clark Mills, NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of finned tubing are negligible.

TA-W-11,547; St. Joe Zinc Company, Balmat and Edwards, NY

Investigation revealed that criterion (3) has not been met.

TA-W-11,656; Design & Manufacturing Corporation, Connersville, IN

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of household dishwashers are negligible.

TA-W-10,951; Joseph M. Herman Shoe Company, Scarborough, ME

Investigation revealed that criterion (3) has not been met. Separations from the subject firm resulted from a transfer of production to another domestic facility.

TA-W-9374; Beatty Machine & Mfg. Co., Hammond, TN

Investigation revealed that criterion (3) has not been met. Declines in employment at Beatty are attributable to declines in repair operations which do not constitute the production of an article within the meaning of Section 223 of the Act.

TA-W-10,016; Como Plastics, Columbus, IN

Investigation revealed that criterion (3) has not been met. With respect to household products, general industrial products and automotive products, a survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm. With respect to data processing products, sales increased in quantity from 1978 to 1979 and in the first seven months of 1980 compared to the same period in 1979.

TA-W-10,716 & 10,850; Arrow Clothes, Inc., Andrew Pallack & Co., Inc., New York, NY

Investigation revealed that criterion (3) has not been met. Aggreate U.S. imports of uniforms are negligible. U.S. imports of men's and boys' tailored suits did not increase as required for certification. Production of ladies jackets by Arrow clothes increased from 1978 to 1979 and in the January through October 1980 period compared to the same period in 1979.

TA-W-11,081 & 11,082; Curlee Clothing Co., Lexington, KY and Winchester, KY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of men's and boys' tailored suits, dress coats and sportscoats and suits did not increase as required for certification.

TA-W-11,141; Hathaway Tool Works, Eaton Rapids, MI

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of stamping dies are negligible.

TA-W-11,841; ACF Industries, Inc., Carter Carburetor Division, St. Louis, MO

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of carburetors are negligible.

TA-W-172; Johnstown Leather Corp., Johnston NY

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of tanned deerskins and elkskins are negligible.

TA-W-9977; Republic Steel Corporation, Union Drawn Division, Massillon, OH

Investigation revealed that criterion (3) has not been met. With respect to carbon to carbon and alloy steel bars, a survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm. With respect to stainless steel bars, shipments increased from 1978 to 1979 and in the first half of 1980 compared to the first half of 1979.

TA-W-11,845; Old Ben Coal Company Mine #24, Benton, IL

Investigation revealed that criterion (3) has not been met. Aggregate U.S. imports of coal did not increase as required for certification.

TA-W-9062; Lori Coat Co., Inc., Philadelphia, PA

Investigation revealed that criterion (3) has not been met. Evidence revealed that Lori lost the business of its principal manufacturer in November 1978 and was unable to find a steady replacement through 1979 and the first half of 1980.

Affirmative Determinations

TA-W-9528; Frederick Tool Corporation, Elkhart, IN

A certification was issued covering all workers separated on or after January 1, 1980.

I hereby certify that the aforementioned determinations were issued during the period June 1–5, 1981. Copies of these determinations are available for inspection in Room S–5314, U.S. Department of Labor, 200 Constitution Avenue, NW, Washington, D.C. 20210 during normal working hours or will be mailed to persons who write to the above address.

Dated: June 8, 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

AMF/Harley-Davidson Motor Co., Inc.; Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on October 14, 1980 in response to a worker petition received on October 3, 1980 which was filed by the Allied Industrial Workers of America on behalf of workers at the Milwaukee, Wisconsin plant of AMG/Harley-Davidson Motor Company, Inc.

The petitioning group of workers are subject to an ongoing investigation for which a determination has not yet been issued (TA–W–10,324). Consequently further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed in Washington, D.C. this 4th day of June 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

BILLING CODE 4501-28-M

[Secretary of Labor's Order 3–81]

Delegation of Authority and Assignment of Responsibility Under the Trade Act of 1974

June 1, 1981.

1. *Purpose.* To delegate authority and assign responsibility for carrying out functions and responsibilities vested in the Secretary of Labor pursuant to the Trade Act of 1974 (Pub. L. 93–618), related legislation and Executive Orders.

2. *Background.* For those sectors of the economy which may suffer from increased imports, the Trade Act of 1974 provides for import relief and for effective adjustment assistance for firms, communities, and workers.

Heretofore operating responsibility for the Department's worker adjustment assistance programs has been divided in the Department of Labor (DOL). The Bureau of International Labor Affairs (ILAB) conducted investigations and made determinations of the eligibility of workers to apply for trade adjustment assistance. Actual assistance to workers including cash trade readjustment allowances, training opportunities, employment services which includes counseling, testing, and job placement services, and relocation allowances was provided by the Employment and Training Administration (ETA), working through State Employment Security Agencies.

Divided responsibility, however, made it more difficult to fix accountability for the performance of DOL activities under the Trade Act. Therefore, after considerable review a determination was made to transfer the worker trade adjustment assistance activities to the predominant operating component, namely ETA. This arrangement will allow ILAB to concentrate on its international labor policy role unfettered by operating program responsibilities. The transfer also is consistent with the President's desire to better integrate the trade adjustment assistance allowance programs and regular unemployment insurance programs.

3. *Delegation of Authority and Assignment of Responsibility*

a. *The Assistant Secretary for Employment and Training* is hereby delegated authority and assigned responsibility for coordinating, monitoring, and insuring that the functions of the Secretary of Labor under the Trade Act of 1974 are carried out, including but not limited to:

(1) Developing and promulgating Secretary of Labor regulations required to implement the Act.

(2) Developing and promulgating program performance standards relating to the conduct of certification investigations, public hearings, issuance of notice of certification decisions, delivery of program benefits, and other processes involved in the administration of the trade adjustment assistance program.

(3) Initiating investigations upon receipt of petitions for a certification of eligibility to apply for adjustment assistance for workers, and conducting public hearings upon receipt of requests for such hearings.

(4) Determining eligibility of groups of workers to apply for adjustment assistance and publishing the determinations in the **Federal Register.**

(5) Providing, through State Employment Security Agencies (SESA's), a full range of worker trade adjustment assistance benefits to eligible workers, including but not limited to cash benefits, employment services, training opportunities and cash job search and relocation allowances.

(6) Providing for effective administration of the workers trade adjustment assistance program through technical assistance and training to SESA's, monitoring SESA performance, and establishing a system of program and financial reporting.

(7) Developing and carrying out a program to inform and assist workers with respect to the trade adjustment assistance program, including a program of early detection of import injury.

b. *The Commissioner of Labor Statistics* is delegated authority and assigned responsibility for:

(1) Developing, pursuant to Section 282 of the Act, in cooperation with representatives of the Department of Commerce, an import monitoring system and publishing and distributing a summary of the information gathered under that section.

(2) Working with other appropriate agencies of the of the Government, as required, to develop uniform statistics on imports, exports, and production to facilitate comparisons.

c. *The Solicitor of Labor* shall have responsibility for providing legal advice and assistance to all officers of the Department in connection with the carrying out of their responsibilities herein assigned.

4. *Transfer of Resources.* The Office of Trade Adjustment Assistance, ILAB, is hereby transferred to the Employment and Training Administration. This transfer includes personnel, funds, equipment, supplies and records associated with ILAB's responsibilities in connection with the administration of the worker trade adjustment assistance provisions of the Trade Act of 1974.

The Assistant Secretary for Administration and Management is responsible for assuring an orderly and equitable transfer of resources, including assurance of consultation and negotiations as appropriate with representatives of the exclusive union.

5. *Reservations of Authority.* Reserved to the Secretary are the following:

a. Preparing reports for the President and the Congress, including recommendations, as appropriate, with respect to administration of the Trade Act of 1974, and particularly the Department of Labor responsibilities thereunder.

b. Entering into agreements with any State, or with any State agency, who will act as agent of the United States in carrying out Department of Labor responsibilities under the Act.

c. Entering into necessary agreements with agencies of the Federal Government, as required, to carry out responsibilities under the Act.

6. *Directives Affected.* Secretary's Order 3–75 is canceled. Secretary's Order 3–72 remains in effect except where inconsistent with the provisions of this Order, and paragraph 4a(6) of Secretary's Order 4–75 is superseded by the provisions of this Order.

7. *Effective Date.* This Order is effective immediately for planning purposes, and for implementation no later than one month from the date of this Order.

Raymond J. Donovan,

Secretary of Labor.

[FR Doc. 81–17485 Filed 6–11–81, 8:45 am]

BILLING CODE 4510–23–M

[Secretary of Labor's Order 2–81]

Enforcement of Equal Opportunity in Programs and Activities Receiving or Benefiting from Financial Assistance from the Department of Labor

June 1, 1981.

1. *Purpose.* To transfer the Office of Civil Rights from the Office of the Secretary to the Office of the Assistant Secretary for Administration and Management, and to delegate authority and assign responsibility for enforcing equal opportunity in programs and activities receiving or benefiting from Department of Labor (DOL) financial assistance.

2. *Policy.* It is the policy of the DOL to promote equality of opportunity in its programs and activities, and to ensure full compliance with all constitutional, statutory and regulatory

nondiscrimination provisions in programs and activities receiving or benefiting from DOL financial assistance.

3. *Background.* A Secretary of Labor Task Force recommended in 1980 that the civil rights activities of the several DOL grant-making components be centralized and made independent of program management. That recommendation was implemented with the issuance of Secretary's Order 8–80 of October 28, 1980, which established an Office of Civil Rights (OCR) in the Office of the Secretary with responsibility for enforcing Title VI of the Civil Rights Act of 1964 (CRA OF 1964) in programs of the Department. However, in an effort to further centralize and coordinate related activities, OCR is now being transferred to the Office of the Assistant Secretary for Administration and Management (OASAM). The transfer is consistent with the earlier recommendation of separate OCR activities from program management, and it facilitates coordination between Titles VI and VII of the CRA of 1964. The latter title, which deals with internal DOL equal employment opportunity, already is an OASAM responsibility.

4. *Transfer.* The Office of Civil Rights, including its field structure, is hereby transferred from the Office of the Secretary to the Office of the Assistant Secretary for Administration and Management. The field employees will become a part of the Regional Administrator-OASAM component in their respective regions. This transfer includes personnel, funds, equipment, supplies and records associated with administration and enforcement of equal opportunity in grant-making programs of the DOL. The Assistant Secretary for Administration and Management will complete arrangements to effect an orderly and equitable transfer of resources, including assurance of consultation and negotiations as appropriate with the unions representing affected employees.

5. *Delegation of Authority and Assignment of Responsibilities.*

a. *The Assistant Secretary for Administration and Management,* working through the Director, Office of Civil Rights (OASAM), is delegated authority and assigned responsibility for:

(1) Developing, implementing, and monitoring the Department's civil rights enforcement program under all equal opportunity and nondiscrimination requirements applicable to programs of financial assistance from DOL, including Title VI of the Civil Rights Act of 1964, as amended; Section 132 of CETA; Section 504 of the Rehabilitation Act of 1973, as amended; Title IX Of the Education Amendments of 1962, as amended; and the Age Discrimination Act of 1975, as amended (hereinafter referred to as grant related EO laws).

(2) Establishing and formulating all policies, standards, and procedures, as well as issuing rules and regulations governing the civil rights enforcement programs under grant related EO laws.

(3) Achieving compliance through pre-award and post-award reviews, complaint investigations, negotiations, conciliation proceedings, and the application of appropriate sanctions and remedies.

(4) Cooperating and coordinating with DOL Agencies, the Office of the Inspector General, the Department of Justice, the Equal Employment Opportunity Commission and other agencies in connection with the administration of nondiscrimination and equal opportunity laws.

(5) Developing and conducting training and providing technical assistance for the National and regional staffs as well as for DOL Agency program staffs, recipients of DOL financial assistance, and beneficiaries.

(6) Developing and implementing a management information and case tracking system which can be used to assess the effectiveness of the DOL Civil Rights Program; and directing and organizing the regional programs and staff for civil rights in carrying out their functions under the grant related EO laws.

b. *Agency Heads* are assigned responsibility for:

(1) Promoting and instituting measures to assure that equality of opportunity is a reality in all Federal financial assistance programs funded by their Agency.

(2) Assuring that equal opportunity requirements are incorporated into all regulations, procedures and other guidelines and references covering grant programs administered by their Agency.

(3) Maintaining close liaison and cooperating with the Assistant Secretary for Administration and Management, and the Director of the Office of Civil Rights in all civil rights and equal opportunity matters affecting the financial assistance programs of their Agency.

c. *The Solicitor of Labor* is responsible for providing legal advice and assistance to, and representing DOL officials in legal proceedings as appropriate in connection with the administration of grant related EO laws.

6. *Directives Affected.* Secretary's Order 8-80 is canceled.

7. *Effective Date.* This Order is effective immediately for planning purposes, and for implementation no later than one month from the date of this Order.

Raymond J. Donovan,

Secretary of Labor.

[FR Doc. 81-17484 Filed 6-11-81; 8:45 am]

BILLING CODE 4510-23-M

[TA-W-9,528]

Frederick Tool Corp., Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor herein presents the results of an investigation regarding certification of eligibility to apply for worker adjustment assistance.

In order to make an affirmative determination and issue a certification of eligibility to apply for adjustment assistance, each of the group eligibility requirements of Section 222 of the Act must be met. It is determined in this case that all of the requirements have been met.

The investigation was initiated on July 28, 1980 in response to a petition which was filed on behalf of workers at Frederick Tool Corporation, Elkhart, Indiana. The workers produce stamped steel hardware items including primarily folding banquet table legs and hand tools.

Evidence developed in the course of the investigation revealed that all of the criteria have been met.

U.S. imports of hand tools increased absolutely and relative to domestic production in 1979 compared to 1978 and increased absolutely for the period of January through September 1980 compared to the same period in 1979.

U.S. imports of articles like or directly competitive with the folding banquet table legs produced at Frederick Tool Company increased absolutely in 1979 compared to 1978 and increased in the first nine months of 1980 compared with the same period in 1979.

The Departments of Labor and Commerce conducted surveys of the major customers of Frederick Tool Corporation. The surveyed customers, accounting for a substantial proportion of Frederick Tool's sales declines, indicated increased purchases of imported folding banquet table legs and hand tools and decreased purchases of the same products from Frederick Tool

Corporation during the period under investigation.

On September 19, 1980 Frederick Tool Corporation was certified eligible to apply for trade adjustment assistance by the Department of Commerce (F–IN–1246–00).

Conclusion

After careful review of the facts obtained in the investigation, I conclude that increases of imports of articles like or directly competitive with the folding banquet table legs and hand tools produced at Frederick Tool Corporation, Elkhart, Indiana contributed importantly to the decline in sales or production and to the total or partial separation of workers of that firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Frederick Tool Corporaton, Elkhart, Indiana who became totally or partially separated from employment on or after January 1, 1980 are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed at Washington, D.C. this 2nd day of June 1981.

James F. Taylor,

Director, Office of Management, Administration and Planning.

[FR Doc. 81–17489 Filed 6–11–81; 8:45 am]

BILLING CODE 4510–28–M

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a) of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, has instituted investigations pursuant to Section 221(a) of the Act and 29 CFR 90.12.

The purpose of each of the investigations is to determine whether absolute or relative increases of inports of articles like or directly competitive with articles produced by the workers' firm or an appropriate subdivision thereof have contributed importantly to an absolute decline in sales or production, or both, of such firm or subdivision and to the actual or threatened total or partial separation of a significant number or proportion of the workers of such firm or subdivision.

Petitioners meeting these eligibility requirements will be certified as eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act in accordance with the provisions of Subpart B of 29 CFR Part 90. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

Pursuant to 29 CFR 90.13, the petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 22, 1981.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Office of Trade Adjustment Assistance, at the address shown below, not later than June 22, 1981.

The petitions filed in this case are available for inspection at the Office of the Director, Office of Trade Adjustment Assistance, Bureau of International Labor Affairs, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210.

Signed at Washington, D.C. this 29th day of May 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

Lane Cedar Products; Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated of April 6, 1981 in response to a worker petition received on April 1, 1981, which was filed on behalf of workers at Lane Cedar Products, Springfield, Oregon.

The petitioning group of workers are subject to an ongoing investigation for which a determination has not yet been issued (TA-W-12,153). Consequently further investigation in this case would serve no purpose; and the investigation has been terminated.

Signed in Washington, D.C. this 4th day of June, 1981.

Marvin M. Fooks,

Director, Office of Trade Adjustment Assistance.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice (81-54)]

NASA Advisory Council (NAC), Space Science Advisory Committee (SSAC); Meeting

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, Pub. L. 92-463, as amended, the National Aeronautics and Space Administration announces a forthcoming meeting of the NASA Advisory Council, Space Science Advisory Committee.

DATE AND TIME: June 29, 1981, 9:45 a.m. to 5:45 p.m.; June 30, 1981, 9 a.m. to 5 p.m.; and July 1, 1981, 9 a.m. to 12 p.m.

ADDRESS: National Aeronautics and Space Administration, Room F5026, 400 Maryland Ave. SW, Washington, DC 20546.

FOR FURTHER INFORMATION CONTACT: Dr. Jeffrey D. Rosendhal, Code SS, National Aeronautics and Space Administration, Washington, DC 20546 (202/755-3653).

SUPPLEMENTARY INFORMATION: The NAC Space Science Advisory Committee consults with and advises the Council as a whole and NASA on plans for, work in progress on, and accomplishments of NASA's Space Science programs.

The meeting will be open to the public up to the seating capacity of the room (approximately 50 persons including committee members and other participants). Topics under discussion at this meeting will include a status report and overview of the Space Science programs and a discussion of long range planning.

Type of Meeting: Open
Agenda: June 29, 1981

9:45 a.m.—Status of Space Science Advisory Committee (SSAC) Actions—Space Science Board (SSB) Activities—NASA Advisory Council (NAC)—NAC, Solar System Exploration Committee.
10:30 a.m.—Office of Space Science (OSS) Program and Budget Status.
11 a.m.—Origins of Plasma in the Earth's Neighborhood (Open).
1 p.m.—Gravity Probe-B (GP-B).
2 p.m.—Halley's Comet Missions.
3:15 p.m.—Explorer Subcommittee Report and Explorer Issues.
4:15 p.m.—Spacelab Utilization and Space Platforms.
5:15 p.m.—Preliminary Discussion of Recommendations/Writing Assignments.
5:45 p.m.—Adjourn.

June 30, 1981

9 a.m.—NASA Public Information Activities, Publications, etc.
10:45 a.m.—Space Science Tactics and Strategy.
1 p.m.—Discussion of Committee Recommendations/FY 1983 Budget Issues and Priorities.
3:30 p.m.—Committee Writing.
5 p.m.—Adjourn.

July 1, 1981

9 a.m.—Discussion of Committee Recommendations and Future SSAC Activities.
12 p.m.—Adjourn.

June 5, 1981.

Robert F. Allnutt,

Associate Deputy Administrator.

[FR Doc. 81-17394 Filed 6-11-81; 8:45 am]

BILLING CODE 7510-01-M

[Notice (81-55)]

NASA Wage Committee; Meeting Postponement

AGENCY: National Aeronautics and Space Administration.

ACTION: Notice of meeting postponement.

SUMMARY: The scheduled meeting on June 26, 1981, of the NASA Wage Committee, published in the **Federal Register** May 29, 1981, (46 FR 29012), has been postponed. The meeting will be held July 8, 1981. All other information regarding this meeting remains the same as previously announced.

FOR FURTHER INFORMATION CONTACT: Ms. Deborah C. Green, Code NPM-28, National Aeronautics and Space Administration, Washington, DC 20546 (202/755-8520).

June 8, 1981.

Robert F. Allnutt,

Associate Deputy Administrator.

BILLING CODE 7510-01-M

NUCLEAR REGULATORY COMMISSION

Advisory Committee on Reactor Safeguards, Subcommittee on Comanche Peak Units 1 and 2; Meeting

The ACRS Subcommittee on Comanche Peak Units 1 and 2 will hold a meeting on June 29, 1981 at the Braniff House Hotel, W. Airport Drive, Dallas/Ft. Worth, TX to begin its review of the application of the Texas Utilities Generating Company for a license to operate the Comanche Peak Units 1 and 2. The Subcommittee will discuss certain items such as Organization, Training program, Quality Assurance program, etc. related to Comanche Peak Units 1 and 2. Notice of this meeting was published May 19.

In accordance with the procedures outlined in the **Federal Register** on October 7, 1980, (45 FR 66535), oral or written statements may be presented by members of the public, recordings will be permitted only during those portions of the meeting when a transcript is being kept, and questions may be asked only by members of the Subcommittee, its consultants, and Staff. Persons desiring to make oral statements should notify the Designated Federal Employee as far in advance as practicable so that appropriate arrangements can be made to allow the necessary time during the meeting for such statements.

The entire meeting will be open to public attendance.

The agenda for subject meeting shall be as follows:

Monday, June 29, 1981, 1:00 p.m. until the conclusion of business

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, will exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the Texas Utilities Generating Company, NRC Staff, their consultants, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been cancelled or rescheduled, the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by a prepaid telephone call to the cognizant Designated Federal Employee, Mr. Sam Duraiswamy (telephone 202/634-3267) betwen 8:15 a.m. and 5:00 p.m., EDT.

Dated: June 9, 1981.

John C. Hoyle,

Advisory Committee Management Officer.

BILLING CODE 7590-01-M

[Docket Nos. 50-325 and 50-324]

Carolina Power & Light Co.; Issuance of Amendments to Facility Operating Licenses

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 37 and 58 to Facility Operating License Nos. DPR-71 and DPR-62 issued to Carolina Power & Light Company (the licensee) which revised the Licenses for operation of the Brunswick Steam Electric Plant, Units Nos. 1 and 2 (the facility) located in Brunswick County, North Carolina. The amendments are effective as of the date of issuance.

These changes to the Licenses involve incorporation of required operability dates for the modified Augmented Off-Gas Systems at the facility.

The application for amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments. Prior public notice of the amendments was not required since the amendments do not involve a significant hazards consideration.

The Commission has determined that the issuance of the amendments will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendments.

For further details with respect to this action, see (1) the application for amendments dated April 17, 1981, (2) Amendment Nos. 37 and 58 to License Nos. DPR-71 and DPR-62, and (3) the Commission's related Safety Evaluation. These items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. and at the Southport-Brunswick County Library, 109 West Moore Street, Southport, North Carolina 28461. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 3rd day of June 1981.

For the Nuclear Regulatory Commission.

Thomas A. Ippolito,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

BILLING CODE 7590-01-M

[Docket Nos. 50-254-OLA and 50-265-OLA]

Commonwealth Edison Co. and Iowa-Illinois Gas & Electric Co.; Establishment of Atomic Safety and Licensing Board To Preside in Proceeding

Pursuant to delegation by the Commission dated December 29, 1972,

published in the **Federal Register** (37 FR 38710) and §§ 2.105, 2.700, 2.702, 2.714, 2.714a, 2.717 and 2.721 of the Commission's Regulations, all as amended, an Atomic Safety and Licensing Board is being established in the following proceeding to rule on petitions for leave to intervene and/or requests for hearing and to preside over the proceeding in the event that a hearing is ordered:

Commonwealth Edison Company and Iowa-Illinois Gas & Electric Company, Quad Cities Station, Units 1 and 2 Facility Operating License Nos. DPR-29 and DPR-30

This Board is being constituted pursuant to a notice published by the Commission on April 30, 1981, in the **Federal Register** (46 FR 24336) entitled, "Commonwealth Edison Co. and Iowa-Illinois Gas & Electric Co.; Consideration of Amendment to Facility Operating License".

This Board is comprised of the following Administrative Judges:

James L. Kelley, Chairman, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Peter A. Morris, Atomic Safety and Licensing Board Panel, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555

Dr. Richard F. Foster, P.O. Box 4263, Sunriver, Oregon 97701.

Issued at Bethesda, Maryland, this 5th day of June 1981.

B. Paul Cotter, Jr.,

Chief Administrative Judge, Atomic Safety and Licensing Board Panel.

BILLING CODE 7590-01-M

[Docket No. 50-331]

Iowa Electric Light & Power Co., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 69 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative, and Corn Belt Power Cooperative, which revises the Technical Specifications for operation of the Duane Arnold Energy Center, (DAEC) located in Linn County, Iowa. The amendment is effective as of the date of its issuance.

This amendment changes the Technical Specifications to clarify requirements concerning (1) core alterations, (2) core thermal limits, (3) reportable occurrence actions, (4) minimum sample analysis frequencies for SR-89, and to incorporate current Standard Technical Specifications requirements, into these Technical Specifications. The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the applications for amendment dated April 23, 1976 and October 26, 1977, (2) Amendment No. 69 to License No. DPR-49, and (3) the Commission's letter to the Iowa Electric Light and Power Company dated June 3, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa 52401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 3rd day of June 1981.

For the Nuclear Regulatory Commission.

Thomas A. Ippolito,

Chief, Operating Reactors Branch No. 2, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-331]

Iowa Electric Light and Power Co., et al.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issed Amendment No. 70 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative, and Corn Belt Power Cooperative, which revises the Technical Specifications for operation of the Duane Arnold Energy Center, located in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment modifies the Technical Specifications to reflect changes in the surveillance requirements associated with the river water supply system.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated May 24, 1981, as supplemented June 2, 1981, (2) Amendment No. 70 to license No. DPR-49, and (3) the Commission's related Safety Evaluation. all of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Cedar Rapids Public Library, 428 Third Avenue, SE., Cedar Rapds, Iowa 52401. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland this 8th day of June 1981.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-M

[Dockets Nos. 50-30 and 50-185]

National Aeronautics and Space Administration; Order Authorizing Dismantling of Facilities and Disposition of Component Parts

By applications dated March 17, 1980 as revised November 7, 1980 and February 23, 1981, the National

Aeronautics and Space Administration (NASA or the licensee) requested authorization to dismantle the Plum Brook Reactor (a test reactor) and the Plum Brook Mock-up Reactor (a research reactor) (the facilities) located at the Plum Brook Reactor Facility near Sandusky, Ohio, and to dispose of the component parts, in accordance with plans submitted as part of the applications. A "Notice of Proposed Issuance of Orders Authorizing Dismantling of Facility, Disposition of Component Parts, and Termination of Facility License" was published in the **Federal Register** on May 9, 1980 (45 FR 30757) for the Plum Brook Reactor and on May 9, 1980 (45 FR 30758) for the Plum Brook Mock-up Reactor. No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Nuclear Regulatory Commission (the Commission) has reviewed the applications in accordance with the provisions of the Commission's rules and regulations and has found that the dismantling and disposal of component parts in accordance with the licensee's dismantling plans will be in accordance with the regulations in 10 CFR Chapter I, and will not be inimical to the common defense and security or to the health and safety of the public. The basis for the findings is set forth in the concurrently issued Safety Evaluation by the Office of Nuclear Reactor Regulation.

The Commission has prepared an environmental impact appraisal for this action. Based on that appraisal, the Commission has determined that this action will not result in any significant environmental impact and that an environmental impact statement need not be prepared.

Accordingly, NASA is hereby authorized to dismantle the Plum Brook Reactor and the Plum Brook Mock-up Reactor covered by Facility Licenses Nos. TR-3 and R-93, respectively, and dispose of the component parts in accordance with their dismantling plans and the Commission's rules and regulations.

After completion of the dismantling and decontamination, the submission of a report on the radiation survey to confirm that radiation levels at the facilities meet the values defined in the dismantling plans and inspection by representatives of the Commission, consideration will be given to whether a further order should be issued terminating Facility Licenses Nos. TR-3 and R-93.

For further details with respect to this action see (1) the applications for authorization to dismantle the facilities and dispose of component parts dated March 17, 1980, as revised by letters dated November 7, 1980 and February 23, 1981, (2) the Commission's related Safety Evaluation, (3) the Commission's Environmental Impact Appraisal, and (4) the Commission's Negative Declaration dated May 26, 1981 (which is also being published in the **Federal Register**). All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. A copy of items (2) and (3) may be obtained upon request addressed to the United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 26th day of May 1981.

For the Nuclear Regulatory Commission.

Thomas M. Novak,

Assistant Director for Operating Reactors, Division of Licensing.

[FR Doc. 81-17510 Filed 6-11-81; 8:45 am]

BILLING CODE 7590-01-M

[Dockets Nos. 50-30 and 50-185]

Negative Declaration for the National Aeronautics and Space Administration; Plum Brook Reactor and Plum Brook Mock-up Reactor

The U.S. Nuclear Regulatory Commission (the Commission) has considered the order authorizing dismantling of facilities and disposition of component parts for the National Aeronautics and Space Administration (the licensee) Plum Brook Reactor and Plum Brook Mock-up Reactor operated under Facility Licenses Nos. TR-3 and R-93. The order authorizes the licensee to disassemble the reactors, and to dispose of the component parts.

The Commission's Office of Nuclear Reactor Regulation has prepared an environmental impact appraisal for these reactors. On the basis of this appraisal, the Commission has concluded that an environmental impact statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

Dated at Bethesda, Maryland, this 26th day of May 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

[FR Doc. 81-17511 Filed 6-11-81; 8:45 am]

BILLING CODE 7590-01-M

[Docket Nos. 60-361-OL, 50-362-OL]

Southern California Edison Co., et al. (San Onofre Nuclear Generating Station, Units 2 and 3); Order (Time and Place of Final Prehearing Conference on Emergency Planning Issues and Change of Place for Evidentiary Hearing on Seismic Issues)

June 8, 1981.

A final prehearing conference pursuant to 10 CFR 2.752 on emergency planning issues in this proceeding will begin at 9:00 a.m. on June 18, 1981 in San Diego, California in the Executive Room of the Stardust Hotel and Country Club. The Hotel is located at 950 Hotel Circle North. The conference will be open to the public.

The parties are directed to submit proposed agenda items to the Board Chairman at the informal discovery session earlier that week. Where appropriate, as in the case of revised contentions, specific language should accompany the agenda item. The parties should be prepared to discuss the possibility of partial or complete consolidation of the Intervenors' Guard and Friends of the Earth.

The Board previously issued an Order stating that the evidentiary hearing on seismic issues would be held in Courtroom 8 of the United States District Court in San Diego. That Courtroom subsequently became unavailable for that purpose. The evidentiary hearing on seismic issues will be held in the Stardust Room of the Stardust Hotel and Country Club, 950 Hotel Circle North, San Diego. The hearing will begin at 9:00 a.m. on June 22, 1981.

It is so ORDERED.[1]

Dated at Bethesda, Maryland this 8th day of June, 1981.

---

[1] The Applicants filed a motion proposing that a final prehearing conference be held on June 10, 1981, this motion we are granting except for the exact date. The Applicants' proposed date and alternative dates were discussed at length in telephone conference calls on May 29 and June 2, 1981. All parties had a full opportunity to express their preferences and views. In these circumstances, we advised the parties that written responses to the Applicants' motion were unnecessary and would be dispensed with.

For the Atomic Safety and Licensing Board.
James L. Kelley,
Chairman, Administrative Judge.

BILLING CODE 7590-01-M

[Docket No. 50-346]

The Toledo Edison Co. and the Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 38 to Facility Operating License No. NPF-3, issued to the Toledo Edison Company and the Cleveland Electric Illuminating Company (the licensees), which revised Technical Specifications (TSs) for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

This amendment modifies the TSs dealing with reactor decay heat removal capability and also updates the TS Table of Contents.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated December 26, 1980, (2) Amendment No. 38 to License No. NPF-3, and (3) the Commission's letter to the Toledo Edison Company dated June 1, 1981. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C., and at the Government Documents Collection, William Carlson Library, University of Toledo, 2801 W. Bancroft Avenue, Toledo, Ohio.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 1st day of June 1981.

For the Nuclear Regulatory Commission.
John F. Stolz,
Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-346]

The Toledo Edison Co. and the Cleveland Electric Illuminating Co.; Issuance of Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 39 to Facility Operating License No. NPF-3, issued to the Toledo Edison Company and the Cleveland Electric Illuminating Company (the licensees), which revised Technical Specifications for operation of the Davis-Besse Nuclear Power Station, Unit No. 1 (the facility) located in Ottawa County, Ohio. The amendment is effective as of its date of issuance.

The amendment modifies the surveillance requirements for the Intermediate Range Neutron Flux and Rate Instrumentation in that a Channel Functional Test is not required at reactor startup if performed within the previous seven days. The change makes the surveillance requirement at startup consistent with that of the Source Range Instrumentation. The change is consistent with current NRC standard requirements for Intermediate Range Instrumentation for all pressurized water reactors.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has determined that the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with the issuance of this amendment.

For further details with respect to this action, see (1) the application for amendment dated March 22, 1978, (2) Amendment No. 39 to License No. NPF-3, and (3) the Commission's letter to the Toledo Edison Company dated June 1, 1981. All of these items are available for public inspection at the Commission's Public Document Room 1717 H Street, NW., Washington, D.C., and at the Government Documents Collection, William Carlson Library, University of Toledo, 2801 W. Bancroft Avenue, Toledo, Ohio. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 1st day of June 1981.

For the Nuclear Regulatory Commission.
John F. Stolz,
Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[File No. 22-11086]

International Harvester Credit Corp.; Application and Opportunity for Hearing

June 8, 1981.

Notice is hereby given that International Harvester Credit Corporation (the "Company") has filed an application under clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Securities and Exchange Commission that the successor trusteeship of Commerce Union Bank under five existing indentures of the Company which are qualified under the Act is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Commerce Union Bank from acting as trustee under any of such indentures.

The Company alleges that:

1. The Company had outstanding on April 16, 1981 the following described securities issued under the following indentures, each of which was qualified under the Act in connection with the registration under the Securities Act of 1933 of the securities issued thereunder, the file number of each such Registration Statement being set forth in parentheses below:

(a) $50,000,000 4¾% Debentures Series B Due 1981, under Indenture dated as of November 1, 1958 between the Company

and Continental Illinois National Bank and Trust Company of Chicago, Trustee, as supplemented by Supplemental Indenture dated August 1, 1960 (File No. 2–16795);

(b) $50,000,000 8⅝% Debentures Due 1991, under Indenture dated as of August 1, 1971 between the Company and The Chase Manhattan Bank (National Association), Trustee (File No. 2–41096);

(c) $60,000,000 7¾% Debentures Due 1993, under Indenture dated as of February 1, 1972 between the Company and The Northern Trust Company, Trustee (File No. 2–42830);

(d) $75,000,000 9% Notes Due April 1, 1984, under Indenture dated as of April 1, 1976 between the Company and Bank of America National Trust and Savings Association, Trustee (File No. 2–55565); and

(e) $100,000,000 8.35% Notes Due December 15, 1986, under Indenture dated as of December 15, 1976 between the Company and Continental Illinois National Bank and Trust Company of Chicago, Trustee (File No. 2–57773).

2. As has been publicly reported, the Company and its parent, International Harvester Company ("IH"), are each negotiating an agreement for new revolving credit facilities to replace current short-term borrowings of the Company and IH. The indebtedness of the Company under its proposed revolving credit agreement will be secured. As a result of their involvement in such negotiations or their anticipated roles in the restructuring of the indebtedness of the Company or for other reasons, each of the Trustees named in paragraph 1 above has notified the Company of its resignation or its intention to resign as Trustee under the Indenture or Indentures under which it serves as Trustee, each such resignation to become effective upon acceptance by the successor Trustee of appointment under each such Indenture. The Company therefore intends to appoint Commerce Union Bank, One Commerce Place, Nashville, Tennessee 37219, as successor Trustee under each such Indenture.

3. Each of the Indentures referred to in paragraph 1 above contains the provisions required by Section 310(b) of the Trust Indenture Act of 1939.

4. The securities issued under each of the Indentures listed in paragraph 1 above are wholly unsecured. All of such securities constitute senior indebtedness of the Company; the securities issued under each such Indenture rank equally with the securities issued under each other such Indenture.

5. Each of the Indentures referred to in paragraph 1 above provides that, with certain exceptions, the Company will not subject to lien any of its property or assets without securing the payment of the principal of and premium, if any, and the interest on the securities issued under such Indenture equally and ratably with any and all other obligations and indebtedness secured by such lien, so long as any such other obligations and indebtedness are so secured. Because the indebtedness of the Company under its new revolving credit agreement referred to in paragraph 2 above will be secured, the securities outstanding under each of the Indentures referred to in paragraph 1 will, when the Company enters into the new revolving credit agreement, become equally and ratably secured, and will remain so secured so long as any indebtedness of the Company under its new revolving credit agreement is secured; thereafter such securities will again become wholly unsecured.

6. At such time as the indebtedness of the Company under its new revolving credit agreement becomes secured, the issue of securities outstanding under each of the Indentures referred to in paragraph 1 above will become and be secured by the same pool of collateral, equally and ratably with the indebtedness of the Company under the new revolving credit agreement and with the issue of securities outstanding under each other such Indenture, as well as with all other indebtedness of the Company to be secured by such collateral.

7. In order to secure the indebtedness referred to in paragraph 6 above (the "Secured Debt"), the Company expects to enter into certain agreements (the "Security Arrangements") with a bank (which will not be Commerce Union Bank) to be appointed trustee with respect to the Collateral (the "Collateral Trustee"). The Security Arrangements wil provide, *inter alia,* that if circumstances occur under which the Collateral Trustee takes action to realize on the collateral, all amounts so realized will be held in trust by the Collateral Trustee and distributed, equally and ratably, to all holders of Secured Debt (including for the purposes of any such distribution the trustees under each indenture of the Company under which Secured Debt is outstanding). If the indebtedness outstanding under any of the Indentures referred to in paragraph 1 above is not paid when due, or if such indebtedness has been declared payable prior to its stated maturity pursuant to the terms of any such Indenture, the Trustee under any such Indenture will be entitled to give notice to the Collateral Trustee requiring the Collateral Trustee to take action to realize on the collateral.

8. The effect of the Security Arrangements will be to insure that if any holder or group of holders of Secured Debt becomes entitled to cause the collateral Trustee to realize on the collateral, all holders of Secured Debt, including the indebtedness outstanding under each of the Indentures listed in paragraph 1 above, will benefit ratably.

9. For the foregoing reasons, the Company believes that serving as Trustee under any one of the Indentures listed in paragraph 1 above, and continuing such trusteeship during such time as the indebtedness outstanding under each such Indenture is secured and thereafter, when such indebtedness again becomes wholly unsecured, should in no way inhibit, discourage or otherwise inhibit, discourage or otherwise influence Commerce Union Bank's actions as Trustee under any one or more of such other Indentures. Consequently, its trusteeship under all of such Indentures is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Commerce Union Bank from acting as Trustee under any of such Indentures.

The Company waives notice of hearing and waives hearing and waives any and all rights to specify procedures under Rule 8(b) of the Commission's Rules of Practice with respect to the application.

For a more detailed account of the matters of fact and law asserted, all persons are referred to the application which is a public document on file in the office of the Commission at the Public Reference Room, 1100 L Street NW., Washington, D.C.

Notice is further given that any interested person may, not later than June 26, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[File No. 22-11136]

International Harvester Credit Corp.; Application and Opportunity for Hearing

June 8, 1981.

Notice is hereby given that International Harvester Credit Corporation (the "Company") has filed an application under clause (ii) of Section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Securities and Exchange Commission that the continued trusteeship of Manufacturers Hanover Trust Company ("Manufacturers Hanover") under two existing indentures of the Company which are qualified under the Act is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Manufacturers Hanover from acting as trustee under either such indenture.

The Company alleges that:

1. The Company had outstanding on April 16, 1981 the following described securities issued under the following indentures, each of which was qualified under the Act in connection with the registration under the Securities Act of 1933 of the securities issued thereunder, the file number of each Registration Statement being set forth in parentheses below:

(a) $75,000,000 7½ percent Debentures Due 1994, under Indenture dated as of January 15, 1973 between the Company and Manufacturers Hanover, Trustee (File No. 2-46636); and

(b) $100,000,000 13½ percent Notes Due August 1, 1988 under Indenture dated as of August 1, 1980 between the Company and Manufacturers Hanover, Trustee (File No. 2-68588).

2. As has been publicly reported, the Company and its parent, International Harvester Company ("IH"), are each negotiating an agreement for new revolving credit facilities to replace current short-term borrowings of the Company and IH. The indebtedness of the Company under its proposed revolving credit agreement will be secured.

3. Each of the Indentures referred to in paragraph 1 above contains the provisions required by Section 310(b) of the Trust Indenture Act of 1939.

4. The securities issued under each of the Indentures listed in paragraph 1 above are wholly unsecured. All of such securities constitute senior indebtedness of the Company; the securities issued under each such Indenture rank equally with the securities issued under the other such Indenture.

5. Each of the Indentures referred to in paragraph 1 above provides that, with certain exceptions, the Company will not subject to lien any of its property or assets without securing the payment of the principal of (and premium, if any) and the interest on the securities issued under such Indenture equally and ratably with any and all other obligations and indebtedness secured by such lien, so long as any such other obligations and indebtedness are so secured. Because the indebtedness of the Company under its new revolving credit agreement referred to in paragraph 2 above will be secured, the securities outstanding under each of the Indentures referred to in paragraph 1 will, when the Company enters into its new revolving credit agreement, become equally and ratably secured, and will remain so secured so long as any indebtedness of the Company under its new revolving credit agreement is secured.

6. At such time as the indebtedness of the Company under its new revolving credit agreement becomes secured, the issue of securities outstanding under each of the Indentures referred to in paragraph 1 above will become and be secured by the same pool of collateral, equally and ratably with the indebtedness of the Company under the new revolving credit agreement and with the issue of securities outstanding under the other such indenture, as well as with all other indebtedness of the Company to be secured by such collateral.

7. In order to secure the indebtedness referred to in paragraph 6 above (the "Secured Debt"), the Company expects to enter into certain agreements (the "Security Arrangements") with a bank (which will not be Manufacturers Hanover) to be appointed trustee with respect to the collateral (the "Collateral Trustee"). The Security Arrangements will provide, *inter alia*, that if circumstances occur under which the Collateral Trustee takes action to realize the collateral, all amounts so realized will be held in trust by the Collateral Trustee and distributed, equally and ratably, to all holders of Secured Debt (included for the purpose of any such distribution the trustees under each indenture of the Company under which Secured Debt is outstanding). If the indebtedness outstanding under either of the Indentures referred to in paragraph 1 above is not paid when due, or if such indebtedness has been declared payable prior to its stated maturity pursuant to the terms of either such Indenture, the Trustee under such Indenture will be entitled to give notice to the Collateral Trustee requiring the Collateral Trustee to take action to realize on the collateral.

8. The effect of the Security Arrangements will be to insure that if any holder or group of holders of Secured Debt becomes entitled to cause the Collateral Trustee to realize on the collateral, all holders of Secured Debt, including the indebtedness outstanding under each of the Indentures listed in paragraph 1 above, will benefit ratably.

9. By virtue of the Security Arrangements described above, continuing to serve as Trustee under either of the Indentures listed in paragraph 1 above during such time as the indebtedness outstanding under each such Indenture is secured should in no way inhibit, discourage or otherwise influence Manufacturers Hanover's actions as Trustee under the other such Indenture. Consequently, its trusteeship under both such Indentures is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Manufacturers Hanover from acting as Trustee under either such Indenture.

The Company waives notice of hearing and waives hearing and waives any and all rights to specify procedures under Rule 8(b) of the Commission's Rules of Practice with respect to the application.

For a more detailed account of the matters of fact and law asserted, all persons are referred to the application, which is a public document on file in the offices of the Commission at the Public Reference Room 1100 L Street, N.W., Washington, D.C.

Notice is further given that any interested person may, not later than June 26, 1981, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of law or fact raised by such application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem

necessary or appropriate in the public interest and the interest of the investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

[Release No. 34-17850; File No. SR-NASD-81-10]

National Association of Securities Dealers, Inc., Proposed Rule Change; Self-Regulatory Organizations

Comments requested on or before July 6, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 29, 1981, the National Association of Securities Dealers, Inc. filed with the Securities and Exchange Commission the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Swap transactions that are arranged before the effectiveness of a fixed price offering are not generally viewed as being legally consummated until effectiveness of the fixed price offering. Nonetheless, the fair market price of securities taken in trade in such situation is normally determined at the time of the pricing of the fixed price offering, which occurs on the day before effectiveness usually in the afternoon, and the swap is arranged on the basis of that price. In such cases, for purposes of Section 8(a), the determination of the "fair market price at the time of purchase" of the securities to be taken in trade may be made as of the time of pricing of the fixed price offering. As to swaps agreed upon at a time after effectiveness of the offering, fair market price of the swapped securities must be determined as of the time the transaction is legally consummated.

II. Self-Regulatory Organization's Statements Regarding the Proposed Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The language of Section 8(a) provides that a member engaging in a swap transaction "shall purchase the securities at a fair market price at the time of purchase. . . ." The problem perceived by the membership with respect to the foregoing language is that it may not always be clear when the time of purchase occurs for purposes of Section 8(a). This results from the fact that the prices at which swap transactions are to be effected are normally arranged at the time of pricing of the fixed price offering. This usually occurs on the afternoon prior to effectiveness of the offering, whereas both transactions are not legally consummated until the following day upon effectiveness of the offering.

If the fair market price of the swapped security were only permitted to be determined as of the date of effectiveness, the members agreeing to take securities in trade would risk engaging in an inadvertent overtrade because of the potential for market change as to the swapped securities between the time the terms of the swap are arranged and the time the transaction is legally consummated.

The Association believes this result would have no valid regulatory purpose and that the proper interpretation of Section 8 permits the determination of the fair market price of the securities taken in trade to be as of the time the terms of the swap are arranged, generally at the time of pricing of the offering, rather than at the time of effectiveness of the offering. Accordingly, the Interpretation makes clear that the term "fair market price at the time of purchase" means the fair market price at the time arrangement was made to swap the securities.

The Association has authority under Section 15A(b)6 of the Act to issue the Interpretation which is the subject matter of this filing.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Association does not envision any burden on competition resulting from this Interpretation.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Comments were neither solicited nor received in connection with the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of Securities Exchange Act Rule 19b-4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before July 6, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: June 8, 1981.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010-01-M

Privacy Act of 1974; Alteration of System of Records

AGENCY: Securities and Exchange Commission.

ACTION: Alteration of system of records.

SUMMARY: The Securities and Exchange Commission is publishing notice of technical amendments to its system of records identified as SEC–100, Automated Personnel Information System, which was previously identified in 43 FR 21769 (May 19, 1978).

DATES: These amendments shall become effective June 12, 1981.

FOR FURTHER INFORMATION CONTACT: Andrew W. Sidman, Office of the General Counsel, Securities and Exchange Commission, Washington, D.C. 20549, (202) 272–2454.

SUPPLEMENTARY INFORMATION: The Automated Personnel Information System was established to enable the Commission's Office of Personnel to provide a more rapid means to produce notifications of personnel actions and pay changes; to enable the updating of selected data contained in Official Personnel Folders on a more timely basis and allow easier access to that data by authorized members of the staff; and to supply more up-to-date and more frequent reports to SEC management on personnel actions and status.

The alternations of the system announced today will affect only the storage, retrievability, safeguards, and retention and disposal of information contained therein, as well as adding a system manager. In view of the non-sustantive nature of these changes, the Commission is not required to provide advance notice to Congress and the Office of Management and Budget ("OMB"). *See* OMB Circular No. A–108, Transmittal Memoranda No. 1. The amended portions of the notice are italicized.

SEC–100

SYSTEM NAME:

Automated Personnel Information System—SEC

SYSTEM LOCATION:

Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

SEC employees, past and present.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system of records consists of summaries of information received from the following category of records: (a) applicant files (Standard Forms 171 and resumes, attorney supplements to applications, applicant correspondence and evaluations, and summer employment files); (b) official personnel folders (Civil Service Commission files); (c) service record cards; (d) merit promotion posting files, including supervisory appraisals for jobs advertised under SEC Merit Promotion Program; (e) chronological copies of personnel actions (Standard Forms 50); (f) employee payroll number; (g) official position description; (h) supergrade submissions (correspondence with Civil Service Commission requesting new supergrade allocations or changes with respect to existing ones); and (i) annual performance rating and position classification certification.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

5 CFR, sections 213, 293, 302 and 335 and Civil Service Regulations promulgated thereunder.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

1. The records will be used by the SEC staff for (a) preparation of forms relating to official personnel actions; (b) computation of personnel strength of Commission divisions and offices; (c) certification of employment for credit checks or job applications; (d) recording of personnel actions processed; (e) preparation of reports and statistics on personnel activity; (f) location of personnel having specific skills and training; and (g) monitoring personnel actions concerning the staff (i.e., date of employee's last promotion, employee's position description number, etc.).

2. Any record in this system of records may be used by the Commission in connection with any action or proceeding brought by an employee before another agency or a court of law to review personnel action taken by the Commission or the failure by the Commission to take action.

3. Any record in this system may be used in any proceeding where the federal securities laws are in issue or in which the Commission or past or present members of its staff is a party or otherwise involved in an official capacity.

4. Any record in this system of records may be disclosed as a "routine use" to a federal, state or local governmental authority maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to an agency decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grant or other benefit.

5. Any record in this system of records may be disclosed to a federal, state or local governmental authority, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of a contract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

6. The records in this system of records may be used as a data source for management information, to enable the production of summary descriptive statistics and analytical studies in support of the function for which the records are collected and maintained or for related personnel management functions or manpower studies; they may also be utilized to respond to general requests for statistical information (without personal identification of individuals) under the Freedom of Information Act or to local specific individuals for personnel research or other personnel management functions.

7. Records in this system may, in the discretion of the Commission's staff, be disclosed to any person during the course of any inquiry or investigation conducted by the Commission's staff, or in connection with civil litigation, if the staff has reason to believe that the person to whom the record is disclosed may have further information about the matters related therein, and those matters appear to be relevant at the time to the subject matter of the inquiry.

8. Disclosure may be made to a congressional office of information contained in the records relating to any individual in response to any inquiry from the congressional office made at the request of that individual.

9. The information contained in this system of records will be disclosed to the Office of Management and Budget in connection with the review of private relief legislation as set forth in OMB Circular A–19 at any stage of the legislative coordination and clearance process as set forth in that circular.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

The records are computerized and maintained on magnetic disk (current

and historical records) and magnetic tape (historical records and backup).

RETRIEVABILITY:

Information is retrieved by name, employee identification code, or social security account number, *or via a generalized query capability.*

SAFEGUARDS:

Direct access via computer terminals is restricted to certain *SEC staff on a need to know basis* through use of identification codes. *Access via batch capability must be recommended by Division/Office Heads and authorized by the System Manager(s). Authorization forms will be maintained by the Office of Information Systems Management.* Computer disk and tape files, on which the data is stored, are available only through the librarian. Computerized backup files are stored at a secured auxiliary SEC storage facility. The building where the records are maintained has a 24-hour security guard.

RETENTION AND DISPOSAL:

Computerized files will be retained during the time the employee is employed by the Commission and *after separation from the Commission.*

SYSTEM MANAGER(S) AND ADDRESS:

Executive Director and the Director of Personnel, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549.

NOTIFICATION PROCEDURE:

All requests to determine whether this system of records contains a record pertaining to the requesting individual may be made in person during normal business hours at the SEC Office of Personnel, 500 North Capitol Street, Washington, D C., or by mail addressed to the Privacy Act Officer, Securities and Exchange Commission, Washington, D.C. 20549.

RECORD ACCESS PROCEDURES:

Persons wishing to obtain information on the procedure for gaining access to or contesting the contents of these records may contact the Office of Personnel, Securities and Exchange Commission, Washington, D.C. 20549.

CONTESTING RECORD PROCEDURES:

See Record access procedures above.

RECORD SOURCE CATEGORIES:

Records in category (a) are obtained from applicant concerned and interviewer evaluating the applicant. Records in categories (b), (d) and (e) are obtained from employee and supervisors concerned. Records in category (c) are obtained from official personnel folder of the employee concerned. Records in category (f) are assigned to the employee by the Commission and are obtained from the employee's official personnel folder. Records in category (g) are obtained from interviews by position classifiers and/or management analysis staff of the Executive Director's Office with employee and his/her supervisor(s) and administrative assistant. Records in category (h) are obtained from official personnel files, office classification files, interviews by position classifiers, and the employee concerned. Records in category (i) are obtained from annual performance rating files.

By the Commission.

George A. Fitzsimmons,

Secretary.

June 4, 1981.

BILLING CODE 8010-01-M

DEPARTMENT OF THE TREASURY

Internal Revenue Service

Art Print Advisory Panel; Closed Meeting

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of closed meeting of art print advisory panel.

SUMMARY: A closed meeting of the Art Print Advisory Panel will be held in Washington, D.C.

DATE: The meeting will be held July 14 and 15, 1981.

FOR FURTHER INFORMATION CONTACT: Karen Carolan, T:C:E:V, 1111 Constitution Avenue, N.W., Room 5547, Washington, D.C. 20224, Telephone No. (202) 566-6143 (not a toll free number).

Notice is hereby given pursuant to section 10(a)(2) of the Federal Advisory Committee Act, 5 U.S.C. app. (1976), that a closed meeting of the Art Print Advisory Panel will be held on July 14 and 15, 1981, beginning at 9:30 a.m. in Room 3411, Internal Revenue Building, 1111 Constitution Avenue, N.W., Washington, D.C. 20224.

The agenda will consist of the review and evaluation of the acceptability of fair market value appraisals and allocations of value of the assets in art print publishing ventures involved in Federal income tax returns. This will involve the discussion of material in individual tax returns made confidential by the provisions of section 6103 of Title 26 of the United States Code.

A determination as required by section 10(d) of the Federal Advisory Committee Act has been made that these meetings are concerned with matters listed in section 552b(c)(3), (4), (6), and (7) of Title 5 of the United States Code, and that the meetings will not be open to the public.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive appearing in the **Federal Register** for Wednesday, November 8, 1978. (43 FR 52122.)

Roscoe L. Egger, Jr.,

Commissioner.

3

FEDERAL COMMUNICATIONS COMMISSION.

Open Commission meeting

The Federal Communications Commission will hold an Open Meeting on the subjects listed below on Tuesday, June 16, 1981, starting at 9:30 a.m., in Room 856, at 1919 M Street, N.W., Washington, D.C.

Agenda, Item No., and Subject

General—1—*Title:* Fourth Report and Order to amend Parts 0, 13, 73, 74, and 83 of the Commission's Rules concerning the First Class Radiotelephone Operator License and commercial radio operator licenses generally. *Summary:* The Commission considers the elimination of the First Class Radiotelephone Operator License and allowing the holders of any class of commercial operator license, including the Restricted Radiotelephone Operator Permit, but excluding the Marine Radio Operator Permit, to install, maintain, repair and supervise the transmitting equipment at AM, FM, and TV broadcast stations and at FM and TV broadcast translator stations.

General—2—*Title:* Radio Frequency Interference to Electronic Equipment (General Docket 78-369). *Summary:* The Commission considers what further action it will take in General Docket 78-369. Additionally, the Commission examines a report prepared by its staff on Radio Frequency Interference. In light of this report, the Commission will consider the implications to and options on pending legislation.

General—3—*Title:* Allocation of FY-1981 Policy Research Funds. *Summary:* This item seeks funding approval of a research project that will collect and develop information to support long range spectrum planning.

Private Radio—1—*Title:* Amendment of Part 90 of the Commission's rules to designate frequencies in the 806-821 MHz and 851-866 MHz bands for slow-growth land mobile radio systems of certain categories of users; to allocate frequencies in these bands for specific groups of radio services frequency pools; to facilitate authorization of wide-area mobile radio communications systems on frequencies allocated for trunked systems; and to allocate additional frequencies in these bands to loaded Specialized Mobile Relay-Trunked systems located in areas having all presently allocated trunked frequencies assigned (PR Docket Nos. 79-191 and 79-334; RM-3691). *Summary:* The FCC will consider whether to adopt a Further Notice of Proposed Rule Making that acts upon petitions for reconsideration of its Report and Order making special provision for slow-growth private land mobile radio systems in the 806-821 MHz and 851-866 MHz bands for certain categories of radio users (PR Docket No. 79-191, FCC 80-663, released December 10, 1980); whether to allocate frequencies in these bands, which have been held in reserve, for specific groups of radio services frequency pools; whether to adopt proposed rules facilitating authorization of wide-area mobile radio communications systems on frequencies in these bands allocated for trunked systems (PR Docket No. 79-334, FCC 79-855, released January 3, 1980); and whether to institute rule making to allocate additional frequencies in these bands to loaded Specialized Mobile Relay-Trunked systems located in areas having all presently-allocated trunked frequencies assigned (RM-3691).

Assignment and Transfer—1—*Title:* (1) Request for issuance of a tax certificate in connection with the assignment of license of AM station KTNQ, Los Angeles, California, from Storer Broadcasting Company to K-Love Radio Broadcasting, Inc. (2) Request for issuance of a tax certificate in connection with the assignment of license of AM station WMJK, Kissimmee, Florida, from Major

Market Media, Inc. to Central Florida Spanish Broadcasting. *Summary:* The application to assign the license for AM station KTNQ was granted by the Chief, Broadcast Bureau, pursuant to delegated authority on July 13, 1979. The application to assign the license for AM station WMJK was granted by the Chief, Broadcast Bureau, pursuant to delegated authority on September 11, 1980. The assignors in these unrelated sales have requested tax certificates for the sale of their stations to Hispanics, pursuant to the Commission's *Statement of Policy on Minority Ownership of Broadcasting Facilities*, 68 FCC 2d 979 (1978).

Assignment and Transfer—2—*Title:* Transfer of control and assignment of license applications for Stations WHIZ–AM–FM–TV, Zanesville, Ohio; WOMP–AM & FM, Bellaire, Ohio; and WNXT–AM & FM, Portsmouth, Ohio (BTC–780823EG, BTCH–780823EO and BALCT–780823IA; BTC–780825EE and BTCH–780825EF; BTC–780825EG and BTCH–780825EH respectively). *Summary:* The Commission will consider whether this intrafamily transfer of grandfathered media interests is consistent with the multiple ownership rules.

Assignment and Transfer—3—*Title:* Request for issuance of a tax certificate in connection with sale of standard broadcast station WKTQ, Pittsburgh, Pennsylvania, from Nationwide Communications, Inc., to BENI Broadcasting of Pittsburgh, Inc., (BAL–80108HU, granted March 30, 1981). *Summary:* The Commission will consider the request by Nationwide Communications, Inc., for the issuance of a tax certificate in accordance with the Commission's *Statement of Policy on Minority Ownership of Broadcast Facilities*, 68 FCC 2d 979 (1978).

Assignment and Transfer—4—*Title:* Modification of processing standard for determining the financial qualifications of broadcast station purchasers. *Summary:* The Commission will consider modifying the financial standard used in processing assignment and transfer applications to make it more consistent with requirements for other broadcast applicants.

Renewal—1—*Title:* Applications of the Cleveland Board of Education for Renewal and Assignment of the License of Noncommercial Station WBOE–FM, Cleveland, Ohio, to the Cleveland Public Library; and the Mutually Exclusive Application of Cleveland Public Radio for a Construction Permit. *Summary:* The Commission considers the applications of the Cleveland Board of Education for renewal and assignment of the license of noncommercial station WBOE–FM, Cleveland, Ohio, to the Cleveland Public Library; and the mutually exclusive application of Cleveland Public Radio for a construction permit.

Broadcast—1—*Title:* Request by CBS Inc. for a declaratory ruling on Section 73.658(j)(1)(ii) of the Commission's Rules. *Summary:* A request for a declaratory ruling concerning the applicability to nonbroadcast rights of Section 73.658(j)(1)(ii), the financial interest rule, is considered.

Broadcast—2—*Title:* Petitions for reconsideration of the Commission's interim processing policy for TV translator applications, filed by Neighborhood TV Company and a group of broadcast licensees. *Summary:* The Commission considers two petitions for reconsideration of its interim processing policy for TV translator applications during the pendency of the low power television rule making, filed by the above-listed parties.

Broadcast—3—*Title:* Revision of application processing procedures. *Summary:* The Commission will consider revision of its procedures in order to expedite the processing of broadcast applications.

Broadcast—4—*Title:* Docket No. 21474—Revision of EEO program for FCC Form 301 construction permit applicants. *Summary:* The Commission will consider whether to adopt a revised EEO program for FCC Form 301 construction permit applicants, and whether to delete the EEO update requirements for FCC Form 301 major change applicants.

Broadcast—5—*Title:* Revision of FCC Form 301. *Summary:* The Commission will consider revision to the application for construction permit for a commercial broadcast station.

Broadcast—6—*Title:* STA request of Miami Valley Broadcasting Corporation, licensee of AM Station WIOD, Miami, Florida. *Summary:* The FCC considers the STA request of Station WIOD, Miami, Florida for an increase in power to offset Cuban-caused interference.

Broadcast—7—*Title:* Amendment of Sections 73.681 and 73.682(a) of the Commissions Rules to authorize teletext transmissions by television stations. *Summary:* The FCC will consider whether to adopt a combined Notice of Proposed Rule Making and Notice of Inquiry to consider the possible authorization of teletext service. The action will also consider Petitions for Rule Making submitted by CBS, Inc. (RM–3727) and the United Kingdom Industry Group (RM–3876) that request the FCC to adopt standards for teletext.

Broadcast—8—*Title:* Processing of noncommercial, educational FM station applications. *Summary:* The Commission will consider five alternatives in the processing of noncommercial, educational FM station applications pending the resolution of the FM-to-TV Channel 6 interference problem in Docket 20735.

Broadcast—9—*Title:* Elimination of harmful interference to radio communications involving safety to life and protection of property. *Summary:* The Commission will consider the adoption of a Notice of Proposed Rule Making proposing an amendment to Part 74 of the Commission's Rules to eliminate radio interference which jeopardizes safety to life and protection of property.

This meeting may be continued the following work day to allow the Commission to complete appropriate action.

Additional information concerning this meeting may be obtained from Maureen Peratino, FCC Public Affairs Office, telephone number (202) 254–7674.

8

SECURITIES AND EXCHANGE COMMISSION.

Notice is hereby given, pursuant to the provisions of the Government in the Sunshine Act, Pub. L. 94–409, that the Securities and Exchange Commission will hold the following meetings during the week of June 15, 1981, in Room 825, 500 North Capitol Street, Washington, D.C.

Closed meetings will be held on Tuesday, June 16, 1981, at 2:30 p.m. and on Thursday, June 18, 1981, following the 2:30 p.m. open meeting.

The Commissioners, their legal assistants, the Secretary of the Commission, and recording secretaries will attend the closed meetings. Certain staff members who are responsible for the calendared matters may be present.

The General Counsel of the Commission, or his designee, has certified that, in his opinion, the items to be considered at the closed meetings may be considered pursuant to one or more of the exemptions set forth in 5 U.S.C. 552b(c)(4)(8)(9)(A) and (10) and 17 CFR 200.402(a)(4)(8)(9)(i) and (10).

Chairman Shad and Commissioners Loomis and Evans determined to hold the aforesaid meetings in closed session.

The subject matter of the closed meeting scheduled for Tuesday, June 16, 1981, at 2:30 p.m., will be:

Order in administrative proceeding of an enforcement nature.
Formal order of investigation.
Chapter X proceedings.
Consideration of *amicus* participation.
Freedom of Information Act appeals.
Settlement of injunctive action.
Institution and settlement of administrative proceedings of an enforcement nature.
Institution of injunctive actions.
Regulatory matter bearing enforcement implications.

The subject matter of the closed meeting schedule for Thursday, June 18, 1981, following the 2:30 open meeting, will be:

Access to investigative files by Federal, State, or Self-Regulatory authorities.
Formal order of investigation.
Settlement of administrative proceeding of an enforcement nature.
Report of investigation.
Institution of administrative proceeding of an enforcement nature.
Litigation matter.
Institution of injunctive action.

The subject matter of the open meeting scheduled for Thursday, June 18, 1981, at 2:30 p.m., will be:

1. Consideration of whether to authorize transmittal to the Senate Committee on Banking, Housing and Urban Affairs of a letter providing the Commission's comments on S. 610, the "State and local Government Accounting and Financial Reporting Standards Act of 1981." The issues to be considered will include whether to express support for S. 610 as a significant step in ensuring adequate disclosure by state and local governments; and whether to express the opinion that the bill leaves open important issues that the Committee may wish to consider further, either in the context of this bill or in the future. For further information, please contact Alan Rosenblat at (202) 272–2428.
2. Consideration of whether to authorize the transmission of a voluntary survey questionnaire to Form 146 filers. For further information, please contact Hugh R. Haworth at (202) 523–5629.
3. Consideration of whether to release two survey questionnaires: (1) to discount broker-dealers and (2) to full-service firms. For further information, please contact Terry M. Chuppe at (202) 523–5623.
4. Consideration of the Tenth Annual Report of the Securities Investor Protection Corporation ("SIPC"). Pursuant to the Securities Investor Protection Act of 1970, SIPC has submitted its Annual Report to the Commission which, in turn, is required to transmit the report to the President and Congress with such comment as the Commission deems appropriate. For further information, please contact Dan W. Schneider at (202) 272–3115.
5. Consideration of whether to propose amendments to the exemptive regulations for the securities of the International Bank for Reconstruction and Development, the Inter-American Development Bank, and the Asian Development Bank. For further information, please contact Ronald Adee at (202) 272–3250.
6. Consideration of an application by Municipal Fund for Temporary Investment, Inc., for an order of the Commission granting exemptions from the provisions of Sections 2(a)(41) and 12(d)(3) of the Investment Company Act of 1940 and Rules 2a–4 and 22c–1 thereunder to permit it to acquire puts on its portfolio securities from brokers, dealers and banks. For further information, please contact W. Randolph Thompson at (202) 272–3016.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Marcia MacHarg at (202) 272–2468.

June 9, 1981.

BILLING CODE 8010–01–M

Friday
June 12, 1981

Part II

Department of Labor

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

DEPARTMENT OF LABOR

Employment Standards Administration, Wage and Hour Division

Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and Supersedeas Decisions to General Wage Determination Decisions

Modifications and supersedeas decisions to general wage determination decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the modifications and supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of part 1 of subtitle A of title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and supersedeas decisions are effective from their date of publication in the **Federal Register** without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Wage and Hour Division, Office of Government Contract Wage Standards, Division of Government Contract Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Determination Decision.

New General Wage Determination Decisions

None.

Modifications to General Wage Determination Decisions

Supersedeas Decisions to General Wage Determination Decisions

The numbers of the decisions being superseded and their dates of publication in the **Federal Register** are listed with each State. Supersedeas decision numbers are in parentheses following the numbers of the decisions being superseded.

Alabama:
AL81-1122(AL81-1248) ..... Dec. 30, 1980.
Florida:
FL79-1019(FL81-1246) ..... Feb 2, 1979.
FL79-1039(FL81-1247) ..... Feb. 16, 1979.
Mississippi:
MS81-1172(MS81-1244) ..... Jan. 30, 1981.
New York:
NY80-3022(NY81-3039) ..... Apr. 4, 1980.
North Carolina:
NC81-1151(NC81-1245) ..... Dec. 30, 1980.
Tennessee:
TN77-1137(TN81-1243) ..... Nov. 25, 1977.
Virginia:
VA80-3065(VA81-3037) ..... Oct. 31, 1980.
VA80-3066(VA81-3036) ..... Oct. 31, 1980.
VA80-3067(VA81-3035) ..... Oct. 31, 1980.

Cancellation of General Wage Determination Decisions

This is to advise all interested parties that the Department of Labor intends to withdraw 14 days from the date of this notice the following general wage determination:

CT81-3014—Hartford County, Connecticut, dated February 27, 1981 in 46 FR 14632—Residential Construction.

Signed at Washington, D.C., this 5th day of June 1981.

Dorothy P. Come,

Assistant Administrator, Wage and Hour Division.

BILLING CODE 4510-27-M

Part III

Department of Justice

Federal Prison Industries and Bureau of Prisons

Inmate Accident Compensation; Provisions and Proposed Provisions for Management of Inmates in Federal Correctional Institutions

DEPARTMENT OF JUSTICE

Federal Prison Industries

28 CFR Part 301

Inmate Accident Compensation

AGENCY: Federal Prison Industries, Justice.

ACTION: Final rule with comments invited on interim §§ 301.4 and 301.10(c).

SUMMARY: This document revises and republishes in its entirety, and amends portions of, the procedures governing operation of the Federal Prison Industries Inmate Accident Compensation program. This document contains information on procedures governing payment of inmate accident compensation to inmates who have sustained an impairment as a result of a work assignment in Federal Prison Industries, Inc., or in an institutional work assignment involving the operation or maintenance of a federal correctional institution. The amended rule also incorporates a final rule on lost-time wages, previously published as a proposed rule in the **Federal Register** January 12, 1979 (at 44 FR 2985–86). Sections 301.4 and 301.10(c) are published as interim rules with public comment invited on these sections.

DATE: Effective date: This rule becomes effective July 1, 1981. Public comment on interim §§ 301.4 and 301.10(c) must be received on or before August 11, 1981.

ADDRESS: Office of General Counsel, Bureau of Prisons, Room 760, 320 1st Street, N.W., Washington, D.C. 20534.

FOR FURTHER INFORMATION CONTACT: Mike Pearlman, Office of General Counsel, Bureau of Prisons, phone 202/724/3062.

SUPPLEMENTARY INFORMATION: In this document Federal Prison Industries, Inc., is republishing in its entirety, and amending portions of, its provisions governing inmate accident compensation. As the amendments place no increased burden on a claimant, but are amendments of internal procedure, interpretation of policy, or rewording, the provision of the Administrative Procedure Act (5 U.S.C. 553) requiring notice of proposed rulemaking, opportunity for public participation, and delay in effective date is inapplicable.

On January 12, 1979, the Bureau of Prisons published in the **Federal Register** (at 44 FR 2985–86) its proposed rule governing lost-time wages. Public comment on the proposed rule was invited. Following a review of the proposed rule, it has been determined that lost-time wages is more appropriately designated in Chapter III, rather than Chapter V, of 28 CFR. Accordingly, the final rule on lost-time wages is included in Part 301, Inmate Accident Compensation.

In revising its rule on Inmate Accident Compensation the Bureau has decided to publish §§ 301.4 and 301.10(c) as interim rules and to accept public comment through August 11, 1981. Section 301.4 revises the reporting procedure for inmate injuries and, as a result, should expedite the reporting process. Section 301.10(c) expands the present rule by identifying the persons who are ordinarily considered dependents, and the factors considered in determining whether an inmate contributes to the support of dependents.

Members of the public may submit comments on these rules by writing to the above address. Comments on other than the interim rule will be considered, but will receive no further response in the **Federal Register**. Comments on the interim rule will be considered before final action is taken.

The Bureau of Prisons has determined that this is not a major rule for the purpose of Executive Order 12291. The Bureau of Prisons has determined that EO 12291 does not apply to this set of rulemaking since the rules involve agency management. After review of the law and the regulations, the Director, Bureau of Prisons (Commissioner, Federal Prison Industries, Inc.) has certified that these rules for the purpose of the Regulatory Flexibility Act (PL 96–354) do not have a significant impact on a substantial number of small entities.

Summary of Changes/Comments

1. § *301.1* Section 301.1 is reworded. The final rule recognizes that inmate accident compensation may be paid to the dependents of former federal prison inmates. The intent of proposed § 546.10 is incorporated in final § 301.1(b). Based on this redesignation, reference in the proposed rule to sections of Part 301 is deleted from new § 301.1. Section 301.1(c) is new and expands the definition of injury to include both injury by accident and an occupational disease or illness proximately caused by the conditions of the inmate's work assignment.

2. § *301.2* Section 301.2 is revised. The phrase "work detail supervisor" is substituted for "superior" in the first sentence and the word "supervisor" is substituted for "employee" in the second sentence of the amended rule. Throughout the amended rules, the more concise term "impairment" is substituted for "physical impairment."

3. § *301.4* Section 301.4(a) adds the phrase "as well as injuries observed by staff" as this also warrants completion of an injury report. The rule requires that the injury report contain the inmate's signed statement as to how the injury occurred. The inmate is to receive a copy of this report. The final rule deletes reference to the appointed representative of the safety manager ("safety officer" in the previous rule), as this is expected whenever the safety manager is unavailable. The amended rule deletes reference to the report being sent to both the Warden of the institution and to the safety administrator in Washington, D.C., since distribution is designated on the report. The amended rule requires the institution safety manager to ensure that the injury report is complete and, where appropriate, a lost-time follow-up report is prepared. Section 301.4(b) is new and requires the institution safety manager to present lost-time injury reports to the Institution Safety Committee for that committee's determination as to work-relatedness of an injury. This language replaces provisions of proposed § 546.11 (a)–(d). The amended rule requires lost-time reports to go before the Safety Committee, and deletes the proposed requirement for initial determination by the safety manager. The time frame specified in proposed § 546.11(d) is deleted. Final § 301.4(b) requires each Safety Committee to have regularly scheduled meetings and to make their written determination of the work-relatedness of an injury based on available evidence and testimony. The inmate is to receive a copy of the Committee's written determination. The intent of proposed § 546.11(e) is reflected in new § 301.10(e).

A comment to proposed § 546.11(c) favored full due process hearings at a review as to whether an accident was work-related. This approach is not feasible, nor is it necessary. The existing procedure allows for a decision to be made without undue delay, based on information directly pertaining to the accident. There are adequate protections to accurate decision-making. As revised, the determination is made not by the safety manager, but rather by the institution Safety Committee. An inmate who disagrees with the decision may appeal the decision under the Administrative Remedy Procedure.

4. § *301.5* The extraneous phrase "during his confinement" is deleted from the amended rule. The amended rule adds the title of Administrative Form 43. The amended rule substitutes the phrase "medical examination" for "physical examination." The next-to-last sentence

of § 301.5(a) substitutes the word "refusal" for "failure" to better indicate conditions under which a forfeiture of rights to compensation occurs. Amended § 301.5(b) requires both Administrative Forms 19 and 19A to be referenced, or to be forwarded to the Claims Examiner.

5. § *301.6* The amended rule requires the finding of "any Inquiry Team" as opposed to "local Board of Inquiry" be forwarded to the Claims Examiner.

6. § *301.7* The amended rule adds the clarifying language "assigned to another task more suitable to the inmate's ability" as a necessary procedure for an inmate who is considered "accident-prone" in the performance of the present work assignment.

7. § *301.8* The extraneous phrase "at the time of admission" is deleted from the first sentence of § 301.8. The word "confinement" is substituted for "incarceration" in the second sentence.

8. § *301.9* The word "basically" is deleted from the first sentence of this section. The section itself sufficiently defines compensable and noncompensable injuries.

9. § *301.10* Section 301.10 is retitled "Lost-time Wages". The amended rule (§ 301.10(a)-(d)) expands information presently in § 301.10 and incorporates language originally proposed in § 546.12. Section 301.10(a) includes inmates in both industrial and non-industrial work assignments. The amended rule clarifies that while the day of injury counts as a workday, the time of day the injury occurs is considered in determining the three consecutive workday (was "mandays") limitation. Section 301.10(b) describes the basis for determination of lost-time wages, and is consistent with the previous rule. Language is added to describe the basis for lost-time wages (pay in effect at time of injury) for an inmate assigned to an institutional work assignment and who has been granted a lump sum payment (performance pay). Section 301.10(c) maintains the percentages given in the present language. The subsection does clarify the term "dependents" and provides general guidelines for determining "support of dependents". The amended rule specifies that a determination of dependency for purposes of determining lost-time wages is not binding on any subsequent claim to receive inmate accident compensation. These are separate actions and intervening events could alter dependency status.

Proposed § 546.12 is reflected in § 301.10(d). Section 301.10(d)(1) inserts the term "pre-injury", to recognize the work assignment to which the inmate returns. Section 301.10(d)(2) substitutes "another work area or program for reasons unrelated to the sustained work injury" for "employed at a different work assignment". Section 301.10(d)(3) expands the proposed rule's "return to work" to state "return to a regular work assignment or to a lighter duty work assignment." Proposed § 546.12(b) is reworded and becomes new § 301.10(d)(3)(i). Subsection (d)(3)(ii) is new and states that the inmate is to experience no loss of pay by return to a regular or lighter duty work assignment which does not offer the same pay as the pre-injury position. Pay at the pre-injury rate is to continue on the new assignment until a suitable position is available at the pre-injury rate of pay. Section 301.10(e) expands proposed § 546.11(e). The final rule advises the inmate of the right to appeal a determination through use of the Administrative Remedy Procedure on either the work-relatedness of an injury, or the rate at which lost-time wages are paid.

10. § *301.11* While this section is reworded, its basic intent is unchanged. The words "confinement" and "claimant" are substituted for "incarceration" and "applicant" respectively. The last sentence of former § 301.10 is now placed in amended § 301.11. The revised rule deletes the word "significant" as the phrase "no impairment" is the determining factor in declining to consider a claim. The revised rule substitutes the more concise term "inmate" for "injured."

11. § *301.12*–§ 301.18 The intent of these sections is unchanged. As amended, the rule now reflects some minor language changes (for example, "claimant" for "his or her", "confined" for "incarcerated", etc.). In § 301.13(b), for purposes of clarity, reference to the beneficiary is deleted as the claimant is the encompassing term. The last sentence of § 301.13(b) is deleted from the revised rule as its intent is recognized within existing legal authority. In § 301.16(a), the amended rule substitutes "Committee" for "Bureau of Prisons" to properly designate the responsible area. Similarly, § 301.18 substitutes "Federal Prison Industries, Inc." for "Bureau of Prisons". In § 301.17(a) the phrase "under review" is added to clarify the nature of evidence to be presented. Section 301.17(b) is amended to recognize that the Committee may be presented oral, pictorial, and written evidence.

12. § *301.19* § 301.19(b) deletes the requirement that the claimant is responsible for costs related to the services of the claimant's representative. It is beyond the scope of Federal Prison Industries, Inc., to dictate who bears this cost. As amended, the section specifies that Federal Prison Industries, Inc., may not assume such costs. Amended § 301.19(c) inserts the phrase "A request for additional information, or" to recognize such an occurrence, and to indicate how it is to be handled. Other revisions to § 301.19 consist of minor word changes, and do not affect the rule substance.

13. § *301.20* In addition to minor word changes, the amended rule recognizes that the claimant's representative may be provided notification of the Associate Commissioner's decision.

14. § *301.21* The amended rule substitutes the phrase "exceed that" for "be paid in greater amount than" in describing compensation limitations.

15. § *301.22* Section 301.22 is retitled "Time and Method of Payment of Compensation Award". In addition to minor word changes, the amended rule identifies the "claims examiner" as the individual who furnishes a copy of the award authorization to the claimant, or, as amended, "to the claimant's representative". The phrase "and necessary for the support of" is deleted from the amended rule as its intent is included in the remaining language of "beneficial to the claimant or the claimant's dependents". In an earlier revision to this section, § 301.22(b) was inadvertently deleted. This section has been reworded and it is reinserted at this time. Section 301.22(b) provides that, upon request of the claimant and approval of the claims examiner, accident compensation may be paid to the dependents of the claimant. Provisions in the event of death of the claimant are also provided. New § 301.22(b) authorizes a dependent, in the event of the death of the claimant, to exercise the same right of review which ordinarily would have been afforded the claimant.

16. § *301.23* The amended rule, retitled "Medical Treatment Required Following Release", is reworded. The section's basic intent is unchanged. As revised, the rule states that the claims examiner must authorize in advance all medical and hospital treatment, and other related expense incurred after the individual's release from confinement. The rule authorizes the claims examiner to waive this requirement where warranted (e.g., for emergency treatment). Deleted is specific language requiring notification to the claims examiner, and advisement by the claims examiner to the claimant of procedures to be followed. These procedures are implied in the revised language.

17. §§ *301.24–26* These sections have undergone some minor word changes (for example, "award" for "claim"). No substantive changes have been made.

Conclusion

By virtue of the authority vested in the Attorney General by 18 U.S.C. 4126 and delegated by the Attorney General at 28 CFR 0.99 to the Board of Directors of Federal Prison Industries, Inc., Part 301 of Chapter III of title 28, Code of Federal Regulations is hereby amended as set forth below. The effective date of this rule is July 1, 1981.

Dated: June 8, 1981.

Norman A. Carlson,

Commissioner, Federal Prison Industries, Inc., Director, Bureau of Prisons.

By revising Part 301 to read as follows:

PART 301—INMATE ACCIDENT COMPENSATION

Sec.

301.1 Purpose and scope.
301.2 Medical attention.
301.3 Record of injury and initial claim.
301.4 Report of injury.
301.5 Prerelease claim for compensation.
301.6 Report of death.
301.7 Report of repetitious accidents.
301.8 Inmate work assignments.
301.9 Compensable and noncompensable injuries.
301.10 Lost-time wages.
301.11 Compensation awards.
301.12 Processing of claims.
301.13 Request for hearing or reconsideration, disclosure.
301.14 Committee reconsideration.
301.15 Notice, time, place of hearing and postponement.
301.16 Witnesses.
301.17 Conduct of hearing.
301.18 Expenses.
301.19 Representation of claimant.
301.20 Review by the Associate Commissioner of Federal Prison Industries, Inc.
301.21 Establishing the amount of the award.
301.22 Time and method of payment of compensation award.
301.23 Medical treatment required following release.
301.24 Civilian compensation laws distinguished.
301.25 Employment of attorneys.
301.26 Exclusive remedy.

Authority: 18 U.S.C. 4126, 28 CFR 0.99, and by resolution of the Board of Directors of Federal Prison Industries, Inc.

§ 301.1 Purpose and scope.

(a) As authorized by 18 U.S.C. 4126, the procedures for this part govern the payment of accident compensation to former Federal prison inmates or to their dependents. Such compensation shall be awarded for impairments from injuries sustained while performing work assignments in Federal Prison Industries, Inc., or in institutional work assignments involving the operation or maintenance of a Federal correctional institution.

(b) The Bureau of Prisons also follows uniform procedures for determining both the work-relatedness of an injury sustained by an inmate, and for determining whether lost-time wages are paid to that inmate. Inmates assigned to Federal Prison Industries, Inc., or to paid institutional work assignments involving the operation or maintenance of a Federal correctional institution, may receive lost-time wages for work-related injuries resulting in time lost from the work assignment.

(c) For purposes of lost-time wages and compensation, injury, in addition to an accident which is work-related, shall also be defined to include occupational disease or illness proximately caused by the conditions of the inmate's work assignment.

§ 301.2 Medical attention.

Whenever an inmate worker is injured while in the performance of assigned duty, regardless of how trivial the injury may appear, the inmate shall immediately report the injury to the inmate's official work detail supervisor. The supervisor will take whatever action is necessary to secure for the injured inmate such first aid, medical, or hospital treatment as may be necessary for the proper treatment of the injury. Medical, surgical, and hospital service shall be furnished by the medical staff of the institution. Refusal by an inmate worker to accept such medical, surgical, hospital, or first aid treatment may cause forfeiture of any claim for accident compensation for impairment resulting from the injury.

§ 301.3 Record of injury and initial claim.

After initiating necessary action for medical attention the work detail supervisor shall immediately secure a record of the cause, nature, and exact extent of the injury, and shall see that the injured inmate submits within 48 hours sufficient information for the supervisor to complete Administrative Form 19, Injury Report (Inmate). The names and testimony of all witnesses shall be secured. If the injury resulted from the operation of mechanical equipment, an identifying description of the machine or instrument causing the injury shall be given.

§ 301.4 Report of injury.

(a) The work detail supervisor shall complete an Administrative Form 19, Injury Report (Inmate), on all injuries reported by the inmate, as well as injuries observed by staff. The injury report shall contain a signed statement from the inmate on how the accident occurred. Staff shall provide the inmate with a copy of the injury report. Staff shall then forward the original and remaining copies of the injury report to the institutional safety manager for a review as to its completeness. The institution safety manager shall ensure that a medical description of the injury is included on the Administrative Form 19 whenever the injury is such as to require medical attention. The institution safety manager shall also ensure that the appropriate sections of Administrative Form 19A (Injury—Lost-Time Follow-up Report) are completed and that there is documentation for all reported work injuries which result in lost-time from the work assignment.

(b) When the institution safety manager receives notice, or has reason to believe, that the injury will result in time lost from the work assignment, the institution safety manager shall present both the completed Administrative Form 19, and Administrative Form 19A, with the appropriate sections completed, to the Institution Safety Committee at the Committee's next regularly scheduled meeting. The Safety Committee shall make a written determination, indicated on Administrative Form 19A, of the injury's work-relatedness based on the available evidence and testimony. A copy of the Safety Committee's determination shall be provided to the inmate.

§ 301.5 Prerelease claim for compensation.

(a) As soon as a release date or transfer to a community treatment center is determined, but not in advance of 30 days prior to this date, each inmate injured in industries or on an institutional work assignment who feels that a residual impairment exists as a result of a work-related injury shall be given FPI Form 43, Inmate Claim for Compensation on Account of Work Injury, and shall be informed of the right to make a claim for compensation. Every assistance will be given the inmate to properly prepare the claim if the inmate wishes to file. Claims must be made within 60 days following release from the institution when circumstances preclude submission prior to release. However, a claim for impairment may be allowed within one year after release from the institution or community treatment center, for reasonable cause shown. In each case a medical examination shall be given and a definite statement made as to the

impairment caused by the alleged injury. Refusal to submit to a final medical examination before release or transfer to a community treatment center shall result in the forfeiture of all rights to compensation and to future medical treatment. In each case of visible impairment, disfigurement, or loss of member, photographs shall be taken to show the actual condition and shall be transmitted with FPI Form 43.

(b) The claim, after preparation and execution by the inmate, shall be completed by the physician making the final examination. It shall be forwarded promptly to the Claims Examiner, Federal Prison Industries, Inc., Washington, D.C. 20534, accompanied by, or with reference made to, Forms 19, and 19A, Injury Report (Inmate) and Injury—Lost-Time Follow-Up Report, respectively.

§ 301.6 Report of death.

If a work-related injury results in death, an FPI Form 43, an Administrative Form 19, and the findings of any Inquiry Team will be promptly forwarded to the Claims Examiner, Federal Prison Industries, Inc., Washington, D.C. 20534.

§ 301.7 Report of repetitious accidents.

If an inmate worker is injured more than once in a comparatively short time and the circumstances of the injury indicate an awkwardness or ineptitude that in the opinion of the inmate's work supervisor implies a danger of further accidents in the task assigned, the inmate shall be relieved of the performance of the task, and assigned to another task more suitable to the inmate's ability.

§ 301.8 Inmate work assignments.

The classification committee of each institution, which normally designates inmate work assignments, or whoever makes institutional work assignments, will review appropriate medical records, presentence reports, admission summaries, and the like in order to preclude the assignment of individuals to work tasks not compatible with their physical condition. A careful review of all records available is also imperative when inmate workers are reassigned to new and different tasks during their confinement.

§ 301.9 Compensable and noncompensable injuries.

Compensation is paid for "on the job" injuries. This includes not only injuries suffered on an inmate's regular work assignment, but also those injuries resulting from voluntary work, approved by staff, in the operation or maintenance of the institution. Compensation is not paid, however, for injuries resulting from participation in institutional programs (such as programs of a social, recreational, or community relations nature) or from maintenance of one's own living quarters. Furthermore, compensation will not be paid for injuries suffered away from the work location, e.g., while the claimant is going to or leaving work, or going to or coming from lunch outside of the work station or area. Injuries sustained by inmate workers willfully or with intent to injure someone else, or injuries suffered in any activity not related to their work assignment are not compensable, and no claim for compensation for such injuries will be considered. Any injury resulting from willful violation of rules and regulations may prevent an award of compensation.

§ 301.10 Lost-time wages.

(a) *General*—No accident compensation for compensable injuries shall be paid prior to the inmate's release from confinement. However, an inmate worker receives lost-time wages for the number of regular work hours that the inmate is absent from work due to injury sustained in the performance of the inmate's work assignment. Lost-time wages are paid for time lost in excess of three consecutively scheduled workdays. While the day of injury counts as a workday, the time of day that the injury occurs is considered in determining the three consecutive workday limitation.

(b) *Basis for determination of lost-time wages*—Lost-time wages shall be based on the standard hourly rate paid to the inmate at the time of injury. If the inmate is assigned to an institutional work assignment and has been granted a lump sum payment (performance pay), lost-time wages shall be based on the pay in effect at the time of injury.

(c) *Rate of lost-time wages*—The rate of pay shall be 66⅔% of the standard hourly rate for an inmate who is not contributing to the support of dependent(s), and 75% of the standard hourly rate for an inmate who is contributing to the support of dependent(s). Dependent(s) ordinarily refers to any person verified as wife, husband, or child. A determination of dependency for purposes of determining lost-time wages is not binding on any subsequent claim by the inmate to receive inmate accident compensation. A determination on whether the inmate contributes to the support of dependent(s) is ordinarily made by the inmate's timekeeper through the existence of a FPI Dependency Contract, or through a review of the Unit Manager's and/or Business Manager's record of the inmate worker's commissary account withdrawals. Staff shall consider the following factors in making a determination on whether the inmate contributes to the support of a dependent(s):

(1) Whether the inmate contributed at least $5.00 to the support of any dependent(s) during the three months preceding the work-related injury, provided monthly earnings are below the current monthly commissary spending limitation; or

(2) Whether the inmate contributed at least $10.00 to the support of any dependent(s) during the three months preceding the work-related injury, provided monthly earnings exceeded the current monthly commissary spending limitation; or

(3) Whether the inmate contributed at least $5.00 to the support of any dependent(s) during the six months preceding the work-related injury, provided the inmate has been in the paid work assignment for a period less than three months immediately preceding that injury.

(d) *Continuation of lost-time wages*—The inmate shall receive lost-time wages until the inmate:

(1) Returns to the pre-injury work assignment;

(2) Is reassigned to another work area or program for reasons unrelated to the sustained work injury;

(3) Is medically certified as fit for return to a regular work assignment or to a lighter duty work assignment;

(i) An inmate who refuses to return to a regular work assignment or to a lighter duty work assignment, after medical certification of fitness for such duty, relinquishes all rights to further payment of lost-time wages from the date of such refusal.

(ii) An inmate medically certified as fit for work shall sustain no monetary loss due to a required change in work assignment. Where there is no light duty or regular work assignment available at the same rate of pay as the inmate's pre-injury work assignment, that inmate shall be paid the difference in lost wages. Lost-time wages are paid until a light duty or regular work assignment is available at the same pay rate as the inmate's pre-injury work assignment or until the inmate is medically certified for return to the pre-injury work assignment;

(4) Is transferred to another institution for reasons unrelated to the work injury; or

(5) Is released from Federal custody.

(e) *Appeal of determination*—An inmate who disagrees with the decision

on either the work-relatedness of an injury or the rate at which lost-time wages are paid may appeal that decision through the Administrative Remedy Procedure.

§ 301.11 Compensation awards.

The amount of accident compensation shall be determined at the time of release regardless of when during the claimant's period of confinement the injury was sustained or of any payment made in lieu of regular earnings or of any medical or surgical services furnished prior to such release. No claim for compensation will be considered if full recovery occurs while the inmate is in custody and no impairment remains after release.

§ 301.12 Processing of claims.

(a) A claim for inmate accident compensation shall be determined by a Claims Examiner, appointed by the Commissioner, Federal Prison Industries, Inc., under authority delegated to him by the Board of Directors of Federal Prison Industries, pursuant to 28 CFR 0.99. In determining the claim, the Claims Examiner will consider all available evidence. Written notice of the decision, including the reasons therefore, together with information as to the right to appeal the decision, shall be mailed to the claimant at the claimant's last known address.

(b) Appeal of the decision rendered by the Claims Examiner may be made to the Inmate Accident Compensation Committee (hereinafter referred to as the "Committee") appointed by the Commissioner, Federal Prison Industries, Inc., under authority delegated to him by the Board of Directors of Federal Prison Industries pursuant to 28 CFR 0.99. The Committee shall consist of four members and four alternates, with any combination of three thereof required to form a quorum for decision-making purposes.

§ 301.13 Request for hearing or reconsideration, disclosure.

(a) Any claimant not satisfied with the decision of the Claims Examiner shall, upon written request made within 30 days after the date of issuance of such decision or thereafter, upon a showing of good cause, be afforded an opportunity for either a hearing before the Committee, or Committee reconsideration of the decision. A claimant may request a hearing or reconsideration by writing to the Inmate Accident Compensation Committee, Federal Bureau of Prisons, Washington, D.C. 20534.

(b) Upon receipt of claimant's request, a copy of the information upon which the Claims Examiner's initial determination was based shall be mailed to the claimant at the claimant's last known address. Where the Claims Examiner determines the release of information to the claimant is not in the best interest of the claimant, the Claims Examiner may release the information to the claimant's representative or personal physician upon receipt of both a written authorization from the claimant and a written request from the representative or personal physician.

§ 301.14 Committee reconsideration.

If the claimant elects to have the Committee reconsider the initial determination, the claimant may submit documentary evidence which the Committee shall consider in addition to the original record. The Committee shall fix the time in which it will receive evidence, and may request additional documented evidence from the claimant or other source. A copy of the Committee's reconsidered decision shall be mailed to the claimant at the claimant's last known address.

§ 301.15 Notice, time, place of hearing and postponement.

(a) The hearing or reconsideration shall be held within 60 days of the Committee's receipt of claimant's request, except as provided in paragraph (b) of this section. Notice of the date set for Committee action shall be mailed to the claimant at the claimant's last known address. When practical, the hearing shall be set at a time convenient for the claimant, and all hearings shall be conducted at the Central Office of the Bureau of Prisons, Washington, D.C. 20534.

(b) A hearing or reconsideration may be postponed at the option of the Committee, or, if good cause is shown, upon request of the claimant. A claimant shall be considered to have abandoned the request for a hearing if the claimant fails to appear at the time and place set for hearing and does not, within 10 days after the time set for that hearing, show good cause for failure to appear. A claimant may change the request from either hearing to reconsideration or reconsideration to hearing, but must give the Committee notice of such change at least 10 days prior to the previously scheduled action.

§ 301.16 Witnesses.

(a) If a claimant plans to present witnesses at the hearing, the claimant must provide the Committee with a list of the witnesses' names and addresses and an outline of their proposed testimony at least 10 days prior to the scheduled hearing date. The Committee has no authority to compel the attendance of witnesses.

(b) Any person confined at the time of the hearing in a Federal, state or local penal or correctional institution may not appear as a witness, but that person's testimony may be received in the form of a written statement.

§ 301.17 Conduct of hearing.

(a) In conducting the hearing, the Committee is not bound by common law or statutory rules of evidence, or by technical or formal rules of procedure, but may conduct the hearing in such a manner as to best ascertain the rights of the claimant and the obligations of the government. At such hearing, the claimant shall be afforded an opportunity to present evidence in support of the claim under review.

(b) The Committee shall receive such relevant evidence as may be adduced by the claimant and shall, in addition, receive such other evidence as the Committee may determine to be necessary and useful in evaluating the claim. Evidence may be presented orally and/or in the form of written statements and exhibits.

(c) In order to fully evaluate the claim, the Committee may question the claimant and any witness(es) appearing before the Committee on behalf of the claimant or government.

(d) A claimant, or the claimant's representative, may question the Committee or any witness(es) appearing before the Committee on behalf of the government, but only on matters which the Committee determines are relevant to its evaluation of the claim.

(e) The hearing shall be recorded, and a copy of the recording, or, in the discretion of the Committee, a transcript thereof, shall be made available to the claimant upon request, provided such request is made not later than 90 days following the date of the hearing.

(f) The Committee shall mail a written notice of its determination to affirm or amend the Claims Examiner's initial decision with the reasons therefor to the claimant at the claimant's last known address not later than 30 days after the date of the hearing, unless the Committee needs to make a further investigation as a result of information received at the hearing.

§ 301.18 Expenses.

Federal Prison Industries, Inc., may not assume any expenses incurred by the claimant, the claimant's representative, or any witness(es) appearing on behalf of the claimant in connection with attendance at the hearing.

§ 301.19 Representation of claimant.

(a) A claimant may appoint any person to represent the claimant's interest in any proceeding for determination of a claim under this part so long as that person is not confined in any Federal, state, or local penal or correctional institution. Claimant's appointment of a representative must be in writing with a copy filed with the Committee or on the record at the hearing.

(b) Federal Prison Industries, Inc., may not assume responsibility for any costs related to the services of a claimant's representative.

(c) A representative appointed in accordance with paragraph (a) of this section may make or give, on behalf of the claimant being represented, any request or notice relative to any proceeding before the Committee. A representative shall be entitled to present or elicit evidence or make allegations as to facts and law in any proceeding affecting the claimant being represented and to obtain information with respect to the claim of such claimant to the same extent as such party. A request for additional information, or notice to any claimant of any administrative action, determination, or decision, may be sent to the representative of such claimant, and such notice or request shall have the same force and effect as if it had been sent to the claimant.

§ 301.20 Review by the Associate Commissioner of Federal Prison Industries, Inc.

Any claimant not satisfied with the Committee's reconsidered decision or decision after a hearing may appeal such decision to the Associate Commissioner of Federal Prison Industries, Inc., Washington, D.C. 20534. Written notice of the appeal must be mailed within 90 days from the date of the reconsidered decision or the decision after a hearing. For good cause shown, the Associate Commissioner may waive the failure to appeal within this time limitation. The Associate Commissioner shall review the record and shall affirm or amend the appealed decision not later than 90 days after receipt of claimant's notice of appeal. Written notice of the Associate Commissioner's decision shall be mailed to the claimant's last known address, or to the claimant's representative.

§ 301.21 Establishing the amount of the award.

In determining the amount of accident compensation to be paid consideration will be given to the permanency and severity of the injury in terms of temporary and permanent impairment. The provisions of the Federal Employees' Compensation Act shall be followed when practicable. The minimum wage prescribed by the Fair Labor Standards Act, applicable at the time of each periodic payment, shall be used as the wage basis in determining the amount of such compensation. In no event shall compensation exceed that provided in the Federal Employees' Compensation Act (Title 18, United States Code 4126).

§ 301.22 Time and method of payment of compensation award.

(a) Upon determination of the amount of compensation to be paid, the Claims Examiner shall furnish a copy of the award authorization to the claimant or to the claimant's representative. Monthly payments are ordinarily mailed the first day of the month following the month in which the award is effective. Payments will ordinarily be made through the office of the U.S. Probation Officer of the district in which the claimant resides. When the amount of the awards exceeds $500, lump sum payments will rarely be made, and only in exceptional cases where it is clearly shown to be beneficial to the claimant or the claimant's dependents.

(b) When requested by the claimant and approved by the Claims Examiner, accident compensation shall be paid to dependents of the claimant. In all cases claimant must indicate in detail those persons who are dependent on the claimant, their relationship, and any other relevant facts so that the Claims Examiner will be able to determine dependency. In the event of death, compensation may be paid to dependents under the provisions of the Federal Employees' Compensation Act, if it is determined that the death was causally related to the work injury. In the event of death, a dependent may exercise the right of review.

§ 301.23 Medical treatment required following release.

The Corporation will not pay the cost of medical, hospital treatment, or any other related expense incurred after release from confinement unless the Claims Examiner either authorizes such treatment in advance or determines that circumstances warrant the waiver of this requirement.

§ 301.24 Civilian compensation laws distinguished.

Awards made under Inmate Accident Compensation differ from awards made under civilian workmen's compensation laws in that hospitalization is usually completed prior to the inmate's release from the institution and, except for a three-day waiting period, the inmate receives wages while absent from work. Other factors necessarily must be considered that do not enter into the administration of civilian workmen's compensation laws. As in the case of Federal employees who allege they have sustained work-related injuries, the burden of proof lies with the claimant to establish that the claimed impairment is causally related to the claimant's work assignment.

§ 301.25 Employment of attorneys.

It is not necessary that a claimant employ an attorney or other person to assert a claim or effect collection of an award. Under no circumstances will the assignment of any award be recognized.

§ 301.26 Exclusive remedy.

Inmates who are subject to these accident compensation laws are barred from recovering under the Federal Tort Claims Act. Recovery under the compensation law was declared by the U.S. Supreme Court to be the exclusive remedy in the case of *U.S.* v *Demko*, 385 U.S. 149, in December of 1966.

BILLING CODE 4410-05-M

DEPARTMENT OF JUSTICE

Bureau of Prisons

28 CFR Parts 522, 527, 544, and 545

Control, Custody, Care, Treatment, and Instruction of Inmates; Proposed Rulemaking and Request for Comments

AGENCY: Bureau of Prisons, Justice.

ACTION: Proposed rules.

SUMMARY: The Bureau of Prisons is proposing a set of rules for the management of inmates in Federal correctional institutions. This proposal is part of the Bureau's program to publish in the **Federal Register**, and subsequently in the Code of Federal Regulations, Bureau rules relating to the control, custody, care, treatment, and instruction of inmates. This installment encompasses the Bureau of Prisons proposed rules on (1) Transfer of Offenders to or from Foreign Countries, (2) Annual Survey of Inmate Education, Recreation and Library Programs, (3) Incentive Awards Program, UNICOR Inmates, and (4) Admission and Orientation Program.

DATE: Comments must be received on or before July 27, 1981.

ADDRESS: Office of General Counsel, Bureau of Prisons, Room 760, 320 1st Street, N.W., Washington, D.C. 20534.

FOR FURTHER INFORMATION CONTACT: Mike Pearlman, Office of General Counsel, Bureau of Prisons, phone 202/724/3062.

SUPPLEMENTARY INFORMATION: Pursuant to the rulemaking authority vested in the Attorney General in 5 U.S.C. 552(a) and delegated to the Director of the Bureau of Prisons in 28 CFR 0.96(t), notice is hereby given that the Bureau of Prisons intends to publish in the **Federal Register** its proposed rules on:

(1) Transfer of Offenders to or from Foreign Countries;

(2) Annual Survey of Inmate Education, Recreation and Library Programs;

(3) Incentive Awards Program, UNICOR Inmates; and

(4) Admission and Orientation Program.

The rule on Transfer of Offenders to or from Foreign Countries establishes Bureau of Prisons procedures to receive custody of, and to transfer to and from the United States, offenders in compliance with the conditions of any existing treaty with a foreign government. The rule on Annual Survey of Inmate Education, Recreation, and Library Programs requires that the Warden administer an annual survey to a representative sample of the inmate population to determine inmate perception of needs, attitudes, opinions, and recommendations concerning the structure and content of education, recreation, and library programs which operate within the institution. The survey solicits comments on, and suggestions for improving education, recreation, and library programs. The rule on Incentive Awards Program, UNICOR Inmates provides recognition to an inmate industrial worker for a special achievement by that inmate, as well as for the inmate's suggestion or invention which improves operations or safety, and/or conserves energy or materials of Federal Prison Industries, Inc. The rule on Admission and Orientation Program requires that newly committed inmates be offered an orientation to the institution, to include information on institutional requirements and, when practicable, visits to the various areas of the institution.

The Bureau of Prisons has determined that these rules are not major rules for the purpose of EO 12291. The Bureau of Prisons has determined that EO 12291 does not apply to this set of rulemaking since the rules involve agency management. After review of the law and the regulations, the Director, Bureau of Prisons has certified that these rules, for the purpose of the Regulatory Flexibility Act (PL 96-354) do not have a significant impact on a substantial number of small entities.

Interested persons may participate in this proposed rulemaking by submitting data, views, or arguments in writing to the Bureau of Prisons, Room 760, 320 1st Street, N.W., Washington, D.C. 20534. Comments received on or before July 17, 1981 will be considered before final action is taken. Copies of all written comments received will be available for examination by interested persons at the Bureau of Prisons, Room 760, 320 1st Street, N.W., Washington, D.C. 20534. The proposed rules may be changed in light of the comments received. No oral hearings are contemplated.

In consideration of the foregoing, it is proposed to amend 28 CFR, Chapter V as follows: in Subchapter B, add Subpart E to Part 522 and Subpart E to Part 527; and in Subchapter C, add Subpart L to Part 544 and Subpart G to Part 545.

SUBCHAPTER B—INMATE ADMISSION, CLASSIFICATION, AND TRANSFER

1. By adding Subpart E to Part 522 to read as follows:

PART 522—ADMISSION TO INSTITUTION

Subpart E—Admission and Orientation Program

Sec.
522.40 Purpose and scope.
522.41 Responsibility.
522.42 Guidelines for an admission and orientation program.

Authority: 5 U.S.C. 301; 18 U.S.C. 4001, 4042, 4081, 4082, 5006–5024, 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99.

Subpart E—Admission and Orientation Program

§ 522.40 Purpose and scope.

(a) Each inmate committed or transferred to a Bureau of Prisons institution shall become involved in the institution's Admission and Orientation (A&O) Program. The Warden shall ensure that staff involved with this program offer each newly committed inmate an orientation to the institution, to include information on institutional requirements and, when practicable, visits to the various areas of the institution. The institution admission and orientation program also shall provide the inmate with an awareness of the:

(1) Inmate's rights and responsibilities;

(2) Institution's program opportunities; and

(3) Institution's disciplinary system.

(b) Staff shall develop orientation materials (for example, a pamphlet) to supplement lectures and discussions.

(c) Pre-trial inmates and inmates in holdover status (en route to a different institution) are excluded from the provisions of this rule.

§ 522.41 Responsibility.

(a) The Warden shall assign to a staff member the responsibility to co-ordinate the institution's A&O Program.

(b) Staff involved in the lecture portion of the A&O Program shall develop an outline of the information they wish to include in their presentation.

§ 522.42 Guidelines for an admission and orientation program.

(a) Location—Each Warden shall determine the appropriate location for the institution's A&O Program.

(b) Quarters—Each Warden shall establish procedures for the assignment of living quarters.

(c) Inmate Participation—The newly committed inmate is to be provided the opportunity to see and participate in institutional activities.

(d) Activities—The A&O staff coordinator is to ensure that the admission and orientation program provides a full schedule of activities for the newly committed inmate. Scheduled activities shall include exposure to programs responsive to a specialized need of the inmate, as well as exposure to various work assignments, education programs, and physical and social activity.

(e) Telephone Calls—Newly committed inmates shall be permitted to complete at least two local or collect long distance phone calls during the admission process.

(f) Length of Admission and Orientation Program—An inmate's involvement in the institution's A&O program is based on the time necessary to accomplish the program's objectives.

(g) Documentation of A&O Program Involvement—Staff shall prepare documentation that the inmate has completed the institution's admission and orientation program. Staff shall have the inmate sign and date a copy of this document. The original of this document shall be placed in the inmate central file.

2. By adding Subpart E to Part 527 to read as follows:

PART 527—TRANSFERS

Subpart E—Transfer of Offenders to or From Foreign Countries

Sec.

527.40 Purpose and scope.
527.41 Definitions.
527.42 Notification of Bureau of Prisons inmates.
527.43 Transfer of Bureau of Prisons inmates to other countries.
527.44 Transfer of State prisons to other countries.
527.45 Receiving United States citizens from other countries.

Authority: 5 U.S.C. 301; 18 U.S.C. 4001, 4042, 4081, 4082, 4100–4115, 4161–4166, 5006–5024, 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99.

Subpart E—Transfer of Offenders to or From Foreign Countries

§ 527.40 Purpose and scope.

Public Law 95–144 (18 U.S.C. 4100 et seq.) authorizes the transfer of offenders to or from foreign countries, pursuant to the conditions of a current treaty which provides for such transfer. 18 U.S.S. 4102 authorizes the Attorney General to act on behalf of the United States in regard to such treaties. In accordance with the provisions of 28 CFR 0.96b the Attorney General has delegated to the Director of the Bureau of Prisons, and to designees of the Director, the authority to receive custody of, and to transer to and from the United States, offenders in compliance with the conditions of the treaty.

§ 522.41 Definitions.

For purposes of this rule the following definitions apply.

(a) Treaty nation—A country which has entered into a treaty with the United States on the Execution of Penal Sentences.

(b) State prisoner—An inmate serving a sentence imposed in a court in one of the states of the United States, or in a territory or commonwealth of the United States.

(c) Departure institution—The Bureau of Prisons institution to which an eligible inmate is finally transferred for return to his or her country of citizenship.

(d) Admission institution—The Bureau of Prisons institution where a United States citizen-inmate is first received from a treaty nation.

§ 527.42 Notification of Bureau of Prisons inmates.

(a) The Warden shall ensure that the institution's admission and orientation program includes information on international offender transfers.

(b) The case manager of an inmate who is a citizen of a treaty nation shall inform the inmate of the treaty and provide the inmate with an opportunity to inquire about the transfer to the country of citizenship. The inmate is to be given an opportunity to indicate on an appropriate form whether he or she is interested to transfer to the country of citizenship.

§ 527.43 Transfer of Bureau of Prisons inmates to other countries.

(a) An inmate who is qualified for and desires to return to his or her country of citizenship for service of a sentence imposed in a United States Court shall indicate his or her interest by completing and signing the appropriate form and forwarding it to the Warden at the institution where the inmate is confined.

(b) Upon verifying that the inmate is qualified for transfer, the Warden shall forward all relevant information, including a complete classification package, to the Assistant Director, Correctional Programs Division.

(c) The Assistant Director, Correctional Programs Division shall review the submitted material and forward it to the Office of International Affairs (OIA), Department of Justice, for review.

(d) The Assistant Director, Correctional Programs Division shall ensure that the inmate is advised of the decision of OIA, Department of Justice.

(1) When the Department of Justice determines that transfer is not appropriate, the Assistant Director, Correctional Programs Division shall ensure that the inmate is advised of this determination and informed that the inmate may request the reason(s) for such action from OIA.

(2) When the Department of Justice determines that transfer is appropriate, the Assistant Director, Correctional Programs Division shall ensure that the inmate is advised of the determination and of the probability that the inmate will be given an interview with his or her nation's consular officials.

(e) Upon notification from OIA of the treaty nation's decision in regard to the inmate's transfer, the Assistant Director, Correctional Programs Division shall arrange for the inmate to be informed of that decision.

(f) At an appropriate time subsequent to notification by the Department of Justice of an inmate's approval for transfer, the Assistant Director shall arrange for the inmate to be transferred to an appropriate departure institution.

(g) Prior to the inmate's transfer to the departure institution, the inmate shall receive a verification hearing before a U.S. Magistrate or U.S. Judge to document the inmate's voluntary consent for transfer. Counsel is provided the inmate for purpose of this hearing. Where requested, the Warden shall allow counsel to interview the inmate prior to the hearing.

(h) Following the verification hearing, the Assistant Director, Correctional Programs Division shall arrange a schedule for delivery of the inmate to the authorities of the country of citizenship.

(1) The Assistant Director shall advise the Warden of those arrangements.

(2) The Warden shall arrange for the inmate to be transported to the foreign authorities. The Warden shall assure that appropriate documentation (for example, the judgment and commitment order, current progress report, summary face sheet, and proof of citizenship) accompanies each inmate transported.

§ 527.44 Transfer of state prisoners to other countries.

The Bureau of Prisons may assume custody of a state prisoner who has been approved for transfer to a treaty nation for the purpose of facilitating the transfer to the treaty nation. Once approved, the state is not required to contract for the placement of the prisoner in federal custody, nor to reimburse the United States for the cost of confinement (as would ordinarily be required by 18 U.S.C. 5003).

§ 527.45 Receiving United States citizens from other countries.

(a) Staff accepting custody of American inmates from a foreign authority shall ensure that the following documentation is available prior to accepting custody of the inmate:

(1) A certified copy of the sentence handed down by an appropriate, competent judicial authority of the transferring country and any modifications thereof;

(2) A statement (and a copy translated into English from the language of the country of origin if other than English), duly authenticated, detailing the offense for which the offender was convicted, the duration of the sentence, and the length of time already served by the inmate. Included should be statements of credits to which the offender is entitled, such as work done, good behavior, pre-trial confinement, etc.; and

(3) Citizenship papers necessary for the inmate to enter the United States.

(b) The Warden shall direct in writing specific staff, preferably staff who speak the language of the treaty nation, to transport the offender from the transporting country to the admission institution. When the admission institution is not able to accept the inmate (for example, a female inmate transported to a male institution), the Warden shall make appropriate housing arrangements with a nearby jail.

(c) As soon as practicable after the inmate's arrival at the admission institution, staff shall initiate the following actions:

(1) Arrange for the inmate to receive a complete physical examination;

(2) Advise the local U.S. Probation Office of the inmate's arrival; and

(3) Notify the U.S. Parole Commission of the inmate's arrival. Inmates returning from other countries are by law immediately eligible for parole. Staff at the admission institution shall determine if each inmate received at that institution should be retained at the admission institution for the initial parole hearing or promptly transferred to a more appropriate institution.

(d) If upon computation of sentence staff determine that an inmate is entitled to immediate release via manatory release or expiration of sentence with credits applied, release procedures shall be implemented but only after receiving a medical clearance and the results of an FBI fingerprint check.

SUBCHAPTER C—INSTITUTIONAL MANAGEMENT

3. By adding Subpart L to Part 544 to read as follows:

PART 544—EDUCATION

Subpart L—Annual Survey of Inmate Education, Recreation and Library Programs

Sec.
544.110 Purpose and scope.

Authority: 5 U.S.C. 301; 18 U.S.C. 4001, 4042, 4081, 4082, 5006–5024, 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99.

Subpart L—Annual Survey of Inmate Education, Recreation and Library Programs

§ 544.110 Purpose and scope.

(a) The Bureau of Prisons has established a systematic approach for assessing the education, recreation, and library programs which operate within each Bureau of Prisons institution. Except for such community treatment centers and camps where education, recreation, and library programs may not be feasible, the Warden or the Warden's designee shall administer an annual survey to a representative sample of the local inmate population to determine inmate perception of needs, attitudes, opinions, and recommendations concerning the structure and content of the education, recreation, and library programs which operate within the institution.

(b) The questionnaire shall be administered to a minimum of 10% of each institution's inmate population on the survey date.

(c) The results of the annual survey shall be used by staff who are responsible for planning and management of the education, recreation, and library programs which operate within the institution.

4. By adding Subpart G to Part 545 to read as follows:

PART 545—WORK AND COMPENSATION

Subpart G—Incentive Awards Program, UNICOR Inmates

Sec.
545.60 Purpose and scope.
545.61 Types of incentives.
545.62 Award scales for payment for inmate suggestion or invention.
545.63 Procedures for recognition of inmate suggestion or invention.
545.64 Procedures for recognition of inmate special achievement.

Authority: 5 U.S.C. 301; 18 U.S.C. 4001, 4042, 4081, 4082, 4126, 5006–5024, 5039; 28 U.S.C. 509, 510; 28 CFR 0.95–0.99.

Subpart G—Incentive Awards Program, UNICOR Inmates

§ 545.60 Purpose and scope.

Federal Prison Industries, Inc. (UNICOR) provides incentives to its inmate workers for special achievements by them, as well as for their suggestions or inventions which improve operations or safety, or conserve energy or materials of Federal Prison Industries, Inc.

§ 545.61 Types of incentives.

(a) An inmate shall receive a formal (written) commendation for any suggestion or invention adopted, or for any special achievement of the inmate related to the inmate's industrial assignment. A copy of the commendation is to be placed in the inmate central file.

(b) An inmate shall receive a cash bonus for any suggestion or invention which is adopted and which contributes a net savings to Federal Prison Industries, Inc. of at least $250. Cash awards shall be based on estimated net first year savings, with a minimum award of $25.

(c) An inmate shall receive either a cash bonus or gifts for any special achievement which, under the standards below, deserves special recognition.

§ 545.62 Award scales for payment for inmate suggestion or invention.

Awards under the Inmate Incentive Awards Program for a suggestion or invention which is adopted are ordinarily provided in accordance with the following table. All awards will be rounded upward to the nearest $25.

Net Savings (First Year) and Amount of Award

$250–$1,000—$25.
$1,000–$10,000—$50 for the first $1,000 plus $2.50 for each additional $100 or fraction thereof.
$10,000–$20,000—$275 for the first $10,000 plus $2.50 for each additional $200 or fraction thereof.
$20,000–$100,000—$400 for the first $20,000 plus $2.50 for each additional $1,000 or fraction thereof.
$100,000 or more—$600 for the first $100,000 plus $2.50 for each additional $5,000, not to exceed $1,000 total cash bonus.

§ 545.63 Procedures for recognition of inmate suggestion or invention.

(a) Inmate suggestions for operational or safety improvements, or for conservation of energy or materials must be in writing.

(b) The inmate shall submit the suggestion to the inmate's immediate supervisor. The supervisor shall review the suggestion and shall then submit the suggestion, with the supervisor's comments and recommendation, to the local Superintendent of Industries.

(c) The Superintendent of Industries shall ensure that all inmate suggestions and/or inventions are considered for incentive awards by a committee comprised of Industry personnel, and designated by the Superintendent.

(1) The committee shall forward recommendations for awards for *inventions* through the Warden to Corporate Headquarters (Attn: Associate Commissioner). The Warden may submit his comments on the recommendation.

(2) The committee may approve an inmate whose suggestion is adopted for an award (cash or gifts) not to exceed $50 in value. A recommendation for an award in excess of $50 shall be forwarded through the Warden to Corporate Headquarters (Attn: Associate Commissioner). The Committee may refer a suggestion having corporate-wide implications through the Warden to Corporate Headquarters (Attn: Associate Commissioner). The Warden may submit his comments on the recommendation.

§ 545.84 Procedures for recognition of inmate special achievement.

(a) While recognition of special inmate achievements may originate from any source, the achievement is ordinarily to be described in writing by the inmate's immediate supervisor.

(b) The Superintendent of Industries shall appoint a local committee, which may include inmate participation, to consider inmates for special achievement recognition. The committee shall forward its recommendations to the Superintendent of Industries, who is authorized to approve individual awards (cash or gifts) not to exceed $50 in value. A recommendation for an award in excess of $50 (cash or gifts) shall be forwarded, with the Superintendent's recommendation and the justification for it, through the Warden to Corporate Headquarters (Attn: Associate Commissioner). The Warden may submit his comments on the recommendation.

Dated: June 8, 1981.

Norman A. Carlson,

Director, Bureau of Prisons.

Part IV

Department of Energy

Economic Regulatory Administration

Powerplant and Industrial Fuel Use Act of 1978; Proposed Revision of Final Rules

DEPARTMENT OF ENERGY

Economic Regulatory Administration

10 CFR Parts 500, 501, 503, 504, and 505

[Docket No. ERA-R-81-06]

Powerplant and Industrial Fuel Use Act of 1978; Proposed Revision of Final Rules

AGENCY: Economic Regulatory Administration, DOE.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Department of Energy (DOE) is proposing to revise the final rules implementing the Powerplant and Industrial Fuel Use Act of 1978 (FUA or the Act) to simplify the administrative procedures and exemption criteria applicable to owners or operators of new and existing powerplants and major fuel burning installations (MFBI's) which are subject to the prohibitions of the Act. The proposed rules would eliminate many of the evidentiary submissions required of petitioners requesting exemptions under the Act. For many of the exemptions, ERA has proposed a streamlined procedure which will enable a petitioner to quality for an exemption through a simple certification procedure. This notice seeks comments on the proposed revisions.

DATES: Written comments are due on or before July 27, 1981. Requests to speak at the hearing should be submitted by July 6, 1981, 4:30 p.m. Hearing date: July 14, 1981, 9:30 a.m.

ADDRESSES: All comments should be addressed to Public Hearing Management, Docket No. ERA-R-81-06, Department of Energy, Room B-210, 2000 M Street, N.W., Washington, D.C. 20461. Hearing location: Room GE086, 1000 Independence Avenue, S.W., Washington, D.C. 20585.

FOR FURTHER INFORMATION CONTACT:

Jack Vandenberg (Office of Public Information), Economic Regulatory Administration, Department of Energy, Room B-110, 2000 M Street, N.W., Washington, D.C. 20461, (202) 653-4055.

Donald E. Kreps (Office of Regulatory Policy), Economic Regulatory Administration, Department of Energy, Room 7002, 2000 M Street, N.W., Washington, D.C. 20461, (202) 653-3217.

Robert L. Davies (Office of Fuels Conversion), Economic Regulatory Administration, Department of Energy, Room 3002, 2000 M Street, N.W., Washington, D.C. 20461, (202) 653-3649.

Henry Garson (Office of the General Counsel), Department of Energy, Room 6B-178, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. 20585, (202) 252-2967.

E. Executive Order No. 12291
F. Federal Reports Act

I. Background

FUA prohibits the use of oil and natural gas in certain new and existing major fuel burning installations (MFBI's) and powerplants unless ERA grants an exemption for such use.

ERA has published final rules which (1) define MFBI, electric powerplant, and other pertinent terms (45 FR 38276 (June 6, 1980)); (2) describe the prohibitions applicable to new powerplants and MFBI's and set forth eligibility and evidentiary requirements for obtaining exemptions from such prohibitions (45 FR 38302 (June 6, 1980)); (3) describe the cost calculation required for certain exemptions under FUA (45 FR 84967 (December 24, 1980)); and (4) provide administrative procedures for applying for exemptions (45 FR 38276, 38287 (June 6, 1980)). ERA also published final rules relating to the prohibitions on oil and gas use in existing facilities and exemptions available at 45 FR 53682 (August 12, 1980). In addition, rules relating to exemptions for new and existing cogeneration facilities were issued in interim form, respectively, on May 17, 1979, 44 FR 28950, 28994, 29014, and on July 23, 1979, 44 FR 43176, 43204, 43219, and then proposed to be revised on August 11, 1980, 45 FR 53368.

On January 29, 1981, the President's Task Force on Regulatory Relief was established to:

> Reduce the burdens of existing and future regulations, increase agency accountability for regulatory actions, provide for presidential oversight of the regulatory process, minimize duplication and conflict of regulations and insure well reasoned regulations . . . (Executive Order 12291)

On March 25, the Task Force announced a list of existing regulations which should be reassessed by Executive Branch agencies, including the regulatory program under FUA.

Consistent with this directive, ERA is proposing extensive revisions of the regulations implementing FUA. Under the current regulations, obtaining an exemption from the prohibitions of the Act can be a costly and time-consuming process which has, in some respects, been criticized as unnecessarily

burdensome. The purpose of this notice of proposed rulemaking (NOPR) is to solicit comments upon revisions aimed at reducing the regulatory burden faced by the owners and operators of powerplants and MFBI's and streamlining exemption procedures under the Act.

ERA proposes to reduce the eligibility and evidentiary requirements for each of the temporary and permanent exemptions authorized under Title II of the Act. In lieu of the existing eligibility criteria, petitioners will generally be required only to certify to the statutory criteria and general requirements for an exemption; and in lieu of the existing, detailed evidentiary requirements, petitioners will generally be required to submit, together with their duly executed certifications, only those exhibits which contain the basis for the certifications, and any requisite environmental materials. Because ERA's actions on certification petitions will be subject to the public notice and comment and review provisions of the Act, a petitioner will be responsible for presenting, together with its certifications, sufficient factual and analytical material to support ERA's grant of the petition.

ERA also proposes to simplify and update the cost calculation methodology, applicable to both new and existing facilities.

ERA has received numerous requests for classification of industrial by-products with respect to their commercial unmarketability. ERA is proposing to establish a response time of sixty (60) days for issuing a decision on any such request. Expediting the procedure will allow a petitioner who requests a determination to receive a decision within a reasonable period of time.

The fuel search requirements have also been modified to reduce any uncertainty faced by petitioners. Instead of the existing fuels search requirements, petitioners who must examine fuel alternatives will only be required to examine coal or, when required to consider mixtures, to examine only coal mixtures. Where use of coal would be unreasonable, and a petitioner wishes to substitute another alternate fuel, it may request ERA's permission to do so.

II. Proposals

A. Definitions (Part 500)

1. General definitions (§ 500.2)

a. *Alternate fuel; natural gas; petroleum.* A discussion concerning ERA's determinations with respect to the commercial marketability of a fuel, appears in this Preamble under the heading "General Provisions (Subpart A)."

b. *Capability to use alternate fuel.* Section 201(a) of the Act prohibits the construction of any new powerplant without the capability to use an alternate fuel as a primary energy source.

In its current rules, 45 FR 38281 (June 6, 1980), ERA defined capability to use alternate fuel, for purposes of the foregoing Title II prohibition, as the ability to use an available alternate fuel as a primary energy source on a continuous basis in compliance with applicable environmental requirements at the time the new powerplant becomes operational or at the expiration of a temporary exemption. This definition resulted in the requirement that a new powerplant have requisite pollution control equipment installed in order to comply with the Title II construction prohibition.

To issue a prohibition order to an existing facility under Title III of FUA, ERA must make findings concerning the unit's technical capability to use an alternate fuel. In its final rules governing existing facilities, 45 FR 53697 (August 12, 1980), ERA defined technical capability to use an alternate fuel, for purposes of the prohibition order authorities under Title III of FUA, as the ability of a unit, from the point of fuel intake, to physically sustain combustion of an alternate fuel and to maintain heat transfer. This standard did not require that requisite pollution control equipment be on-line.

To reduce the burden of utility compliance with the foregoing Title II construction prohibition, ERA proposes to delete the requirement for the inclusion of required pollution control equipment in the definition of capability to use an alternate fuel. The proposed definition would treat the concept of alternate fuel capability similarly for statutory Title II prohibitions and discretionary Title III prohibitions. This proposal would relax the standard for compliance by new powerplants with Title II *construction* prohibitions, but would not affect the requirement under FUA that alternate fuels must be *used* in compliance with all applicable environmental requirements. A conforming change has been proposed in § 503.2 of the current rules, relating to prohibitions, by deleting paragraph (b) of that section.

c. *Combined cycle unit.* ERA proposes to adopt alternative definitions for "powerplant" and "MFBI" combined cycle units. The current definition will continue to be used for "MFBI" combined cycles, which, because ERA has not adopted rules prohibiting oil and gas use in non-boiler "MFBI's", are not currently subject to Title II FUA prohibitions.

For "powerplants", a new definition describing the traditional components (i.e., one or more combustion turbine units, a waste heat recovery boiler and one or more steam turbine units) of a utility combined cycle is proposed. Under this proposal, a powerplant system consisting of a combination of a combustion turbine and a waste heat recovery boiler would be treated as two individual units and not as a combined cycle unit. The result would accord similar treatment to combustion turbine/waste heat recovery boiler systems in which the direct or supplemental oil or gas firing rate is less than 100 MM Btus per hour, regardless of a system's characterization as a powerplant or an MFBI.

d. *Construction.* ERA proposes to delete the automatic classification as a new combined cycle unit of (1) an existing combustion turbine to which a new waste heat recovery or supplemental-fired boiler is added; or (2) a combustion turbine, as a heat source for an existing boiler. Such construction would instead be subject to the general "50 percent" tests already provided in the rules under the definitions of "New electric powerplant" and "New major fuel burning installation."

e. *Design capability.* ERA received several comments criticizing the definition of design capability as applied to MFBI's in its current rules. After considering these comments, ERA is proposing to add to the definition of design capability an alternative standard which would permit firms to determine design capability of an MFBI (1) on the basis of the safety valve minimum relieving capacity multiplied by the enthalpy difference of feedwater input and steam output, divided by boiler design efficiency, or (2) on the basis of the manufacturer's continuous rating multiplied by the enthalpy difference of feedwater input and steam output, divided by design efficiency.

f. *Electric powerplant and major fuel burning installation.* ERA proposes to revise these definitions to comport with its deletion of the aggregation tests, discussed further in this Preamble under the heading "Aggregation tests."

g. *Primary energy source.* ERA proposes to raise the minimum amount of oil or gas which is excluded from the definition of "primary energy source" from 15 to 25 percent. This change is proposed in response to the comments of many petitioners that often more than 15 percent oil or gas use is required for

unit ignition, startup, testing, flame stabilization, and control purposes.

ERA also proposes to revise this definition to delete the Note concerning fuels mixtures exemptions. Deletion of the Note would eliminate the requirement that petitioners include fuel use required for unit ignition, startup, testing, and flame stabilization as part of any oil and gas use allowed under a mixtures exemption.

In addition, a Note has been added to clarify that if an auxiliary unit consumes fuel only for the auxiliary functions of unit ignition, startup, testing, flame stabilization, and other control uses, its use of minimum amounts of natural gas or petroleum is not prohibited by FUA, even though the unit is an MFBI. The measurement of such minimum amounts of fuel under the current rules is discussed in *Associated Electric Cooperative*, et al., Interpretation 1980–42 (45 FR 82572 (December 15, 1980)).

h. *Rated capacity.* Sections 301 and 302 of the Act and § 504.6 of the regulations require that, to issue a final prohibition order, ERA must find that the facility will not suffer a substantial reduction in rated capacity. To clarify the basis for making this finding, ERA is proposing to add a definition of "rated capacity," which accords with the provisions of Section 504.12(d)(3)(i) of the cost calculation methodology.

2. Aggregation Tests (§§ 500.4, 500.5)

Under the current rules, facilities with fuel heat input rates of 50 million Btu's per hour or greater may be aggregated toward the 250 million Btu's per hour jurisdictional threshold for designation as an MFBI or powerplant. Therefore, facilities between 50–100 million Btu's per hour, which are not currently jurisdictional, may later become jurisdictional when, together with other facilities later constructed at the same site, the 250 million Btu's per hour level is attained. This potential for coverage of newly constructed facilities may have the unintended result of encouraging the planning of new construction at different sites even where such planning would not be consistent with prudent industry economic practice.

To avoid this problem, and in recognition of the difficulty of using alternate fuels, and the limited oil or gas savings which can currently be achieved in facilities in the 50 to 100 million Btu's per hour range, ERA is proposing to delete §§ 500.4 and 500.5, and to exclude those units with a fuel heat input rate of under 100 million Btu's per hour from aggregation, and thus, from jurisdiction under the Act. This proposed change would also apply to existing facilities.

B. Administrative Procedures and Sanctions (Part 501)

Part 501 has been simplified; and, where appropriate, certain sections of the current rules have been consolidated or combined to eliminate provisions or requirements which are repetitious or which experience has shown to be unnecessary. In addition, some sections have been clarified or modified to make them consistent with similar provisions contained in other DOE regulations pertaining to administrative procedures. Substantive changes made in individual sections are noted below.

1. General Provisions (Subpart A)

Section 501.3 remains substantially the same although much of the language of the current provision has been simplified and some subsections have been consolidated or moved to other sections. Paragraph (d) has been clarified to make clear that ERA, upon its own motion or at the request of a petitioner, may waive nonstatutory filing requirements if consistent with the purposes of FUA.

The computation of time and extension of time provisions of current §§ 501.4 and 501.5 are now contained in § 501.7. Sections 501.4 and 501.5 are reserved.

Section 501.7 has been reorganized and expanded to include the provisions of §§ 501.4 and 501.5 as mentioned above. This section also contains two new subparagraphs, designated (a)(2) and (a)(12). Subparagraph (a)(2) sets forth specific exceptions to the general rule that petitions and other documents submitted to ERA are considered filed upon receipt. The exception provides that certain documents, such as an application for modification or rescission of an order or a response to a denial of a claim of confidentiality, are considered to be filed upon mailing.

DOE has issued Ruling 1981–2 (46 FR 26605 (May 14, 1981)), clarifying the methodology for determining whether a liquid, solid or gaseous waste by-product of refinery or industrial operations or, in certain cases, natural gas, is commercially unmarketable, and hence, an alternate fuel. In light of this Ruling, ERA proposes § 501.7(a)(12), which would provide a certification procedure for requesting that a fuel be classified commercially unmarketable pursuant to the definitions of "alternate fuel", "natural gas" and "petroleum" contained in Part 500. Under this section, the owner or operator of a facility would file a request with ERA for classification of a fuel as commercially unmarketable. The request should include sufficient data to allow DOE to determine whether waste by-products are commercially unmarketable. ERA will make a decision on all such requests for classification of commercial unmarketability within sixty (60) days of receipt of each request with all accompanying data. If a waste by-product or gas is determined to be commercially unmarketable due to the inability of the producer to recover, by reasonably expected sales revenues, the costs associated with processing, storing, aggregating and distributing the waste by-product or gas, including the replacement cost of the fuel, the use of the by-product or gas as a fuel would not be prohibited by FUA. Subparagraph (a)(3)(C) of this section is designed to ensure that requests for commercial unmarketability determinations will be acted upon without undue delay.

Subparagraph (a)(11), pertaining to the procedure for requesting confidential treatment of material submitted to ERA, also contains one minor substantive change. Persons seeking confidential treatment are permitted, but no longer required, to file a statement specifying the justification for non-disclosure of the claimed confidential information, unless the information is claimed to fall within the exemption in 5 U.S.C. § 552(b)(4) for trade secrets and commercial or financial information. ERA retains the right to make its own determination with regard to any claim of confidentiality based on information at its disposal. Persons seeking confidential treatment are, however, encouraged to assist ERA in making this determination by providing information supporting the claim for confidentiality. In the absence of such information, ERA may be required by law to release the documents or data.

2. Written Comments, Public Hearings, and Conferences During Administrative Proceedings (Subpart C)

Because they also are contained in §§ 501.31(a) and 501.51(b), the provisions of current § 501.3(b), pertaining to written comments, have been deleted.

A Tentative Staff Analysis (TSA) will no longer be prepared nor will a Notice of Availability of TSA be published in the case of a petition for an exemption by certification. ERA will, however, publish Notice of Availability of Certification providing, as in the case of a TSA, 14 days for public comment on the notice. Sections 501.31 and 501.64 have been modified to reflect this change. ERA will continue to prepare a TSA and publish Notice of Availability of TSA for the temporary public interest exemption, the cogeneration exemption

based on public interest, and the non-certification environmental exemptions which are the only remaining non-certification exemptions under these proposed rules.

In addition, § 501.33(a) has been amended to reflect the modification of § 501.64. An interested person may request a public hearing in the case of a certification exemption no later than 45 days after publication of Notice of Acceptance of Petition or 14 days after publication of Notice of Availability of Certification, whichever occurs later.

3. Subpoenas, Special Reports Orders, Oaths, and Witnesses (Subpart D)

Section 501.40 is a revised combination of current §§ 501.40 and 501.41.

4. Prohibition Rules and Orders (Subpart E)

Subparagraph 501.51(b)(3) of the regulations does not permit a proposed prohibition order recipient to submit additional evidence relating to any findings that ERA is required to make after the expiration of the three month period for submission of written comments—except under certain circumstances. ERA proposes to amend this subparagraph to permit the submission of additional evidence at any time 1) prior to the close of the comment period following publication of a tenative staff analysis, or 2) prior to the close of the record of any public hearing, whichever occurs later.

This subparagraph of the regulations also requires that prohibition order recipients identify all bases for exemption quite early in the process. This requirement may unnecessarily create an excessive burden on both ERA and the order recipient. Therefore, ERA proposes to further amend this subparagraph to permit the order recipient to submit additional evidence relating to the identification of an exemption (or the circumstances under which a different exemption may be requested in the future) at any time prior to issuance of the final order.

5. Exemptions (Subpart F)

Subparagraph 501.60(a)(2) has been modified to correct the inadvertent omission in the current rules of the fact that Subpart F establishes procedures for filing petitions for permanent, as well as temporary, exemptions.

Much of current § 501.61 was considered to be unnecessary and repetitious. Portions of paragraph (a) pertaining to analyses of alternate fuels, and a simplified version of paragraph (b), pertaining to incorporation by reference, however, have been transferred to § 501.62. The remainder of § 501.61 has been deleted.

Subparagraphs (d)(1) and (2) of § 501.68, regarding the imposition of terms and conditions, have been amended. ERA proposes to limit its authority to issue terms and conditions applicable only to the unit or units which are the subject of an order granting an exemption. In addition, ERA proposes to no longer impose terms and conditions requiring the use of effective fuel conservation measures.

6. Use of Natural Gas or Petroleum for Emergency and Unanticipated Equipment Outage Purposes (Subpart M)

Under current regulations, oil and gas may be used under this Subpart, in powerplants, in order to avoid curtailment of noninterruptible electric supply to industrial customers. In some circumstances, such an event would not take place until residential consumers had been curtailed. In other situations, a utility may have no industrial customers, and so would never qualify under the emergency provisions. ERA therefore proposes to amend the definition of "minimum amounts required to alleviate or prevent," in § 501.191(c)(3)(i) and the definition of "temporary emergency condition" in § 501.192(a)(2) in order to avoid this unintended result.

C. New facilities (Part 503)

1. General Requirements for Exemptions (Subpart B)

ERA proposes to include three of the general exemption requirements, "No Alternate Power Supply" (§ 504.8), "Use of Mixtures" (§ 503.9), and "Alternative Site" (§ 503.11), within the eligibility section of each exemption to which they apply. They currently appear as part of the "Evidence required in support of a petition" subparagraphs. Under the proposed rules, petitioner will only be required to include duly executed certifications relating to each of these general requirements included in the eligibility sections.

a. *Cost calculation and fuel price computations* (§§ 503.6, 504.12 and Appendix II). Several changes are being proposed to the cost calculation, applicable to both new and existing facilities, which would (1) lessen the evidentiary burden, (2) update the inflation rate tables, and (3) remove any reference to the DOE entitlements programs (resulting from the President's decision on January 27, 1981 to decontrol domestic crude oil prices). In §§ 503.6 and 504.12, which deal with the cost calculation, ERA proposes to modify the evidence requirement to enable petitioners to (1) certify that the cost of using an alternate fuel would substantially exceed the cost of using oil as a primary energy source, and (2) submit a brief summary of the evidence to support its certification.

Under the rules presently in effect, petitioners must provide detailed accounting and back-up for all cost parameters. In addition, the present rule requires industrial installations to justify their power or steam generation schedule considering other units at the site. ERA is proposing to drop the justification for the schedule of power or steam generation (§§ 503.6(e)(6) and 504.12(e)(6)). ERA also believes that a simple certification process provides a more efficient alternative to the detailed evidentiary submissions required by the current regulations.

In the final rule governing the cost calculation, 45 FR 84971 (December 24, 1980), ERA stated that the statutory language of FUA appears to support the position that powerplants subject to the 1990 natural gas prohibition are not required to compare the cost of a replacement facility utilizing an alternate fuel to the cost of continuing to operate a natural gas-fueled powerplant since the statute refers to the cost of using coal or other alternate fuel in "such powerplant" during the period of remaining useful life.

With respect to temporary exemptions, ERA stated that "ERA has determined that the cost calculation does not require consideration of the costs associated with a replacement facility for the purpose of this exemption." It further stated that "ERA has not, however, made a final decision on whether petitioners seeking a permanent exemption must compare the cost of using an alternate fuel in a replacement facility."

Upon further consideration, ERA has determined that petitioners requesting an exemption from the 1990 off-gas provisions are not required to compare the costs of using alternate fuels in a replacement facility. As noted in the final rule, this position is supported by Subparagraph 312(a)(1)(A) of FUA, which states that an exemption shall be granted whenever "an adequate and reliable supply of coal or other alternate fuels of the quality necessary to conform with the design and operational requirements for use as a primary energy source will not be available to *such powerplant* * * * at a cost * * * which based on best practical estimates does not substantially exceed the cost * * * of using imported petroleum as a primary energy source during the remaining useful life of the *powerplant* * * *" (Emphasis added.)

ERA also intends to accept petitions for both temporary and permanent exemptions to the 1990 off-gas provisions.

Since a gas-fired unit may require very substantial derating when available alternate fuels are used, the capital investment required to make up for that derating could be considered at the option of the petitioner. If a gas-fired unit is not currently technically capable of burning alternate fuels, the capital investment required to replace the unit could also be considered at the option of the petitioner. The foregoing does not necessitate a change to the current rules, since the rules allow the petitioner to include or exclude the make-up capacity or replacement unit.

Appendix II provides the parameters to adjust a petitioner's present fuel prices for future escalations as well as to correct the cost computations for the effects of inflation. Due to the elimination of the price controls on oil, ERA is proposing to amend the equations in Appendix II to remove references to the entitlements program. In addition, ERA is proposing to update Tables II–1 and II–2 to reflect the latest projected inflation rates from the Office of Management and Budget.

ERA is not proposing to change the projections for future oil and coal prices at this time. However, ERA is requesting comment on two alternatives for treating future oil and coal prices (see Part III of this Preamble.)

b. *No alternate power supply* (§ 503.8). ERA proposes several revisions to the no alternate power supply general requirement. Most importantly, a petitioner may certify to one of two criteria: the attempted purchase of firm power for the first year of operation to cover all or part of the projected shortfall test; and the 20 percent reserve margin test. The current regulations require a demonstration of both tests and a demonstration of efforts undertaken to implement cost-effective conservation measures. As discussed below under § 503.13, ERA no longer intends to require an examination of conservation measures. In addition, in analyzing the reserve margins, ERA proposes, consistent with general industry practice, that petitioners may use electric regions, normal dispatch areas, or normal service areas.

c. *Use of mixtures* (§ 503.9). ERA proposes to revise the mixtures general requirement in two respects. First, for the same reasons discussed under the heading "Fuels Search" in this Preamble, ERA proposes to require that an exemption petitioner evaluate only the use of coal mixtures. A petitioner who wishes to substitute other mixtures combinations may do so, provided that ERA agrees to the substitution. Second, ERA proposes to streamline the procedure for meeting the mixtures general requirement to a certification, together with a statement of the basis for the certification.

d. *Alternative site* (§ 503.11). ERA proposes that when applying for any of the permanent exemptions for powerplants which require an alternative site examination, a petitioner need only certify that no reasonable alternative site exists and present the basis for the certification, including those factual and analytical materials deemed necessary by the petitioner. This proposed change would recognize that it is generally in the economic self-interest of utilities to analyze alternative sites at which alternate fuels could be used, significantly reduce the evidentiary burden on petitioning utilities, and expedite the exemption process.

ERA has also corrected the inadvertent omission of the intermediate load exemption from this requirement.

e. *Terms and conditions; compliance plans* (§ 503.12). Currently, ERA believes that it is in the economic interest of firms to undertake effective fuel conservation measures. ERA therefore proposes to limit exercise of its authority to issue terms and conditions to the unit or units which are the subject of an order granting an exemption, and to cease issuing terms and conditions which require specific conservation measures.

ERA believes that it is an unnecessary burden to require submission of a compliance plan for all temporary exemptions. ERA therefore intends to limit its exercise of this authority to the temporary use of synthetic fuels exemption, the sole exemption for which submission of a compliance plan is specifically required under Title II of the Act. ERA also proposes to delete the requirement to submit in all cases an annual update of such a plan. Conforming revisions to individual exemption sections have been included.

f. *Conservation measures* (§ 503.13). Since ERA no longer intends to attach conservation terms and conditions to the grant of an exemption petition, and in order to facilitate the exemption process, ERA proposes to delete this general requirement. ERA believes that it is in the economic self-interest of firms to undertake all reasonable conservation measures; therefore, the regulation is superfluous.

g. *Petroleum and natural gas consumption* (§ 503.14). In keeping with its proposal not to attach terms and conditions to the grant of an exemption petition which pertain to units which are not the subject of the petition, ERA proposes to delete this general requirement.

h. *Fuels search* (§ 503.16). To provide certainty, ERA proposes to clarify the fuels search requirement for certain permanent exemptions. ERA has previously indicated that it would not require a petitioner to evaluate fuels which are unreasonable to its needs, 44 FR 28951 (May 17, 1979). In ERA's continuing operational experience under the Act, coal is most often the preferred alternate fuel alternative to oil and gas. In specific applications, however, ERA recognizes that the use of alternate fuels other than coal may be viable alternatives to oil and gas use. ERA therefore proposes to require that a petitioner evaluate only the use of coal; however, where a petitioner believes that use of coal is unreasonable, and where ERA and the petitioner can reach accord, the petitioner may evaluate another alternate fuel or fuels instead. In no event, however, will a petitioner be required to evaluate any alternate fuel which is unreasonable to its needs or which has not been demonstrated to be acceptable for use in commercial applications which are comparable to its intended use.

2. Exemptions (Subparts C and D)

In an effort to reduce regulatory requirements associated with the exemption process and to avoid unnecessary and costly delays in the preparation and consideration of exemption petitions, ERA proposes to revise the evidentiary requirements to qualify for temporary or permanent exemptions under Title II of the Act.

ERA's current rules under FUA provided for a number of certification exemptions, calling for duly executed certifications to the statutory exemption criteria, together with certain minimal evidentiary submissions. To date, ERA has found this certification process to be an expeditious and efficient procedure for processing exemption petitions. Therefore, ERA proposes, wherever possible, to reduce evidentiary requirements to a certification to the eligibility criteria for an exemption, together with exhibits containing the basis for such certifications. ERA proposes that this procedure now be employed for all Title II exemptions, except the temporary public interest exemption (§ 503.25) the public interest alternative for the cogeneration exemption (§ 503.37), and the non-certification environmental exemptions (§§ 503.23, 503.34). ERA also proposes to delete the general requirements for

conservation measures and petroleum and natural gas consumption for all exemptions under Title II. In addition, as noted previously, ERA is proposing to delete the requirement that a tentative staff analysis be issued for certification exemption petitions. Petitioner's certifications would, of course, be subject to the public comment and hearing processes provided under the Act. Significant additional revisions to individual exemption sections, are described in the remainder of this Preamble.

a. *Purpose and scope* (§ 503.20). Paragraph (d) of this section currently measures the duration of any temporary exemption from the date the unit is placed in service. ERA proposes to delete this paragraph in recognition of the fact that some petitioners may seek a temporary exemption for a new unit after it is placed in service.

b. *Lack of alternate fuel supply* (§§ 503.21, 503.32). Under the alternative certification provided for MFBI's that are operated less than 600 hours on an annual basis, ERA proposes to clarify its intention to allow the petitioner to burn that amount of fuel which the facility woud require if it were operated on a *full load basis* for 600 hours. This will permit a petitioner to qualify for this certification alternative even if the installation is operated more than 600 hours per year, so long as the installation does not burn more fuel than it would require at full load for 600 hours.

C. *Site limitations* (§§ 503.22, 503.33). Instead of requiring the petitioner to demonstrate that one or more of the enumerated physical limitations cannot be overcome during the proposed exemption period, ERA proposes to use the listed items for illustrative purposes only. This amendment offers greater flexibility to the petitioner to identify and prove the substance of its site limitation claim.

d. *Inability to comply with applicable environmental requirements* (§§ 503.23, 503.34). ERA is proposing an additional method of fulfilling the evidentiary requirements for obtaining an exemption under these sections.

Under the proposed alternative, ERA will accept a certification that: (1) the facility is located in a Class I area as defined under Part C of the Clean Air Act; (2) the facility is located in a nonattainment area as defined under Part D of the Clean Air Act; or (3) even with the use of cost-effective pollution control equipment, the use of coal or other alternate fuels deemed to be available will cause or contribute to a concentration of a pollutant which exceeds the maximum allowable increases in a Class I area, or a national ambient air quality standard in a non-attainment area. This proposal recognizes that firms would generally not be able to construct alternate-fuel fired facilities to meet the very strict Clean Air Act environmental requirements in such areas.

Under this proposed certification provision, ERA seeks comment on whether it should require the consideration of trade-offs under the Clean Air Act. ERA also solicits comment on whether the certification procedure should be extended to other environmental circumstances.

e. *Future use of synthetic fuels* (§ 503.24). This revision would update § 503.24 to provide, consistent with Section 175 of the Energy Security Act, Public Law 96-294, that this temporary exemption may be granted for an initial period of up to 10 years.

f. *Public interest* (§ 503.25). In the interest of brevity, and since each petition will be evaluated on a case-by-case basis, ERA proposes to delete the Policy Note in this section.

g. *Inability to obtain adequate capital* (§ 503.35). In the case of a powerplant, the current regulation requires a utility system with a generating capacity greater than or equal to 2000 megawatts to demonstrate, on a parent company basis, that the specific restrictions which constrain the utility's ability to raise debt or equity capital could not be alleviated by any future action of the public utility commission or other regulatory authority. It has been suggested that this requirement may be perceived as constituting an unwarranted Federal intrusion into State ratemaking authority. ERA proposes to delete this requirement based upon its determination that it unnecessarily restricts the availability of the exemption.

h. *Cogeneration* (§ 503.37). ERA proposes to combine interim rule exemption provisions for installations and powerplants found in §§ 503.37 and 505.27 into one section.

For the oil or gas savings criterion for establishing eligibility, ERA proposes a certification procedure. For the alternative public interest criterion, ERA would require an explanation of the public interest factors which a petitioner believes are sufficient to support grant of its exemption.

The foregoing revisions are proposed in the interest of reducing regulatory burdens. On August 11, 1980, 45 FR 53368, ERA proposed substantive revisions to the cogeneration exemption sections. Consideration of the testimony and public comments on that NOPR is proceeding under the separate Docket No. ERA-R-80-24.

i. *Fuel mixtures* (§ 503.38). ERA proposes to disassociate the amount of oil or gas permitted to be used in a mixture under this exemption from the presumed 25 percent exclusion from the definition of "primary energy source" (§ 500.2) of oil and gas used for unit ignition, startup, testing, flame stabilization and control. This proposal is based on the recognition that economic forces will generally act to minimize the percentage of oil or gas used in a mixture, since a user can be expected to offset the high price of oil or gas by increasing the percentage of less expensive coal wherever feasible. Thus, a facility receiving a mixtures exemption would be permitted to burn the amount of oil or gas permitted under the order granting the exemption in addition to any fuel which is used for the ignition, startup, testing, flame stabilization, and control purposes identified under the definition of primary energy source.

j. *Impairment of reliability* (§ 503.40). Current regulations impose terms and conditions on the reliability exemption such that the unit is allowed to operate only during the period of the reliability impairment. Thus, when the reliability problem no longer exists, the unit would have to cease operation under this exemption. ERA proposes to delete these terms and conditions.

The current rules also impose eligibility requirements which state that the electric region in which the utility is located must have an impairment of reliability measured by Loss of Load Probability (LOLP). These LOLP standards vary from one day in one year to one day in five years, depending on the date of the commencement of operation. ERA proposes to adopt a uniform LOLP standard of one day in ten years, which is both more fuel efficient and more widely accepted in the utility industry as a measure of impaired reliability.

k. *Peakload powerplants* (§ 503.41). Under the current rules for this exemption, a petitioner is required to certify that the powerplant would be operated solely as a peakload powerplant and only to meet peakload demand for its remaining life. Some commenters felt that the latter requirement exceeded the bounds of ERA's discretion under the Act. Others indicated that the added requirement that an exempted peakload unit only be operated to meet peakload demand, was inconsistent with the historical use of peakload units to meet other contingencies, such as forced outages and maintenance periods.

ERA proposes to delete the explicit regulatory requirement that a peakload unit be operated solely to meet peakload demand. ERA believes that the requirement that a unit be operated solely as a peakload powerplant, as defined in section 103(a) of the Act (i.e., its electrical generation in kilowatt hours does not exceed, for any 12-month period, design capacity multiplied by 1500 hours), will be sufficient to meet the statutory criteria for this exemption. This revision would comport with the purposes of the Act, by eliminating an unnecessary, and potentially inefficient constraint on recipients of the peakload exemption.

In addition, the present rules provide a certification process for combustion turbine peaking units and a more complex evidentiary process for other types of peakload units. ERA proposes that petitions for the peakload exemption be by certification irrespective of the type of unit, since the statute does not distinguish among various types of peakload units.

1. Intermediate Load Powerplant (§ 503.42)

ERA proposes to greatly reduce and simplify the evidentiary requirements for this exemption. ERA believes that the certification approach proposed to be adopted, makes unnecessary submission of the detailed affidavits called for in the final rules.

D. Existing Facilities (Part 504)

In addition to the cost calculation revisions discussed earlier in this Preamble, ERA believes that the language of § 504.6(d) which excludes consideration of Pollution Control and coal handling equipment in determining substantial physical modification may be too restrictive, and proposes to amend paragraph 504.6(d) to permit such considerations.

III. Additional Comments Requested

ERA is not at this time proposing to revise its rules with respect to the following matters, but solicits comments on how these additional matters would affect its implementation of the Act. In addition, ERA solicits comments on any other issues of concern to the public related to DOE's regulatory program implementing the Act. Such comments may address existing as well as new facilities. In particular, ERA solicits comments on whether other fuels should be added to the current regulatory definition of "Alternate fuels" in Part 500.

A. Cost Calculation

ERA is proposing two alternatives to the use of the fuel price indices and associated escalation rates now contained in Tables II–1 and II–2 and required in the cost calculations (§§ 503.6 and 504.12), the first proposal recognizes the very uncertain nature of estimating future fuel prices relative to present prices and to the prices of other fuels. The second proposal explicitly allows for the possibility of regional differences in coal prices.

The "no escalation" alternative would require the petitioner to use unescalated fuel prices for both oil and coal without regard to anticipated real or relative price changes which might occur over the useful life of the unit.

The "own coal rate" alternative would permit the petitioner to use his own substantiated escalation rates for coal rather than those provided by ERA. He would still be required to use the ERA-specified oil rates. The need for some reasonable justification of these rates, however, may be incompatible with the certification process being proposed elsewhere in this NOPR.

B. Lack of Alternate Fuel Supply—(600 Hour Certification)

ERA is requesting comments on and justifications for replacement of the 600 hour certification exemption available to MFBI's (§ 503.21(c)) with (1) the granting of this exemption by rule rather than by order, (2) substitution in the certification exemption of a sliding scale of maximum allowable hours of use depending on unit size, or (3) replacement of the 600 hour maximum with a different number.

The first alternative would remove the exemption petition burden from those units operating less than 600 hours per year. The second alternative would explicitly recognize that a smaller unit can operate more hours and still qualify for an exemption due to cost. The third would change the annual maximum for all qualifying units to reflect relative changes in the cost of coal and oil/gas units since the 600 hour figure was adopted.

C. Imported Petroleum

In the current regulations, the definition of "Cost of petroleum or natural gas" in Part 500 requires that these fuels always be priced at the cost of imported petroleum, regardless of the specific application of the term. ERA, solicits comment on the appropriateness of deleting this definition and requiring that the imported petroleum cost standard only be applied when the cost calculations (§§ 503.6 and 504.12) are used to determine eligibility for a temporary or permanent exemption by reason of cost (§§ 503.21, 503.32, 504.31, and 504.51). In other instances where a net present value calculation is used (e.g., financial feasibility finding), the actual cost fo fuel, not the cost of imported petroleum, could then be used. This change, if adopted, would require conforming language changes in the financial feasibility finding (§ 504.6(j)).

IV. Other Administrative Matters

A. Synthetic Fuels

ERA is concerned that current regulatory language of the synthetic fuels exemption (§ 503.24) may result in a dampening effect upon synthetic fuels development. Consistent with the purposes of the Act, ERA intends to interpret the language requiring the demonstration of a binding contract in a manner most likely to encourage synthetic fuels development.

B. Scheduling of Effective Dates for Prohibition Orders

Section 501.51(c)(2) of the current rules permits ERA some discretion in determining effective dates of final prohibition orders. ERA recognizes that many utilities face severe cash flow restrictions and believes that in some instances scheduling of other expenditures should cause ERA to consider allowing changes in effective dates in order to reflect this situation.

C. Temporary and Permanent Exemptions

A facility covered by the grant of an exemption under FUA will be deemed to be in compliance with applicable prohibitions, within the meaning of Sections 214 and 314 of The Act. A petitioner may therefore seek to qualify, concurrently, for a temporary exemption, to be followed by a permanent exemption, where compliance with applicable prohibitions can be demonstrated by its qualification for the permanent exemption at the expiration of the temporary exemption.

V. Procedural Matters

A. Written Comments

Interested persons are invited to participate in this rulemaking by submitting data, views or arguments with respect to the issues addressed in this NOPR, and any other issues of concern related to DOE's regulatory program implementing the Act. Comments should be identified on the outside envelope and on the documents submitted with the designation; "Powerplant and Industrial Fuel Use

Act" Docket No. ERA–R–81–06. Fifteen copies should be submitted. All comments received will be available for public inspection in the ERA Office of Public Information, 2000 M Street, N.W., Room B–110, Washington, D.C. 20461, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. All comments received on or before July 27, 1981, will be considered.

If you wish to submit any information or data which you consider to be confidential, you must comply with DOE's freedom of information regulations (10 CFR Part 1004). DOE reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

To facilitate ERA's review of comments, ERA requests that, to the extent possible, any person submitting comments identify each issue commented upon by the appropriate section number of the regulations and submit comments applicable to each such section on a separate page.

B. Public Hearings

The date and location for the public hearing are set forth at the beginning of this Preamble.

You may make a written request for an opportunity to make an oral presentation at the public hearing. If so, you should describe the interest concerned; if appropriate, state why you are a proper representative of a group or class of persons that has such an interest; and provide a concise summary of the proposed oral presentation and a phone number where you may be contacted through the day before the hearing. If you are selected to be heard at the hearing, ERA will notify you before 4:30 p.m., July 8, 1981. You are requested to make 100 copies of your statement available at the time and place of the hearing.

ERA reserves the right to select the persons to be heard at the hearing (in the event there are more requests to be heard than time allows), to schedule their respective presentations, and to establish the procedures governing the conduct of the hearing. The length of each presentation may be limited, based upon the number of persons requesting to be heard.

An ERA official will be designated to preside at the hearing. This will not be a judicial-type hearing. Questions may be asked only by those conducting the hearing. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he or she so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

You may also submit questions to be asked of any person making a statement at the hearing to the address indicated above by 4:30 p.m., July 13, 1981. If you wish to ask a question at the hearing, you may submit the question, in writing, to the presiding officer. The presiding officer will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearing will be announced by the presiding officer.

A transcript of the hearing will be made. The entire record of the hearing, including the transcript, will be retained by ERA and made available for inspection in the DOE Freedom of Information Office, Room 1E–190, Forrestal Building, 1000 Independence Avenue, SW., Washington, D.C., and in the ERA Office of Public Information, Room B–110, 2000 M Street, NW., Washington, D.C., between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday. You may purchase a copy of the transcript from the reporter.

C. Section 102 of the National Environmental Policy Act (NEPA)

DOE has determined that this regulation, as proposed, would not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of Section 102(2)(C) of NEPA. Therefore, the preparation of an Environmental Impact Statement for this proposal is not required under 10 CFR Part 208.

D. Regulatory Flexibility Act

DOE has determined that these proposals, if adopted, will not negatively impact firms that are "small entities" within the meaning of the Regulatory Flexibility Act. Therefore, DOE is not required to publish an initial regulatory flexibility analysis pursuant to Section 603 of that Act.

E. Executive Order No. 12291

Section 8(b) of Executive Order No. 12291 (46 FR 13193 (February 19, 1981)), authorizes the Director of the Office of Management and Budget (the "Director") to exempt any class or category of regulations from any or all requirements of that Executive Order. DOE has obtained an exemption for these Proposed Regulations.

F. Federal Reports Act

When finalized, these rules must be submitted to the Office of Management and Budget (OMB) for clearance under the provisions of the Federal Reports Act. Any data submitted in compliance with provisions of the final rule may require revision or additions as a result of OMB's action.

(Department of Energy Organization Act, Pub. L. 95–91, 91 Stat. 565 (42 U.S.C. 7101 *et seq.*), Powerplant and Industrial Fuel Use Act of 1978, Pub. L. 95–620, 92 Stat. 3289 (42 U.S.C. 8301 *et seq.*); Energy Security Act, Pub. L. 96–294, 94 Stat. 611; E.O. 12009, 42 FR 46267, September 15, 1977)

In consideration of the foregoing, Parts 500, 501, 503, 504 and 505, Subchapter E, "Alternate Fuels" of Chapter II, Title 10 of the Code of Federal Regulations, are proposed to be amended as set forth below.

Issued in Washington, D.C. on the 9th of June, 1981.

James B. Edwards,

Secretary.

PART 500—DEFINITIONS

For the reasons set out in the preamble, Part 500 of Chapter II, Title 10 of the *Code of Federal Regulations* is proposed to be amended as shown.

§ 500.2 [Amended]

(1) In § 500.2 by amending the definitions of "Alternate fuel," "natural gas," and "petroleum" to add at the end of each such definition the following Note:

Note.—DOE has issued Ruling 1981–2 (46 FR 28605 (May 14, 1981)), clarifying the methodology for determining whether a liquid, solid or gaseous waste by-product of refinery or industrial operations, or, in certain cases, natural gas, is commercially unmarketable.

(2) By revising the definition of "Capability to use alternate fuel" in § 500.2 to read as follows:

"Capabilitity to use alternate fuel," for the purpose of the Title II prohibition relating to construction of new powerplants, means the powerplant to be constructed must have the ability, from point of fuel intake, to physically sustain combustion of an alternate fuel and to maintain heat transfer. This alternate fuel must be available to the operator at the facility site at the time it becomes operational or at the expiration of a temporary exemption.

Example: ERA will examine the furance configuration and ash removal capability but will not normally consider the need to install pollution control equipment as a measure of capability to use alternate fuel. Furthermore, ERA will not conclude that the absence of fuel handling equipment, such as conveyor belts, pulverizers, or unloading facilities, bears on the issue of a unit's capability to burn an alternate fuel.

(3) By revising the definition of "Combined cycle unit" in § 500.2, to read as follows:

"Combined cycle unit" means

(1) For a powerplant, an electric power generating unit that consists of a combination of one or more combustion turbine units and one or more steam turbine units with a substantial portion of the required energy input of the steam turbine(s) provided by the exhaust gas from the combustion turbine unit(s). Use of small amounts of supplemental firing for the steam turbine does not preclude the unit from being a combined cycle unit or

(2) For a major fuel burning installation, a unit that consists of a combination of one or more combustion turbine units and one or more waste heat boilers with a substantial portion of the required energy input to the waste heat boiler provided by the exhaust gas from the combustion turbine unit(s).

(4) By amending the definition of "Construction" in § 500.2 by ending the definition after the term "foundation pilings" at the end of the first sentence.

(5) By amending the definition of "Design capability" in § 500.2 by revising paragraph (2) to read as follows:

"Design capability" shall be determined as follows:

(1) * * *

(2) For a major fuel burning installation, defined in Section 103(a)(10) of FUA, the fuel heat input rate of a boiler (Btu/hr) shall be deemed, at the option of the owner or operator, to be either:

(i) the safety valve minimum relieving capacity (lbs/hr) multiplied by the enthalpy difference (Btu/lb) of feedwater input and steam output, divided by the boiler design efficiency (decimal) for the fuel. For the purpose of the definition, the safety valve capacity shall be determined in accordance with the current American Society of Mechancial Engineers Boiler and Pressure Vessel Code; or

(ii) The manufacturer's continuous rating (lb/hr) multiplied by the enthalpy difference (Btu/lb) of feedwater input and steam output divided by the design efficiency (decimal) for the fuel. For the purpose of this definition the manufacturer's continuous rating (MCR) is defined as the maximum load in pounds of steam per hour for which the boiler is designed to operate over a period of time.

(6) In § 500.2 by revising the definitions of "Major fuel burning installation" and "Electric powerplant" to read as follows:

"Electric powerplant" means any stationary electric generating unit consisting of (1) a boiler, (2) a gas turbine, or (3) a combined cycle unit which employs a generator to produce electric power for purposes of sale or exchange and has the design capability of consuming any fuel (or mixture thereof) at a fuel heat input rate of 100 million Btu's per hour or greater. In accordance with Section 103(a)(7)(C) of FUA, the Secretary has determined that it is appropriate to exclude from this definition any unit which has a design capability to consume any fuel (including any mixture thereof) that does not equal or exceed 100 million Btu's per hour.

"Major fuel burning installation" means a stationary unit consisting of a boiler, gas turbine unit, combined cycle unit, or internal combustion engine that has the design capability of consuming any fuel (or mixture thereof) at a fuel heat input rate of 100 million Btu's per hour or greater. This definition does not include:

(1) Any electric powerplant;

(2) Any pump or compressor used solely in connection with the production, gathering, transmission, storage, or distribution of gases or liquids, but only upon the filing of a written certification of such use with ERA in accordance with procedures specified in §§ 501.7 and 501.11 of the regulations. Such certification must be made only for such pumps and compressors which are driven by units with a design fuel heat input rate of 100 million Btu's per hour or greater and which consume petroleum or natural gas. The following information is required:

(i) Unit size in Btu input;

(ii) Equipment function; and

(iii) Geographic location of the unit; or

(3) Steam generators used for crude oil recovery.

Note.—For purposes of clause (2)(ii), also excluded from jurisdiction under the Act is any boiler, combustion turbine, combined cycle unit, or internal combustion engine used to drive pumps and compressors for such purposes, if ninety (90) percent or more of the energy output is used to drive the pumps and compressors.

In accordance with Section 103(a)(10)(C) of FUA, the Secretary has determined that it is appropriate to exclude from this definition any unit which has a design capability to consume any fuel (including any mixture thereof) that does not equal or exceed 100 million Btu's per hour.

(7) By revising the definition of "Primary energy source" in § 500.2 to read as follows:

"Primary energy source" means the fuel or fuels used by any existing or new electric powerplant or major fuel burning installation, except:

(1) Minimum amounts of fuel, not to exceed twenty-five (25) percent, unless otherwise demonstrated, of the total annual Btu heat input of the unit, required for unit ignition, startup, testing, flame stabilization, and control uses; and

(2) Minimum amounts of fuel required to alleviate or prevent:

(i) Unanticipated equipment outages as defined in § 501.191 of these regulations; and

(ii) Emergencies directly affecting the public health, safety, or welfare that would result from electric power outages as defined in § 501.191 of these regulations.

Note.—(1) Any fuel excluded under the provisions of subparagraph (1) of this definition, is in addition to any fuel authorized to be used in any order granting a fuel mixtures exemption under Parts 503 and 504 of these rules. (2) If an auxiliary unit consumes fuel only for the auxiliary functions of unit ignition, startup, testing, flame stabilization, and other control uses, its use of minimum amounts of natural gas or petroleum is not prohibited by FUA, even though the unit is an MFBI. The measurement of such minimum amounts of fuel under the current rule is discussed in *Associated Electric Cooperative*, et al., Interpretation 1980–42 (45 FR 82572 (December 15, 1980)).

(8) By adding a definition of "Rated capacity" in § 500.2 to read as follows:

"Rated capacity", for the purpose of determining reduction in the rated capacity of an existing powerplant, means design capacity, or, at the election of the powerplant owner or operator, the actual maximum sustained energy output per unit of time that could be produced, measured in kilowatts.

§§ 500.4 and 500.5 [Removed]

(9) By removing §§ 500.4 and 500.5.

PART 501—ADMINISTRATIVE PROCEDURES AND SANCTIONS

For the reasons set out in the preamble, Part 501 of Chapter II, Title 10 of the Code of Federal Regulations is proposed to be amended as shown:

1. By revising §§ 501.2 and 501.3 to read as follows:

§ 501.2 Prepetition conference.

(a) Owners and operators of powerplants and MFBI's may request a prepetition conference with ERA for the purpose of discussing and applicability of 10 CFR Parts 503, 504, and 508 to their situations and the scope of any exemption or other petition that ERA would accept as adequate for filing purposes.

(b) The owner or operator who requests a prepetition conference may personally represent himself or may

designate a representative to appear on his behalf. A prepetition conference or a request for a prepetition conference does not commence a proceeding before ERA.

(c) If ERA agrees to waive any filing requirements under 10 CFR 501.3(d), a memorandum or record stating this fact will be furnished to the potential petitioner within thirty (30) days after the conference. Copies of all applicable memoranda of record must be attached to any subsequently-filed petition.

(d) A record of all prepetition conferences will be included in the public file. ERA may provide for the taking of a formal transcript of the conference and the transcript will be included in the public file.

§ 501.3 Petitions.

(a) *Filing of petitions.* Petitions for exemptions are to be filed with ERA at the address given in 10 CFR 501.11. Upon acceptance (as opposed to filing) of the petition, ERA shall notify the public by **Federal Register** publication that an exemption proceeding has begun.

(b) *Acceptance of petition.* (1) ERA will notify each petitioner in writing within thirty (30) days of receipt of the petition that it has been accepted or rejected and, if rejected, the reasons therefor.

(2) A petition, including supporting documents, will be accepted if the information contained appears to be sufficient to support an ERA determination. Additional information may be requested during the course of the proceeding, and failure to respond to such a request may ultimately result in denial of the requested exemption.

(3) Acceptance of a petition does not constitute a determination that the requested exemption will be granted.

(c) *Rejection of petition.* (1) ERA will reject a petition if it does not meet the information or certification requirements established for the relevant exemptions under Parts 503, 504, and 508. A written explanation of the reasons for rejection will be furnished with notification of the rejection.

(2) A timely-filed petition rejected as inadequate will not be rendered untimely if resubmitted in amended form within ninety (90) days of the date of rejection.

(3) ERA will, within thirty (30) days of receipt of a petition that is found to be incomplete due to minor deficiencies, notify the petitioner of the deficiencies and allow ninety (90) days from the date of notification to cure the specified deficiencies. The failure to cure the deficiencies during this time may result in denial of the requested exemption.

(d) *Waiver of filing requirements.* Upon its own motion or at the request of a petitioner, ERA may waive some or all of the regulatory requirements if the purposes of FUA would be best achieved by doing so.

2. By removing and reserving §§ 501.4 and 501.5 as follows:

§ 501.4 [Reserved]

§ 501.5 [Reserved]

3. By revising § 501.7 to read as follows:

§ 501.7 General filing requirements.

Except as elsewhere indicated otherwise, all documents required or permitted to be filed with ERA or DOE in connection with a proceeding under 10 CFR Parts 503, 504, and 508 shall be filed in accordance with the following provisions:

(a) *Filing of documents.*

(1) Documents including, but not limited to, applications, requests, complaints, petitions (except petitions for exemption), and other documents submitted in connection therewith, filed with ERA are considered to be filed upon receipt.

(2) Notwithstanding the provisions of paragraph (1), an application for modification or rescission in accordance with Subpart G of this Part, a reply to a notice of violation, a response to denial of a claim of confidentiality, or a comment submitted in connection with any proceeding transmitted by registered or certified mail and addressed to the appropriate office is considered to be filed upon mailing.

(3) *Timeliness.* Documents are to be filed with the appropriate DOE or ERA office listed in 10 CFR 501.11. Documents received after regular business hours are deemed filed on the next regular business day. Regular business hours are 8 a.m. to 4 p.m.

(4) *Computation of time.* In computing any period of time prescribed or allowed by these regulations or by an order, the day of the act, event, or default from which the designated period of time begins to run is not to be included. The last day of the period so computed is to be included unless it is a Saturday, Sunday, or Federal legal holiday in which event the period runs until the end of the next day that is neither a Saturday, Sunday, nor a Federal legal holiday.

(5) *Additional time after service by mail.* Whenever a person is required to perform an act, to cease and desist therefrom, or to initiate a proceeding under this part within a prescribed period of time and the order, notice, interpretation or other document is served by mail, three (3) days shall be added to the prescribed period.

(6) *Extension of time.* When a document is required to be filed within a prescribed time, an extension of time to file may be granted upon good cause shown.

(7) *Signing.* All applications, petitions, requests, comments, and other documents that are required to be signed, shall be signed by the person filing the document or a duly authorized representative. Any application, petition, request, complaint, or other document filed by a duly authorized representative shall contain a statement by such person certifying that he is a duly authorized representative, unless an ERA form otherwise requires. (A false certification is unlawful under the provisions of 18 USC 1001 (1970).)

(8) *Labeling.* An application, petition, or other request for action by DOE or ERA should be clearly labeled according to the nature of the action involved, e.g., "Petition for Temporary Exemption," "Petition for Extension (or Renewal) of Temporary Exemption," both on the document and on the outside of the envelope in which the document is transmitted.

(9) *Obligation to supply information.* A person who files an application, petition, complaint, or other request for action is under a continuing obligation during the proceeding to provide DOE or ERA with any new or newly discovered information that is relevant to that proceeding. Such information includes, but is not limited to, information regarding any other application, petition, complaint, or request for action that is subsequently filed by that person with any DOE office or ERA office.

(10) *The same or related matters.* A person who files an application, petition, complaint, or other request for action by DOE or ERA shall state whether, to the best knowledge of that person, the same or related issue, act or transaction has been or presently is being considered or investigated by any DOE or ERA office, other Federal agency, department or instrumentality; or by a State office, a State or municipal agency or court; or by any law enforcement agency, including, but not limited to, a consideration or investigation in connection with any proceeding described in this Part. In addition, the person shall state whether contact has been made by the person or one acting on his behalf with any person who is employed by DOE or ERA with regard to the same issue, act or transaction or a related issue, act, or transaction arising out of the same factual situation; the name of the person contacted; whether the contact was

verbal or in writing; the nature and substance of the contact; and the date or dates of the contact.

(11) *Request for confidential treatment.* (i) If any person filing a document with DOE or ERA claims that some or all of the information contained in the document is exempt from the mandatory public disclosure requirements of the Freedom of Information Act (5 USC 552); is information referred to in 18 USC 1905; or is otherwise exempt by law from public disclosure, and if such person requests DOE or ERA not to disclose such information, such person shall make a filing in accordance with paragraph (b)(2) below. The person shall indicate in the original document that it is confidential or contains confidential information and may file a statement specifying the justification for nondisclosure of the information for which confidential treatment is claimed. If the person states that the information comes within the exception in 5 USC 552(b)(4) for trade secrets and commercial or financial information, such person shall include a statement specifying why such information is privileged or confidential. If a document is not so filed, ERA may assume that there is no objection to public disclosure of the document in its entirety.

(ii) DOE or ERA retains the right to make its own determination with regard to any claim of confidentiality. Notice of the decision by DOE or ERA to deny such claim, in whole or in part, and an opportunity to respond shall be given to a person claiming confidentiality of information no less than seven (7) days prior to its public disclosure.

(iii) The above provisions (A–B) do not apply to information submitted on ERA forms that contain their own instructions concerning the treatment of confidential information.

(12) *Request for classification of fuel as commercially unmarketable.*

Note.—DOE Ruling 1981–2 (46 FR 26605 (May 14, 1981)), contains a discussion of the criteria for determining the commercial unmarketability of liquid, solid or gaseous waste by-products, and, in certain cases, natural gas under FUA.

(i) *Filing of request.* The owner or operator of a powerplant or installation may file a request for classification of a fuel as commercially unmarketable at the address provided in § 501.11.

(ii) *Contents of request.* A request for classification of a fuel as commercially unmarketable pursuant to the definitions of "Alternate fuel," "Natural gas," and "Petroleum," contained in 10 CFR Part 500 should include a duly executed certification containing the following:

(A) Name of requester.

(B) Identification and location of unit in which the fuel is proposed to be burned.

(C) The calculations made concerning the costs and revenues involved in assessing the commercial marketability of the fuel and the methodology used to make the calculations, including an explanation of the numbers used; and

(D) The Name, address, and telephone number of the person who can supply addition information.

(iii) *Decision on request.* ERA will acknowledge receipt of a request and will render a decision within 60 days of the date of the acknowledgement.

(13) *Separate applications, petitions or requests.* Each application, petition, or request for DOE or ERA action shall be submitted as a separate document, even if the applications, petitions, or requests deal with the same or a related issue, act, or transaction, or are submitted in connection with the same proceeding.

(b) *Number of documents to be filed.*

(1) A petitioner must file an executed original and fourteen (14) copies of all documents submitted to ERA.

(2) Where the petitioner requests confidential treatment of some or all of the information submitted, an original and eleven (11) copies of the confidential document and three (3) copies of the document with confidential material deleted must be filed.

4. By revising §§ 501.31 and 501.32 to read as follows:

§ 501.31 Written comments.

Except as may be provided elsewhere in these regulations, ERA shall provide a period of at least forty-five (45) days, commencing with publication of the Notice of Acceptance of Petition in the **Federal Register** in accordance with 10 CFR 501.63(a), for submission of written comments concerning a petition for an exemption. ERA also shall provide a period of at least fourteen (14) days for submission of written comments concerning a tentative staff analysis or certification commencing with publication of the Notice of Availability of Tentative Staff Analysis or Certification in the **Federal Register**. The period may be extended by ERA in accordance with 10 CFR 501.7(a)(6). (See 10 CFR 501.51(b) with respect to the comment periods applicable to prohibitions by order to existing facilities and the extension of such comment periods.) Written comments shall be filed in accordance with 10 CFR 501.7.

§ 501.32 Conferences (other than prepetition conferences).

Conferences, other than prepetition conferences, will be convened and conducted in accordance with 10 CFR 205.171.

5. By revising paragraph (a) and adding paragraph (c) to § 501.33 to read as follows:

§ 501.33 Requests for a public hearing.

(a) *New Facilities.* Any interested person may submit a written request that ERA convene a public hearing in accordance with Section 701 of FUA—

(1) No later than fourteen (14) days after the publication of a Notice of Availability of Tentative Staff Analysis; or

(2) In the case of a certification exemption, no later than 45 (forty-five) days after publication of the Notice of Acceptance of Petition, or 14 (fourteen) days after publication of a Notice of Availability of Certification, whichever occurs later.

These time periods may be exended at the discretion of ERA.

* * * * *

(c) *Contents of request.* A request for a public hearing must include a description of the requesting party's interest in the proceeding and a statement of the issues involved. The request should, to the extent possible, identify any witnesses that are to be called, summarize the anticipated testimony to be given at the hearing, and outline questions that are to be posed.

6. By revising § 501.40 to read as follows:

§ 501.40 Issuance.

(a) As authorized by Section 711 of FUA and Section 645 of the DEOA, the Administrator, his duly authorized agent or a presiding officer may, in accordance with 10 CFR 205.8, sign, issue, and serve subpoenas; issue special report orders (SRO); administer oaths and affirmations; take sworn testimony, compel attendance of and sequester witnesses; control the dissemination of any record of testimony taken pursuant to this section; and subpoena and reproduce books, papers, correspondence, memoranda, contracts, agreements, or other relevent records of tangible evidence including, but not limited to, information retained in computerized or other automated systems in the possession of the subpoenaed person.

(b) *Petition to withdraw or modify.* Prior to the time specified for compliance in the subpoena or SRO, the person to whom the subpoena or SRO is directed may apply for its withdrawal or

modification as provided in 10 CFR 205.8, except that if the subpoena or SRO is issued by a duly appointed presiding officer, the request to withdraw or modify must be addressed to that presiding officer, and its grant or denial will be decided by him.

7. By removing and reserving § 501.41 as follows:

§ 501.41 [Reserved]

8. By revising paragraph (b) (3) and (5) of § 501.51 to read as follows:

§ 501.51 Prohibition by order-existing facilities.

* * * * *

(b) * * *

(3) ERA shall provide a period for the submission of written comments of at least three months after the date of the proposed order. During this period, the recipient of the proposed order and any other interested person must submit any evidence that they have available at that time relating to each of the findings that ERA is required to make under Section 301(b) of the Act in the case of a powerplant or the findings required by Section 302(a) of the Act in the case of an installation. A proposed order recipient may submit additional new evidence at any time prior to the close of the public comment period which follows publication of the tentative staff analysis or prior to the close of the record of any public hearing, whichever occurs later. The order recipient must, during this period, identify any exemptions for which the unit in question may qualify, or the circumstances under which an exemption might be required, but the recipient need not during this period submit evidence attempting to demonstrate qualifications for the exemption. Petitioner may present evidence relating to the exemption prior to the issuance of a final order. A request by the proposed order recipient for an extension of the three month time period may be granted at ERA's discretion.

* * * * *

(5) An owner or operator of a facility that may be subject to an order may demonstrate prior to issuance of a final prohibition order that the facility would qualify for an exemption if the prohibition had been established by rule. Such demonstration shall be submitted within three months of the issuance of the notice of intention to proceed with the prohibition order. ERA will not delay the issuance of a final prohibition order or stay the effective date of such an order for the purpose of determining whether a proposed order recipient qualifies for a particular exemption unless the demonstration or qualification is submitted prior to or during the second three-month period, or unless materials submitted after the period (i) could not have been submitted during the period through the exercise of due diligence, (ii) address material changes in fact or law occurring after the close of the period, or (iii) consist of amplification or rebuttal occasioned by the subsequent course of the proceeding. A request by the proposed order recipient for an extension of this time period may be granted at ERA's discretion.

* * * * *

9. By revising paragraph (a)(2) of § 501.60 to read as follows:

§ 501.60 Purpose and scope.

(a) * * *

(2) If the petitioner plans to construct or owns, operates, or controls a new MFBI other than a boiler and such unit is subject to a prohibition by order or rule, this subpart establishes the procedures for filing a petition requesting a temporary or permanent exemption under, respectively, Sections 211 and 212 of FUA.

* * * * *

10. By removing and reserving § 501.61 as follows:

§ 501.61 [Reserved]

By adding paragraph (i) to § 501.62 as follows:

§ 501.62 Petition contents.

* * * * *

(i) *Incorporation by reference.* Pertinent information may be incorporated into the petition by reference when this can be done without impeding agency and public review. Referenced materials must be specifically identified and their contents briefly described in the petition. To incorporate by reference, the material must be submitted with the petition, or if previously submitted, the office to which it was submitted must be identified in the petition. The petitioner cannot incorporate by reference material based on proprietary data not available to ERA for review.

12. By revising §§ 501.63 and 501.64 to read as follows:

§ 501.63 Notice of the commencement of an administrative proceeding on an exemption petition.

(a)(1) When a petition is accepted, ERA will publish a notice in the **Federal Register** that an exemption proceeding has commenced. The notice will include a summary of the exemption petition, and publication will commence a public comment period of no less than 45 days during which interested parties may file written comments concerning the petition.

(2) ERA also will notify the appropriate State agency having apparent primary authority to permit or regulate the construction or operation of a powerplant, or any State agency with similar authority over an MFBI, that an exemption proceeding has been commenced and will consult with these agencies to the maximum extent practicable. Copies of all accepted petitions will be forwarded to the Administrator of the EPA, and, if the unit involved is an MFBI, to the Federal Trade Commission.

(b) In processing an exemption petition, ERA shall comply with the requirements of the National Environmental Policy Act of 1969 (NEPA), the Council on Environmental Quality's implementing regulations, and the DOE guidelines implementing those regulations (45 FR 20694 (March 28, 1980)). Compliance with NEPA may involve the preparation of (1) an environmental impact statement (EIS) evaluating the grant or denial of an exemption petition, (2) an environmental assessment (EA), or (3) a memorandum to the file finding that the grant of the requested petition would not be considered a major federal action. If an EIS is required, ERA will publish in the **Federal Register** a Notice of Intent (NOI) to prepare an EIS as soon as practicable after commencement of the proceeding. A public meeting may be held pursuant to 40 CFR 1501.7 to solicit comments or suggestions on the structure and content of the EIS.

§ 501.64 Publication of notice of availability of tentative staff analysis or certification.

ERA will publish in the **Federal Register** a Notice of the Availability of Tentative Staff Analysis for the temporary public interest exemption, for non-certification environmental exemptions, and for a cogeneration exemption based on the public interest; or, in the case of a certification exemption, a Notice of Availability of Certification. ERA will provide a public comment period of at least fourteen (14) days from the date of publication during which interested persons may make written comments and request a public hearing.

13. By revising paragraph (b) of § 501.66 to read as follows:

§ 501.66 ERA evaluation of the record, decision and order.

* * * * *

(b) ERA may investigate and corroborate any statement in any petition, document, or public comments submitted to it. ERA also may use any relevant facts it possesses in its evaluation and may request submissions from third persons relevant to the petition or other document. ERA also may request additional information, data, or analyses following a public hearing, if any, if this information is necessary to resolve disputed issues in the record. Any information received by ERA following the hearing that is not declared to be confidential under 10 CFR 501.7(a)(11) shall be made part of the public record with opportunity provided for rebuttal.

14. By revising paragraph (d) of § 501.68 to read as follows:

§ 501.68 Decision and order.

* * * * *

(d)(1) ERA may include in any order granting a petition for exemption, except an order granting an exemption under Section 401 of FUA, such terms and conditions as it determines to be appropriate.

(2) ERA may design any terms and conditions included in any temporary exemption issued or extended under Sections 211 and 311 of FUA, to ensure, among other things, that upon expiration of the exemption the persons and powerplant or installation covered by the exemption will comply with the applicable prohibitions under FUA.

15. By revising § 501.100 to read as follows:

§ 501.100 Purpose and scope.

(a) This subpart provides the procedures to be followed by—

(1) An interested person seeking the modification or rescission of a prohibition by rule applicable to a new facility;

(2) An owner or operator of a facility named in a prohibition by rule requesting the modification or rescission of that rule; or

(3) An owner or operator subject to an exemption order or a specific prohibition imposed by order requesting the modification or a rescission of that order.

(b) ERA also may commence a modification or rescission proceeding on its own initiative.

* * * * *

16. By revising paragraph (b)(1) of § 501.133 to read as follows:

§ 501.133 DOE evaluation.

* * * * *

(b) *Criteria.* (1) DOE will base its FUA interpretations on the DEOA and FUA, as applicable, and the regulations and published rulings of DOE as applied to the specific factual situation presented.

* * * * *

17. By revising paragraph (c)(3)(i) of § 501.191 to read as follows:

§ 501.191 Use of natural gas or petroleum for certain unanticipated equipment outages and emergencies defined in section 103(a)(15)(B) of the act.

* * * * *

(c) * * *

(3) * * *

(i) For powerplants, the amounts of natural gas or petroleum required to prevent curtailment of electric supply where the operating utility has, to the maximum extent possible, utilized alternate fuel-fired capacity to prevent such curtailment; and

* * * * *

18. By revising paragraph (a)(2) of § 501.192 to read as follows:

§ 501.192 Use of natural gas or petroleum during a temporary emergency condition pursuant to section 404(g) of the act.

(a) * * *

(2) For peakload powerplants, a curtailment of electric supply would be likely to result.

* * * * *

PART 503—NEW FACILITIES

For the reasons set out in the preamble, Subpart A of Part 503 of Chapter II, Title 10 of the Code of Federal Regulations is proposed to be amended as shown:

§ 503.2 [Amended]

[1] By removing paragraph (b) from § 503.2.

For the reasons set out in the preamble, Subpart B of Part 503 and Subpart C of Part 504 of Chapter II, Title 10 of the Code of Federal Regulations are proposed to be amended as shown.

§ 503.6 State approval required for powerplant.

(1) By revising § 503.6(e) to read as follows:

* * * * *

(e) *Evidence in support of the cost calculation.* Petitioners for an exemption which requires the use of the cost calculation shall certify that the cost of using alternate fuel substantially exceeds the cost of using oil as a primary energy source as calculated in this section. A brief summary of the petitioner's supporting calculations and estimates shall be submitted with the certification. The summary should address the following:

(1) Cash outlays, investment tax credits, depreciation methodologies, and anticipated salvage for capital investments including a description of all major construction and equipment;

(2) Annual cash outlays for operations and maintenance expenses including the formulas used to compute them;

(3) Annual cash outlays for delivered fuel expenses including the formulas used to compute them; and

(4) If a different useful life than is suggested by ERA (paragraph (d) of this section) is being used, the useful life chosen.

PART 504—EXISTING FACILITIES

(1)(b) By revising § 504.12(e) to read as follows:

§ 504.12 Cost calculations for existing powerplants.

* * * * *

(e) *Evidence in support of the cost calculation.* Petitioners for an exemption which requires the use of the cost calculation shall certify that the cost of using alternate fuel substantially exceeds the cost of using oil as a primary energy source as calculated in this section. A brief summary of the petitioner's supporting calculations and estimates shall be submitted with the certification. The summary should address the following:

(1) Cash outlays, investment tax credits, depreciation methodologies, and anticipated salvage for capital investments including a description of all major construction and equipment;

(2) Annual cash outlays for operations and maintenance expenses including the formulas used to compute them;

(3) Annual cash outlays for delivered fuel expenses including the formulas used to compute them; and

(4) If a different useful life than is suggested by ERA (paragraph (d) of this section) is being used, the useful life chosen.

(2) By revising Appendix II to Part 504 to read as follows:

Appendix II—Fuel Price Computation

(a) *Introduction.* This appendix provides the equations and parameters needed to specify the price of delivered fuels used in computing the cost of using imported petroleum and the cost of using an alternate fuel in Parts 503 and 504 of these regulations. The delivered price of imported petroleum or natural gas used to calculate delivered fuel expenses must reflect (1) the price of imported petroleum, (2) the effects of future real increases in imported petroleum prices, and (3) a substantially exceeds premium. The delivered price of an alternate fuel used to calculate delivered fuel expenses must reflect the petitioner's delivered price of the alternate fuel and the effects of real increases in the price of that alternate fuel. Paragraphs (b) and (c) below provide alternative

procedures to account for projected real increases in the prices of fuels. The petitioner may compute his fuel prices by either of these procedures as long as the same procedure is applied consistently throughout the cost analysis. Table II–1 of this appendix contains the price indices used in option 1 (paragraph (b)) and the inflation index used in computing depreciation in Parts 503 and 504 of these regulations. ERA will change the parameters specified in paragraphs (b)(4) and (c)(4) below and in Tables II–1 and II–2 from time to time after public notice and an opportunity to comment. Revisions shall become effective after final publication. However, the relevant set of parameters for a specific petition for exemption will be the set in effect at the time the petition is submitted or the set in effect at the time a decision is rendered, whichever is more favorable to the petitioner.

(b) *Fuel price computation—option 1.*

(1) The petroleum product price (PFE_i) is computed with Equation II–1.

EQ II–1 $$PFE_i = PF\left(\frac{OPX}{OPX_u}\right) + PREM$$

where:

PF = The current market price of the petitioner's fuel oil per barrel at the time the petition is submitted (f.o.b. the facility). Alternatively, if the petitioner does not currently have a supplier of fuel oil, he should use a simple average of the market prices of fuel oil available to him (capable of being burned in the facility and meeting his area's air quality standards) and sold in his area by at least three suppliers.

PFE_i = Price of fuel oil per barrel in year i.

OPX_i = Oil price index value for year i (see Table II–1).

OPX_u = Oil price index value for year u, the year in which the petition is submitted.

PREM = Substantially exceeds premium added to the price of oil (see paragraph (b)(4) below).

(2) If it is planned to use natural gas in the facility, Equation II–1 must be used to calculate the price of fuel (PFE_n), along with the price of the No. 6 residual fuel oil (PF) which meets the air quality standards in the petitioner's area.

(3) The delivered price of alternate fuel (PFA_i) must reflect the real escalation rate of alternate fuel and must be computed with Equation II–2.

EQ II–2. $$PFA_i = APF\left(\frac{APX_i}{APX_u}\right)$$

The terms of Equation II–2 are defined as follows:

PFA_i = Price of alternate fuel in year i.

APF = The current market price of the alternate fuel (f.o.b. the facility).

APX_i = Alternate fuel price index value of year i (see Table II–1 and paragraph (b)(4)(iii) below).

APX_u = Alternate fuel price index for the year u, the year in which the petition is submitted (see Table II–1 and paragraph (b)(4)(iii) below).

(4) The petitioner shall use the following parameters for Equations II–1 and II–2 of this appendix:

(i) The substantially exceeds premium, PREM, is $1.00 per barrel of oil equivalent.

(ii) The oil price index values, OPX_i and OPX_u, are specified in Table II–1.

(iii) The alternate fuel price index values, APX_i and APX_u, depend on the type of alternate fuel to be used.

(A) If the alternate fuel is solid coal, the petitioner must use the alternate fuel price index for coal in Table II–1.

(B) For all other alternate fuels, the petitioner may use either the alternate fuel price index for coal in Table II–1 or his own substantiated escalation rates and the equation for APX_i in the Footnote to Table II–1.

(c) *Fuel price computation—option 2.*

(1) The petroleum product price (PFE_i) is computed with the Equation II–3.

EQ II–3 $$PFE_i = PF + PREM + FUTR$$

where the terms are the same as those in Equation II–1 with the addition of FUTR, the premium added to the price of oil to account for projected escalation in oil prices as compared to escalation in alternate fuel prices (see paragraph (c)(4)(ii) below).

(2) If it is planned to use natural gas in the facility, Equation II–3 must be used to calculate the price of fuel (PFE_i), along with the price of the No. 6 residual fuel oil (PF) which meets the air quality standards in the petitioner's area.

(3) The price of alternate fuel (PFA) must be the current market price of the alternate fuel (f.o.b. the facility).

(4) The petitioner shall use the following parameters for Equation II–3 of this appendix:

(i) The substantially exceeds premium, PREM, is $1.00 per barrel of oil equivalent.

(ii) The premium added to the price of oil to account for projected escalation in oil prices compared to escalation in alternate fuel prices, FUTR, is $4.00 per barrel of oil equivalent.

Table II–1—*Price and Inflation Indices for Use in the Cost Calculations* [1]

Year	Crude oil price index (OPX)	Alternate fuel price index for coal (APX)	Inflation index (IX)
1980	1.000	1.000	1.000
1981	1.016	1.039	1.095
1982	1.032	1.080	1.179
1983	1.049	1.122	1.257
1984	1.066	1.165	1.329
1985	1.083	1.211	1.398
1986	1.111	1.229	1.464
1987	1.140	1.247	1.519
1988	1.169	1.266	1.565
1989	1.200	1.285	1.612
1990	1.231	1.304	1.660
1991	1.257	1.316	1.710
1992	1.283	1.328	1.761
1993	1.310	1.340	1.814
1994	1.338	1.352	1.868
1995	1.366	1.364	1.925
1996	1.382	1.372	1.982
1997	1.399	1.381	2.042
1998	1.415	1.389	2.103
1999	1.432	1.397	2.166
2000	1.450	1.406	2.231
2001	1.450	1.414	2.298
2002	1.450	1.422	2.367
2003	1.450	1.431	2.438
2004	1.450	1.440	2.511
2005	1.450	1.448	2.586
2006	1.450	1.457	2.664
2007	1.450	1.466	2.744
2008	1.450	1.474	2.826
2009	1.450	1.483	2.911
2010	1.450	1.492	2.998
2011	1.450	1.512	3.088
2012	1.450	1.531	3.181
2013	1.450	1.551	3.276
2014	1.450	1.571	3.375
2015	1.450	1.592	3.476
2016	1.450	1.612	3.580
2017	1.450	1.633	3.688
2018	1.450	1.655	3.798
2019	1.450	1.676	3.912
2020	1.450	1.698	4.029
2021	1.450	1.720	4.150
2022	1.450	1.742	4.275
2023	1.450	1.765	4.403
2024	1.450	1.788	4.535
2025	1.450	1.811	4.671
2026	1.450	1.835	4.811
2027	1.450	1.858	4.956
2028	1.450	1.883	5.104
2029	1.450	1.907	5.258
2030	1.450	1.932	5.415

[1] The index values OPX, APX, and IX in Table II–1 were calculated using the rates (see Table II–2) for the real increase in oil price (Ro), coal price (Ra), and inflation (INF), respectively, and the following equations.

$$OPX_i = \prod_{j=1980}^{i} (1 + Ro_j)$$

$$APX_i = \prod_{j=1980}^{i} (1 + Ra_j)$$

$$IX_i = \prod_{j=1980}^{i} (1 + INF_j)$$

where:

i = Calendar year of index, and

M = Product of terms with index j ranging from 1980 to i.

If the petitioner chooses to supply his own escalation rates for an alternate fuel, as provided in option 1 (paragraph (b)(4)(iii)(B) of Appendix II), he must use the equation for APX_i to calculate the appropriate index values.

Table II–2—*Rates of Fuel Price Increase and Inflation Used in Table II–1*

Year	Ro	Ra	INF
1980	0.000	0.000	0.000
1981	0.016	0.039	0.095
1982	0.016	0.039	0.077
1983	0.016	0.039	0.066
1984	0.016	0.039	0.057
1985	0.026	0.039	0.052
1986	0.026	0.015	0.047
1987	0.026	0.015	0.038
1988–1990	0.026	0.015	0.030
1991–1995	0.021	0.009	0.030
1996–2000	0.012	0.006	0.030
2001–2010	0.006	0.006	0.030
2011–2030	0.000	0.013	0.030

(3) By revising § 503.8 (b) and (c) to read as follows:

§ 503.8 No alternate power supply—general requirement for certain exemptions for new powerplants.

* * * * *

(b) *Criteria.* To meet the demonstration required under paragraph (a) of this section, a petitioner must certify that:

(1) A diligent effort has been made to purchase firm power for the first year of operation to cover all or part of the projected shortfall at a cost that is less than ten (10) percent above the annualized cost of generating power from the proposed plant (including the

capital, operation and maintenance expenses, and fuel at imported petroleum prices); or

(2)(i) Despite these efforts, the reserve margin in the petitioner's electric region, normal dispatch area, or service area, in the absence of the proposed plant, would fall below twenty (20) percent during the first year of proposed operation; or

(ii) Despite these efforts, the reserve margin will be greater than twenty (20) percent but reliability of service would be impaired. In such case, the certification must be related to factors not included in the calculation of reserve margin, such as transmission constraints.

(c) *Evidence.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certification required under paragraph (b) of this section; and

(2) Exhibits containing the basis for the certification submitted under this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support its certification to this general requirement).

* * * * *

(4) By revising § 503.9 to read as follows:

§ 503.9 Use of mixtures—general requirement for certain permanent exemptions.

(a) *Criteria.* To qualify for a permanent exemption, except in the case of an exemption for peakload powerplant or fuel mixtures, Section 213(a)(1) of the Act requires a demonstration that the use of a mixture of natural gas and petroleum and an alternate fuel, for which an exemption under 10 CFR § 503.38 (Fuel mixtures) would be available, would not be economically or technically feasible.

(b) *Evidence.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications to the criteria set forth in paragraph (a) of this section; and

(2) Exhibits containing the basis for the certifications submitted under this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support its certifications to the general requirements).

Note.—In meeting this general requirement, ERA will require a petitioner to examine only mixtures of oil and gas and coal, or such other alternate fuels as ERA and the petitioner agree are reasonable to petitioner's circumstances.

(5) By revising § 503.11 to read as follows:

§ 503.11 Alternative sites—general requirement for permanent exemptions for new powerplants.

(a) *Criteria.* In the case of a powerplant, to qualify for a permanent exemption for lack of alternate fuel supply, site limitations, environmental requirements, inadequate capital or state or local requirements, Section 212 (a), (b) and (h) of the Act require a demonstration that one of these exemptions would be available at any reasonable alternative site for the facility.

(b) *Evidence.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications to the criteria set forth in paragraph (a) of this section; and

(2) Exhibits containing the basis for the certifications submitted under this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support its certifications to this general requirement).

(6) By revising § 503.12 to read as follows:

§ 503.12 Terms and conditions; compliance plans.

(a) *Terms and conditions generally.* A petitioner must comply with any terms and conditions imposed upon the grant of an exemption petition. ERA will limit any such terms and conditions to the unit(s) which is the subject of the petition.

(b) *Compliance plans for temporary exemptions.*

(1) Any compliance plan required to accompany a petition for a temporary exemption shall include the following:

(i) A detailed schedule of progressive events and the dates upon which the events are to take place, indicating how compliance with the applicable prohibitions of the Act will occur;

(ii) Evidence of binding contracts for fuel, or for facilities, for the production of fuel, which are required for compliance with the applicable prohibitions of the Act;

(iii) A schedule indicating how any necessary permits and approvals required to burn an alternate fuel will be obtained; and

(iv) Any other documentary evidence which indicates an ability to comply with the applicable prohibitions of the Act.

(2) Any exemption for which a compliance plan is required shall not be effective until the compliance plan is approved by DOE.

(3) *Revisions of compliance plans.* If the petition is granted, an updated, duly executed plan must be submitted to ERA within one (1) month of an alteration of any milestone in the compliance plan, together with the reasons for the alteration and its impact upon the scheduling of all other milestones in the plan.

(c) *Enforcement.* An exemption is subject to termination upon the violation of any provision of the Act, or non-compliance with any provision of an exemption, including any pertinent terms and conditions.

§§ 503.13 and 503.14 [Removed] and 503.15 [Redesignated as § 503.13]

(7) By removing §§ 503.13 and 503.14 and redesignating § 503.15 as § 503.13.

(8) By redesignating § 503.16 as § 503.14, and revising it to read as follows:

§ 503.14 Fuels search.

Prior to submitting a petition for a permanent exemption for lack of alternate fuel supply, site limitations, inadequate capital, state or local requirements, intermediate load powerplant, or scheduled equipment outages for over 28 days, a petitioner must perform a fuels search by examining the use of coal or, if use of coal would be unreasonable, such other alternate fuels as ERA and the petitioner may agree are reasonable to the petitioner's circumstances, as a primary energy source at the site under consideration, and, for powerplants, at reasonable alternative sites. A petitioner for these exemptions must demonstrate for any fuel examined that he would qualify for an exemption. ERA will not expect a petitioner to evaluate any fuels which have not been demonstrated to be acceptable for use in comparable commercial applications.

For the reasons set out in the preamble, Subpart C of Part 503 of Chapter II, Title 10 of the Code of Federal Regulations, and Subpart D of Part 505 of the interim rules, 44 FR 29014 (May 17, 1979), are proposed to be amended as shown.

§ 503.20 [Amended]

(1) By removing paragraph (d) of § 503.20.

(2) By amending § 503.21 by striking "demonstrate" in paragraph (a) and inserting in its place "certify;" adding paragraph (a)(4); revising paragraphs (b)

and (c); and redesignating paragraph (e) as paragraph (d), as follows:

§ 503.21 Lack of alternate fuel supply.

(a) *Eligibility.* * * * To qualify a petitioner must certify that:

* * * * *

(4) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations.

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) All data required by § 503.6 (Cost calculation) of these regulations necessary for computing the cost calculation formula; and

(4) The anticipated duration of the facts which constitute the basis for the exemption.

(c) *Certification alternative for installations.* If the MFBI for which this exemption is being requested will be operated less than 600 full load hours on an annual basis, the petitioner may substitute, in lieu of the requirements in paragraph (b) of this section, a duly executed certification that the unit will be operated less than 600 full load hours annually during the period of the exemption.

(d) *Duration.* * * *

[3] By amending § 502.33 by revising paragraphs (a) and (b) to read as follows:

§ 503.22 Site limitations.

(a) *Eligibility.* Section 211(a)(2) of the Act provides for a temporary exemption to a site limitation. To qualify for such an exemption, a petitioner must certify that:

(1) One or more specific physical limitations relevant to the location or operation of the proposed facility exist which, despite diligent good faith efforts, cannot be overcome before the end of the proposed exemption period;

(2) The petitioner will be able to comply with the applicable prohibitions of the Act at the end of the proposed exemption period; and

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations.

Note.—Examples of the types of site limitations to which a petitioner may certify in order to qualify for this exemption include:

(i) Alternate fuels would be inaccessible as a result of a specific physical limitation;

(ii) Transportation facilities for alternate fuels would be unavailable;

(iii) Adequate land or facilities for handling, using or storing an alternate fuel would be unavailable;

(iv) Adequate land or facilities for controlling and disposing of wastes would be unavailable, including pollution control equipment or devices necessary to assure compliance with applicable environmental requirements;

(v) Adequate and reliable supply of water would be unavailable, including water for use in compliance with applicable environmental requirements; or

(vi) Other site limitations exist which would not permit the location or operation of the proposed unit using an alternate fuel.

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption); and

(3) The anticipated duration of the site limitation which constitutes the basis for the exemption.

* * * * *

[4] By amending § 503.23 by adding a new paragraph (d), as follows:

§ 503.23 Inability to comply with applicable environmental requirements.

* * * * *

(d) *Certification alternative.*

(1) To qualify for this exemption, in lieu of meeting the evidentiary requirements of paragraph (b), a petitioner may certify that, for the period of the exemption:

(i) The site for the facility is located in a Class I area as defined in Part C of the Clean Air Act relating to the prevention of significant deterioration of air quality; the use of an alternate fuel will cause or contribute to concentrations of pollutants which exceed the maximum allowable increases in a Class I area even with the use of cost-effective pollution control equipment; the site for the facility is located in a non-attainment area as defined in Part D of the Clean Air Act for any pollutant which would be emitted by the facility; or, even with the use of cost-effective pollution control equipment, the use of an alternate fuel will cause or contribute to concentrations in an air quality control region, of a pollutant for which any national ambient air quality standard is or would be exceeded; and

(ii) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations.

(2) A petition by certification under this paragraph must include:

(i) Duly executed certifications required under paragraph (a) of this section;

(ii) Exhibits containing the basis for the certifications required under paragraph (1) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this expempton); and

(iii) The anticipated duration of the circmstances which constitute the basis for the exemption.

[5] By revising paragraph (d) of § 503.24 as follows:

§ 503.24 Future use of synthetic fuels.

* * * * *

(d) This temporary exemption may be granted for a period of up to ten (10) years.

[6] By amending § 503.25 by removing existing paragraph (a); redesignating existing paragraph (b) as paragraph (a); adding a new subparagraph (a)(3) to the newly designated paragraph (a); substituting for existing paragraph (c) a new paragraph (b); and redesignating existing paragraph (d) as parargraph (c), as follows:

§ 503.25 Public interest.

(a) *Eligibility.* * * *

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations.

(b) *Evidence required in support of petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Substantial evidence to corroborate the eligibility requirements identified above; and

(2) The anticipated duration of the circumstances which constitute the basis for the exemption.

(c) *Duration.* * * *

For the reasons set out in the preamble, Subpart D of Part 503 of Chapter II, Title 10 of the Code of Federal Regulations is proposed to be amended as shown.

[1] By amending § 503.31 by striking "demonstrate" in paragraph (a) and inserting in its place "certify;" adding paragraphs (a) (3), (4), and (5); and revising paragraph (b) to read as follows:

§ 503.31 Lack of alternate fuel supply for the first 10 years of useful life.

(a) *Eligibility.* * * * To qualify a petitioner must certify that:

* * * * *

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations;

(4) Use of mixtures is not feasible, as required under § 503.9 of these regulations; and

(5) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations.

(b) *Evidence required in support of a petition.* A petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations; and

(4) Fuels search, as required under § 503.14 of these regulations.

[2] By amending § 503.22 by striking "demonstrate" in paragraph (a) and inserting in its place "certify," adding paragraphs (a) (3), (4), and (5); and revising paragraphs (b) and (c), and removing paragraph (d), as follows:

§ 503.32 Lack of alternate fuel supply at a cost which does not substantially exceed the cost of using imported petroleum.

(a) *Eligibility.* * * * To qualify a petitioner must certify that:

* * * * *

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations;

(4) Use of mixtures is not feasible, as required under § 503.9 of these regulations; and

(5) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations.

(b) *Evidence required in support of petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly excuted certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations;

(4) Fuels search, as required under § 503.14 of these regulations; and

(5) All data required by § 503.6 (Cost calculation) of these regulations necessary for computing the cost calculation formula.

(c) *Certification alternative for installations.* If the MFBI for which this exemption is being requested will be operated less than 600 full load hours on an annual basis, the petitioner may submit, in lieu of the requirements of paragraph (b) of this section, the following duly executed certifications:

(1) The unit will be operated less than 600 full load hours annually;

(2) Use of mixtures is not feasible, as required under § 503.9 of these regulations; and

(3) Environmental certifications, as required under § 503.13(b) of these regulations.

[3] By amending § 503.33 by revising paragraphs (a) and (b), to read as follows:

§ 503.33 Site limitations.

(a) *Eligibility.* Section 212(a)(1)(B) of the Act provides for a permanent exemption due to site limitations. To qualify for such an exemption, a petitioner must certify that:

(1) One or more specific physical limitations relevant to the location or operation of the proposed facility exist which, despite good faith efforts, cannot reasonably be expected to be overcome within five years after commencement of operations;

(2) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations;

(3) Use of mixtures is not feasible, as required under § 503.9 of these regulations; and

(4) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations.

Note.—Examples of the types of site limitations to which a petitioner may certify in order to qualify for this exemption include:

(i) Alternate fuels would be inaccessible as a result of a specific physical limitation;

(ii) Transportation facilities for alternate fuels would be unavailable;

(iii) Adequate land or facilities for handling, using or storing an alternate fuel would be unavailable;

(iv) Adequate land or facilities for controlling and disposing of wastes would be unavailable, including pollution control equipment or devices necessary to assure compliance with applicable environmental requirements;

(v) Adequate and reliable supply of water would be unavailable, including water for use in compliance with applicable environmental requirements; or

(vi) Other site limitations exist which would not permit the location or operation of the proposed unit using an alternate fuel.

(b) *Evidence required in support of the petition.* A petitioner must include in the petition the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations; and

(4) Fuels search, as required under § 503.14 of these regulations.

[4] By amending § 503.34 by adding a new paragraph (d), as follows:

§ 503.34 Inability to comply with applicable environmental requirements.

* * * * *

(d) *Certification alternative.*

(1) To qualify for this exemption, in lieu of meeting the evidentiary requirements of paragraph (c) of this section, a petitioner may certify that:

(i) The site for the facility is located in a Class I area as defined in Part C of the Clean Air Act relating to the prevention of significant deterioration of air quality; the use of an alternate fuel will cause or contribute to concentrations of pollutants which exceed the maximum allowable increases in a Class I area even with the use of cost-effective pollution control equipment; the site for the facility is located in a non-attainment area as defined in Part D of the Clean Air Act for any pollutant which would be emitted by the facility; or, even with the use of cost-effective pollution control equipment, the use of an alternate fuel will cause or contribute to concentrations in an air quality control region, of a pollutant for which any national ambient air quality standard is or would be exceeded;

(ii) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations;

(iii) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations; and

(iv) Use of mixtures is not feasible, as required under § 503.11 of these regulations.

(2) A petition by certification under this paragraph must include:

(i) Duly executed certifications required under subparagraph (1) of this section;

(ii) Exhibits containing the basis for the certifications required under paragraph (1) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(iii) Environmental impact analysis, as required under § 503.13 of these regulations; and

(iv) Fuels search, as required under § 503.14 of these regulations.

[5] By revising § 503.35 as follows:

§ 503.35 Inability to obtain adequate capital.

(a) *Eligibility.* Section 212(a)(1)(D) of the Act provides for a permanent exemption due to inability to obtain adequate capital. To qualify, a petitioner must certify that:

(1) Despite good faith efforts the petitioner will be unable to comply with the applicable prohibitions imposed by the Act because the additional capital required for an alternate fuel-capable unit beyond that required for the proposed unit cannot be raised;

(2) In the case of powerplants, this additional capital cannot be raised due to specific restrictions (e.g., covenants on existing bonds) which constrain management's ability to raise debt or equity capital;

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations;

(4) Use of mixtures is not feasible, as required under § 503.9 of these regulations; and

(5) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations.

(b) *Evidence required in support of a petition.* A petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations;

(4) Fuels search, as required under § 503.14 of these regulations.

[6] By amending § 503.36 by striking "demonstrate" in paragraph (a) and inserting in its place "certify"; adding new subparagraphs (a)(5), (a)(6), and (a)(7); and revising paragraph (b) as follows:

§ 503.36 State or local requirements.

(a) *Eligibility.* * * * To qualify a petitioner must certify that:

* * * * *

(5) For powerplants, no alternative power supply exists, as required under § 503.8 of these regulations;

(6) For powerplants, alternative sites are not available, as required under § 503.11 of these regulations; and

(7) Use of mixtures is not feasible, as required under § 503.9 of these regulations.

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations; and

(4) Fuels search, as required under § 503.14 of these regulations.

* * * * *

[7] By amending § 503.37 of the interim rule by revising paragraphs (a), (b)(1), and (d) to read as follows:

§ 503.37 Cogeneration.

(a) *Eligibility.* Section 212(c) of the Act provides for a permanent exemption for cogeneration. To qualify, the petitioner must demonstrate that the economic and other benefits of cogeneration are unobtainable unless petroleum or natural gas, or both, are used, by:

(1) Certifying that:

(i) The oil or gas to be consumed by the cogeneration facility will be less than that which would otherwise be consumed in the absence of the cogeneration facility where the calculation of savings is in accordance with paragraph (c) of this section; and

(ii) Use of mixtures is not feasible, as required under § 503.9 of these regulations; or

(2) Demonstrating that:

(i) It would be in the public interest to grant an exemption to the cogeneration facility because of special circumstances such as technical innovation or maintaining industry in urban areas; and

(ii) Use of mixtures is not feasible, as required under § 503.9 of these regulations.

(b) *Specifications of the cogeneration facility.*

(1) A person proposing to construct a cogeneration facility may apply for an exemption under this section if:

(i) In the case of powerplants, the amount of net electricity that is either sold or exchanged is fifty (50) percent or more of the annual electric power generation of the facility; and

(ii) In the case of installations, the amount of net electricity that is either sold or exchanged is less than fifty (50) percent of the annual electric power generation of the facility.

Net electricity excludes sales or exchanges among owners of the cogeneration facility.

* * * * *

(d) *Evidence required in support of a petition.* The petition must include the following:

(1) To make the demonstration required by subparagraph (a)(1) of this section:

(i) Duly executed certifications required under that subparagraph;

(ii) Exhibits containing the basis for the certifications required under that subparagraph (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption); and

(iii) Environmental impact analysis, as required under § 503.13 of these regulations; or

(2) To make the demonstration required by subparagraph (a)(2) of this section:

(i) An explanation of the public interest factors the petitioner believes should be considered by ERA; and

(ii) Environmental impact analysis, as required under § 503.13 of these regulations.

* * * * *

[8] By amending § 503.38 by striking "demonstrate" in paragraph (a) and inserting in its place "certify"; adding a new subparagraph (a)(3); revising paragraph (c); removing paragraphs (d)(3) and (e); redesignating existing paragraph (f) as (e); revising paragraph (e)(2); and removing paragraph (g) as follows:

§ 503.38 Permanent exemption for certain fuel mixtures containing natural gas or petroleum.

(a) *Eligibility.* * * * *To qualify, a petitioner must certify that:*

* * * * *

(3) For powerplants, no alternate power supply exists, as required under § 503.8 of these regulations.

* * * * *

(c) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factural and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) A description of the fuel mixture, including component fuels and the percentage of each such fuel to be used; and

(4) Environmental impact analysis, as required under § 503.13 of these regulations.

(d) *Certification alternative for use of mixture containing less than 25 percent petroleum or natural gas by an installation.*

* * * * *

(1) A duly executed certification stating that the amount of petroleum or natural gas proposed to be used as a primary energy source in the mixture will not exceed twenty-five (25) percent of the total annul Btu heat input of the installation; and

(2) The environmental certifications, as required under § 503.13(b) of these regulations.

(e) *Solar mixtures.* * * *

(2) Petitioner meets the eligibility and evidentiary requirements of paragraphs (a) and (c) of this section.

* * * * *

§ 503.39 [Amended]

[9] By removing paragraphs (d) and (e) from § 503.39.

[10] By amending § 503.40 by striking "demonstrate" and inserting in its place "certify;" adding new subpargraphs (a)(3) and (a)(4); revising paragraph (b)(2), and (c) (paragraph (c) was erroneously designated in the final rule as a second paragraph (b)); and removing paragraphs (d) and (e), as follows:

§ 503.40 Permanent exemption for powerplants necessary to maintain reliability of service.

(a) *Eligibility.* * * * To qualify, a petitioner must certify that:

* * * * *

(3) No alternate power supply exists, as required under § 503.8 of these regulations; and

(4) Use of mixtures is not feasible, as required under §503.9 of these regulations.

(b) *Impairment of Reliability of Service.* * * *

(2) Reliability of service will be considered impaired if the LOLP for a 12-month period, including the initial operational date of the proposed unit, is greater than one day in ten (10) years. For the purpose of calculation of LOLP, if a capacity deficit occurs one or more times in one day, such an event constitutes a one-day loss of load.

* * * * *

(c) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations.

[11] By amending § 503.41 by removing "and to meet peakload demand for the life of the powerplant" at the end of paragraph (a)(1), and (a)(2)(i); revising paragraph (b); and removing paragraphs (c), (d), and (e).

§ 503.41 Peakload powerplants.

* * * * *

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitoner to be sufficient to support the granting of this exemption); and

(3) Environmental certifications, as required under § 503.13(b) of these regulations.

[12] By amending § 503.42 by removing "demonstrate" in paragraph (a) and inserting in its place "certify;" adding paragraphs (a)(7) and (a)(8); revising paragraph (b); removing paragraphs (c) and (d); and redesignating existing paragraph (e) as paragraph (c), as follows:

§ 503.42 Intermediate load powerplants.

(a) *Eligibility.* * * * To qualify, a petitioner must certify that:

* * * * *

(7) Use of mixtures is not feasible, as required under § 503.9 of these regulations;

(8) No alternate power supply exists, as required under § 503.8 of these regulations; and

(9) Alternative sites are not available, as required under § 503.11 of these regulations.

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for the certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations; and

(4) Fuels search, as required under § 503.14 of these regulations.

* * * * *

(13) By amending § 503.43 by removing "demonstrate" in paragraph (a) and inserting in its place "certify;" adding paragraph (a)(4); revising paragraphs (b) and (c); removing paragraphs (d) and (e); and redesignating paragraph (f) as paragraph (d), as follows:

§ 503.43 Scheduled equipment outages for installations.

(a) *Eligibility.* * * * To qualify a petitioner must certify that:

* * * * *

(4) Use of mixtures is not feasible, as required under § 503.9 of these regulations.

(b) *Evidence required in support of a petition.* The petition must include the following evidence in order to make the demonstration required by this section:

(1) Duly executed certifications required under paragraph (a) of this section;

(2) Exhibits containing the basis for certifications required under paragraph (a) of this section (including those factual and analytical materials deemed by the petitioner to be sufficient to support the granting of this exemption);

(3) Environmental impact analysis, as required under § 503.13 of these regulations; and

(4) Fuels search, as required under § 503.14 of these regulations.

(c) *Alternative for use 28 days per year or less.*

If use of the proposed unit is not to exceed an average of 28 days per year over a three-year period, the petitioner may omit the fuels search requirement under § 503.14 from its evidentiary

submissions under paragraph (b) of this section and shall submit, in lieu of the environmental impact analysis under § 503.13, only the environmental certifications required under § 503.13(b) of these regulations.

(d) *Emergency use.* A petition for an emergency exemption may be submitted in addition to a petition for a scheduled equipment outage exemption. Eligibility and evidentiary requirements of each exemption must be satisfied.

PART 504—EXISTING FACILITIES

For the reasons set out in the Preamble, Subpart B of Part 504 of Chapter II, Title 10 of the Code of Federal Regulations is proposed to be amended as shown:

§ 504.6 [Amended]

[1] By removing from § 504.6(d) the words "* * * or the installation of pollution control or fuel handling equipment," and ending that paragraph with the words "* * * on the basis of cost."

PART 505—NEW MAJOR FUEL BURNING INSTALLATIONS

§ 505.27 [Removed]

(1) It is proposed to amend Part 505 by removing § 505.27.

Bonneville Power Administration

Draft Prototype Power Sales Contracts Interpreting Policy Provisions of Pacific Northwest Electric Power Planning and Conservation Act: Publication of Summary of BPA's Proposed Contract Provisions and Request for Public Comment

DEPARTMENT OF ENERGY

Bonneville Power Administration

Draft Prototype Power Sales Contracts Interpreting Policy Provisions of Pacific Northwest Electric Power Planning and Conservation Act: Publication of Summary of BPA's Proposed Contract Provisions and Request for Public Comment

AGENCY: Bonneville Power Administration (BPA), Department of Energy.

ACTION: Notice of draft prototype power sales contracts interpreting policy provisions of Pacific Northwest Electric Power Planning and Conservation Act: Publication of summary of BPA's proposed contract provisions and request for public comment.

SUMMARY: The Pacific Northwest Electric Power Planning and Conservation Act (Regional Act or Pub. L. 96–501) requires that BPA simultaneously offer, within 9 months of the date of enactment (September 8, 1981), long-term power sales contracts to (1) existing public body and cooperative customers and investor-owned utility customers; (2) Federal agency customers; (3) electric utility customers participating in the residential exchange; and (4) the direct-service industrial customers. In the public involvement spirit of the Regional Act, this Notice summarizes the draft prototype contracts which have been negotiated to date, and requests public comment on these contracts.

BPA announced the process for public participation and acceptance of public comments in the contracts negotiation process (46 FR 18331, March 25, 1981). Later in response to requests that more opportunities for public comment be available, BPA scheduled and announced public meetings in Boise, Idaho; and Seattle, Washington (46 FR 23287, April 24, 1981); and later announced a special evening session with the negotiating teams in Portland. BPA received views and advice from the public on contract-related matters at these meetings and also received written comments.

Draft prototype power sales contracts and a report on the environmental considerations associated with the contracts are now available for a 30-day public review and comment period. Public meetings to receive oral comments on the draft prototype contracts and environmental report will be held in Portland, Oregon; Seattle and Spokane, Washington; and Boise, Idaho. Written comments are also encouraged. The comments and materials that result from this public review process will be made available to the contract negotiation parties. In August, BPA plans to publish the final prototype contracts and an evaluation of comments received both at the May public meetings and during this June comment period on the draft prototype contracts. The final prototype contracts will be individualized to take into account the individual systems of BPA's utility customers while maintaining their consistency in all major respects with the prototype. BPA plans to offer the power sales and exchange contracts by September 8, 1981.

DATES: Meetings to receive public comment on the draft prototype sales contracts and the environmental report will be held on June 23, 24, and 25, 1981. Registration to provide oral comment at each meeting will be 7 p.m., and the meetings will begin at 7:30 p.m. The meeting on June 23 will be held in the Fidalgo Room of the Seattle Center, 1st North and Republican Street, Seattle, Washington. The meetings on June 24 will be held in the South B Ballroom, Sheraton Hotel, Spokane Falls Boulevard, Spokane, Washington; and in the Bonneville Power Administration Auditorium, 1002 NE. Holladay Street, Portland, Oregon. The June 25 meeting will be held in the East Conference Room of the Hall of Mirrors, Capital Mall, Boise, Idaho. Written comments will be accepted until 30 days after the effective date of this notice.

EFFECTIVE DATE: June 12, 1981.

ADDRESSES: Copies of the draft prototype contracts and the Environmental Report on environmental considerations are available for distribution or review by contacting BPA's Public Involvement office or the BPA Area and District offices shown below. Written comments should be sent to the Public Involvement Coordinator, Bonneville Power Administration, P.O. Box 12999, Portland, Oregon 97212.

FOR FURTHER INFORMATION CONTACT: Donna L. Geiger, Public Involvement Coordinator, Bonneville Power Administration, P.O. Box 12999, Portland, Oregon 97212, 503–234–3361, Extension 4261. BPA maintains toll-free lines for the use of persons within the region. Oregon callers outside of the Portland area may use the toll-free line, 800–452–8429; for callers from Washington, Idaho, Montana, Utah, Nevada, Wyoming, and California: 800–547–6048. Messages received after normal business hours (after 4:30 p.m. and before 7:30 a.m.) may be recorded on the toll-free lines. Information is also available from:

Mr. John H. Jones, Area Manager, Suite 288, 1500 NE. Irving Street, Portland, Oregon 97208, 503–234–3361, Extension 4551.

Mr. Ladd Sutton, District Manager, Room 206, 211 East Seventh Street, Eugene, Oregon 97401, 503–345–0311.

Mr. Ronald H. Wilkerson, Area Manager, Room 561, West 920 Riverside Avenue, Spokane, Washington 99201, 509–456–2518.

Mr. Gordon H. Brandenburger, District Manager, P.O. Box 758, Kalispell, Montana 59901, 406–755–6202.

Mr. Ronald K. Rodewald, District Manager, Suite 117, 23 South Wenatchee, Wenatchee, Washington 98801, 509–662–4377, Extension 379.

Mr. Randall W. Hardy, Area Manager, Room 250, 415 First Avenue North, Seattle, Washington 98109, 209–442–4130.

Mr. Roy Nishi, Area Manager, West 101 Poplar, Walla Walla, Washington 99362, 509–525–5500, Extension 701.

Mr. Robert N. Laffel, District Manager, 531 Lomax Street, Idaho Falls, Idaho 83401, 208–523–2706.

SUPPLEMENTARY INFORMATION: The Regional Act requires that BPA simultaneously offer, within 9 months of the date of enactment, long-term power sales contracts to: (1) existing public body and cooperative customers and investor-owned utility customers; (2) Federal agency customers; (3) electric utility customers participating in the residential exchange; and (4) the direct-service industrial customers. Development and negotiation of prototype contract provisions which will form the basis for the individual contracts offered to each customer began in January 1981 with an organizational meeting. Negotiations continued during regularly scheduled meetings between BPA and representatives of customer groups. BPA announced the process for public participation and acceptance of public comments in the contracts negotiation process (46 FR 18331, March 25, 1981). All sessions were open to the public and any written handouts used during the meetings were made available upon request.

BPA then received requests that public meetings also be held and written comments solicited in the region to identify the concerns of groups and individuals interested in the contract negotiation process. In response to these requests, BPA held two public meetings in Seattle, Washington, and Boise, Idaho, on May 13 and 14, respectively.

and a special evening session with the negotiating teams on May 18 in Portland to receive comments from the public and from various groups on items identified by public interest groups and by other individuals particularly interested in BPA's 1981 contract negotiation process. BPA officials attended the meetings to receive advice and to accept comments. Comments received at the meetings have been treated similarly to comments received in the contract negotiation process. They were distributed to parties, participants, and groups and individuals at or interested in the contract negotiation process. Such comments have been available for the use of the negotiating parties in drafting prototype contracts. Written comments from those unable to attend the meetings or from those who wish to augment their remarks have also been received.

Draft prototype contracts are now available for a 30-day public review and comment period. Elements of the draft prototype contracts and General Contract Provisions are discussed below. BPA has also prepared a report on the environmental considerations that are associated with the issues and alternatives that have been identified during the contract negotiations. The report is also available for review and comment.

BPA has scheduled public meetings to receive oral comments on the draft prototype contracts and the environmental report. The meetings will be held on June 23, 1981, in Seattle, Washington; on June 24, 1981, in Spokane, Washington, and Portland, Oregon; and on June 25, 1981, in Boise, Idaho. Written comments will also be accepted and should be sent to the Public Involvement Coordinator.

The comments and materials that result from the public review process will be made available to the contract negotiation parties. In August, BPA plans to publish an evaluation of comments received at both the May and June hearings and in written material.

The prototype contracts will be individualized to take into account the individual systems of BPA's utility customers, and BPA will offer contracts by September 8, 1981.

I. Discussion of Contract Elements—Prototype Power Sales Agreement

BPA intends to offer contracts consistent with the prototype firm power sales contract which is developed through the negotiating and evaluation of public comment in response to this and earlier notices. The contract will be offered to public bodies cooperatives, Federal agencies and investor-owned utilities for all of the wholesale firm power sales required under the Regional Act. This prototype power sales contract will be applicable for sales both to utilities with generating resources and those without. Positions differing from those of BPA are included where indicated. The Public Power Council (PPC) represented the interests of preference customers and the Inter Company Pool (ICP) represented member investor-owned utilities.

A. *Termination of Contract.* Existing firm power sales contracts of utilities which execute this contract will be terminated and replaced by this contract. Existing contracts for the sale of firm capacity only, such as those held by investor-owned utilities, may be terminated at the election of those parties.

B. *Term of Contract.* All contracts will be effective on the date of execution and will terminate approximately 20 years later on June 30, 2001. BPA has proposed the 20-year term for these power sales contracts, as it has historically, based on the longest term permitted under the Bonneville Project Act of 1937. This affords BPA the greatest opportunity to engage in prudent long-term planning. Some public comment has suggested that the 20-year term could delay implementation of alternative power sales policies.

C. *Definition.* All terms which require specific definitions for use in the contract are listed in alphabetical order.

D. *Exhibits.* The contract incorporates by reference BPA's Wholesale Rate Schedules and General Rate Schedule Provisions, BPA's General Contract Provisions, outlined below, a statement of customer service objectives setting criteria relating to facilities, and several other exhibits showing information necessary to many of the following contract sections.

E. *Service to Load.* BPA reserves the right to fulfill its obligation to serve a utility's load by acquiring conservation measures or other resources and the utility agrees to cooperate and facilitate such effort.

F. *Interpretation of Fish and Wildlife Responsibilities.* Under this section, the parties acknowledge that BPA is obligated under Public Law 96–501 to implement measures to protect, mitigate, and enhance fish and wildlife while assuring the Pacific Northwest an adequate, efficient, economical, and reliable power supply. The parties also agree that this contract shall not prevent the Purchaser's performance of its legal obligations established in any project license or order of the Federal Energy Regulatory Commission (FERC), or prevent or impair the implementation by BPA of measures under section 4 and section 6 of Public Law 96–501 to protect, mitigate, and enhance fish and wildlife. It should be noted regarding fish and wildlife provisions in the contract that, in the allocation section, BPA has stated that the firm capability of the Federal Columbia River hydroelectric projects is their ability to generate firm power within the constraints placed by fish and wildlife operations as well as other authorized uses of the river, and that the firm capability of utility hydroelectric resources may be reduced to meet such utility's fish and wildlife obligations.

G. *Allocation Provisions in the Event of Planning Insufficiency.* The allocation provisions provide that BPA may limit its obligations to supply firm power to utilities' loads if BPA is unable to acquire on a planning basis sufficient resources to supply such loads. This limitation is accomplished by BPA issuing a notice of restriction to a utility and other members of its class of customers. For purposes of issuing notices of restriction under this contract, BPA's customers are divided into three classes: (1) public body and cooperative; (2) Federal agency; and (3) investor-owned utility. The notice will provide that in a future specified year BPA's obligations to these utilities will be limited by allocating BPA's available resources in that year to such utilities pursuant to a set of formulas contained within an exhibit to this contract (see summary below). Such formulas follow requirements established by Pub. L. 96–501 regarding allocation of the capability of the Federal base system and the capability of resources acquired by BPA from utilities pursuant to Pub. L. 96–501.

Public Law 96–501 places several limitations on notices of restriction which are contained in the contract. It specifies that a notice of restriction cannot be issued until BPA has had a reasonable period of experience under Pub. L. 96–501; that the notice of restriction to the public body and cooperative class and Federal agency class may not be effective prior to the operating year that BPA estimates its combined obligations to both classes equal or exceed the firm capability of the Federal base system resources; and that a notice of restriction may not be effective for reasonable minimum period of time following the issuance of the notice of restriction. BPA has specified a reasonable period of experience of 3½ years before a notice of restriction can be given, a notice period to restrict firm energy loads of public body and cooperative or Federal agency

customers of 10 years, and a notice period of 5 years to restrict firm loads of investor-owned utilities and firm peakloads of public body and cooperative and Federal agency customers. The investor-owned utilities believe the reasonable period of experience before the notice can be given should be 4½ years and the public body and cooperative customers believe their energy restriction notice should be 11 years.

The contract sets up a procedure for determining monthy allocations of capacity and energy during an operating year when a notice of restriction is in effect. Such procedure provides that BPA shall establish an estimated allocation by January 1 prior to such operating year. The estimated allocation shall be effective during that operating year until a final allocation is established after August 15, when the extent of refill of the region's reservoirs has been determined and the capabilities of the region's resources can be established for that operating year.

The contract provides a description of the Federal base system resources for the purpose of defining the firm capability of such resources and determining the amount of capability which will be allocated from such resources in the event of insufficiency. BPA has proposed that the resources for which such firm capability will be calculated are the Federal Columbia River Power System Hydroelectric Projects and the capability acquired under long-term contracts in force on the effective date of Pub. L. 96–501. The long-term contracts include Hanford, Washington Nuclear Project (WNP)–1, WNP–2, 70 percent of WNP–3, 30 percent of Trojan, capacity-energy exchange contracts with both Pacific Northwest and Pacific Southwest utilities, and the Goodnoe Hills wind turbines. BPA's intends to acquire resources to replace reductions in the capability of Federal hydroelectric projects in the event of the loss of the entire capability of a project or reductions in the sum of the capabilities specified for the contractual resources. BPA's proposal provides that the firm capability of the Federal base system is a ratcheted amount which will increase to the full capability of the hydroelectric projects and the contractual resources acquired by BPA prior to the Regional Act and would be reduced thereafter only for reduction in the capability of the hydroelectric projects due to other authorized uses of the river. The PPC proposal would limit the capability of the Federal base system resources to the actual output of contractual resources acquired under long-term contracts, limit the replacement of resources in the Federal base system to resources acquired under long-term purchase contracts under section 6 of Pub. L. 96–501 and require approval of at least two-thirds of the public body and cooperative customers before BPA could acquire any replacement resources for the Federal base system.

The contract provides that the firm capability of the Federal base system resources be determined by such resources' contribution to BPA's Firm Load Carrying Capability, while reflecting constraints on use of the rivers due to other authorized uses.

The firm capability of the resources acquired by BPA under Pub. L. 96–501 will be determined in the same manner as Federal base system resources using the estimated peak and energy capability of such resources specified in the resource purchase agreements. BPA may rerate the peak and energy capability of any resource based on the actual performance of such resource by giving 10 years' notice to the utility.

Public Law 96–501 requires that entitlements to power under the allocation formulas which are excess to any particular customer's power requirements in any year first be used to increase the allocations of other utilities in that class. BPA will first use that power to meet its obligations to supply to the public body and cooperative class and to the Federal Agency class an amount of power equal to the amount actually supplied by BPA in the year preceding insufficiency.

BPA has proposed that the remaining amounts of power for the public body and cooperative class and the Federal agency class and the amounts for the investor-owned utility class then be allocated in an ordinal manner to customers in each class. Such ordinal ranking is based upon the amount of resources provided by such customer to BPA under Pub. L. 96–501, divided either by a utility's load growth after the effective date of the Regional Act, or by such load growth and deficits in resources prior to the effective date for investor–owned utilities. BPA would then allocate amounts of intraclass excess entitlements to meet the full requirements of the customers in each class beginning with the highest ranked until the entire amounts of intraclass excess entitlements are allocated. The PPC and ICP have proposed that an ordinal ranking be established but that allocations of intraclass excess entitlements to the investor-owned utility class be made on a pro rate basis based on scuh ordinal ranking instead of an all-or-nothing basis.

BPA has also proposed that a customer's allocation of intraclass excess entitlements be reduced by the amount of firm power necessary to served the amount of the Purchaser's firm load which would have been reduced by cost-effective BPA conservation programs or equivalent customer programs which the utility declined to implement. The PPC has opposed any reduction for failure to implement conservation programs.

BPA has proposed that additional amounts of intraclass excess entitlements which are excess to the needs of a class or amounts of firm power available from resources not subject to the allocation requirements of Pub. L. 96–501 be allocated by methods determined by BPA. Investor-owned utilities have proposed that such allocations be made pro rata to all customers who have deficiency remaining after receiving their allocation under these allocation formulas. The investor-owned utilities have also proposed that customers which have signed the residential purchase/sale contract pursuant to section 5(c) of Pub. L. 96–501 be allowed to request a requirements contract during a period of insufficiency in order to obtain a share of its class' intraclass excess entitlement.

Several matters remain unresolved in the determination of variables for the allocation formula. One issue is which resources of public body and cooperative and Federal agency customers will be considered in making a pro rata allocation of the Federal base system. Another regards the Montana reservation pursuant to Pub. L. 85–428. Preference customers in the State of Montana hold that Pub. L. 85–428 gives them preference as to the power reserved for the State of Montana, as opposed to giving them a right to purchase amounts of power equal to the power to which the reservation applies. A final matter regards the resources to be used in determining the ordinal ranking. BPA has proposed that such resources be the resources acquired by BPA from or on behalf of a utility while the public bodies and cooperatives and the investor-owned utilities believe that such resources should included resources dedicated to serve the purchaser's firm load under section 5(b) of the Regional Act as well as resources sold by a utility to BPA.

H. *Determination of New Large Single Loads.* The Administrator determines whether load has been committed to or contracted for by September 1, 1979. In accordance with the Regional Act, the BPA Administrator shall make that

determination on a case-by-case basis, with the burden of proof on the Purchaser to show why a facility should not be classified as a New Large Single Load.

BPA and the Purchaser will jointly determine, using a list of nonexclusive criteria, what constitutes a facility. Discussion continues on whether interpretive rulemaking or arbitration is the appropriate method for dispute resolution, should BPA and the Purchaser be unable to reach agreement on what constitutes a facility. BPA favors interpretive rulemaking over arbitration for this determination.

All parties concur that an increase in load will be a New Large Single Load if the energy consumption of the Consumer's load associated with a facility during the immediately past 12-month period exceeds by 10 average megawatts or more the Consumer's energy consumption for such facility for the consecutive 12-month period 1 year earlier, or the amount of the contracted for, or committed to, load as of September 1, 1979, whichever is greater.

The ICP wants the contract to state that any shift of an existing load over 10 average megawatts between utilities will be classified as a New Large Single Load. Although BPA agrees with the conclusion, it wants to avoid terms in a power sales contract that makes commitment with one class of customer restricting how BPA might serve another class of customer.

The New Large Single Load section places a reporting requirement on a Purchaser to make a reasonable effort to identify New Large Single Loads as soon as there is an addition of equipment, transformation capacity, or change in operation which likely will result in an increase of 10 average megawatts in a consumer's facility in a 12-month period.

BPA and the Purchaser may agree from the outset that an increase in load associated with a facility is a New Large Single Load. When it cannot be initially determined that an increase in load will eventually become a New Large Single Load, BPA has given the Purchaser the option of backbilling or rebating. Under backbilling the Purchaser is initially billed at the lower Priority Firm Power Rate. If the load eventually become a New Large Single Load, BPA then will backbill the Purchaser for the difference between the initially charge Priortiy Firm Power rate and the higher New Resource Firm Power Rate with interest at BPA's prevailing rate from the date the increase in load becomes a New Large Single Load. If the load never becomes a New Large Single Load it then continues to be billed at the lower rate. Under rebating, BPA charges the Purchaser the higher New Resource Firm Power Rate from the date of commercial operation of the increase in load. If the load eventually becomes a New Large Single Load, BPA continues to charge the higher rate. If the load never becomes a New Large Single Load, the difference between the higher and lower rates is rebated to the Purchaser with interest at BPA's prevailing rate.

The PPC proposed a different approach. It prefers setting up an energy monitoring plan. Under this plan, the Purchaser reports the Consumer's actual energy consumption to BPA each month. When it appears the Consumer's increase in load will becomed a New Large Single Load within the 12-month monitoring period, BPA then becomes responsible for making the determination of when to start charging the load as a New Large Single Load. Under the PPC plan the load either becomes a New Large Single Load and is billed as such from the time BPA makes the determination, or it does not become a New Large Single Load and PBA rebates to the Purchaser the difference between the New Resource Firm Power Rate and the Priority Firm Power Rate from the date the Purchaser was initially billed at the new Resource Firm Power Rate for the New Large Single Load.

Once a load associate with a facility becomes a New Large Single Load, that increase and all future increases to the load are classified as a New Large Single Load and is charged the higher New Resource Firm Power Rate. Any reductions to Consumer's load are on a last-on, first-off basis, which means once a load becomes a New Large Single Load any reductions in load first affects those portions of the load charged at the New Resource Firm Power Rate. In order to be reclassifed as no longer a New Large Single Load by BPA, a Consumer must physically and permanently remove all equipment which had originally impose the New Large Single Load on the Consumer's facility.

BPA and the utilities are in agreement that, should a Purchaser fail to report a New Large Single Load of which it had or reasonably should have had knowledge, that Purchaser will be: (1) backbilled at the higher New Resource Firm Power Rate; (2) charged interest at BPA's prevailing rate; and (3) assessed a late payment charge. In addition, BPA has reserved its legal rights to pursue other remedies.

I. *Limitation on Increase of Loads.* Consistent with similar terms in previous power sales contracts, BPA has proposed that it not be obligated to serve loads that will result in an increase greater than a certain amount until BPA determines it can serve that Load while fulfilling its other firm power obligations, or until the end of a specified notice period. Customers oppose the inclusion of this limitation.

J. *Planning and Operating Information.* This section provides that parties will cooperate with each other in the exchange of planning and operating information. The parties agree to provide such information, subject to reimbursement of reasonable expenses necessarily incurred, or provide access to sources from which the information can be obtained. Such information will be used to develop generation, transmission, and distribution plans and further the concept of one utility planning in the region.

K. *Compensation in the Event of Regional Curtailment.* If BPA has a load-resource deficiency and if a curtailment program is put into effect by voluntary appeals or mandatory action by governmental authority in the Purchaser's service area, BPA will pay direct compensation for the resulting saved power to the Purchasers whose revenue bases are thereby reduced. Compensation will be at a rate equal to the difference between the Purchaser's average retail rate and BPA's wholesale rate.

L. *Purchaser's Firm Resources.* Every year the Purchaser will submit a Firm Resource Exhibit showing its resources which are described by section 5(b)(1)(A) and (B) of the Regional Act for each of the following 10 Operating Years. Each year's submittal will show new information for the tenth year, but will only show those changes in the resources declared for the first 9 Operating Years as are specifically permitted by this section. The Firm Resource Exhibit is considered fixed, except for these specified circumstances, because the amount that the Purchaser is entitled to purchase from BPA is dependent in part on the contents of the Firm Resource Exhibit. Additions of resources will reduce the computed requirements purchase; removals will increase it. All the following provisions on changes of Firm Resources reflect BPA's practical need for advance notice of its obligations, leaving enough time to engage in realistic resource planning and acquisition. The changes that will be permitted are as follows:

1. Any Firm Resource may be added in any Operating Year if it is in accordance with BPA's published, resource-specific annual program implementing the plan of the Regional Council and the Regional Act.

2. Any Firm Resource may be added for any Operating Year if BPA can dispose of any resulting surplus to BPA's resources without sustaining an adverse economic effect.

3. Any Firm Resource may be added if it has a planned capability for the generating facility of 50 average megawatts or less, provided that the Purchaser must give BPA 2 years' notice of the new resource. A shorter notice period has been proposed by preference customers and investor-owned utilities and is being considered.

4. Any Firm Resource in regard to which the Purchaser had previously granted to BPA a written option to purchase may be added within 2 years after the Purchaser withdraws its offer pursuant to this option or BPA declines for any reason to exercise that option. The addition to the exhibit shall be only up to the amounts covered by the option agreement.

5. Any Firm Resource may be added if and to the extent BPA determines that it has a firm load-resource deficiency for the first Operating Year that the Purchaser proposes to add another Firm Resource. In the event of many requests for addition, BPA will give priority to those from which written notice of addition was first received.

6. Any Firm Resource may be removed for the tenth Operating Year of the exhibit if the Purchaser discontinues use of the resource due to obsolescence, retirement, loss of resource, or loss of contract rights, but may be removed earlier than the tenth year if BPA has been able to acquire resources to meet the resulting addition load. Preference customers and investor-owned utilities hold the position that Pub. L. 96–501 gives BPA no right to require 10 years' notice. Both groups believe that they should be able to immediately revise their Firm Resources, and therefore increase their BPA purchase, in the event of an unanticipated loss or factors beyond the Purchaser's control. BPA's position is that Pub. L. 96–501 does not change the principle that the resource owner has control over its operation and maintenance and should bear that risk.

7. Any Firm resource may be removed to the extent that BPA determines it has a firm load-resource surplus in the first Operating Year that the Purchaser proposes to remove such resource. In the event of multiple requests to remove Firm Resources, BPA will give priority in the order that written notice of removal was first received. For BPA determinations of load-resource surplus or deficit for this section and (5) above, investor-owned utilities have proposed that BPA make these determinations for 10 future Operating Years beginning after execution of this agreement. They also proposed a methodology specifying the types of purchases and resrves that should go into the determination, and specifying that three-quarters of the DSI load be included.

8. Any Firm Resource may be removed for any Operating Year or Years to the extent that an equivalent resource is added for the same periods if the resource to be added was not planned as of the date of enactment of the Regional Act to meet firm load in the region, or has been offered for sale to BPA and declined. This is to assure that the sum of all resources which were intended under the Regional Act to be used to serve firm loads will not be decreased.

9. Firm Resources may be added or removed to the extent that corresponding additions or removals are made in the Firm Resource Exhibits of other BPA Purchasers so that BPA's total firm obligation to supply power is not changed.

10. Any Firm Resource may be removed for any Operating Year if BPA acquires that resource from the Purchaser, or may be added for any Operating Year if the resource was recovered from BPA by the Purchaser for use in its load.

11. Any Firm Resource may be removed or added for any Operating Year if and to the extent that the Purchaser gains or loses that Firm Resource as the result of a withdrawal pursuant to contracts in existence on the date of enactment of the Regional Act which have notice periods of less than 10 years. For these cases, the addition to or removal from the Firm Resource Exhibit must be made with the same notice as provided for in those contracts.

12. Any Firm Resource may be added or removed for any Operating Year with BPA's prior written consent.

M. *Designation of Computed Requirements Customers.* This section sets out the criteria by which a Purchaser will be designated to purchase either on a computed requirements basis or a metered requirements basis. Each type of Purchaser will be subject to those sections of the contract that specifically refer to them, and to those provisions in the rate schedules which distinguish between computed requirements customers and others. Under the basic principles of computed requirements, the purchasing utilities operate with BPA as though all parties constituted a single utility. Computed requirements customers must operate their own resources and plan the amounts they purchase from BPA prudently and according to the terms of this Contract or incur charges in excess of the wholesale firm power rates in the event of overrun.

The Purchaser will be designated as a computed requirements customer if it either (1) operates automatic generation control equipment and schedules power with BPA, or (2) does not operate automatic generation control equipment but has the ability to sell power from its resources or to operate its resources in a manner as to cause losses of power or revenue to BPA. If the Purchaser does not have automatic generation control equipment, it will be designated as a computed requirements customer only if it has Firm Resources which are in excess of a specified minimum capability. This minimum capability level has not been determined. Some preference customers with a small proportion of resources in relation to their loads and without automatic generation control equipment hold that they should not be subject to the rate provisions providing for a minimum billing demand equal to 60 percent of the highest such demand for the past 11 months ("ratchet"). They believe that this ratchet was intended to protect BPA against large periodic reductions in sales caused by utilities who own and control a large proportion of resources compared to their loads. BPA's position is that the rates will be applied uniformly. BPA will review the Firm Resource Exhibit submitted by all Purchasers for every year to determine if a change in designation is appropriate, and will give written notice thereof to the Purchaser.

N. *Metered Requirements Sale of Power and Amounts Sold.* This section provides for BPA to make available and a utility to purchase from BPA its metered requirements for firm power for service to consumers in its service area. The section establishes a planning obligation on BPA to meet the firm load of customers being billed on their meters.

The section requires the Purchaser to use the entire output of its firm resources, if it has any, to serve its firm loads and specifies services that BPA agrees to provide to assist such utility in using such output to serve its firm loads. While the contract does not require the utility to purchase services from BPA, BPA reserves the right to establish a standard charge to recover the costs of planned outage reserves, forced outage reserves, spinning reserves, and generation frequency control for utility resources where BPA is providing the services. BPA has also agreed to provide services at standard charges (1) to

insure that the entire output of a utility's resources is shaped under its firm load for all operating hours during the year, or (2) the services necessary to establish a firm planning capability for a utility's resources, including a credit to such utility to compensate it for the output of such resources in excess of its firm load.

The section also provides that utilities, at BPA's request, operate their resources or arrange to receive power available to them under contracts in such a manner as to assist BPA in meeting its total loads. BPA has agreed to compensate the purchaser for any additional costs which are incurred due to the requested operation by BPA.

O. *Metered Requirements Payment for Power Sold.* This section provides that a utility pay BPA for firm power delivered under the previous section pursuant to the appropriate wholesale power rate schedule and billing provisions in the General Contract Provision Exhibit. Such billing provisions have been added to the General Contract Provisions during negotiation of this contract and will later be removed from the General Rate schedule provisions. The section also provides that BPA pay the reimburable costs for resources operated by the customer at BPA's request and for compensation payments to a utility in the event of regional curtailment. The PPC has proposed that the contract specify a low system density discount and a standard for applying the discount which would be fixed for the term of the contract.

P. *Determination of Computed Requirements Purchaser's Assured Capability.* This section controls the method for calculating the Purchaser's Assured Capability of its Firm Resources for purposes of determining the amount of power it will be entitled to purchase from BPA on a computed requirements basis. Wherever possible, this section is consistent with procedures and precedents established in connection with the Pacific Northwest Coordination Agreement, to which BPA and many Pacific Northwest utilities are parties. For example, Assured Capability of all hydroelectric resources will be based on the assumption of occurrence of critical streamflow conditions. For all Purchasers that are parties to the Pacific Northwest Coordination Agreement, the same "critical period" will be used, that is, an historical period during which recorded steamflow would result in the least energy distributed among months in proportion to firm load.

This section continues a longstanding BPA policy that computed requirements Purchasers will operate their own resources so that their purchase from BPA is approximately uniform from 1 year to the next during the critical period, allowing increase for annual load growth. This specifically prevents a computed requirements purchaser from planning which results in large Assured Capabilities for the first part of the critical period and smaller ones in later years, thereby potentially increasing its later demands on BPA and risking regional power shortages for those later years.

Though the annual purchase from BPA must be approximately uniform from 1 year to the next, increasing each year by the amount of the Purchaser's annual load growth, the amounts of the purchase from month to month may be either approximately uniform or may increase or decrease to follow the Purchaser's load shape. If BPA agrees, the Purchaser may increase it purchase for those periods for whch it has planned maintenance of its own resources. This could be planned to coincide with increased flows from Federal resources for migratory fish to prevent waste of the resulting energy.

The methods used to calculate the Purchaser's Assured Capability will be the usual methods used by BPA and its Purchasers. With respect to data relating to factors that affect hydroelectric capabilities, BPA and the Purchaser will use such data and operating constraints as are reasonable and generally accepted. Operating constraints will include operations to achieve environmental and fish and wildlife objectives and requirements. BPA may verify the capabilities of the Purchaser's Firm Resources. The Purchaser must provide firm transmission capacity that is sufficient to transmit the peak capability of each of its Firm Resources to its firm loads. Investor-owned utilities oppose the inclusion of this provision in a power sales contract.

Q. *Purchaser's Computed Requirements and Amount of Power Sold.* The computed requirements sales arrangement provides that BPA will sell to the Purchaser an amount of firm power equal to the difference between the Purchaser's firm loads and the Assured Capability of its Firm Resources. A computed requirements Purchaser will buy this amount either based on a comparison of actual data made after every month, or based on a planned schedule for each month of the coming year, agreed upon by the parties before that year. For Purchasers on the planned basis, the amount of firm power sold will be the difference between the Purchaser's estimated firm loads, as approved by BPA and its Assured Capabilities for each month that year.

Investor-owned utilities proposed a variety of planned computed requirements in which the Purchaser would plan its BPA purchases for the next 10 years. These purchases would be less than 100 percent of the difference between the Purchaser's firm loads and the Assured Capability of its Firm Resources and would be supplemented by firm power purchases that become available on short notice. The concept of a sales arrangement for less than the full net requirements of the Purchaser is novel. BPA has neither accepted nor rejected this proposal. As long as the Purchaser made up the difference with firm purchases rather than secondary energy, the region would have firm resources sufficient for its loads, based on critical streamflow.

For all purchases other than planned or contracted, the amount of power sold will be determined after the end of every month by comparing actual generation of the Purchaser's Firm Resources, actual loads, amounts of power delivered by BPA and by making certain adjustment specifically allowed for in this section and in the Payment section. If the comparison of actual data for the previous month indicated that the Purchaser had taken more power from BPA than the computed requirements formula allowed, the Purchaser may make an adjustment to the amount of its assured energy capability for that month which will be reconciled by corresponding changes for later months. A record of such adjustments will be kept in an account called "Flexibility Account." This concept corresponds to a provision of the Pacific Northwest Coordination Agreement and is subject to similar rules and regulations.

BPA may make advance arrangements to restrict a computed requirements customer for as long as 6 heavy load hours of any day to an amount of power not less than its computed peak requirement. According to the basic computed requirements formula, many customers would ordinarily have a right to take a larger amount of power than this bare minimum. This has had the effect in the past of forcing BPA to maintain a greater amount of peak capability available for the region than it would have had to maintain if it were only obligated to make the bare minimum available on those heavy load hours. BPA's proposal includes a reduction in the customer's power bill if this restriction is invoked.

If a Purchaser cannot produce its Assured Capability, there is a provision

to allow the Purchaser to supplement that Assured Capability by means of a load curtailment program. In the absence of this provision, the computed requirements formula would result in a decrease in the amount of firm power the Purchaser was entitled to receive and the Purchaser would be in danger of being unable to serve its loads.

R. *Power Scheduling.* This section and the Power Scheduling Procedures Exhibit sets out procedures governing the manner in which the Purchaser requests its hour-by-hour deliveries of power from BPA. The Power Scheduling Procedures Exhibit calls for reports of preschedules to be made each day for the following day, limits the revisions that a Purchaser can later make in those schedules, and establishes the amounts of power that can be scheduled during different time periods in relationship to the Purchaser's computed requirements. The exhibit contains deadlines and formulas for maximum schedules and may be revised from time to time by agreement of BPA and the majority of the Purchasers then operating under the exhibit. Other generation utilities state that they cannot meet the BPA deadlines because they can't collect the necessary data until later in the day.

S. *Computed Requirements Payment for Power Sales and Services.* This section describes the rates to be paid for power delivered under this contract as well as some related services. For firm power, it refers to the appropriate firm power rate schedules. Unlike the section on "Metered Requirements Payment for Power Sold," computed requirements payments are not figured strictly from amounts taken but rather by comparing amounts taken with the amounts that should have been taken, according to the computed requirements formula. In the event that the Purchaser has taken more firm power than it was entitled to according to the computed requirements formula, this section provides for overrun payments, subject to other rates and other charges. This section refers to the Relief From Overrun Exhibit, which describes methods for reducing overrun payments under certain limited conditions, procedures for converting certain amounts of overruns to sales of nonfirm energy when BPA had nonfirm energy for sale, and establishes margins providing for smaller charges in the event of smaller overruns.

T. *Ratification of Interim Agreement.* For Purchasers with whom BPA has a wholesale firm power sales contract, this section acknowledges the applicability of the wholesale rate schedules, when they became effective, to deliveries of power made before the effective date of this contract.

II. Discussion of Contract Elements—Residential Purchase and Sale Contracts

A. *Duration of Contract and Related Matters.*

1. *Term.* All contracts will be effective on the later of the date of execution or October 1, 1981, and will terminate on June 30, 2001, consistent with legislative history and BPA's interpretation of the language of Public Law 96–501 referring to "long-term" contracts.

2. *Effective Date.* 2400 hours on September 30, 1981.

3. *Status of Existing Contracts.* These contracts are new and unique in nature and there are no existing contracts of similar type in existence at the present time. Currently, residential customers of investor-owned utilities in the region generally pay higher rates for electric power than do residential customers of BPA's preference utilities because of the investor-owned utilities' lack of access to BPA's firm power. This new contract provides that access.

4. *Termination.* The utility may terminate the agreement upon reasonable terms and conditions as specified in Section 7(b)(2) of the Regional Act if the "rate test" is triggered and the supplemental charge is applied to the utility which drives the cost of the sale to the utility under this contract above the utility's average system cost. The utilities have taken the position that the Regional Act does not preclude BPA from allowing additional termination provisions.

B. *Class of Power.* BPA will sell to the utility at BPA's firm power rate pursuant to Section 7(b) of the Regional Act. The utility will sell back power to BPA at the utility's average system cost.

C. *Amount of Power.* The Regional Act provides that the amount of power to be sold by both parties to each other under the contract is to be equal to the utility's residential load which includes usual farm use and farm irrigation pumping load up to the first 400 horsepower (H.P.) during any month. Existing State rate tariffs will be used to determine the size of this load for each utility participating in the contract.

The 400 H.P. limitation for irrigation and pump loads in the Regional Act has been agreed upon by the parties to mean an upper limit on energy to be exchanged for any farm equal to 400 times the number of hours in the billing period times the conversion factor of 0.746 kilowatts per horsepower.

D. *Demand.* A demand is needed to effect the sale by BPA to the utility at BPA's firm power rate because BPA's firm power rate schedule includes a demand charge. Therefore, the parties have agreed that since residential demand is not measured, that the monthly load factors from the Federal Energy Regulatory Commission (FERC) Form 1, page 431, be used as agreed upon monthly load factors for the sale. Each such monthly load factor will be a rolling average of that month's load factor for the previous 5 years.

E. *In-Lieu Purchase by BPA.* The Regional Act gives BPA the right to purchase power in lieu of purchasing the utility's power at the utility's average system cost if that average system cost exceeds the cost or power to be found elsewhere. BPA will give the same notice for such a purchase to the utility as the utility must give BPA in its power sales contract to reduce its contract demand. BPA will state the amount, duration, source, and cost of any intended acquisition, and such an acquisition shall not be less than 1 year in duration. When the utility receives such notice, the utility will have the option to either reduce the amount of power purchased by BPA under the contract or reduce its rate to be paid by BPA to the new in-lieu rate. BPA will not acquire power for any in-lieu purchases from sources whose costs have previously been assigned to BPA's new resource rate pool pursuant to Section 7(f) of the Regional Act.

F. *Accounting, Review, and Budgeting.* The utilities will keep up-to-date records and accounts showing all transactions and other arrangements under the contract for at least 5 years: these will be maintained in accordance with the system of accounts prescribed by FERC. BPA may, at its expense, conduct reviews or inspection of the records and accounts and related documents pertinent to the agreement.

G. *Cost Benefits.* The utilities will pass through directly to the residential load the cost benefits which accrue to the utility under this contract. Cost benefits have been defined in the proposed contract as a reduction in the utility's wholesale power cost during the term of the contract as a result of the contract.

H. *Definition of Farm and Usual Farm Use.* The Regional Act provides that usual farm use electrical loads and farm irrigation and pump loads up to the 400 H.P. limit may be included under the exchange. The parties have agreed that a farm is a parcel of land which is used primarily for agriculture, and is owned or leased by one or more persons including partnerships and corporations. Agriculture is defined to include the raising and incidental primary processing of crops, pasturage, or

livestock. Usual farm use has been defined as all electrical loads ordinarily associated with agriculture.

III. Discussion of Contract Elements—DSI Contracts

A. *Duration of Contract and Related Matters*

1. *Term.* All contracts will be effective on the date agreed upon among the parties and will terminate approximately 20 years later on June 30, 2001, consistent with legislative history and BPA's interpretation of the language of Public Law 96–501 referring to "long-term" contracts. BPA has proposed the 20-year term for these power sales contracts, as it has historically, based on the longest term permitted under the Bonneville Project Act of 1937. This affords BPA the greatest opportunity to engage in prudent long-term planning. Some public comment has suggested that the 20-year term could delay implementation of alternative power sales policies.

2. *Effective Date.* Proposed by BPA to be July 1, 1981, but may not be later than October 1, 1981.

3. *Status of Existing Contracts.* BPA proposes termination of existing contracts. The DSIs prefer that existing contracts not be terminated, but that deliveries be made pursuant to the terms of the new contracts.

4. *Existing Liabilities.* Any liabilities under current power sales and operating agreements will be preserved until satisfied.

5. *Follow-on Contracts.* BPA will not be obligated to offer a follow-on contract. However, BPA and DSIs would establish a mechanism for assessing mutual desire and ability to execute such contracts. Further, DSIs prefer that BPA acknowledge an obligation to achieve and maintain load/resource balance throughout the contract term. BPA acknowledges its statutory obligations to acquire sufficient resources to meet its contractual obligations.

B. *Class of Power.* The contract would be for a unified class of Industrial Firm Power (IF) and for amounts of Auxiliary Power, subject; to restriction by BPA and curtailment by the customer on the terms and conditions set forth in the contract.

C. *Amount of Power.*

1. *Generally.*

a. The Regional Act entitles each DSI to the amount of power to which it is presently entitled under the IF contracts, including technological improvement allowances for purposes other than plant expansion.

b. The new DSI contracts will contain demand levels known as "Contract Demand" and "Operating Demand;" a contract demand for Auxiliary Power will also be included. The Contract Demand and Operating Demand may be identical for some companies. Contract Demand would represent the maximum amount of power each DSI is entitled to receive from BPA under the new contract. Operating Demand would represent each company's operating level actually achieved or in the process of being attained. Adequate notice would be required for increases or decreases in operating levels that result in operating levels less than or equal to Operating Demand. Notice for certain increases in Operating Demand would be identical to notice provisions of utility contracts (amount of notice is a function of the size of increase). Technological Improvement Allowances (TIA), if granted, would increase both Contract Demand and Operating Demand by the amount of the TIA.

2. *Contract Demand.*

a. Each DSI contract would contain a specified Contract Demand level.

b. Contract Demand for each DSI will be the sum of:

(1) Contract demand in the current IF contract;

(2) Authorized Increases granted in the past and incorporated or scheduled to be incorporated in the current IF contract;

(3) Additional Power actually purchased under current contracts; and

(4) Technological Improvement Allowances that are granted (see Section 4 below).

3. *Operating Demand.*

a. Each DSI contract would contain a specified initial Operating Demand level and scheduled increases thereof, reflecting the company's recent operating experience, announced plans, and current plant capability.

b. Generally, matters such as billings, restriction amounts and allocations of Advance Energy and IRE (see below) would be based on Operating Demand rather than Contract Demand.

c. No notice is required for increases in Operating Demand specified in the Contract. Each DSI may otherwise increase its Operating Demand up to the limit of its Contract Demand upon appropriate notice.

4. *Technological Improvement Allowances (TIS's).*

a. *Availability.* As in existing contracts, TIA are for purposes other than plant expansion.

b. *Amount.* The total TIA pool is limited to one percent per year of the total initial Contract Demand, cumulated and carried forward to the extent not used from July 1, 1978.

c. *Eligibility.* Technological Improvements that (i) meet the contractual criteria; and (ii) are made in the future or by written notice since July 1, 1978, will be eligible. Requests for Technological Improvements not immediately eligible for service as Industrial Firm Power will be served in the interim by Auxiliary Power.

d. *Allocation Among DSIs.* The contract will contain a mechanism for allocating TIA among DSIs in the event that requests in any year for the following 3-year period exceed the amount available for that period, with certain allocation priorities for those DSI's who have not previously been granted their proportionate share of available TI amounts.

e. *Notice.* Same as for increases in utility contracts, except that shorter notice period may apply if the TIA is required by the DSI to comply with a governmental order (*e.g.*, pollution control).

f. *Effect.* TIA that are granted will increase both Contract Demand and Operating Demand, and will decrease the Auxiliary Demand, by the amount of the TIA.

D. *BPA Restriction Rights.*

1. *Generally.*

a. The DSI contracts are required to provide reserves to protect BPA's firm obligations. These reserves are provided through contract rights to interrupt or withdraw power otherwise delivered to the DSIs. The restriction rights may not be exercised for any purpose other than the protection of all BPA firm obligations. Except to the extent of such restriction rights, BPA's contractual obligations to the DSIs are generally identical to its obligations to other customers.

b. For purposes of quantifying specific restriction rights, each DSI Operating Demand is devided into four "quartiles" of equal size "subject to special operating circumstances." Different restriction rights apply to different quartiles. Additional restriction rights apply to Auxiliary Power.

c. The contracts will recognize that some flexibility in adjusting restriction rights over time will be desirable, and that such adjustments may be made by mutual agreement of the parties. In addition, the continued need for periodic Operating Agreements will be acknowledged.

d. Reserves are categorized as planning or operating reserves, depending generally on the purpose of the particular reserve, the duration of the restriction, and the type of shortage that "triggers" BPA's need for and right to exercise the restriction right.

2. *System Stability and Forced Outage.*

a. These reserves will be similar to existing DSI contract provisions. The main difference is that BPA seeks, in place of the present 5-minute limit on dropping 100 percent of the DSI load, a longer period (15–45 minutes). BPA is currently assessing its need for, and the DSI's their ability to withstand, this longer interruption.

b. These reserves are provided by the following specific restriction rights:

(1) *100 Percent Load Drop.* Extension of time limit from 5 minutes to 15–45 minutes is currently being investigated (see above).

(2) *50 Percent Load Drop.* This applies to the DSI loads operating at the time of restriction. A restriction is of up to 2 hours' duration each time employed. The accumulation of all such restrictions cannot exceed in kilowatthours in any calendar year each DSI's Contract Demand multipied by 50.

(3) *25 Percent Load Drop.* This use applies to the second quartile of the Operating Demand. The accumulation of all such restrictions cannot exceed in kilowatthours in any calendar year each DSI's Contract Demand multiplied by 375.

3. *Top Quartile Operating Reserve.*

a. BPA may interrupt a portion of the DSI load, not to exceed 25 percent of the Operating Demand plus the Auxiliary Power, at any time, for any reason, and for any duration. Interruptions may be for capacity or energy or both. Special arrangements may apply when the first quartile is served with DSI firm energy borrowed from a later portion of a critical period.

b. As much notice of interruption as possible under the circumstances will be given.

c. See also "operations In lieu of Restriction", below.

4. *Second Quartile Reserves.*

a. The parties are presently negotiating the extent of the expanded reserve provided by this quartile. The DSIs maintain that this reserve should be only for resource delay and initial operating problems. BPA maintains that this reserve should also be used for failure of existing resources. It is agreed that this quartile will provide a reserve to protect BPA's other firm obligations.

b. Currently in disagreement are the following:

(1) *Inability of a Resource to Maintain Designed Capability Once Attained Initially.* BPA wants the second quartile reserve to be available not only to protect firm loads against the delayed completion of planned resources or the failure of such resources to achieve design capability but also to protect firm obligations against the contingency of the loss of capability of such resources once commercial status is attained. The DSIs disagree, particularly if the "loss" is discretionary or volitional, and feel that all loads in the region (including the DSIs) should bear this risk equally in such event.

(2) *Coverage of Existing BPA Resources.* In addition to covering planned resources, BPA wants the reserve to be available in the event an existing resource loses actual capability; the DSIs take the position that only resources "implemented or acquired" by BPA under the Regional Act are to be covered. BPA agrees that such reserves for resources which attained commercial operation shall not be used because of shutdowns incurred under governmental orders.

(3) *Expansion of Second Quartile Reserves.* BPA wants to be able to restrict deliveries to the second quartile on short notice (30–45 days) during the operating year in which: (A) a long-term forced outage occurs, (B) firm loads cannot otherwise be served, (C) replacement energy cannot be purchased at a reasonable price, (D) first quartile reserves are unavailable and (E) forced outage reserves are insufficient. The DSI's maintain this would establish the second quartile as an operating reserve for energy purposes, which BPA states it needs. The DSIs maintain that this is a new proposal not contemplated by the Regional Act. The DSIs believe the intent of the Regional Act is to treat the second quartile as an energy planning reserve only, with notice of possible restriction therefor being given only prior to the Contract Year in which the restriction may occur. BPA believes that there is flexibility for expanded reserves.

c. The parties are currently considering provisions to attempt to resolve the disagreement expressed in subsections (a) and (b) above. The provisions would modify the proposed restriction right in the following manner:

(1) Provide assurances that the right will be exercised only in circumstances in which BPA would otherwise be unable to carry its firm obligations.

(2) Place a reasonable durational limit (or other form of limit) on the exercise of the restriction right, so that a forced outage that cannot be cured (or mitigated by purchases) will become within a reasonable time a regional problem rather than a problem for the DSIs alone. BPA proposes 180 days as a reasonable durational limit in the first Contract Year that the outage occurs, but maintains DSIs will continue to provide reserves for a period up to 10 years;

(3) Exclude from coverage by the restriction right certain types of events imposed by governmental action or which are voluntary, volitional, or otherwise discretionary (*e.g.*, a regional decision to shut down otherwise operable generating units); and

(4) Provide for contractual oversight provision with resource owners and operators to assure prudent operation of resources in order to minimize the risk of this restriction right being exercised.

d. The top quartile operating reserve and the DSI forced outage and stability reserves will be available for any contingency not covered by the second quartile reserve, including unanticipated growth of regional firm loads. The second quartile is not exposed to the extent the region simply fails to plan sufficient resources, but rather to the extent that certain planned resources are not available.

e. BPA recognizes its obligation to acquire resources pursuant to the Regional Act, on a reasonable schedule, to make up for any projected deficit.

E. *BPA Obligations and Operations in Lieu of Restriction.*

1. *Generally.* BPA is obligated to treat three quartiles of the DSI Operating Demand as a firm load for purposes of both resource planning and operation (subject to the restriction rights noted above). BPA is obligated to treat the DSI top quartile as if it were a firm load for purposes of resource operation, but not for purposes of resource planning (subject to the restriction rights noted above). BPA may restrict deliveries to DSIs only for the purpose of making firm power sales to other customers. BPA will use techniques such as Advance Energy or shaping of Firm Energy Load Carrying Capability to borrow DSI firm energy from one time period for use in an earlier time period, subject to additional restriction rights by BPA if repayment of the borrowed energy is necessary to enable BPA to meet its firm obligations.

2. *DSI Load Obligations and Operations.* Because the DSIs' second quartile is a firm load for purposes of resource planning as well as operation, BPA will not restrict deliveries to the DSIs' second quartile unless BPA is unable to meet its total firm obligations in actual operation, including through the purchase of available power at reasonable price. BPA maintains that at present the price of power produced at single-cycle combustion turbines is the reasonable limit. The reasonable limit is expected to vary over time based on

market conditions and other circumstances.

3. *Advance Energy.* Among the specific points that will be included in the DSI contracts with respect to Advance Energy are these:

a. Except for deliveries of Auxiliary Power, Advance energy may be available for any portion of the DSI load that is subject to restriction, within the limits of available amounts.

b. Generally, Advance Energy will be pro-rated among the DSI on the basis of Operating Demands.

c. BPA proposes that if a DSI curtails plant load, it individually may refuse to accept Advance Energy, in whole or in part; the DSIs do not agree that Plant load must be curtailed to refuse acceptance of Advance Energy.

d. The obligation to repay Advance Energy will be discharged in proportion to the refill of the reservoirs at which Advance drafts were made, or to which Advance Energy was transferred, based on energy content of available storage at such reservoirs (taking flood control limits into account).

4. *Operating Agreements.* As is the case in the 1980–81 and 1981–82 Contract Years, BPA and the DSIs may from time to time enter into operating agreements for operations in lieu of restriction in the event the power sales contract does not provide for a particular operating condition. Such operations are secured by BPA rights to restrict in a later time period, if necessary, portions of the DSIs load that would not otherwise be subject to restriction under the terms of the DSIs contracts.

F. *Voluntary Curtailment by the Customer.* Each DSI may curtail its plant load up to the amount of the top quartile, plus Auxiliary Power, generally without a Demand Charge.

G. *Voluntary Termination of Contract.* The DSI prefer, as in section 11(c) of the existing DSI General Contract Provisions, that any DSI may terminate its BPA contract after a rate increase, subject to paying the cost of any BPA facilities used to deliver power to that DSI load. BPA has proposed that a DSI may terminate under such circumstances if the DSI reimburses BPA for the unrecoverable cost of pertinent facilities or resources acquired to serve the DSI, and of residential exchange shortfalls.

H. *Miscellaneous.*

1. *Service From other Sources.*

a. If, with BPA's consent, any DSI transfers to a BPA utility customer any portion of the load that BPA is already serving directly, the Contract Demand and Operating Demand of that DSI will be reduced by the same amount.

b. As required by sections 9(i)(1) and (2) of the Regional Act, BPA will continue to act as agent for the DSIs, in acquiring, at the request and expense of the DSIs, industrial replacement energy (IRE) and in disposing of such IRE at the request and expense of each DSI. BPA will prescribe the terms and conditions of IRE transactions for the purpose of assuring each DSI an opportunity to participate in such acquisitions and dispositions. In addition, BPA proposes (outside the power sales contract) that all acquisitions of IRE and other non-Federal energy by the DSIs shall be subject to preemption by BPA if the IRE has not already been delivered or advanced, and if it is needed to enable BPA to meet its firm obligations, including the DSIs second quartile; the DSIs have not agreed to this.

c. The DSIs propose that circumstances, if any, under which a DSI may acquire resources of its own to provide service to all or a portion of the load that BPA may interrupt should not be decided as part of the present contract negotiation. The DSIs maintain that this question should be deferred for resolution in the context of specific resource proposals if any are later advanced. BPA agrees that the matter can be deferred.

2. *Nongeneric Items.*

a. Alumax special provisions.

b. Furnace reline provision.

c. Rate and Restriction provisions for Hanna.

d. At-site provisions for Anaconda and Martin-Marietta.

IV. Discussion—General Contract Provisions

The General Contract Provisions (GCPs) contain general provisions associated with the power sales contracts for utilities and direct-service industries. Specific information covered by these provisions include billing provisions, provisions for adjusting wholesale power rates, engineering requirements for points of delivery and many others.

Relating to all Purchasers

A. *In Reference to Meaning.* This section provides that provisions contained in the contract shall control the GCPs if there is any conflict with the provisions contained in the body of the attached contract. Defined terms used only in the GCP's are defined in this section.

B. *In Reference to Computations of Charges.* This section contains provisions for interpreting measurements recorded by meters. It contains methods of resolving common disputes over the accuracy of metered measurements.

C. *In Reference to Rates.* This section establishes the procedures BPA must follow to change wholesale rates. It limits such changes to once in any 12-month period, provides that BPA shall establish and publish a methodology for assessing the rate test of Section 7(b) 2 of Public Law 96–501 by July 1, 1983, and reserves BPA's authority to apply a conservation surcharge.

D. *In Reference to Delivery of Power.* This section contains provisions regarding terms for delivery of power including:

Character of Service, which specifies the form of electric power and energy which will be delivered;

Point of Delivery and Delivery Voltage, which describes where ownership of power is transferred to a utility;

Metered Quantities, which describes the amount transferred;

Where Additional Facilities Required, which sets BPA's obligation to provide additional facilities to enable it to supply increases in the Purchaser's requirements for power;

Uncontrollable Force, which defines "Uncontrollable Forces" and limits a party's obligation to deliver or receive power due to such conditions and;

Continuity of Service, which provides that BPA or a transferor may temporarily reduce or interrupt deliveries of power when it is determined there is an emergency or installation of equipment or maintenance work is necessary. Except in the case of emergency, a prior notice is required.

Delivery by Transfer, which specifies BPA's obligation to assure deliveries of power when made by transfer over other utilities.

E. *In Reference to Payment for Power.* This section contains provisions for paying bills and charges in the event of late payments.

F. *In Reference to Use of Power.* This section contains terms regarding engineering requirements for delivery of power. A utility must give reasonable notice to BPA of any unusual increase or decrease in its demands for power and energy. A utility will be liable for any damage to the Federal System which results in such increase or decrease made without BPA's consent. Each party must design, construct, operate, and maintain its electric system in conformance with accepted electric utility practice to minimize electric disturbances. Nothing in this section creates a duty or liability to any person not a party to the contract.

G. *Harmonic Control.* Each party must design, construct, operate, and maintain its electric system in accordance with good engineering practices to minimize the levels of harmonic currents and voltage which could interfere with another party's facilities. A utility must insure that the currents on each phase of a point of delivery are balanced within specified tolerances.

H. *In Reference to Facilities.* This section contains general terms regarding each party's facilities. BPA may install a meter or metering equipment at any time. All meters must be tested at least once every 2 years. If meters are to be located on another party's property, the contract provides a permit for reasonable access.

Ownership of any equipment installed by a party on the property of another party remains in the installing party and shall be marked accordingly. Either party may inspect the other's electric installations used in complying with the terms of this contract at any reasonable time. BPA must design and construct Federal System facilities to maintain the voltage at each point of delivery from Federal System within a certain range above or below the operating voltage.

I. *Miscellaneous Provisions.* This section contains provisions implementing BPA's obligations established by law or executive order, provides for standard contractual terms regarding interpretation of contracts, and includes an arbitration section for resolving disputed facts.

Relating Only to Preference Agencies

This section contains provisions which apply only to preference agencies. It includes provisions for separate operation of municipal utilities from city governments, provisions required for Rural Electrification Administration borrowers, and a savings clause for the preference and priority provisions of the Bonneville Project Act.

Relating Only to Utility Purchases

This section contains provisions which apply only to utilities and not direct-service industries.

A. *In Reference to Computation of Charges.* This section contains provisions for adjusting billing factors to reflect deliveries under prior contracts for billing factors established on the basis of prior deliveries. It also provides for reducing such billing factors in the event of an increase in a utility's resources. Billing factors will also be adjusted to reflect interruptions in delivery.

The section contains provisions for computing billing factors or providing additional charges for multiple points of delivery. Billing factors can also be adjusted to reflect deliveries in reactive power beyond limits specified in the section.

B. *In Reference to Purchaser's Operating Policies.* This section requires utilities to notify BPA of changes in resale rates and provide copies to BPA before they are effective. Utilities are quired to follow Federal Energy Regulatory Commission accounting rules or Rural Electrification Administration accounting rules if applicable. Utilities must provide regular audits.

If BPA restricts any portion of its direct service industries contract, ■ utility shall not, without BPA's permission serve any such portions so restricted with resources available to the utility from BPA.

C. *In Reference Only to Purchaser With Generating Facilities.* A utility shall not sell electric power and energy to utilities who are not dependent on the Purchaser for the major part of their electric power and energy requirements from any portion of the generating facilities that such utility used in determining the assured capability of the utility's generating facility with certain specified exceptions.

At the request of either the party, the other party will make available on the terms stated herein such thermal-generated or hydrogenerated energy as the supplying party determines, when such request is made, that it has available for delivery to the requesting party. If a breakdown of, or emergency on, the system of either party occurs, the other party will make available upon request all or such part of the energy required for such system as the supplier determines it can supply.

Relating Only to Direct-Service Industry Purchasers

These provisions apply only to direct service industries.

A. *In Reference to Computation of Charges.* This section provides for computing billing factors when an industry is purchasing power from sources other than BPA.

B. *In Reference to Purchase.* All electric power and energy delivered under this contract shall be used by an industry in its own operations and the industry shall not resell any part of it. If the industry resells such electric power and energy, BPA shall immediately cancel this contract.

Dated: June 5, 1981.

Earl Gjelde,

Acting Administrotor.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday). This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing June 10, 1981

6-15-81
Vol. 46 No. 114
Pages 31249-31402

Federal Register

Monday
June 15, 1981

Highlights

31278 **Taxes—Employment** Treasury/IRS announces public hearing on proposed regulations on voluntary withholding from sick pay.

31290 **Energy—Broadcasting Facilities** FCC proposes to permit use of FM Subsidiary Communications Authorization to transmit broadcast signals for Utility Load Management purposes.

31286 **Telecommunications** FCC requests comments on development of policies for authorization of common carrier facilities to meet Pacific region telecommunication needs during 1981–1995.

31267 **Nuclear Material** NRC proposes to improve capabilities for early detection of thefts of intransit special nuclear material of moderate strategic significance.

31294 **Hazardous Materials Transportation** DOT/RSPA requests comments on definition of oxidizers and on test methods which will enable shippers to determine whether products to be shipped are oxidizers.

31257 **Pensions** PBGC adopts additional interest rates and factors for valuation of benefits in non-multiemployer plans that terminated on or after 7–1–81.

Highlights

FEDERAL REGISTER Published daily, Monday through Friday, (not published on Saturdays, Sundays, or on official holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest. Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless earlier filing is requested by the issuing agency.

The **Federal Register** will be furnished by mail to subscribers, free of postage, for $75.00 per year, or $45.00 for six months, payable in advance. The charge for individual copies is $1.00 for each issue, or $1.00 for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the **Federal Register**.

Questions and requests for specific information may be directed to the telephone numbers listed under INFORMATION AND ASSISTANCE in the READER AIDS section of this issue.

31318, 31320 **Grant Programs—Education** ED announces application closing dates for the College Assistance Migrant Program and the High School Equivalency Program. (2 documents)

31300 **Import** CITA adjusts import restraint levels for certain cotton textile products from India.

31401 **Sunshine Act Meeting**

Rules and Regulations

Federal Register
Vol. 46, No. 114
Monday, June 15, 1981

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 910

[Lemon Regulation 309]

Lemons Grown in California and Arizona; Limitation of Handling

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: This regulation establishes the quantity of fresh California-Arizona lemons that may be shipped to market during the period June 14–20, 1981. Such action is needed to provide for orderly marketing of fresh lemons for this period due to the marketing situation confronting the lemon industry.

EFFECTIVE DATE: June 14, 1981.

FOR FURTHER INFORMATION CONTACT: William J. Doyle, 202–447–5975.

SUPPLEMENTARY INFORMATION: *Findings.* This rule has been reviewed under USDA procedures and Executive Order 12291 and has been classified "not significant", and not a major rule. This regulation is issued under the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona. The agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The action is based upon the recommmendations and information submitted by the Lemon Administrative Committee and upon other available information. It is hereby found that this action will tend to effectuate the declared policy of the act.

This action is consistent with the marketing policy for 1980–81. The marketing policy was recommended by the committee following discussion at a public meeting on July 8, 1980. A regulatory impact analysis on the marketing policy is available from William J. Doyle, Acting Chief, Fruit Branch, F&V, AMS, USDA, Washington, D.C. 20250, telephone 202–447–5975.

The committee met again publicly on June 9, 1981, at Los Angeles, California, to consider the current and prospective conditions of supply and demand and recommended a quantity of lemons deemed advisable to be handled during the specified week. The committee reports the demand for lemons is good.

It is further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking, and postpone the effective date until 30 days after publication in the **Federal Register** (5 U.S.C. 553), because of insufficient time between the date when information became available upon which this regulation is based and the effective date necessary to effectuate the declared purposes of the act. Interested persons were given an opportunity to submit information and views on the regulation at an open meeting. It is necessary to effectuate the declared purposes of the act to make these regulatory provisions effective as specified, and handlers have been apprised of such provisions and the effective time.

Information collection requirements (reporting or record keeping) under this part are subject to clearance by the Office of Management and Budget and are in the process of review. These information requirements shall not become effective until such time as clearance by the OMB has been obtained.

Section 910.609 is added as follows:

§ 910.609 Lemon Regulation 309.

The quantity of lemons grown in California and Arizona which may be handled during the period June 14, 1981, through June 20, 1981, is established at 340,000 cartons.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: June 10, 1981.

D. S. Kuryloski,

Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 81–17776 Filed 6–12–81; 8:45 am]
BILLING CODE 3410–02–M

Animal and Plant Health Inspection Service

9 CFR Part 82

Exotic Newcastle Disease; and Psittacosis or Ornithosis in Poultry; Areas Released From Quarantine

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Final rule.

SUMMARY: The purpose of this amendment is to release a portion of Maricopa County in Arizona from areas quarantined because of exotic Newcastle disease. Surveillance activity indicates that exotic Newcastle disease no longer exists in the areas quarantined.

EFFECTIVE DATE: June 9, 1981.

FOR FURTHER INFORMATION CONTACT: C. G. Mason, Chief, National Emergency Field Operations, Emergency Programs, Veterinary Services, USDA, Federal Building, Room 751, Hyattsville, MD 20782, 301–436–8093.

SUPPLEMENTARY INFORMATION: This final action has been reviewed in conformance with Executive Order 12291 and has been classified as not a "major rule."

The Department has determined that this rule will have an annual effect on the economy of less than $100 million, will not cause a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions, and will not have any significant adverse effects on competition, employment, investment, productivity, or innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

Additionally, Dr. Harry C. Mussman, Administrator of the Animal and Plant Health Inspection Service, has determined that this action will not have a significant economic impact on a substantial number of small entities because it removes the quarantines imposed due to exotic Newcastle disease concerning only two premises, neither of which are owned by a small entity.

Therefore, this amendment releases a portion of Maricopa County in Arizona from the areas quarantined because of

exotic Newcastle disease. The restrictions pertaining to the interstate movement of poultry, mynah and psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles from quarantined areas, as contained in 9 CFR Part 82, as amended, will not apply to the released areas.

Accordingly, Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respects:

1. The authority citation for Part 82 reads as follows:

Authority: Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

2. In § 82.3(c)(3), relating to the State of Arizona, the following premises are removed: (i) Ken Shreve, 2041 N. 28th Place, Mesa, Maricopa County; and (ii) Ken Shreve, 2050 N. 28th Place, Mesa, Maricopa County.

Accordingly, paragraph (c)(3) is removed and reserved as follows:

§ 82.3 Imposition and removal of quarantine.

* * * * *

(c) * * *

(3) [Reserved]

* * * * *

This amendment relieves certain restrictions no longer deemed necessary to prevent the spread of exotic Newcastle disease, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Therefore, pursuant to the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this final rule are impracticable and contrary to the public interest and good cause is found for making this final rule effective less than 30 days after publication of this document in the **Federal Register**.

Further, it has been determined by E. C. Sharman, Assistant Deputy Administrator, Animal Health Programs, APHIS, VS, USDA, that the emergency nature of this final rule warrants publication without opportunity for public comment.

Done at Washington, D.C., this 9th day of June 1981.

J. K. Atwell,

Deputy Administrator, Veterinary Services.

[FR Doc. 81-17590 Filed 6-12-81; 8:45 am]

BILLING CODE 3410-34-M

FEDERAL RESERVE SYSTEM

12 CFR Part 220

[Docket No. R-0250]

Amendment To Delete Provision Permitting Use of Foreign Currency in a Margin Account

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Final rule.

SUMMARY: This amendment to Regulation T (12 CFR Part 220) will delete the paragraph permitting the use of foreign currency in a margin account. It has been called to the Board's attention that the existing language of § 220.6, paragraph (j) may permit the speculative holding of foreign currency and securities in a margin account. By deleting § 220.6, paragraph (j), the Board clarifies that such a possibility is prohibited and that such transactions in foreign currency should be effected in the Special Commodities Account or the Special Miscellaneous Account, since in either case, they would be insulated from securities credit transactions. The amendment was published for comment on December 19, 1980 (45 FR 83510).

EFFECTIVE DATE: July 13, 1981.

FOR FURTHER INFORMATION CONTACT: Laura Homer, Securities Credit Officer, or Bruce Brett, Securities Regulation Analyst, Securities Regulation Section, Division of Banking Supervision and Regulation, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452–2781.

SUPPLEMENTARY INFORMATION: All of the comments received on the Board's proposal to delete § 220.6, paragraph (j), which permits foreign currency to be treated as a credit to an account were generally favorable.

One commenter requested an interpretation which would clarify that foreign currency can be received in a margin account if it is immediately converted into United States currency. It is the Board's intention to clarify that the deletion of this paragraph will not affect the ability to receive foreign currency into an account for immediate exchange, and a letter to that effect will be sent to the commenter.

§ 220.6 [Amended]

Accordingly, pursuant to sections 7 and 23 of the Securities Exchange Act of 1934, as amended (15 U.S.C. 78g, 78w), the Board removes § 220.6, paragraph (j) of Regulation T in its entirety and redesignates paragraphs (k) and (l) as paragraphs (j) and (k) respectively.

By order of the Board of Governors of the Federal Reserve System, June 9, 1981.

James McAfee,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Airspace Docket No. 80-AEA-78]

Alteration of Airway V-213

Correction

In FR Doc. 81-16163, appearing on page 29255, in the issue of Monday, June 1, 1981, make the following correction:

In the third column, the seventh line under "**Adoption of the Amendment**", "V-123" should have read "V-213".

BILLING CODE 1505-01-M

14 CFR Part 39

[Docket No. 80-EA-9; Amdt. 39-4134]

DeHavilland DHC-2; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment issues a new airworthiness directive, applicable to DeHavilland DHC-2 type airplanes. It requires repetitive inspections of the left and right elevator butt ribs and doublers for cracks. This results from findings of such cracks during inspections. The cracks could, if undetected, cause failure of the parts and loss of the airplane.

EFFECTIVE DATE: June 18, 1981. Compliance is required as set forth in the AD.

ADDRESSES: DeHavilland Service Bulletins may be acquired from the manufacturer at Downsview, Ontario, Canada M3K 145.

FOR FURTHER INFORMATION CONTACT: A. Maila, Airframe Section, AEA-212, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, New York 11430; Tel. 212-995-2875.

SUPPLEMENTARY INFORMATION: There had been reports of cracks in the elevator rib and doubler due to fatigue. The aircraft has been in service for 25 years with some 1500 aircraft having been placed in operation. Only four cases of butt rib cracking have been reported and these by one operator using former military aircraft. However, the deficiency can lead to structural failure. On page 73690 of the **Federal Register** for November 6, 1980, the Federal Aviation Administration published an NPRM and gave interested parties forty-five (45) days in which to submit comments. No objections were received. Publication as a rule has been suspended during the moratorium required by Executive Order.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Section 39.13 of Part 39 of the Federal Aviation Regulations, 14 CFR 39.13 is amended, by adopting the airworthiness directive as proposed.

Effective Date: This amendment is effective June 18, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a) 1421, 1423, and 1431(b); Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c) and 14 CFR 11.89.)

Note.—The Federal Aviation Administration has determined that this regulation is not considered to be major under Executive Order 12291 or significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final regulatory evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT."

Issued in Jamaica, New York, on June 4, 1981.

Murray E. Smith,

Director, Eastern Region.

DeHavilland: Applies to all DeHavilland DHC–2 series airplanes, certificated in all categories.

Compliance required as indicated.

Affects the elevator butt ribs (inboard), P/N C2TE–29ND (RH and LH), and doublers, P/N C2TE–9ND (RH and LH).

a. Within the next 75 hours in service after the effective date of this AD, unless already accomplished within the last 325 hours in service, and thereafter at intervals not to exceed 400 hours in service from the last inspection, inspect visually with a 10-power glass, the left and right elevator butt ribs and doublers, for cracks.

b. Replace or repair cracked parts, before further flight, in accordance with DeHavilland Service Bulletin (S/B) No. 2/30, or equivalent.

c. Equivalent parts or repairs must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

d. Upon submission of substantiating data by an owner or operator, through an FAA maintenance inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the compliance times specified in this AD.

[FR Doc. 81-17579 Filed 6-12-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 39

[Docket No. 81-EA-12; Amdt. 39-4135]

DeHavilland DHC-6; Airworthiness Directives

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment amends AD 80–13–12 applicable to DeHavilland DHC–6 type airplanes. AD 80–13–12 required a repetitive inspection of each engine nacelle lower longeron for cracks or buckling. This amendment merely adds an additional aircraft, S/N 631.

EFFECTIVE DATE: June 19, 1981. Compliance is required as set forth in the AD as amended.

ADDRESSES: DeHavilland Service Bulletins may be acquired from the manufacturer at Downsview, Ontario, Canada M3K 145.

FOR FURTHER INFORMATION CONTACT: C. Birkenholz, Airframe Section, AEA–212, Engineering and Manufacturing Branch, Federal Building, J.F.K. International Airport, Jamaica, New York 11430; Tel. 212–995–2875.

SUPPLEMENTARY INFORMATION: There had been a report by the manufacturer and Transport Canada that an additional airplane S/N 631 should be covered by AD 80–13–12. However, the aircraft is under Canadian registry and the operator indicates no intention of utilizing the equipment which would make it subject to the AD. In view of the possible fact that the aircraft could be sold in the U.S. and thus change the operating environment, it must be covered by the rule. Since the adoption of this amendment to the rule does not impose any practical burden on any person, notice and public procedure herein are unnecessary and the amendment may be made effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Section 39.13 of Part 39 of the Federal Aviation Regulations, 14 CFR 39.13 is amended, by amending AD 80–13–12 as follows:

Delete the numbers "630" where they appear in the applicability statement and insert "631".

Effective Date: This amendment is effective June 19, 1981.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended, 49 U.S.C. 1354(a), 1421, 1423, and 1431(b); Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c) and 14 CFR 11.89)

Note.—The Federal Aviation Administration has determined that this regulation involves a regulation which is not considered to be major under Executive Order 12291 or significant under Department of Transportation Regulatory Policies and Procedures (44 FR 11034, February 26, 1979), and will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A copy of the final regulatory evaluation prepared for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified above under the caption "FOR FURTHER INFORMATION CONTACT".

Issued in Jamaica, New York, on June 5, 1981.

Murray E. Smith,

Director, Eastern Region.

[FR Doc. 81-17578 Filed 6-12-81; 8:45 am]

BILLING CODE 4910-13-M

---

14 CFR Part 71

[Airspace Docket No. 81-AWE-17]

Designation of Federal Airways, Area Low Routes, Controlled Airspace, and Reporting Points; Alteration of VOR Federal Airway

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This amendment realigns VOR Federal Airway V–485 between San Jose, Calif., and Priest, Calif. The San Jose VORTAC is unuseable between 110° and 130° magnetic radials below 9,000 feet MSL due to building construction. This amendment alters the description of V–485 by changing the route alignment from the San Jose VORTAC to the San Jose Intersection.

DATES: Effective date: August 6, 1981. Comments must be received on or before July 15, 1981.

ADDRESSES: Send comments on the rule in triplicate to: Director, FAA Western Region, Attention: Chief, Air Traffic Division, Docket No. 81–AWE–17, 15000 Aviation Boulevard, P.O. Box 92007,

Worldway Postal Center, Los Angeles, Calif. 90009.

The official docket and comments may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:
Lewis W. Still, Airspace Regulations and Obstructions Branch (AAT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves the realignment of V-485, in part, due to an unusable course line radial below 9,000 feet MSL of the San Jose, Calif., VORTAC, and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) is to change the alignment of V-485 between Priest, Calif., and San Jose, Calif. § 71.123 of Part 71 of the Federal Aviation Regulations was republished in the **Federal Register** on January 2, 1981 (46 FR 409). The San Jose, Calif., VORTAC is unusable between 110° and 130° magnetic radials below 9,000 feet MSL. Aircraft are being rerouted via the substitute route structure, which has been flight checked and approved. This action merely incorporates the substitute route structure into the National Airspace System.

Under the circumstances presented, the FAA concludes that there is an immediate need for a regulation to redescribe V-485 between Priest, Calif., and San Jose, Calif. Therefore, I find that notice or public procedure under 5 U.S.C. § 553(b) is impractical and contrary to the public interest.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 71.123 of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR 409) is amended, effective 0901 GMT, August 6, 1981, by deleting from V-485 the words "INT of Priest 322° and San Jose, Calif., 139° radials; San Jose." and substituting for them the words "INT Priest 322° and Sausalito, Calif., 137° radials; to INT Sausalito 137° and Woodside, Calif., 096° radials."

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore (1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) at promulgation, will not have a significant effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on June 5, 1981.

B. Keith Potts,

Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc. 81-17576 Filed 6-12-81; 8:45 am]

BILLING CODE 4910-13-M

[Airspace Docket No. 80-ANW-24]

14 CFR Part 71

Designation of Federal Airways, Area Low Routes, Controlled Airspace, ANW Reporting Points; Alteration of Transition Area, Redmond, Oreg.; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Correction to final rule.

SUMMARY: In a rule published in the **Federal Register** on May 11, 1981, (46 FR 26044) a new Eugene, Oregon, transition area was established effective July 9, 1981, which abolished the Corvallis, Oregon, and Salem, Oregon, Transition Areas. Inadvertently, the Redmond, Oregon, Transition Area was not amended to exclude the new Eugene Transition Area from that description. This error is corrected herein.

EFFECTIVE DATE: July 9, 1981.

FOR FURTHER INFORMATION CONTACT:
Robert L. Brown, Airspace Specialist (ANW-534), Operations, Procedures, and Airspace Branch, Air Traffic Division, Federal Aviation Administration, Northwest Region, FAA Building, Boeing Field, Seattle, Washington, telephone (206) 767-2610.

SUPPLEMENTARY INFORMATION:

History

Earlier in this docket, action was taken to alter the transition areas at Eugene, Salem, and Corvallis, Oregon, by establishing a new transition area known as the Eugene Transition Area. Inadvertently, the Redmond, Oregon, Transition Area, which abuts this newly described area, was not amended to coincide with Eugene. This inconsistency may be eliminated by deleting the reference to Eugene in the Redmond description.

Since this action is only editorial in nature and does not constitute a substantive change in rulemaking, notice and public procedure thereon are unnecessary and the correction may be made effective in less than 30 days.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, Subpart G of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR 540) is amended, effective 0901 GMT, July 9, 1981, as follows:

Redmond, Oreg.

On line 16, delete the word "Eugene."

(Secs. 307(a), 313(a), and 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348(a), 1354(c), and 1510); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

Note.—The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current and promote flight safety. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) will not have a significant economic impact on a

substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Seattle, Washington, June 4, 1981.

Charles R. Foster,

Director, Northwest Region.

14 CFR Part 75

[Airspace Docket No. 81-AEA-19]

Establishment of Jet Routes and Area High Routes; Alteration of Jet Routes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: This action realigns J-30 between the Appleton, Ohio, and Shawnee, VORTAC and J-162 between Bellaire, Ohio, and Shawnee VORTAC. Due to flight check restrictions placed on the Shawnee VORTAC, the 289°M radial (which presently comprises J-30 and J-162) has been unusable since the commissioning of Shawnee. This action redefines both jet routes along usable radials, allows for charting, and thereby eliminates the need for controllers to issue substitute routing to each flight using these routes.

DATES: Effective date: August 6, 1981. Comments must be received on or before July 15, 1981.

ADDRESS: Send comments on the rule in triplicate to: Director, FAA Eastern Region, Attention: Chief, Air Traffic Division, Docket No. 81-AEA-19, Federal Building, John F. Kennedy International Airport, Jamacia, N.Y. 11430.

The official docket and comments may be examined in the Rules Docket, weekdays, except Federal holidays, between 8:30 a.m. and 5:00 p.m. The FAA Rules Docket is located in the Office of the Chief Counsel, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket may also be examined during normal business hours at the office of the Regional Air Traffic Division.

FOR FURTHER INFORMATION CONTACT:

Charles R. Horne, Airspace Regulations and Obstructions Branch (ATT-230), Airspace and Air Traffic Rules Division, Air Traffic Service, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591; telephone: (202) 426-8783.

SUPPLEMENTARY INFORMATION:

Request for Comments on the Rule

Although this action is in the form of a final rule, which involves redefining and simplifying the use of one segment of two primary routes for air traffic inbound to the Washington, D.C., area, and, thus, was not preceded by notice and public procedure, comments are invited on the rule. When the comment period ends, the FAA will use the comments submitted, together with other available information, to review the regulation. After the review, if the FAA finds that changes are appropriate, it will initiate rulemaking proceedings to amend the regulation. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in evaluating the effects of the rule and determining whether additional rulemaking is needed. Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest the need to modify the rule.

The Rule

The purpose of this amendment to § 75.100 of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) is to modify the descriptions of J-30 and J-162 between Appleton and Bellaire, Ohio, and Shawnee, Va. Section 75.100 of Part 75 of the Federal Aviation Regulations was republished in the **Federal Register** on January 2, 1981 (46 FR 834).

Under the circumstances presented, the FAA concludes that there is an immediate need for a regulation to correct the description of J-30 and J-162 so that a usable segment can be charted thereby eliminating the need for issuing a substitute route to each aircraft using three airways. Therefore, I find that notice or public procedure under 5 U.S.C. § 553(b) is impractical and contrary to the public interest.

Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me, § 75.100 of Part 75 of the Federal Aviation Regulations (14 CFR Part 75) as republished (46 FR 834) and amended (45 FR 71774 and 85441) is further amended, effective 0901 GMT, August 6, 1981, by deleting under:

1. Jet Route No. 30 the words "INT of Appleton 111° and Bellaire, Ohio, 142° radials";

2. Jet Route No. 162 the words "Bellaire 142° and Shawnee, Va., 281°" and substituting for them the words "Bellaire 122° and Shawnee, Va., 288°"

(Secs. 307(a) and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.69)

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "major rule" under Executive Order 12291; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal; and (4) at promulgation, will not have a significant effect on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Issued in Washington, D.C., on June 9, 1981.

Harold W. Becker,

Acting Chief, Airspace and Air Traffic Rules Division.

BILLING CODE 4910-13-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 271

[Docket No. RM79-76 (Colorado—12); Order No. 156]

High-Cost Gas Produced From Tight Formations; Colorado; Recommendation of Areas for Designation as Tight Formations

Issued: June 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Colorado Oil and Gas Conservation Commission that the Corcoran and Cozzette Formations be

designated as tight formations under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Victor Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Corcoran and Cozzette Formations in New Mexico as designated tight formations eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued February 4, 1981 (46 FR 11842, February 11, 1981) [1] based on a recommendation by the Colorado Oil and Gas Conservation Commission (Colorado) in accordance with § 271.703(c), that the Corcoran and Cozzette Formations be designated as tight formations.

Evidence submitted by Colorado and the commenters supports Colorado's assertion that the Corcoran and Cozzette Formations meet the guidelines contained in § 271.703(c)(2). The Commission adopts the Colorado recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices immediately available establishes good cause to waive the thirty-day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective June 10, 1981.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703 is amended by adding new paragraph (d)(33) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(33) *Cozzette Formation in Colorado.* RM79–76 (Colorado–12)

(i) *Delineation of formation.* The Cozzette Formation is located in the Piceance Creek Basin in Garfield County, Colorado, approximately 12 miles southwest of the town of Glenwood Springs, Colorado. The formation consists of the following: Township 7 South, Range 90 West, 6th P.M., Sections 1 through 36; Township 7 South, Range 91 West, 6th P.M., Sections 1 through 36; and Township 8 South, Range 90 West, 6th P.M., Sections 1 through 12.

(ii) *Depth.* The Cozzette Formation is a member of the lower Mesaverde Group. The average depth to the top of the Cozzette Formation is 7,477 feet. Its base is defined as the top of the Corcoran Formation.

(i) *Delineation of formation.* The Corcoran Formation is located in the Piceance Creek Basin in Garfield County, Colorado, approximately 12 miles southwest of the town of Glenwood Springs, Colorado. The formation consists of the following: Township 7 South, Range 90 West, 6th P.M., Sections 1 through 36; Township 7 South, Range 91 West, 6th P.M., Sections 1 through 36; and Township 8 South, Range 90 West, 6th P.M., Sections 1 through 12.

(ii) *Depth.* The Corcoran Formation is a member of the lower Mesaverde Group. The average depth to the top of the Corcoran Formation is 7,677 feet. Its base is defined as the top of the Mancos Shale Formation.

[Docket No. RM79-76 (New Mexico—3); Order No. 157]

High-Cost Gas Produced From Tight Formations; New Mexico; Recommendation of Areas for Designation as Tight Formations

Issued: June 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the New Mexico Oil Conservation Commission that the Abo Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Victor Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Abo Formation in New Mexico as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued March 27, 1981 (46 FR 20219, April 3, 1981) [1] based on a recommendation by the New Mexico Oil Conservation Division (New Mexico) in accordance with § 271.703(c), that the Abo Formation be designated as a tight formation.

Evidence submitted by New Mexico and the commenter supports New Mexico's assertion that the Abo Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the New Mexico recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices immediately available establishes good cause to waive the thirty-day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301—3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective June 10, 1981.

[Docket No. RM79–76 (New Mexico–4); Order No. 155]

High-Cost Gas Produced From Tight Formations; New Mexico; Recommendation of Areas for Designation as Tight Formations

Issued: June 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the New Mexico Oil Conservation Commission that the Fruitland Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Victor Zabel, (202) 357–8616.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Fruitland Formation in New Mexico as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, NOPR, issued March 27, 1981 (46 FR 20218, April 3, 1981) [1] based on a recommendation by the New Mexico Oil Conservation Division (New Mexico) in accordance with § 271.703(c), that the Fruitland Formation be designated as a tight formation.

Evidence submitted by New Mexico and the commenters supports its assertion that the Fruitland Formation meet the guidelines contained in § 271.703(c)(2). The Commission adopts the New Mexico recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available as soon as possible. The need to make incentive prices available immediately establishes good cause to waive the thirty-day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective June 10, 1981.

[1] Comments were invited and were received. No party requested a public hearing and no hearing was held.

By the Commission

Kenneth F. Plumb,

Secretary.

Section 271.703 is amended by adding new subparagraph (d)(32) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's offical file for Docket No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(32) *Fruitland Formation in New Mexico.* RM79–76 (New Mexico—4)

(i) *Delineation of formation.* The Fruitland Formation consists of the Northeast Blanco Unit, found in San Juan and Rio Arriba Counties, New Mexico, approximately 18 miles east of the city of Aztec, New Mexico, on the northeast flank of the San Juan Basin. It encompasses the following: Township 30 North, Range 7 West, Sections 2 through 10, 17 through 21, Section 16–W/2, Section 29–N/2; Township 30 North, Range 8 West, Sections 1, 12, 13 and 24; Township 31 North, Range 6 West, Section 6–Lots 8, 9, 10, 11 and S/2, Sections 7, 18, 19, 20, 30; Township 31 North, Range 7 West, Section 1–Lots 5 through 8 and S/2, Section 9–S/2, and 10–S/2, Sections 11 through 16 and 19 through 36; Township 31 North, Range 8 West, Sections 25 and 36.

(ii) *Depth.* The Fruitland Formation is below the Kirtland Shale and Farmington Sandstone and above the Pictured Cliffs Formation. The average depth to the top of the Fruitland Formation underlying the Northeast Blanco Unit is 2800 feet.

[Docket No. RM79–76 (Texas–8); Order No. 153]

High-Cost Gas Produced From Tight Formations; Texas; Recommendation of Areas for Designation as Tight Formation

Issued June 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Geopressured Wilcox Lobo Sandstone Formation be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Walter Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Geopressured Wilcox Lobo Sandstone Formation in Texas as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued April 1, 1981 (46 FR 20684, April 7, 1981) [1] based on a recommendation by the Railroad Commission of Texas (Texas) in accordance with § 271.703(c), that the Geopressured Wilcox Lobo Sandstone Formation be designated as a tight formation.

Evidence submitted by Texas supports its assertion that the Geopressured Wilcox Lobo Sandstone Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices available immediately establishes good cause to waive the thirty day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

[1] Comments were invited and none were received. No party requested a public hearing and no hearing was held.

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective June 10, 1981.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703 is amended by adding new paragraph (d)(35) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79–76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(35) *Geopressured Wilcox Lobo Sandstone Formation in Texas.* RM79–76 (Texas–8).

(i) *Delineation of formation.* The Geopressured Wilcox Lobo Sandstone Formation is located in the southern part of Texas in Webb and Zapata Counties, Railroad District 4, and is located below the Lower Wilcox Group and above the Wills Point Formation which is part of the Midway Group.

(ii) *Depth.* The highest portion of the Geopressured Wilcox Lobo Sandstone Formation appears at 5,840 feet. The approximate thickness varies from 1,175 feet in the north to 3,130 feet in the south.

18 CFR Part 271

[Docket No. RM79–76 (Texas—9); Order No. 154]

High-Cost Gas Produced From Tight Formations; Texas; Recommendation of Areas for Designation as Tight Formation

Issued: June 10, 1981.

AGENCY: Federal Energy Regulatory Commission.

ACTION: Final rule.

SUMMARY: The Federal Energy Regulatory Commission is authorized by section 107(c)(5) of the Natural Gas Policy Act of 1978 to designate certain types of natural gas as high-cost gas where the Commission determines that the gas is produced under conditions which present extraordinary risks or costs. Under section 107(c)(5), the Commission issued a final regulation designating natural gas produced from tight formations as high-cost gas which may receive an incentive price (18 CFR 271.703). This rule established procedures for jurisdictional agencies to submit to the Commission recommendations of areas for designation as tight formations. This final order adopts the recommendation of the Railroad Commission of Texas that the Travis Peak Formation in the Sym-Jac, West Field be designated as a tight formation under § 271.703(d).

EFFECTIVE DATE: This rule is effective June 10, 1981.

FOR FURTHER INFORMATION CONTACT: Leslie Lawner, (202) 357–8307, or Walter Lawson, (202) 357–8556.

SUPPLEMENTARY INFORMATION: The Commission hereby amends § 271.703(d) of its regulations to include the Travis Peak Formation in the Sym-Jac, West (Hosston) Field in Texas as a designated tight formation eligible for incentive pricing under § 271.703. The amendment was proposed in a Notice of Proposed Rulemaking by Director, OPPR, issued April 1, 1981 (46 FR 20685, April 7, 1981) [1] based on a recommendation by the Railroad Commission of Texas (Texas) in accordance with § 271.703(c), that the Travis Peak Formation in the Sym-Jac, West Field be designated as a tight formation.

Evidence submitted by Texas supports its assertion that the Travis Peak Formation meets the guidelines contained in § 271.703(c)(2). The Commission adopts the Texas recommendation.

This amendment shall become effective immediately. The Commission has found that the public interest dictates that new natural gas supplies be developed on an expedited basis, and therefore, incentive prices be made available immediately. The need to make incentive prices available immediately establishes good cause to waive the thirty day publication period.

(Department of Energy Organization Act, 42 U.S.C. 7101 *et seq.*; Natural Gas Policy Act of 1978, 15 U.S.C. 3301–3432; Administrative Procedure Act, 5 U.S.C. 553)

For the reasons stated herein, Part 271 of Subchapter I, Title 18, *Code of Federal Regulations*, is amended as set forth below, effective June 10, 1981.

[1] Comments were invited and none were received. No party requested a public hearing and no hearing was held.

By the Commission.

Kenneth F. Plumb,

Secretary.

Section 271.703 is amended by adding new paragraph(d)(36) to read as follows:

§ 271.703 Tight formations.

* * * * *

(d) *Designated tight formations.* The following formations are designated as tight formations. A more detailed description of the geographical extent and geological parameters of the designated tight formations is located in the Commission's official file for Docket No. RM79-76, subindexed as indicated, and is also located in the official files of the jurisdictional agency that submitted the recommendation.

* * * * *

(36) *Travis Peak Formation in the Sym-Jac, West (Hosston) Field in Texas.* RM79-76 (Texas—9)

(i) *Delineation of formation.* The Travis Peak Formation in the Sym-Jac, West (Hosston) Field is found in Cherokee County, Texas, Railroad Commission District 6.

(ii) *Depth.* The top and base of the Travis Peak Formation are found at approximately 9,850 feet and 12,050 feet, respectively, giving a thickness of approximately 2,200 feet.

Office of the Assistant Secretary for Housing—Federal Housing Commissioner

24 CFR Part 235

[Docket No. R-81-900]

Mortgage Insurance and Assistance Payments for Home Ownership and Project Rehabilitation; Change in Maximum Mortgage Amounts; Correction

AGENCY: Office of the Assistant Secretary for Housing—Federal Housing Commissioner, HUD.

ACTION: Correction of interim rule.

SUMMARY: On June 1, 1981 (46 FR 29259), HUD published an interim rule that increased the mortgage amounts under HUD's Section 235 mortgage insurance program. The purpose of this correction is to add a date that was erroneously omitted from § 235.25.

FOR FURTHER INFORMATION CONTACT: John J. Coonts, Director, Single Family Development Division, (202) 755-6720.

Accordingly, § 235.25(b) is corrected to read as follows:

§ 235.25 Maximum mortgage amount

* * * * *

(b) With respect to mortgages insured pursuant to conditional commitments issued or preliminary reservations approved on or after July 13, 1981, the mortgage shall not exceed the following:

* * * * *

(Sec. 211 of the National Housing Act (12 U.S.C. 1709, 1715))

Issued at Washington D.C., June 9, 1981.

BILLING CODE 4210-01-M

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Part 2610

Valuation of Plan Benefits in Non-Multiemployer Plans; Amendment Adopting Additional PBGC Rates

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Final rule.

SUMMARY: This amendment to the regulation on Valuation of Plan Benefits in Non-Multiemployer Plans contains the interest rates and factors for the period beginning July 1, 1981. The interest rates and factors are to be used to value benefits provided under terminating non-multiemployer pension plans covered by Title IV of the Employee Retirement Income Security Act of 1974.

The valuation of plan benefits is necessary because under section 4041 of the Act, the Pension Benefit Guaranty Corporation ("PBGC") and the plan administrator must determine whether a terminating pension plan has sufficient assets to pay all guaranteed benefits provided under the plan. If the assets are insufficient, the PBGC will pay the guaranteed benefits under the plan termination insurance program established under Title IV.

The interest rates and factors set forth in Appendix B to Part 2610 are adjusted periodically to reflect changes in financial and annuity markets. This amendment adopts the rates and factors applicable to plans that terminate on or after July 1, 1981, and enables the PBGC and plan administrators to value the benefits provided under those plans. These rates and factors will remain in effect until PBGC publishes a notice revising them.

EFFECTIVE DATE: July 1, 1981.

FOR FURTHER INFORMATION CONTACT: Ms. Nina R. Hawes, Staff Attorney, Office of the General Counsel, Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006, 202-254-3010.

SUPPLEMENTARY INFORMATION: On January 28, 1981, the Pension Benefit Guaranty Corporation (the "PBGC") issued a final regulation (46 FR 9492 *et seq.*) establishing the methods for valuing plan benefits of terminating non-multiemployer plans covered under Title IV of the Employee Retirement Income Security Act of 1974, 29 U.S.C. §§ 1001 *et seq.* (1976), *as amended by* the Multiemployer Pension Plan Amendments Act of 1980, Pub. L. No. 96-364, 94 Stat. 1208 (the "Act").

That regulation contains a number of formulas for valuing different types of benefits. In addition, Appendix B to the regulation sets forth the various interest rates and factors that are to be used in the formulas. Because these rates and factors are intended to reflect current conditions in the financial and annuity markets, it is necessary to update the rates and factors periodically.

When first published, Appendix B contained interest rates and factors to be used to value benefits in plans that terminated on or after September 2, 1974, but before October 1, 1975. Subsequently, the PBGC adopted additional rates and factors for valuing benefits in plans that terminated on or after October 1, 1975, but before June 1, 1981. (29 CFR 2610 (1980), 45 FR 64907, 45 FR 75658, 45 FR 75209, 45 FR 82172, 46 FR 3510, 46 FR 16685, 46 FR 18312).

On May 15, 1981, the PBGC last published rates for plans that terminate on or after June 1, 1981 (46 FR 26765). At this time, changes in the financial and annuity markets have necessitated an increase in the rates used by the PBGC to value benefits. Accordingly, this notice changes the rates in Appendix B to add a set of interest rates and factors for plans that terminate on or after July 1, 1981. These rates and factors will remain in effect until such time as PBGC publishes another notice which changes the rates.

As a rule, the rates will be in effect for at least one month. If the rates are to be changed, PBGC will publish a notice in the **Federal Register**, normally by the 15th of the month prior to the month for which the new rates will be effective. If no change is to be made, no notice will be published, and the current rates will remain in effect until further notice.

Because the Multiemployer Pension Plan Amendments Act of 1980 established a new insurance program for multiemployer plans, we note that the

rates and factors contained in Appendix B to Part 2610 are applicable to non-multiemployer plans only.

The PBGC has determined that notice and public comment on this amendment are impracticable and contrary to the public interest. This determination is based on the need to determine and issue new interest rates and factors promptly, so that the rates can reflect, as accurately as possible, current market conditions. The PBGC has found that the public interest is best served by issuing the rates and factors on a prospective basis so that plans may be able to calculate the value of plan benefits before submitting a notice of intent to terminate. Also, plans will be able to predict employer liability more accurately prior to plan termination. Moreover, because of the need to provide immediate guidance for the valuation of benefits under plans that will terminate on or after July 1, 1981, and because no adjustment by ongoing plans is required by this amendment, the PBGC finds that good cause exists for making the rates set forth in this amendment to the final regulation effective less than 30 days after publication.

The PBGC has determined that this is not a "major rule" under the criteria set forth in Executive Order 12291, February 17, 1981, (46 FR 13193) because it will not result in an annual effect on the economy of $100 million or more, a major increase in costs for consumers or individual industries, or significant adverse effects on competition, employment, investment, productivity, innovation or competition.

In consideration of the foregoing, Part 2610 of Chapter XXVI, Title 29, Code of Federal Regulations, is hereby amended by revising Rate Set 25 and adding Rate Set 26 of Appendix B to read as follows:

Appendix B—Interest Rates and Quantities Used to Value Immediate and Deferred Annuities

In the table that follows, the immediate annuity rate is used to value immediate annuities, to compute the quantity "G_y" for deferred annuities and to value both portions of a refund annuity. An interest rate of 5% shall be used to value death benefits other than the decreasing term insurance portion of a refund annuity. For deferred annuities, k_1, k_2, k_3, n_1, and n_2 are defined in § 2610.45.

Rate set	For plans with a valuation date		Immediate annuity rate	Deferred annuities				
	On or after	Before		k_1	k_2	k_3	n_1	n_2
25	June 1, 1981	July 1, 1981	10.25	1.0950	1.0825	1.0400	7	8
26	July 1, 1981		10.50	1.0975	1.0850	1.0400	7	8

(Secs. 4002(b)(3), 4041(b), 4044, 4062(b)(1)(A), Pub. L. 93-406, 88 Stat. 1004, 1020, 1025-27, 1029, (1974) (29 U.S.C. 1302, 1341, 1344, 1362), as amended by Secs. 403(1), 403(d) and 402(a)(7), Pub. L. 96-364, 94 Stat. 1302, 1301, 1299, (1980))

Issued at Washington, D.C., on this 2nd day of June, 1981.

Robert E. Nagle,

Executive Director, Pension Benefit Guaranty Corporation.

BILLING CODE 7708-01-M

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Parts 700, 716, and 785

Surface Coal Mining and Reclamation Operations Initial and Permanent Regulatory Program; Deferral of Effective Dates

AGENCY: Office of Surface Mining Reclamation and Enforcement (OSM), Interior.

ACTION: Deferral of effective dates.

SUMMARY: The effective dates of final regulations, which were previously deferred at 46 FR 18023 (March 23, 1981), 46 FR 20211 (April 3, 1981) and 46 FR 23924 (April 29, 1981), are further postponed until August 14, 1981 and August 15, 1981 (see below) to allow OSM additional time to analyze the voluminous comments received from the public on whether the rules should be modified, issued or suspended indefinitely pending the outcome of further rulemaking. The regulations deal with the two-acre exemption, the prime farmland grandfather exemption and prime farmland definitions of OSM's initial and permanent regulatory programs.

DATES: The new effective date for 30 CFR 716.7 (a) and (b) as published on January 22, 1981, is August 14, 1981. The new effective date of 30 CFR 716.7(a)(2) and 785.17(a) as published on January 23, 1981, and 30 CFR 700.11(b) as published on January 23, 1981, is August 15, 1981.

FOR FURTHER INFORMATION CONTACT: Edward Johnson or LeRoy deMoulin, (202) 343-5261 (prime farmland) or Stan Zeccolo, (202) 343-5365 (two-acre exemption), Office of Surface Mining, Department of the Interior, Washington, D.C. 20240.

SUPPLEMENTARY INFORMATION: These regulations have been the subject of several **Federal Register** notices on suspension and effective dates as follows: Notice of Suspension of Certain Regulations, 44 FR 67942 (November 27, 1979); Notice of Suspension, 44 FR 77454 (December 31, 1979); Extension of Effective Dates for Final Rules, 46 FR 10707 (February 4, 1981); Notice of Suspension of Certain Rules, 46 FR 18023 (March 23, 1981); Cancellation of Prior Notice and Deferral of Effective Dates for Final Rules, 46 FR 20211 (April 3, 1981); Continued Suspension of Final Rules, 46 FR 23924 (April 29, 1981). Voluminous comments have been received from the public during the comment period which ended on May 9, 1981. A deferral of effective dates for an additional 60 days will enable OSM to analyze thoroughly the public comments and decide whether to modify, issue or suspend these rules indefinitely pending the outcome of further rulemaking.

Dated: June 10, 1981.

Andrew V. Bailey,

Acting Director, Office of Surface Mining Reclamation and Enforcement.

BILLING CODE 4310-05-M

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[A-3-FRL 1845-8]

Memorandum of Understanding for the Prevention of Significant Deterioration of Air Quality; EPA Region III and Philadelphia

AGENCY: Environmental Protection Agency.

ACTION: Information notice.

SUMMARY: EPA Region III and the City of Philadelphia have developed a Memorandum of Understanding (MOU) which provides for interagency cooperation in implementing the PSD program. Through the MOU, the City of Philadelphia will receive and process PSD permits; however, EPA Region III will retain full authority and

responsibility to issue to deny PSD permits.

DATE: Effective immediately June 15, 1981.

ADDRESSES: Copies of the MOU and related documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, Attn: Robert J. Blaszczak (3AH13), (215) 597–8186 or FTS 597–8186

Air Management Services, Philadelphia Department of Public Health, Sixth Floor, 801 Arch Street, Philadelphia, Pennsylvania 19107, Attn: Norman Glazer, (215) 686–7440.

FOR FURTHER INFORMATION CONTACT: Robert J. Blaszczak at (215) 587–8186 or FTS 597–8186.

SUPPLEMENTARY INFORMATION: The Regional Administrator, EPA Region III and the Health Commissioner, City of Philadelphia have signed a Memorandum of Understanding (MOU), which provides for interagency cooperation in the implementation of the PSD program. As of the effective date, all PSD permit applications for sources locating in Philadelphia will be submitted directly to the City of Philadelphia for processing. EPA Region III is responsible for determining the adequacy of these processing activities which include applicability/completeness evaluations and BACT, air quality and other impact analyses. EPA Region III retains full authority and responsibility to issue and/or deny PSD permits.

The MOU will become effective as of the publication date of this notice. The Regional Administrator finds good cause for making the MOU effective immediately in that it is an administrative change and not one of substantive content.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This MOU is not "major". This action only approves State actions, and imposes to new requirements of its own.

This MOU was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Effective immediately, all applications and other information pursuant to § 52.21 from sources locating in the City of Philadelphia, Pennsylvania, but not having a PSD permit application currently under review by EPA, should be submitted to the City of Philadelphia agency at the following address: Air Management Services, Philadelphia Department of Public Health, 6th Floor, 801 Arch Street, Philadelphia, Pennsylvania 19107.

40 CFR Parts 30 and 40

[ORD-FRL 1845-5]

General Grant Regulations and Procedures; Class Deviation for Research and Demonstration Projects

AGENCY: Environmental Protection Agency.

ACTION: Deviation to rule.

SUMMARY: Under authority of 40 CFR 30.1000, EPA issued the class deviation

described below from a part of the provisions of 40 CFR 30.635–2(a) and 40 CFR 40.125–1 for research and demonstration projects.

The deviation modifies the final report requirement by allowing the recipient to submit to EPA a peer-refereed journal article in lieu of a final report in the EPA format. The Agency still requires an acceptable report, but the Project Officer will determine the specific format of the report on a case-by-case basis.

EFFECTIVE DATE: May 18, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Harvey Pippen, Jr., Director Grants Administration Division (PM–216), Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460 (755–0850).

SUPPLEMENTARY INFORMATION: These are projects funded under 40 CFR Part 40. The official program numbers and titles in the *Catalog of Federal Domestic Assistance* are:

66.500 Environmental Protection—Consolidated Research Grants
66.501 Air Pollution Control Research Grants
66.502 Pesticides Control Research Grants
66.504 Solid Waste Disposal Research Grants
66.505 Water Pollution Control—Research, Development and Demonstration Grants
66.506 Safe Drinking Water Research and Demonstration Grants
66.507 Toxic Substances Research Grants
66.452 Solid Waste Management Demonstration Grants

The requirements of OMB Circular No. A–95, Part I, apply to Catalog Numbers 66.452, 66.505 and 66.506. (See 40 CFR 30.305.)

Under our policy to publish class deviations in the **Federal Register**, EPA is publishing the deviation as part of this notice.

Dated: May 5, 1981.

Roy L. Gamsey,

Acting Assistant Administrator for Planning and Management (PM–208).

Dated: May 18, 1981.

Richard M. Dowd,

Acting Assistant Administrator for Research and Development (RD–672).

Environmental Protection Agency

Date: May 18, 1981.

Subject: Class Deviation from 40 CFR 30.635–2(a) and 40 CFR 40.125–1, Final Report Requirements for Research and Demonstration Projects

From: Harvey Pippen, Jr., Director, Grants Administration Division (PM–216)

To: Frederick L. Meadows, Chief, Grants Operations Branch (PM–216)

Action

I am approving a class deviation from 40 CFR 30.635–2(a) to modify the final report requirement for research and demonstration projects by allowing the recipient to submit to EPA a peer-refereed journal article in lieu of a final report in the EPA format.

You must still require an acceptable report, but the EPA Project Officer will determine the specific format of the report on a case-by-case basis.

This deviation also still allows recipients to comply with the requirement of submitting a report before the end of the project period. Oftentimes, journals may take a long time to publish these articles. Because of this, you must require the Project Officer to notify you when the article has been accepted for publication by a journal and the approximate date the article will be published.

If the report is not accepted for publication by a journal, then the recipient must submit a final report to EPA in the standard EPA format within 90 days of the previously established termination date of the project period. For this purpose, I am also approving a deviation from 40 CFR 40.125–1 to allow you, as the award official, to extend the budget period and project period for no more than 90 additional days without a specific case-by-case deviation.

Background

40 CFR 30.635–2(a) of the EPA general grant regulations requires that the assistance recipient prepare and submit an acceptable final report before the end of the project period for all EPA research, demonstration, and training grants and cooperative agreements.

In keeping with the Office of Research and Development's (ORD) policy regarding the effective communication of technical information, ORD encourages the use of the peer review journal publication process regarding EPA's research reports. Journal articles provide an excellent way for EPA's technical information to reach the scientific community. They also enhance EPA's credibility with peer groups and provide references for developing criteria documents and for defending proposed and existing standards.

Many of EPA's research and demonstration assistance recipients prefer to have their final report published in a peer-refereed journal, instead of in the EPA format. However, the grant regulations require that the recipient submit a final report to EPA. This deviation will prevent individual deviation requests on this issue.

This deviation also will allow a more flexible policy regarding final research reports, which is in keeping with the current administration's concern for reducing the paperwork burden on the public. This action will still allow EPA to have access to more detailed data regarding individual projects, and it will allow EPA's research to receive increased exposure to the scientific and technical communities.

Date: May 5, 1981.

40 CFR Part 52

Kentucky: Bubble Action for the Kentucky Utilities Company—Green River Station; Approval and Promulgation of Implementation Plans

AGENCY: Environmental Protection Agency.

ACTION: Final rulemaking.

SUMMARY: Kentucky has submitted a State Implementation Plan (SIP) revision concerning the sulfur dioxide (SO_2) emission rates from three emission points at the Kentucky Utilities Company—Green River Station (K.U.C.–G.R.S.) in Muhlenberg County. This action is being treated within the EPA bubble policy concept. A more stringent emission rate is being placed on the smaller sources that have a shorter stack and less stringent emission rates are required on the larger sources which have taller stacks. This will have no significant change on the air quality and will maintain the plantwide allowable emission rate as determined in the SIP.

DATE: This action is effective July 15, 1981.

ADDRESSES: The Kentucky submittal may be examined during normal business hours at the following EPA offices:

Public Information Reference Unit, Library System Branch, Environmental Protection Agency, 401 M Street, S.W., Washington, D.C. 20460
Office of the Federal Register, Room 8401, 1100 L Street, N.W., Washington, D.C. 20005
Library, EPA Region IV, 345 Courtland Street N.E., Atlanta, Georgia 30365
Kentucky Department for Natural Resources and Environmental Protection, Division of Air Pollution Control, West Frankford Office Complex, 1050 U.S. 127 ByPass South, Frankfort, Kentucky 40601

FOR FURTHER INFORMATION CONTACT: Mr. Melvin Russell, Air Programs Branch, EPA Region IV at the above listed address and telephone number 404/881–3286 or 257–3286.

SUPPLEMENTARY INFORMATION:

Background

On September 23, 1980, EPA received from the Commonwealth of Kentucky an

SIP revision that pertains to the Kentucky Utilities Company—Green River Station in Muhlenberg County. This revision was considered as a bubble application for SO_2 controls on three emission points and the submittal contained the required air quality dispersion modeling to evaluate the proposed change.

The 1979 SIP revision for this plant included a modeling analysis to determine the allowable SO_2 emission rate. That analysis indicated that a 3.5 lb. SO_2 per million British Thermal Unit (MBTU) limit for the Green River Plant would be sufficient to attain and maintain the National Ambient Air Quality Standards (NAAQS).

The Kentucky Utilities plant is changing their coal supply in this bubble action. Presently the plant uses a 3.8% (sample average) sulfur coal in Units 1 and 2, which is equipped with a lime scrubber and a 1.8% (sample average) sulfur coal in the uncontrolled Units 3 and 4. Western Kentucky coal of 2.5% sulfur content is readily available to the plant and has an estimated cost savings of $1.1 million per year.

The plant has proposed to place more stringent emission rates on Unit 1 and 2 (0.9 lb. SO_2/MBTU) and less stringent emission rates on Units 3 and 4 (4.57 lb. SO_2/MBTU). The following calculations indicate that the plant-wide average emission rate of 3.5 lb. SO_2/MBTU will result when the plant is operating at maximum capacity.

Unit	Maximum MMBtu per hour input		Pounds SO_2/MMBtu	Lb SO_2/hr
1 and 2	927.5	X	0.9	834.75
3	976.0	X	4.57	4460.32
4	1,260.0	X	4.57	5758.20
Total	3,163.5			11,053.27

Plant average emission rate lb. SO_2/MBTU is therefore:

$$\frac{11{,}053.27 \text{ lb. } SO_2/HR}{3163.5 \text{ MBTU/HR}} = 3.494 \text{ lb. } SO_2/MBTU$$

The smaller sources with a shorter stack will have a reduced emission rate and the larger sources with taller stacks will have relaxed emission rates. This action was evaluated using the CRSTER and PTMPT models which indicated no exceedences of the ambient standards. The plant, located in an area that does not meet the NAAQS for SO_2, will have actual emissions that remain in compliance with the plant-wide allowable emissions in the SIP and are equal to them. In addition, these models did not indicate any utilization of PSD increments. This proposed action meets the criteria of EPA's bubble policy as published on December 11, 1979 (44 FR 71780).

One comment was received which inquired about the long-range effects of SO_2 by the implementation of this bubble action. At this time EPA has not developed any models capable of the measurement of long range effects beyond 50 kilometers. Models are being developed to predict concentrations beyond this current range.

Action

EPA is today approving the SIP revision. This action is effective July 15, 1981.

Pursuant to the provisions of 5 U.S.C. 605(b) I hereby certify that the attached rule will not have a significant economic impact on a substantial number of small entities. This action only approves state actions with regard to a single source. It imposes no new requirements.

Under Executive Order 12291, EPA must judge whether a regulation is major and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it merely ratifies State actions and imposes no new burden on sources. In fact, it eases the burden of control on one source. This is designed to be less expensive, reducing the cost of existing regulations and easing the source's ability to comply with the SIP.

This regulation was submitted to the Office of Management and Budget (OMB) for review as required by Executive Order 12291.

Incorporation by reference of the State Implementation Plan for the State of Kentucky was approved by the Director of the Office of the Federal Register on July 1, 1980.

(Sec. 110 Clean Air Act (42 U.S.C. 7410))

Dated May 29, 1981.

Anne M. Gorsuch,

Administrator.

Part 52 of Chapter I, Title 40, Code of Federal Regulations, is amended by adding § 52.920(c)(15) to read as follows:

Subpart S—Kentucky

§ 52.920 Identification of Plan.

* * * * *

(c) The plan revisions listed below were submitted on the dates specified.

* * *

(15) Revision to the State Implementation Plan for a bubble action at the Kentucky Utilities—Green River Station was submitted on December 1, 1980.

[FR Doc. 81-17892 Filed 6-12-81; 8:45 am]

BILLING CODE 6560-38-M

---

40 CFR Part 52

[A-3-FRL 1845-7]

Approval of Revisions of the State of Delaware State Implementation Plan

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: This amendment directs applicants for Prevention of Significant Deterioration (PSD) permits who are planning to locate in the State of Delaware to submit their applications directly to the State instead of to The Environmental Protection Agency. This change is required since EPA has delegated PSD authority to the State. The notice announcing the delegation of authority is published elsewhere in this issue of the **Federal Register.**

DATE: Effective June 15, 1981.

ADDRESSES: Copies of all support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III, Curtis Building, Tenth Floor, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106, Attn: Robert J. Blaszczak (3AH13), (215) 587-8186, FTS 597-8186

Air Resources Section, Division of Environmental Control, Delaware Department of Natural Resources and Environmental Control, Edward Tatnall Building, P.O. Box 1401, Dover, Delaware 19901, Attn: Robert French, (302) 736-4791

Public Information Reference Unit, Room 2922—EPA Library, U.S. Environmental Protection Agency, 401 M Street, S.W. (Waterside Mall), Washington, D.C. 20460

FOR FURTHER INFORMATION CONTACT: Robert J. Blaszczak at (215) 587-8186 or FTS 597-8186.

SUPPLEMENTARY INFORMATION: The Regional Administrator finds good cause for foregoing prior public notice and for making this rule effective immediately in that it is an administrative change and not one of substantive content. No additional substantive burdens are imposed on the parties affected. The delegation becomes effective upon publication of this rule; therefore, it serves no purpose to delay the technical change of this addition of the State

address to the Code of Federal Regulations.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This delegation of authority is not "major." This action only approves State actions, and imposes no new requirements of its own.

This regulation was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Under Section 307(b)(1) of the Clean Air Act, judicial review of this action is available *only* by the filing of a petition for review in the United States Court of Appeals for the appropriate circuit on or before August 14, 1981. Under section 307(b)(2) of the Clean Air Act, the requirements which are the subject of today's notice may *not* be challenged later in civil or criminal proceedings brought by EPA to enforce these requirements.

(42 U.S.C. 7401, 7410, and 7470–79)

Dated: June 8, 1981.

Jack J. Schramm,

Regional Administrator.

Part 52 of Title 40 of the Code of Federal Regulations is amended as follows:

Subpart VV—Delaware

1. Section 52.2451, new paragraph (c) is added to read as follows:

§ 52.2451 Significant deterioration of air quality.

* * * * *

(c) Pursuant to 40 CFR 52.21(u) full delegation of authority for all portions of the Federal PSD program, as described in 40 CFR 52.21, was relinquished to the State of Delaware as of June 15, 1981. All applications submitted as of that date and supporting information required pursuant to Section 52.21 from sources located in the State of Delaware shall be submitted to: Delaware Department of Natural Resources and Environmental Control, Air Resources Section, Division of Environmental Control, Edward Tatnall Building, P.O. Box 1401, Dover, Delaware 19901.

BILLING CODE 6560-38-M

VETERANS ADMINISTRATION

41 CFR Part 8-14

Definition of Meat Products Not Requiring USDA Inspection

AGENCY: Veterans Administration.

ACTION: Final regulation.

SUMMARY: The Veterans Administration Procurement Regulations are revised to include a definition of meat food products not requiring USDA inspection. VA Procurement Regulations exclude USDA inspection and reference to certain subsistence specifications for meat food products purchased in lots of less than 500 pounds. To avoid inappropriate application of the waiver to meat products requiring inspection, an explicit definition of meat food products is added.

EFFECTIVE DATE: This rule is effective June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Tim Ganous, Policy and Interagency Service, Office of Supply Services, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, telephone (202) 389–2334.

SUPPLEMENTARY INFORMATION: This proposed amendment has been reviewed pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–354) and it is determined that the regulation has no impact upon small business or state and local governments.

It is the general policy of the VA to allow time for interested persons to participate in the rulemaking process (38 CFR 1.12). Since this amendment only affects internal procedures, the public rulemaking process is considered unnecessary in this instance.

Approved: June 9, 1981.

Donald L. Custis,

Acting Administrator.

41 CFR 8–14.1 is revised as follows:

1. In § 8–14.105–52, the introductory portion of paragraph (a) is revised and a footnote is added at the end of the section so that the added and amended material reads as follows:

§ 8-14.105-52 Waiver of USDA inspection and specifications.

(a) Contracting officers may purchase butter; cheese (except cottage cheese); sausage; meat food products [1]; bacon, smoked; and bacon, Canadian style, without reference to the specifications in VAPR Program Guide G–1, and the U.S. Department of Agriculture (USDA) inspection requirements of VA Form 10–1365, when the amount of an item to be purchased will not exceed 500 pounds per delivery. When these items are procured together with items that are not exempt the solicitation shall include the following:

* * * * *

[1] Meat food products shall mean processed foods containing meat in substantial proportion and other listed ingredients including seasoning, e.g., frankfurters, cold cuts. Whole or prefabricated meats, e.g., pork chops, hamburger, are considered meats, not meat food products.

2. In § 8–14.151, paragraphs (a) and (c) are revised to read as follows:

§ 8-14.151 Determination authority.

The determinations required in § 8–14.150 will be made by:

(a) The Assistant Administrator for Construction, for those items and services for which purchase authority has been assigned to him/her.

* * * * *

(b) The Assistant Administrator for Supply Services, for all other supplies, equipment and services.

(38 U.S.C. 210(c); 40 U.S.C. 486(c))

[FR Doc. 81-17693 Filed 6-12-81; 8:45 am]

BILLING CODE 8320-01-M

41 CFR Part 8-74

Special Procurement Controls

AGENCY: Veterans Administration.

ACTION: Final regulation.

SUMMARY: The Veterans Administration is amending its regulations which prescribe special controls over procurement. These amendments place responsibility for securing rent-free conference facilities with a contracting officer before a determination is made to purchase such space. This change is designed to procure conference space at the least cost to the Government. These amendments also prescribe controls over the procurement of products containing asbestos. Such products must be approved by the Administrator before being procured. This rule is in response to new restrictions put on the use of products containing asbestos by the Environmental Protection Agency and the Occupational Safety and Health Administration.

EFFECTIVE DATE: This rule is effective June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Tim Ganous, Policy and Interagency Service, Office of Supply Services, Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420, telephone (202) 389–2334.

SUPPLEMENTARY INFORMATION: This regulation has been reviewed pursuant to the requirements of Executive Order 12291 and the Regulatory Flexibility Act (Pub. L. 96–354) and it is determined that the regulation is nonmajor and has no impact upon small business or state and local governments.

It is the general policy of the VA to allow time for interested parties to

participate in the rule making process (38 CFR 1.12). Since this amendment only affects internal review procedures, the public rule making process is deemed unnecessary in this instance.

Approved: May 21, 1981.

Rufus H. Wilson,

Acting Administrator.

The following new sections are added to 41 CFR 8–74 to read as follows:

§ 8–74.114 Paid use of conference facilities.

(a) The rental of space for VA-sponsored symposia and training sessions may be unwarranted when other alternatives are available at no expense or reduced expense to the Government. After the geographical location for a VA conference has been selected, based on minimum overall travel costs for all Government participants and other relevant factors, a request for conference space will be forwarded to the servicing Supply activity. The request for conference space should afford the contracting officer every opportunity to secure rent-free facilities.

(b) The following criteria for the selection of an appropriate facility will apply:

(1) A thorough effort will be made to schedule conferences and training sessions so that the conference facilities of VA installations in the city where the conference is held may be used.

(2) Where no VA space is available, the General Services Administration will be contacted to determine if there is other Government agency space which may be used.

(3) Efforts will be made to schedule conferences, where Government space is not available, through hotels and motels which offer free conference facilities in exhange for a stipulated number of lodging reservations for participants. Surcharges per lodging or increased room rates, to offset the cost of the conference room, shall be considered payment for such space.

(4) In the event none of these is available on the desired dates, consideration will be given to rescheduling the conference to avail the VA of the use of facilities without payment of a fee.

(5) If none of the above is practical, rental conference space will be obtained. Complete documentation of efforts to secure free conference space, as outlined above, will be maintained in the purchase order file. The costs of coffee, refreshments, meals, lodgings, tips and other supplies and services not directly related to the presentations within the conference space are not allowable.

(c) The conference coordinator of the requesting organization will continue to be responsible for individual room reservations, including any cancellations.

(d) There are additional controls upon conference space at Government expense being acquired within the District of Columbia. Approving the rental of conference rooms at hotels in the District of Columbia for the use of agency personnel without a specific appropriation of funds is prohibited by 40 U.S.C. 34 (see 46 CG 135).

§ 8–74.115 Asbestos.

§ 8–74.115–1 General.

This section applies to the purchase and use of asbestos products and equipment or materials containing asbestos products in the Veterans Administration.

§ 8–74.115–2 Background.

Exposure to asbestos is associated with chronic and debilitating lung disease and cancer. To reduce the health hazard related to the exposure to asbestos, the U.S. Environmental Protection Agency and the U.S. Department of Labor (Occupational Safety and Health Administration) have issued specific regulations on asbestos. Although these regulations do not call for a complete ban on the use of asbestos they do impose strict requirements on its use, airborne contamination and disposal.

§ 8–74.115–3 Approving authority.

Asbestos products and equipment or materials containing asbestos products shall not be specified nor purchased for use in the Veterans Administration if any suitable substitutes are available. If suitable substitutes are not available, specific authorization to purchase and use asbestos products, and equipment or materials specifying asbestos products, must be granted by the Administrator or designee. Requests for authorization will be submitted through the Director, Engineering Service (10A4A5). The following information will be provided:

(a) The name of the product, source of supply, and physical form of the asbestos as used in the product or equipment.

(b) A description of use, including purpose, urgency, methodology, qualities, and by whom.

(c) Safeguards being employed, with particular emphasis on the identification of the asbestos products, procedures to be taken to prevent airborne contamination, and disposal.

§ 8–74.115–4 Exempted products containing asbestos.

VA Central Office, Engineering Service (10A4A5), is responsible for maintaining a list of products containing asbestos which are exempted by the Administrator or designee from this policy.

(38 U.S.C. 210(c); 40 U.S.C. 486(c))

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FI–3166]

National Flood Insurance Program; Final Flood Elevation Determination

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Deletion of final rule for the City of River Falls, Pierce and St. Croix Counties, Wisconsin.

SUMMARY: The Federal Insurance Administration has erroneously published the final flood elevation determination for the City of River Falls, Pierce and St. Croix Counties, Wisconsin. This notice will serve to delete that publication. Following an engineering analysis and review, a new 90-day appeal period based on revision of proposed base flood elevation determination will be initiated.

EFFECTIVE DATE: June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administration has determined that the notice of final flood elevation determination for the City of River Falls, published at 45 FR 84797, on December 23, 1980, should be deleted. After a technical evaluation, a revised preliminary will be issued with a subsequent 90-day appeal period. Once the appeal period has elapsed, the Administrator will resolve any appeals received, and a new notice of final base flood elevations will be issued.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 1, 1981.

Richard W. Krimm,

Acting Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[BC Docket No. 80-609; RM-3636]

Radio Broadcast Services; FM Broadcast Station in Hilton Head Island, S.C.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 288A to Hilton Head Island, South Carolina, in response to petitions filed by Santee-Cooper Broadcasting Company and by Leonard Stevens. The proposed station would provide a second local FM broadcast service to Hilton Head Island.

DATE: Effective August 7, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Hilton Head Island, South Carolina), Report and order (Proceeding Terminated).

Adopted: June 2, 1981.

Released: June 9, 1981.

By the Chief, Policy and Rules Division:

1. Before the Commission is a *Notice of Proposed Rule Making*, 45 FR 69502, published October 21, 1980, proposing the assignment of FM Channel 288A to Hilton Head Island, South Carolina, at the request of Santee-Cooper Broadcasting and of Leonard Stevens.[1] Supporting comments were filed by Santee-Cooper Broadcasting Company and by Leonard Stevens, both restating their intent to apply for the channel, if assigned.

2. Hilton Head Island (pop. 10,500),[2] in Beaufort County (pop. 51,136), is located approximately 110 kilometers (66 miles) southwest of Charleston, and 48 kilometers (30 miles) northeast of Savannah. It is served locally by FM Station WHHR (Channel 292A) and an AM station on 1130 kHz is proposed by three applicants.

3. In its comments, petitioner restated the information contained in the *Notice* which demonstrated the need for a second FM assignment to Hilton Head Island. In response to the *Notice* Santee-Cooper Broadcasting submitted a preclusion study. From the information submitted it appears that preclusion would occur on the co-channel only and that no community with a population greater than 2,500 would be precluded by the proposed assignment.

4. The Commission believes that it would be in the public interest to assign Channel 288A to Hilton Head Island. The petitioner has shown that there is a need for an additional assignment and the preclusion impact is minimal. The assignment can be made in compliance with the minimum distance separation requirements.

5. In view of the foregoing and pursuant to authority contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules, it is ordered, That effective August 7, 1981, the FM Table of Assignments, Section 73.202(b) of the Commission's Rules, is amended, with respect to Hilton Head Island, South Carolina, as follows:

City	Channel No.
Hilton Head Island, S.C.	288A, 292A

6. It is further ordered, That this proceeding is terminated.

7. For further information concerning this proceeding, contact Montrose H. Tyree, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

47 CFR Part 73

[BC Docket No. 81-31; RM-3672]

Radio Broadcast Services; FM Broadcast Stations in McNary and Whiteriver, Ariz.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action reassigns FM Channel 201A from McNary, Arizona, to Whiteriver, Arizona, in response to a petition filed by the White Mountain Apache Tribe of Arizona. The assignment could provide Whiteriver with a first local aural service.

DATE: Effective August 7, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of Amendment of § 73.504(a), Table of Assignments, FM Broadcast Stations (McNary and Whiteriver, Arizona), Report and Order (Proceeding Terminated).

Adopted: June 2, 1981.

Released: June 8, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 46 FR 10778, published April 13, 1981, in response to a petition filed by the White Mountain Apache Tribe of Arizona ("petitioners"), proposing the reassignment of FM Channel 201A from McNary to Whiteriver, Arizona, as a first FM assignment to that location. Supporting comments were filed by a petitioner in which it reaffirmed its intent to file for the channel, if assigned. No oppositions to the proposal were received.

2. Whiteriver, in Apache County,[1] is located in the eastern portion of the State, and is approximately 200 kilometers (125 miles) east of Phoenix, Arizona. Channel 201A could be assigned to Whiteriver in compliance with the minimum distance separation requirements of Section 73.207 of the Commission's Rules.

3. In support of its proposal, petitioner submitted information with respect to Whiteriver and the Fort Apache Indian Reservation which is persuasive as its need for a first FM channel assignment.

4. We believe that the public interest would be served by the reassignment of Channel 201A from McNary to Whiteriver, Arizona. An interest has been shown for its use, and such an assignment would provide the Indian reservation with the opportunity for a first local broadcast service.

[1] Leonard Stevens' petition was treated as comments in this proceeding.

[2] Population figures are taken from the 1970 U.S. Census.

[1] The 1970 U.S. Census lists only the McNary Division (pop. 810) of Apache County (pop. 32,292), in which Whiteriver is located. Petitioner indicated that the current population of Whiteriver is 8,000, but it did not indicate the source for this data.

5. Mexican concurrence in the assignment has been obtained.

6. Accordingly, it is ordered, That effective August 7, 1981, Section 73.504(a) of the Commission's Rules, the FM Table of Assignments, is amended with regard to the following communities:

City	Channel No.
McNary, Ariz	
Whiteriver, Ariz	210A

7. Authority for the adoption of the amendment herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's Rules.

8. It is further ordered, That this proceeding is terminated.

9. For further information concerning the above, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Federal Communications Commission.

Henry L. Baumann,

Chief, Policy and Rules Division, Broadcast Bureau.

47 CFR Part 73

[BC Docket No. 80-513; RM-3580]

Radio Broadcast Services; FM Broadcast Station Olivia, Minn.; Changes Made in Table of Assignments

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: This action assigns FM Channel 269A to Olivia, Minnesota, in response to a petition filed by Olivia Broadcasting Company. The assignment could provide Olivia with a first local aural service.

DATE: Effective August 7, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

SUPPLEMENTARY INFORMATION:

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations (Olivia, Minnesota), *Report and Order*, (Proceeding Terminated).

Adopted: June 2, 1981.
Released: June 8, 1981.

By the Chief, Policy and Rules Division:

1. The Commission has before it for consideration a *Notice of Proposed Rule Making*, 45 FR 58619, published September 4, 1980, in response to a petition filed by Olivia Broadcasting Company ("petitioner"), proposing the assignment of FM Channel 269A to Olivia, Minnesota, as that community's first FM radio station. Supporting comments were filed by petitioner in which it reaffirmed its intent to file for the channel, if assigned. No oppositions to the proposal were received.

2. Olivia (population 2,553),[1] in Renville County (population 21,139), is located approximately 140 kilometers (85 miles) west of Minneapolis. Channel 269A could be assigned to Olivia in compliance with the minimum distance separation requirements.

3. In support of its proposal, petitioner submitted information with respect to Olivia which is persuasive as to its need for a first FM channel assignment.

4. We believe the public interest would be served by the assignment of Channel 269A to Olivia, Minnesota. An interest has been show for its use, and such an assignment would provide the community with the opportunity for a first local aural broadcast service.

5. Accordingly, it is ordered, That effective August 7, 1981, Section 73.202(b) of the Commission's Rules, the FM Table of Assignments, is amended with regard to the following community:

City	Channel No.
Olivia, Minn	269A

6. Authority for the adoption of the amendment herein is contained in Sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 of the Commission's Rules.

7. It is further ordered, That this proceeding is terminated.

8. For further information concerning the above, contact Mark N. Lipp, Broadcast Bureau, (202) 632-7792.

47 CFR Part 74

TV Auxiliary Broadcast Stations, Frequency Assignment Table; Editorial Amendment

AGENCY: Federal Communications Commission.

ACTION: Final rule; editorial amendment.

SUMMARY: This Order corrects an inadvertent printing error in the frequency band limits of the seventh of ten radio frequency channels used by TV broadcast auxiliary (microwave) stations. This Order is necessary because broadcast licensees are submitting license applications based on the rule as incorrectly printed.

DATES: Amendment effective June 3, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Steve Linn, Broadcast Bureau, (202) 632-7698.

SUPPLEMENTARY INFORMATION:

Order

Adopted: April 23, 1981.
Released: May 21, 1981.

By the Chief, Broadcast Bureau:

1. This *Order* corrects an inadvertent error in the listing of frequencies available for assignment to Broadcast TV Auxiliary Stations as listed in Rule Section 74.602. Ten assignable channels are listed in the designated "Band A" allotment, each with a nominal 17 MHz bandwidth. Because of a tabulation error in preparation of the table listing of assignable channels in a previous revision of paragraph (a) of Section 74.602 (Docket 21505: 72 FCC 2d 8), the seventh of the ten channels is incorrectly shown with a bandwidth of 357 MHz between 2093 and 2450 MHz. The correct listing for this channel should be 2093–2110 MHz.

2. Many applications are received from TV broadcast station licensees with the incorrect channel limits shown. Since the entire 357 MHz channel cannot be assigned, the application must be revised. The rule correction covered by this *Order* will save administrative work for both applicants and the Commission staff. The editorial revision being made does not change the substantive texts, purpose, or application of the amended rule, nor remove any provisions relied upon by licensees or the public.

3. We conclude that adoption of the editorial amendment will serve the public interest. Prior notice of rule making, effective date provisions, and

public procedure thereon are unnecessary, pursuant to the Administrative Procedure and Judicial Review Act provisions of 5 U.S.C. 553(b)(3)(B), inasmuch as these amendments impose no additional burdens and raise no issue upon which comments would serve any useful purpose.

4. Therefore, it is ordered, That pursuant to Sections (4)(i), 303(r), and 5(d)(1) of the Communications Act of 1934, as amended, Section 74.602 of the Commission's Rules, Part 74, is amended, by substituting the values "2093–2110" for "2093–2450" as the seventh entry under the first column titled "Band A MHz" of the table following the introductory text of paragraph (a). This amendment is effective June 3, 1981.

5. For further information concerning this *Order* contact Steve Linn, Broadcast Bureau, (202) 632–7698.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Federal Communications Commission.

Proposed Rules

Federal Register
Vol. 46, No. 114
Monday, June 15, 1981

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 73

Physical Protection of Intransit Special Nuclear Material of Moderate Strategic Significance

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule.

SUMMARY: The Nuclear Regulatory Commission is considering an amendment to its physical protection regulations for special nuclear material of moderate strategic significance to improve licensee safeguards capabilities for early detection of attempted theft of this material while it is in transit. These improvements include (1) use of locked cargo compartments and temporary storage areas, (2) frequent enroute telephone communications, and (3) employment of exclusive use trucks or signature acknowledgement of all custody transfers for road shipments. The intent of the proposed amendment is to assure close monitoring of these shipments in order to achieve early detection of loss or theft of the material. This early detection would in turn help the Commission prevent the loss or theft of significant quantities of special nuclear material.

DATES: Comments must be received on or before August 15, 1981.

Comments received after August 15, 1981 will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before that date.

ADDRESSES: Comments or suggestions for consideration in connection with the proposed amendments should be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Branch. Comments may also be delivered to Room 1121, 1717 H Street, N.W., Washington, D.C., between 8:15 a.m. and 5:00 p.m. Comments received will be available for examination and copying at the Commission's Public Document Room at 1717 H Street, N.W., Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Mr. C. K. Nulsen, Regulatory Improvements Branch, Division of Safeguards, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555 (301–427–4181).

SUPPLEMENTARY INFORMATION: The Commission has been concerned that possible multiple thefts of special nuclear material (SNM) of moderate strategic significance could result in the accumulation by an adversary of a formula quantity of strategic special nuclear material (SSNM). Current regulations (§ 73.67(a)(2)(ii)) require that "physical protection system(s) shall provide early detection of removal of special nuclear material by an external adversary * * *". To prevent multiple thefts of less than formula quantities of SSNM, the NRC considers it necessary to improve licensee capabilities for early detection of thefts of intransit SNM of moderate strategic significance.

Early detection of the loss or theft of a shipment of SNM of moderate strategic significance would provide time for NRC to alert other licensees possessing similar types and quantities of material at fixed sites and to delay any planned shipments or begin trace procedures for any shipment in progress. The NRC now proposes an amendment that would upgrade current levels of physical protection for intransit SNM of moderate strategic significance and provide capabilities for early detection of loss or theft of SNM by requiring (1) locked cargo compartments and temporary storage areas, (2) frequent enroute telephone communication, and (3) employment of either exclusive use trucks or signature service arrangements for custody transfers during road shipments. Implementation of this amendment would help to assure that significant quantities of SNM could not be lost or stolen while in transit, and provide the NRC with the capability of preventing the loss of additional material to an adversary before an accounting of a lost shipment has been made.

The promulgation of this amendment would not result in any activity that affects the quality of the human environment. Accordingly, the Commission has determined under the National Environmental Policy Act, the Council of Environmental Quality guidelines, and the criterion of 10 CFR 51.5(d)(3), that neither an environmental impact statement nor an environmental impact appraisal to support a negative declaration for the proposed amendments to 10 CFR Part 73 are required.

Paperwork Reduction Statement

The Nuclear Regulatory Commission has submitted this proposed rule to the Office of Management and Budget for such review as may be appropriate under the Paperwork Reduction Act, Pub. L. 96–511. The SF–83, "Request for Clearance," Supporting Statement, and other related documentation submitted to OMB have been placed in the Public Document Room at 1717 H St., N.W., Washington, D.C. 20555, for inspection and copying for a fee.

Regulatory Flexibility Statement

In accordance with the Regulatory Flexibility Act of 1980, 5 U.S.C. 605(b), the Commission hereby certifies that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities. This Proposed rule would amend 10 CFR Part 73 to require certain improvements in the capabilities of physical protection systems provided by licensees to protect against the theft or loss of special nuclear material of moderate strategic significance while this material is in transit. These improvements would increase the cost of shipment of this material in absolute terms, but the total costs of transportation would generally remain less than one percent of the value of the material shipped. In addition, the number of shipments expected to be made annually is quite low, estimated to be about thirty shipments per year based upon past experience in the nuclear industry. The licensees who could be affected by these amendments include approximately 37 licensees possessing special nuclear material of moderate strategic significance, 27 of which operate nonpower reactors. In addition, there are about six licensees possessing formula quantities of strategic special nuclear material who may occasionally choose to ship their material in less than formula quantities. All of these licensees are either large private or state

universities, large corporations, each employing in excess of 500 persons and having annual sales or revenues in excess of $1 million, or State or Federal agencies. Less than ten of these licensees are small colleges or businesses that fall within the scope of the definition of "small entities" set forth in the Regulatory Flexibility Act or the Small Business Size Standards in regulations issued by the Small Business Administration at 13 CFR Part 21.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, as amended, and section 553 of title 5 of the United States Code, notice is hereby given that adoption of the following amendment to Title 10, Chapter I, Code of Federal Regulations, Part 73 is contemplated.

PART 73—PHYSICAL PROTECTION OF PLANTS AND MATERIALS

1. The authority citation for Part 73 is revised to read as follows:

Authority: Secs. 53, 161b, 161i, 161o, Pub. L. 85–703, 68 Stat. 930, 948–950, as amended, Pub. L. 85–507, 72 Stat. 327, Pub. L. 88–489, Stat. 602, Pub. L. 93–377, 88 Stat. 475 (42 U.S.C. 2073, 2201); Sec. 201, Pub. L. 93–438, 88 Stat. 1242, 1243, as amended, Pub. L. 94–79, 89 Stat. 413 (42 U.S.C. 5841). For the purposes of Sec. 223, 68 Stat. 958, as amended, 42 U.S.C. 2273, § 73.55 is issued under Sec. 161b, 68 Stat. 948, as amended, 42 U.S.C. 2201(b); §§ 73.20, 73.24, 73.25, 73.26, 73.27, 73.37, 73.40, 73.45, 73.46, 73.50, 73.55, and 73.67 are issued under Sec. 161i, 68 Stat. 949, as amended, 42 U.S.C. 2201(i); and §§ 73.20(c)(i), 73.24(b)(i), 73.26(b)(3), (h)(6), (i)(6) and (k)(4), 73.27(a) and (b), 73.40(b) and (d), 73.46(g)(6) and (h)(2), 73.50(g)(2), (3)(iii)(B) and (h), 73.55(h)(2), and (4)(iii)(B), 73.70, 73.71 and 73.72 are issued under Sec. 161o, 68 Stat. 950, as amended, 42 U.S.C. 2201(o).

2. Paragraph (e) of § 73.67 is amended by revising paragraphs (e)(1)(iii), (e)(1)(iv), the first paragraph in (e)(3), paragraphs (e)(3)(i), (e)(3)(vi), and by adding new paragraphs (e)(1)(vi) and (e)(3)(vii) to read as follows:

§73.67 Licensee fixed site and intransit requirements for the physical protection of special nuclear material of moderate and low strategic significance.

* * * * *

(e) * * *

(1) * * *

(iii) Transport the material in tamper-indicated sealed containers enclosed in a locked cargo compartment.

(iv) Check the integrity of the containers, locks and seals prior to shipment.

* * * * *

(vi) Make all road shipments of the material only in locked exclusive use vehicles or under arrangements whereby the material in transit or in temporary storage enroute is under lock and all custody transfers are acknowledged by signature.

* * * * *

(3) Each licensee, either shipper or receiver, who arranges for the intransit physical protection of special nuclear material or moderate strategic significance, or who takes delivery of this material free on board (f.o.b.) the point at which it is delivered to a carrier for transport shall:

(i) Arrange for a telephone or radio communications capability for notification of any delays in the scheduled shipment, between the carrier and the shipper or receiver of their designee.

* * * * *

(vi) Conduct immediately a trace investigation of any shipment that is reported lost or unaccounted for after the estimated arrival time at the final destination, or during the course of the shipment, and report to the Nuclear Regulatory Commission as specified in § 73.71 and to the shipper or receiver as appropriate. The licensee who made the physical protection arrangements shall also immediately notify the Director of the appropriate Nuclear Regulatory Commission Inspection and Enforcement Regional Office listed in Appendix A to this part of the action being taken to trace the shipment.

(vii) Arrange for periodic communications between the transport vehicle and the shipper, receiver, or their designee to confirm the status of the shipment and to request appropriate local law enforcement agency response the in the event of an emergency.

* * * * *

Dated at Washington, D.C. this 10th day of June, 1981.

For Nuclear Regulatory Commission.

Samuel J. Chilk,

Secretary of the Commission.

[FR Doc. 81–17735 Filed 6–12–81; 8:45 am]

BILLING CODE 7590–01–M

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. 81–NW–27–AD]

Airworthiness Directives: McDonnell Douglas Models DC–9 and C–9 Series Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This Notice proposes adoption of new Airworthiness Directive (AD) which requires eddy current or dye-penetrant inspection for cracks in the upper fuselage skin in the area of the aft pressure bulkhead tee in DC–9 and C–9 series airplanes. This AD is necessary to prevent crack growth which could result in rupture of the pressurized vessel and loss of structural integrity.

DATES: Comments must be received on or before July 31, 1981. Compliance schedule as prescribed in the body of the AD, unless already accomplished.

ADDRESSES: Send comments on the proposal to: Department of Transportation, Federal Aviation Administration, Northwest Region, Los Angeles Area Aircraft Certification Office, P.O. Box 92007, World Way Postal Center, Los Angeles, California 90009; or, Department of Transportation, Federal Aviation Administration, Northwest Region, Attention: Regional Counsel, Airworthiness Rules Docket, 9010 East Marginal Way South, Seattle, Washington 98108.

The applicable service information may be obtained from: McDonnell Douglas Corporation, Attention: Director, Publications and Training, Cl–750 (54–60), 3855 Lakewood Boulevard, Long Beach, California 90846.

FOR FURTHER INFORMATION CONTACT: Harry J. Irwin, Aerospace Engineer, Airframe Branch, ANW–120L, Federal Aviation Administration, Northwest Region, Los Angeles Area Aircraft Certification Office, P.O.Box 92007, World Way Postal Center, Los Angeles, California 90009, telephone (213) 536–6356.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire, including comments on the economic, environmental, and energy impact that might result because of adoption of the proposed rule. Communications should identify the regulatory docket or notice number and be submitted in duplicate to the address specified above. All communications received on or before the closing date for comments specified above will be considered by the Administrator before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments submitted will be available both before and after the closing date for comments in the Rules Docket for examination by interested persons. A report summarizing each

FAA-public contact concerned with the substance of this proposal will be filed in the Rules Docket.

Availability of NPRMs

Any person may obtain a copy of this Notice of Proposed Rule Making (NPRM) by submitting a request to the Federal Aviation Administration, Northwest Region, Office of the Regional Counsel, Attention: Airworthiness Rules Docket No. 81-NW-27-AD, 9010 East Marginal Way South, Seattle, Washington 98108.

Discussion: Operators have reported instances of cracks in the upper skin and improperly seated attachments on the upper skin splice area at the fuselage aft pressure bulkhead tees between longerons 14 left and 14 right. An Alert Service Bulletin issued by Douglas Aircraft Company in September 1980, requesting fleetwide inspection of the areas, resulted in 128 aircraft being inspected and 7 found to have cracks in the suspect area with 43,500 landings as the threshold for those reported.

Analysis of the skin panel sections revealed no evidence of overload, and it was concluded that the failures were caused by fatigue due to flexing of the lightweight fuselage shell adjacent to the relatively rigid tee frame at the bulkhead. If not corrected, these conditions could progress and result in a possible loss of pressurization with attendant structural damage. Inspection of high cycle aircraft and accomplishment of the required repairs will ensure structural integrity of the pressure vessel.

The Proposed Amendment

Accordingly, the Federal Aviation Administration proposes to amend Section 39.13 of Part 39 of the Federal Aviation Regulations (14 CFR 39.13) by adding the following new Airworthiness Directives:

McDonnell Douglas: Applies to all Model DC-9 Series and C-9 Series aircraft, certificated in all categories, with 30,000 or more landings accumulated on and after the effective date of this AD. Compliance required as indicated, unless already accomplished. To prevent crack propagation which could result in structural failure of the fuselage shell, accomplish the following:

A. *Inspection Requirements.* Inspect the upper skin splice area for cracks at the tee cap in the aft fuselage pressure bulkhead between longerons 14 left and 14 right. Use either eddy current inspection procedures in accordance with paragraph 5 or use dye-penetrant inspection procedures in accordance with paragraph 6, both listed in the accomplishment instructions of McDonnell Douglas Service Sketch No. 3145 as provided in DC-9 Alert Service Bulletin A53-147 Revision 1 dated February 3, 1981 (hereinafter referred to as ASB 53-147). The inspections shall be performed in accordance with the compliance schedule shown in the following tabulation:

Accumulated landings (on effective date of this AD)	Initial inspection landings (from effective date of AD)	Repetitive inspection (landings)
30,000 to 39,999	4,000	4,000
40,000 to 49,999	1,200	2,000
50,000 and over	400	2,000

Note.—For airplanes with less than 30,000 landings on the effective date of this AD, inspect before the accumulation of 34,000 landings.

B. *Modification Requirements.*

1. Condition 1. If no cracks are found: Accomplish preventive modifications per paragraph 2A of Service Bulletin 53-147, dated March 31, 1981 (hereinafter referred to as SB 53-147), as applicable to Service Rework Drawing No. J060138, or continue repetitive inspections as called for in paragraph A above.

2. Condition 2. If skin cracks were previously repaired by interim repairs specified in ASB 53-147 per Service Rework Drawing J060143:

(a) Remove existing interim repair(s) and accomplish preventive modifications per paragraph 2A of SB 53-147, as applicable to Service Rework Drawing J060138, or

(b) Accomplish permanent repairs per Table I or II of SB 53-147, as applicable to Service Rework Drawing J060138, and continue repetitive inspections of unrepaired areas in accordance with ASB 53-147 until preventive modification is accomplished per paragraph 2A of SB 53-147.

3. Condition 3. If skin cracks have not been repaired:

(a) Accomplish preventive modifications per paragraph 2A of ASB 53-147, as applicable to Service Rework Drawing J060138, within time limits specified in paragraph A above, or

(b) Accomplish permanent repair(s) per Table I or II of SB 53-147 and continue repetitive inspection of unrepaired areas in accordance with ASB 53-147 until preventive modification is accomplished per SB 53-147.

C. For the purpose of complying with this AD, with approval of the assigned FAA Maintenance Inspector, the number of landings may be determined by dividing each airplane's total hours time-in-service by the operator's model fleet average time from takeoff to landing.

D. Special flight permits may be issued in accordance with FAR 21.197 and 21.199 to operate airplanes unpressurized to a base in order to comply with the requirements of this AD.

E. Alternative means of compliance or other actions which provide an equivalent level of safety may be used when approved by the Chief, Los Angeles Area Aircraft Certification Office, Northwest Region.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to McDonnell Douglas Corporation, 3855 Lakewood Boulevard, Long Beach, California 90846, Attention: Director, Publications and Training, C1-750 (54-60). These documents also may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington 98108, or 15000 Aviation Boulevard, Hawthorne, California 90261.

(Secs. 313(a), 601, and 603, Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.85)

Note.—The FAA has determined that this document involves a proposed regulation that is not major under the provisions of Executive Order 12291 for the reasons stated earlier. It has been further determined that this proposed regulation is not significant under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). A copy of the draft regulatory evaluation for this action is contained in the regulatory docket. A copy of it may be obtained by contacting the person identified above under the caption "**FOR FURTHER INFORMATION CONTACT:**" In addition, it has been determined under the criteria of the regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities.

Issued in Seattle, Washington, on June 2, 1981.

Charles R. Foster,
Northwest Region.

14 CFR Part 71

[Airspace Docket No. 18605/79-AWE-18]

Proposed Group II Terminal Control Area; Phoenix, Ariz.

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Supplemental notice of proposed rulemaking.

SUMMARY: The FAA proposed to adopt a Group II Terminal Control Area (TCA) at Phoenix, Arizona on April 7, 1980. This supplemental notice proposes a new configuration based upon the FAA's analysis of comments received in response to the original Notice of Proposed Rulemaking (NPRM). This proposed action would provide a substantial reduction in size of the original proposed TCA. However, the proposal would not alter the Air Traffic Control (ATC) system capability to separate all aircraft in the proposed TCA airspace around Phoenix Sky Harbor International Airport, Phoenix,

Ariz., while providing sufficient flexibility to permit aircraft operating under visual flight rules (VFR) to operate within or outside the TCA. The objective of this proposal is to increase safety while accommodating the legitimate concerns of the airspace user and, in particular, to provide the highest degree of safety for passengers in public air transportation.

DATE: Comments must be received on or before July 30, 1981.

ADDRESSES: Send comments on the proposal in triplicate to: Director, FAA Western Region, Attention: Chief, Air Traffic Division, Docket No. 18605/79–AWE–18, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, Calif. 90261.

The docket for this action may be examined at the office of the Regional Air Traffic Division, at the above address, or at the FAA, Office of the Chief Counsel, Rules Docket (AGC–204), Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

FOR FURTHER INFORMATION CONTACT: Richard Morrison, Airspace and Procedures Branch, Air Traffic Division, (AWE–530), Western Region, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, Calif. 90261; telephone: (213) 536–6180.

SUPPLEMENTARY INFORMATION:

Comments Invited

Interested persons are invited to participate in this proposed rulemaking by submitting such written data, views or arguments as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the over all regulatory, economic, environmental, and energy aspects of the proposal. Communications should identify the airspace docket and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Airspace Docket No. 18605/79–AWE–18." The postcard will be date/time stamped and returned to the commenter. All communications received before the specified closing date for comments will be considered before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments submitted will be available for examination in the Rules Docket both before and after the closing date for comments. A report summarizing each substantive public contact with FAA personnel concerned with this rulemaking will be filed in the docket.

Availability of NPRM

Any person may obtain a copy of this NPRM by submitting a request to the Federal Aviation Administration, Office of Public Affairs, Attention: Public Information Center, APA–430, 800 Independence Avenue, SW., Wahington, D.C. 20591, or by calling (202) 426–8058. Communications must identify the docket number of this NPRM. Persons interested in being placed on a mailing list for future NPRMs should also request a copy of Advisory Circular No. 11–2, which describes the application procedures.

History

Following broad and helpful public participation, the FAA developed a proposed TCA configuration that was considered responsive to the need to increase safety and to the needs of both transient and local aircraft operators who might be affected. An extensive publicity effort was made to encourage all interested persons to participate in meetings to discuss the available alternatives. In addition to published notices, notices were mailed to hundreds of persons believed to have an interest in the proposal, posted in airports, and disseminated through press, radio, and TV coverage. As a result of the meetings, an NPRM was published for public comment in the **Federal Register** on April 7, 1980 (45 FR 23457). The comment period was later extended from July 6, 1980, until August 6, 1980 (45 FR 46436).

During the comment period the FAA received almost 400 written comments. In addition, the FAA had the benefit of considerable dialogue at user group meetings.

Several alternate proposals were submitted in response to the notice. Some of these proposal evidenced a great deal of merit and they are discussed individually under "Discussion of Comment—Alternate Proposals."

Considerable adjustments to the initial design proposed in the notice have been made as a result of comments received. The design of the TCA in this supplemental notice would safely accommodate the present traffic flow of all user groups in the Phoenix area. It responds specifically to conditions that exist at Phoenix and would contribute meaningfully to an increase in safety, while minimizing the impact on aircraft operating outside the TCA.

Discussion of Comments

In response to the TCA proposal, the FAA received almost 400 written comments from individuals, citizen groups, local, and Federal governmental officials and agencies, pilots and owners of aircraft, and aviation trade/industry associations. In addition, the FAA has had the benefit of considerable dialogue at user group meetings. The FAA appreciates the thoughtful and meaningful contributions and the interest expressed by all of those who took time to participate in the several steps of this rulemaking proceeding.

In response to the issues involved in the FAA's proposal, many commenters made suggestions for achieving flight safety in the Phoenix terminal area that were either alternative, or supplementary to those proposed in the notice. Many of those suggestions have some attractiveness but go beyond the scope of the notice and thus could not be considered at this time. Those comments are under study by the FAA's Western Region for consideration in future rulemaking actions.

A large majority of commenters suggested we lower the top of the proposed TCA. As a result of those comments and a comprehensive study of traffic above 7,500 feet in the Phoenix terminal area, we propose to lower the top of the TCA from 12,500 feet to 8,000 feet.

Another line of comments stated that the FAA's proposal did not go far enough or move fast enough toward banning all small airplanes from operating in the Phoenix terminal area. Other commenters recommended establishing a Group I rather than Group II TCA. The divergence of opinion is illustrated by the general positions of several of the aviation trade/industry associations and other airspace user groups.

The Arizona Pilots Association (APA) opposed the establishment of a Group II TCA at Phoenix and supported its own "counterproposal" for special air traffic rules to establish "safety corridors" to and from Sky Harbor International Airport.

In addition to the first safety corridor proposal, APA sponsored a workshop comprised of APA members, Airline Pilots' Association members, Professional Air Traffic Controllers' Organization members and other users in the Phoenix area. This group submitted to the docket another counterproposal to the TCA. That second proposal warranted a great deal of merit because it took into consideration air carrier routings,

vectoring requirements, lateral separation requirements and aircraft capabilities.

The Air Transport Association of America, on behalf of its member air carriers, urged immediate action to establish a TCA at Phoenix and strongly argued that it should be a Group I TCA rather than the Group II TCA proposed by the FAA.

The United States Air Force recommended formulation of a joint FAA-Military-General Aviation-Air Carrier task force to redesign the proposed Phonix TCA and establish concurrent Stage II radar service at Luke Air Force Base. Phoenix Terminal Radar Approach Control (TRACON) began providing Stage II radar service at Luke Air Force Base on January 18, 1981.

Most of the comments received came from pilots and owners of general aviation airplanes who stated their general objections to the TCA concept, its application in Phoenix and their equally general support of the APA alternatives.

The TCA proposal as presented in the docket was based upon agency guidelines and was orginally designed to interface with the controlled visual flight rules concept. This proposal was quite expansive in that it included almost 1,500 square miles of airspace.

A 65-hour video tape recording study of live, weekday, busy traffic at Phoenix TRACON was accomplished and revealed the following:

1. Less than one untracked, Mode C aircraft was observed above 7,500 feet per hour.

2. Twenty percent of the transponder equipped aircraft observed were Mode C equipped.

3. Seventy-five percent of untracked, non-Mode C aircraft were observed entering, departing, or in what is known to be VFR practice areas and therefore at altitudes below 7,500 feet.

Based on the above observations, the FAA determined that, on the average, no more than two or three untracked transponder equipped aircraft would be flying above 7,500 feet per hour. This was considered to be negligible and not reason enough to justify a ceiling of 12,500 feet; therefore, the TCA ceiling in this action is proposed to be lowered to 8,000 feet.

By reducing the ceiling, the area and volume of the TCA is reduced considerably. The original proposal to the docket encompassed an area of 1,498.9 square miles and a volume of 1,486.93 cubic miles. The new proposed Phoenix TCA will contain 876 square miles and 462.6 cubic miles. This constitutes a reduction of 41.6 percent in area and 68.9 percent in volume from the original proposal to the docket and a reduction of 24.5 percent in area and 51.6 percent in volume from the second APA proposal.

The new proposed TCA would contain all instrument approaches, provide the required vectoring area and assure turbojets a greater margin of safety by reducing the potential for a midair collision with an uncontrolled aircraft in the terminal area.

As in most proceedings of this kind, the public beneficiaries of safety regulation do not have an organizational basis to participate and they do not traditionally present their views in significant numbers to counterbalance the advocacy of the more institutionalized commenters. This does not, however, reduce the recognition by the FAA of the public interest in aviation safety.

The adverse comments to the docket fell into the following major categories:

A. Safety.
B. Efficiency.
C. Cost.
D. Complexity.
E. Compression of VFR traffic under the TCA.
F. Controller workload.

In addition to these major adverse comments, a number of sailplane enthusiasts commented regarding the proliferation of controlled airspace resulting in an encroachment of their rights to airspace usage in the pursuit of their sporting activities. Specifically, sailplane pilots commented about the ceiling and the western leg of the TCA which would have impeded their flights from the Estralla Mountains west of Luke Air Force Base. By reducing the ceiling, this proposal would eliminate most of the problems of the sailplane group.

A. Safety

The primary concern in any proposed TCA action is providing the highest degree of safety while preserving the most efficient use of the available terminal airspace. The TCA designates areas where turbojet aircraft are required to operate. TCA airspace is also available for use by properly equipped general aviation and military aircraft operating under an ATC clearance. That controlled airspace, with its positive separation of all aircraft, presents a reduced hazard of near midair collisions.

In the Phoenix terminal area, the mixing of different types of aircraft is substantial. There are eight general aviation airports within 20 nautical miles (NM) of Sky Harbor International Airport; Scottsdale, Deer Valley, Phoenix-Litchfield, Falcon, Stellar Airpark, Glendale, Memorial and Chandler Municipal. There are three military airports in the same area; Luke, Williams and Papago. In addition, there are four private airports: March, FRAM, Farm Aero, and Ski High Pioneer. Those airports generate in excess of 2.75 million aircraft operations annually. The proximity of those airports contribute to the collision potential between controlled and uncontrolled aircraft in the Phoenix terminal airspace. In 1980, 17 near midair collisions were reported in the Phoenix terminal area. In all but one instance, uncontrolled VFR general aviation aircraft were involved. The mix of various types of aircraft using the airspace in and around Phoenix also makes it highly desirable to add the assurance that the flight paths of turbojets and other transponder equipped aircraft using this airport are contained within airspace free of uncontrolled aircraft.

Many commenters referred to the near midair collision draft report originated by the National Aeronautics and Space Administration (NASA) as support for the proposition that TCAs do not enhance safety. Those commenters frequently stated that the NASA report was based on more recent information and indicated that more near midair collisions occur within the confines of a TCA than in other terminal airspace areas.

The FAA has reviewed that draft report and the underlying data on which it is based. The data used to originate the NASA Draft Report was produced under the Aviation Safety Reporting System (ASRS). The ASRS is a voluntary reporting system and the commentaries received are not investigated to verify the specific information they contain. Consequently, incomplete, inaccurate, and multiple reports have been filed on the same incident and counted as individual incidents. In its findings, NASA reminds the reader of the limitations of the program. The FAA obtained copies from NASA of all data base incidents (July 1, 1976, to November 30, 1978). Those 2,965 nation-wide reports were analyzed using the near midair collision criteria as defined by both the FAA and NASA. Of those, 1,303 clearly did not meet the criteria and 301 were duplicate reports.

The remaining 1,361 near midair collision reports were analyzed in light of the conclusions offered in the NASA Draft Report. The NASA Draft Report presented a comparison of terminal airspace at all locations covered by reports (low density to high density) and concluded that most hazardous incidents occur in high density areas.

That is a primary reason why the FAA embarked upon the program to establish TCAs and TRSAs in those high density areas. Contrary to the impression of many commenters, the NASA Draft Report did not address the effectiveness of TCAs after they were established compared to the number of incidents reported before they were created. As noted previously, the FAA's data shows that for a given TCA airspace there were fewer hazardous incidents after extablishing a TCA than there were before it was established.

B. Efficiency

There were numerous comments that the proposed TCA configuration is an inefficient use of airspace and would benefit only a fraction of the airspace users.

To design a safe and efficient positive control environment in a terminal area, it is necessary to tailor the airspace configuration to the specific needs of that area. The various types of aircraft that operate within the system and the basic requirements of all airports within the terminal area must be considered, along with the constraints imposed by terrain, weather conditions, and optimum traffic flows.

The routes and procedures currently used in the Phoenix area have evolved through a carefully planned system of navigational aids and airways dictated by the factors mentioned, plus airport locations and the needs of the users. The TCA configuration proposed by this NPRM has been developed to accommodate the present traffic flow and procedures in the Phoenix area as well as transient traffic that utilizes ATC facilities in the area.

By reducing the ceiling from 12,500 feet to 8,000 feet, the total TCA airspace area was reduced by 41.6 percent and the volume was reduced by 68.9 percent, thus, effecting a more efficient use of airspace. The airspace above 8,000 feet in the Phoenix terminal area would be available for normal VFR operations in a "see and be seen" environment. Aircraft using the airspace above 8,000 feet VFR would need to be alert for aircraft entering and leaving the Phoenix TCA.

C. Cost

There were many comments received concerning added costs that would be incurred by the implementation of a TCA. These include (1) the cost to acquire and install the avionics equipment necessary to operate in the TCA, if the aircraft is not already so equipped, and (2) the operating costs to fly within the TCA environment or to avoid it. The TCA will immediately provide the basis for service to all aircraft that are properly equipped.

In discussions concerning the distribution of costs to the user, much has been said about it being the general aviation operators who are the most likely to incur the greatest cost impact. To operate within the confines of the TCA, aircraft must be equipped with a transponder. From available data, it is estimated that 80 percent of the aircraft based in the Phoenix terminal area are already equipped with a transponder. The operators of the remaining aircraft would have to incur the cost of a transponder in order to achieve the enhanced level of safety and ATC services or operate outside the TCA airspace. The FAA has made a concerted effort to design the TCA to accommodate those who wish to avoid the TCA airspace and to minimize the potential risks of operating on the periphery of the TCA. The options are clearly posed for the election of each operator to pursue whichever flight path is appropriate to that operator's situation.

The operating costs incurred by the transponder equipped operators who operate within the TCA airspace, as explained in the Airspace User Cost Impact Study, will be minimal. The FAA estimates that these costs can be computed in terms of a one-minute average ATC procedural delay during peak traffic periods. This delay is attributable, in part, to ATC procedures which include the time required to radar identify any VFR traffic and integrate that traffic into established IFR traffic flows.

Some commenters stated that additional costs will be incurred by aircraft attempting to avoid the TCA. The TCA has been configured to provide north-south, point to point VFR cross country flying with a minimal amount of additional flight time or fuel being expended. For example, aircraft using the VFR corridor would in many cases use no more fuel than at present. Aircraft choosing to avoid the TCA by diverting eastward or westward under Areas D and E would add about 3 miles to their flight path. The distance between Scottsdale Airport and Chandler is 22 miles direct and 24 miles by underflying Area E. The distance between Deer Valley Airport and Stellar Airpark is 25 miles direct and 26 miles using the VFR corridor. The resulting increase in fuel consumption is considered insignificant. In addition, if requested, ATC may clear aircraft without a transponder through the TCA when such operations can be handled without undue risk to other operations in the TCA. In instances where circumnavigation of the TCA becomes necessary, the areas avoided are locations where several reported near midair collisions and hazardous encounters with uncontrolled aircraft have occurred.

Several commenters stated that the implementation of a TCA would create additional costs for the ATC system because it requires a larger work force and the purchase of additional ATC equipment by the FAA. The controller work force levels are not adjusted for the day-to-day fluctuation of traffic. Currently, the daily traffic volume at Phoenix approach control varies from 1,700 to 2,000 operations. FAA estimates that the average increase in number of aircraft handled would be no more than 5 percent to 8 percent. At the present time, the additional traffic would not necessitate additional controllers or ATC equipment. If future demands on the facilities do occur, the FAA will not hesitate to make the appropriate additions necessary to alleviate any problems that actually develop.

D. Complexity

About half of the commenters expressed a general criticism of the proposed TCA because of its complex design and favored the APA's initial corridor design because of its relatively simple configuration. The FAA is likewise desirous of simplicity in design; however, the APA's corridors are not compatible with the specific needs of the Phoenix area or existing conditions, including navigational aids and traffic flows of both VFR and IFR aircraft.

The proposed TCA configuration is the result of an existing complicated usage of airspace involving arrival and departure profiles to and from the numerous airports in the area and of the need to provide the desired level of safety without imposing unnecessary burdens on the users.

In addition to the airspace needs for aircraft serving Phoenix Sky Harbor International Airport, interrelated air traffic requirements and the different types of civil and military aircraft operating to and from other airports in the Phoenix area were taken into consideration. The TCA size and shape evolved from a review of, and experience with, the airspace usage needs. Sufficient area would be provided to allow for vectoring and sequencing of aircraft to and from Sky Harbor International Airport in order to promote timely movement of airplanes from or to any of the eight other local airports. Airspace is provided for VFR

access through the area and to accommodate glider operations.

Many commenters stated that pilots who wish to remain clear of the TCA would have extreme difficulty navigating and would be required to refer to a terminal area chart and would become preoccupied and unable to look for traffic. The pilot is not expected to use the written regulatory airspace descriptions for navigational purposes. VFR charts are provided for VFR navigation and IFR charts for IFR operations. The VFR charts have a substantial number of visual landmarks, including highly visible roadways, supplemented with navigation information to provide guidance in and around the TCA. A pilot must be able to use these aeronautical materials, particularly while flying in or near busy terminal areas. Pilots have been using these charts for years to successfully navigate in and around the existing TCAs. the FAA is working with users to develop more effective VFR charts and materials to include available VFR routes and altitudes.

E. Compression of VFR Traffic Under the Terminal Control Area

Many commenters felt that the proposed configuration would create an undue compression of VFR traffic at dangerously low altitudes under the floors of the TCA, particularly in the vicinity of Luke Air Force Base. More than 75 percent of all commenters complained that the ceiling of 12,500 feet was too high and would cause considerable compression. They also pointed out the oxygen requirements they would have to meet above 10,000 feet and the additional equipment requirements above 12,500 feet, i.e., Mode C transponders. They evidenced concern regarding the economic burdens associated with fuel costs in climbing above the TCA. By lowering the ceiling of the TCA to 8,000 feet, the oxygen and Mode C transponder requirements were eliminated and the anticipated additional fuel costs were reduced.

It is true that in some areas aircraft operators who elect not to operate within the TCA airspace will be electing to conduct their operations over the same area at lower altitudes than they may presently operate. Every attempt, however, has been made to establish the floors of the TCA as high as possible. Additionally, by lowering the ceiling from 12,500 feet to 8,000 feet, the compression factor south and west of the Air Force Base was materially reduced. The total TCA area would be reduced by 41.6 percent and the large majority of this reduction would relieve compression in the Luke Air Force Base area.

In most areas, adequate altitudes are provided for continued operations under normal conditions and in other cases the pilot must determine whether, under the existing conditions, the operation can be conducted safely. It is noted that most of the areas affected are those in which there is presently a higher risk of hazardous traffic conflict than that posed by the effects of the lower operating altitudes under visual flight conditions.

The elimination of certain VFR flights along flyways within the TCA would result in a reduced collision potential in those areas where those airplanes operated before establishing the TCA because all airplanes in those areas will be separated by ATC. However, it can be assumed that operations might increase in those areas under and around the periphery of the TCA. The magnitude of that increase would relate to the level of increased activity in those areas and would depend on the elections of pilots to use those areas instead of the areas within the TCA where the risks would be reduced. Conversely, it may also be assumed that operations on these flyways would not increase because of the natural dispersal of traffic by the configuration of the TCA. In the absence of specific data concerning the level of activity in those areas before establishing the TCA and the inability to anticipate the use of particular flyways by pilots electing to avoid the TCA, no specific prediction of the relative collision risks can be made. Compared to the substantial collision risk reductions within the TCA, the overall effect of establishing the TCA would be positive for all airspace users unless the risk increases dramatically outside the TCA. While no such increase is anticipated, or can be documented, the FAA would take any action necessary to ensure that all operations are conducted safely.

The "compression" issue was also raised at the various informal airspace meetings which were held in the Phoenix area to obtain public participation in the development of an airspace description. In response to the many helpful comments, the FAA has incorporated several changes in the proposed TCA configuration and has adjusted the airspace, where possible, to offer the least adverse impact to satellite airports, potential terrain hazards, and specific types of operation. This was accomplished by reducing the ceiling from 12,500 feet to 8,000 feet, thus, reducing total volume by 68.9 percent, by adding a VFR corridor, and by raising the base altitudes in areas designated D and E east and west of the airport from 3,500 feet to 4,000 feet. By reducing the ceiling and raising the base or floor altitudes in many areas, the proposed design of the TCA has been greatly simplified. There would be only four base altitudes and some areas have been redesigned to conform with easily identifiable surface streets, e.g., the surface area is bounded by Baseline Road on the south, Indian School Road on the north, Pima Road on the east and 35th Avenue on the west. These changes would be beneficial to the users of the airspace and would also assist in relieving any unnecessary effects of compression beneath the TCA.

The intent of the FAA in proposing this TCA was to provide maximum freedom for all aircraft consistent with providing positive control and separation for those aircraft in the TCA. The configuration adopted by this amendment would substantially achieve that goal.

F. Controller Workload

A significant number of commenters felt that because of the increased control of VFR traffic, the TCA would impose an additional controller workload to the detriment of safety and the level of ATC services.

While it is anticipated that there will be a slight increase in the number of aircraft under ATC control in the Phoenix area, this increase has been estimated by the Phoenix approach control facility to be between 5 percent and 8 percent. This potential increase, however, would be a necessary consequence of selecting the most effective overall airspace designation for safety and efficiency in the terminal area.

Notwithstanding, the possible increase in the number of aircraft under positive control in the Phoenix terminal area, the workload of the controllers servicing this area might actually decrease rather than increase. There is presently a mix of controlled and uncontrolled traffic in the Phoenix area. The TCA would place all traffic under ATC. This would result in VFR traffic operating at assigned altitudes and on assigned headings. The controllers would know the intent of all aircraft within the TCA, which would obviate much of the need for traffic advisories presently issued in the TRSA environment.

The Phoenix TCA is being proposed to provide airspace in which air traffic controllers can better separate all aircraft operating within this congested terminal airspace. The primary

consideration in its adoption would be safety. The overriding safety advantages would more than outweigh the nominal manpower factors involved. If controller workload does increase beyond FAA expectations, the FAA would commit additional resources to ensure that desired safety objectives are reached.

G. Alternative Proposals

1. *APA's First Proposal.* The APA's "safety corridors" proposal has the virtue of simplicity in design, but, unlike the FAA's modified corridor concept, does not permit the flexibility necessary for efficient application of ATC services and, thus, results in hidden complexity in ensuring safety and providing ATC services. The configuration recommended by APA does not provide adequate airspace and procedural flexibility to allow vectoring and routing of all traffic to efficiently accommodate these flows while containing traffic within corridor airspace. Because the FAA recognizes the interest and work that went into the APA proposal, it is useful to explain the difficulties implementation of that proposal would invoke.

a. Adoption of APA's corridors would require redesigning virtually all present arrival/departure routes that are in use in the Phoeniz area. Those routes are part of a carefully planned, evolving system. Any changes to the system would cause far-reaching impacts.

b. The APA's corridors would create unacceptable delays for virtually all users because turbojets would not be able to maneuver for spacing and remain within the corridors. There is insufficient airspace for vectoring in those proposed corridors to achieve spacing and metering of inbound or outbound traffic. The approach controller at Phoenix could not accomplish the spacing function in that limited amount of airspace allowed by the corridor. Thus, holding at an outer fix frequently would be necessary.

2. *APA/AOPA's Second Proposal.* the second proposal merited a great deal of attention in that it considered turbojet routings, vectoring requirements, lateral separation requirements and aircraft capabilities. Phoenix TRACON staff used this recommendation extensively to develop the final product. The size of the APA proposal was reduced in the new proposed TCA by 24.5 percent in area and 51.6 percent in volume. That APA proposal was predicated on the movement of Williams Air Force Base Military Operations Area (MOA) 4 north of Phoenix clockwise to about Williams Air Force Base MOA 3 east of Phoenix. An airspace action of that kind would require at least a year or more of coordination between the United States Air Force and Albuquerque Air Route Traffic Control Center (ARTCC) before action could be initiated. In light of the existing air traffic situation in Phoenix, it would not be appropriate to delay or withhold taking immediate, available action that has been subjected to thorough review and public participation.

3. *City of Phoenix Proposal.* The Mayor of Phoenix and the Phoenix City Council submitted comments and alternative proposals resulting from a public hearing before both the Phoenix City Council and Municipal Aeronautics Board. The proposal has certain favorable aspects such as reduced amounts of airspace being dedicated to the TCA, accommodations for VFR flyways without the need for ATC clearances, and simplicity. The following summarizes the major points of that proposal and provides responses to those proposals:

a. Proposed that a modified TCA be adopted for Sky Harbor International Airport that reduces the scope of the TCA and leaves more airspace available for general aviation pilots who do not want to utilize the services or operate from Sky Harbor International Airport. The overall TCA height should be limited to 10,000 feet rather than 12,500 feed in the FAA proposal.

A modified proposed TCA has been developed reducing the scope of the TCA to provide more airspace for pilots who do not wish to participate in the TCA. The ceiling of the TCA has been lowered to 8,000 feet in response to the City Council's recommendations and those of other user groups.

b. Proposed that the size of the VFR corridor over Sky Harbor International Airport be increased in width and depth.

Increasing the size of the VFR corridor would be unduly restrictive to turbojet aircraft utilizing Sky Harbor International Airport with little increase in safety. An air-to-air frequency would be established for the corridor so that pilots transiting the corridor may communicate with each other. The vertical dimension is essentially the same as the majority of established VFR corridors. In addition, we have two natural corridors east and west of the airport that would be enhanced by raising the floor of the TCA in those areas.

c. Proposed that the base altitudes at which each layer of airspace begins be increased providing a larger area beneath the TCA for general aviation aircraft to operate without being in the TCA.

Whenever practical, the base altitude of the new TCA proposal would be increased to provide for natural flyways for VFR aircraft.

d. Proposed that allowance be made for special interest groups such as sport planes and gliders.

The lateral boundaries of the new proposed TCA would be modified to exclude the areas normally used by these special interest groups.

e. Proposed that the FAA enter into an operational agreement with the City of Phoenix Police Department for the city's fixed wing surveillance aircraft and helicopter operations.

The FAA has assured the Phoenix Police Deparment that in almost all cases their operations would be uninhibited.

f. Proposed that the FAA place a high priority on additional instrument landing systems and navigational aids in the metropolitan community.

The FAA has initiated for the establishment of an ILS system at Casa Grande and the establishment of a radio beacon in the Scottsdale area for general aviation pilots.

g. Proposed that, where possible, the low altitude boundary lines be defined by easily identifiable visual landmarks for general aviation pilot references. The high altitude air carrier arrival and departure routes should be defined by radial or navigational references.

The proposed redesigned TCA has boundary lines defined both by radial navigational references and easily identifiable visual landmarks.

4. *A Group I TCA should be installed instead of a Group II TCA as proposed.* Numerous commenters recommended establishing a Group I TCA rather than the Group II TCA proposed in Airspace Docket 18605/79–AWE–18, because it would provide an additional degree of control over aircraft operating in the TCA airspace.

The basic differences between Group I and Group II TCAs are that in a Group I TCA an altitude encoding transponder and a private pilot rating or better are required. Those are in addition to the basic requirements for operating in a Group II TCA where a two-way radio, VOR or TACAN and radar beacon transponder are required. Most commenters who recommended establishing a Group I TCA in Phoneix focused on the need for the altitude encoder to provide an additional measure of safety.

Consideration of a requirement for an altitude encoder necessarily includes considering the particular circumstances presented in the terminal area that indicate that the flight information provided by an encoder would significantly enhance ATC's ability to

control aircraft safely and efficiently. It should be noted, however, that the level of ATC services provided in a Group II TCA is not different than in a Group I TCA where an encoder is required.

Whether carriage of an altitude encoder should be required in Group II TCA's generally, or redesignation of any particular Group II as a Group I TCA are issues whose importance transcends this rulemaking proceeding. An examination of them will be made under separate review. The FAA would monitor the effectiveness of the Group II TCA in Phoenix and consider making whatever changes are necessary to provide improvement, including implementing a Group I TCA or requiring an altitude encoder if operational experience proves it is warranted.

Economic Impacts

The FAA has thoroughly assessed the costs of establishing the Phoenix TCA. A comprehensive economic assessment, covering the entire program as described in the Plan for Enhanced Safety was made available to attendees at informal airspace meetings held in Phoenix and was placed in the Regional and Washington dockets for public comment. The assessment includes systemwide assumptions concerning the impact of all 44 originally proposed new TCAs, including the Phoenix, Ariz., TCA proposal. Since 16 of the original sites are no longer under current consideration, the cost impact systemwide is even less but the underlying assumptions are still applied to the remaining candidate sites. In addition, to determine whether these general assumptions are valid for the particular TCA airspace description proposed for Phoenix, Arix., the FAA Western Regional Office prepared a detailed draft addition to the broad national study. This regional economic assessment was appended to the national assessment and was also in the Regional and Washington dockets. Since the TCA configuration dimensions proposed in this NPRM have been reduced both vertically and laterally from that initially proposed, the user cost impact assessment contained in the docket would not be significantly affected.

Environmental Assessments

In a manner similar to that described above for the national and local economic assessment, an environmental assessment was prepared, which addresses the overall national environmental effect of the 44 proposed TCAs. This assessment addresses the aircraft noise, aircraft emissions, and fuel consumption impacts of the program as a whole, and concludes that these impacts would not significantly affect the quality of the human environment. This national assessment is in the Regional and Washington dockets. In addition, like the economic study, this programwide assessment has been supplemented with an environmental assessment prepared by the Regional Office, responding to the site-specific impacts of the Phoenix, Ariz., TCA proposal. Since the TCA proposal has been reduced in size both vertically and laterally, aircraft emissions, aircraft noise and fuel consumption impacts would not significantly change. Accordingly, the environmental effect of the revised configuration proposed herein would not significantly affect the human environment.

The Proposed Amendment

Accordingly, pursuant to the authority delegated to me, the Federal Aviation Administration proposes to amend § 71.401(b) of Part 71 of the Federal Aviation Regulations (14 CFR Part 71) as republished (46 FR 768) by adding a new Group II TCA to read as follows:

Subpart K—Terminal Control Areas

§ 71.401 Designation

* * * * *

(b) Group II, TCAs:

* * * * *

Phoenix, Ariz., TCA.

Primary Airport

Phoenix Sky Harbor International Airport (Lat. 33°26'10"N., Long. 112°00'31"W.)

Boundaries

Based on arcs of the Phoenix ASR antenna (Lat. 33°25'41.8"N., Long. 111°59'54.6"W.) and radials of the Phoenix VORTAC (PHX), Chandler VORTAC (CHD) and Casa Grande VORTAC (CZG).

VFR Corridor

That airspace extending upward from 4,100 feet MSL to and including 5,500 feet MSL, 3.0 NM wide centered on a line drawn perpendicular to the PHX 270°T(256°M) radial, 6.1 NM west of the PHX VORTAC, and bounded on the north by a line 3.8 NM north of and parallel to the PHX 270°T(256°M) radial, and on the south by a line 3.2 NM south of and parallel to the PHX 270°T(356°M) radial.

Area A. That airspace extending from the surface upward to and including 8,000 feet MSL bounded by a line beginning at a point 12.6 NM west of the PHX VORTAC and 3.2 NM south of the PHX 270°T(256°M) radial; thence northbound perpendicular to the PHX 270°T(256°M) radial to a point 3.8 NM north of the PHX 270°T(256°M) radial; thence eastbound parallel to the PHX 270°T(256°M) radial to a point 0.3 NM west of the PHX 360°T(346°M) radial; thence southbound perpendicular to the PHX 270°T(256°M) radial to a point 3.2 NM south of the PHX 270°T(256°M) radial; and thence westbound to the point of origin; excluding that airspace within the VFR corridor.

Area B. That airspace extending upward from 2,600 feet MSL to and including 8,000 feet MSL, west of the Phoenix Sky Harbor International Airport, bounded on the west by the 10 NM arc of the Phoenix ASR antenna; on the north by a line 3.8 NM north of and parallel to the PHX 270°T(256°M) radial; on the south by a line 3.2 NM south of and parallel to the PHX 270°T(256°M) radial; and on the east by a line drawn perpendicular to the PHX 270°T(256°M) radial, 12.6 NM west of the PHX VORTAC.

Area C. That airspace extending upward from 2,600 feet MSL to and including 8,000 feet MSL, east of the Phoenix Sky Harbor International Airport, bounded on the east by the 10 NM arc of the Phoenix ASR antenna; on the north by a line 3.8 NM north of and parallel to the PHX 090°T(076°M) radial; on the south by a line 3.2 NM south of, and parallel to, the PHX 090°T(076°M) radial; and on the west by a line drawn perpendicular to the PHX 270°T(256°M) radial, 0.3 NM west of the PHX VORTAC.

Area D. That airspace extending upward from 4,000 feet MSL to and including 8,000 feet MSL, west of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point 9 NM north of the PHX 270°T(256°M) radial on the 15 NM arc of the Phoenix ASR antenna; thence east parallel to the PHX 270°T(256°M) radial to intercept the CZG 350°T(336°M) radial; thence along the CZG 350°T(336°M) radial to a point 3.8 NM north of the PHX 270°T(256°M) radial and 7.6 NM west of the PHX VORTAC; thence westbound parallel to the PHX 270°T(256°M) radial to intercept the 10 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 10 NM arc to a point 3.2 NM south of the PHX 270°T(256°M) radial; thence east parallel to the PHX 270°T(256°M) radial to a point 7.6 NM west of the PHX VORTAC; thence southwest direct to the CHD 270°T(256°M) radial 21.2 NM DME fix; thence west along the CHD 270°T(256°M) radial to the 15 NM arc of the Phoenix ASR antenna; thence clockwise along the 15 NM arc to the point of origin.

Area E. That airspace extending upward from 4,000 feet MSL to and including 8,000 feet MSL, east of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point 4.6 NM west of the PHX VORTAC and 3.8 NM north of the PHX 270°T(256°M) radial; thence direct to a point 10 NM from the Phoenix ASR antenna on the 020°T(006°M) bearing; thence east, parallel to the PHX 090°T(076°M) radial, to intercept the 15 NM arc of the Phoenix ASR antenna; thence clockwise to intercept the PHX 074°T(060°M) radial; thence west along the PHX 074°T(060°M) radial to intercept the CZG 012°T(358°M) radial; thence south along the CZG 012°T(358°M) radial to intercept the CHD 270°T(256°M) radial; thence west along the CHD 270°T(256°M) radial to intercept the CZG 353°T(339°M) radial; thence north along the CZG 353°T(339°M) radial to a point 4.6 NM west of the PHX VORTAC and 3.2 NM south of the PHX 270°T(256°M) radial; thence

eastbound parallel to the PHX 270°T(256°M) radial to intercept the 10 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 10 NM arc to a point 3.8 NM north of the PHX 090°T(076°M) radial; thence west to the point of origin.

Area F. That airspace extending upward from 5,600 feet MSL to and including 8,000 feet MSL, north of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point 4.6 NM west of the PHX VORTAC and 3.8 NM north of the PHX 270°T(256°M) radial; thence direct to a point 10 NM from Phoenix ASR antenna on the 020°T(006°M) bearing; thence east parallel to the PHX 090°T(076°M) radial to intercept the 15 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 15 NM arc to a point 9 NM north of the PHX 270°T(256°M) radial; thence east parallel to the PHX 270°T(256°M) radial to intercept the CZG 350°T(336°M) radial; thence southbound along the CZG 350°T(336°M) radial to a point 3.8 NM north of the PHX 270°T(256°M) radial and 7.6 NM west of the PHX VORTAC; thence east to the point of origin.

Area G. That airspace extending upward from 5,600 feet MSL to and including 8,000 feet MSL, south of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point 3.2 NM south of the PHX 270°T(256°M) radial and 7.6 NM west of the PHX VORTAC; thence east parallel to the PHX 270°T(256°M) radial to intercept the CZG 353°T(339°M) radial; thence south along the CZG 353°T(339°M) radial to intercept the CHD 270°T(256°M) radial; thence east along the CHD 270°T(256°M) radial to intercept the CZG 012°T(358°M) radial; thence south along CZG 012°T(358°M) radial to intercept the 15 NM arc of the Phoenix ASR antenna; thence clockwise along the 15 NM arc to intercept the CZG 329°T(315°M) radial; thence north along the CZG 329°T(315°M) radial to intercept the CHD 270°T(256°M) radial; thence east along the CHD 270°T(256°M) radial to the CHD 21.2 NM DME fix; thence north to the point of origin.

Area H. That airspace extending upward from 7,000 feet MSL to and including 8,000 feet MSL, north of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point where the CZG 342°T(328°M) radial intersects the 15 NM arc of the Phoenix ASR antenna; thence clockwise along the 15 NM arc to intercept the PHX 004°T(350°M) radial; thence north along the PHX 004°T(350°M) radial to intercept the 20 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 20 NM arc to intercept the CZG 342°T(328°M) radial; thence south along the CZG 342°T(328°M) radial to the point of origin.

Area I. That airspace extending upward from 5,600 feet MSL to and including 8,000 feet MSL, northeast of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point where the PHX 039°T(025°M) radial intersects the 15 NM arc of the Phoenix ASR antennas; thence clockwise along the 15 NM arc to intercept the PHX 074°T(060°M) radial; thence along the PHX 074°T(060°M) radial to intercept the 20 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 20 NM arc to intercept the PHX 039°T(025°M) radial; thence southwest along the PHX 039°T(025°M) radial to the point of origin.

Area J. That airspace extending upward from 7,000 feet MSL to and including 8,000 feet MSL south of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point where the PHX 164°T(150°M) radial intersects the 15 NM arc of the Phoenix ASR antenna; thence clockwise along the 15 NM arc to intercept the CZG 329°T(315°M) radial; thence along the CZG 329°T(315°M) radial to intercept the 20 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 20 NM arc to intercept the PHX 164°T(150°M) radial; thence north along the PHX 164°T(150°M) radial to the point of origin.

Area K. That airspace extending upward from 5,600 feet MSL to and including 8,000 feet MSL, west of the Phoenix Sky Harbor International Airport, bounded by a line beginning at a point where the PHX 259°T(245°M) radial intersects the 15 NM arc of the Phoenix ASR antenna; thence clockwise along the 15 NM arc to intercept the PHX 277°T(263°M) radial; thence west along the PHX 277°T(263°M) radial to intercept the 20 NM arc of the Phoenix ASR antenna; thence counterclockwise along the 20 NM arc to intercept the PHX 259°T(245°M) radial; thence east along the PHX 259°T(245°M) radial to the point of origin.

(Secs. 307(a), and 313(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1354(a)); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)); and 14 CFR 11.65)

It has been determined under the criteria of the Regulatory Flexibility Act that this proposed rule, at promulgation, will not have a significant impact on a substantial number of small entities. This proposed rule affects only air navigation and air traffic control in a limited airspace. Any effect on small aviation businesses in the Phoenix area should be minimal.

Note.—The FAA has determined that this document involves a proposed regulation which is not a major rule under Executive Order 12291, nor a significant rule pursuant to the Department of Transportation Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Under the provisions of Executive Order 12291, its implementation would not have a major economic effect on consumers, industries, Federal, state, and local governmental agencies, or geographic regions. There would be no significant effects on competition, employment, investment, productivity, innovations, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or import markets. The total projected costs of this rule may be found in a copy of the draft regulatory evaluation contained in the public docket. A copy of that evaluation may be obtained by contacting the person identified above under the caption "**FOR FURTHER INFORMATION CONTACT:** . . ."

Issued in Washington, D.C., on May 19, 1981.

26 CFR Part 31

[LR-8-81]

Voluntary Withholding From Sick Pay; Public Hearing on Proposed Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Notice of public hearing on proposed regulations.

SUMMARY: This document provides notice of a public hearing on proposed regulations relating to voluntary withholding from sick pay.

DATES: The public hearing will be held on August 11, 1981, beginning at 10:00 a.m. Outlines of oral comments must be delivered or mailed by July 28, 1981.

ADDRESS: The public hearing will be held in the I.R.S. Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. The outlines should be submitted to the Commissioner of Internal Revenue, Attn: CC:LR:T (LR-8-81), Washington, D.C. 20224.

FOR FURTHER INFORMATION CONTACT: Charles Hayden of the Legislation and Regulations Division, Office of Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue NW., Washington, D.C. 20224, 202-566-3935, not a toll-free call.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is proposed regulations under section 3402(o) and 6051(f) of the Internal Revenue Code of 1954. The proposed regulations appeared in the **Federal Register** for Friday, May 1, 1981 (46 FR 24595).

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to the public hearing. Persons who have submitted written comments within the time prescribed in the notice of proposed rulemaking and also desire to present oral comments at the hearing on the proposed regulations should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by July 28, 1981. Each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the government and answers to these questions.

Because of controlled access restrictions, attendees cannot be admitted beyond the lobby of the Internal Revenue Building until 9:45 a.m.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of the agenda will be available free of charge at the hearing.

This document does not meet the criteria for significant regulations set forth in paragraph 8 of the Treasury Directive for improving government regulations appearing in the **Federal Register** for Wednesday, November 8, 1978.

By direction of the Commissioner of Internal Revenue.

David E. Dickinson,

Director, Legislation and Regulations Division.

BILLING CODE 4830-01-M

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 110

[CGD1-80-9-R]

Establishment of a Special Anchorage Area in Boston Inner Harbor, Boston, Mass.

AGENCY: Coast Guard, Department of Transportation.

ACTION: Proposed rule.

SUMMARY: The Coast Guard is proposing to establish a Special Anchorage Area near the entrance to Fort Point Channel in Boston Harbor, Boston, Massachusetts at the request of the City of Boston.

This proposal is necessary due to the increased number of pleasure craft utilizing Boston Harbor. Adoption of this proposal will provide adequate anchorage space for small craft in the area and would relieve them of the requirement to carry and display anchor lights while utilizing the Special Anchorage.

DATES: Written comments must be submitted on or before 24 July 1981. A Public Hearing will be held at 0930 on 9 July 1981. Upon written request, the Public Hearing will be reconvened at 1900 on 9 July 1981.

ADDRESSES: Written comments should be submitted to and are available for examination at the office of the Captain of the Port of Boston, U.S. Coast Guard Marine Safety Office, 447 Commercial Street, Boston, Massachusetts 02109. The Public Hearing will be held in the Wardroom, 5th floor, Coast Guard Support Center, 427 Commercial Street, Boston, Massachusetts.

FOR FURTHER INFORMATION CONTACT: LCDR Theophilus MONIZ III, U.S. Coast Guard Marine Safety Office, 447 Commercial Street, Boston, Massachusetts 02109, (617) 223-1470.

SUPPLEMENTARY INFORMATION: Interested persons are invited to participate in this proposed rulemaking by submitting written views, data or arguments. Each person submitting a comment should include their name and address, identify this notice, the specific section of the proposal to which their comment applies, and give reason for the comment. Persons desiring acknowledgement that their comment has been received should enclose a stamped self-addressed postcard or envelope. All comments received before the expiration of the comment period will be considered before final action is taken on this proposal.

Drafting Information

The principal persons involved in drafting this proposal are LCDR Theophilus MONIZ III, U.S. Coast Guard Marine Safety Office, Boston Massachusetts and LT Joseph DONOVAN, Project Attorney, Commander (dl), First Coast Guard District, 150 Causeway Street, Boston, Massachusetts.

Discussion of Proposed Regulation

The Coast Guard, at the request of the City of Boston, Massachusetts is proposing to amend the Anchorage Regulations by establishing a Special Anchorage Area in Boston Inner Harbor, Boston, Massachusetts. This anchorage area will be for the use of the general public. An increase in the number of pleasure craft utilizing Boston Harbor warrants the establishment of this Special Anchorage Area. In Special Anchorage Areas, vessels of not more than 65 feet in length, when at anchor,

are not required to carry or display anchor lights.

The adjacent waters of the proposed area are non-navigable U.S. waters declared by Public Law 90–312. The shoreline beyond the adjacent non-navigable waters is bounded by city property controlled by the Boston Redevelopment Authority and the Harbor Towers property at India Wharf, which is privately owned. The owners of the Harbor Towers property have been contacted and indicated no objection to this proposal.

An Environmental Assessment was completed in February 1981 which resulted in a finding of no significant impact on the quality of the human environment. Environmental information can be obtained from Mr. P.V. Kaselis, Environmental Specialist, First Coast Guard District, 150 Causeway Street, Boston, Massachusetts.

The only effect of the proposed regulation is the designation of an anchorage area near the entrance to Fort Point Channel in Boston Inner Harbor which should relieve the congestion by the random anchorage of small craft. Vessels utilizing this limited area would not be required to display anchor lights which would enhance visability of other vessels transiting Fort Point Channel. Limited access to this area will not impede normal navigation and will have no economic impact on any entity.

This proposed regulation has been reviewed under the provisions of Executive Order 12291 and has been determined not to be a major rule. In addition, this proposed regulation is considered to be nonsignificant in accordance with the guidelines set out in the Policies and Procedures for Simplification, Analysis, and Review of Regulations (DOT Order 2100.5 of 5–22–80). An economic evaluation has not been conducted since, for the reasons discussed above, its impact is expected to be minimal. In accordance with § 605(b) of the Regulatory Flexibility Act (94 Stat. 1164), it is certified that this rule, if promulgated, will not have a significant economic impact on a substantial number of small entities.

In consideration of the foregoing, it is proposed that Part 110 of Title 33 Code of Federal Regulations be amended to provide three adjacent Special Anchorage Areas by adding § 110.30(m) to read as follows:

§ 110.30 [Amended]

* * * * *

(m)(1) *Boston Inner Harbor A.* The waters of the eastern side of Boston Inner Harbor adjacent to the entrance to Fort Point Channel bounded by a line beginning at latitude 42°21′ 24″N, longitude 71°02′ 53″W; thence 305° T to latitude 42°21′ 26″N, longitude 71°02′ 57″W; thence 029° T to latitude 42°21′ 31″N, longitude 71°02′ 53″W; thence 077° T to latitude 42°21′ 32″N, longitude 71°02′ 47″W; thence along a line bearing 209° T to point of origin.

(2) *Boston Inner Harbor C.* The waters of the eastern side of Boston Inner Harbor adjacent to the entrance to Fort Point Channel bounded by a line beginning at latitude 42°21′ 22″N, longitude 71°02′ 55.5″W; thence 208° T to latitude 42°21′ 20″N, longitude 71°02′ 57.5″W; thence 257° T to latitude 42°21′ 19″N, longitude 71°03′ 01″W; thence 029° T to latitude 42°21′ 22.5″N, longitude 71°02′ 57.5″W; thence along a line bearing 125° T to point of origin.

(3) *Boston Inner Harbor B.* The waters of the eastern side of Boston Inner Harbor adjacent to the entrance to Fort Point Channel bounded by a line beginning at latitude 42°21′ 24″N, longitude 71°02′ 53″W; thence 029° T to latitude 42°21′ 32″N, longitude 71°02′ 47″W; thence 139° T to latitude 42°21′ 27″N, longitude 71°02′ 41″W; thence along a line bearing 254° T to point of origin.

Note.—Administration of the Special Anchorage Areas is excercised by the Harbormaster, City of Boston pursuant to local ordinances. The City of Boston will install and maintain suitable navigational aids to mark the perimeter of the Anchorage area.

(33 U.S.C. 180, 471; 33 CFR 1.05–1(g)(2), 49 CFR 1.46(c))

Dated: June 1, 1981.

R. H. Wood,

Rear Admiral, U.S. Coast Guard Commander, First Coast Guard District.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 123

[SW–3–FRL 1853–6]

Virginia Application for Interim Authorization, Phase I; Hazardous Waste Management Program

AGENCY: Environmental Protection Agency, Region III.

ACTION: Postponement of public hearing and extension of public comment period.

SUMMARY: EPA Regulations to protect human health and the environment from the improper management of hazardous waste were published in the **Federal Register** on May 19, 1980 (45 FR 33063). These regulations include provisions for authorization of State programs to operate in lieu of the Federal program. Today EPA is postponing the Public Hearing originally scheduled for June 17, 1981, on the Virginia application for Phase I Interim Authorization, and extending the public comment period due to increased public interest.

DATE: Comments on the Virginia Interim Authorization application must be received by July 30, 1981.

PUBLIC HEARING: EPA will conduct a Public hearing on the Virginia Interim Authorization application at 1:00 p.m. on Thursday, July 30, 1081. The Commonwealth of Virginia will participate in any Public hearing held by EPA on this subject.

ADDRESSES: Copies of the Virginia Interim Authorization application are available at the following addresses for inspection and copying by the public:

Virginia Department of Health, James Madison Building, 109 Governor Street, Richmond, Virginia 23219 (804) 786–5272.

U.S. EPA, Region III, Air, and Hazardous Materials Division, Hazardous Materials Branch, 6th & Walnut Streets, Philadelphia, PA. 19106 (215) 597–7938.

The public hearing will be held at:

Highway Department Building, 1221 East Broad Street, Main Auditorium, Richmond, Virginia 23219.

FOR FURTHER INFORMATION CONTACT: Robert L. Allen, U.S. EPA, Air, and Hazardous Materials Division, 6th & Walnut Streets, Philadelphia, Pa. 19106 (215) 597–0980.

Jack Schramm,

Regional Administrator.

40 CFR Part 180

[OPP–300024; PH–FRL–1852–8]

1,2-Benzisothiazolin-3-One; Proposed Exemption From the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: This notice proposes that the inert (or occasionally active) ingredient 1,2-benzisothiazolin-3-one in pesticide formulations be exempted from tolerance requirements. The proposal was submitted by ICI Americas, Inc.

DATE: Comments must be received on or before July 15, 1981.

ADDRESS: Written comments to: John A. Shaughnessy, Registration Division (TS–767C), Office of Pesticide Program,

Environmental Protection Agency, Washington, D.C. 20460.

FOR FURTHER INFORMATION CONTACT:
John A. Shaughnessy (703–557–7110).

SUPPLEMENTARY INFORMATION: At the request of ICI Americas, Inc., Wilmington, Delaware 19897, the Administrator is proposing to amend 40 CFR 180.1001(d) by exempting 1,2-benzisothiazolin-3-one which is an inert (or occasionally active) ingredient in all pesticide formulations, from tolerance requirements (certain limitations apply).

Inert ingredients are all ingredients which are not active ingredients as defined in 40 CFR 162.3(c), and include, but are not limited to, the following types of ingredients (except when they have pesticide efficacy of their own): Solvents such as water; baits such as sugar, starches, and meat scraps; dust carriers such as talc and clay; fillers; wetting and spreading agents; propellants in aerosol dispensers; and emulsifiers. The term "inert" is not intended to imply nontoxicity; the ingredient may or may not be chemically active.

Preambles to proposed rulemaking documents of this nature include the common or chemical name of the substance under consideration, the name and address of the firm making the request for the exemption, and the toxicological and other scientific bases used in arriving at a conclusion of safety in support of the exemption.

Inert ingredient	Firm	Bases for approval
1,2-benzisothiazolin-3-one	ICI Americas, Inc., Wilmington, DE 19897	90-day dog and rat feeding studies. Ames mutagenicity test. Literature search. Limited to 0.1% in formulations. Limited to no more than 0.02 pound applied per acre.

Background

EPA issued a notice that published in the **Federal Register** of March 14, 1977 (42 FR 13842) that proposed an exemption for 1,2-benzisothiazolin-3-one from the requirement of a tolerance when used as an inert (or occasionally active) ingredient in all pesticide formulations, applied to growing crops only. The exemption was proposed at the request of ICI United States, Inc., the predecessor of ICI Americas, Inc. The toxicological basis for the exemption was Food Additive Petition #3H2927, which included two 90-day feeding studies (dog and rat).

Only one comment was received on this proposal. It stated that 1,2-benzisothiazolin-3-one is very closely related to saccharin, a suspected carcinogen, and that approval should be held up pending further information from the manufacturer. Based on this comment, 1,2-benzisothiazolin-3-one was deleted from the list of proposed exemptions in a **Federal Register** notice of July 8, 1977 (42 FR 35158).

Subsequent discussions with ICI representatives indicated that they were only interested in using 1,2-benzisothiazolin-3-one in formulations of pirimiphos-ethyl (at 0.1 percent of the formulation) and only on melons. The agency concluded that such use might cause trace residues of 1,2-benzisothiazolin-3-one on treated melons. However, it was concluded that any such residues would not be consumed by humans, since the rinds of fresh melons are not consumed by humans. Even if the rind portion is converted to preserves, the outside, impervious portion of the rind is also removed prior to cooking.

The (October 19, 1978) proposal gave the chemical name of pirimiphos-ethyl, the active ingredient, as *O,O*-diethyl *O*-(2-diethylamino-6-methyl-4-pyrimidinyl) phosphorothioate. The final order was published in the **Federal Register** of February 8, 1979 (44 FR 7953). This notice corrected the name of the active ingredient as requested by ICI. Section 180.1044 now limits the exemption for 1,2-benzisothiazolin-3-one to 0.1 percent in formulations of 5-butyl-2-(ethylamino)-6-methyl-4 (3*H*) pyrimidinone, applied to melons only.

On September 25, 1979, ICI Americas, Inc. submitted Ames test (toxicity) data on 1,2-benzisothiazolin-3-one with a request for the general blanket exemption as originally proposed March 14, 1977. As part of their review, agency toxicologists also made a search of the literature.

Scientific bases for proposed exemption include:

1. Two 90-day feeding studies (dog and rat).
2. Literature search.
3. Negative (non-mutagenic) results for Ames Mutagenicity test.
4. Exposure is limited because there is a restriction to 0.1 percent in formulations, and not more than 0.02 pound per acre.

Based on the above information and a review of its use, it has been found that, when used in accordance with good agricultural practice, this ingredient is useful and does not pose a hazard to the environment. It is concluded, therefore, that the proposed amendment to 40 CFR 180.1001 and 180.1044 will protect the public health, and it is proposed that the regulation be established as set forth below. In addition, it is proposed that § 180.1044, which established an exemption from a tolerance for residues of 1,2-benzisothiazolin-3-one in formulations of 5-Butyl-2-(ethylamino)-6-methyl-4 (3*H*) pyrimidionone on melons at no more than 0.1 percent of formulation, be revoked.

Any person who has registered or submitted an application for the registration of a pesticide product under the Federal Insecticide, Fungicide, and Rodenticide Act, which contains 1,2-benzisothiazolin-3-one, may request, within 30 days after publication of this proposal in the **Federal Register**, that this proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments on the proposed regulation. The comments must bear a notation indicating both the subject matter and the document control number "OPP–300024." All written comments filed in response to this notice will be available for public inspection in the Process Coordination Branch, Rm. 514D, Crystal Mall #2, from 8:00 a.m. to 4:00 p.m., Monday through Friday, except legal holidays.

As required by Executive Order 12291, EPA has determined that this proposed rule is not a "Major" rule and therefore does not require a Regulatory Impact Analysis. In addition, the Office of Management and Budget (OMB) has exempted this proposal from the OMB review requirement of Executive Order 12291, pursuant to section 8(b) of that Order.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96–534, 94 Stat. 1164, 5 U.S.C. 601–612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

(Sec. 408(e), 68 Stat. 514 (21 U.S.C. 346a(e)))

Dated: June 4, 1981.

Douglas D. Campt,

Director, Registration Division, Office of Pesticide Programs.

Therefore, it is proposed that Subpart D of 40 CFR Part 180, be amended as follows:

1. Section 180.1001(d) is amended by alphabetically inserting "1,2-benzisothiazolin-3-one * * *" in the table to read as follows:

§ 180.1001 Exemption from the requirement of a tolerance.

* * * * *

(d) * * *

Insert ingredients	Limits	Use
* * * * * * *		
1,2-benzisothiazolin-3-one	Not more than 0.1 percent of formulation. Not more than 0.02 pound to be applied per acre.	Preservative stabilizer
* * * * * * *		

§ 180.1044 [Removed]

2. Removing § 180.1044 1,2-benzisothiazolin-3-one; exemption from the requirement of a tolerance.

BILLING CODE 6560-32-M

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-5973]

National Flood Insurance Program; Revision of Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed base (100-year) flood elevations listed below for selected locations in the Township of Greenfield, Blair County, Pennsylvania.

Due to recent engineering analysis, this proposed rule revises the proposed determinations of base (100-year) flood elevations published in the **Federal Register** at 46 FR 8043 on January 26, 1981, and hence supersedes those previously published rules.

DATES: The period for comments will be ninety (90) days following the second publication of this notice in a newspaper of local circulation in each community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed flood elevations are available for review at the Greenfield Township Building, East Freedom, Pennsylvania.

Send comments to: Honorable Raymond Mountain, Chairman of the Greenfield Board of Supervisors, R.D. 1, East Freedom, Pennsylvania 16637.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program (202) 755-5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: Proposed base (100-year) flood elevations are listed below for selected locations in the Township of Greenfield, Blair County, Pennsylvania, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90-448)), 42 U.S.C. 4001-4128, and 44 CFR 67.4(a).

These base (100-year) flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

These modified elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

Proposed Base (100-Year) Flood Elevations

State	City/Town/county	Source of flooding	Location	#Depth in feet above ground, *Elevation in feet (NGVD)
Pennsylvania	Greenfield, Township, Blair County	Frankstown Branch, Juniata River	Downstream Corporate Limits	*1,053
			Confluence of Polecat Run	*1,075

National Flood Insurance Program; Proposed Zone Designations for Brown, County, Unincorporated Areas, Wisconsin

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed zone designations described below.

The proposed zone designations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety-days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed zone designations are available for review at 305 East Walnut Street, North Building, Green Bay, Wisconsin.

Send comments to: Mr. William H. Hnilicka, County Administrator, Brown County, 305 East Walnut Street, North Building, Green Bay, Wisconsin 54301.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program Inplementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, SW., Washington, D.C. 20410 (202) 755–6570.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed zone designations for Brown County, Unincorporated Areas, Wisconsin, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

Zone designations and base (100-year) flood elevations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed zone designations will also be used to calculate the appropriate flood insurance premium rates ror new bulldings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed zone designations are:

Zone A3, Zone B, and Zone C along Green Bay, between Brown County's northern corporate limits and the Village of Howard's northern corporate limits.

Zone A6, Zone B, an Zone C along the Suamico River between State Route "M" and North Lakeview Drive.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); Executive Order 12127; 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 8, 1981.

Robert G. Chappell,

Acting Assistont Administrator, Federal Insurance Administration.

[Docket No. FEMA-6012]

National Flood Insurance Program; Proposed Flood Elevation Determinations; Correction

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Raymond, Rockingham County, New Hampshire, previously published at 46 FR 17800 on March 20, 1981, and in the *Manchester Union Leader* on March 6, 1981, and March 13, 1981.

EFFECTIVE DATE: June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Raymond, Rockingham County, New Hampshire, previously published at 46 FR 17800 on March 20, 1981, and the *Manchester Union Leader* on March 6, 1981, and March 13, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

Due to a clerical error, a location under the Source of Flooding of Lamprey River was listed at "Downstream side of State Route 107"; it should be amended to read "Downstream side of State Route 102." The corresponding elevation was correct as published.

(National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 5, 1981.

[Docket No. FEMA-6086]

National Flood Insurance Program; Proposed Special Flood Hazard Areas, Base Flood Elevations, and Zone Designation Determinations for the City of Beulah, Mercer County, N. Dak.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed special flood hazard areas, base flood elevations, and zone designations as described below.

The proposed special flood hazard areas, base flood elevations, and zone designations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the

flood-prone areas and the proposed special flood hazard areas, base flood elevations, and zone designations are available for review at the Office of the City Planner, City Hall, Beulah, North Dakota.

Send comments to: The Honorable Darold Benz, Mayor, City of Beulah, P.O. Box 910, Beulah, North Dakota 58523.

FOR FURTHER INFORMATION CONTACT: Robert G. Chappell, P.E., Acting Assistant Administrator, Program Implementation and Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, D.C. 20410 (202) 755–6570 (in Alaska and Hawaii call toll free (800) 424–9080).

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed special flood hazard areas, base flood elevations, and zone designations for the City of Beulah, North Dakota, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 67.

These special flood hazard areas, base flood elevations, and zone designations, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. It should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed special flood hazard areas, base flood elevations, and zone designations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed special flood hazard areas, base flood elevations, and zone designations are as follows:

Source of flooding	Location	Elevation (NGVD)	Zone designation
Knife River	At the eastern extraterritorial limits.	1,767	A6.
Knife River	At Section Line bridge.	1,769	A6.
Knife River	Between the Burlington Northern Railroad and the western extraterritorial limits.	1,784	A6.
West Tributary, Knife River.	Upstream of 7th Street.	None	A.
East Tributary, Knife River.	Upstream of the limit of detailed study.	do	A.
Unnamed Stream	Between the confluence of East Tributary Knife River and 10th Street.	do	A.

In addition, the base flood elevations have been adjusted to coincide with the published profiles along the West Tributary Knife River and the East Tributary Knife River.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 8, 1981.

Robert G. Chappell,

Acting Assistant Administrator, Federal Insurance Administration.

National Flood Insurance Program; Proposed Special Flood Hazard Areas for the City of Bountiful, Davis County, Utah

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed Special Flood Hazard Areas as described below.

The proposed Special Flood Hazard Areas are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed Special Flood Hazard Areas are available for review at the Office of the Public Utility Department, 790 South 100 East, Bountiful, Utah.

Send comments to: The Honorable Elmer W. Barlow, Mayor, City of Bountiful, 790 South 100 East, Bountiful, Utah 84010.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappel, Acting Assistant Administrator, Program Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street SW., Washington, DC 20410, (202) 755–6570 (in Alaska and Hawaii call toll free (800) 424–9080).

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed Special Flood Hazard Areas for the City of Bountiful, Utah, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 67.

These Special Flood Hazard Areas, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. It should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed Special Flood Hazard Areas will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

The proposed Special Flood Hazard Areas are as follows:

Source of flooding	Location	Zone designation
North Canyon Creek.	Between 400 East Street and the eastern corporate limits.	A
Stone Creek	Between a point approximately 2,200 feet upstream of 1,300 East Street and the eastern corporate limits.	A
North Fork Stone Creek.	Between a point approximately 800 feet upstream of Northridge Drive and the eastern corporate limits.	A

In addition, the flood delineation along the upper reach of Dry Hollow No. 1 has been deleted.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42

U.S.C. 4001–4128); Executive Order 12127 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 8, 1981.

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Leicester, Livingston County, New York, previously published at 46 FR 17801 on March 20, 1981.

EFFECTIVE DATE: June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program, (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of Leicester, Livingston County, New York, previously published at 46 FR 17801 on March 20, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 80, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

In order for the following location to be correctly identified with the corresponding Flood Insurance Study (profile) and Flood Insurance Rate Map for the Source of Flooding Genesee River, in the Town of Leicester, Livingston County, New York, the description "approximately 4,200' upstream of State Route 36" should be amended to read "approximately 625' upstream of State Route 36". The elevation was correct as cited.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator).

Issued: June 1, 1981.

[Docket No. FEMA-6005]

National Flood Insurance Program; Proposed Flood Elevation Determinations

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule; correction.

SUMMARY: This document corrects a Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of York, Livingston County, New York, previously published at 46 FR 15294 on March 5, 1981.

EFFECTIVE DATE: June 15, 1981.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Federal Emergency Management Agency, Federal Insurance Administration, National Flood Insurance Program (202) 755–5585, Washington, D.C. 20472.

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the correction to the Notice of Proposed Determinations of base (100-year) flood elevations for selected locations in the Town of York, Livingston, County, New York, previously published at 46 FR 15294 on March 5, 1981, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 (Pub. L. 90–448)), 42 U.S.C. 4001–4128, and 44 CFR 67.4(a).

In order for the following locations to be correctly identified with the corresponding Flood Insurance Study (profile) and Flood Insurance Rate Map for the Source of Flooding Browns Creek in the Town of York, Livingston County, New York, the descriptions should be amended to read as follows. The elevations were correct as cited.

Source of flooding	Location	*Elevation in feet (NGVD)
Browns Creek	Approximately 2,130' downstream of Genesee and Wyoming Railroad.	*648
	Approximately 1,150' downstream of Genesee and Wyoming Railroad.	*660

(National Flood Insurance Act of 1968 ((Title XIII of the Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

[Docket No. FEMA-6085]

National Flood Insurance Program; Proposed Special Flood Hazard Areas for the City of Indian Wells, Riverside County, Calif.

AGENCY: Federal Insurance Administration, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are solicited on the proposed Special Flood Hazard Areas For the City of Indian Wells Riverside County, California as described below.

The proposed Special Flood Hazard Areas are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The period for comment will be ninety (90) days following the second publication of this proposed rule in the newspaper of local circulation in the above-named community.

ADDRESSES: Maps and other information showing the detailed outlines of the flood-prone areas and the proposed Special Flood Hazard Areas available for review at the Planning Department, 45–300 Club Drive, Indian Wells, California.

Send comments to: The Honorable Frank Chiulson, Mayor, City of Indian Wells, 45–300 Club Drive, Indian Wells, California 92260.

FOR FURTHER INFORMATION CONTACT: Mr. Robert G. Chappell, Acting Assistant Administrator, Program

Implementation & Engineering Office, National Flood Insurance Program, 451 Seventh Street, SW., Washington, DC 20410, (202) 755–6570 (in Alaska and Hawaii call toll free (800) 424–9080).

SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed Special Flood Hazard Areas for the City of Indian Wells, California, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (Pub. L. 93–234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XVII of the Housing and Urban Development Act of 1968, Pub. L. 90–448), 42 U.S.C. 4001–4128, and 44 CFR Part 67.

These Special Flood Hazard Areas, together with the flood plain management measures required by § 60.3 of the program regulations, are the minimum that are required. It should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, State, or regional entities. The proposed Special Flood Hazard Areas will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and their contents.

Due to the completion of the Deep Canyon-Haystack Flood-Control Project and the Living Desert Debris Basin Project and the addition of recently annexed areas, the Special Flood Hazard Areas are being revised. The above projects revise the zone designations and flood delineations along the Deep Canyon Storm Water Channel. The proposed zone designations of the redelineated Special Flood Hazard Areas are Zone A, Zone A0, depth 3 feet, and Zone B. Also, due to a recently annexed area in the northern portion of the City, the proposed zone designation along with the Whitewater River is Zone A. The remaining annexed area is Zone C.

(National Flood Insurance Act of 1968 (Title XIII of Housing and Urban Development Act of 1968), effective January 28, 1969 (33 FR 17804, November 28, 1968), as amended; (42 U.S.C. 4001–4128); Executive Order 12127, 44 FR 19367; and delegation of authority to Federal Insurance Administrator)

Issued: June 8, 1981.

Robert G. Chappell,

Acting Assistant Administrator, Federal Insurance Administration.

BILLING CODE 6718-03-M

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

[CC Docket No. 81-343; FCC 81-243]

Inquiry Into the Policies To Be Followed in the Authorization of Common Carrier Facilities To Meet Pacific Region Telecommunications Needs During the 1981–1995 Period

AGENCY: Federal Communications Commission.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: Document initiates a comprehensive planning procedure to govern the future licensing of telecommunications facilities for the Pacific region for the 1981–1995 time period. A comprehensive planning procedure for the Pacific region is necessary since *ad hoc* review of individual facilities applications is inefficient and does not provide the type of information needed to effectuate the public interest objective of attaining efficient utilization of the lowest cost combination of facilities which can satisfy valid traffic needs and quality of service objectives. The intended effect of the Notice of Inquiry is to establish a procedure by which effective planning of the utilization of telecommunications facilities can take place.

DATES: Comments must be submitted on or before July 15, 1981. Reply comments will be due on or before July 30, 1981.

FOR FURTHER INFORMATION CONTACT: John Coles, Common Carrier Bureau, (202) 632–7265; or Michael Cummins, Common Carrier Bureau, (202) 632–4047.

In the matter of inquiry into the policies to be followed in the authorization of common carrier facilities to meet Pacific region telecommunications needs during the 1981–1995 period, CC Docket No. 81–343.

Notice of Inquiry

Adopted: May 15, 1981.

Released: June 1, 1981.

1. This Notice of Inquiry is the first step in our process for developing policies and guidelines for the construction and use of cable and satellite transmission facilities to meet future demands for common carrier services in the Pacific Ocean region.

2. The Commission has for some time now been involved in determining the policy to be followed in the future licensing of transmission facilities for international communications. The Commission's most recent effort in this area has been directed to the North Atlantic region, culminating in the adoption of a comprehensive policy to govern the authorization of cable and satellite facilities for that region through 1985 and the establishment of guidelines for the 1985–1992 period.[1] At the heart of the Commission's efforts in the facilities planning area is the belief that *ad hoc* review of individual applications for specific international transmission facilities is no longer the most efficient method for evaluating the need for such facilities. In recent years, there has been a rapid increase in the pace of technological development, a sharp increase in the demand for international telecommunication services in the Pacific region, and a much more complex set of facility configuration alternatives available. Therefore, a detailed and comprehensive review of regional needs and alternative facilities options is necessary in order to determine which facilities configuration and use options meet the primary public interest objective of attaining efficient utilization of the lowest cost combination of facilities which can satisfy valid traffic needs and quality of service objectives.[2] It is inefficient and cumbersome to attempt to undertake the necessary comprehensive review and analysis within the context of an individual facility application. Moreover, we stated in the Further Statement of Policy and Guidelines in Docket 18875 that, "Accordingly, we will not in the future consider the authorization of major facility investiments and utilization proposals as isolated instances, but will instead

[1] Docket No. 18875 covered the 1980–1985 planning period. *See* e.g., Overseas Communications, 30 F.C.C. 2d 571 (1971) (Statement of Policy and Guidelines), Overseas Communications, 62 F.C.C. 2d 451 (1976) (Further Statement of Policy and Guidelines). *See also*, Overseas Communications, 67 F.C.C. 2d 358 (1977) (Report Order and Third Statement of Policy and Guidelines), *partial recon. granted* 70 F.C.C. 2d 358 (1978), *modified* 71 F.C.C. 2d 1090 (1979), *further modified and adopted* 71 F.C.C. 2d 71 (1979). Policies for Overseas Common Carriers (Memorandum Opinion and Order) 73 F.C.C. 2d 326 (1979). In Docket 79–184, we adopted general policy guidelines to govern the planning period 1985–1992 in the North Atlantic. *See*, Policies for Overseas Common Carriers, (Report and Order) F.C.C. 81–19, —— F.C.C. 2d —— (1981), released January 16, 1981.

[2] This public interest objective was set forth in Further Statement of Policy and Guidelines in Docket No. 18875 (62 F.C.C. 2d at 458–9).

evaluate them in the context of a comprehensive long-range plan for the establishment and use of facilities to serve a particular geographic area during a specified future planning period." [3] Policy guidelines based upon a comprehensive review and analysis of the region would reduce the regulatory risk to U.S. carriers associated with planning a major facility investment decision and negotiating with their foreign correspondents. Also, there is a substantial reduction in the time and resources required to process facility authorization applications which conform to the guidelines, thus improving the efficiency and reducing the time required to complete the whole facility licensing process.

3. Therefore, the purpose of this Notice of Inquiry is to initiate a comprehensive planning process for the Pacific region. This Notice will focus on the following areas: Past Commission policies with respect to facilities utilization in the Pacific region; recent developments in the region; the scope of issues to be considered in the Inquiry and the criteria for evaluation of alternative facilities configuration and use options; and the proposed planning process.

I. History of the Commission's Facility Utilization Policies in the Pacific Region

4. Currently, international transmission facilities in the Pacific region are authorized on an application-by-application basis. The utilization of cable facilities in this region is govered by a three step process. The first step is the authorization by the Commission to construct or to invest in additional cable facilities—acquisition authority. This step is the most important, since it is at this point that the investment becomes a part of the carrier's rate base. The second step is assignment, which essentially involves a designation of points between which the circuits will be used. The third step, activation, is the authorization for carriers to actually utilize the circuits for service. Activation authority is a means of controlling the actual use of circuits that have been authorized.

5. Telecommunications traffic between the U.S. Mainland and Pacific region countries is currently about 10% of total U.S. international traffic (with about 70% to the Atlantic and 20% to the Caribbean and South and Central America), but it is growing rapidly along with trade and commerce in this region. The major traffic streams are between the U.S. Mainland and Japan, Hong Kong, the Philippines, and Australia. The existing submarine cable network provides east-west connections between the U.S. Mainland and Japan and Australia via the TRANSPAC and COMPAC cable systems, respectively. Another group of regional cable systems is used to carry traffic between Japan, Australia and numerous South East Asian countries. The advent of international satellite service in the Pacific in 1967 (INTELSAT II) resulted in the need to examine the utilization of specific transmission facilities for the first time. This need was first specifically addressed when the Commission authorized the construction of the HAWAII-3/TRANSPAC-2 Cable System (between the U.S. Mainland and Japan via Hawaii and Guam) in 1973.[4] At that time, there were a number of factors which dictated that the Commission scrutinize more closely the utilization of facilities in the Pacific region. First, the Pacific Ocean basin, while recognized as an important comunications area for the United States with respect to economic and national security interests, historically had less total volume of traffic exchanged with the contiguous states than between the contiguous states and Europe. In light of that fact, there was considerable doubt concerning the need for a new cable in the area, since the record in that case indicated that the existing Pacific INTELSAT satellite had enough capacity to meet the communications needs of U.S. carriers for the foreseeable future. In authorizing the new cable system, the Commission cited the growing importance of the Pacific region as an indication that traffic between the United States and countries in the area would increase in the future. The Commission cited several factors which would account for the expected future increase in traffic in the region: the developing relationship between the U.S. and the Peoples Republic of China, the emergence of Japan as a major economic power, the growth of trade with Indonesia and the long-standing relationship with commonwealth countries in the Pacific region.[5]

6. While authorizing the construction of the new cable system, the Commission indicated that it would not tolerate traffic handling patterns that would operate to fill the cable while keeping the satellite relatively unused. To further that objective, the Commission stated that it did not expect any freezing of the then-current levels of satellite utilization, but rather that satellite usage is important to ensure adequate media diversity and redundancy of facilities in order to meet valid quality of service objectives. Therefore, it was expected that both cable and satellite circuits would be employed to meet the growing demand specified by the carriers. In addition, the U.S. carriers were required to file activation applications to govern the actual utilization of all Pacific region telecommunications facilities in the future.

7. The first HAWAII-3/TRANSPAC-2 cable activation order[6] authorized the initial activation of TRANSPAC-2 cable circuits for the 1976-1978 time period. More importantly, the Commission took certain steps to ensure that all available telecommunications facilities would be efficiently utilized. First, the activation period was specifically limited to two years in order to guard against the cable being so heavily loaded during its early years of operation that any shortfall in circuit demand requirements would have to be borne solely by satellite facilities.[7] In addition, the Commission specified that the current level of satellite utilization should be maintained as a minimum, and the deloading of satellite circuits onto cable facilities would not be permitted. The Commission also prescribed a method for dealing with any shortfall in circuit projections that would not result in the satellite becoming further underutilized. Under the Commission's method, if a carrier failed to activate its total number of satellite circuits projected for a particular year, it could not activate any additional TRANSPAC-2 cable circuits for the following year.

8. Balanced against the Commission's concern with the efficient utilization of facilities in the Pacific region has been the desire to allow the carriers the greatest degree of flexibility consistent with established policies and guidelines. To that end, the Commission refused to express a preference for a particular overall ratio of cable to satellite circuit utilization. Rather than restrict the carriers to such a rigid requirement, the Commission noted that particular levels of satellite utilization would be viewed on a country-by-country basis, since usage is dependent on such factors as distance, cost and national security considerations.[8]

9. Upon reconsideration of the activation order,[9] the Commission removed the proscription against deloading satellite circuits onto cable. In

addition, the Commission permitted the carriers to have their activation plans considered on either an aggregate or point-by-point basis. Essentially, the aggregate approach focuses on the total number of circuits projected for all points and whether those totals have been met, regardless of the particular utilization to specified points. Under the point-by-point approach, emphasis is placed on the particular utilization mix of circuits between cable and satellite to a given point.

10. This utilization policy and activation process is still in effect subject to a few minor modifications. Due to the significant growth in traffic experienced by the American Telephone and Telegraph Company (AT&T) in the Pacific region over the past two years, our regular two year activation scheme has been unable to keep pace with AT&T's need for additional circuits. In early 1979, AT&T notified us that it has exhausted its total number of circuits scheduled for activation in 1979, and temporary authority was granted to permit AT&T to activate its 1980 allotment of circuits in 1979. AT&T's currently authorized activation plan extends through year-end 1981,[10] while the activation authority for the Hawaiian Telephone Co. and the International Record Carriers[11] extends through 1982.[12]

II. Recent Developments in the Region

11. Currently, communications between the United States and various countries in the Pacific region are accomplished through use of the INTELSAT–IV satellite (and an in-orbit spare) and two trans-Pacific cables which inter-connect with various regional cable systems. The Pacific INTELSAT IV satellite has a capacity of 4,000 voice-grade circuits (8,000 half-circuits) and is approximately 60% filled. Historically, the Pacific region has been served by satellites whose capacities were no longer sufficient for use in other regions. For example, the current/INTELSAT IV reaches the end of its design life in 1981/82, at which time the Indian Ocean INTELSAT IV–A satellite with a capacity of 6,000 voice-grade circuits (12,000 half-circuits) will be moved into the region for use until it reaches the end of its design life. Therefore, decisions concerning the choice among alternative satellite design (and capacity) options are driven largely by the requirements for the Atlantic Ocean region—the largest traffic stream which is responsible for using up the available capacity on the current generation of satellites first. This implies that facilities planning issues regarding satellites in the Pacific region will be restricted largely to the utilization of available facilities vis-a-vis cable facilities. The first trans-Pacific cable, TRANSPAC–1, has a capacity of 142 voice-grade circuits and is filled. The HAWAII–3/TRANSPAC–2 Cable System has a capacity of 845 voice-grade circuits and is composed of three segments: Mainland-Hawaii, Hawaii-Guam and Guam-Okinawa. In order to provide communications via cable to many of the countries in the region, connecting cable systems must be used which interconnect with the HAWAII–3/TRANSPAC–2 system on either Hawaii, Guam or Okinawa. Thus, in order to provide service from the United States to countries in the region, capacity must be available in each segment of the HAWAII–3/TRANSPAC–2 system and each segment of the connecting cable being used.

12. Until recently, there was a problem with capacity in the connecting cable facilities used to extend the HAWAII–3/TRANSPAC–2 system beyond Okinawa. The cables previously utilized for this purpose were low capacity and either became saturated or reached the end of their design lives. To remedy this situation, several Pacific administrations have combined to plan and construct various regional cable systems which serve to interconnect neighboring countries and to extend the HAWAII–3/TRANSPAC–2 system beyond Okinawa.[13] Prior to the construction of these systems, all growth of traffic to places such as Hong Kong, the Philippines, Taiwan, and Singapore had to be accommodated through use of satellite facilities. U.S. carriers have been authorized to acquire circuits in these cable systems on an indefeasible-right-of-user (IRU) basis. However, the investment has been limited to those circuits which the carriers propose to use in accordance with their authorized activation proposals.

13. There are currently two areas of shortage in cable circuit capacity in the region. The first is in the HAWAII–3 Cable. Because of Hawaii's unique status as a domestic service point and a transiting point for international traffic routed via cable facilities, circuits in the HAWAII–3 Cable are used for domestic and international traffic. As a result, there is currently a shortage of available cable circuits between the U.S. Mainland and Hawaii. With the recent disposition of the remaining HAWAII–3 pool Circuits,[14] there is very little spare cable circuit capacity which has not been accounted for under the carrier's presently authorized activation plans. Without additional cable circuit capacity between the U.S. Mainland and Hawaii, TRANSPAC–2 circuits designated for international traffic terminating in or originating from the U.S. Mainland will dead-end in Hawaii, and all future growth of traffic will be routed via satellite facilities. Moreover, all additional domestic traffic destined for Hawaii will have to be routed via domestic satellite facilities.

14. The second area of shortage in existing cable facilities is between Hawaii and Australia. Service via cable between the U.S. Mainland and Australia is currently provided by using existing U.S. Mainland-Hawaii cables and the COMPAC cable between Hawaii and Australia. The COMPAC cable was placed in service in 1963 and reaches the end of its design life in 1983. To prepare for this eventuality, the Commonwealth group, consisting of Canada, New Zealand, Australia and Hong Kong, has planned the Australia-Canada (ANZCAN) cable, which is currently scheduled for operation in 1983.[15] As proposed, this cable will have a terminus on Hawaii and continue north to Canada. Having a terminal point in Hawaii would allow U.S. carriers the option of accessing the ANZCAN Cable in much the same manner as the COMPAC Cable for service to Australia, provided there is available cable capacity between the U.S. Mainland and Hawaii. Alternatively, the U.S. carriers could access the ANZCAN cable system directly via a domestic landline connection with Canada. Under such a facilities utilization arrangement, traffic destined for the U.S. Mainland via cable would use the TRANSPAC–2 or ANZCAN Cable to Hawaii, interconnect with the northern segment of the ANZCAN Cable in Hawaii, continue north over ANZCAN to Vancouver,

[11] The International Record Carriers operating via cable in the Pacific Region at this time, consists of ITT World Communications Inc., RCA Global Communications, Inc., and Western Union International, Inc.

[12] *See*, ITT World Communications Inc., File Nos., I–T–C–3185 *et al.*, Mimeo No. 05714, released January 14, 1981 and Hawaiian Telephone Company, File No. I–P–C–52, Mimeo No. 06057, released January 4, 1981.

[13] The recently constructed cable systems in the Pacific region connect the following locations: Okinawa-Taiwan (OKITAI); Okinawa-Luzon-Hong Kong (OLUHO); Taiwan-Guam (TAIGU); and Taiwan-Luzon (TAILU); and Philippines-Singapore-Indonesia-Malaysia-Thailand (ASEAN).

[14] American Telephone and Telegraph, *et al.* File Nos. 1–P–C–63 *et al.*, F.C.C. 80T–9, Released December 17, 1980.

[15] The cable will also have terminal points in New Zealand, and Fiji.

Canada, transit Canada and terminate in the United States. Traffic originating on the U.S. Mainland would utilize the same facilities arrangement in reverse.

15. The use of the ANZCAN cable for international traffic, either destined for or originating on the U.S. Mainland, as well as domestic traffic destined for Hawaii, would alleviate the problem of a shortage of cable circuit capacity between the U.S. Mainland and Hawaii. This could be used as an alternative to the construction of another cable between the U.S. Mainland and Hawaii in the near term.

16. It is our understanding that a substantial cable facilities planning effort has already been undertaken in the Pacific region. This effort has included as participants the U.S. international service carriers operating in the region and their Pacific correspondents. It is our desire to incorporate into our proposed process the planning work that has already been completed, and also to include the planning input of Comsat and other interested entities that have not been a party to the planning work already undertaken in the region.

III. Scope of the Issues and Criteria for Evaluation

17. The scope of this Inquiry is expected to include an assessment of currently operating facilities in the region, with a comparison of actual use relative to available capacity and design life. This should encompass cable systems in operation, international satellite facilities, and domestic satellite facilities capable of serving Hawaii and other U.S. points in the region.[16] The Inquiry is also expected to consider a full range of facilities alternatives capable of meeting projected traffic demands through year-end 1995. It is reasonable to expect that the first phase of the proceeding will focus on near term facility requirements—those facilities expected to be in operation by the mid 1980's. All available transmission media and viable technological designs should be considered, as well as techniques for circuit multiplication and other methods for enhancing the efficiency of a facility. We also intend to address the issue of facilities use and loading, as well as the restoration of service following a facilities failure.

18. In Docket No. 18875, the Commission released a Statement of Policy and Guidelines[17] which set forth the general policies to be followed in our licensing of facilities in the North Atlantic region during the 1970's. We believe that these policies set forth below are also applicable to the proposed licensing of facilities in the Pacific region.

(a) The public interest requires that we promote the continued development of both cable and satellite technologies and their most effective and timely applications to meet future requirements for international communications services;

(b) the public interest also requires that we authorize the most modern and effective facilities available via both cable and satellite technology with due regard for efficiency, economy, diversity and redundancy;

(c) The public interest and due regard for the concerns of the Administrations which operate the foreign end of cables require that care should be taken to minimize the need for imposing artificial formulae to govern the distribution of traffic among available media; and

(d) The public interest requires that the economies available from each advance in technology be reflected in charges for service.

Thus, we believe that the appropriate course for us to follow is to provide the U.S. carriers and Comsat with general policy guidelines regarding the choice and use of major facilities instead of stating a preference for a particular facilities construction and utilization plan. We intend those guidelines to define a range of acceptable alternatives. The range defined should be narrow enough to protect the U.S. public from the consequences of excessive or inadequate facilities investment; yet, it should be broad enough to allow sufficient flexibility for the carriers and Comsat to vary the introduction of such facilities to meet the uncertainties inherent in the development of new technologies, varying demand conditions, and the requirements of foreign correspondents. Flexibility in our policy guidelines leaves room to accommodate our foreign partners and promotes the attainment of a consensus among the sovereign nations taking an active part in facilities planning for the Pacific region.

IV. Pacific Planning Process

19. The proposed planning process in the Pacific region will not duplicate that conducted in the North Atlantic.[18] As a result of being able to draw upon the planning work that has already been undertaken in the Pacific, and given the U.S. Congress' desire to keep Commission expenditures at a minimum, we expect our role to be restricted principally to the compilation and evaluation of a record. This will consist in part of the planning information developed jointly by the USISC and foreign correspondents in the Pacific. It will also include additional relevant information supplied by the USISC, Comsat and other interested parties. This is in contrast to the North Atlantic planning process in which the Commission participated directly with the carriers, Comsat and the foreign correspondents in developing the basic planning data and exchanging information directly with interested foreign entities on a regular basis.

20. Even though the proposed planning period for this proceeding is 1981–1995, we expect the first phase of the process to focus on issues related to facilities expected to be operational by the mid-1980's. However, these near term facilities issues will be examined within the context of data and information for the entire planning period. We intend to conduct this first phase of the proceeding on an expedited basis with staff resources and travel expenses kept to a minimum, and would expect that it would be completed within approximately one year, culminating in the issuance of policy guidelines related to the facilities expected to be operational by the mid-1980's. The proceeding will remain open following the issuance of the first set of guidelines in order that subsequent phases may consider the remaining issues related to facilities requirements for the latter part of the planning period (from the mid-1980's to 1995).

21. We are directing the staff under delegated authority to hold a series of public meetings at the Commission's offices with all interested parties for the purpose of expeditiously obtaining the planning information deemed necessary to compile a full and complete record in this proceeding. Upon completion of the record compilation process, we expect

---

[16] To the extent that U.S. carriers serving Hawaii can use domestic satellite instead of cable to meet part of their domestic service requirements, the potential exists for lessening the burden on existing as well as future Mainland-Hawaii cable facilities.

[17] Overseas Communications, 30 F.C.C. 2d 571 (1971).

[18] The North Atlantic planning process involves an internal United States policy proceeding pursued independently of, but in parallel with, an international exchange of planning information and policy views. The forum for the informal international exchange of information has become known as the North Atlantic Consultative Process. The Consultative Process evolved from an exchange of views among the United States carriers, this Commission, United States Department of State and the United States Department of Commerce/National Telecommunications and Information Administration, the CEPT (an organization representing 26 European countries) and Teleglobe/Canada.

to initiate the rulemaking stage of this proceeding.

22. In accordance with sound administrative practice and the Administrative Procedure Act (5 U.S.C. 551 *et seq.*), we invite public participation by all interested parties in the form of written comments on any and all issues raised in this Notice. We are specifically requesting public comment on the following: (1) The need for a Pacific planning process; (2) the appropriateness of the mechansim outlined in the Notice; (3) other mechanisms, within the Commission's resource capability, that should be considered. We also invite interested parties to participate in the public meetings to be held for the purpose of compiling a record in this proceeding.

23. Accordingly, it is ordered, pursuant to Sections 4(i), 214 and 413 of the Communications Act of 1934, 47 U.S.C. 154(i), 214 and 413 (1970), and Section 201(c) of the Communications Satellite Act of 1962, 47 U.S.C. 801 (1970), that:

(A) The American Telephone and Telegraph Company, the Communications Satellite Corporation, ITT World Communications Inc., RCA Global Communications, Inc., the Hawaiian Telephone Company, and Western Union International, Inc., are hereby made parties to the inquiry in the above-captioned matter. We also will consider requests by other interested entities to be made a party to this proceeding.

(B) Comments and reply comments shall be filed according to the following schedule:

Comments: July 15, 1981.

Reply Comments: July 30, 1981.

24. It is further ordered that the Commission's staff is hereby delegated authority to expeditiously compile a full and complete record in this proceeding. The staff shall hold public meetings at the Commission's offices from time to time, as may be necessary, to obtain information deemed necessary to develop such a record.

Federal Communications Commission.

47 CFR Parts 2 and 73

[BC Docket No. 81-352; FCC 81-258]

Use of the Subsidiary Communications Authorization for Utility Load Management

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission proposes to amend its rules to permit an FM Subsidiary Communications Authorization (SCA) to be used to transmit broadcast signals for Utility Load Management purposes. Such a use could aid efficient utilization of national energy resources but is presently prohibited. If permitted, this technique would use a broadcast signal to alleviate fuel demand during peak periods or at times of severe shortages by turning off certain appliances of utility customers, by redistributing fuel demand from one fuel to another and through its use for multi-rate metering.

DATES: Comments must be filed on or before July 8, 1981, and replies on or before July 23, 1981.

ADDRESS: Mail comments to Federal Communications Commission, Washington, D.C. 20554.

Comments may be hand delivered to the office of William J. Tricarico, Secretary, Federal Communications Commission, Room 222, 1919 M Street, Northwest, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Norman Plotkin, Broadcast (202) 632-6302.

In the matter of amendment of §§ 73.293 and 2.106 of the Commission's rules Concerning Use of the Subsidiary Communications Authorization for Utility Load Management, BC Docket No. 81-352.

Adopted: May 21, 1981.

Released: June 8, 1981.

By the Commission: Chairman Fowler abstaining from voting; Commissioner Jones absent.

1. The Commission has before it a proposed amendment of its FM subcarrier rules under its Subsidiary Communications Authorization (SCA). The proposed change permits the use of a subcarrier signal for utility load management purposes. Signals broadcast on SCA's can trigger switches to turn off certain appliances of utility customers and provide a means for multi-rate metering through the controlled use of two or more watt-hour meter registers. These and similar applications foster a better utilization of the nation's energy resources.

2. The proposed amendment is required because the Commission's FM SCA rules at § 73.293 limit FM subsidiary service use to the transmission of programs which are of a broadcast nature and transmission of signals which are directly related to the operation of FM stations.

3. In the Commission's *Report and Order* in Docket No. 12517, released May 9, 1960, 19 RR 1619 (1960), the source of the above rules, we reasoned that allowing FM broadcasters to provide subcarrier services basically unrelated to broadcast operation would not serve the public interest. The reasoning was that (a) expansion of such uses would "tend to foreclose in many communities the future development of FM stereophonic broadcasting," (b) such services "would cause serious and unwarranted financial hardship to many liensees in the Domestic Public Radio Services," (c) such use "would amount to a de facto reallocation of broadcast frequencies" to non-broadcast uses. Subsequently in its 1975 *Report and Order* in Docket No. 20012, 32 RR 2d 11551 (1975), the Commission amended its rules to permit the transmission of visual program material (§ 73.293(b) of the rules).

4. In the case of utility load management uses, we now believe it is clearly in the public interest to allow such usage. First, for most FM broadcasters, stereophonic broadcasting is standard procedure and we think it highly unlikely that such broadcasting will be seriously affected by permitting load management uses on SCA's. Second, the more efficient use of spectrum reduces the cost of using our nation's scarce resources and alleviates the demands on other services. Thus, this mining of unused resources creates beneficial effects for society and is more important than the narrow interests of similar types of services. Although this action would allow nonbroadcast use of the spectrum, it would have little or no impact on broadcast use.

5. Since the mid 1970's, conservation of energy has become of extreme importance to our nation. Great amounts of effort and funds are being expended by the government and by private parties toward the improvement of energy utilization in order to decrease the dependence of the United States on foreign fuels. The permission to use subcarrier signals as part of this important effort, as would be the case in its use for Utility Load Management, appears clearly to warrant altering the Commission's "non-broadcast" SCA rule limitation.[1]

[1] The Commission is concerned with the overall efficiency of spectrum usage under present permissible SCA uses. The Commission does not wish to see existing spectrum wasted because of over restrictive rules requiring allowable usage. Due to advances in the technical art, it is also conceivable that the present subcarriers in use on an FM channel may ultimately be expanded and offer still more available spectrum. Furthermore, as

Continued

6. A subcarriers signal can currently be used in any of three ways to alleviate demands for particular fuels during peak periods or at times of severe fuel shortages. First, the SCA can be used as a switch to turn off certain users' equipment which consumes a particular fuel. Secondly, the SCA can automatically switch users from one type of equipment to another in order to redistribute fuel demands from one fuel to another. The third alternative is to use the SCA to switch the metering of a particular fuel during certain periods. Such metering changes allow the utility to charge higher rates for a fuel during certain time periods. Thus price pressure can be used as a means of discouraging demands for a particular fuel during heavy use periods or during severe shortage periods. All three of these uses of an SCA serve to further the goal of conserving energy by using it more efficiently. This saving can be substantial. In terms of residential use alone, there are presently about 93 million units (primarily water heaters and air conditioners) capable of being remotely controlled by agreement between the utility and user. The Commission is therefore proposing to amend its rules to include utility load management as a permissible commercial use of SCA. We propose that the existing SCA authorization procedures and technical operating requirements will apply to this extension. We solicit comments on this proposal.

7. While we believe the intended application noted above is a very efficient and beneficial usage of the spectrum, the Commission is also aware its permitted use, in effect, does alter the categorical purity of the FM broadcasting spectrum allocation in the Table of Frequency Allocations (§ 2.106 of the Rules). While the present change in only minor, an unlimited number of other such alterations could result in a more complex Table which may have the potential of adversely affecting the Table's administration. This is a factor that the Commission will take into account. The Commission understands how the broad accommodation of services in the Table based on technical feasibility can introduce complexities in the process of spectrum management particularly in the coordination of assignments, and such complexities must be compared to the benefits which derive from the increased spectrum use. We, therefore, are interested in exploring such impacts and ask for comments addressed to this matter.

8. Pursuant to the Regulatory Flexibility Act of 1980, the Commission finds as follows:

I. Reason for action—

It appears that the use of SCA subcarrier signals as a Utility Load Management technique could improve the nation's utilization of energy and thus be in the public interest, but is presently prohibited by Commission rule 73.293.

II. The objective—

The Commission proposed to exempt Utility Load Management use of the FM subcarrier signal from the "non-broadcast" prohibition of rule 73.293 in order to make this technique available to advance a more efficient utilization of the nation's scare energy resources.

III. Legal basis—

Action as proposed is in furtherance of Section 303 of the Communication Act of 1934, as amended, which charges the Commission to explore new and improved uses of radio.

IV. Description, potential impact and number of small entities affected—

The exemption of Utility Load Management from the Commission's "non-broadcast" prohibition could be expected to have a beneficial effect on most parties wishing to use, or receiving use from the technique. The proposed change is permissive, authorizing a use but not requiring it. The rule change would have its direct effect on FM stations (4374 stations as of 12/31/80) by enabling them, if they wish, to rent out subcarrier spectrum to utilities wishing to use it. At present they rent them out only for broadcast-like uses. The next effect would be on these utilities, most of which are small entities (1900 municipal systems, 900 rural electric cooperatives), and then, of course, on their customers. The number of these entities that may be affected, while unknown, is expected to be substantial. However, it is doubtful that this effect will be of any significant nature to the great majority. This is particularly true since the FM subcarrier technique the Commission is considering is only one of a number of methods available to carry out Utility Load Management. Its actual use and the degree of impact in the marketplace and on small entities must await empirical evidence. Nevertheless the Commission felt its potential impact warranted conducting this analysis. Following is a listing by description and potential impact this rule change may have on small entities.

1. Small business, small not-for-profit organizations and small government jurisdictions, in general, may have lower energy costs where they agree to have certain appliances shut off during peak demand periods or at times of severe fuel shortages, and where they redistribute their energy usage to newly available low price periods.

2. Small businesses, small not-for-profit organizations and small government jurisdictions, in general, may have higher energy cost if their energy use remains unchanged during higher cost peak periods where multi-rate metering is put into operation.

3. Any small government jurisdiction which receives revenue by taxing local energy may lose revenue as energy use decreases.

4. Any small business that currently uses FM subcarrier signals for functional music programs or similar commercial purposes may be negatively affected if this new use results in increased competition and higher subcarrier rental prices. It should be noted that the spectrum requirement of Utility Load Management is very small and may not interfere with such uses.

5. Small FM stations that rent out their subcarrier spectrum to utilities for this use would gain additional revenue.

6. Small businesses in the electronics field who participate in the expected increase demand for radio and related equipment required by this Utility Load Management technique should be benefited by the additional business.

In summary, the proposed action would be expected to improve efficiency and to have a positive effect on almost all parties affected by it, and to have no know significant deleterious effect on small entities.

V. *Recording, recordkeeping and other compliance requirements:* None.

VI. *Federal rules which overlap, duplicate or conflict with this rule:* None.

VII. *Any significant alternatives minimizing impact on small entities and consistent with stated objectives.*

The Commission's alternative is to maintain the staus quo and not authorize SCA use for Utility Load Management. This alternative would not accomplish the beneficial objective sought in this rule making.

9. For the purposes of this non-restricted notice and comment rule making proceeding, members of the public are advised that *ex parte* contact are permitted from the time the Commission adopts a Notice of Proposed Rule Making until the time a public notice is issued stating that a substantive disposition of the matter is

---

presently written, our rules proscribe any SCA use while the FM station is not broadcasting and results in an additional nonuse of otherwise available spectrum. In view of these and other dynamic changes affecting SCA capability, we are contemplating, in the near future, a separate proceeding to view overall SCA usage and assess the desirability of expanding the permissible uses of an SCA.

to be considered at a forthcoming meeting or until a final Order disposing of the matter is adopted by the Commission, whichever is earlier. In general, an *ex parte* presentation is any written or oral communication (other than formal written comment/pleadings and formal oral arguments) between a person outside the Commission and a Commissioner or a member of the Commission's staff which addresses the merits of the proceeding. Any person who submits a written *ex parte* presentation must serve a copy of that presentation on the Commission's Secretary for inclusion in the public file. Any person who makes an oral *ex parte* presentation addressing matters not fully covered in any previously-filed written summary of that presentation; on the day of oral presentation, that written summary must be served on the Commission's Secretary for inclusion in the public file, with a copy to the Commission official receiving the oral presentation. Each *ex parte* presentation described above must state on its face that the Secretary has been served, and must also state by docket number the proceeding to which it related. See generally, § 1.1231 of the Commission's rules, 47 CFR 1.1231.

10. This *Notice of Proposed Rule Making* is issued pursuant to authority contained in Sections 4(i) and 303 of the Communications Act of 1934, as amended. Interested parties may file comments on or before July 8, 1981, and reply comments on or before July 23, 1981. All relevant and timely comments filed in response to this *Notice* will be considered by the Commission. In accordance with the provisions of § 1.419 of the Commission's rules, an original and five copies of all comments, replies, briefs and other documents filed in this proceeding shall be furnished the Commission. Further, members of the general public who wish to participate informally in the proceeding may submit one copy of their comments, specifying the docket number in the heading. In reaching its decision, the Commission may take into consideration information and ideas not contained in the comments, provided that such information or a writing indicating the nature and source of such information is placed in the public file, and provided the fact of the Commission's reliance on such information is noted in the Report and Order.

11. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington D.C.

12. For further information concerning this proceeding, contact Norman Plotkin, Broadcast Bureau, (202) 632–6302.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307))

Federal Communications Commission.

William J. Tricarico,

Secretary.

Appendix

It is proposed to amend Parts 2 and 73 of Chapter I of Title 47 of the Code of Federal Regulations as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS: GENERAL RULES AND REGULATIONS

1. In § 2.106, the National Table of Frequency Allocations is amended by adding footnote designator NG128 in column 7 in the band 88–108 MHz, and in the list of footnotes which follow the Table.

§ 2.106 Table of frequency allocations.

United States		Federal Communications Commission		
Band (MHz) col. 5	Allocation col. 6	Band (MHz) col. 7	Services col. 8	Class of station col. 9
•	•	•	•	•
88–108	NG	88–108	Broadcasting	FM Broadcasting.
(US23)		(NG21)		(NG2).
(US93)		(NG128)		

* * * * *

NG128 In the band 88–108 MHz, FM broadcast licenses or permittees may be granted a Subsidiary Communications Authorization (SCA) to transmit signals intended for utility load management.

* * * * *

PART 73—RADIO BROADCAST SERVICES

2. In § 73.293, Subsidiary Communications Authorizations is amended by revising the introductory text of paragraph (a) and adding the following paragraph (a)(3):

§ 73.293 Subsidiary Communications Authorizations.

(a) An FM broadcast licensee or permittee may apply for a Subsidiary Communications Authorization (SCA) to provide limited types of subsidiary services on multiplex basis. Permissible uses fall within one or more of the following categories:

(1) * * *

(2) * * *

(3) Transmission of signals intended for utility load management.

BILLING CODE 6712-01-M

---

47 CFR Part 22

[CC Docket No. 81-350; RM-3817; FCC 81-253]

Memphis, Tenn.; Added to the Table of Assignments for Air-Ground Stations in the Domestic Public Land Mobile Radio Service

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Federal Communications Commission proposes to assign air-ground channel 1 to Memphis, Tennessee. This proposal is in response to a petition for rulemaking submitted by Mobile/Comm, Inc. The effect of this proposal is to afford reliable air-ground communication service to aircraft flying in the Memphis area.

DATES: Comments must be submitted on or before July 6, 1981, and reply comments on or before July 21, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Ann Stevens, (202) 632–6450.

SUPPLEMENTARY INFORMATION: The Commission has determined that the proposed regulation is not significant under E.O. 12044 and that a Regulatory Analysis is not required.

In the matter of amendment of § 22.521(b) of the Commission's rules to add Memphis, Tennessee to the table of assignments for air-ground stations in the Domestic Public Land Mobile Radio Service, CC Docket No. 81–350, RM–3817.

Adopted: May 21, 1981.

Released: June 5, 1981.

By the Commission: Chairman Fowler abstaining from voting; Commissioner Jones absent.

Summary

1. A petition for rulemaking was filed by Mobile/Comm, Inc., proposing the assignment of air-ground Channel 1, frequency 454.950 MHz, to Memphis, Tennessee. Notice of the petition was given on January 9, 1981 (Report No. 1266).

Background

2. Section 22.521(a) allocates twelve frequency pairs for assignment to land mobile radio systems that are

interconnected to the nationwide public landline telephone system and afford communication service to airborne stations. Section 22.521(b) allocates from one to four of these frequency pairs, or working channels, to specific geographic locations. That subsection also provides that base stations operating on these frequencies must be within 25 miles of the location specified.

3. Memphis, Tennessee is not among the locations listed in § 22.521(b), nor is it within 25 miles of any of the other specified locations. Mobile/Comm has requested that § 22.521(b) be amended by adding Memphis to the list of assignments for air-ground stations. This amendment would allow an air-ground station to be operated on the working frequency 454.950 MHz (Channel 1) and on 454.675 MHz (the nationwide signaling channel) within 25 miles of Memphis.

4. No harmful electrical interference is expected to result from this amendment. The nearest co-channel station assignments and their distances from Memphis are: Houston, Texas, 471 miles; Chicago, Illinois, 483 miles; Salinas, Kansas, 487 miles; and Waycross, Georgia, 535 miles. Thus, the nearest co-channel station is 471 miles from Memphis. Examination of the existing frequency assignments in § 22.521(b) shows that this mileage separation is consistent with other separations in § 22.521(b). Therefore, the assignment would be consistent with the Commission's technical standards, and would not create any potential for harmful electrical co-channel interference.

5. The nearest air-ground station that is not a co-channel station is 130 miles from Memphis at Little Rock, Arkansas. According to Mobile/Comm, this spacing between stations reveals a void in air-ground service in the vicinity of Memphis. Mobile/Comm also claims that Memphis is the scene of significant general aviation activity. In response to a survey conducted by Mobile/Comm among the general aviation community in the Memphis area, 27 prospective subscribers expressed sufficient interest in Mobile/Comm's proposal to produce "firm applications for service." Mobile/Comm states that present air-ground service is inadequate to afford reliable service to aircraft flying in the Memphis area. In addition, aircraft at sufficiently high altitudes may obtain service, but must pay toll charges to communicate with a Memphis telephone through a distant base station.

Proposal

6. It thus appears that there is a need for air-ground communication service in Memphis, Tennessee. Accordingly, under Sections 4(i), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, the Commission proposes to amend the Air-Ground Table of Assignments, § 22.521(b) of the Commission's rules, as set forth in the appendix to this Notice.

7. The Commission invites comments on this proposal. The procedures to be followed in submitting comments in this proceeding are the same as those followed in proceedings to amend the FM or Television Table of Assignments in § 1.420 of the Commission's rules. These procedures are discussed below.

8. *Showings required.* Mobile/Comm must answer whatever questions are presented in initial comments and must file comments, even if it only resubmits or incorporates by reference its former pleadings. Failure to file comments may lead to denial of the request. Mobile/Comm must also restate its present intention to apply for the channel if it is assigned and, if authorized, to build the station promptly.

9. *Cut-off procedures.* The following procedures govern the consideration of filings in this proceeding—

(a) Counterproposals made in this proceeding will be considered if they are made in initial comments, so parties may comment on them in reply comments. Counterproposals will not be considered if made in reply comments (See § 1.420(d) of the Commission's rules).

(b) Petitions for rulemaking which conflict with the proposal in this Notice will be considered as comments. Public notice to this effect will be given so long as the comments are filed before the date for filing initial comments. If they are filed after that date, they will not be considered in connection with the decision in this proceeding.

10. *Dates and service.* Under the procedures set out in §§ 1.145 and 1.420 of the Commission's rules, interested parties may file comments on or before July 6, 1981, and reply comments on or before July 21, 1981. All submissions made by parties to this proceeding or on behalf of such parties must be made in written comments, reply comments or other appropriate pleadings. Reply comments must be served on the person(s) who filed comments to which the reply is directed. These comments and reply comments must be accompanied by a certificate of service. (See § 1.420 (a)–(c) of the Commission's Rules.)

11. *Number of copies.* Under § 1.420 of the Commission's rules, an original and four copies of all comments, reply comments, pleadings, briefs or other documents must be submitted to the Commission.

12. *Public inspection of filings.* All filings made in this proceeding are available for inspection during regular business hours in the Commission's Public Reference Room at its headquarters, 1919 M Street, NW., Washington, D.C.

Ex Parte Contacts

13. For further information concerning this proceeding, contact Ann Stevens, Common Carrier Bureau, (202) 632–6450. Members of the public should note, however, that from the time a notice of proposed rulemaking is issued until the matter is no longer subject to Commission reconsideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel assignments. An *ex parte* contact is a message, spoken or written, concerning the merits of a pending rulemaking other than comments officially filed with the Commission or oral presentations required by the Commission.

Regulatory Flexibility Act

14. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980 do not apply to rulemaking proceedings to amend the table of assignments for air-ground stations in the Domestic Public Land Mobile Radio Service. The proposal relates to only one city, Memphis, Tennessee, and the number of affected subscribers in that city is limited. Petitioner has indicated that 27 individuals or companies have so far expressed interest in the service. We conclude that the proposal will not have a significant economic impact on a substantial number of small entities.

15. The Secretary shall cause a copy of this Notice of Proposed Rulemaking to be published in the **Federal Register.**

Federal Communications Commission.

(Secs. 4, 303, 307, 48 Stat. as amended, 1066, 1082, 1083; (47 U.S.C. 154, 303, 307))

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

DEPARTMENT OF TRANSPORTATION

Research and Special Program Administration

49 CFR Part 173

[Docket HM-179 Advance Notice]

Definiton of Oxidizer

AGENCY: Materials Transportation Bureau (MTB) Research and Special Programs Administration, DOT.

ACTION: Advance notice of proposed rulemaking.

SUMMARY: The MTB is publishing this Advance notice of proposed rulemaking to request comments on efforts to make the definition of an oxidizer more specific and to provide tests which shippers may use to determine whether their products are oxidizers for purposes of transportation.

DATE: Comments must be received by September 14, 1981.

ADDRESS: Comments must be addressed to the Dockets Branch, Materials Transportation Bureau, U.S. Department of Transportation, Washington, D.C. 20590. Comments should identify the docket and be submitted, if possible, in five copies. The Dockets Branch is located in Room 8426 of the Nassif Building, 400 7th Street, S.W., Washington, D.C. Office hours are 8:30 a.m. to 5:00 p.m., Monday thru Friday. Telephone (202)426-3148.

FOR FURTHER INFORMATION CONTACT: Dr. Charles Ke, Sciences Branch, Technical Division, Office of Hazardous Materials Regulation, Materials Transportation Bureau, Department of Transportation, Washington, DC 20590. (202-426-2311).

SUPPLEMENTARY INFORMATION: For purposes of definition, oxidizers have been divided into two groups, liquids and solids. Test methods and criteria are proposed which will enable a shipper to determine whether a material he wishes to ship meets the definition of an oxidizer. The principal reasons for this advance notice of proposed rulemaking are to request comments from interested persons as to the adequacy of the proposal and to solicit comments concerning alternative methods. Relative to the latter purpose, MTB would like to know if there are any consensus standard test methods which could be used in place of, or in addition to, the suggested methods?

The MTB anticipates that a number of highly competent and qualified experts will, upon review of Appendix B, consider the proposed methods for testing of oxidizers to be less than representative of currently available technology. This is intentional. The MTB has attemped to develop methods that would not require the acquisision of expensive and complicated test equipment.

In consideration of the foregoing, the MTB is considering the issuance of a proposal to revise § 173.151 and add an Appendix C to Part 173 of Title 49, Code of Federal Regulations as follows:

§ 173.151 Oxidizer; definition.

For the purpose of this subchapter, an "Oxidizer" is a material which may cause the ignition of combustible materials without the aid of an external source of ignition or when mixed with combustible materials, increases the rate of burning of these materials when the mixtures are ignited. Oxidizers are divided into two general groups:

(a) *Solid Oxidizers.* A solid oxidizer is a solid substance which accelerates the burning rate of dry wood sawdust as much or more than ammonium persulfate, when tested in accordance with the method described in Appendix C of this part.

(b) *Liquid oxidizers.* A liquid oxidizer is a liquid substance which when tested in accordance with the method described in Appendix C of this part, will initiate a fire in the test container.

Appendix C: Methods for testing for oxidizers

Solid Oxidizers

The test method for solid oxidizers as prescribed in paragraphs 1 through 5 measures the potential of a solid substance to increase the burning rate of a combustible material when the two are intimately mixed.

1. Ammonium persulfate shall be the reference material. It shall pass through a NO. 100 Sieve in the U.S. Sieve Series (ASTM-E-11-61) and shall contain less than 5% by weight of water.

2. Wood sawdust shall be the combustible material in this test and shall pass through a NO. 50 Sieve in the U.S. Sieve Series (ASTM E-11-61) and shall contain less than 5% by weight of water.

3. A five pound mixture of ammonium persulfate and wood sawdust shall be prepared in a 1 to 1 ratio by weight. A second five pound mixture of the material to be tested, in the particle size in which it will be shipped, and wood sawdust shall be prepared in a 1 to 1 ratio by weight. Both of these mixtures should be mixed as thoroughly as possible.

4. The two mixtures shall be formed into conical piles on incombustible surfaces and the edge of both piles ignited (at one place) simultaneously with laboratory burners or flares. The ignition sources shall be applied until piles are well started and then removed.

5. A substance which causes the sawdust to burn at a rate equal to or greater than the burning rate of the ammonium persulfate mixture shall be classed as an oxidizer.

Liquid Oxidizers

The test method for liquid oxidizers as prescribed in paragraphs 1 through 5 measures the potential of a liquid substance to initiate a fire when brought into contact with combustible materials.

1. The test shall be conducted in a box 2'×2'×2' constructed of natural wood (not plywood) having sides not more than ½" thick. A ¼" diameter hole shall be drilled at the horizontal center of each of the verticle side 4 inches from the bottom edge. A one inch diameter hole shall be drilled in the center top of the box.

2. The box shall be packed tightly with wood excelsior containing less than 5% of water and the top of the box properly secured in place.

3. Two liters of the liquid under test shall be poured into the box through the hole in the top of the box and, at the same time, the box shall be tipped slightly in different directions so as to distribute the liquid as uniformly as possible throughout the excelsior.

4. The box and its contents shall be allowed to stand for two hours.

5. A substance which causes the ignition of the excelsior shall be classed as a liquid oxidizer.

(49 U.S.C. 1803, 1804, 1808; 49 CFR 1.53, App. A to Part 1 and paragraph (a)(4) of App. A to Part 106)

Note.—The Materials Transportation Bureau has determined that this document will not not result in a "major rule" under the terms of Executive Order 12291 and DOT implementing procedure (44 FR 11034), nor require an enviromental impact statement under the National Environmental Policy Act [49 U.S.C. 4321 et seq.]. Issued in Washington, D.C. on June 4, 1981.

Alan I. Roberts,

Associate Director for Hazardous Materials Regulation, Materials Transportation Bureau.

BILLING CODE 4910-60-M

National Highway Traffic Safety Administration

49 CFR Part 571

Federal Motor Vehicle Safety Standards; Speedometers and Odometers

AGENCY: National Highway Traffic Safety Administration (NHTSA).

ACTION: Denial of petition for rulemaking.

SUMMARY: This notice responds to a petition for rulemaking regarding Safety Standard No. 127, *Speedometers and Odometers*. The petitioner has asked the NHTSA to delete the word "electronic" from a provision requiring that the number "55" be highlighted on the mph scale of all speedometers except for electronic digital odometers. The agency is denying the petitioner's request in light of the agency's decision, announced in the Notice of Intent published on April 9, 1981, to issue a Notice of Proposed Rulemaking (NPRM) to rescind the standard. Rescission of the standard would render the petitioner's request moot.

FOR FURTHER INFORMATION CONTACT:
Mr. John Carson, Office of Vehicle Safety Standards, National Highway Traffic Safety Administration, 400 Seventh Street, S.W., Washington, D.C. 20590 (202–426–2720).

SUPPLEMENTARY INFORMATION: This notice responds to a petition for rulemaking regarding Safety Standard No. 127, *Speedometers and Odometers* (49 CFR § 571.127). This petition proposes that the word "electronic" be deleted from paragraph S4.1.4 of the standard. The petitioner has asked to remain anonymous, and the agency is complying with this request. Standard No. 127, as amended on June 9, 1980, establishes requirements for the design and installation of speedometers and odometers in motor vehicles. Paragraph S4.1.4 requires that each speedometer include the number "55" in the mph scale. This number must be highlighted on all speedometers except "electronic digital speedometers." The petitioner requests that the NHTSA delete the word "electronic" from this paragraph. As the petitioner asserts, digital speedometers can be based on a means of operation not involving electronics, such as hydraulics or mechanics. The petitioner contends that the standard as now written perpetuates existing technology and stifles the creation of new speedometer designs.

The NHTSA has decided to deny the petitioner's request. On April 9, 1981, the agency published a Notice of Intent (46 FR 21203) describing a number of actions NHTSA intends to take to reduce unnecessary regulatory burdens upon the motor vehicle industry. In this notice, the agency announced that it is considering rescinding standard No. 127 because there appear to be no direct safety benefits to be gained from the regulation and because of the potential for significant consumer savings. NHTSA will issue an NPRM regarding Standard No. 127 in the near future. The extent to which the standard stifles the development of new speedometer designs is an issue that will be addressed in this rulemaking proceeding. Thus, there is no need to initiate a separate rulemaking proceeding at this time to consider the single issue raised by the petitioner. For these reasons, the petitioner's request is denied.

(Secs. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegations of authority at 49 CFR 1.50 and 49 CFR 501.8)

Issued on June 8, 1981.

Michael M. Finkelstein,

Associate Administrator for Rulemaking.

CIVIL AERONAUTICS BOARD

Order 81-6-55; Docket 39554]

Aerlinte Eireann Teoranta; Proposed United States-Ireland Advance Purchase Excursion Fares; Order Dismissing Complaint

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 8th day of June, 1981.

On April 15, 1981, Aerlinte Eireann Teoranta (Aer Lingus) filed a Special Tariff Permission Application (STPA) to implement, on less than the usual, 60 days statutory notice, reduced advance purchase excursion (APEX) fares from New York to Ireland. The fares, which are available only on Aer Lingus' Wednesday flights from this June 24 through September 16, require 45 days advance purchase and have a 21/180 day minimum/maximum stay, and offer a significant reduction in the APEX fare level.[1]

On April 20, 1981, Sceptre Travel, Inc. filed a complaint requesting the Board to deny Aer Lingus' STPA, investigate the fares when they are filed with the Board as a tariff, and order Aer Lingus to cease and desist from advertising the fares until the Board acts upon them. In support of its complaint, Sceptre, which promotes and sells charter tours between the United States and Ireland, alleges that after it contracted with World Airways for a series of 12 Newark-Ireland charter flights this summer, representatives of Sceptre and World met with the Irish Department of Transport in Dublin to seek approval of the charter program at a proposed price to the public of $399; and the Irish officials stated the price was too low compared to Aer Lingus' peak season fare of $526 but World could obtain authorization to operate the flights if Sceptre raised the price to $429 (except for the first flight which could still be sold at a fare of $399). Sceptre alleges further that after it increased its price to $429 and file a Public Charter prospectus with the Board, Aer Lingus, in an intentional and deliberate effort to undermine the charter program, filed the STPA with the Board and began promoting the proposed fares; and by virtue of the direct acts of the Irish Government and the indirect acts of Aer Lingus in forcing Sceptre to raise its prices, they have engaged in unfair, discriminatory and restrictive practices with a substantial adverse competitive impact upon U.S. carriers.

In an answer to the complaint, Aer Lingus submits that it is the Board's policy to grant STP for low fares unless such fares raise significant questions of lawfulness,[2] and the complainant has made no showing that Aer Lingus' fares are unjust or unreasonable; the proposed reductions are responsive to a day-of-week peaking problem which has long plagued Aer Lingus' North Atlantic operations[3]; it is not unjust or unreasonable for Aer Lingus to compete with others, including charter operators, and the carrier has adopted a policy of filling low load factor midweek flights with traffic it might otherwise lose to charters; the proposed fares are not predatory, because they represent a different product than the complainant's, whose flights will operate on Saturdays, a much more popular travel day, the Aer Lingus, fares are $20 higher than Sceptre's (except for the intitial flight), and Aer Lingus' fares have 45-day advance purchase and 21-day minimum stay requirements while Sceptre's offering has no such restrictions; and Aer Lingus' fare reducton broadens, rather than suppresses competition. Aer Lingus also denies Sceptre's allegation that the Irish Department of Transport was "acting at the special instance and request of Aer Lingus in requiring Sceptre to raise its prices," and states that it was not privy to statements alleged to have been made by Irish officials.

In a reply to Aer Lingus' answer, Sceptre states that although it does not claim the Aer Lingus fares are unjust or unreasonable because of the difficulty of establishing these facts, the level to be charged, which includes an agent's commission, appears to be unjust and unreasonable; the fares are predatory due to the action of the Irish Department of Transport, the content of Aer Lingus' advertisements and statements made by Aer Lingus officials to the effect that it will do whatever is necessary to prevent the success of Sceptre's charter program.

After careful consideration of the complaint and answer, the Board has decided to dismiss the complaint.[4] Though the sequence of events Sceptre alleges is not without troublesome aspects, as discussed below, we find no clear basis for denying consumers the benefit of the substantial fare reductions Aer Lingus proposes. There is little doubt that the levels cover the carrier's marginal costs of transporting these passengers, considering the economics of mid-week service. Moreover, the fares are higher than those charged by Sceptre, notwithstanding that the latter's services are offered on Saturday. They are also subject to certain more restrictive conditions such as a 45-day advance purchase and 21-day minimum stay. Under the circumstances, we would almost certainly find after a hearing that the line between legitimate competiton and predation has not been crossed.

We are, however, concerned about Sceptre's allegations that it was pressured to raise its price by the Irish authorities. We believe governments should refrain from interfering in management pricing decisions, a policy we have followed here by permitting Aer Lingus' fares to take effect. If these allegations are true, the Irish government's demarche undoubtedly forced the complainant into a less competitive posture. By forcing an increase in fares, it reduced the cost of Aer Lingus' competitive response, reduced the size of the complainant's potential market and apparently required a costly change in its marketing strategy. It also appears that passengers are being required to pay more than they

[1] For example, the New York–Shannon APEX fare on other flights is $526 roundtrip while the "Wednesday Wonder" level is $449 ($337 for children). Fares on the first Wednesday, June 24, will be $399 for adults and $299 for children under 12.

[2] Statements of General Policy, Section 399.35.

[3] The carrier states that as of April 7, before it filed the STPA, if forecast load factors for this July of only 40 percent on Wednesdays, compard to load factors of 78 to 95 percent for Thursdays through Sundays when it also offers two daily New York–Shannon frequencies.

[4] The STP was granted on May 7, 1981.

otherwise would. Our concerns have been conveyed to the Irish government. We will continue to monitor the U.S.-Ireland pricing situation, and will consider future action if we deem it necessary to protect U.S. competitive opportunities.

Accordingly,

1. We dismiss the complaint of Sceptre Travel, Inc. in Docket 39554; and

2. We shall serve copies of this order on Sceptre Travel, Inc., and Aerlinte Eireann Teoranta.

We shall publish this order in the **Federal Register.**

All Members concurred.

By the Civil Aeronautics Board.

Phyllis T. Kaylor,

Secretary.

Petitions by Producing Firms for Determinations of Eligibility To Apply for Trade Adjustment Assistance

Petitions have been accepted for filing from the following firms: (1) Clements Wire & Manufacturing Company, Inc., P.O. Drawer EE, Biloxi, Mississippi 39533, producer of automotive wire harness assemblies (accepted May 21, 1981); (2) Sherpa, Inc., 2222 W. Diversey Parkway, Chicago, Illinois 60647, producer of snowshoes (accepted May 26, 1981); (3) Rocky Mount Mills, 1151 Falls Road, Rocky Mount, North Carolina 27801, producer of cotton, polyester and acrylic yarns (accepted May 27, 1981); (4) Resco, Inc., 1050 Mehring Way West, Cincinnati, Ohio 45203, producer of packaging machinery (accepted May 27, 1981); (5) Pikes Peak Greenhouses, Inc., P.O. Box 7070, Colorado Springs, Colorado 80933, producer of cut flowers (accepted May 29, 1981); (6) Renaissance Slack Corporation, 206 E. Olympic Boulevard, Los Angeles, California 90015, producer of men's trousers (accepted June 1, 1981); (7) Faison Manufacturing Company, Inc., P.O. Box 248, Faison, North Carolina 28341, producer of boys' jackets & vests (accepted June 2, 1981); (8) Supreme Cedar Products, Inc., Route 1, Box 140, Concrete, Washington 98237, producer of cedar shakes and shingles (accepted June 2, 1981); (9) Bowcar Manufacturing Corporation, 112 West 34th Street, New York, New York 10120, producer of children's shirts, overalls, jumpers, slacks, jackets and skirts (accepted June 3, 1981); (10) Hudson Valley Wine Company, Blue Point Road, Highland, New York 12528, producer of wine (accepted June 5, 1981); (11) Saginaw Shingle Company, Inc., P.O. Box 147, Aberdeen, Washington 98520, producer of cedar shakes and shingles (accepted June 8, 1981); and (12) Shannon Pacific, 1390 Hundley Street, Anaheim, California 92806, producer of roller skate bearings (accepted June 8, 1981).

The petitions were submitted pursuant to Section 251 of the Trade Act of 1974 (P.L. 93-618) and Section 315.23 of the Adjustment Assistance Regulations for Firms and Communities (13 CFR Part 315).

Consequently, the United States Department of Commerce has initiated separate investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each firm contributed importantly to total or partial separation of the firm's workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Any party having a substantial interest in the proceedings may request a public hearing on the matter. A request for a hearing must be received by the Chief, Trade Act Certification Division, Economic Development Administration, U.S. Department of Commerce, Washington, D.C. 20230, no later than the close of business June 25, 1981.

The Catalogue of Federal Domestic Assistance official program number and title of the program under which these petitions are submitted is 11.309, Trade Adjustment Assistance. Insofar as this notice involves petitions for the determination of eligibility under the Trade Act of 1974, the requirements of Office of Management and Budget Circular No. A-95 regarding review by clearinghouses do not apply.

Jack W. Osburn, Jr.,

Chief, Trade Act Certification Division, Office of Eligibility and Industry Studies.

Emergency Medical Services, Region 2A, Inc.; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 2119 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81-00002. Applicant: Emergency Medical Services, Region 2A, Inc., 1601 Second Avenue North, No. 416, Great Falls, MT 59401. Article: Hypothermia Thermometers. Manufacturer: G. H. Zeal Limited, England. Intended Use of Article: See Notice on page 9684 in the **Federal Register** of January 29, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended

to be used, is being manufactured in the United States.

Reasons: The foreign article provides a temperature range of 70 to 100°F. The Department of Health and Human Services advises in its memorandum dated May 5, 1981 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Foreign Availability Subcommittee of the Computer Systems Technical Advisory Committee; Open Meeting

AGENCY: International Trade Administration.

SUMMARY: The Computer Systems Technical Advisory Committee was initially established on January 3, 1973, and rechartered on August 29, 1980 in accordance with the Export Administration Act of 1979 and the Federal Advisory Committee Act. The Subcommittee was approved for continuation on September 19, 1980 pursuant to the charter of the Committee. The Foreign Availability Subcommittee was formed to ascertain if certain kinds of equipment are available in non-COCOM and Communist counties, and if such equipment is available, then to ascertain if it is technically the same or similar to that available elsewhere.

TIME AND PLACE: June 30, 1981, at 1:30 p.m. The meeting will take place at the Main Commerce Building, Room 3708, 14th Street and Constitution Ave., N.W., Washington, D.C.

AGENDA: *General Session.*

(1) Opening remarks by the Subcommittee Chairman.

(2) Presentation of papers or comments by the public.

(3) Discussion of the Subcommittees role; foreign availability/Department of Commerce.

(4) Requirements for foreign availability certification.

PUBLIC PARTICIPATION: The meeting will be open for public observation and a limited number of seats will be available. To the extent time permits members of the public may present oral statements to the Subcommittee. Written Statements may be submitted at any time before or after the meeting.

FOR FURTHER INFORMATION CONTACT: Mrs. Margaret A. Cornejo, Office of the Director of Licensing, Office of Export Administration, Room 1609, U.S. Department of Commerce, Washington, D.C. 20230. Telephone: 202-377-2583.

Dated: June 9, 1981.

Saul Padwo,

Director of Licensing, Office of Export Administration.

[FR Doc. 81-17574 Filed 6-12-81; 8:45 am]

BILLING CODE 3510-25-M

Hardware Subcommittee of the Computer Systems Technical Advisory Committee; Closed Meeting

AGENCY: International Trade Administration.

SUMMARY: The Computer Systems Technical Advisory Committee was initially established on January 3, 1973, and rechartered on August 29, 1980 in accordance with the Export Administration Act of 1979 and the Federal Advisory Committee Act. The Subcommittee was approved for continuation on September 19, 1980 pursuant to the charter of the Committee.

The Hardware Subcommittee was formed to continue the work of the Performance Characteristics and Performance Measurements Subcommittee, pertaining to (1) maintenance of the processor performance tables and further investigation of total systems performance; and (2) investigation of array processors in terms of establishing the significance of these devices and determining the differences in characteristics of various types of these devices.

TIME AND PLACE: June 30, 1981, at 9:30 a.m. The meeting will take place at the Main Commerce Building, Room 3708, 14th Street and Constitution Avenue, N.W., Washington, D.C.

The Subcommittee will meet only in Executive Session to discuss matters properly classified under Executive order 12065, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

SUPPLEMENTARY INFORMATION: The Assistant Secretary for Administration, with the concurrence of the delegate of the General Counsel, formally determined on September 16, 1980, pursuant to Section 10(d) of the Federal Advisory Committee Act, that the matters to be discussed in the Executive Session should be exempt from the provisions of the Federal Advisory Committee Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552b(c)(1) and properly classified under Executive Order 12065.

A copy of the Notice of Determination to close meetings or portions thereof is available for public inspection and copying in the Central Reference and Records Inspection Facility, Room 5317, U.S. Department of Commerce, Telephone: 202-377-4217.

FOR FURTHER INFORMATION CONTACT: Mrs. Margaret A. Cornejo, Office of the Director of Licensing, Office of Export Administration, Room 1609, U.S. Department of Commerce, Washington, D.C. 20230. Telephone: 202-377-2583.

Dated: June 9, 1981.

Saul Padwo,

Director of Licensing, Office of Export Administration.

BILLING CODE 3510-25-M

Southern Illinois University at Carbondale; Decision on Application For Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 2119 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81-00004. Applicant: Southern Illinois University at Carbondale, Carbondale, Illinois 62901. Article: Vibrating Densimeter, Model 03-D. Manufacturer: Techneurop, Inc., Canada. Intended use of Article: See Notice on page 9685 in the Federal Register of January 29, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended

to be used, is being manufactured in the United States.

Reasons: The foreign article operates on small volume sample sizes of one milliliter and provides a resolution of one part per million. The Department of Health and Human Services advises in its memorandum dated may 5, 1981 that (1) the capabilities of the foreign article described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

Veterans Administration; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 A.M. and 5:00 P.M. in Room 2119 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81-00007. Applicant: Veterans Administration, Building 222, Fort Snelling, St. Paul, MN 55111. Article: LKB 2127-001 Tachophor. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: See Notice on page 9685 in the **Federal Register** of January 29, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for counterflow isotachophoresis. The Department of Health and Human Services advises in its memorandum dated May 5, 1981 that (1) the capability of the foreign article described above is pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

University of Utah; Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (15 CFR 301).

A copy of the record pertaining to this decision is available for public review between 8:30 a.m. and 5:00 p.m. in Room 2119 of the Department of Commerce Building, 14th and Constitution Avenue, N.W., Washington, D.C. 20230.

Docket No. 81-00006. Applicant: University of Utah, Department of Biology, Room 136 South Biology, Salt Lake City, Utah 84112. Article: CO_2 Infrared Gas Analyzer, Model 225, Mark II with 110 V AC 60 Hertz Power. Manufacturer: Analytical Development Co., United Kingdom. Intended use of article: See Notice on page 9685 in the **Federal Register** of January 29, 1981.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: the foreign article provides accurate measurements (1% of full scale reading) from zero to 1000 parts per million carbon dioxide and an internal frequency standard for operation with portable generator power (60 hertz ± 5% or 3 hertz) at remote locations. The Department of Health and Human Services advises in its memorandum dated May 5, 1981 that (1) the capabilities of the foreign article described above are pertinent to the applicant's intended purpose and (2) it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

BILLING CODE 3510-25-M

National Oceanic and Atmospheric Administration Mid-Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service, NOAA, Commerce.

SUMMARY: The Mid-Atlantic Fishery Management Council, established by Section 302 of the Magnuson Fishery Conservation and Management Act (Pub. L. 94-265), will meet to discuss the Squid, Mackerel and Butterfish Fishery Management Plan (amendment); status of other fishery management plans: foreign fishing applications, as well as other fishery management and administrative matters. The meetings may be lenghtened or shortened, or agenda items rearranged, depending upon progress on the agenda.

DATES: The public meetings will convene on Wednesday, July 8, 1981, at approximately noon, and will adjourn on Friday, July 10, 1981, at approximately noon.

ADDRESS: The meetings will take place at the Best Western Airport Motel, Philadelphia International Airport, Route 291, Philadelphia, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Mid-Atlantic Fishery Management Council, Room 2115—Federal Building, North and New Streets, Dover, Delaware 19901. Telephone: (302) 674-2331.

Dated: June 10, 1981.

Robert K. Crowell,

Deputy Executive Director, National Marine Fisheries Service.

BILLING CODE 3510-22-M

Permit Modification Request

Notice is hereby given that the United States Air Force has requested a Modification to Permit No. 311, which was issued under the authority of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR Part 216), on December 3, 1980.

The Air Force is requesting that an additional one hundred (100) Northern elephant seals *(Mirounga angustirostris)* be authorized in directed noise experiments to analyze the effects of the Space Shuttle Program. The procedures and techniques for the experiments would be the same as described in the original permit application. The increased numbers reflect larger numbers of hauled-out Northern elephant seals on San Nicolas Island.

Concurrent with the publication of this notice in the **Federal Register**, the Secretary of Commerce is forwarding copies of this request to the Marine Mammal Commission and the Committee of Scientific Advisors.

Written data or views, or requests for a public hearing on this modification request should be submitted to the Assistant Administrator for Fisheries, National Marine Fisheries Service, U.S. Department of Commerce, Washington, D.C. 20235, within 30 days of the publication of this notice. Those requesting a hearing should set forth the specific reasons why a hearing on this particular request would be appropriate. The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries.

All statements and opinions contained in this request are summaries of those of the Applicant and do not necessarily reflect the views of the National Marine Fisheries Service.

Documentation pertaining to the above modification request is available for review in the following offices:

Assistant Administrator for Fisheries, National Marine Fisheries Service, 3300 Whitehaven Street, N.W., Washington, D.C.; and

Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731.

Dated: June 9, 1981.

Richard B. Roe,

Acting Director, Office of Marine Mammals and Endangered Species, National Marine Fisheries Services.

BILLING CODE 3510-22-M

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Adjusting Import Restraint Levels for Certain Cotton Textile Products From India

June 10, 1981.

AGENCY: Committee for the Implementation of Textile Agreements.

ACTION: Granting increases for swing and carryover for cotton trousers in Category 347/348, produced or manufactured in India and exported during the agreement year which began on January 1, 1981, increasing the level from 122,880 dozen to 143,770 dozen. The amount of swing is being deducted from the level for Category 338/339/340, reducing that level from 1,004,600 dozen to 997,227 dozen.

(A detailed description of the textile categories in terms of T.S.U.S.A. numbers was published in the **Federal Register** on February 28, 1980 (45 FR 13172), as amended on April 23, 1980 (45 FR 27463), August 12, 1980 (45 FR 53506), December 24, 1980 (45 FR 85142) and May 5, 1981 (46 FR 25121).)

SUMMARY: The Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 30, 1977, as amended, between the Governments of the United States and India provides for percentage increases in certain categories (swing) and for the carryover of shortfalls in certain categories from the previous agreement year (carryover). Pursuant to the terms of the bilateral agreement, and at the request of the Government of the Republic of India, the import restraint level established for Category 347/348 is being increased and the level for Category 338/339/340 is being decreased for the twelve-month period which began on January 1, 1981 and extends through December 31, 1981.

EFFECTIVE DATE: June 11, 1981.

FOR FURTHER INFORMATION CONTACT: Ross Arnold, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, Washington, D.C. 20230 (202/377–4212)

SUPPLEMENTARY INFORMATION: On December 19, 1980 a letter dated December 16, 1980 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs was published in the **Federal Register** (45 F.R. 83645), which established import restraint levels for certain specified categories of cotton, wool and man-made fiber textile products, produced or manufactured in India and exported to the United States during the twelve-month period which began on January 1, 1981 and extends through December 31, 1981.

In accordance with the terms of the bilateral agreement and at the request of the Government of India, the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs in the letter published below to prohibit entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Categories 347/348 and 338/339/340, produced or manufactured in India, in excess of the designated adjusted levels of restraint, during the twelve-month period which began on January 1, 1981.

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

June 10, 1981.

Committee for the Implementation of Textile Agreements

Commissioner of Customs,
Department of the Treasury, Washington, D.C.

Dear Mr. Commissioner: On December 16, 1980, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry for consumption, or withdrawal from warehouse for consumption, during the twelve-month period beginning on January 1, 1981 and extending through December 31, 1981 of cotton, wool and man-made fiber textile products in certain specified categories, produced or manufactured in India, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Under the terms of the Arrangement Regarding International Trade in Textiles done at Geneva on December 20, 1973, as extended on December 15, 1977, pursuant to the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 30, 1977, as amended, between the Governments of the United States and India; and in accordance with the provisions of Executive Order 11651 of March 3, 1972, as amended by Executive Order 11951 of January 6, 1977, you are directed, effective on June 11, 1981, to amend the twelve-month levels of restraint established for cotton textile products in Categories 347/348 and 338/339/340, whether accompanied by a visa or an elephant-shaped certification, to the following:

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton, Wool and Man-Made Fiber Textile Agreement of December 23, 1977, as amended, between the Governments of the United States and India, which provide, in part, that: (1) within the aggregate, group limits may be exceeded by designated percentages; (2) specific limits may be exceeded by various percentages subject to various provisions of the agreement; (3) consultation levels may be increased upon agreement between the two governments; and (4) administrative arrangements or adjustments may be made to resolve minor problems arising in the implementation of the agreement.

Category	Amended 12-mo level of restraint
347/348	143,770 doz.
338/339/340	997,227 doz.

The actions taken with respect to the Government of India and with respect to imports of cotton textile products from India have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the Federal Register.

Sincerely,

Paul T. O'Day,

Chairman, Committee for the Implementation of Textile Agreements.

BILLING CODE 3510-25-M

COMMODITY FUTURES TRADING COMMISSION

Proposed Amendments and New Rules of the Comex Clearing Association, Inc., Relating to the Guaranty Fund; Extension of the Comment Period

AGENCY: Commodity Futures Trading Commission.

ACTION: Extension of comment period on contract market rule proposals.

SUMMARY: On March 4, 1981, the Commission published in the **Federal Register** proposed new rules and amendments to existing rules relating to the guaranty fund, position limits, original and margin assessments of the Comex Clearing Association, Inc. ("Association") (46 FR 15192). The comment period on the amendments and new rules expired on May 4, 1981. The Commission has received a request for an extension of the comment period on the amendments which relate to the guaranty fund (Rules 6.2(a), 6.2(e), 80, 81, and 83). Because it wishes to ensure that all interested parties have an adequate opportunity to submit informed comments, the Commission has determined to reopen the comment period on that portion of the Association's proposal.

DATE: The comment period has been extended through July 1, 1981.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581. Reference should be made to Comex Clearing Guaranty Fund.

FOR FURTHER INFORMATION CONTACT: Muriel A. Caplan, Esq., Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581; Telephone: (202) 254-8955.

Issued in Washington, D.C. on June 9, 1981, by the Commission.

Jane K. Stuckey,

Secretary of the Commission.

[FR Doc. 81-17620 Filed 6-12-81; 8:45 am]

BILLING CODE 6351-01-M

Proposed Amendments to the Fresh White Eggs Contract of the Chicago Mercantile Exchange To Permit the Delivery of White Nest Run Eggs

AGENCY: Commodity Futures Trading Commission.

ACTION: Notice of proposed contract market rule amendments.

SUMMARY: The Chicago Mercantile Exchange ("CME") has submitted amendments to its fresh white eggs contract to permit the delivery of white nest run eggs on the current white graded eggs contract. Delivery units of nest run eggs could be deliverable at the same price as the current par delivery unit of graded white eggs. In addition, the Exchange is proposing to amend Chapters 7 and 12 to alter its current certificate of delivery system. The Commodity Futures Trading Commission ("Commission") has determined that the proposed amendments are of major economic significance and that, accordingly, publication of the proposed amendments is in the public interest, will assist the Commission in considering the views of interested persons, and is consistent with the purposes of the Commodity Exchange Act.

DATE: Comments must be received on or before July 15, 1981.

ADDRESS: Interested persons should submit their views and comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581. Reference should be made to CME Fresh White Eggs Contract Amendments.

FOR FURTHER INFORMATION CONTACT: De'Ana J. Hamilton, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, (202) 254-8955; or Blake Imel, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581, (202) 254-3203.

SUPPLEMENTARY INFORMATION: The Commodity Futures Trading Commission, in accordance with section 5a(12) of the Commodity Exchange Act, ("Act"), 7 U.S.C. § 7a(12) (Supp. III 1979), has determined that the proposed amendments to the Chicago Mercantile Exchange's Fresh White Eggs Rules 1200, 1201, and 1203 through 1217 and an amendment to delivery Facilities and Procedure rule 704.B are of major economic significance. The Exchange is also proposing a number of changes in the language of Chapter 12 to improve the clarity of the contract. The entire text of Chapter 12 is printed below along with the proposed amendment to rule 704, using italics to indicate additions and brackets to indicate deletions:

Chapter 12—Fresh White Eggs

1200. Scope of Chapter.—This chapter is limited in application to futures trading of fresh [large] white eggs. The procedures for trading, clearing, inspection, delivery, settlement and any other matters not specifically covered herein shall be governed by the rules of the Exchange.

1201. Commodity Specifications.—The commodity traded pursuant to this chapter shall consist of *fresh white eggs, which shall be either* [large, white, fresh eggs-shell treated according to industry practice, delivered in an approved plant.] *large, graded and shell-treated according to industry practice or unwashed nest run and natural or shell-treated according to industry practice. Each delivered unit must be processed and delivered in a single plant approved by the United States Department of Agriculture and the Chicago Mercantile Exchange.*

1202. Futures call.—

A. Trading Months and Hours

Futures contracts shall be scheduled for trading and delivery during such hours and in such months as may be determined by the Board.

B. Trading Unit

The unit of trading shall be 750 cases of 30 dozen each.

C. Price Increments

Minimum price fluctuations shall be in multiples of $.0005 per dozen ($11.25 per contract).

D. Daily Price Limits

There shall be no trading at a price more than two cents ($.02) per dozen above or below the previous day's settlement price ($450.00 per contract).

E. Position Limits

A person shall not own or control a total of more than 150 contracts in any one contract month, nor shall his net long or short position in all contract months combined exceed 150 contracts.

F. Accumulation of Positions

For purposes of this rule, the positions of all accounts owned or controlled by a person or persons acting in concert or in which such person or persons have a proprietary or beneficial interest shall be cumulated. The total position of each account in which a

person has more than a nominal interest shall also be cumulated and added to any other positions attributable to that person.

G. Bona Fide Hedges

The foregoing position limits shall not apply to bona fide hedging transactions meeting the requirements of Section 4a.(3) of the Commodity Exchange Act and the rules of the Exchange.

H. Termination of Futures Trading

Futures trading shall terminate on the businesss day immediately preeceding the last seven (7) business days of the contract month.

I. Contract Modifications

Specifications shall be fixed as of the first day of trading of a contract, except that all deliveries must conform to government regulations in force at the time of delivery. If any federal governmental agency issues an order, ruling, directive or law that conflicts with the requirements of these rules, such order, ruling, directive or law shall be construed to take precedence and become part of these rules, and all open and new contracts shall be subject to such government orders.

1203. Delivery Methods.—Delivery may be made on any business day of the contract month in accordance with one of the following delivery methods:

A. Certificate of Delivery

During the period beginning with the first business day of the contract month and ending on the last day of trading of the contract month, delivery shall be effected by means of a Certificate of Delivery and shall be governed by Rules 1204 through 1212 of this Chapter.

B. Delivery Notice

During the period beginning after the last day of trading in the contract month and ending at 9:00 a.m. on the last business day of the contract month, delivery shall be effected by means of a Delivery Notice and shall be governed by Rule 1213 of this Chapter.

[1203.] *1204.* Certificate of Delivery.—A Certificate of Delivery shall constitute a binding commitment of an authorized egg plant, guaranteed by its clearing member, to deliver one trading unit of fresh eggs, meeting the specifications of this chapter, within three (3) business days after valid exercise. *The Certificate must indicate whether the intended delivery unit is composed of graded eggs or nest run eggs.* [A Certificate of Delivery may be issued on any business day of the delivery month up to and including the business day preceeding the last four (4) business days of that month.] A Certificate [shall be valid and] may be [submitted] *tendered* to the Clearing House *on any day during the period beginning with the business day preceding the first business day of the contract month and ending at 8:00 p.m. on the business day preceding the last trading day of the contract month.* [up to and including the business day preceding the last three (3) business day of the delivery month.]

[1204.] *1205.* Certificate Holding Charge.—The holder of a Certificate of Delivery shall be assessed a charge of one cent ($.01) per dozen for each business day or part thereof he holds the Certificate except the day it is exercised. Payment shall be made by check to the Clearing House upon retender and/or upon exercise.

One-half cent ($.0005) per dozen per business day shall accrue to the issuing plant as a carrying charge and the remaining one-half cent shall accrue as an allowance in favor of any subsequent purchaser [who] exercis[es]ing the Certificate of Delivery, [i.e., any buyer taking delivery] or the issuing plant repurchasing the Certificate of Delivery.

[1205.] *1206.* Delivery Procedures *During Trading in the Contract Month.* [delivery requires a Notice of Intent to Deliver and a Certificate of Delivery.]

[Rule 700 shall apply to delivery of eggs under this Chapter. Delivery of the actual commodity may be made on any business day of the contract month.]

A. Seller's Duties

The clearing member representing a short that intends to make delivery shall [submit] *tender* a Notice of Intent to Deliver and a valid Certificate of Delivery to the Clearing House prior to [7:00 a.m.] *8:00 p.m.* (Chicago time) on the day *preceding the day* of delivery. [of the Certificate.]

B. Notice to Buyers

The Clearing House shall promptly register the Certificate of Delivery, *and* assign the Certificate and pass the Notice of Intent to Deliver according to the provisions of Rule 713.D.

C. Buyer's Duties

The clearing member representing the buyer [and receiving a Notice of Intent to Deliver] *assigned a Certificate of Delivery* shall present *to the Clearing House* a certified or cashier's check, in the amount of 22,500 times the settlement price on the day prior to receipt of the [that Notice] *Notice of Intent to Deliver,* [to the Clearing House] no later than *12:00* noon the business day following receipt of that notice.

The Clearing House shall hold the original purchase price of the Certificate of Delivery for the account of the issuing plant until completion of delivery or cancellation upon repurchase by the issuing plant. The Clearing House will release *to the retenderer* any subsequent purchase price upon [completion of] retender. [or reassignment to the retenderer.]

D. Buyer's Options

A buyer receiving a Notice of Intent to Deliver [on other than] *prior to* the last day of trading shall either exercise the Certificate according to the provisions of Rule [1209] *1210* or retender it in accordance with the provisions of Rule [1206] *1207* by 11:00 a.m. on the day of receipt of said Certificate or by 11:00 a.m. on the next business day, *unless the next business day is the last trading day, in which case, retender must occur by 10:00 a.m.*

A buyer receiving a Notice of Intent to Deliver on the last day of trading may retender the Certificate by 10:00 a.m. on that day, may exercise the Certificate by 10:00 a.m. on that day, or may hold the Certificate. However, a buyer holding a Certificate after trading ceases for the month must exercise the Certificate no later than [the first business day preceding the last three (3) business days of the month.] *11:00 a.m. on the business day following the last day of trading.*

[A buyer receiving a Notice of Intent to Deliver after trading ceases for the month must exercise the Certificate no later than the first business day preceding the last three (3) business days of the month.]

If a buyer fails to exercise or retender as required, the clearing member representing that buyer shall be responsible for accepting delivery of the physical commodity.

[1206.] *1207.* Retender of Certificates.

A. Short Position

A Certificate of Delivery may be retendered only in satisfaction of a short position in the same month as the month of its issuance. Said short position must be presented to the Clearing House. A buyer who receives a Certificate of Delivery may establish a short position for the purpose of making a retender without regard to the provisions of Rule 818.

B. Retender Procedures

The clearing member representing the retendering seller shall present a Notice of Intent to Deliver to the Clearing House in accordance with the time limits specified in Rule [1205] *1206.*D. [on the day of retender.] A check in the amount of the holding charge described in Rule [1204] *1205* and a certified or cashier's check for the purchase price described in Rule [1205.C.] *1206.C.* shall be presented to the Clearing House in accordance with the time limits specified in Rule [1205.C.] *1206.C.*

[1207.] *1208.* Purchase of Retendered Certificate.

A. Posting

On the day of retender, the Clearing House shall post on the trading floor by 11:30 a.m. and until 12:30 p.m. notice of all retendered Certificates of Delivery identifying the issuing egg plant, its address and any accrued allowances. If the day of retender is the last day of trading, the Clearing House shall post such notice by 10:30 a.m. and until 11:30 a.m.

B. Purchase of Posted Certificates

A posted Certificate of Delivery may be purchased by open outcry by a holder of a long position in the same month as the month of its issuance. Said long position must be presented to the Clearing House. A long position may be established for the purpose of buying a [retendered] *posted* Certificate of Delivery without regard to the prohibitions of Rule 818.

C. Price

The purchaser of a [retendered] *posted* Certificate of Delivery shall present to the Clearing House by *12:00* noon of the business day following purchase a certified or cashier's check in the amount of 22,500 times the settlement price on the day of purchase. The Clearing House shall remit said amount to the retenderer.

D. Purchaser's Duties

The purchaser of a posted Certificate of Delivery may not retender. Said certificate, if purchased by other than the issuing plant, must be exercised by 11:00 a.m. the following business day.

E. Notification

The purchaser's clearing member shall promptly notify the Clearing House whether the Certificate is being purchased by the issuing egg plant or exercised.

[1208.] *1209.* Reassignment of Retendered Certificate.—If a retendered Certificate of Delivery is not purchased under Rule [1207] *1208.* the Clearing House shall assign it [to a long position] in the same manner as specified in Rule [1205] *1206.*B., *with the oldest Certificate receiving priority of assignment.* The assignee of a retendered Certificate is, in turn, a "buyer" for purposes of determining said assignee's duties and options under this Chapter. [and under other applicable Exchange rules.] However, the assignee-buyer's payment under Rule [1205] *1206.*C. will not be held by the Clearing House for the account of the issuing plant, but will be remitted to the retenderer.

[1209.] *1210.* Exercise of [Delivery] *a* Certificate *of Delivery.*—

A. Exercise Procedures

The clearing member representing an assigned buyer or the clearing member representing the purchaser of a retendered Certificate exercises a Certificate of Delivery by written notice to the Clearing House in accordance with the time limits prescribed in Rule [1205] *1206.*D. [Full and proper payment of the purchase price shall be made by noon of the business day following receipt of the Notice of Intent to Deliver.]

B. Issuing Plant's Duties

Inspection shall be made only after the exercise of the Certificate of Delivery. The issuing plant shall have the eggs [shell treated,] inspected and otherwise ready for delivery within three (3) business days after the day of exercise. Failure to do so shall result in *a* [the following additional] charge[s] to the issuing plant[.] *of* one cent ($.01) per dozen per business day for each day [thereafter] until *the* eggs *have passed inspection and are otherwise* [are presented that have passed inspection and are otherwise] ready for delivery. For *the* purpose[s] of this subsection, [Rule 1209.B.,] the business day shall end at 3:00 p.m., local time.

C. Exerciser's Duties

The exerciser shall remove the eggs no later than the third business day after *inspection.* [exercise, or if] *If* the issuing plant has failed to ready the eggs for delivery by the third business day after exercise, *the exerciser shall remove the eggs* not later than the third business day after the eggs have passed inspection and are otherwise ready for delivery. However, if the eggs are inspected and otherwise ready for delivery prior to these time limits, the exerciser may make mutually satisfactory arrangements with the plant for an earlier pick-up. Failure to make timely removal, if such failure is not caused by the issuing plant's failure to have the eggs inspected and otherwise ready for delivery, shall result in [the following additional] *a* charge[s] to the exerciser[.] *of* one cent ($.01) per dozen per business day for each day [thereafter] until the eggs are removed. For purposes of this subsection, [Rule 1209.C.,] the business day shall end at 3:00 p.m., local time.

D. Payment Due Upon Exercise of the Certificate

Payment for the purchase price shall be made to the Clearing House by the clearing member representing the purchaser by 12:00 noon of the business day after exercise of the Certificate.

The Clearing House shall remit to the exerciser of an Certificate the allowances accruing to the Certificate of Delivery under [1204] *1205.* and such allowances as may accrue under Rule [1212] *1214* for quality, quantity, and delivery point deviations. In addition, any charges against the issuing plant under Rule [1209] *1210* shall be collected by the Clearing House and remitted to the exerciser of the Certificate.

[1210.] *1211.* Cancellation of Delivery Certificates.—A Certificate *of Delivery* shall be deemed cancelled either upon purchase by the issuing egg plant or upon exercise in accordance with Rule [1209] *1210.*

[1211.] *1212. Payment [of] to* Issuing Plant.—Upon cancellation of a Certificate of Delivery, either by repurchase or exercise, the Clearing House shall remit to the issuing plant the original purchase price of such Certificate, plus all accrued carrying charges net of all deductions for quality, quantity, and delivery point allowances. Any additional amounts due to the issuing plant for eggs left in the plant beyond the allotted three (3) business days shall be billed and paid through the Clearing house. Billings shall be made within thirty (30) calendar days of removal, and payment shall be made within five (5) calendar days of billing. The clearing member representing the buyer shall be responsible for payment of such additional amounts.

1213. Delivery Procedures After Trading Terminates in the Contract Month.

A. Seller's Duties

The clearing member representing a short that intends to make delivery after trading terminates shall tender a Delivery Notice to the Clearing House prior to 8:00 p.m. (Chicago time) on the day preceding the day of delivery; except that a Delivery Notice may be submitted to the Clearing House prior to 9:00 a.m. on the last business day of the contract month. The eggs shall be inspected not more than two (2) calendar days prior to tendering the Delivery Notice. The seller shall deliver through the Clearing House all documents necessary in order to effect delivery.

B. Buyer's Duties

The clearing member receiving Delivery Notice shall present a certified or cashier's check for the amount shown on the Delivery Notice at the Clearing House not later than 12:00 noon of the following business day.

The buyer receiving delivery must remove the eggs from the delivering plant within the following three (3) business days after receipt of the Delivery Notice. Failure to comply shall result in a charge to the buyer of one cent ($.01) per dozen per business day for each day until the eggs are removed. For the purpose of this subsection the business day shall end at 3:00 p.m., local time.

C. Payment

Upon completion of delivery, the Clearing House shall release to the seller the amount due. Seller shall receive such funds, and title shall pass to buyer, at the expiration of three business days after the Delivery Notice has been tendered or when the buyer removes the eggs from the delivering plant, whichever shall occur first. Any additional amounts due seller for eggs left in plant beyond the allotted three business days shall be billed and paid through the Clearing House.

[1212.] *1214.* Par Delivery and Substitutions.—*The delivery unit shall consist of graded eggs or nest run eggs, but not a combination of graded and nest run in the same delivery unit.*

A Par Delivery Unit—*Graded or Nest Run*

1. Quality Specifications—

a. Graded

The eggs shall be U.S. graded *90% AA and A Quality in combination, of which no less than 20% shall be AA Quality.* [20.0% AA Quality with the combination of 90.0% AA and A Quality.] No *individual* case shall contain less than 10.0% AA Quality. No *Individual* case shall contain less than 75.0 AA and A Quality in combination.

The average net weight for par delivery shall be at least 46.0 pounds per case with no *individual* case weighing less than 45.0 pounds, net. The average net weight for par delivery shall not exceed 50.0 pounds per case with no individual case to exceed 51.0 pounds net.

In addition, eggs rating below B Quality shall not exceed 6.0%, including loss, which shall not exceed 1.0%.

b. Nest Run

The eggs shall be current production, unwashed nest run 88% AA and A Quality in combination, of which no less than 35% shall be AA Quality. No individual case may contain less than 25% AA Quality. No individual case may contain less than 75% of AA and A Quality in combination. Eggs with adhering dirt or foreign material on the shell exceeding one-half inch diameter shall not exceed 5%. Not more than 5% may be checks and not more than 2% may be loss. Marks which are slightly gray in appearance and adhering dirt or foreign material on the shell less than ⅛ inch in diameter are not considered quality factors. The eggs shall be officially graded for all other quality factors.

The average net weight for par delivery shall be at least 46.0 pounds per case with no individual case weighing less than 46.0 pounds net. The average net weight for par delivery shall not exceed 50.0 pounds per case with no individual case to exceed 51.0 pounds net. Units whose average net weight is more than 50.0 pounds are not deliverable. For purposes of inspection for weight, the number of sample cases shall be double the minimum USDA sample size requirement.

The delivery unit may consist of from 1 to 3 lots, each of which shall contain no less than 150 cases.

Each lot shall be positively identified or the entire unit shall be treated as one lot.

The weight requirements and allowance specified shall be applied individually to each lot in the delivery unit, and, if any lot fails to meet such requirements, the entire unit shall fail inspection.

2. Packaging—

Eggs must be packed in new or good used fibre or corrugated cases with fibre or corrugated centers which meet one of the following requirements:

a. A marked minimum bursting strength of 200 pounds with S, H, or Z liners[.]; *or*

b. Double walled without liners.

Other cases may be used if approved by the CME. The cases need not be manufactured by the same manufacturer. Filler-flats must be acceptable to the trade and be either new or good used. Cases must be taped with no less than a two-inch tape, but no more than a three-inch tape, or as approved by the USDA.

3. Delivery Points—

Par delivery of eggs shall be basis Chicago area. Deliveries made from outside the Chicago area may be substituted with an allowance, as determined and published by the Chicago Mercantile Exchange.

B. Quality Deviations and Allowances

1. Graded

Carlots grading below 90.0% but not less than 89.0% AA and A Quality may be delivered with an allowance of one cent ($.01) per dozen. Carlots grading below 89.0% but not less than 88.0% AA and A Quality may be delivered with an allowance of two cents ($.02) per dozen. Carlots grading below 88.0% but not less than 87.0% AA and A Quality may be delivered with an allowance of four cents ($.04) per dozen. No carlots grading less than 87.0% AA and A Quality may be delivered. [No case shall contain less than 75.0% AA and A Quality in Combination. No case shall contain less than 10.0% AA Quality.]

2. Nest Run

Carlots grading below 88.0% but not less than 87.0% AA and A Quality may be delivered with an allowance of one cent ($.01) per dozen. Carlots grading below 87.0% but not less than 86.0% AA and A Quality may be delivered with an allowance of two cents ($.02) per dozen. Carlots grading below 86.0% but not less than 85.0% AA and A Quality may be delivered with an allowance of four cents ($.04) per dozen. No carlots grading less than 85.0% AA and A Quality may be delivered.

C. Quantity Deviations and Allowances

The delivery unit may be 720 to 750 cases, but payment shall be made on the basis of the exact quantity delivered.

D. Weight Deviations and Allowances—Nest Run Eggs Only

Delivery units whose average net weight is less than 47.0 pounds are not deliverable. Delivery units having an average net weight per case of less than 48 pounds shall be discounted one half cent ($.005) per dozen for each ½ pound or fraction thereof by which the average net weight falls below 48 pounds per case.

[1213.] *1215.* Inspection.—*Unless otherwise specified in this Chapter,* [T]*t*he eggs must meet [the requirements of the U.S. Specifications and Weight Classes for Wholesale Grades for Shell Eggs] *the regulations governing the grading of shell eggs and U.S. standards, grades, and weight classes for shell eggs* as promulgated by the Poultry and Dairy Quality Division, Food Safety and Quality Service, U.S. Department of Agriculture (USDA). All cases must be taped and identified with a lot number prior to the selection of the sample by the USDA [inspector] *grader.* Tags will not be allowed. All cases delivered must be taped and identified with a USDA lot number prior to the selection of the sample by the USDA [inspector] *grader;* however, no case may be stamped with more than one USDA number.

Inspection must be made during the month of delivery. [and only after Certificate of Delivery is exercised.] Eggs delivered in one month shall not be eligible for delivery in any subsequent month.

[1214.] *1216.* Appeal Grading at Point of Origin.—A request may be made for appeal grading at the plant of origin. Requests for such appeal must be presented to the Chicago Mercantile Exchange no later than [twelve] *12:00* noon, Chicago time, on the day of notification of the results of the original inspection. Appeal grading shall be conducted by an [inspector] *grader* assigned by the Regional Director of the Poultry and Dairy Quality Division, Food Safety and Quality Service, USDA. *If the FSQS Regional Director determines that an appeal grading is not justified, then the original inspection final.*

Appeal grading shall be performed in accordance with USDA procedures described in 7 CFR Part 2856 of the USDA regulations governing the grading of shell eggs. In the event that the appeal grading determines that the eggs presented meet contract requirements, the cost of such appeal shall be borne by the buyer, and penalties specified shall apply to any delay in picking up the eggs, whether or not the delay is caused by the appeal grading. Should the appeal grading determine that the eggs delivered do not meet the contract requirements, the seller [will be considered to have failed to have made] *shall have failed to make* delivery and will be subject to the penalties described in Rule [1215] *1217.* In addition, the seller must pay for the appeal grading. The results of the appeal grading are final. [with no appeal. In the event that the FSQS Regional Director does not agree that an appeal grading is justified, then the original inspection shall be final.]

[1215.] *1217.* Failure of Eggs to Pass Appeal Grading.—Upon failure of the eggs to pass appeal grading, the seller shall pay a one cent ($.01) per dozen per day penalty for each business day following the original date of inspection until eggs are presented that have passed inspection. Payment of penalties does not relieve the seller of its obligation to deliver acceptable eggs.

[1216.] *1218.* Exchange Inspection Certificate.—The rules of the Exchange in regard to the Exchange Inspection Certificate are not applicable to delivery under this Chapter.

[1217.] *1219.* Costs of Inspection, Weighing, Storage, Etc.—All charges for handling, prior to removal by the [exerciser] *buyer* from the plant, shall be borne by the seller. All charges incurred thereafter shall be borne by the [exerciser] *buyer.*

The costs of all inspection examinations, documentation and related services performed by the USDA grader, and related services, such as re-packaging after examination, shall be borne by the seller.

Chapter 7—Delivery Facilities and Procedures

704. Other Approved Delivery Facilities.—

B. Approved Egg Plants

Delivery in satisfaction of the fresh egg contract shall be made exclusively from egg plants meeting Exchange requirements and approved for in-plant delivery of fresh shell eggs and authorized by the Exchange to issue Certificates of Delivery. Such approval and authorization shall be based upon satisfactory demonstration that the criteria set forth in the application form, as it may be from time to time amended, have been satisfied and that the applicant will fully perform all agreements and commitments set forth in the application.

The authorization shall specify approval to have outstanding at any one time a limited and certain number of Certificates of Delivery, said number to be determined, at the discretion of the Exchange, on the basis of plant capacity and ability to conform to Exchange regulations. [That number shall apply after trading ceases for a delivery month.] A plant shall not have outstanding at one time more than the approved number of certificates. The number of certificates issued by a plant shall not relieve said plant of its obligation to delivery against outstanding certificates.

* * * * *

Other materials submitted by the CME in support of its rule amendments may be available upon request pursuant to the Freedom of Information Act (5 U.S.C. 552) and the Commission's regulations thereunder (17 CFR Part 145, as amended at 45 FR 26953–4 (April 22, 1980)), except to the extent they may be entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9. Requests for copies of such materials should be made to the FOI, Privacy and Sunshine Acts Compliance staff of the Office of the Secretariat at the Commission's headquarters, in accordance with 17 CFR 145.7 and 145.8.

Any person interested in submitting written data, views or arguments on the proposed amendments, or with respect to other materials submitted by the CME in support of its submission, should send such comments to Jane K. Stuckey, Secretary, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581, by July 15, 1981.

Such comment letters will be publicly available except to the extent they are entitled to confidential treatment as set forth in 17 CFR 145.5 and 145.9.

Issued in Washington, D.C., on June 9, 1981.

Jane K. Stuckey,

Secretary of the Commission.

BILLING CODE 6351-01-M

DEPARTMENT OF DEFENSE

Corps of Engineers, Department of the Army

National Waterways Study; Announcement of Open Meeting

AGENCY: Army Corps of Engineers, Department of the Army.

ACTION: Notice of Open Meeting.

SUMMARY: The U.S. Army Corps of Engineers announces a one-day open public briefing on the draft final report of the National Waterways Study (NWS). The meeting is the last of a series of national level meetings concerning the progress and findings of the study. This meeting will focus on the conclusions and preliminary recommendations to be presented in the Corps' NWS draft final report. A summary document will be available to preregistrants planning to attend the meeting. The period for receiving written comments on the summary document or the briefing will last through August 14, 1981. The draft final report will be available for public review in August 1981.

DATE: July 21, 1981, 8:30 a.m. to 5:00 p.m.

ADDRESS: Rosslyn Westpark Hotel, 1900 North Fort Myer Drive, Arlington, Virginia 22209.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas Ballentine or Mr. David Grier, U.S. Army Engineer Institute for Water Resources, National Waterways Study, Kingman Building, Fort Belvoir, Virginia 22060 (202/325-0479).

SUPPLEMENTARY INFORMATION: The conclusions and preliminary recommendations to be discussed at the public meeting are based on projections of demand for waterborne commerce through 2003, as well as on analysis of the capabilities of the existing waterway system and its component structures. Detailed analytical comparisons of the demand projections and the system capabilities permitted the determination of anticipated problem areas, including the isolation of constraint points. Discussions at the public meeting will focus on the remedial actions to be recommended in the draft final report. These actions will concentrate on alleviating the most serious water transportation problems and constraints from a national perspective on NWS conclusions and recommendations will be followed by an opportunity for discussion of the forecasting techniques and results and of the evaluation process leading to the recommendations.

An advance summary document describing the conclusions and recommendations to be presented at the meeting will be available on request. The draft final report of the National Waterways Study will be available for public review in August, 1981.

Dated: May 18, 1981.

John O. Roach II,

Army Liaison Officer with the Federal Register.

BILLING CODE 3710-92-M

Department of the Navy

Chief of Naval Operations Executive Panel Advisory Committee; Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (5 U.S.C. App. I), notice is hereby given that the Force Enhancement sub-Panel of the Chief of Naval Operations (CNO) Executive Panel Advisory Committee will meet on June 30–July 1, 1981, from 8 a.m. to 5 p.m. each day, at 2000 North Beauregard Street, Alexandria, Virginia. All sessions will be closed to the public.

The entire agenda for the meeting will consist of discussions of applications of warfare simulation to the Navy's tactical and strategic missions and related intelligence. These matters constitute classified information that is specifically authorized by Executive order to be kept secret in the interest of national defense and is, in fact, properly classified pursuant to such Executive order. Accordingly, the Secretary of the Navy has determined in writing that the public interest requires that all sessions of the meeting be closed to the public because they will be concerned with matters listed in Section 552b(c)(1) of Title 5, United States Code.

For further information concerning this meeting, contact: Lieutenant Kathleen M. Cummings, Executive Secretary, CNO Executive Panel Advisory Committee, 2000 North Beauregard Street, Room 392, Alexandria, Virginia 22311, Telephone: (703) 756-1205.

Dated: June 10, 1981.

J. J. Walsh,

Commander, JAGC, U.S. Navy, Alternate Federal Register, Liaison Officer.

[FR Doc. 81-17768 Filed 6-12-81; 8:45 am]

BILLING CODE 3810-71-M

Office of the Secretary

DOD Advisory Group on Electronic Devices; Advisory Committee Meeting

Working Group D (Mainly Laser Devices) of the DOD Advisory Group on Electronic Devices (AGED) will meet in closed session, July 19–30, 1981 at the Massachusetts Institute of Technology, Lincoln Labs, Lexington, Massachusetts.

The mission of the Advisory Group is to provide the Under Secretary of Defense for Research and Engineering, the Director, Defense Advanced Research Projects Agency and the Military Departments with technical advice on the conduct of economical and effective research and development programs in the area of electron devices.

The Working Group D meeting will be limited to review of research and development programs which the military propose to initiate with industry, univerisities or in their laboratories. The laser area includes programs on developments and research related to low energy lasers for such applications as battlefield surveillance, target designation, ranging, communications, weapon guidance and data transmission. The review will include classified program details throughout.

In accordance with 5 U.S.C. App 1, section 10(d) (1976), it has been determined that this Advisory Group meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1976), and that accordingly, this meeting will be closed to the public.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

BILLING CODE 3810-70-M

Defense Science Board Task Force on Potable Water in Southwest Asia; Advisory Committee Meeting

The Defense Science Board Task Force on Potable Water in Southwest Asia will meet in closed session on July 1, 1981 in the Pentagon, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of

Defense and the Under Secretary of Defense for Research and Engineering on overall research and engineering policy and to provide long-range guidance to the Department of Defense in these areas.

At the meeting on July 1 the Task Force will review the current and future capability of the U.S. to provide water support to military forces in Southwest Asia and make recommendations concerning improvements and other associated programmatic actions.

In accordance with 5 U.S.C. App. 1 section 10(d) (1976), it has been determined that this Defense Science Board Task Force meeting concerns matters listed in 5 U.S.C. 552b(c)(1) (1976), and that accordingly this meeting will be closed to the public.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

Office of the Secretary

Privacy Act of 1974; Notices of Systems of Records: Amendments

AGENCY: Office of the Secretary of Defense (OSD).

ACTION: Notice of amendments to systems of record notices.

SUMMARY: The Office of the Secretary of Defense proposes to amend the system notices for seven systems of records subject to the Privacy Act of 1974. The specific amendments and the seven system notices as amended are set forth below.

DATES: These notices shall be amended as proposed without further notice on July 15, 1981, unless comments are received which would result in a contrary determination.

ADDRESSES: Send comments to the Systems Managers identified in the system notices.

FOR FURTHER INFORMATION CONTACT: Norma Cook, Privacy Act Officer, ODASD(A), Room 5C-315, Pentagon, Washington, D.C. 20301. Telephone: (202) 695-0970.

SUPPLEMENTARY INFORMATION: The Office of the Secretary Defense (OSD) systems of records notices as prescribed by the Privacy Act have been published in the **Federal Register.**

FR Doc. 81-15770 (46 FR 28470) May 27, 1981

These proposed amendments are not within the purview of the provisions of 5 U.S.C. 552a(o) of the Act which requires the submission of new of altered system reports.

M. S. Healy,

OSD Federal Register Liaison Officer, Washington Headquarters Services, Department of Defense.

June 10, 1981.

DOCHA 01

System name:

Health Benefits Files (44 FR 74110, December 17, 1979).

Changes:

System location:

Delete the entry under the above heading, and insert:

"Primary System—Program Operations Division (O), OCHAMPUS, DoD, Aurora, Colorado 80045.

Decentralized Segment—Office of Appeals and Hearings (H), OCHAMPUS, DoD, Aurora, Colorado 80045.".

Categories of individuals covered by the system:

In the second line, delete "under the basic program". Also, insert "under the basic program" after the word "hospitalization" in the third line.

Categories of records in the system:

In the last line, delete the word "CHAMPUS" and insert "CHAMPUS/CHAMPVA.".

Authority for maintenance of the system:

Delete the entry under the above heading, and insert:

"Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101-11.000 *et. seq.*; Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Delete the entry under the above heading and insert:

Internal users, uses, and purposes:

The Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) uses the information to determine the eligibility of an individual for health care under CHAMPUS/CHAMPVA; to authorize payment of health care claims by CHAMPUS/CHAMPVA beneficiaries; to respond to inquiries from congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Department of Justice and/or foreign law enforcement agencies for possible crimimnal prosecution; and referral to the Secretary of the Department of Health and Human Services and/or the Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA pursuant to Chapter 55, Title 10, United States Code and Section 613, Chapter 17,Title 38, United States Code.".

Storage:

Delete the word "Paper" and insert: "Hard copy".

Retrievability:

Delete the entry under the above heading, and insert:

"Retrievable numerically by case number (sponsor's Social Security Number), then alphabetically by letter assigned to each individual family member. Records are also retrievable by sponsor or beneficiary name. These records are also accessible through an automated index.".

Safeguards:

Delete the entry under the above heading, and insert:

"Automated index is accessible only by authorized persons possessing user identification codes. Hard copy records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Building is protected by Fitzsimons Army Medical Center (FAMC) security force.".

Retention and disposal:

Delete the entry under the above heading, and insert:

"Automated indexes are permanent. Hard copy records are maintained for

four years after closure in active files, held an additional two years in inactive files and then permanently preserved or destroyed in accordance with records disposal authority as dictated by subject matter.".

System manager(s) and address:

Delete the entry under the above heading, and insert:

"Chief, Program Operations Division (O), OCHAMPUS, DoD, Aurora,Colorado 80045. Telephone: 303–341–8609.".

Notification procedure:

Delete the entry under the above heading, and insert:

"Information may be obtained from the System Manager.".

Record access procedures:

Delete the entry under the above heading, and insert:

"Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should provide some acceptable identification such as a driver's license or other form of picture identification.".

Contesting record procedures:

In the third line under the above heading, delete "CFR 286b" and insert: "C.F.R. , Part 286b,".

Record source categories:

Delete the entry under the above heading, and insert:

"Records of fiscal intermediaries (FI), contractors, CHAMPUS advisors, all branches of the Uniformed Service, Congressional inquiries, private physicians, consultants, applicants and inquiries made by individuals.".

Categories of individuals covered by the system:

Delete the first paragraph under the above heading.

Categories of records in the system:

Delete the entry under the above heading, and insert:

"Documents reflecting inquiries received from private individuals and Congress for nonprivileged information on such matters as medical treatment received and eligibility for medical care under CHAMPUS/CHAMPVA. Included are notifications to individuals of approval or termination of treatment, and similar or related documents.

Records consist of individual inquiries from personnel concerning eligibility under CHAMPUS/CHAMPVA and replies thereto; Congressional inquiries on behalf of constituents concerning eligibility under CHAMPUS/CHAMPVA and replies thereto; files notifying personnel of eligibility or termination of benefits under CHAMPUS/CHAMPVA.".

Authority for maintenance of the system:

Delete the entry under the above heading, and insert:

"Title 44, United States Code, Section 3101, Title 41, Code of Federal Regulations, Parts 101–11.000 *et. seq.;* Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Delete the entry under the above heading and insert:

Internal users, uses, and purposes:

The Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) uses the information to establish eligibility for health care under CHAMPUS/CHAMPVA; to respond to an individual's inquiry concerning CHAMPUS/CHAMPVA; to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or the Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA pursuant to Chapter 55, Title 10, United States Code, and Section 613, Chapter 17, Title 38, United States Code; and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution.".

Storage:

Delete "paper" and insert "Hard copy".

Retrievability:

Delete the second sentence under this heading, and insert:

"These records are also accessible through an automated index by case number, sponsor's name and Social Security Number.".

Safeguards:

Delete the entry under the above heading, and insert:

"Automated index is accessible only by authorized persons possessing user identification codes. Hard copy records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Building is protected by Fitzsimons Army Medical Center (FAMC) security force.".

Retention and Disposal:

Delete the entry under the above heading, and insert:

"Automated indexes are permanent. Hard copy records are retained in active file until end of calendar year in which injury occurred, held 5 additional years in inactive files and then destroyed or permanently preserved in accordance with records disposal authority as dictated by subject matter.".

System manager(s) and address:

Delete the entry under the above heading, and insert:

"chief, Administrative Support Division (A), OCHAMPUS, DoD, Building 618, Room 202, Fitzsimons Army Medical Center, Aurora, Colorado 80045. Telephone: 303–341–8005.".

Notification procedure:

Delete the entry under the above heading, and insert:

"Information may be obtained from the System Manager.".

Record access procedures:

Delete the first paragraph under the above heading. In the second paragraph, delete the second sentence. Delete the third and fourth paragraphs, and insert:

"For personal visits to examine records, the individual should be able to provide some acceptable identification such as a driver's license or other form of picture identification.

Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical records and, at the physician's discretion, inform the individual covered by the system of the contents of that medical record.".

Contesting record procedures:

Delete the last line of the entry, and insert: "are contained in 32 CFR Part 286b, and OSD Administrative Instruction No. 81.".

Record source categories:

Delete the entry under the above heading, and insert:

"CHAMPUS Fiscal Intermediaries (FI), individual members of the Congress of the United States, CHAMPUS advisors, all branches of the Uniformed Services, consultants, and all individuals who seek information concerning CHAMPUS/CHAMPVA.".

DOCHA 03

System name:

Health Benefits Preapproval Files (44 FR 74112, December 17, 1979).

Changes:

System location:

Delete the first paragraph under the above heading, and insert:

"Primary System—Chief, Program Evaluation Division (E), Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS), DoD, Aurora, Colorado 80045".

In the second paragraph, delete "Denver,", and insert: "Aurora,". Delete "80240;" in the second line, and insert: "80045;".

Categories of individuals covered by the system:

Delete the last line of the entry under the above heading, and insert: "(CHAMPVA)/Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) who have been approved for extended hospital care.".

Categories of records in the system:

In the entry under the above heading, second line, delete the word "account". Also, in the last line, delete the word "CHAMPUS.", and insert "CHAMPUS/CHAMPVA.".

Authority for maintenance of the system:

Delete the entry under the above heading, and insert:

"Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et. seq.;* Chapter 55, Title 10, United States Code: Section 613, chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.".

Routine uses of records maintained in the system, including categories of users and the purposes of such uses:

Delete the entry under the above heading and insert:

"Internal users, uses, and purposes:

OCHAMPUS Program Operations Division (O)—For approval of medical care under the provisions of the Program for the Handicapped of CHAMPUS and/or approval for extended hospitalization; to control and review health care management plans for CHAMPUS//CHAMPVA beneficiaries approved for medical care by providers of service.

OCHAMPUS Program Evaluation Division (E)—For control and accomplishment of reviews of approvals; to coordinate subject matter clearances for Congressional committees and auditors.

The Office of the Civilian Health and Medical Program for the Uniformed Services (OCHAMPUS) uses the information for approval of health care under the Program for the Handicapped: for approval of extended hospital care; to control and review health care management plans of providers of services for individuals approved for heath care under CHAMPUS/CHAMPVA to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or the Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA pursuant to Chapter 55, Title 10, United States Code and Section 613, Chapter 17, Title 38, United States Code; and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution.".

Retrievability:

In the second line, delete the words "account number (SSAN), sponsor's or beneficiaries' ", and insert: "number, sponsor's or beneficiary's".

Safeguards:

Delete the entry under the above heading, and insert:

"Records are maintained in areas which are manned 24 hours daily and are accessible to authorized personnel who are properly screened, cleared and trained. Records are maintained on magnetic tape and are accessible only through the medium of OCHAMPUS prepared computer programs resulting in a print-out of the data. Military police provide 24-hour security.".

System manager(s) and address:

Delete the entry under the above heading, and insert:

"Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Decentralized automated segments within Fiscal Intermediary operations are accessible on line only to authorized persons possessing user identification codes. The automated portion of the Primary System is accessible only through the medium of OCHAMPUS prepared computer programs resulting in a printout of the data. OCHAMPUS buildings are protected by military police security force.".

Retention and disposal:

Delete the entry under the above heading, and insert:

"Records maintained on magnetic tape are individual annual files and are permanent. Paper or microfiche records comprising the decentralized segment of the files are maintained for a minimum of two calendar years after closure and the stored in designated federal record centers for an additional four years; and then destroyed or permanently preserved in accordance with records disposal authority as dictated by subject matter.".

System manager(s) and address:

Delete the entry under the above heading, and insert:

"Chief, Administrative Support Division (A), OCHAMPUS, DoD, Building 618, Room 202, Fitzsimons Army Medical Center, Aurora, Colorado 80045 Telephone: 303–314–8005.".

Notification procedure:

Delete the entry under the above heading, and insert:

"Information may be obtained from the System Manager.".

Record access procedures:

Delete the entry under the above heading, and insert:

"Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to recieve the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should provide some acceptable identification such as driver's license or other form of picture identification.".

Contesting record procedures:

In the third line, delete "CFR 286b", and insert: "C.F.R., Part 286b,".

Record source categories:

Delete the word "care." in the second line, and insert: "care, individual beneficiaries, third party contacts verifying claims information, and consultants.".

DOCHA 01

SYSTEM NAME:

Health Benefits Files.

SYSTEM LOCATION:

Primary System—Program Operations Division (O), OCHAMPUS, DoD, Aurora, Colorado 80045.

Decentralized Segment—Office of Appeals and Hearings (H), OCHAMPUS, DoD, Aurora, Colorado 80045.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who seek health care under the Program for the Handicapped as CHAMPUS beneficiaries and/or extended hospitalization under the basic program as CHAMPUS/CHAMPVA beneficiaries.

CATEGORIES OF RECORDS IN THE SYSTEM:

Original correspondence with individuals, medical statements, Congressional inquiries, medical treatment records, authorizations for care, case status sheets, memos for record, follow-up reports justifying extended care, correspondence with contractors and work-up sheets maintained by case workers, and appeals and hearings case files consisting of transcript and/or other documentation pertaining to reconsiderations or appeals of adverse determinations affecting an individual's benefits under CHAMPUS/CHAMPVA.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et. seq.*; Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

The Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) uses the information to determine the eligibility of an individual for health care under CHAMPUS/CHAMPVA; to authorize payment of health care claims by CHAMPUS/CHAMPVA beneficiaries; to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution; and referral to the Secretary of the Department of Health and Human Services and/or the Administrator of the Veterans' Administration consistent with their statutory administration responsibilities under CHAMPUS/CHAMPVA pursuant to Chapter 55, Title 10, United States Code and Section 613, Chapter 17, Title 38, United States Code.

POLICIES AND PRACTICES FOR STORING, RETRIVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Hard copy records in file folders.

RETRIEVABILITY:

Retrievable numerically by case number (sponsor's Social Security Number), then alphabetically by letter

assigned to each individual family member. Records are also retrievable by sponsor or beneficiary name. These records are also accessible through an automated index.

SAFEGUARDS:

Automated index is accessible only by authorized persons possessing user identification codes. Hard copy records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Building is protected by Fitzsimons Army Medical Center (FAMC) security force.

RETENTION AND DISPOSAL:

Automated indexes are permanent. Hard copy records are maintained for four years after closure in active files, held an additional two years in inactive files and then permanently preserved or destroyed in accordance with records disposal authority as dictated by subject matter.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Program Operations Division (O), OCHAMPUS, DoD, Aurora, Colorado 80045. Telephone: 303–341–8609.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should provide some acceptable identification such as a driver's license or other form of picture identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 C.F.R., Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Records of Fiscal Intermediaries (FI), contractors, CHAMPUS advisors, all branches of the Uniformed Services, Congressional inquiries, private physicians, consultants, applicants and inquiries made by individuals.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DOCHA 02

SYSTEM NAME:

Medical Care Inquiry Files.

SYSTEM LOCATION:

Administrative Support Division (A), OCHAMPUS, DoD, Aurora, Colorado 80045.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All individuals who seek information concerning health care under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) and the Civilian Health and Medical Program-Veterans'Administration (CHAMPVA).

CATEGORIES OF RECORDS IN THE SYSTEM:

Documents reflecting inquiries received from private individuals and Congress for nonprivileged information on such matters as medical treatment received and eligibility for medical care under CHAMPUS/CHAMPVA. Included are notifications to individuals of approval or termination of treatment, and similar or related documents.

Records consist of individual inquiries from personnel concerning eligibility under CHAMPUS/CHAMPVA and replies thereto; Congressional inquiries on behalf of constituents concerning eligibility under CHAMPUS/CHAMPVA and replies thereto; files notifying personnel of eligibility or termination of benefits under CHAMPUS/CHAMPVA.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et seq.;* Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

The Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) uses the information to establish eligibility for health care under CHAMPUS/CHAMPVA; to respond to an individual's inquiry concerning CHAMPUS/CHAMPVA; to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA pursuant to Chapter 55, Title 10, United States Code, and Section 613, Chapter 17, Title 38, United States Code; and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Hard copy records in file folders.

RETRIEVABILITY:

Filed alphabetically by the last name of inquirer. These records are also accessible through an automated index by case number, sponsor's name and Social Security Number.

SAFEGUARDS:

Automated index is accessible only by authorized persons possessing user identification codes. Hard copy records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Building is protected by Fitzsimons Army Medical Center (FAMC) security force.

RETENTION AND DISPOSAL:

Automated indexes are permanent. Hard copy records are retained in active file until end of calendar year in which injury occurred, held 5 additional years in inactive files and then destroyed or permanently preserved in accordance with records disposal authority as dictated by subject matter.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Administrative Support Division (A), OCHAMPUS, DoD, Building 618, Room 202, Fitzsimons Army Medical Center, Aurora, Colorado 80045. Telephone: 303–341–8005.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager.

RECORD ACCESS PRECEDURES:

Requests should be addressed to the System Manager.

Written requests for information should include the full name of the individual, or his military sponsor, current address and telephone number, case number, if one has been assigned, and the office symbol on all correspondence received from this office.

For personal visits to examine records, the individual should be able to provide some acceptable identification such as a driver's license or other form of picture identification.

Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical records and, at the physician's discretion, inform the individual covered by the system of the contents of that medical record.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 C.F.R., Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

CHAMPUS Fiscal Intermediaries (FI), individual members of the Congress of the United States, CHAMPUS advisors, all branches of the Uniformed Services, consultants, and all individuals who seek information concerning CHAMPUS/CHAMPVA.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None.

DOCHA 03

SYSTEM NAME:

Health Benefits Preapproval Files.

SYSTEM LOCATION:

Primary System—Chief, Program Evaluation Division (E), Office of Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS), DoD, Aurora, Colorado 80045.

Decentralized Segment—Office of Appeals and Hearings, OCHAMPUS, DoD, Aurora, Colorado 80045; Blue Shield of California, P.O. Box 85035, San Diego, California 92138.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Eligible beneficiaries of the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) who have been approved for medical care under the program for the handicapped and/or eligible beneficiaries of the Civilian Health and Medical Program-Veterans' Administration (CHAMPVA)/ Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) who have been approved for extended hospital care.

CATEGORIES OF RECORDS IN THE SYSTEM:

File contains an assigned case number, sponsor's name, Social Security Number, current address, military grade or rank and pay status, military branch of service and status; beneficiaries name, address, date of birth, sex, relationship to sponsor; the medical diagnosis code and the approved medical treatment code, the approved period of time, the number of units approved and the estimated unit of cost, providers of care codes and/or name and address of multi-providers, and appeals and hearing case files consisting of hearing transcripts and/or other documentation pertaining to reconsiderations and appeals of adverse determinations affecting an individual's benefits under CHAMPUS/CHAMPVA.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et seq.*; Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS, AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

OCHAMPUS Program Operations Division (O)—For approval of medical care under the provisions of the Program for the Handicapped of CHAMPUS and/ or approval for extended hospitalization; to control and review health care management plans for CHAMPUS/CHAMPVA beneficiaries approved for medical care by providers of service.

OCHAMPUS Program Evaluation Division (E)—For control and accomplishment of reviews of approvals; to coordinate subject matter clearances for Congresional committees and auditors.

The Office of the Civilian Health and Medical Program of the Uniformed Services (OCHAMPUS) uses the information for approval of health care under the Program for the Handicapped; for approval of extended hospital care; to control and review health care management plans of providers of services for individuals approved for health care under CHAMPUS/ CHAMPVA to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/ CHAMPVA pursuant to Chapter 55, Title 10, United States Code, and Section 613, Chapter 17, Title 38, United States Code; and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Records are maintained on magnetic tape and disc.

RETRIEVABILITY:

Information is retrieved by assigned case number, sponsor's Social Security Number, sponsor's or beneficiary's name, classification of medical diagnosis or medical treatment codes or provider of service code or approval dates or geographical location.

SAFEGUARDS:

Records are maintained in areas which are manned 24 hours daily and are accessible to authorized personnel who are properly screened, cleared and trained. Records are maintained on magnetic tape and are accessible only through the medium of OCHAMPUS prepared computer programs resulting in a print-out of the data. Military policy provides 24-hour security.

RETENTION AND DISPOSAL:

Records are permanent. They are maintained on magnetic tape as individual annual files.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Program Evaluation Division (E), OCHAMPUS, DoD, Building 611, Fitzsimons Army Medical Center, Aurora, Colorado 80045. Telephone: 303–341–8088.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should provide some acceptable identification such as a driver's license or other form of picture identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 C.F.R., Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Sponsor's/ beneficiary's application, provider of medical care documentation.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

DOCHA 04

SYSTEM NAME:

Legal Opinion Files.

SYSTEM LOCATION:

Office of General Counsel, OCHAMPUS, DoD, Aurora, Colorado 80045.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Individuals who are the subject of inquiries from the individual himself (herself), attorneys, fiscal administrators, hospital contractors, other Government agencies, divisions and offices OCHAMPUS and Congressional offices. Such inquiries involve such matters as medical treatment; eligibility for medical care under CHAMPUS/CHAMPVA, approval or termination of medical treatment, and similar or related matters.

CATEGORIES OF RECORDS IN THE SYSTEM:

Inquiries received from private individuals, attorneys, fiscal administrators, hospital contractors, other Government agencies, divisions and offices of OCHAMPUS and Congress for nonprivileged information on such matters as medical treatment received, eligibility for medical care under CHAMPUS. Included are notifications to individuals for approval or termination of treatment and similar or related documents.

Files contain legal opinions; correspondence between (1) Fiscal Intermediaries, (2) CHAMPUS/ CHAMPVA beneficiaries, (3) sponsors, (4) attorneys, (5) divisions and offices of OCHAMPUS, (6) other agencies, memoranda for the record and similar documents.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et. seq.;* Chapter 55, Title 10, United States Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

Office of General Counsel maintains files of legal opinions rendered for use as precedent and for record purposes. These include responses to requests for legal opinion originating within the Office of General Counsel, other divisions and offices, OCHAMPUS, and other agencies of the Federal Government. Such records are maintained for research, precedent and historical purposes.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or the Administrator of the Veterans' Administration consistent with their statutory administrative responsibilities under CHAMPUS/ CHAMPVA pursuant to Chapter 55, Title 10, United States Code, and Section 613, Chapter 17, Title 38, United States Code; and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Paper records in file folders.

RETRIEVABILITY:

Filed alphabetically by subject matter.

SAFEGUARDS:

Buildings are protected by military security guards. Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared, and trained.

RETENTION AND DISPOSAL:

Records are permanent. Transfer to WNRC when superseded or obsolete.

SYSTEM MANAGER(S) AND ADDRESS:

General Counsel (C), OCHAMPUS, DoD, Building 618, Room 205, Fitzsimons Army Medical Center, Aurora, Colorado 80045. Telephone: 303–341–8506.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should be able to provide some acceptable identification such as a driver's license or other form of picture identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 CFR Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

Correspondence from persons, agencies and sources listed in Categories of Records and oral and written requests initiated by Office of General Counsel.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

Wisconsin Physicians Service, P.O. Box 7927, Madison, WI 53707.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Eligible beneficiaries of the Civilian Health and Medical Program of the Uniformed Services (dependents of active duty members of the Uniformed Services, retired members of the Uniformed Services and dependents of retired or deceased members of the Uniformed Services), eligible beneficiaries of the Civilian Health and Medical Program of the Veterans' Administration (spouse or child of a veteran who has a total disability, permanent in nature, resulting from a service-connected disability or surviving spouse or child of a veteran who has died as a result of a service-connected disability) who received benefits under the provisions of the program.

All individuals who seek health care under the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS) and the Civilian Health and Medical Program-Veterans' Administration (CHAMPVA).

Categories of records in the system:

File contains sponsor's Social Security Number, branch of service, status (active duty, retired or deceased), beneficiary's last name, initials, age, sex, relationship to sponsor, type of costs and date of medical care provided, provider of care identification, any record of claims, billings for medical, hospital or related services, application or approval forms which reflect diagnosis, treatment or medical conditions, family history files, or any other correspondence, memorandum or report reflecting these data with respect to any individual, which are acquired or utilized in the development and processing of CHAMPUS/CHAMPVA claims, and appeals and hearing case files consisting of hearing transcripts and/or other documentation pertaining to reconsiderations or appeals of adverse determinations of benefits under CHAMPUS/CHAMPVA.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

Title 44, United States Code, Section 3101; Title 41, Code of Federal Regulations, Parts 101–11.000 *et seq.;* Chapter 55, Title 10, United State Code; Section 613, Chapter 17, Title 38, United States Code; Title 32, Code of Federal Regulations, Part 199.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

Internal users, uses, and purposes:

The Office of the Civilian Health and Medical Program of the Uniformed Services and CHAMPUS Fiscal Intermediaries use the information to control and process medical claims for payment; for control and approval of medical treatments and interface with providers of health care; to control and accomplish reviews of utilization; for review of claims related to possible third party liability cases and initiation of recovery action; for referral to Peer Review Committees or similar professional review organizations to control and review providers of health care; for disclosure to third party contacts without the consent of the individual to whom the information pertains in situations where the party to be contacted has, or is expected to have, information necessary to establish the validity of evidence or to verify the accuracy of information presented by the individual concerning the individual's entitlement to benefits under CHAMPUS/CHAMPVA, the amount of benefit payments, any review

of suspected abuse or fraud, or any concern for program integrity or quality appraisal; for the issuance of deductible certificates, to respond to inquiries from Congressional offices made at the request of the individual covered by the system.

External users, uses, and purposes:

Referral to the Secretary of the Department of Health and Human Services and/or Administrator of the Veterans' administration consistent with their statutory administrative responsibilities under CHAMPUS/CHAMPVA pursuant to Title 10, United States Code, Chapter 55, and Title 38, United States Code, Section 613, and referral to the Department of Justice and/or foreign law enforcement agencies for possible criminal prosecution; and, referral to the Department of Justice for representation of the Secretary of Defense in civil actions.

POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

STORAGE:

Automated claim records are maintained on magentic tape and disc. Manual claim support (paper or microfiche) are maintained in family history files.

RETRIEVABILITY:

Information is retrieved by sponsor's Social Security Number (SSN), beneficiary's last name, classification of medical diagnosis or procedure codes or geographical location of care provided and selected utilization limits.

SAFEGUARDS:

Records are maintained in areas accessible only to authorized personnel who are properly screened, cleared and trained. Decentralized automated segments within Fiscal Intermediary operations are accessible on line only to authorized persons possessing user identification codes. The automated portion of the Primary System is accessible only through the medium of OCHAMPUS prepared computer programs resulting in a printout of the data. OCHAMPUS buildings are protected by military police security force.

RETENTION AND DISPOSAL:

Records maintained on magnetic tape are individual annual files and are permanent. Paper or microfiche records comprising the decentralized segment of the files are maintained for a minium of two calendar years after closure and then stored in designated federal record centers for an additional four years; and then destroyed or permanently preserved in accordance with records disposal authority as dictated by subject matter.

SYSTEM MANAGER(S) AND ADDRESS:

Chief, Administrative Support Division (A), OCHAMPUS, DoD, Building 618, Room 202, Fitzsimons Army Medical Center, Aurora, Colorado 80045. Telephone: 303–341–8005.

NOTIFICATION PROCEDURE:

Information may be obtained from the System Manager.

RECORD ACCESS PROCEDURES:

Requests should be addressed to the System Manager.

Written requests for information should include the full name of the beneficiary, the full name of the sponsor, current address and telephone number. Should it be determined that the release of medical information to the requestor could have an adverse effect upon the individual's physical or mental health, the requestor will be required to provide the name and address of a physician who would be willing to receive the medical record and, at the physician's discretion, inform the individual covered by the system of the contents of that record.

For personal visits to examine records, the individual should provide some acceptable identification such as driver's license or other form of picture identification.

CONTESTING RECORD PROCEDURES:

The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned are contained in 32 C.F.R., Part 286b, and OSD Administrative Instruction No. 81.

RECORD SOURCE CATEGORIES:

CHAMPUS Medical Claims Forms, private physicians, hospitals, and other sources of care, individual beneficiaries, third party contacts verifying claims information, and consultants.

SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:

None

BILLING CODE 3810-70-M

DEPARTMENT OF EDUCATION

Grants for Special Educational Programs for Students Whose Families Are Engaged in Migrant and Other Seasonal Farmwork—High School Equivalency Program

AGENCY: Department of Education.

ACTION: Notice of closing date for transmittal of applications for fiscal year 1981.

Applications are invited for grants under the High School Equivalency Program (HEP) to provide academic and supporting services and financial assistance to students whose families are engaged in migrant and seasonal farmwork.

The current authority for HEP is contained in Section 418A of Title IV of the Higher Education Act (HEA), as amended by Pub. L. 96–374 (20 U.S.C. 1070d–2). However, the HEA authority for HEP was not enacted until October 3, 1980. Consequently, the funds for the Fiscal Year (FY) 1981 program were appropriated under the previous statutory authorization in Section 303(c)(2) of Title III of the Comprehensive Employment and Training Act, as amended by Pub. L. 95–524.

Eligible applicants are institutions of higher education (IHEs) and other public or nonprofit private agencies in cooperation with IHEs.

The purpose of HEP is to provide grants to IHEs and other agencies, in cooperation with IHEs, to design and implement projects of academic and supporting services and financial assistance to address the special educational needs of migrant and seasonal farmworker students and to enhance the opportunity of these students for success at the secondary education level.

Closing Date for Transmittal of Applications

An application for a grant must be mailed or hand delivered to the U.S. Department of Education by July 27, 1981

Applications Delivered by Mail

An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.141, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly-dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or, at least, first class mail. A late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

An application that is hand delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, Seventh and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

An application that is hand delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information

The Secretary makes HEP grants to IHEs and other agencies, in cooperation with IHEs, to design and implement projects of academic and supporting services and financial assistance to address the special educational needs of migrant and seasonal farmworker students and to enhance the opportunity for success of these students at the secondary education level.

The Secretary may make these grants to IHEs and other agencies, in cooperation with IHEs, to assist migrant and seasonal farmworker "drop-out" students to obtain the equivalent of a secondary school diploma and to subsequently gain employment or be admitted to an IHE or other postsecondary education or training.

Proposed regulations for HEP were published in the **Federal Register** on December 30, 180 (at 45 FR 86333). Notice is hereby given that the Secretary plans to make certain changes to the proposed regulations—as a result of public comments—when the regulations are published in final form. The planned changes—to the proposed regulations—that are material to the preparation of applications for FY 1981 are indicated below. Except as indicated by these planned changes, an applicant should prepare its application on the basis of the proposed regulations.

Eligible grantees

A project grant may be authorized for a public or nonprofit private agency other than an IHE—if that agency applies in cooperation with an IHE. The proposed regulations authorized only IHEs to receive project grants.

Selection Criteria

Two additional selection criteria will be used to evaluate project applications. Those selection criteria are as follows:

(1) *Objectives and activities.*

(a) The Secretary reviews each application for information that shows the quality of the design of objectives and activities for the students participating in the project.

(b) The Secretary looks for information that shows that:

(i) the objectives and activities of the project are designed to respond to the academic, supporting, and financial needs of the participating students; and

(ii) The size, scope, and quality of the activities will contribute successfully to meeting the project's objectives.

(2) *Interagency consultation and coordination.*

(a) The Secretary reviews each application for information that shows adequate consultation and coordination with other agencies—in the State of the project—that provide services to migrant and other seasonally-employed farmworkers and their dependents.

(b) The Secretary looks for information that shows that the applicant—

(i) Has consulted and coordinated adequately with other appropriate agencies in planning and developing its project; and

(ii) Will consult and coordinate adequately with other appropriate agencies in implementing and evaluating the project.

The distribution of the points to be awarded under the eight selection criteria will be as follows:

(1) Plan of operation (25 points).

(2) Objectives and actives (20 points).

(3) Evaluation plan (15 points).

(4) Quality of key personnel (10 points).

(5) Budget and cost-effectiveness (10 points).

(6) Interagency consultation and coordination (10 points).

(7) Adequacy of resources (5 points).

(8) Recruitment (5 points).

Program Purpose

The statement of purpose for HEP will be expanded to include placement in an IHE or other postsecondary education or training (such as occupational training, apprenticeship training, or vocational school) as appropriate outcomes for participation in a HEP project.

Available funds

The Secretary estimates that there will be $6,095,000 available for FY 1981 grants. For the most part, these grant awards are expected to be between $100,000 and $300,000 and will be for a one-year period. These estimates, however, do not bind the U.S. Department of Education to a specific number of grants nor to the amount of any grant unless that amount is otherwise specified in statute or regulations.

Application forms

Application forms and instructions may be obtained by writing to Migrant Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW., (ROB–3, Room 3608), Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the grant application package. The Secretary urges that applicants not submit information that is not requested.

Applicable Regulations

The regulations that apply to HEP include the following:

(1) The Migrant Education High School Equivalency Program and College Assistance Migrant Program Regulations that were published in the **Federal Register** on December 30, 1980, as proposed regulations. Applicants should prepare their applications on the basis of these proposed regulations and the planned changes to those regulations, as indicated in this notice. When those regulations are published in final form and become effective, they will govern applications and grants under this program.

(2) The Education Department General Administrative Regulations (34 CFR Parts 75 and 77).

(3) The Grants Administration Regulations (34 CFR Part 74).

Further Information

For further information, contact Mr. Vidal A. Rivera, Jr., Deputy Director for Migrant Education, Migrant Education

Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW (ROB–3, Room 3608), Washington, D.C. 20202. Telephone (202) 245–2222.

BILLING CODE 4000–01–M

Grants for Special Educational Programs for Students Whose Families Are Engaged in Migrant and Other Seasonal Farmwork—College Assistance Migrant Program

AGENCY: Department of Education.

ACTION: Notice of closing date for transmittal of applications for fiscal year 1981.

Applications are invited for grants under the College Assistance Migrant Program (CAMP) to provide academic and supporting services and financial assistance to migrant and seasonal farmworker students.

The current authority for CAMP is contained in Section 418A of Title IV of the Higher Education Act (HEA), as amended by Pub. L. 96–374 (20 U.S.C. 1070d–2). However, the HEA authority for CAMP was not enacted until October 3, 1980. Consequently, the funds for the Fiscal Year (FY) 1981 program were appropriated under the previous statutory authorization in Section 303(c)(2) of the Comprehensive Employment and Training Act, as amended by Pub. L. 95–524.

Eligible applicants are institutions of higher education (IHEs) and other public or nonprofit private agencies in cooperation with IHEs.

The purpose of CAMP is to provide grants to IHEs and other agencies, in cooperation with IHEs, to design and implement projects of academic and supporting services and financial assistance to address the special educational needs of migrant and seasonal farmworker students and to enhance the opportunity of these students for success at the postsecondary education level.

Closing Date for Transmittal of Applications

An application for a grant must be mailed or hand delivered to the U.S. Department of Education by July 27, 1981.

Applications Delivered by Mail.

An application sent by mail must be addressed to the U.S. Department of Education, Application Control Center, Attention: 84.149, Washington, D.C. 20202.

An applicant must show proof of mailing consisting of one of the following:

(1) A legibly-dated U.S. Postal Service postmark.

(2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.

(3) A dated shipping label, invoice, or receipt from a commercial carrier.

(4) Any other proof of mailing acceptable to the Secretary of Education.

If an application is sent through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

(1) A private metered postmark.

(2) A mail receipt that is not dated by the U.S. Postal Service.

An applicant should note that the U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an applicant should check with its local post office.

An applicant is encouraged to use registered or, at least, first class mail. A late applicant will be notified that its application will not be considered.

Applications Delivered by Hand

An application that is hand delivered must be taken to the U.S. Department of Education, Application Control Center, Room 5673, Regional Office Building 3, Seventh and D Streets, S.W., Washington, D.C.

The Application Control Center will accept a hand-delivered application between 8:00 a.m. and 4:30 p.m. (Washington, D.C. time) daily, except Saturdays, Sundays, and Federal holidays.

An application that is hand delivered will not be accepted after 4:30 p.m. on the closing date.

Program Information

The Secretary makes CAMP grants to IHEs and other agencies, in cooperation with IHEs, to design and implement projects of academic and supporting services and financial assistance to address the special educational needs of migrant and seasonal farmworker students and to enhance the opportunity of these students for success at the postsecondary education level.

The Secretary may make these grants to IHEs and other agencies, in cooperation with IHEs, to assist migrant and seasonal farmworker students who are enrolled on a full-time basis in the first academic year at an IHE. The program provides assistance to help a student in—

(1) Making the transition from secondary school to postsecondary school;

(2) Generating the motivation necessary to succeed in postsecondary school; and

(3) Developing the skills necessary to succeed in postsecondary school.

Proposed regulations for CAMP were published in the **Federal Register** on December 30, 1980 (at 45 FR 86333). Notice is hereby given that the Secretary plans to make certain changes to the proposed regulations—as a result of public comments—when the regulations are published in final form. The planned changes—to the proposed regulations—that are material to the preparation of applications for FY 1981 are indicated below. Except as indicated by these planned changes, an applicant should prepare its application on the basis of the proposed regulations.

Eligible Grantees

A project grant may be authorized for a public or nonprofit private agency other than an IHE—if that agency applies in cooperation with an IHE. The proposed regulations authorized only IHEs to receive project grants.

Selection Criteria

Two additional selection criteria will be used to evaluate project applications. Those selection criteria are as follows:

(1) *Objectives and activities.*

(a) The Secretary reviews each application for information that shows the quality of the design of objectives and activities for the students participating in the project.

(b) The Secretary looks for information that shows that:

(i) The objectives and activities of the project are designed to respond to the academic, supporting, and financial needs of the participating students; and

(ii) The size, scope, and quality of the activities will contribute successfully to meeting the project's objectives.

(2) *Interagency consultation and coordination.*

(a) The Secretary reviews each application for information that shows adequate consultation and coordination with other agencies—in the State of the project—that provide services to migrant and other seasonally-employed farmworkers and their dependents.

(b) The Secretary looks for information that shows that the applicant—

(i) Has consulted and coordinated adequately with other appropriate agencies in planning and developint its project; and

(ii) Will consult and coordinate adequately with other appropriate agencies in implementing and evaluating the project.

The distribution of the points to be awarded under the eight selection criteria will be as follows:

(1) Plan of operation (25 points.)
(2) Objectives and activities (20 points.)
(3) Evaluation plan (15 points.)
(4) Quality of key personnel (10 points.)
(5) Budget and cost-effectiveness (10 points.)
(6) Interagency consultation and coordination (10 points.)
(7) Adequacy of resources (5 points.)
(8) Recruitment (5 points.)

Available Funds

The Secretary estimates that there will be $1,208,000 available for FY 1981 grants. For the most part, these grant awards are expected to be between $100,000 and $300,000 and will be for a one-year period. These estimates, however, do not bind the U.S. Department of Education to a specific number of grants nor to the amount of any grant unless that amount is otherwise specified in statute or regulations.

Application Forms

Application forms and instructions may be obtained by writing to Migrant Education Programs, Office of Elementary and Secondary Education, U.S. Department of Education, 400 Maryland Avenue, SW, (ROB–3, Room 3608), Washington, D.C. 20202.

Applications must be prepared and submitted in accordance with the regulations, instructions, and forms included in the grant application package. The Secretary urges that applicants not submit information that is not requested.

Applicable Regulations

The regulations that apply to CAMP include the following:

(1) The Migrant Education High School Equivalency Program and College Assistance Migrant Program Regulations that were published in the **Federal Register** on December 30, 1980, as proposed regulations. Applicants should prepare their applications on the basis of these proposed regulations and the planned changes to those regulations, as indicated in this notice. When those regulations are published in final form and become effective, they will govern applications and grants under this program.

(2) The Education Department General Administrative Regulations (34 CFR Parts 75 and 77).

(3) The Grants Administration Regulations (34 CFR Part 74).

BILLING CODE 4000–01–M

DEPARTMENT OF ENERGY

Economic Regulatory Administration

Aminoil USA, Inc.; Final Action on Consent Order

AGENCY: Economic Regulatory Administration, Department of Energy.

ACTION: Notice of final action taken.

SUMMARY: The Economic Regulatory Administration (ERA) of the Department of Energy (DOE) announces final action to accept a Consent Order after consideration of comments received from the public.

EFFECTIVE DATE: June 1, 1981.

FOR FURTHER INFORMATION CONTACT: Alan L. Wehmeyer, Office of Enforcement, Economic Regulatory Administration, Department of Energy, 324 East 11th Street, Kansas City, Missouri 64106.

SUPPLEMENTARY INFORMATION: On April 29, 1981, the Office of Enforcement of the ERA published Notice of a Consent Order which had been executed between Aminoil USA, Inc. ("Aminoil") and DOE. With that Notice, and in accordance with 10 CFR 205.199J(c), the Office of Enforcement invited interested persons to comment on the Consent Order. A press release was issued simultaneously, in conformity with 10 CFR 205.199J(c). Under the terms of 10 CFR 205.199J(c), no Consent Order involving sums in excess of $500,000 shall become effective until the DOE publishes Notice of its execution and solicits and considers public comments with respect to its terms. Pursuant to 10 CFR 205.199J, the Office of Enforcement of the ERA hereby gives Notice of final action taken on the Consent Order.

I. Comments Received

No comments were received with respect to the terms of the Consent Order.

II. Determination

The Office of Enforcement has concluded that the Consent Order as executed between DOE and Aminoil is an appropriate resolution of the compliance proceedings described in the Notice published on April 29, 1981, and hereby gives Notice that the Consent Order is made effective by written notice issued to Aminoil on June 1, 1981.

Issued in Kansas City, Missouri on this 3rd day of June, 1981.

William D. Miller,

District Manager, Economic Regulatory Administration.

Concurrence:

David H. Jackson,

Chief Enforcement Counsel.

BILLING CODE 6450–01–M

Federal Energy Regulatory Commission

[Docket No. TA81–2–1–000]

Alabama-Tennessee Natural Gas; Notice of Proposed PGA Rate Adjustment

June 5, 1981.

Take notice that on May 29, 1981, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee), P.O. Box 918, Florence, Alabama 35630, tendered for filing as part of its FPC Gas Tariff, Third Revised Volume No. 1, the following tariff sheets:

Thirty-Fifth Revised Sheet No. 3–A
Second Revised Sheet No. 3–B

These tariff sheets are proposed to become effective July 1, 1981.

Alabama-Tennessee states that the purpose of this filing is to adjust its rates to conform to the proposed changes in the rates of its suppliers, Tennessee Gas Pipeline Company, a Division of Tenneco Inc., and Sun Gas Company. Alabama-Tennessee states that the rate changes have been made in conformity with the PGA and related provisions of its tariff.

The tariff sheets provide for the following rates:

Rate schedule	Rate after current adjustment
G-1	
Demand	$2.34
Commodity	285.79
SG-1	
Commodity	302.89
I-1	
Commodity	293.47

Alabama-Tennessee states that copies of the tariff filing have been mailed to all of its jurisdictional customers and affected State regulatory Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17672 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. RP81-68-000]

Algonquin Gas Transmission Co.; Notice of Proposed Changes in FERC Gas Tariff

June 5, 1981.

Take notice that on May 22, 1981, Algonquin Gas Transmission Company ("Algonquin Gas") filed the following tariff sheets to its FERC Gas Tariff, First Revised Volume No. 1:

Third Revised Sheet No. 20–D
Second Revised Sheet No. 20–E
Second Revised Sheet No. 20–F
Third Revised Sheet No. 20–G
Second Revised Sheet No. 20–H
Original Sheet No. 20–H.1
Second Revised Sheet No. 120–C
Original Sheet No. 120–D

Algonquin Gas states that the changes made by such tariff sheets relate to Algonquin Gas' Rate Schedule SNG–1 and are filed to continue on an expanded basis the operating flexibility which was in effect during the two prior winter seasons.

The proposed effective date of the tariff sheets is June 22, 1981.

Algonquin Gas asserts that a copy of this filing is being mailed to all affected parties and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 and 1.10). All such petitons or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RP81-66-000]

ANR Storage Co.; Notice of Proposed Changes in FERC Gas Tariff of ANR Storage Company

June 5, 1981.

Take notice that ANR Storage Company (ANR), on May 22, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Original Volume No. 2. The proposed changes would increase the charges of ANR to its storage service customer, Inter-City Gas Corporation, solely by reason of reflecting in its rates, the increase in interest cost level. All elements used to compute the rates proposed in the subject filing, other than interest rate, are the same as those used to compute the Initial Rates. The proposed changes would increase revenues from ANR's service to Inter-City by $81,360 per year.

A copy of the filing was served upon Inter-City Gas Corporation.

Any party desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rule of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. RP81-64-000]

Cities Service Gas Co.; Notice of Proposed Change in FERC Gas Tariff

June 5, 1981.

Take notice that Cities Service Gas Company (Cities Service) on May 21, 1981, tendered for filing Second Revised Sheet No. 63 to its FERC Gas Tariff, Original Volume No. 1.

Cities Service states that this filing is necessary to conform its tariff with recent Commission orders with respect to the pricing of net underground storage injections and withdrawals on an annual last-in first-out (LIFO) basis in the computation of the Unrecovered Purchased Gas Cost Account.

Cities Service states that copies of its filing were served on all jusidictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 or 1.10 of the Commission's Rules of Practice and Procedure (18 C.F.R. 1.8 or 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Project No. 4369-001]

City of Anoka, Minn.; Notice of Application for Preliminary Permit

June 8, 1981.

Take notice that City of Anoka, Minnesota (Applicant) filed on April 24, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 4369 known as the Coon Rapids Dam located on the Mississippi River in Anoka and Hennepin Counties, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Jerry L. Dulgar, City Manager, 2015 1st Avenue North, Anoka, Minnesota 55303.

Project Description—The proposed project would consist of: (1) an existing reservoir with a surface area of 600 acres at normal power pool elevation of 830.1 feet m.s.l.; (2) an existing dam with a north section 450 feet long and 10 feet high and a south section 75 feet long and 20 feet high; (3) a proposed powerhouse that would contain generating units having a total installed capacity of 11.3 MW; (4) proposed 34.5-kV transmission lines; and (5) appurtenant facilities. The existing dam is owned and maintained by the Hennepin County Park Reserve District. The Applicant estimates that the average annual energy output would be 56,000,000 kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months. During this time studies would be conducted to determine the economic, engineering, and environmental feasibility of the project. In addition, Federal, State, and local agencies would be consulted concerning the environmental effects of the projects along with preparing an application for FERC license. Applicant estimates the cost of the studies would be $25,000.

Competing Applications—This application was filed as a competing application to the Coon Rapids Development Ltd Project No. 3613 filed on October 27, 1980, under 18 C.F.R. §4.33 (1980). Public notice of the filing of the initial application has already been given and the due date for filing competing applications or notices of intent has passed. Therefore, no further competing applications or notices of intent to file competing applications will be accepted for filing.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies only directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 C.F.R. 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest, or petition to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS," "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4369. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-45-000]

Boston Edison Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Boston Edison Company (Boston Edison) on May 26, 1981, tendered for filing First Revised Sheet No. 16 A 3.4 Experimental Interruptible Option. Boston Edison states that the Experimental Interruptible Option tariff was approved by the Commission on April 1, 1980. Boston Edison further states that although no sales by Detroit Edison were affected under this tariff during the past year there is the possibility that one or more wholesale electric customers will avail themselves of the rate in the coming year. Therefore, in order to facilitate experimental interruptible service, Detroit Edison respectfully requests that the Commission continue the Experimental Interruptible Option tariff until December 1, 1982, at which time the rate will automatically expire. Except for the new date of expiration, First Revised Sheet No. 16 A contains no additional changes.

Detroit Edison requests that the Commission grant such waivers and authorizations as are required to enable the implementation of the Experimental Interruptible Option effective June 1, 1981.

Any person desiring the be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

Philip R. Clark; Notice of Filing

June 8, 1981.

The filing individual submits the following:

Take notice that on April 6, 1981, Philip R. Clark filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Vice President, Jersey Central Power & Light Company

Vice President, Metropolitan Edison Company

Exec. Vice President and Director, GPU Nuclear Corporation

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-498-000]

The Cleveland Electric Illuminating Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that the Cleveland Electric Illuminating Company (CEI) and The Toledo Edison Company (TE) on May 28, 1981, tendered for filing the Agreement between CEI and TE for the purchase and sale of Ontario Hydro Keith Power. Pursuant to the agreement, CEI will purchase from TE the power and associated energy up to a total of 254 MW to be generated by Ontario Hydro of Ontario, Canada, for ultimate use by the General Public Utilities Company (GPU). GPU continues to suffer severe electric generation shortages as a consequence of the nuclear incident which occurred at GPU's Three Mile Island Unit No. 2 on March 28, 1979. The agreement will continue through December 31, 1983 unless sooner cancelled or extended by the parties.

Copies of the filing were served upon the Public Utilities Commission of Ohio; Consumers Power Compay of Jackson, Michigan; The Detroit Edison Company of Detroit, Michigan; General Public Utilities Service Corporation of Parsippany, New Jersey; and Ontario Hydro of Toronto, Ontario.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17636 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-335-000]

Columbia Gas Transmission Corp.; Notice of Application

June 9, 1981.

Take notice that on May 15, 1981, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314, filed in Docket No. CP81-335-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the limited-term sale of natural gas to Gulf Oil Corporation (Gulf), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Specifically, Applicant proposes a limited-term off-system sale of up to 50,000,000 Mcf of natural gas to Gulf commencing April 1, 1981, and ending October 31, 1982. Applicant states that the delivery of such volumes of natural gas to Gulf would be made in the following stages:

(1) From April 1, 1981, through October 31, 1981, Applicant has agreed to make firm delivery of 50,000 Mcf per day and to deliver an additional 50,000 Mcf per day on a best-efforts basis;

(2) From Nobember 1, 1981, through March 31, 1982, Applicant has agreed to deliver 100,000 Mcf per day on a best-efforts basis; and

(3) From April 1, 1982, through October 31, 1982, Applicant has agreed to deliver 100,000 Mcf per day on a best-efforts basis. However, if projected deliveries of LNG to Applicant from Columbia LNG Corporation have resumed Applicant has agreed during this period to make firm delivery of 50,000 Mcf per day and to deliver an additional 50,000 Mcf per day on a best-efforts basis.

It is further stated that the proposed volumes are due, in part, to a near term short fall in market requirements.

Applicant asserts that the subject gas would be delivered to Gulf or for Gulf's account at existing points of interconnection between Columbia Gulf Transmission Company, Gulf and/or Texas Eastern Transmission Corporation. It is further asserted that no new facilities would be required in order to accomplish such deliveries.

Applicant states that the price Gulf would pay for all gas delivered by Applicant, unless the cost of natural gas is deregulated, would be the higher of Applicant's average purchased gas cost per Mcf including Btu and tax adjustments for all gas purchased from producers outside the Appalachian Area or the maximum lawful price of Natural Gas Policy Act of 1978 Section 102 gas.

Applicant submits that Gulf has agreed, as part of its arrangements with Applicant, to sell its interest in certain gas to be produced from the Carter Creek and Whitney Canyon area in Uinta and Lincoln Counties, Wyoming. It is further submitted that within twenty days after receipt of final non-appealable approval of all regulatory approvals necessary to allow the proposed sale to operate according to the terms of the gas sales contract, Applicant and Gulf would execute a gas purchase agreement for the sale and purchase of the Carter Creek and Whitney Canyon gas. Applicant estimates that the reserves from Gulf's interest in the Carter Creek and Whitney Canyon areas would be approximately 200,000,000 Mcf of natural gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-514-000]

Consumers Power Co.; Notice of Filing

June 5, 1981.

The filing Company submits the following:

Take notice that on June 3, 1981, Consumers Power Company (Consumers Power) tendered for filing Amendment No. 4 to the Operating Agreement dated March 1, 1966 among Consumers, Power, The Detroit Edison Company, (Detroit Edison) and The Toledo Edison Company (Toledo Edison). The 1966 Operating Agreement has previously been designated Consumers Power Company Rate Schedule FPC No. 22.

Consumers Power states that Amendment No. 4 adds Service Schedule F to the 1966 Operating Agreement, providing for transmission service by Consumers Power and Detroit Edison between the systems of Ontario Hydro and Toledo Edison. Consumers Power states that power to be generated at Ontario Hydro's J. C. Keith Thermal Generating Station will be purchased by Toledo Edison for ultimate delivery to the systems of General Public Utilities Corporation (GPU), as part of a cooperative effort to deal with power and energy shortages on GPU's operating systems resulting from the Three Mile Island incident.

Consumers Power further states that transmission capacity and service charges provided by Amendment No. 4 are the same as rates for transmission service already filed with the Commission. Consumers Power requests an effective date on or about June 8, 1981.

Copies of the filing have been served upon Detroit Edison, Toledo Edison, and the Michigan Public Service Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17075 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4449-001]

Dakota County, Minnesota; Notice of Application for Preliminary Permit

June 8, 1981.

Take notice that Dakota County, Minnesota (Applicant) filed on April 24, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for Project No. 4449 known as the Byllesby Dam located on Cannon River in Dakota and Goodhue Counties, Minnesota. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Charles Lowery, Director, Dakota County Parks and Recreation Department, 8502 127th Street East, Hastings, Minnesota 55033.

Project Description—The proposed project would consist of: (1) an existing reservoir with a storage capacity of 2,400 acre-feet and a surface area of 1,920 acres at power pool elevation of 862.7 feet m.s.l.; (2) an existing dam which has a north section 210 feet long and a maximum height of 46 feet. The north embankment is 64 feet long and 26 feet high. The south section of the dam is 452 feet long with a maximum height of 68 feet. The south embankment is 127 feet long, with a maximum height of 32 feet; (3) an existing powerhouse that would contain generating units having a total installed capacity of approximately 3.0 MW; (4) proposed transmission lines; and (5) appurtenant facilities. The

existing dam is owned by Dakota and Goodhue Counties. The Applicant estimates that the average annual energy output would be 6.5 GWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant seeks issuance of a preliminary permit for a period of 36 months. During this time, studies would be conducted to determine the most economical scheme to generate hydroelectric power; the size of the generating equipment; and the best mode of operation. In addition, ground surveys, soil borings, and concrete coring of the dam and powerhouse would be performed. Federal, State, and local agencies would be consulted concerning the environmental effects of the project. Applicant estimates the cost of the studies would be $50,000.

Competing Applications—This application was filed as a competing application to the Byllesby Development Ltd Project No. 3608 filed on October 24, 1980, under 18 CFR § 4.33 (1980). Public notice of the filing of the initial application has already been given and the due date for filing competing applications or notices of intent has passed. Therefore, no further competing applications or notices of intent to file competing applications will be accepted for filing.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies only directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest, or petition to intervene must be received on or before July 6, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4449. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17632 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4641-000]

George Danner III and James P. Fenster; Notice of Application for Short Form License (Minor)

June 8, 1981.

Take notice that George Danner III and James P. Fenster (Applicants) filed on May 11, 1981, an application for short form license (minor) [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)-825(r)] for Project No. 4641 known as the Danner-Fenster Project located on an unnamed creek in Juneau, Alaska. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: George Danner III and James P. Fenster, 7502 Glacier Highway, Juneau, Alaska 99801.

Project Description—The proposed project would consist of : (1) a 6-foot high concrete diversion structure; (2) a 1,850-foot long, 5-inch diameter pipe; (3) a powerhouse containing a single 12-kW generating unit; and (4) associated electrical equipment.

The project would have an average annual generation of 11,000 kWh at an estimated construction cost of $20,000. The project would provide electric power for the residences of Messrs. Danner and Fenster.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 12, 1981, either the competing application itself [See 18 CFR 4.33 (a) and (d)(1980)] or a notice of intent [See 18 CFR 4.33 (b) and (c)(1980)] to file a competing application. Submission of a timely notice of intent allows an interested person to file an acceptable competing application no later than December 10, 1981.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies only directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest, or petition to intervene must be received on or before August 12, 1981.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable, and the Project Number of this notice. Any of the above named documents must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208 RB at the above address. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

BILLING CODE 6450-85-M

[Docket No. ER81-504-000]

Delmarva Power & Light Co.; Notice of Proposed Tariff Change

June 5, 1981.

The filing Company submits the following:

Take notice that Delmarva Power & Light Company (Delmarva) on May 29, 1981 tendered for filing proposed changes in its FERC Electric Tariff, Volume No. 10. The total revenue increase proposed is $765,511 on the

basis of the proposed test period information.

Delmarva states the foregoing tariff changes are being filed so that it can achieve a fair and reasonable return on its investment in facilities used to provide jurisdictional services. Delmarva proposes an effective date of July 28, 1981.

Copies of the filing were served upon Delmarva's jurisdictional customers the Delaware Public Service Commission, the Maryland Public Service Commission, and the Virginia State Corporation Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any persons wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-509-000]

Delmarva Power & Light Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Delmarva Power & Light Company (Delmarva), on June 1, 1981, tendered for filing a Notice of Intent to Cancel the Service Agreement between Delmarva and the Town of Centreville, Maryland (Centreville) effective May 1, 1963, under which Delmarva serves Centreville at wholesale at rates set forth in Delmarva's FERC Electric Tariff, Volume No. 10.

Delmarva states that this Service Agreement is to be cancelled because Delmarva and Centreville have concluded the terms of a sale of Centreville's electric system to Delmarva. The cancellation will be effective on the date on which this sale is closed, which is scheduled for June 1, 1981. Immediately upon such closing, Delmarva will begin to serve Centreville's electric service customers at retail under the jurisdiction of the Maryland Public Service Commission and to operate Centreville's electric system as part of Delmarva's own integrated system. This transaction was approved by an Order of the Maryland Public Service Commission dated May 18, 1981.

Copies of this filing were served upon the Delaware Public Service Commission, the Maryland Public Service Commission and the Virginia State Corporation Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17837 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Project No. 4025-000]

Willis D. Deveny; Notice of Application for Short-Form License (Minor)

June 8, 1981.

Take notice that Willis D. Deveny (Applicant) filed on January 15, 1981, an application for minor license [pursuant to the Federal Power Act, 16 U.S.C. 791(a)–825(r)] for construction and operation of Project No. 4025 to be known as Shingle Creek Project located on Shingle Creek in Idaho County, Idaho. No U.S. lands would be occupied by the project. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Willis D. Deveny, Box 239, Riggins, Idaho 83549. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 3-foot wide and 2-foot high concrete headgate; (2) a 3,100-foot long plastic PVC pipeline; (3) a 200-foot long iron pipe; (4) a 3-foot wide and 2-foot high concrete headgate; (5) a 3,000-foot long plastic PVC pipeline; (6) a powerhouse containing two generating units, one rated at 55 kW and one rated at 65 kW; and (7) a transmission line. The Applicant estimates that the average annual energy output would be 1.08 million kWh.

Purpose of Project—The energy generated by the project would be sold to the Idaho Power Company.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide comments pursuant to the Federal Power Act, the Fish and Wildlife Coordination Act, the Endangered Species Act, the National Historic Preservation Act, the Historical and Archeological Preservation Act, the National Environmental Policy Act, Pub. L. No. 88–29, and other applicable statutes. No other formal requests for comments will be made.

Comments should be confined to substantive issues relevant to the issuance of a license. A copy of the application may be obtained directly from the Applicant. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 7, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than December 7, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a

person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 7, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for minor license for Project No. 4025. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kenneth F. Plumb,

Secretary.

[Docket No. ID-1697-001]

Herman M. Dieckamp; Notice of Filing

June 8, 1981.

The filing individual submits the following:

Take notice that on April 6, 1981, Herman M. Dieckamp filed an application pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Acting President and Director, Metropolitan Edison Company
Director, Jersey Central Power & Light Company
Director, Pennsylvania Electric Company
Chairman, Chief Executive officer and Director, GPU Nuclear Corporation

Any person desiring to be heard or to protest said filing should file a peition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 30, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TA81-2-2-000 (PGA81-2, IPR81-2, DCA81-2)]

East Tennessee Natural Gas Co.; Notice of Rate Filing Pursuant to Tariff Rate Adjustment Provisions

June 5, 1981.

Take notice that on May 29, 1981, East Tennessee Natural Gas Company (East Tennessee) tendered for filing First Revised Sheet Nos. 4, 5 and 6 to Original Volume No. 1 of its FERC Gas Tariff to be effective July 1, 1981.

East Tennessee states that the sole purpose of these tariff sheets is to reflect various rate adjustments pursuant to the General Terms and Conditions of its tariff as follows:

(1) A PGA Rate Adjustment pursuant to Section 22;

(2) A Curtailment Credit Rate Adjustment pursuant to Section 24; and

(3) Estimated Incremental Pricing Surcharges pursuant to Section 26.

East Tennessee also states that copies of the filing have been mailed to all affected customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-503-000]

The Empire District Electric Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that The Empire District Electric Company (EDE), on May 29, 1981, tendered for filing a proposed Peaking Power Purchase Contract between EDE and the City of Higginsville, Missouri. EDE proposes a June 1, 1981 effective date for the service schedule and therefore requests waiver of the Commission's notice requirements.

The proposed contract provides for the sale of 3 Mw of peaking capacity and related energy from Higginsville to EDE for the period beginning June 1, 1981.

Copies of the filing were served upon the Missouri Public Service Commission and the City of Higginsville.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-500-000]

Empire District Electric Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that the Empire District Electric Company (EDE) on May 29,

1981, tendered for filing a proposed Service Schedule I, Peaking Power Service, as a supplement to an Electric Interchange Agreement between EDE and Kansas City Power and Light Company (KCPL). EDE proposes a June 1, 1981 effective date for the service schedule, and therefore requests waiver of the Commission's notice requirements.

The proposed Service Schedule I provides for the sale of 3 Mw of peaking capacity and related energy from Empire to KCPL for the period beginning June 1, 1981. The capacity charge is cost plus $0.27 per Kw per month. Related energy will be furnished at cost plus 10% with an allowance for incurred losses. The schedule further provides that KCPL will purchase no more than 3,600 Mwh during any contract year, 1,800 Mwh during any four consecutive months, 600 Mwh in any one month. No less than 180 Mwh may be purchased in any one month.

Copies of the filing were served upon the Missouri Public Service Commission and Kansas City Power and Light Company.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C., 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. CP81-344-000]

Florida Gas Transmission Co.; Notice of Application

June 9, 1981.

Take notice that on May 18, 1981, Florida Gas Transmission Company (Applicant), P.O. Box 44, Winter Park, Florida 32790, filed in Docket No. CP81-344-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of natural gas for United Gas Pipe Line Company (United) from an existing point of interconnection to a proposed new point of redelivery all in St. Landry Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that on September 19, 1980, it entered into a transportation agreement with United in which Applicant agreed to transport up to 5 billion Btu of natural gas per day from the existing point of interconnection between the facilities of Applicant and United near Opelousas, St. Landry Parish, Louisiana, to a proposed new point of interconnection on Applicant's 24-in mainline in St. Landry Parish. It is also stated that the aforementioned agreement is for a primary term of two years from the date of initial delivery and from year to year thereafter.

Applicant proposed to charge United a transportation rate of 5.0 cents per million Btu redelivered or a minimum charge of $500 per month.

It is asserted that the proposed service would aid United in alleviating the capacity problem it has experienced.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17667 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. RP81-72-000]

Gas Research Institute; Notice of Annual Application

June 8, 1981.

Take notice that on June 1, 1981, Gas Research Institute (GRI) filed in this docket an application requesting advance approval of its 1982-1986 Five Year R&D Plan and 1982 R&D Program and the funding thereof pursuant to the Natural Gas Act and the Commission's Regulations thereunder, particularly 18 CFR 154.38(d)(5).

GRI states that its application demonstrates compliance with the Commission's Regulations, the requirements of Opinion No. 96, Opinion and Order Amending and Approving Gas Research Institute's 1981 Research and Development Program and Related Five Year Plan for 1981–1985, Docket No. RP80–108, issued September 30, 1980, and the ongoing provisions of a Stipulation and Agreement reached by the parties to the proceedings in Docket No. RM77–14 and approved by the Commission in Opinion No. 11, Opinion and Order Approving the Initial Research Development and Demonstration Program of Gas Research Institute, Docket No. RM77–14, issued March 28, 1978. GRI's application seeks approval of its 1982 R&D Program which proposes that $92,937,000 be collected through jurisdictional and non-jurisdictional rates and charges during the twelve (12) months ending December 31, 1982, to support the R&D activities detailed in GRI's application. Applicant states that its application was filed in accordance with the provision of Order No. 566 which requires "R&D organizations" to submit, annually, a five year program plan at least 180 days prior to the commencement of the five year period of the plan, which is scheduled to commence on January 1, 1982.

GRI states that the proposed unit cost of GRI's 1982 R&D Program is 7.3 mills per Mcf or equivalent to become effective January 1, 1982. This General R&D Funding Unit is proposed to be applied to the services included in GRI's Program Funding Services in 1982 which include jurisdictional, direct sale, and intrastate volumes of GRI's members and which are estimated to be 12,757 Bcf.

GRI's filing was accompanied by workpapers providing detail about its application. These workpapers are available for inspection in the Commission's Office of Public Information.

The Appendix to GRI's application contains a list of GRI members and state regulatory commissions which were served with a copy of GRI's application on June 1, 1981. Such members and commissions are hereby permitted to participate in this proceeding as intervenors and need *not* file formal petitions to intervene or notices of intervention.

Any person desiring to be heard or to make any protest with reference to said application should, on or before June 26, 1981, file with the Federal Energy Regulatory Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, a comment, protest, or petition to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure and the Regulations under the Natural Gas Act (18 CFR 157.70). All comments or protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or participate as a party in any hearing therein, other than those listed in the Appendix who are automatically entitled to participate, must file a petition to intervene in accordance with the Commission's Rules.

Additionally, take notice that a Commission Staff report on GRI's filing will be served on all parties and filed with the Commission as a public document on July 31, 1981. Additional comments by all parties may be filed concurrently with the Staff report on July 31, 1981. Comments on the Staff report by all parties except GRI shall be filed by August 17, 1981, and reply comments by GRI shall be filed by August 31, 1981.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450–85–M

[Docket No. TA81–2–4–000 (PGA81–2) (IPR81–2)]

Granite State Gas Transmission, Inc.; Notice of Proposed Change in Rates Pursuant To Purchased Gas Cost Adjustment Provision

June 5, 1981.

Take notice that Granite State Gas Transmission, Inc. (Granite State), 120 Royall Street, Canton, Massachusetts 02021, on May 29, 1981, tendered for filing Thirty-First Revised Sheet No. 3A in its FERC Gas Tariff, Original Volume No. 1, containing proposed changes in rates for effectiveness on July 1, 1981.

According to Granite State, the instant rate adjustment reflects an increase in its cost of gas purchased from Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee) which Tennessee proposes to make effective July 1, 1981, and the amortization of Unrecovered Purchased Gas Costs. It is stated that Granite State's filing is made pursuant to the purchase gas cost adjustment provision in its tariff, approved on December 14, 1972, in Docket No. RP73–17, as amended.

Granite State further states that its rate adjustment is applicable to its sales to Northern Utilities, Inc. (Northern), which is Granite State's sole jurisdictional customer. According to Granite State, the effect of the proposed rates contained on Thirty-First Revised Sheet No. 3A on Northern's purchases from Granite State is an increase of $1,389,050 annually, based on purchases from Tennessee and sales to Northern for the twelve months ended March 31, 1981.

According to Granite State, copies of the filing were served upon Northern and the regulatory commissions of the States of Maine and New Hampshire.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81–17678 Filed 6–12–81; 8:45 am]

BILLING CODE 6450–85–M

[Project No. 4495–000]

Hydro Light, Inc.; Notice of Application for Preliminary Permit

June 8, 1981.

Take notice that Hydro Light, Inc. (Applicant) filed on April 20, 1981, and application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. §§ 791(a)–825(r)] for proposed Project No. 4495 to be known as the Clover Creek Project located on Clover Creek in Shasta County, California. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. C. Donald Nelson, President, Hydro Light, Inc., 50 Wilshire Drive, Redding, California 96002. Any person who wishes to file a response to this notice should read the entire notice and must comply with the requirements specified for the particular kind of response that person wishes to file.

Project Description—The proposed project would consist of: (1) a 4-foot high diversion structure on Clover Creek; (2) a 2,400-foot long conduit; (3) a 1,200-foot

long, 40-inch diameter penstock; (4) a powerhouse containing a single generating unit with a rated capacity of 500 kW and discharging into Clover Creek; and (5) associated electrical and transmission equipment. The Applicant estimates that the average annual energy output would be 2,200 MWh.

Purpose of Project—Project energy would be sold.

Proposed Scope and Cost of Studies Under Permit—Applicant proposes to conduct a detailed study of the technical, economical, financial, and environmental feasibility of the proposed project. Applicant estimates that the proposed studies would cost $40,800.

Purpose of Preliminary Permit—A preliminary permit does not authorize construction. A permit, if issued, gives the Permittee, during the term of the permit, the right of priority of application for license while the Permittee undertakes the necessary studies and examinations to determine the engineering, economic, and enviromental feasibility of the proposed project, the market for power, and all other information necessary for inclusion in an application for a license.

Agency Comments—Federal, State, and local agencies that receive this notice through direct mailing from the Commission are invited to submit comments on the described application for preliminary permit. (A copy of the application may be obtained directly from the Applicant.) Comments should be confined to substantive issues relevant to the issuance of a permit and consistent with the purpose of a permit as described in this notice. No other formal request for comments will be made. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Competing Applications—Anyone desiring to file a competing application must submit to the Commission, on or before August 5, 1981, either the competing application itself or a notice of intent to file a competing application. Submission of a timely notice of intent allows an interested person to file the competing application no later than October 5, 1981. A notice of intent must conform with the requirements of 18 CFR 4.33 (b) and (c) (1980). A competing application must conform with the requirements of 18 CFR 4.33 (a) and (d) (1980).

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Commission, in accordance with the requirements of its Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). Comments not in the nature of a protest may also be submitted by conforming to the procedures specified in § 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protest, or petition to intervene must be received on or before August 5, 1981.

Filing and Service of Responsive Documents—Any comments, notices of intent, competing applications, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4495. Any comments, notices of intent, competing applications, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, Room 208, 400 First Street, NW., Washington, D.C. 20426. A copy of any notice of intent, competing application, or petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

[Docket No. ER81-510-000]

Idaho Power Co.; Notice of Filing

June 5, 1981.

The filing Company submits the following:

Take notice that on June 2, 1981, the Idaho Power Company (Idaho) tendered for filing in compliance with the Federal Energy Regulatory Commission's Order of October 7, 1978, a summary of sales made under the Company's 1st Revised FERC Electric Tariff, Volume No. 1 (Supersedes Original Volume No. 1) during April, 1981, along with cost justification for the rate charged.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. EL81-18-000]

Jersey Central Power & Light Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Jersey Central Power & Light (Jersey Central) on May 27, 1981 petitioned for a declaratory order determining the proper period for amortizing, via rates, Jersey Central's investment in major transmission facilities to be built to provide an interconnection under Lake Erie between Jersey Central and the Ontario Hydro Energy Board (OH). Alternatively, Jersey Central asks the Commission to issue an order pursuant to Section 302 of the Federal Power Act setting the depreciation rate to be used for its investment in these transmission facilities.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file

with the Commission and are available for public inspection.

Lost Hills Water District, California; Notice of Application for Exemption of Small Conduit Hydroelectric Facility

June 8, 1981.

Take notice that on April 13, 1981, the Lost Hills Water District (District) filed an application under Section 30 of the Federal Power Act (Act) [16 U.S.C. Section 823(a)], for exemption of a proposed hydroelectric project from requirements of Part I of the Act. The proposed Lost Hills One Power Plant would be located on the District's water supply pipeline and canal system in Kern County, California.

Correspondence with the Applicant should be directed to: Mr. Joe Steele, Engineer-Manager, Lost Hills Water District, 2100 24th Street, Suite 2, Bakersfield, California 93301.

Project Description—The proposed project would consist of: (1) a powerhouse containing a single generating unit with a rated capacity of 430 kW located at the end of the District's existing pipeline carrying water from the California Aqueduct into the District's canal distribution system; and (2) approximately one-half mile of transmission line to connect the powerhouse to the existing utility transmission line south of the powerhouse.

Purpose of Project—Project energy would be sold to Pacific Gas and Electric Company.

Agency Comments—The U.S. Fish and Wildlife Service and the California Department of Fish and Game are requested, pursuant to Section 30 of the Federal Power Act, to submit appropriate terms and conditions to protect any fish and wildlife resources. Other Federal, State, and local agencies that receive this notice through direct mailing from the Commission are requested to provide any comments they may have in accordance with their duties and responsibilities. No other formal requests for comments will be made. (A copy of the application may be obtained directly from the Applicant). Comments should be confined to substantive issues relevant to the granting of an exemption. If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions To Intervene—Anyone desiring to be heard or to make any protests about this application should file a petition to intervene or a protest with the Federal Energy Regulatory Commission, in accordance with the requirements of the Commission's Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1979). Comments not in the nature of a protest may also be sumitted by conforming to the procedures specified in Section 1.10 for protests. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but a person who merely files a protest or comments does not become a party to the proceeding. To become a party, or to participate in any hearing, a person must file a petition to intervene in accordance with the Commission's Rules. Any comments, protests, or petition to intervene must be filed on or before July 14, 1981. The Commission's address is: 825 North Capitol Street NE., Washington, D.C. 20426. The application is on file with the Commission and is available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket Nos. G-11742-001, et al.]

Mobil Oil Corporation, et al.; Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

June 5, 1981.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 10 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before June 12, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the

[1] This notice does not provide for consolidation for hearing.

proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or to be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-486-000]

Montana Power Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that on May 26, 1981, the Montana Power Company tendered for filing in compliance with the Federal Power Commission's Order of May 6, 1977, a summary of sales under the Company's FPC Electric Tariff M-1 during March 1981, along with cost justification for the rate charged.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-511-000]

Montana Power Co.; Notice of Filing

June 5, 1981.

The filing Company submits the following:

Take notice that on June 2, 1981, the Montana Power Company tendered for filing in compliance with the Federal Power Commission's Order of May 6, 1977, a summary of sales made under the Company's FPC Electric Tariff M-1 during April, 1981, along with cost justification for the rate charged.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. CP81-319-000]

National Fuel Gas Distribution Corp.; Notice of Application

June 9, 1981.

Take notice that on May 4, 1981, National Fuel Gas Distribution Corporation (Applicant), 10 Lafayette Square, Buffalo, New York, 14203, filed in Docket No. CP81-319-000 an application pursuant to Section 7(c) of the Natural Gas Act and § 284.222 of the Commission's Regulations for a certificate of public convenience and necessity for blanket authorization to transport natural gas on behalf of interstate pipelines and local distribution companies served by interstate pipelines, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that in providing the proposed transportation services, it would comply with the conditions in paragraph (e) of § 284.222 of the Commission's Regulations.

Applicant further states that it would not charge interstate pipelines and local distribution companies served by interstate pipelines for the proposed transportation service but that it would enter into exchange agreements whereby those pipelines and distribution companies would in exchange transport equivalent volumes of gas on behalf of Applicant, also without charge.

Any person desiring to be heard or to

make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

BILLING CODE 6450-85-M

[Docket No. RP81-65-000]

National Fuel Gas Supply Corp.; Notice of Revision to FERC Gas Tariff

June 5, 1981.

Take notice that on May 21, 1981, National Fuel Gas Supply Corporation ("National Fuel"), Ten Lafayette Square, Buffalo, New York 14203, filed in Docket No. RP81-65-000 its Revision to FERC Gas Tariff through its FERC Gas Tariff, Original Volume No. 1, Second Revised Sheet No. 18. The filing seeks to make adjustment to National Fuel's minimum Btu content in order to conform with a request made by Tennessee Gas Pipeline Company in Docket No. RP81-56 on April 30, 1981, all as more fully set forth in the revision which is on file with the Commission and is open for public inspection.

National Fuel states that it is required to tender this filing to avoid a potential violation of the heat content provision of its present tariff which will result if Tennessee is permitted to deliver natural gas to National Fuel with a total heating value of less than 985 Btu per cubic foot. Tennessee, which provides over 50 percent of the gas National Fuel receives from its pipeline suppliers, presently makes direct deliveries of imported gas from Canada at various points along the "Niagara Spur" for the account of National Fuel. Therefore, if Tennessee's request for an adjustment in the minimum Btu content is granted, National Fuel asserts that it will be necessary for the Commission to grant National Fuel the change.

National Fuel requests authorization of Second Revised Sheet No. 18, to be effective on June 1, 1981, or such other date as Tennessee's filing in Docket Nos. RP81-56-000 and RP80-97 becomes effective.

National Fuel also requests a waiver of any of the Commission's Rules and Regulations as may be required to make this tariff sheet effective as proposed.

Any person desiring to be heard or to make and protest said reference to said filing should on or before June 22, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with requirements of the Commission's Rules of Practice and Procedure (18 CFR 157.79). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules

BILLING CODE 6450-85-M

[Docket No. EC81-11-000]

New England Power Service Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that New England Power Service Company (NEP) on May 8, 1981, tendered for filing a joint application for the sale of certain electric facilities by NEP and Massachusetts Electric Company (Mass Electric) to the Town of Templeton, Massachusetts. NEP and Mass Electric seek Commission approval of the sale pursuant to Section 203 of the Federal Power Act and Part 33 of the Commission's Regulations.

NEP states that the facilities to be sold are located within the Town of Templeton and include a transmission tap line, two substations, and certain distribution facilities. The transfer price of the facilities is $690,000 and will be paid to NEP and Mass Electric by Templeton. The transfer price was reached as a result of arms-length bargaining between the parties and involved a compromise of their respective positions.

NEP and Mass Electric move to waiver of certain technical requirements of 18 C.F.R. 33.3, concerning the statement of contingent liabilities and the income statement. NEP requests waiver of the pro forma requirement and of the requirement that information be provided "as of the date of application" or "for the most recent twelve month period.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determing the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. ER81-507-000]

New York State Electric & Gas Corp.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice the New York State Electric & Gas Corporation (NYSEG) on June 1, 1981, tendered for filing, pursuant to Section 35.12 of the Regulations under the Federal Power Act, as a rate schedule, a transmission agreement with the Connecticut Light and Power Company. Service under this agreement commenced on January 6, 1981 and is to continue until terminated by either party

upon not less than 30 days prior written notice.

The agreement provides that NYSEG shall provide electric transmission service for delivery of Rochester Gas & Electric Corporation energy to Central Hudson Gas & Electric Corporation at Central Hudson's West Woodburne Substation for ultimate delivery to Connecticut Light and Power Company.

NYSEG has filed copies of this agreement with the Connecticut Light and Power Company and with the Public Service Commission of the State of New York.

NYSEG requests that the 60-day filing requirement be waived and that January 6, 1981 be allowed as the effective date of the filing.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest on or before June 26, 1981, with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-501-000]

Niagara Mohawk Power Corp.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Niagara Mohawk Power Corporation (Niagara), on May 29, 1981, tendered for filing as a rate schedule, an agreement between Niagara and Green Mountain Power Corporation dated December 13, 1980.

This agreement provides for the sale of power and energy from Niagara's gas turbines for a limited period of time to Green Mountain. Niagara requests waiver of the Commission's prior notice requirements in order to allow said agreement to become effective as of December 13, 1980.

Copies of this filing were served upon the Green Mountain Power Corporation and the Public Service Commission of the State of New York.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are on file with the Commission.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ER81-499-000]

Niagara Mohawk Power Corp.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Niagara Mohawk Power Corporation (Niagara), on May 29, 1981 tendered for filing as a rate schedule, an agreement between Niagara and the Power Authority of the State of New York (PASNY) dated February 18, 1981. Niagara requests an effective date of August 1, 1981.

Niagara presently has on file two agreements with PASNY dated March 1, 1957 and February 10, 1961. The agreements are identified as Niagara's Rate Schedule FPC Nos. 18 and 19. The agreements provide for the transmission of PASNY power and energy to PASNY's municipal, cooperative and industrial customers. The proposed rate schedule increases Niagara's service obligations by removing certain transmission limitations and increases the transmission service rate for such service. Copies of the filing were served upon the attached service list.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. CP76-463-001]

Northwest Pipeline Corp.; Notice of Petition To Amend

June 9, 1981.

Take notice that on May 22, 1981, Northwest Pipeline Corporation (Petitioner), 315 East 200 South, Salt Lake City, Utah 84111, filed in Docket No. CP76-463-001 a petition to amend the order issued October 19, 1976,[1] in the instant docket pursuant to Section 7(c) of the Natural Gas Act and § 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)) so as to authorize the construction of a single project costing in excess of the single-project limitation of $500,000, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

Petitioner states that by order issued October 19, 1976, in the instant docket it was authorized to construct and operate certain field gas compression facilities with no single project to exceed a cost of $500,000. Petitioner asserts that it constructed the Barrel Springs Compressor Station in Carbon County, Wyoming, and initially estimated the cost of such station to be $353,644. Petitioner explains that it has exercised its option to purchase rather than lease the 690 horsepower compressor unit at Barrel Springs because development of the Barrel Springs Field has established sufficient deliverability to justify owning instead of leasing the unit. This, it is asserted, has increased the single-project cost to $634,000. Petitioner, therefore, requests an increase in the single project cost limitation from $500,000 to $634,000 for construction of the Barrel Springs compressor station.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the

[1] This proceeding was commenced before the FPC. By joint regulation of October 1, 1977 (10 CFR 1000.1), it was transferred to the Commission.

Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17670 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-338-000]

Northwest Pipeline Corp.; Notice of Application

June 9, 1981.

Take notice that on May 18, 1981, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP81-338-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a new delivery point and the reallocation of natural gas service to Cascade Natural Gas Corporation (Cascade), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes herein to construct and operate a new delivery point on its 26-inch O.D. mainline located in Benton County, Washington, to Cascade in order to deliver gas to Cascade for resale to the San Michelle Winery. It is asserted this Paterson meter station would provide natural gas for use in operating certain distillery equipment, corn drying equipment and in providing space heating.

Applicant states that the maximum daily delivery volume requirements would be 951 Mcf per day with an annual requirement of 40,399 Mcf. Cascade, it is asserted, has requested reallocation of natural gas service under Applicant's Rate Schedule ODL-1 transferring 10,000 therms from the existing Longview-Kelso meter station to the Paterson meter station while maintaining Cascade's presently authorized maximum daily delivery obligation. It is stated that no increase in the daily contract quantity of natural gas would be necessary.

Cascade, it is asserted, would reimburse Applicant for the cost of constructing the new meter station. The total cost of constructing the proposed facilities are estimated to be $23,000.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. ST79-74-001]

Oasis Pipe Line Co.; Notice of Extension Report

June 9, 1981.

Take notice that on April 23, 1981, Oasis Pipe Line Company (Oasis), Houston Natural Gas Building, 1200 Travis, Box 1188, Houston, Texas 77001, filed in Docket No. ST79-74-001 an extension report pursuant to Section 284.126 of the Commission's Regulations, reporting the extension of transportation of natural gas for and on behalf of Northern Natural Gas Company, Division of InterNorth, Inc. (Northern), all as more fully set forth in the extension report which is on file with the Commission and open for public inspection.

Oasis states that the identity of the parties involved in the subject transportation arrangement are Oasis and Northern, and that service commenced on July 25, 1979.

It is stated that the estimated total and maximum daily quantities of natural gas to be transported are up to 50 billion Btu per day or at such greater flow rate up to 150 billion Btu per day which Northern shall elect upon 30 days' notice or, at Northern's request, in excess of 150 billion Btu per day if Oasis' operating conditions shall reasonably permit, for up to a total of 73 trillion Btu subject to increase on the basis of said election or request.

According to Oasis, the points between which the gas is to be transported are from a point located on the pipeline facilities of Oasis near Katy, Waller County, Texas, to a point located at the interconnection of the pipeline facilities of Oasis and Northern near Ft. Stockton, Pecos County, Texas or at such other mutually agreeable point or points in West Texas.

Oasis stated that the rate to be charged for the subject transportation service is 12.39 cents per million Btu.

It is stated that the proposed extention of service would be for a period of two years commencing July 25, 1981, subject to the terms and conditions of an existing agreement between Oasis and Northern.

Any person desiring to be heard or to make any protest with reference to said extension report should on or before, June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules or Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it is determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

BILLING CODE 6450-85-M

[Docket No. ER81-494-000]

Public Service Company of New Mexico; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that Public Service Company of New Mexico (PNM) on May 27, 1981, tendered for filing in accordance with Section 35 of the Commission's regulations, Amendment Number One to an Agreement for Wheeling Service with Navajo Tribal Utility Authority (NTUA). PNM states that Amendment Number One provides for the availability of additional wheeling service between PNM and NTUA.

PNM indicates that the proposed Amendment will not increase revenues from jurisdictional sales based on energy delivered from May 1, 1980 through April 30, 1981. PNM further indicates that the rate for wheeling service under this Amendment is essentially a restatement of the previously accepted rate for service.

An effective date of May 1, 1981 is proposed and waiver of the Commission's requirements is therefore requested.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street N.E., Washington D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-6-000]

Sea Robin Pipeline Co.; Notice of Filing of Revised Tariff Sheets

June 5, 1981.

Take notice that on June 1, 1981, Sea Robin Pipeline Company (Sea Robin) tendered for filing Twenty-Sixth Revised Sheet No. 4 to its FERC Gas Tariff, Original Volume No. 1. This tariff sheet and supporting information is being filed 30 days prior to the proposed effective date of July 1, 1981 pursuant to the Purchased Gas Cost Adjustment provisions set out in Sections 1 and 3 of Sea Robin's tariff. In addition, Sea Robin submits Seventh Revised Sheet No. 4-A to become effective July 1, 1981, in compliance with Federal Energy Regulatory Commission (Commission) orders issued May 11, 1978, and July 12, 1978, at Docket No. RP77-6.

Sea Robin states that these revised tariff sheets and supporting data are being mailed to Sea Robin's jurisdictional customers and interested state commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. RP81-69-000]

South Georgia Natural Gas Co.; Notice of Proposed Changes in FERC Gas Tariff

June 5, 1981.

Take notice that South Georgia Natural Gas Company (South Georgia), on May 29, 1981, tendered for filing proposed changes in its FERC Gas Tariff, First revised Volume No. 1. The proposed changes are based on the twelve month period ending March 31, 1981, as adjusted, and would increase jurisdictional revenues by $751,354.

South Georgia states that the principal reasons for the proposed rate increase are to reflect (1) an increase in the overall rate of return to 13.82%; (2) increased operation and maintenance expenses; and (3) increases in depreciation expense and other taxes.

Copies of this filing have been served upon South Georgia's jurisdictional customers and interested state public service Commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426 in accordance with Sections 1.8, and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Petitions will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. ER81-508-000]

Southern California Edison Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that on June 1, 1981, Southern California Edison Company (Edison) tendered for filing an agreement entitled "Edison-Riverside Interruptible Transmission Service Agreement" which has been executed by Edison and the City of Riverside (Riverside).

Edison states that under the terms and conditions of the agreement, Edison will make available to Riverside interruptible transmission service from several points of receipt to the point of delivery at Riverside.

Edison further states that the Agreement is proposed to become effective when executed by the Parties and accepted for filing by the Commission, and will continue in effect until terminated by either party giving 30 days advance writtten notice of such termination to the other party.

Copies of this filing were served upon the Public Utilities Commission of the State of California, and the City of Riverside.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26,

1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. TA81-2-7-000]

Southern Natural Gas Co.; Notice of Proposed Changes in FERC Gas Tariff

June 5, 1981.

Take notice that Southern Natural Gas Company (Southern), on June 1, 1981, tendered for filing proposed changes in its FPC Gas Tariff, Sixth Revised Volume No. 1, to become effective July 1, 1981. Such filing is pursuant to Section 17 (Purchased Gas Adjustment) of the General Terms and Conditions of Southern's FERC Gas Tariff, Sixth Revised Volume No. 1. The proposed changes would increase Southern's rates as a result of the following items.

(1) A Current Adjustment pursuant to Section 17.3 of the General Terms and Conditions of Southern's Tariff, reflecting an annual increase in cost of purchased gas to jurisdictional customers of $130.5 million or approximately 24.270¢ per Mcf.

(2) A Surcharge Adjustment, pursuant to Section 17.4 of the General Terms and Conditions of Southern's Tariff, for Unrecovered Purchased Gas Costs of (.831)¢ per Mcf which is reduction of 20.933¢ from the present negative Surcharge Adjustment and is, therefore, an increase of 20.933¢ in rates. This Surcharge Adjustment will amortize the ($2,261,461) balance in the Deferred Account over the estimated sales for the six-month period commencing July 1, 1981.

(3) A Surcharge Adjustment for estimated Demand Charge Credits pursuant to Section 9.6(3) of the General Terms and Conditions of Southern's Tariff of (.427)¢ per Mcf which is a decrease of .870¢ below the present Surcharge Adjustment.

(4) A Use Tax Adjustment Rate for the recovery of Louisiana First Use Tax pursuant to Section 21 of the General Terms and Conditions of Southern's FPC Gas Tariff of 1.245¢ per Mcf which is a decrease of .668¢ below the present Use Tax Adjustment Rate and is reflected in Schedule No. 10.

Copies of the filing are being served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

[FR Doc. 81-17685 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. CP81-346-000]

Stingray Pipeline Co.; Notice of Application

June 9, 1981.

Take notice that on May 21, 1981, Stingray Pipeline Company (Applicant), P.O. Box 1642, Houston, Texas 77001, filed in Docket No. CP81-346-000 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing an additional point of receipt from United Gas Pipe Line Company (United) and the transportation of natural gas from West Cameron Blocks 537, 551, 552, and 560, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Pursuant to an amendment to its existing transportation agreement with United dated February 20, 1981, Applicant proposes herein to provide United with an additional point of delivery into Applicant's system. It is asserted the additional delivery point is at an existing side tap on Applicant's system in West Cameron Block 537. Such point, it is stated, would be used to transport gas from West Cameron Blocks 537, 551, 552 and 560 which blocks would be included in the transportation agreement.

Applicant states that United would transport its gas from West Cameron Blocks 552 and 560 to Applicant's interconnection through pipeline facilities to be constructed. It is further stated that United would arrange to have its gas produced in West Cameron Blocks 537 and 551 transported by Natural Gas Pipeline Company of America (Natural) to Applicant's interconnection in West Cameron Block 537.

It is further submitted that Applicant would transport the gas pursuant to its Rate Schedule T-2 from the proposed interconnection to the northern terminus of Applicant's system near Holly Beach, Louisiana. Applicant states that it would then deliver the gas to Natural for the account of United for further transportation and delivery by Natural pursuant to existing agreements between United and Natural.

Applicant contends that the proposed additional delivery point would enable United to fully utilize its existing transportation capacity in Applicant's system and that the subject proposal does not change United's 200,000 Mcf capacity in Applicant's system.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

[Docket No. TA81-2-17-001]

Texas Eastern Transmission Corp.; Notice of Proposed Changes in FERC Gas Tariff

June 5, 1981.

Take notice that Texas Eastern Transmission Corporation (Texas Eastern) on May 22, 1981, tendered for filing proposed changes in its FERC Gas Tariff, Fourth Revised Volume No. 1, the following sheet:

Substitute Fifty-eighth Revised Sheet No. 14

This tariff sheet is filed in substitution for the tariff sheet accepted by the Commission to be effective April 1, 1981 by order dated March 19, 1981 in Docket No. TA81-2-17-000 (AP81-3). The sole purpose of the substitute tariff sheet is to reflect a revision to Texas Eastern's SS-II rate pursuant to Section 4.G., Consolidated GSS Adjustments, of the SS-II Rate Schedule.

By letter dated May 6, 1981 Consolidated Gas Supply Corporation (Consolidated) filed rate reductions in their Docket Nos. RP79-22 and RP80-61 including a prospective reduction in the Rate Schedule GSS rates effective April 1, 1981. Pursuant to Section 4.G. of Texas Eastern's Rate Schedule SS-II, the SS-II rates are automatically adjusted to flow through any changes in Consolidated's GSS rates. The above substitute tariff sheet reflects the appropriate reduction in SS-II rates.

The proposed effective date of the above tariff sheet is April 1, 1981. Texas Eastern has requested waiver of any regulations necessary to allow the rate reduction to become effective on April 1, 1981.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

BILLING CODE 6450-85-M

[Docket No. TA-81-2-11-000]

United Gas Pipe Line Co.; Notice of Filing of Revised Tariff Sheets

June 5, 1981.

Take notice that on June 1, 1981, United Gas Pipe Line Company (United) tendered for filing Fifty-Third Revised Sheet No. 4 and Third Revised Sheet Nos. 4-A and 4-B, to its FERC Gas Tariff, First Revised Volume No. 1. These tariff sheets and supporting information are being filed pursuant to the Purchased Gas Adjustment Provisions set out in Sections 19, 22 and 23 of United's tariff.

United states that the current adjustment reflects rates payable to United's suppliers for the six (6) months commencing July 1, 1981.

Third Revised Sheet Nos. 4-A and 4-B are being filed to reflect the estimated incremental pricing surcharges as required by Commission Order No. 49, issued September 28, 1979.

Copies of the proposed tariff sheets will be mailed to United's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 22, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Union Electric Co.; Notice of Filing

June 5, 1981.

The filing Company submits the following:

Take notice that on June 1, 1981, Union Electric Company (Union) tendered for filing a Fourth Amendment and Third Revised Service Schedules C and D to Interchange Agreement dated July 2, 1976 between Union and Kentucky Utilities Company.

Union indicates that said agreements provide for revisions in certain rates under said Interchange Agreement. Union proposes an effective date of August 1, 1981.

Any person desiring to be heard or to protests said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 29, 1981. Protest will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

[Docket No. CP81-341-000]

United Gas Pipe Line Co; Notice of Application

June 9, 1981.

Take notice that on May 19, 1981, United Gas Pipe Line Company (Applicant), P.O. Box 1478, Houston, Texas 77001, filed in Docket No. CP81-341-000 an application pursuant to Section 7(c) of the Natural Gas Act and § 157.7(c) of the Regulations thereunder (18 CFR 157.7(c)) for a certificate of public convenience and necessity authorizing the construction during a given 12-month period and operation of facilities to make miscellaneous rearrangements on its system, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in making miscellaneous rearrangements which would not result in any material change in the

transportation and sales service presently rendered by Applicant.

Applicant states that the total cost of the proposed facilities would not exceed $300,000 and would be financed by funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 30, 1981, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

BILLING CODE 6450-85-M

[Project No. 4539-000]

Yakima-Tieton Irrigation District; Notice of Application for Preliminary Permit

June 8, 1981.

Take notice that Yakima-Tieton Irrigation District (Applicant) filed on April 14, 1981, an application for preliminary permit [pursuant to the Federal Power Act, 16 U.S.C. 791(a)-825(r)] for Project No. 4539 to be known as the Clear Lake Hydroelectric Project located at the Department of the Interior, Water and Power Resources Service's (WPRS) Clear Lake Dam on the North Fork-Tieton River in Yakima County, Washington. The application is on file with the Commission and is available for public inspection. Correspondence with the Applicant should be directed to: Mr. Warren E. Dickman, Yakima-Tieton Irrigation District, Rt. 6, Box 193, Yakima, Washington 98908.

Project Description—The proposed project would utilize waters released from the WPRS's Clear Lake and would consist of a powerhouse containing a single generating unit with a rated capacity of 1,700 kW and appurtenant facilities.

The Applicant estimates that the average annual energy output would be 6.5 million kWh.

Proposed Scope of Studies Under Permit—A preliminary permit, if issued, does not authorize construction. Applicant has requested a 36-month permit to prepare a project report including preliminary designs, results of environmental, and economic feasibility studies. The cost of the above activities, along with preparation of an environmental impact report, obtaining agreements with the WPRS and other Federal, State, and local agencies, preparing a license application, conducting final field surveys, and preparing designs is estimated by the Applicant to be $85,000.

Competing Applications—This application was filed as a competing application to the Cook Electric Company's Project No. 3758 filed on November 19, 1980, under 18 CFR 4.33 (1980). Public notice of the filing of the initial application has already been given and the due date for filing competing applications or notices of intent has passed. Therefore, no further competing applications or notices of intent to file competing applications will be accepted for filing.

Agency Comments—Federal, State, and local agencies are invited to submit comments on the described application. (A copy of the application may be obtained by agencies only directly from the Applicant.) If an agency does not file comments within the time set below, it will be presumed to have no comments.

Comments, Protests, or Petitions Intervene—Anyone may submit comments, a protest, or a petition to intervene in accordance with the requirements of the Rules of Practice and Procedure, 18 CFR 1.8 or 1.10 (1980). In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a petition to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protest, or petition to intervene must be received on or before July 1, 1981.

Filing and Service of Responsive Documents—Any comments, protests, or petitions to intervene must bear in all capital letters the title "COMMENTS", "PROTEST", or "PETITION TO INTERVENE", as applicable. Any of these filings must also state that it is made in response to this notice of application for preliminary permit for Project No. 4539. Any comments, protests, or petitions to intervene must be filed by providing the original and those copies required by the Commission's regulations to: Kenneth F. Plumb, Secretary, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Washington, D.C. 20426. An additional copy must be sent to: Fred E. Springer, Chief, Applications Branch, Division of Hydropower Licensing, Federal Energy Regulatory Commission, 825 North Capitol Street NE., Room 208 RB Building, Washington, D.C. 20426. A copy of any petition to intervene must also be served upon each representative of the Applicant specified in the first paragraph of this notice.

Kennth F. Plumb,

Secretary.

[FR Doc. 81-17628 Filed 6-12-81; 8:45 am]

BILLING CODE 6450-85-M

[Docket No. ER81-496-000]

York Haven Power Co.; Notice of Filing

June 8, 1981.

The filing Company submits the following:

Take notice that York Haven Power Company, (York Haven) on May 28, 1981, tendered for filing a proposed change in its rate schedule for the sale of power to its parent, Metropolitan Edison Company, from FPC licensed Project No. 1888. The change in rates is proposed to be effective for deliveries of power and energy on or after August 1, 1981. The proposed changes would increase revenues from jurisdictional sales and service by $68,204 based on the 12-month period ending July 31, 1981.

York Haven states that under the affected rate schedule, all of the power and energy from Project No. 1888 is sold to Metropolitan Edison on a rate based upon York Haven's costs and expenses in generating and transmitting such power and energy. Under its agreement with Metropolitan Edison, York Haven is entitled to the same return on net investment as was most recently allowed Metropolitan by the Pennsylvania Public Utility Commission. That Commission on April 9, 1981 allowed a rate of return to Metropolitan Edison of 11.17 percent. This filing is submitted to reflect that rate of return. York Haven indicates that its current rate of return is 9.47 percent under its rate schedule. Copies of the filing have been mailed to Metropolitan Edison and the Pennsylvania Public Utility Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 26, 1981. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,

Secretary.

BILLING CODE 6450-85-M

Office of Hearings and Appeals

Issuance of Decisions and Orders, Week of April 27 Through May 1, 1981

During the week of April 27 through May 1, 1981, the decisions and orders summarized below were issued with respect to appeals and applications for exception or other relief filed with the Office of Hearings and Appeals of the Department of Energy. The following summary also contains a list of submissions that were dismissed by the Office of Hearings and Appeals.

Appeals

Audubon Society of the Everglades, 5/1/81, BFA-0654

Audubon Society of the Everglades filed an Appeal from the partial denial of a Freedom of Information Act (FOIA) request issued to it by the Director of Contract Execution Division B of the DOE Office of Procurement Operations. In that partial denial, the Director withheld several documents from Audubon pursuant to 5 U.S.C. 552(b)(4) (Exemption 4). In granting the Appeal, the OHA instructed the Director to either release the documents withheld in his partial denial or issue a new denial letter which (i) adequately describes the subject matter of the withheld material and (ii) adequately justifies the application of Exemption 4 to any withheld materials.

Ginsburg, Feldman, Weil & Bress, 4/30/81, BFA-0647

Ginsburg, Feldman, Weil & Bress filed an Appeal from a partial denial by the Deputy General Counsel for Regulation of the Department of Energy of a Request for Information that the firm had submitted under the Freedom of Information Act (FOIA). In considering the Appeal, the DOE found that portions of certain documents that were initially withheld under Exemptions 4

and 5 of the FOIA should be released to the firm. Important issues that were addressed in the Decision and Order were (i) the adequacy of the Deputy General Counsel's justification for withholding the documents, (ii) the applicability of Exemption 5 to the withheld documents, and (iii) whether non-withholdable material had been segregated out of the withheld documents.

Good Hope Refineries, 4/29/81, BEA-0583, BEE-1593, BEL-0073

Good Hope Refineries filed an Appeal of a denial by the ERA of a request for an emergency allocation of crude oil under the provisions of 10 CFR 211.65 (the Buy/Sell Program). In considering the Appeal, the DOE found that the ERA correctly determined that the crude oil which Good Hope processed for the accounts of other refiners should not be treated as its own crude oil in determining the firm eligibility for an emergency allocation. Accordingly, Good Hope's Appeal was denied. In addition, the DOE dismissed as moot Applications for Temporary Exception and Exception in which the firm requested an emergency allocation for crude oil.

Miller & Chevalier, 4/29/81, BFA-0648

Miller & Chevalier (M&C) filed an Appeal from a partial denial by the Disclosure Officer of the Office of Special Counsel of a request for information which the firm had submitted under the Freedom of Information Act. In considering the Appeal, the DOE found that the audit materials withheld by the Disclosure Officer fell within Exemption 5. The DOE further found that their disclosure would be contrary to the public interest. Accordingly, M&C's Appeal was denied.

Pacific Resources, Inc., 5/1/81, DEA-0328

On February 26, 1979, Pacific Resources, Inc., filed an Appeal from the Entitlement Notice for November 1978. In its Appeal, the firm challenged the validity of the twenty-one-cent-per-barrel advantage for domestic crude oil that was established by the Entitlements Program regulations until August 1, 1979. In considering the Appeal, the Department of Energy found that the regulations establishing twenty-one-cent-per-barrel advantage were valid. The Appeal was therefore denied.

Stephen M. Shaw, 4/28/81, BFA-0652, BFA-0653

Stephen M. Shaw filed two Appeals from determinations of the Director of Freedom of Information and Privacy Acts Activities. In those determinations, Shaw was informed that search and reproduction fees would not be waived in connection with two requests for documents he filed under the Freedom of Information Act. In considering the Appeals, the DOE found that the Director had correctly found that it would not be in the public interest to waive search and reproduction fees in connection with the requests.

James L. Sweeney, 5/1/81, BFA-0598

James L. Sweeney filed an Appeal from a denial by the Inspector General of a Request for Correction or Amendment of Records which Mr. Sweeney had submitted under the Privacy Act. In considering the Appeal, the DOE found that an amendment of factual findings in a Report of Investigation should be made. The DOE remanded the matter to the Inspector General for further consideration of the conclusions which could be affected by this amendment to the factual record and for consideration of the consequences of a factual pattern which the Inspector General had not previously addressed. The DOE denied requests for amendments going solely to the matters of judgment embodied in the Inspector General's ultimate conclusions because Mr. Sweeney had failed to support these requests by a preponderance of the evidence.

Remedial Orders

Crescent Refining & Oil Co., Petroleum Fuel Co., 4/27/81, BRO-0155

Crescent Refining & Oil Company and Petroleum Fuel Company (referred to collectively as "Crescent") filed a Statement of Objections to a Proposed Remedial Order (PRO) which the DOE Western Enforcement District issued to the firm on September 28, 1979. In the PRO, the Office of Enforcement determined that Crescent had failed to determine maximum lawful selling prices for each of its May 15, 1973 classes of purchaser for diesel fuel and fuel oil, and had thereby overcharged its customers by $514,454.03. In considering Crescent's objections, the DOE found that the agency auditors had no responsibility to consider the "reasonableness" of the firm's suggested classes of purchaser, since there was no indication that the firm had relied on those classes in a good faith effort to comply with the price regulations. The DOE further found that the Office of Enforcement had established a *prima facie* case which supported the validity of its class of purchaser designations, while Crescent had not effectively contested this showing or indicated how the adoption of its recommended class of purchaser structure would serve to reduce or eliminate the overcharges found in the Proposed Remedial Order. The DOE also determined that the Office of Enforcement had acted correctly in requiring Crescent to place its non-historical customers into existing classes of purchaser, and had properly calculated the weighted average cost of product in inventory in a specific instance challenged by Crescent. With respect to the firm's substantive challenges to the agency regulatory program, the DOE found that (i) the reseller price regulations are not so vague or technically complex as to justify the firm's failure to make a timely effort to comply with them; and (ii) the firm had not shown that the Office of Enforcement application of these provisions in the PRO was arbitrary or unreasonable. The DOE also found that Crescent's challenges to the procedural validity of certain agency regulations, rulings and policy statements were without merit.

Finally, the DOE determined that certain objections set forth in the firm's Responses to the Notice of Probable Violation and incorporated by reference in Crescent's Statement of Objections had been adequately refuted in the PRO. On the motion of the Office of Enforcement, the DOE modified the remedial provision in the PRO dealing with the computation of interest. Accordingly, the DOE concluded that the PRO should be issued as a final Order.

Kirkpatrick Oil and Gas Company, 4/29/81, DRO-0211

Kirkpatrick Oil Company objected to a Proposed Remedial Order which the Southwest Enforcement District of the Enforcement in the Economic Regulatory Administration (ERA) issued to the firm on April 19, 1979. In the Proposed Remedial Order, the ERA found that during the period September 1, 1973 through January 31, 1977, Kirkpatrick sold the crude oil produced from eight of its properties in Oklahoma at prices that exceed the maximum lawful ceiling prices. The ERA therefore directed the firm to refund the improperly obtained revenues. In its Statement of Objections the ERA erroneously determined that none of the eight properties involved in this proceeding qualified as stripper well properties during the relevant periods. The DOE concluded that Kirkpatrick properly classified four of the leases as stripper well properties, but that the ERA correctly determined that the other four leases should not have been classified as stripper well properties. The DOE also rejected the Office of Enforcement's request to modify retroactively the interest rates provision, but concluded that the interest rates should be modified prospectively from the date of the issuance of the final Remedial Order. Accordingly, the DOE issued the final Remedial Order with the above-noted modifications.

Requests for Exception

Jerry Aldridge, d.b.a. Oaktree Mini Mart, 5/1/81, BEO-0570

Jerry Aldridge, d.b.a. Oaktree Mini Mart filed an Application for Exception from the provisions of 10 CFR Part 211, in which the firm sought an increase in its base period allocation of motor gasoline. In considering the request, the DOE found that the firm had demonstrated that it was unable to realize the intended benefits of a capital investment it had made prior to the change in the base period. The DOE determined that the firm therefore qualified for exception relief rendered the precedent established in *Leo Anger, Inc.*, 4 DOE ¶ 81,037 (1979). However, as a consequence of the issuance by the President of the executive order exempting motor gasoline, crude oil, and propane from the provisions of the DOE Mandatory Petroleum Allocation Regulations, the DOE determined that the relief approved should be made effective only for the period from November 21, 1979, the date on which the Interim Decision and Order was issued, through January 27, 1981, the date on which the executive order was issued.

Calumet Industries, Inc., 5/1/81, BEE-1187

Calumet Industries, Inc. filed an Application for Exception from the provisions of 10 CFR 211.67 (the Entitlements Program) in which the firm requested that it receive an increased number of entitlements in each month in order to bring Calumet's average crude oil acquisition costs into substantial parity with the costs incurred by other refiners. The DOE found that Calumet had failed to show that its difficulties were

related to the DOE's Entitlements Program. Accordingly, the Calmet exception request was denied.

Gilbert's Service Station, 5/1/81 BEO–0373

On February 26, 1979, Gilbert's Service Station filed an Application for Exception in which the firm sought an increase in its base-period allocation of gasoline. In considering the request, the Department of Energy determined that exception relief should be granted on the basis of the criteria set forth in *Leo Anger, Inc.*, 4 DOE ¶ 81,037 (1979). Issues discussed in the determination include designation of a sole base-period supplier pursuant to 10 CFR 211.105(d) and three-party agreements entered into pursuant to 10 CFR 211.9(a)(2)(i), .12(e).

Hobart Corporation, 4/28/81, DEE–4459

Hobart Corporation filed an Application for Exception from the provisions of 10 CFR Part 430 in which the firm sought an exception from specific testing requirements of the energy conservation program for consumer products. In considering the request, the DOE found that the existing test failed to produce results which would accurately reflect the energy efficiency of a dishwasher manufactured by Hobart. Accordingly, the DOE determined that an exception should be granted which would permit Hobart to test the dishwasher using inlet water temperatures of 120 degrees Fahrenheit rather than 140 degrees Fahrenheit as required under the provisions of 10 CFR Part 430. However, in order to ensure that consumers were well informed about the consequences of operating the appliance at inlet temperatures of 120 degrees Fahrenheit, the DOE conditioned exception relief upon a requirement that Hobart include certain information in the advertising of its product.

Isthmus Refining Corporation, 5/1/81, BEE–1577

Isthmus Refining Corporation filed an Application for Exception from the provisions of 10 CFR 211.67 in which the firm sought additional entitlements benefits for the crude oil which the firm plans to purchase to establish a starting inventory for its new refinery. In considering the request, the DOE found that the firm had not demonstrated that it purchased any crude oil during the pendency of the Entitlements Program. Accordingly, exception relief was denied.

Pennzoil Producing Company, 4/29/81, BXE–0887

Pennzoil Producing Company filed an Application for Exception in which it sought an extension of exception relief previously granted to permit it to continue selling certain quantities of the crude oil produced from the Perry Sand Waterflood Unit, North Segment at upper tier ceiling prices. In considering the request, the DOE found that the property involved would generate reasonable operating profits at applicable ceiling price levels and that, even in the absence of exception relief, the working interest owners would have an economic incentive to continue production. Accordingly, exception relief was denied.

Pure Oil Co., BEE–1570; National Oil & Supply, BEE–1590; Port Orchard Oil, BEE–1617; Milaca Cooperative Oil, 4/29/81, BEE–1622

Pure Oil Co. and there other firms filed Applications for Exception from the reporting requirements of Form EIA–9A the No. 2 Distillate Price Monitoring Report. The applicants alleged that the reporting requirements imposed a serious hardship and gross inequity on their operations. In considering the exception request, the DOE found that each firm had demonstrated that the reporting requirements imposed a grossly inequitable burden. Accordingly, Pure Oil Co. and National Oil & Supply were excused entirely from the reporting requirements. Port Orchard Oil was granted an exception which permits it to simplify its reporting system and Milaca Cooperative Oil was granted an extension of time in which to file its reports.

UV Industries, Inc., 4/29/81, BEE–1085

UV Industries, Inc., filed an Application for Exception from the reporting requirements set forth in Form EIA–23 (Annual Survey of Domestic Oil and Gas Reserves) in which the firm requests that it be exempt from its obligation to prepare and submit Form EIA–23 for report year 1978. In considering the request the Department of Energy found that the records necessary to complete the subject form had been transferred to another firm and that all UV employees capable of completing the form had taken positions with other firms prior to UV's liquidation in March 1980. Accordingly, exception relief was granted.

Requests for Modification and/or Rescission

Little America Refining Company, Inc., BER–0087, BEZ–0091, BED–0091, BER–0091, BER–0089; Mobile Oil Corp., BED–0077; Marathon Oil Co., BED–0088; Cities Service Co., 5/1/81, BED–0089

The DOE consolidated several procedural motions that were filed by parties to the exception proceeding involving the Little America Refining Company (Larco), Case No. BEE–1064. In considering the various motions, the DOE determined that (i) Larco's Motion for Discovery of DOE documents should be denied, (ii) Larco's Motion to Disqualify the law firm of Ginsburg, Feldman, Weil and Bress from participation in the exception proceeding should be denied, (iii) the Application for Modification filed by Mobile and the Motion for Discovery filed by Cities Service Company should be granted, (iv) Larco's Motion to Modify or Rescing a December 16, 1980 Discovery determination should be denied, (v) Motions for Discovery and Evidentiary Hearing filed by Mobil Oil Corporation and Marathon Oil Company should be dismissed without prejudice.

McAlester Fuel Company, 4/29/81, DMR–0040

McAlester Fuel Company filed an Application for Modification of a Consent Order entered into between the firm and the DOE Office of Enforcement and related to allegations by the DOE that the firm had sold crude oil at prices which exceeded its maximum lawful selling prices. McAlester argued that the refusal of Musselshell County, Montana to refund the portion of the overcharge revenues which it had received in the form of a net proceeds tax, a change in the agency's position on interest payments in enforcement proceedings, and an allegedly incorrect calculation of the overcharge amount justified modification of the Consent Order. The DOE concluded that McAlester had not met the threshold requirement that it demonstrate "significantly changes circumstances" which would justify reconsideration of the agreement reflected in the Consent Order. Accordingly, the DOE denied McAlester's Application for Modification.

Motion for Discovery

Asamera Oil (U.S.) Inc., 4/27/81, BED–0110

Asamera Oil (U.S.) Inc. filed a Motion for Discovery in connection with an Application for Exception (Case No. BEE–1491) filed by the firm requesting entitlements exception relief. In its Motion for Discovery, the firm requested that the DOE release information which the Economic Regulatory Administration had collected concerning the crude oil supplies and costs of Asamera's six principal competitors. The firm also requested that the DOE release certain pre-decisional written records concerning a Proposed Decision and Order issued to the firm in the exception proceeding. *Asamera Oil (U.S.) Inc.*, Case No. BEE–1491 (January 15, 1981) (proposed decision). In considering the request, the DOE found that discovery of the crude oil information concerning Asamera's competitors was necessary to enable the firm to establish the validity of its contention in the underlying exception proceeding that its competitors' access to deemed old oil provided them with significant competitive advantages over Asamera. However, the DOE determined that the discovery of the pre-decisional records with Asamera requested was neither necessary to the firm's contentions in its exception proceeding nor appropriate in view of the protected nature of these documents. Accordingly, the discovery request was granted with respect to the crude oil cost and supply data and denied in all other respects.

Supplemental Orders

Exxon Co., U.S.A., Miller & Chevalier, 4/28/81, BEX–0202

On April 1, 1981, the Office of Hearings and Appeals issued a Decision and Order to Exxon Co., U.S.A. and Miller and Chevalier granting in part their Appeals of determinations issued to them pursuant to the Freedom of Information Act. *Exxon Co., U.S.A., Miller & Chevalier*, 7 DOE ¶ , BFA–0609, 0614. This Supplemental Order was issued to correct the identifying number of one of the documents ordered released.

Husky Oil Company of Delaware, 5/1/81, BEX–0203

On April 17, 1981, the Department of Energy issued a Supplemental Order to the Husky Oil Company of Delaware in which it determined that Husky should be relieved of any entitlements purchase obligations incurred as a result of its crude oil receipts and runs to stills during the period April 1978 through December 1980. Subsequently, the DOE determined that, for reasons similar to those set forth in the April 17 Order,

entitlements exception relief should be extended to Husky for its January 1981 operations as well. Accordingly, Husky was relieved of any entitlements obligations arising from its crude oil receipts and runs to stills during the period January 1, 1981 through January 27, 1981.

M.R.S. Service Center, Inc., 4/27/81, BEX-0187

The DOE denied a request filed by M.R.S. Service Center, Inc., that the firm's Statement of Objections be considered on its merits. The DOE also issued in final form the Proposed Decision and Order which the Northeast Regional Center issued to the firm on June 29, 1979.

Mohawk Petroleum Corp. Inc., 4/27/81, BEX-0056

On April 27, 1981, the DOE issued a Decision and Order to Mohawk that reviewed the firm's exception relief from purchasing entitlements as required by 10 CFR 211.67 during its 1979 fiscal year. The Decision and Order determined that Mohawk received excessive relief during its 1979 fiscal year.

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception from the provisions of the Motor Gasoline Allocation Regulations. The requests, if granted, would result in an increase in the firms' base period allocation of motor gasoline. The DOE issued Decisions and Orders which determined that the requests be granted.

Company Name, Case No.

Saint George Oil Corp., DEE-3489

Petitions Involving the Motor Gasoline Allocation Regulations

The following firms filed Applications for Exception from the provisions of the Motor Gasoline Allocation Regulations. The DOE issued Decisions and Orders which determined that the requests be dismissed:

Company Name, Case No.

Ethanol Marketing & Refining, Ltd., BEE-1245
Horseblock Exxon Car Wash & Gas Sta., BEO-0452
Tulane Avenue Gulf, DEE-3517

Dismissals

The following submissions were dismissed without prejudice:

Name, Case No.

Coastal Corp., BMR-0054
Howard's Exxon, BRW-0092
Valero Energy Corp., BES-0089, BEL-0062, BMR-0056

Copies of the full text of these decisions and orders are available in the Public Docket Room of the Office of Hearings and Appeals, Room B-120, 2000 M Street, N.W., Washington, D.C. 20461, Monday through Friday, between the hours of 1:00 p.m. and 5:00 p.m., except federal holidays. They are also available in *Energy Management: Federal Energy Guidelines*, a commercially published loose leaf reporter system.

George B. Breznay,

Director, Office of Hearings and Appeals.

June 8, 1981.

BILLING CODE 6450-01-M

Cases Filed With the Office of Hearings and Appeals; Week of May 22 Through May 29, 1981

During the week of May 22 through May 29, 1981, the appeals and applications for exception or other relief listed in the Appendix to this Notice were filed with the Office of Hearings and Appeals of the Department of Energy.

Under DOE procedural regulations, 10 CFR Part 205, any person who will be aggrieved by the DOE action sought in these cases may file written comments on the application within ten days of service of notice, as prescribed in the procedural regulations. For purposes of the regulations, the date of service of notice is deemed to be the date of publication of this Notice or the date of receipt by an aggrieved person of actual notice, whichever occurs first. All such comments shall be filed with the Office of Hearings and Appeals, Department of Energy, Washington, D.C. 20461.

George B. Breznay,

Director, Office of Hearings and Appeals.

June 8, 1981.

Submission of Cases Received by the Office of Hearings and Appeals

[Week of May 22 Through May 29, 1981]

Date	Name and location of applicant	Case No	Type of submission
May 22, 1981	Procter and Gamble Paper Products, Washington, D.C	BEA-06781	Appeal of Economic Regulatory Administration Order. If granted: The April 23, 1981, determination issued to Procter and Gamble Paper Products by the Economic Regulatory Administration would be modified. That determination denied the firm's request for automatic inclusion in the Petroleum Substitute Entitlements Program pursuant to 10 CFR 211.67(a)(5)(i)(D).
May 22, 1981	Freytag, Marshall, Beneke, LaForce (McConachie)	BFA-06791	Appeal of Information Request Denial. If granted: The April 20, 1981 Information Request Denial issued by the Southwest District Enforcement Office would be rescinded, and Freytag, Marshall, Beneke, LaForce would receive access to information in connection with the Department of Energy's audit of Teague Tank Trucks.
May 22, 1981	Marathon Oil Co./Mobil Oil Corp., Washington, D.C	BEX-02131	Request for Supplemental Order. If granted: The Proposed Decision and Order (Case No. BEE-0373) issued to Ashland Oil, Inc. would be rescinded.
May 26, 1981	Environmentalists, Inc., Columbia, SC	BFA-06801	Appeal of Information Request Denial. If granted: The April 30, 1981 Information Request Denial issued by the Savannah River Operations Office of the Department of Energy would be rescinded, and Environmentalists, Inc. would receive access to documents concerning the leakage of tritium.
May 26, 1981	OE/Gas Engine and Compressor Service	BEF-00541	Implementation of Special Refund Procedures. If granted: The Office of Hearings and Appeals would implement Special Refund Procedures pursuant to 10 CFR Part 205, Subpart V in connection with the August 28, 1979, Consent Order issued to Gas Engine and Compressor Service.
May 26, 1981	Pro Force Guards (A-76) Santa Fe, N. Mex	BAA-06811	Appeal of decision after a study to contract for guard force services. If granted: The decision of the DOE Albuquerque Operations Office to contract privately for guard force service for the Los Alamos Scientific Laboratory pursuant to OMB circular A-76, would be overturned.
May 26, 1981	Hobart Corporation, Washington, D.C	BES, BET-01631	Requests for Stay and Temporary Stay. If granted: Hobart Corporation would receive a stay and temporary stay of the April 28, 1981 Decision and Order (Case No. DEE-4459) issued to Hobart Corporation by the Office of Hearings and Appeals pending a final determination on its Appeal filed with the Federal Energy Regulatory Commission.

Submission of Cases Received by the Office of Hearings and Appeals—Continued

[Week of May 22 Through May 29, 1981]

Date	Name and location of applicant	Case No.	Type of submission
May 27, 1981	Boles, Billy, Darien, Ill	BFA-06821	Appeal of Information Request Denial. If granted: The April 29, 1981 Information Request Denial issued by the Chicago Operations & Regional Office would be rescinded, and Billy Boles would receive access to certain DOE information.
May 26, 1981	Little America Refining Company, Inc./Mobil Oil Corp., Washington, D.C.	BEJ-02011	Motion for Protective Order. If granted: Mobil Oil Corporation would enter into a Protective Order with Little America Refining Co. regarding the release of proprietary information to Mobil Oil Corp. in connection with Little America Refining Company's Application for Exception (Case No. BEE-1064).
May 26, 1981	Nieter, Dixon, Whitmore, Myers, & Koehlinger, Fort Wayne, Ind.	BFA-06831	Appeal of Information Request Denial. If granted: The May 4, 1981 Information Request Denial issued by the Office of Safeguards & Security, Defense Programs, DOE, would be rescinded, and Nieter, Dixon, Whitmore, Myers, and Koehlinger would receive access to Chapter 2 of the Entry Control Systems Handbook.
May 26, 1981	Mid-Atlantic Legal Foundation, Philadelphia, Pa	BCX-02141	Supplemental Order. If granted: The April 3, 1980, Decision and Order (Case No. BFA-0253) issued to Mid-Atlantic Legal Foundation by the Office of Hearings and Appeals would be modified in connection with the April 29, 1981, Order issued by the United States District Court for The Eastern District of Pennsylvania.
May 29, 1981	San Ann Service, Inc., Washington, D.C	BCX-02151	Supplemental Order. If granted: The December 5, 1979 Decision and Order (Case No. DEE-2330) issued to San Ann Service, Inc. by the Office of Hearings and Appeals would be modified in connection with the January 22, 1981 order issued by The Federal Energy Regulatory Commission.
May 29, 1981	Dunaway, McCarthy & Dye, Washington, D.C	BFA-06841	Appeal of Information Request Denial. If granted: The April 20, 1981 Information Request Denial issued by the Office of Enforcement would be rescinded, and Dunaway, McCarthy & Dye would receive access to certain DOE documents.
May 29, 1981	OE/S. H. Killingsworth, Washington, D.C	BRR-01411	Request for Modification/Rescission. If granted: The April 9, 1981, Decision and Order (Case No. BRO-06-0001) issued to the Estate of S. H. Killingsworth by the Southwest Regional Center, Office of Hearings and Appeals, would be modified regarding the interest rate on overcharges on crude oil sales.

Notices of Objection Received

[Week of May 22 to May 29, 1981]

Date	Name and location of applicant	Case No.
May 26, 1981	Golden Gate Petroleum Company, San Francisco, Calif	BEE-1644.
May 29, 1981	Placid Refining Company, Washington, D.C	BEE-1352.

BILLING CODE 6450-01-M

ENVIRONMENTAL PROTECTION AGENCY

[OPTS -51268; TS-FRL-1852-7]

Certain Chemicals; Premanufacture Notices

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Section 5(a)(1) of the Toxic Substances Control Act (TSCA) requires any person who intends to manufacture or import a new chemical substance to submit a premanufacture notice (PMN) to EPA at least 90 days before manufacture or import commences. Statutory requirements for section 5(a)(1) premanufacture notices are discussed in EPA statements of interim policy published in the Federal Register of May 15, 1979 (44 FR 28558) and November 7, 1980 (45 FR 74378). Section 5(d)(2) requires EPA to publish in the Federal Register certain information about each PMN within 5 working days after receipt. This notice announces receipt of six PMN's and provides a summary of each.

DATES: Written comments by:
PMN 81-222, 81-224—July 7, 1981.
PMN 81-229, 81-230—July 10, 1981.
PMN 81-237, 81-238—July 12, 1981.

ADDRESS: Written comments, identified by the document control number "[OPTS-51268]" and the specific PMN number should be sent to: Document Control Officer (TS-793), Office of Pesticides and Toxic Substances, Environmental Protection Agency, Rm. E-401, 401 M St., SW., Washington, DC 20460, (202-426-2610).

FOR FURTHER INFORMATION CONTACT:

PMN No., Notice Manager, Telephone, and Room No.

81-222, 81-224 and 81-238, Kathleen Ehrensberger, (202) 755-1150—E-335.
81-229, 81-230, and 81-237, Carrie Berlin, (202) 426-8816—E-221.

Mail address of notice managers: Chemical Control Division (TS-974), Office of Toxic Substances, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460.

SUPPLEMENTARY INFORMATION: The following are summaries of information provided by the manufacturer on the PMN's received by EPA:

PMN 81-222

Close of Review Period. August 6, 1981.

Manufacturer's Identity. Claimed confidential business information.
Organizational description provided:
Annual sales—Between $100 million and $499,999,999.
Manufacturing site—East-North Central U.S.
Standard Industrial Classification Code—285, "Paints, Varnish, Lacquers, Enamels and Allied Products."

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: Oligomer of alkanedioic acid, dimer fatty acids, substituted and unsubstituted alkanediols, and benzene dicarboxylic acids.

Use. The manufacturer states that the PMN substance will be used in an industrial use as a thermoset polymer for coating metal surfaces.

Production Estimates.

	Kilograms per year	
	Minimum	Maximum
1981	10,000	40,000
1982	20,000	60,000
1983	30,000	80,000

Physical/Chemical Properties.
Physical appearance—Semisolid polymeric material at room temperature.
Solubility:
Xylene—soluble.
Water—Insoluble.
Vapor pressure (polymer)—Negligible.

Viscosity (polymer) (Gardner-Holdt)—Z–2.
Color (polymer) (Gardner)—4–5.
Percent solid-polymer solution in xylene—85.

Toxicity Data. No data were submitted.

Exposure. The submitter states that in the manufacturing site, ten workers involved in the manufacture, processing, and disposal of the new substance will have potential skin exposure ranging from .25 to 10 hr/da, 4 to 26 da/yr at an average concentration of 1 to 10 mg/m³ during sampling, filtering, and drumming operations. In a user's site, seven workers may have skin and inhalation exposure, .25 to 4 hr/da, 26 to 40 da/yr at average concentration of 1 to 10 mg/m³.

Evironmental Release/Disposal. The submitter estimates that in both the manufacturer's and user's sites, less than 200 kg/yr may be released to land; less than 10 kg/yr to air, 4 hr/da, 40 da/yr. Water of esterification will be removed to a licensed treatment facility; filter media and byproducts generated during the curing process will be removed by a licensed hauler to a secure landfill.

PMN 81–224

Close of Review Period. August 6, 1981.

Manufacturer's Identity. Claimed confidential business information.
Organizational description provided:
Manufacturing site—Middle Atlantic U.S.
Standard Industrial Classification Code—285.

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: Neutralized polymer of styrene, alkyl acrylates, and substituted alkyl methacrylates.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in an open use that will release more than 50 but less than 500 kg per year with low potential for skin, eye, and inhalation exposure to nonchemical industry employees and essentially none to consumers.

Production Estimates.

	Kilograms per year	
	Minimum	Maximum
1st year	8,000	60,000
2d year	8,000	80,000
3d year	8,000	100,000

Physical/Chemical Properties.
Percent total solids—26.0% at 105°C.
Viscosity—50–200 cps.
Milliequivalents acid—0.261 MEQ/gm.
Milliequivalents base—0.198 MEQ/gm.
Percent free monomer—<0.1.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that at 2 sites, 84 manufacturing workers could have skin and eye exposure to the new chemical for 6 hr/da, 10 to 11 da/yr, during sampling for quality control and filling shipment or storage containers. At the site of a typical user, 15 workers will have skin and eye exposure for 3 hr/da, 250 da/yr.

Environmental Release/Disposal. The manufacturer states that at 2 manufacturing sites, less than 40 kg per year of the new chemical will be released into the air and water and up to 1,100 kg per year into the land. At the site of a typical user, less than 20 kg per year will be released into the air and land and up to 1,000 kg per year intermittently into the water of a plant-owned water treatment works. Vapors will be passed through a scrubber; sludge from distilled cleaning solvent will be incinerated, sold as fuel, or landfilled.

PMN 81–229

Close of Review period. August 9, 1981.

Manufacturer's Identity. Claimed confidential business information.
Organizational description provided.
Annual sales—In excess of $500 million.
Manufacturing site—East-North Central U.S.
Standard Industrial Classification Code—2821.

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: Polymer of aliphatic polyols, carbomonocyclic anhydrides, and aromatic diacid.

Use. The manufacturer states that the PMN substance will be used in a site-limited use as coatings.

Production Estimates.

	Kilograms per year	
	Minimum	Maximum
1st year	200,000	250,000
2d year	200,000	250,000
3d year	200,000	250,000

Physical/Chemical Properties.
Molecular weight—1,880.
Acid number—5–10.
Hydroxyl number—160–170.
Weight/gallon—9.8 lbs.

Toxicity data. No data were submitted.

Exposure. The manufacturer states that at two sites workers will be exposed to the new substance.

Environmental Release/Disposal. The manufacturer states that there will be no release of the chemical into the air, land, or water. Water from the condenser will be collected and shipped to a disposal firm for incineration.

PMN 81–230

Close of Review Period. August 9, 1981.

Manufacturer's Identity. claimed confidential business information.
Organizational description provided:
Annual sales—In excess of $500 million.
Manufacturing site—East-North Central U.S.
Standard Industrial Classification Code—2821.

Specific Chemical Identity. Claimed confidential business information.
Generic name provided: Polyester of aliphatic polyols and aliphatic and aromatic diacids.

Use. The manufacturer states that the PMN substance will be used in a site-limited use as coatings.

Production Estimates.

	Kilograms per year	
	Minimum	Maximum
1st year	400,000	500,000
2d year	400,000	500,000
3d year	400,000	500,000

Physical/Chemical Properties.
Molecular weight 3,100.
Acid number—6–10.
Hydroxyl number—110–120. Weight/gallon—9.5 lbs.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that there will be no worker exposure to tne new substance.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that there will be no worker exposure to the new substance.

Environmental Release/Disposal. The manufacturer states that there will be no release of the chemical into the air, land, or water. Water from the condenser will be collected and shipped to a disposal firm for incineration.

PMN 81–237

Close of Review Period. August 11, 1981.

Manufacturer's Identity. Claimed confidential business information.
Organizational description provided:
Annual sales—In excess of $500 million.
Manufacturing site—East-North Central U.S.
Standard Industrial Classification Code—282.

Specific Chemical Identity. Claimed confidential business information.

Generic name provided: Organohalo modified silica.

Use. Claimed confidential business information. Generic use information provided: The manufacturer states that the PMN substance will be used in an open use that will release more than 5,000 but less than 50,000 kg per year into the environment with potential skin, eye, and inhalation exposure of nonchemical industrial employees.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties.
Nonvolatile—60 percent.
Weight/gallon—8.0 lbs.
Molecular weight (estimate)—1,500–2,000.
Acid value—3.6 max. (solids); 6.0 max. (solution).
Flash Point—105°F.
Boiling range—300–360°F.
Viscosity—W–Y at 60 percent NV; C–F at 40 percent NV.

Toxicity Data. No data were submitted.

Exposure. The manufacturer states that 2,006 workers manufacturing, processing, and using the new chemical could have skin and inhalation exposure for 8 hr/da, 11 to 36 da/yr, during sampling and cleanup operations resulting from accidental spills. Because the new substance is manufactured in a closed system, exposure of manufacturing workers will be minimal.

Environmental Release/Disposal. No data were submitted. The manufacturer states that the majority of the new chemical released will be a landfill.

PMN 81–238

Close of Review Period. August 11, 1981.

Manufacturer's Identity. Claimed confidential business information. Organizational description provided: Annual sales—In excess of $500 million. Manufacturing site—East-North Central U.S.
Standard Industrial Classification Code—283.

Specific Chemical Identity. Claimed confidential business information. Generic name provided: Polyhalo alkanoic acid chloride.

Use. The manufacturer states that the PMN substance will be used in a site-limited, industrial use as a captive intermediate.

Production Estimates. Claimed confidential business information.

Physical/Chemical Properties.
Boiling point—38°C.
Flash point— <0.C.

Toxcity Data. No data were submitted. The manufacturer states that the PMN substance is toxic and reacts with body water to form hydrochloric acid, precluding health effects testing.

Exposure. The submitter states that two manufacturing workers will have skin and inhalation exposure for 2 hr/da, 10 da/yr, during mixing and transferring operations.

Environmental Release/Disposal. The manufacturer states that negligible amounts of the new substance will be released into the air, land, and water. Vapors will be condenses; liquids will be incinerated.

Dated: June 8, 1981.

Edward A. Klein,

Director, Chemical Control Division.

[FR Doc. 81-17624 Filed 6-12-81; 8:45 am]

BILLING CODE 6560-31-M

[A-3-FRL 1845-7a]

Full Delegation of Authority for the Prevention of Significant Deterioration of Air Quality

AGENCY: Environmental Protection Agency.

ACTION: Information notice.

SUMMARY: Section 301 in conjunction with Sections 101 and 110 of the Clean Air Act Amendments of 1977 authorizes the Administrator to delegate his authority to implement and enforce the Prevention of Significant Deterioration of Air Quality (PSD) regulations to any State which has submitted adequate implementation and enforcement procedures. The Delaware Department of Natural Resources and Environmental Control submitted to the EPA Region III office a request that EPA relinquish to them its responsibility for implementing and enforcing the PSD program. After a thorough review of the request and available information, the Regional Administrator determined that such delegation is appropriate with the conditions set forth in the letter reproduced below.

The rule published elsewhere in this issue of the **Federal Register** institutes an address change for the implementation of the technical and administrative review and enforcement of PSD provisions.

EFFECTIVE DATE: June 15, 1981.

ADDRESSES: Copies of the delegation of authority request and accompanying support documents are available for inspection during normal business hours at the following offices:

U.S. Environmental Protection Agency, Region III Curtis Building, Tenth Floor, Sixth & Walnut Streets, Phiadelphia, Pennsylvania 19106, ATTN: Robert J. Blaszczak (3AH13), (215) 597–8186 or FTS 597–8186

Air Resources Section, Division of Environmental Control, Delaware Department of Natural Resources and Environmental Control, Edward Tatnall Building, P.O. Box 1401, Dover, Delaware 19901.

FOR FURTHER INFORMATION CONTACT: Robert J. Blaszczak at (215) 587–8186 or FTS 597–8186.

SUPPLEMENTARY INFORMATION: On January 5, 1981, EPA Region III received a letter from the Delaware Department of Natural Resources, which submitted for approval revisions to Delaware State Implementation Plan, including regulations for PSD, and requested full delegation of authority for the implementation and enforcement of the PSD program until such time as the proposed regulations would be promulgated. This notice deals only with the delegation of authority for the PSD program. The PSD regulations submitted by Delaware will be addressed in a separate notice of proposed rulemaking.

After a thorough review of the request for full PSD program delegation, the Regional Administrator has determined that such delegation is appropriate subject to the conditions set forth in the following official letter to the Secretary of the Delaware Department of Natural Resources and Environmental Control. Therefore, pursuant to the authority delegated to him by the Administrator, the Regional Administrator has formally notified the Secretary of the Delaware Department of Natural Resources and Environmental Control by the following letter that he relinquishes full PSD regulatory authority to the State of Delaware as of the publication date of this notice. The Regional Administrator finds good cause for making this delegation of authority effective immediately in that it is an administrative change and not one of substantive content.

Mr. John E. Wilson III, Secretary, Delaware Department of Natural Resources and Environmental Control, Edward Tatnall Building, P.O. Box 1401, Dover, Delaware

Dear Mr. Wilson: Thank you for your December 29, 1980, request for delegation of authority to implement the Prevention of Significant Deterioration (PSD) regulations. The intent of the request and the following delegation is to reduce duplicate PSD permit reviews by our respective agencies and to provide prospective applicants with only one agency to deal with in obtaining a construction permit.

We have reviewed the pertinent laws of the State of Delaware and the rules and regulations thereof, and have determined that they provide an adequate and effective procedure for full implementation of PSD.

We have also reviewed the procedures for new source review of the State of Delaware

and have determined that they provide an adequate and effective procedure for the implementation of all the portions of the PSD program. Therefore, pursuant to 40 CFR 52.21(u), we hereby delegate our authority for all portions of the Federal PSD program, as described in 40 CFR 52.21, as amended August 7, 1980, to the State of Delaware as follows:

1. Authority is delegated for all sources located in the State of Delaware subject to review for the Prevention of Significant Deterioration. This includes all source categories listed in 40 CFR section 52.21 for each pollutant regulated by the Clean Air Act.

2. If at any time there is a conflict between a State regulation and a Federal regulation (40 CFR 52.01 and 52.21), the Federal regulation must be applied if it is more stringent than that of the State. If the State does not have the authority to implement a Federal regulation that is more stringent than the applicable State regulation, the pertinent portion of the authority may be revoked.

3. If the Regional Adminstrator determines that the State procedure for implementing all the portions of the PSD program is inadequate, or is not being effectively carried out, this authority may be revoked in whole or in part. Any such revocation shall be effective as of the date specified in a Notice of Revocation to the Delaware Department of Natural Resources and Environmental Control.

4. The State of Delaware will ensure through its interstate intergovernmental cooperation procedures, that all potential source interactions along State boundaries are properly determined.

5. Enforcement of PSD in the State of Delaware will be the primary responsibility of the Delaware Department of Natural Resources and Environmental Control. If the State determines that such enforcement is not feasible and so notifies EPA, or where the State acts in a manner inconsistent with the terms of this granted authority, EPA will exercise its concurrent enforcement authority pursuant to Sections 113 and 1167 of the Clean Air Act with respect to sources within the State of Delaware subject to PSD requirements. In accordance with 40 CFR 52.21(r) and Sections 113 and 167 of the Clean Air Act, 42 U.S.C. 7413 and 7477, EPA reserves the right to commence an enforcement action against any entity in violation of the Prevention of Significant Air Quality Deterioration regulations should the State of Delaware fail to take such an enforcement action or, in the opinion of EPA, fail to pursue a timely or appropriate enforcement action.

6. Acceptance of this delegation of presently promulgated PSD regulations does not commit the State of Delaware to request or implement enforcement authority for future standards and requirements.

7. The State and EPA will develop a system of communication sufficient to guarantee a program that includes the items described below:

A. Each agency is informed of the current compliance status of subject sources in the State of Delaware.

B. The Delaware Department of Natural Resources and Environmental Control shall send a copy of preliminary determinations and public comment notices required under paragraph (q) of 40 CFR 52.21 to the Air and Hazardous Materials Division, EPA Region III, at the same time the notice is being forwarded for publication in the newspaper.

C. The Delaware Department of Natural Resources and Environmental Control will forward to EPA Region III copies of the final PSD permit at the time of issuance.

D. The status of incomplete permit applications will be provided to EPA Region III on an as needed basis.

8. Prior EPA concurrence is to be obtained on any matter involving the interpretatin of sections 160–169 of the Clean Air Act or 40 CFR section 52.21 to the extent that implementation, review, administration or enforcement of these sections have not been covered by determinations or guidance sent to the Delaware Department of Natural Resources and Environmental Control.

9. Where it is convenient to both the Delaware Department of Natural Resources and Environmental Control and EPA and a benefit to the applicant, any PSD reviews already initiated by EPA prior to this delegation shall be transferred to the Delaware Department of Natural Resources and Environmental Control for completion.

10. Enforcement actions already initiated by EPA prior to this delegation of authority shall be completed by EPA.

11. A notice announcing these actions will be published in the **Federal Register** in the near future. This delegation of authority shall be effective as of the publication date of that notice. The notice will state, among other things, that effective immediately, all reports required pursuant to PSD by sources located in the State of Delaware will be reviewed and final permit approval action and enforcement will be taken by the Delaware Department of Natural Resources and Environmental Control.

This delegation of authority should not be construed as a transfer of PSD responsibility under Section 110(a)(2)(J) of the Clean Air Act. The PSD regulations which were submitted for approval with your December 29, 1980 request were submitted in accordance with that section but will be addressed in a separate action. This delegation of authority, subject to the conditions stated herein, will remain in force until Delaware's PSD regulations are approved by EPA.

There is no requirement that the State notify EPA of its acceptance. Unless EPA receives from the State written notice of objections within 10 days of the date of receipt of this letter, the State will be deemed to have accepted all of the terms as stated herein.

Sincerely yours,

Jack J. Schramm,

Regional Administrator.

Under Executive Order 12291, EPA also must judge whether a regulation is "major" and therefore subject to the requirement of a regulatory impact analysis. This delegation of authority is not "major." This action only approves state actions, and imposes no new requirements of its own.

This delegation of authority was submitted to the Office of Management and Budget for review as required by Executive Order 12291.

Effective immediately, all applications and other information pursuant to § 51.21 from sources locating in the State of Delaware but not having a PSD permit application currently under review by EPA should be submitted to the State agency at the following address: Air Resources Section, Division of Environmental Control, Delaware Department of Natural Resources and Environmental Control, Edward Tatnall Building, P.O. Box 1401, Dover, Delaware 19901.

(42 U.S.C. 7401, 7410, and 7601)

Dated: June 8, 1981.

Jack J. Schramm,

Regional Administrator.

BILLING CODE 6560-38-M

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 81-379; File No. 20728-CD-P-(1)-81]

Altoona Telephone Message Center; Designating Application For Hearing on Stated Issues

In re application of Irving Seltzer d.b.a. Altoona Telephone Message Center, for a construction permit for an additional channel, frequency 152.21 MHz, for Station KGC588 in the Domestic Public Land Mobile Radio Service at Altoona, Pennsylvania, CC Docket No. 81-379, File No. 20728-CD-P-(1)-81.

Memorandum Opinion and Order

Adopted June 5, 1981.

Released June 8, 1981.

1. Presently before the Chief, Mobile Services Division, pursuant to delegated authority, is the above-referenced application of Irving Seltzer, d/b/a Altoona Telephone Message Center (Seltzer). Our review of the Seltzer application has raised a question concerning whether the applicant has demonstrated a need for an additional frequency. We find Seltzer to be otherwise qualified.

2. Seltzer has submitted a traffic loading study pursuant to section 22.516 of the Rules in an attempt to demonstrate need for the additional two-way frequency it requests. Seltzer has not shown that it is holding any order for additional units and the loading study submitted does not demonstrate sufficient traffic to justify

an additional frequency. The traffic loading study shows average peak hour usage of only approximately 23 minutes. As a result, we will designate an issue as to whether the applicant has demonstrated a need for an additional frequency.

3. Accordingly, it is ordered, that the above-referenced application of Irving Seltzer, d/b/a Altoona Telephone Message Center, File No. 20728–CD–P–(1)–81 is designated for hearing, pursuant to Section 309(e) of the Communications Act of 1934, as amended, upon the following issue:

(a) To determine whether the applicant has demonstrated a sufficient public need for the proposed facility.

4. It is further ordered, that the hearing be held at a time and place and before an Administrative Law Judge to be specified in a subsequent order.

5. It is further ordered, that the Chief, Common Carrier Bureau, is made a party to the proceeding.

6. It is further ordered, that the applicant may avail itself of an opportunity to be heard by filing with the Commission pursuant to § 1.221(c) of the Rules within 20 days of the release date hereof, a written notice stating an intention to appear on the date for the hearing and present evidence on the issues specified in this Memorandum Opinion and Order.

7. The Secretary shall cause a copy of this Order to be published in the **Federal Register.**

Sheldon M. Guttmann,

Chief, Mobile Services Division, Common Carrier Bureau.

[FR Doc. 81–17754 Filed 6–12–81; 8:45 am]

BILLING CODE 6712–01–M

[BC Docket No. 81–378; File No. BPH–10024]

Withers Broadcasting Co. (KGMO–FM); Designating Application for Hearing on Stated Issues

In re application of W. Russell Withers, Jr., James K. Withers, Ruth H. Withers, and Waldo R. Withers, d.b.a Withers Broadcasting Company (KGMO–FM), Cape Girardeau, Missouri, Has: 100.7 MHz, Channel 264 28.5 kW (H&V), 170 feet, Req: 100.7 MHz, Channel 264 100kW (H&V), 345 feet, for a construction permit to modify existing facility, BC Docket No. 81–378, File No. BPH–10024.

Adopted: June 1, 1981.

Released: June 8, 1981.

1. The Commission, by the Chief, Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned application.

2. By Aeronautical Study No. 76–CE–263–OE, issued on December 30, 1976, the Federal Aviation Adminstration determined that the applicant's proposed construction would be a hazard to air navigation. In rendering its determination, the FAA observed that:

> • • • (T)he potential electromagnetic interference would adversely affect a significant volume of traffic. Though the electromagnetic interference is based on a theoretical analysis, experience at several locations throughout the national air space system has proven 100kW transmissions to be a real and serious problem. Therefore, on the basis of the potential electromagnetic interference, this proposed construction will be considered a hazard to air navigation unless aircraft navigational and communications equipment is found to be unaffected by FM transmissions from this tower.

Accordingly, an appropriate issue will be specified.

3. Except as indicated by the issues specified below, the applicant is qualified to construct and operate as proposed. However, since the proposed construction has an air hazard determination by the FAA, it must be designated for hearing in a proceeding on the issues specified below.

4. Accordingly, it is ordered, that, pursuant to Section 309(e) of the Communications Act of 1934, as amended, the application is designated for hearing, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine whether there is a reasonable possibility that the proposed construction by the applicant would constitute a hazard to air navigation.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, whether a grant of the application would serve the public interest, convenience and necessity.

5. It is further ordered, that the Federal Aviation Administration is made a party to the proceeding.

6. It is further ordered, that, in the event of a grant of this application, the construction permit shall contain the following condition:

> During installation of the FM antenna, KGMO–AM shall determine operating power by the indirect method and shall maintain the directional antenna system as closely as possible to values appearing in the license. Upon completion of the installation, KGMO–AM shall submit sufficient data to show that the directional antenna pattern remains substantially unchanged. If there is any change in the antenna or common point resistance, KGMO–AM shall submit Form 302 to report the change. Data submitted shall include a sketch of the combined installation. This does not constitute authority to change the antenna system of Station KGMO–AM.

7. It is further ordered, that to avail itself of the opportunity to be heard, the applicant herein shall, pursuant to § 1.221(c) of the Comission's rules, in person or by attorney, within 20 days of the mailing of this Order, file, in triplicate, with the commission a written appearance stating an intention to appear on the date fixed for the hearing and to present evidence on the issues specified in this Order.

8. It is ordered, that the applicant herein shall, pursuant to Section 311(a)(2) of the Communications Act of 1934, as amended, and § 73.3594(g) of the Commission's rules, give notice of the hearing within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by §73.3594(g) of the rules.

Federal Communications Commission

Larry D. Eads,

Acting Chief, Broadcast Facilities Division.

BILLING CODE 6712–01–M

[CC Docket No. 80–286; FCC 81–260]

Federal-State Joint Board on Jurisdictional Separations, Appointment of Member

AGENCY: Federal Communications Commission.

ACTION: Appointment of new member to the Federal-State Joint Board on jurisdictional separations.

SUMMARY: Edward F. Burke, Chairman of the Rhode Island Public Utilities Commission, is appointed to fill a vacancy on the Board. This action is necessitated by the departure of Commissioner Edward M. Parsons, Jr. from the Wisconsin Public Service Commission.

DATES: This action is effective June 5, 1981.

ADDRESS: Federal Communications Commission, Washington, D.C 20554.

FOR FURTHER INFORMATION CONTACT: Claudia Pabo, Policy and Program Planning Division, Common Carrier Bureau (202–632–9342).

SUPPLEMENTARY INFORMATION:

Third Supplemental Notice

Adopted: June 5, 1981.

Released: June 5, 1981.

By the Commission:

1. On June 11, 1980, the Commission instituted a proceeding to amend Part 67 of the Commission's Rules concerning

jurisdictional separations and established a Federal-State Joint Board purusant to Section 410 (c) of the Communications Act to develop the relevant revisions. *Amendment of Part 67 of the Commission's Rules and Establishment of a Joint Board*, CC Docket No. 80–286, 78 FCC 2d 837 (1980). By subsequent Notices the Commission appointed the members of the Joint Board and designated the Chairman. 82 FCC 2d 157 (1980); FCC 81–64, released February 19, 1981.

2. Edward F Burke, Chairman of the Rhode Island Public Utilities Commission, is appointed to fill the vacancy created by the departure of Commissioner Edward M. Parsons from the Wisconsin Public Service Commission. Chairman Burke was nominated for this position by the National Association of Regulatory Utility Commissioners.

3. Accordingly, it is ordered, That Edward F. Burke, Chairman of the Rhode Island Public Utilities Commission, IS APPOINTED to the Joint Board.

Federal Communications Commission.

William J. Tricarico,

Secretary.

BILLING CODE 6712-01-M

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

[Docket No. FEMA REP-4-NC-1]

State of North Carolina Site Specific Radiological Emergency Response Plan for Duke Power Company's McGuire Nuclear Powered Electric Generating Plant

ACTION: Certification of FEMA Findings and Determination.

In accordance with the FEMA Rule, 44 CFR Part 350 (proposed), on November 6, 1980, the State of North Carolina submitted its plan to the Director of Region IV for review and approval. The Regional Director has forwarded his statement of findings and determination to the Associate Director for Plans and Preparedness on the subject plan and the associated facility, dated March 20, 1981, in accordance with 350.11 of the proposed Rule. Included in these findings and determination are an evaluation of the State plan and the associated local plans for the McGuire facility, an evaluation of the exercise, with a State response, of the exercise conducted on December 5–6, 1980, at the McGuire facility in accordance with 350.9 of the proposed Rule, and a report of the public meeting held on December 4, 1980, to explain the site specific aspects of the State and local plans in accordance with 350.10 of the proposed Rule.

Based on this statement by the Regional director and the review of FEMA Headquarters staff, the Acting Associate director finds and determines that, subject to the condition stated below, the State plans and preparedness including the local plans and preparedness for the McGuire Facility are adequate to protect the health and safety of the public living in the vicinity of the McGuire facility by providing reasonable assurance that appropriate protective measures can and will be taken off-site in the event of a radiological emergency and are capable of being implemented. The condition is that the public alerting and notification system be brought up to the standards set forth in Appendix 3 of Nuclear Regulatory Commission (NRC)/FEMA criteria (NUREG–0654/FEMA–REP–1, Revision 1) by July 1, 1981.

Other deficiencies were noted, however, they were minor in nature and were more concerned with process than with preparedness.

FEMA will continue to review the status of plans and preparedness of the State and the localities associated with Plant McGuire in accordance with 350.13 of the proposed Rule.

For further details with respect to this action, refer to the FEMA docket file maintained by the Regional director at 1375 Peachtree Street, NE, Atlanta, Georgia 30309.

Dated: June 4, 1981.

For the Federal Emergency Management Agency.

Robert E. Young,

Acting Associate Director for Plans and Preparedness.

BILLING CODE 6718-01-M

FEDERAL MARITIME COMMISSION

[Agreements Nos. 10270–2 and 10420]

Availability of Findings of No Significant Impact

Upon completion of environmental assessments, the Federal Maritime Commission's Office of Energy and Environmental Impact has determined that the Commission's decisions on the proposed actions listed below will not constitute major Federal actions significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321 *et seq.*, and that preparation of environmental impact statements is not required.

Agreement No. 10270–2 is a rate agreement among the members of the Gulf European Freight Association. The members propose to extend the term of the basic agreement which has been in effect since September 8, 1978. There would be no change in the service, operations or facilities involved in the proposal.

Agreement No. 10420 permits American President Lines, Ltd., Lykes Brothers Steamship Company, Inc., Sea-Land Service, Inc., United States Lines, Inc., and Waterman Steamship Corporation to charter vessel capacity from each other in their Far East services on a space available/required basis. There is no minimum chartering requirement or fixed service obligations.

The Findings of No Significant Impact (FONSI) will become final within 20 days unless petitions for review are filed pursuant to 46 CFR 547.6(b).

The FONSI and related assessments are available for inspection on request from the Office of the Secretary, Room 11101, Federal Maritime Commission, Washington, D.C. 20573, telephone (202) 523–5725.

Joseph C. Polking,

Acting Secretary.

BILLING CODE 6730-01-M

FEDERAL RESERVE SYSTEM

First Interstate International of California; Relocation of Head Office and Establishment of U.S. Branch of a Corporation Organized Under Section 25(a) of the Federal Reserve Act

First Interstate International of California (formerly United California Bank International), New York, New York, a corporation organized under section 25(a) of the Federal Reserve Act, has applied for the Board's approval under section 211.4(c) (1) of the Board's Regulation K (12 C.F.R. § 211.4(c) (1)), to relocate the head office of the corporation from New York City, New York, to Los Angeles, California, and to establish a branch in New City to assume the activities of the existing head office. First Interstate International of California operates as a subsidiary of First Interstate Bank of California (formerly United California Bank), Los Angeles, California.

The factors that are to be considered in acting on this application are set forth in section 211.4(a) of the Board's Regulation K (12 C.F.R. § 211.4(a)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of San Francisco. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than June 19, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identify specifically any questions of fact that are in dispute, and summarize the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, June 3, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

St. Joseph Bancorporation, Inc.; Formation of Bank Holding Company

St. Joseph Bancorporation, Inc., South Bend, Indiana, has applied for the Board's approval under § 3(a) of the Bank Holding Company Act (12 U.S.C § 1842(a)) to become a bank holding company through merger with St. Joseph Agency, Inc., South Bend, Indiana, and by acquiring 100 percent of the voting

shares of the successor by merger of St. Joseph Bank and Trust Company, South Bend, Indiana, and Central State Bank of Lakeville, Lakeville, Indiana. The factors that are considered in acting on the application are set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

St. Joseph Bancorporation, Inc., South Bend, Indiana, has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR § 225.4(b)(2)), for permission to acquire voting shares of St. Josepth Mortgage Company, Inc., South Bend, Indiana, and St. Joseph Lease Capital Corporation, Alexandria, Virginia.

Applicant states that St. Joseph Mortgage Co., Inc. proposes to engage in the origination, acquisition, sale and servicing of residential, commercial and industrial mortgage loans, the origination of construction and development loans, and the sale of credit life and credit accident and health insurance in connection with such extensions of credit. These activities will be performed from offices of Applicant's subsidiary in Ft. Wayne, Indianapolis, Merrillville and South Bend, Indiana and Park Forest and Hanover Park, Illinois, and the geographic areas to be served are Illinois, Indiana and Michigan. Applicant states that St. Joseph Lease Capital Corporation would engage in the leasing of personal property or acting as agent or advisor in leasing such property. These activities would be performed from offices of Applicant's subsidiary in South Bend, Indiana, and Alexandria, Virginia, and the geographic areas to be served are nationwide. Such activities have been specified by the Board in section 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of section 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Reserve Bank not later than July 3, 1981.

Board of Governors of the Federal Reserve System, June 4, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Bank Holding Companies; Proposed de Novo Nonbank Activities

The bank holding companies listed in this notice have applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(1) of the Board's Regulation Y (12 CFR 225.4(b)(1)), for permission to engage *de novo* (or continue to engage in an activity earlier commenced *de novo*), directly or indirectly, solely in the activities indicated, which have been determined by the Board of Governors to be closely related to banking.

With respect to each application, interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interest, or unsound banking practices." Any comment on an application that requests a hearing must include a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of that proposal.

Each application may be inspected at the offices of the Board of Governors or

at the Federal Reserve Bank indicated for that application. Comments and requests for hearings should identify clearly the specific application to which they relate, and should be submitted in writing and, except as noted, received by the appropriate Federal Reserve Bank not later than July 3, 1981.

A. *Federal Reserve Bank of Boston* (Richard E. Randall, Vice President) 600 Atlantic Avenue, Boston, Massachusetts 02105:

FIRST NATIONAL BOSTON CORPORATION, Boston, Massachusetts (data processing activities; Maine): to engage through its subsidiary, FBC, Inc., in providing bookkeeping and data processing services, including storing and processing banking, financial, or related data, to banks and other financial institutions. These activities would be conducted from an office in Augusta, Maine, serving the State of Maine.

B. *Federal Reserve Bank of New York* (A. Marshall Puckett, Vice President) 33 Liberty Street, New York, New York 10045:

1. Citicorp, New York, New York (consumer finance; California): to expand the activities of an approved office of its subsidiary, Citicorp Person-to-Person Financial Center, Inc., to engage in the servicing, for any person, of loans and other extensions of credit. This activity will be conducted from an office located in San Jose, California, serving San Mateo, Santa Clara and Alameda Counties, California. Comments on this application must be received not later than June 25, 1981.

2. Key Banks, Inc., Albany, New York (data processing; New York): proposes to engage through its subsidiary, Keycard Corp., in the servicing of loans and other extensions of credit and providing bookkeeping or data processing services and storing and processing banking, financial or related data for nonaffiliated banking organizations and others. The activities will include performing accounts receivable or payable or billing services in connection with the debit and/or credit card operations of banks, creating and maintaining appropriate computer records of bank merchant and cardholder customers, posting transactions, preparing and reconciling statements, mailing statements, producing and mailing debit and/or credit cards, providing authorization service to merchants, and handling normal customer and merchant inquiries and problems.

The activities will be performed from an office in Albany, New York. The geographic area that will be served includes all of New York State except for the New York City metropolitan area and the counties of Erie, Chautauqua, Niagara, Orleans, Monroe, Wayne, Genesee, and Wyoming in the western part of the State.

3. Manufacturers Hanover Corporation, New York, New York (finance and insurance activities; Arizona): to engage through its subsidiary, Termplan Incorporated of Arizona, in consumer and sales finance activities and in home equity lending activities; and in the activity of selling credit life, accident, health, and property insurance. These activities would be conducted from an office in Phoenix, Arizona, serving Maricopa, Yavapai, Gila, and Pinal Counties, Arizona, and in Tuscon, Arizona, serving Pima, Pinal, Graham, Cochise, and Santa Cruz Counties, Arizona.

4. Manufacturers Hanover Corporation, New York, New York (home equity lending, sales finance activities and insurance activities; New Jersey): to engage through a *de novo* office of Investors Loan Corporation of New Jersey, and Investors Mortgage Company of New Jersey, in arranging, making or acquiring for its own account or for the account of making or acquiring for its own account or for the account of others, loans and other extensions of credit secured by a homeowner's equity interest in a home such as would be made by a consumer finance company, servicing such loans and other extensions of credit for any person, acting as an agent or broker for the sale of single and joint credit life insurance which is directly related to such loans and extensions of credit, and through its subsidiary Tempco Life Insurance Company reinsuring such credit life insurance; and purchasing installment sales finance contracts, acting as an ageny or broker for the sale of single and joint credit life insurance and credit accident and health insurance which is directly related to such loans and extensions of credit, and through its subsidiary Tempco Life Insurance Company reinsuring such credit life and accident and health insurance. These activities would be conducted from a *de novo* office of Investors Loan Corporation of New Jersey and Investors Mortgage Company of New Jersey located in Linwood, New Jersey, and serving the following counties: southern Gloucester, southern Camden, Atlantic, eastern Salem, Cape May, Cumberland, southern Burlington, and southern Ocean.

5. Manufacturers Hanover Corporation, New York, New York (home equity lending, sales finance activities and insurance activities; Pennsylvania): to engage through a *de novo* office of Ritter Consumer Discount Company, Inc., of Pennsylvania, and Ritter Mortgage Company of Pennsylvania in arranging, making or acquiring for its own account or for the account of others, loans and other extensions of credit secured by a homeowner's equity interest in a home such as would be made by a consumer finance company, servicing such loans and other extensions of credit for any person, acting as an agent or broker for the sale of single credit life insurance which is directly related to such loans and extensions of credit, and through its subsidiary Ritter Life Insurance Company reinsuring such credit life insurance; and purchasing installment sales finance contracts, acting as an agent or broker for the sale of single credit life insurance and credit accident and health insurance which is directly related to such loans and extensions of credit, and through its subsidiary Ritter Life Insurance Company reinsuring such credit life and accident and health insurance. These activities would be conducted from a *de novo* office of Ritter Consumer Discount Company, Inc. of Pennsylvania and Ritter Mortgage Company of Pennsylvania located in Trevose, Pennsylvania, and serving the following counties: Philadelphia, Montgomery, Chester, eastern Berks, southern Lehigh, Bucks, and southern Northampton.

C. *Federal Reserve Bank of San Francisco* (Harry W. Green, Vice President) 400 Sansome Street, San Francisco, California 94120:

Bankamerica Corporation, San Francisco, California (financing, servicing and insurance activities; Tennessee, Alabama, Georgia): to continue to engage, through its indirect subsidiary, FinanceAmerica Corporation, a Tennessee corporation, in the activities of making or acquiring for its own accounts loans and other extensions of credit such as will be made or acquired by a finance company, servicing loans and other extensions of credit, and offering credit-related life, credit-related accident and health and credit-related property insurance. Such activities will include, but not be limited to, making consumer installment loans; purchasing installment sales finance contracts; making loans and other extensions of credit to small businesses; making loans secured by real and personal property; and the offering of credit-related life, accident and health and property insurance directly related to extensions of credit made or acquired by FinanceAmerica Corporation.

These activities will be conducted from an existing office in Chattanooga, Tennessee, serving the entire State of Tennessee and the counties of Whitefield and Murray in Georgia, and the counties of De Kalb and Jackson in Alabama.

D. *Other Federal Reserve Banks.* None.

June 8, 1981.

Peoples Exchange Bancorp, Inc., Beattyville, Kentucky, has applied for the Board's approval under Section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company by acquiring 80 percent of the voting shares of Peoples Exchange Bank, Beattyville, Kentucky. The factors that are considered in acting on the application are set forth in Section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than July 7, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute and summarizing the evidence that would be presented at a hearing.

Pittsburgh International Bank; Establishment of U.S. Branch of a Corporation Organized Under Section 25(a) of the Federal Reserve Act

Pittsburgh International Bank, Pittsburgh, Pennsylvania, a corporation organized under section 25(a) of the Federal Reserve Act, has applied for the Board's approval under section 211.4(c)(1) of the Board's Regulation K (12 CFR 211.4(c)(1)), to establish a branch in Los Angeles, California. Pittsburgh International Bank operates as a subsidiary of Pittsburgh National Bank, Pittsburgh, Pennsylvania.

The factors that are to be considered in acting on this application are set forth in section 211.4(a) of the Board's Regulation K (12 CFR 211.4(a)).

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Cleveland. Any person wishing to comment on the application should submit views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551 to be received no later than July 7, 1981. Any comment on an application that requests a hearing must include a statement of why a written presentation would not suffice in lieu of a hearing, identify specifically any questions of fact that are in dispute, and summarize the evidence that would be presented at a hearing.

Board of Governors of the Federal Reserve System, June 8, 1981.

D. Michael Manies,

Assistant Secretary of the Board.

BILLING CODE 6210-01-M

Consumer Advisory Council; Solicitation of Nominations for Membership

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Solicitation of nominations for membership on the Board's Consumer Advisory Council.

SUMMARY: The Board is asking the public to nominate qualified individuals for nine appointments to its Consumer Advisory Council.

DATE: Nominations should be received by August 17, 1981.

ADDRESS: Nominations including the name, address, and telephone number of the nominee should be mailed to Dolores S. Smith, Assistant Director, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FOR FURTHER INFORMATION CONTACT: Ann Marie Bray, Staff Assistant, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, (202) 452-3867.

SUPPLEMENTARY INFORMATION: The Consumer Advisory Council was established by the Congress in 1976 to advise the Board on the exercise of its duties under the Consumer Credit Protection Act and on other consumer-related matters. The Council by law represents the interests of both consumers and the financial community. The Board, therefore, is particularly seeking candidates who are familiar with issues in the area of consumer credit and other financial services. Members serve three-year terms that are staggered to provide the Council with continuity, and generally one-third of the Council's 30 members are appointed each year.

Nine new members will be selected this fall, to replace members whose terms expire on December 31, 1981. The Council's membership is intended, to the extent possible, to represent all interests in the area of consumer financial services regulations. The Board's appointments are also made with a view toward complementing the qualifications of continuing Council members in terms of affiliation and geographic representation. Since each year the nominees generally number in the hundreds, many highly qualified and interested individuals will not have the opportunity to serve. Similarly, it is not possible for every interested group to be represented.

The Council meets four times a year for approximately a day and a half. Council members who are not federal employees are paid $100 for each day spent attending or traveling to and from meetings.

Nominations should be submitted in writing to Dolores S. Smith, Assistant Director, Division of Consumer and Community Affairs, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, and must be received no later than August 17, 1981. Nominations should include the name, address and telephone number of the nominee, past and present positions held, and special knowledge, interests, or experience relating to consumer matters. This information will be made available for public inspection and copying upon request, except as provided in § 261.6(a) of the Board's Rules Regarding Availability of Information.

The names and affiliations of current Council members (and the expiration date of their term of office) follow:

Chairman

Ralph Rohner, Professor, Catholic University Law School, Washington, D.C., December 31, 1981

Vice Chairman

Charlotte H. Scott, Professor of Business, Administration and Commerce, University of Virginia, Charlottesville, Virginia, December 31, 1982

Arthur F. Bouton, President-elect, American Association of Retired Persons, Little Rock, Arkansas, December 31, 1983

Julia H. Boyd, Alexandria, Virginia, December 31, 1983
Ellen Broadman, Attorney, Consumers Union, Washington, D.C., December 31, 1982
James L. Brown, Director, Center for Consumer Affairs, Milwaukee, Wisconsin, December 31, 1981
Mark E. Budnitz, Associate Professor, Emory University School of Law, Atlanta, Georgia, December 31, 1981
Joseph N. Cugini, President & General Manager, Westerly Community Credit Union, Westerly, Rhode Island, December 31, 1983
Richard S. D'Agostino, Senior Vice President, Girard Bank, Philadelphia, Pennsylvania, December 31, 1982
Susan Pierson De Witt, Assistant Attorney General and Chief of Consumer Protection, State of Illinois, Springfield, Illinois, December 31, 1983
Joanne Faulkner, Attorney, New Haven Legal Assistance Association, Inc., New Haven, Connecticut, December 31, 1982
Luther R. Gatling, President, Budget & Credit Counseling Service, New York, New York, December 31, 1983
Vernard W. Henley, President, Consolidated Bank and Trust Company, Richmond, Virginia, December 31, 1982
Juan Jesus Hinojosa, Partner, Hinojosa & Ortiz, McAllen, Texas, December 31, 1982
Shirley T. Hosoi, Vice President, Strategic Planning, First Interstate Bancorporation, Los Angeles, California, December 31, 1982
George S. Irvin, President, George Irvin Chevrolet, Denver, Colorado, December 31, 1983
F. Thomas Juster, Director, Institute for Social Research, Survey Research Center, University of Michigan, Ann Arbor, Michigan, December 31, 1982
Richard F. Kerr, Cincinnati, Ohio, December 31, 1981
Harvey M. Kuhnley, President and Chairman of the Board, Twin City Federal Savings & Loan Association, Minneapolis, Minnesota, December 31, 1981
Robert J. McEwen, S.J., Professor of Economics, Boston College, Chestnut Hill, Massachusetts, December 31, 1982
Stanley L. Mularz, President, Trans Union Credit Information Company, Chicago, Illinois, December 31, 1983
William J. O'Connor, Jr., Partner, Phillips, Lytle, Hitchcock, Blaine & Huber, Buffalo, New York, December 31, 1983
Margaret Reilly-Petrone Professor of Economics, Montclair College, Upper Montclair, New Jersey, December 31, 1982
Rene Reixach, Staff Attorney, Greater Upstate Law Project, Rochester, New York, December 31, 1982
Florence M. Rice, President, Harlem Consumer Education Council, New York, New York, December 31, 1981
Henry B. Schechter, Director, Office of Housing and Monetary Policy, AFL-CIO, Washington, D.C., December 31, 1981
Peter D. Schellie, Partner, Bingham, Dana & Gould, Washington, D.C., December 31, 1982
Nancy Z. Spillman, Director for Economic Education and Professor of Economics, Los Angeles Trade Technical College, Los Angeles, California, December 31, 1983
Richard A. Van Winkle, President, Lockhart Finance Company, Salt Lake City, Utah, December 31, 1981
Mary W. Walker, President, National Bank of Walton County, Monroe, Georgia, December 31, 1981.

Board of Governors of the Federal Reserve System, June 8, 1981

James McAfee,

Assistant Secretary of the Board

GENERAL SERVICES ADMINISTRATION

[Intervention Notice 136]

Public Service Company of Colorado, the Colorado Public Utilities Commission; Proposed Intervention in Electric Rate Increase Proceeding

The General Services Administration (GSA) seeks to intervene in a proceeding before the Colorado Public Utilities Commission concerning the application of the Public Service Company of Colorado for an increase in electric rates. GSA represents the interests of the executive agencies of the United States Government as users of utility services.

Persons desiring to make inquiries to GSA concerning this case should submit them in writing to Albert A. Vicchiolla, Assistant General Counsel, Transportation and Public Utilities Division, General Services Administration, 425 I Street, N.W., Room 3001, Washington, D.C. (mailing address: General Services Administration (LT), Chester A. Arthur Building, Washington, D.C. 20406), 202-275-6101, on or before July 15, 1981, and refer to this notice number.

Persons making inquiries are put on notice that the making of an inquiry shall not serve to make any persons parties of record in the proceeding.

(Section 201(a)(4), Federal Property and Administrative Services Act, 40 U.S.C. 481(a)(4))

Dated: June 5, 1981.

Ray Kline,

Deputy Administrator of General Services

[INT FES 81-22]

Appalachian Power Company's Proposed 765-V Electric Transmission Line Crossing Blue Ridge Parkway, Virginia; Availability of Final Environmental Impact Statement

Pursuant to Section 102(2)(C) of the National Evironmental Policy Act of 1969, the National Park Service, U.S. Department of the Interior, has prepared a Final Environmental Impact Statement (FEIS) on the Appalachian Power Company's (APCo) proposal to cross the Blue Ridge Parkway with a 765-kV electric transmission line. The FEIS discusses alternatives on which a final decision is required before a right-of-way permit to cross the Blue Ridge Parkway with the transmission line is granted or denied.

The four alternatives considered are: (A) granting a permit for crossing the parkway at milepost 159.9 which is the proposal of APCo and the preferred alternative of the National Park Service, (B) granting a permit for crossing at milepost 187.3, (C) granting a permit for crossing at milepost 164.1, and (D) no action.

A limited number of copies are available upon request to:

Superintendent, Blue Ridge Parkway, 700 Northwestern Bank Builing, Asheville, North Carolina 28801, Telephone: (704) 258-2850; FTS: 672-2850

Regional Director, Southeast Region, National Park Service, 75 Spring Street, SW, Atlanta, Georgia 30303, Telephone: (404) 221-5835; FTS: 242-5835

Public reading copies will be available for review at the following locations as well as the above two locations:

Office of Public Affairs, National Park Service, U.S. Department of the Interior, 18th and C Streets, NW, Washington, D.C. 20240; Telephone: (202) 343-6843

North District Office, Blue Ridge Parkway, Richard H. Poff Federal Building, 210 Franklin Road, SW, Roanoke, Virginia 24008, Telephone: (703) 982-6213; FTS: 672-0264

Dated: May 28, 1981.

Neal C. Guse, Jr.,

Acting Regional Director, Southeast Region

BILLING CODE 4310-70-M

Yellowstone National Park, Wyo.; Notice of Intention To Negotiate Concession Contract

Pursuant to the provisions of Section 5 of the Act of October 9, 1965 (79 Stat. 969; 16 U.S.C. 20), public notice is hereby given that on or before August 31, 1981, the Department of the Interior, through the Regional Director, Rocky Mountain Region, National Park Service, proposes to negotiate a concession contract with a qualified concessioner to provide lodging, food and merchandise facilities and services for the public at Yellowstone National Park, Wyoming, for a period of five (5) years from November 1, 1981, through October 31, 1986.

An assessment of the environmental impact of this proposed action has been made and it has been determined that it will not significantly affect the quality of the environment, and that it is not a major Federal action having a significant impact on the environment under the National Environmental Policy Act of 1969. The environmental assessment and finding of no significant impact may be reviewed at the following location: National Park Service, Rocky Mountain Regional Office, Concessions Management Division, 655 Parfet Street, Denver, Colorado 80225.

These concession facilities are currently being operated under a two-year interim contract with TWA Services, Inc., which expires by limitation of time on October 31, 1981. This interim contract does not provide for any preferential right to a new contract.

The Secretary will consider and evaluate all proposals received as a result of this notice. Any proposal, including that of the existing concessioner, must be postmarked or hand delivered on or before August 31, 1981.

Interested parties should contact the Regional Director, Rocky Mountain Region, 655 Parfet Street, Denver, Colorado 80225, for information as to the requirements of the proposed contract.

Dated: May 8, 1981.

Lorraine Mintzmyer,

Regional Director, Rocky Mountain Region.

BILLING CODE 4310-70-M

INTERSTATE COMMERCE COMMISSION

[Vol. No. OPY-2-099]

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following operating rights applications, filed on or after July 3, 1980, are filed in connection with pending finance applications under 49 U.S.C. 10926, 11343 or 11344. The applications are governed by Special Rule 252 of the Commission's General Rules of Practice (49 CFR 1100.252).

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. Persons submitting protests to applications filed in connection with pending finance applications are requested to indicate across the front page of all documents and letters submitted that the involved proceeding is directly related to a finance application and the finance docket number should be provided. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the request for authority are not allowed. However, the Commission may have modified the application to conform to the Commission's policy of simplifying grants of operating authority.

Findings: With the exceptions of those applications involving duly noted problems (e.g., unresolved common control, unresolved fitness questions, and jurisdictional problems) we find, preliminarily, that each applicant has demonstrated that its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able properly to perform the service proposed and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where specifically noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests in the form of verified statements as to the finance application *or* to the following operating rights applications directly related thereto filed within 45 days of publication of this decision-notice (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (except where the application involves duly noted problems) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specifed in the notice by effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

Dated: June 8, 1981.

By the Commission, Review Board Number 1, Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

MC 154713, filed May 12, 1981. Applicant: DUMONT TRUCKING, INC., P.O. Box 2591, Anniston, AL 36202. Representative: James M. Burtch, 100 E. Broad St., Columbus, OH 43215. Transporting (1) *metal products*, (2) *ores and minerals*, (3) *lumber and wood products*, (4) *chemicals and related products*, (5) *rubber and plastic products*, (6) *clay, concrete, glass or stone products*, (7) *machinery*, (8) *building materials*, and (9) *those commodities which, because of size or weight, require the use of special handling or equipment*, between points in the U.S. in and east of ND, SD, NE, CO, OK, and TX, on the one hand, and, on the other, points in the U.S.

Note.—This application is directly related to MC-F-14632 Darrell D. Detty-Control-Dumont Trucking, Inc., pursuant to Ex Parte

No. 55 (Sub-No. 46), published in this same Federal Register issue.

[FR Doc. 81-17613 Filed 6-12-81; 8:45 am]

BILLING CODE 7035-01-M

[Vol. No. OPY-2-100]

Motor Carrier Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 I.C.C. 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the Federal Register. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: June 8, 1981.

By the Commission, Review Board Number 1. Members Parker, Chandler, and Fortier.

Agatha L. Mergenovich,

Secretary.

MC F-14632, filed May 12, 1981. DARREL D. DETTY (Individual) P.O. Box 256, Oak Hill, OH, 45656—Continuance in Control—DUMONT TRUCKING, INC., P.O. Box 2591, Anniston, AL 36202. Representative: James M. Burtch, 100 E. Broad St., Columbus, OH 43215. Mr. Detty seeks authority to continue in control of Dumont upon the institution by Dumont of operations, in interstate or foreign commerce, as a motor common carrier. Mr. Detty is a non-carrier who also controls Grant Trucking, Inc., a motor common carrier, Docket Number MC-13134 and subs thereto, which authorizes the transportation of general and specified commodities, over irregular routes, in all states except AK and HI. Impediment: The operating rights of Grant Trucking, Inc., duplicates to a certain extent the authority sought by Dumont Trucking, Inc. in MC-154713. Approval and authorization of this transaction is, therefore conditioned upon applicant (a) setting forth all duplications and a plan for the elimination of such duplications, or (b) submitting an affadavit setting forth cogent and acceptable reasons why duplicate operating rights under common control should be permitted to continue. See 49 CFR 1134.51.

Note.—Dumont has filed as a directly related application its initial common carrier application. That application docketed MC-154713, is published in this same Federal Register issue.

BILLING CODE 7035-01-M

Motor Carrier; Temporary Authority Application

Important Notices

The following are notices of filing of applications for temporary authority under Section 10928 of the Interstate Commerce Act and in accordance with the provisions of 49 CFR 1131.3. These rules provides that an original and two (2) copies of protests to an application may be filed with the Regional Office named in the Federal Register publication no later than the 15th calendar day after the date the notice of the filing of the application is published in the Federal Register. One copy of the protest must be served on the applicant, or its authorized representative, if any, and the protestant must certify that such service as been made. The protest must identify the operating authority upon which it is predicated, specifying the "MC" docket and "Sub" number and quoting the particular portion of authority upon which it relies. Also, the protestant shall specify the service it can and will provide and the amount and type of equipment it will make available for use in connection with the service contemplated by the TA application. The weight accorded a protest shall be governed by the completeness and pertinence of the protestant's information.

Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

A copy of the applications is on file, and can be examined at the ICC Regional Office to which protests are to be transmitted.

Note.—All applications seek authority to operate as a common carrier over irregular routes except as otherwise noted.

BILLING CODE 7035–01–M

Motor Carriers: Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any condition set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

MC–FC–78982. By the decision of May 15, 1981 issued under 49 U.S.C. 10926 and the transfer rules of 49 CFR 1132, Review Board Number 3 approved the transfer to Marathon Bus Line, Inc. of Certificate No. MC–140797 issued January 7, 1976 to Blue & Grey Transit, Inc. authorizing the regular-route transportation of passengers and their baggage, in the same vehicle with passengers between New York, NY, and Green Haven, NY, serving intermediate points of Yonkers, White Plains and Stormville, NY over described regular-routes subject to the following conditions: no incidental charter operations. Applicant's representative is: John R. Sims, Jr., 915 Pennsylvania Bldg., 425 13th Street, NW., Washington, DC 20004.

MC–FC–79113. By decision of May 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules of 49 CFR 1132, Review Board Number 3 approved the transfer to W. R. Hurst, Inc., of Blanding, UT, of Certificate No. MC–112079 (Sub-No. 1), issued July 30, 1973, to Sam Crain, doing business as Sam Crain Trucking, of Dove Creek, CO, authorizing the transportation of *uranium and vanaduim ores*, in bulk, from points in San Juan County, UT, to Naturita, Durango and Uravan, CO, and Thompson, UT. Applicant's representative: Grant A. Hurst, 463 11th Avenue, Salt Lake City, UT 84130.

Note.—Transferee holds authority to operate as a motor common carrier under MC–145187 (Sub-No. 1). Application for TA has not been filed.

MC–FC–79130. By the decision of May 15, 1981 issued under 49 U.S.C. 10926 and the transfer rules of 49 CFR 1132, Review Board Number 3 approved the transfer to Alfred Swinford, d/b/a/ Swinford Trucking Co., of Paducah, KY, of Permit No. MC–145438 and Sub-No. 1F issued to ABC Truck Co., a Corporation, of Marlette, MI, authorizing: Such Commodities as are dealt in and used by producers and distributors of alcoholic beverages (except commodities in bulk, in tank vehicles), between the facilities of Heublein, Inc., at or near Paducah, KY, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under continuing contract(s) with Heublein, Inc., of Hartford, CT. Such commodities as are dealt in or used by producers and distributors of alcoholic beverages (except commodities in bulk in tank vehicles) between the facilities of Hueblein, Inc., at or near (1) Hartford, CT, and (2) Detroit, MI, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under continuing contracts with Heublein, Inc., of Hartford, CT. Applicant's representative: Martin J. Leavitt, P.O. Box 400, Northville, MI 48167. TA lease is sought. Transferee is a carrier.

MC–FC–79158. By decision of May 19, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR Part 1132, Review Board Number 3 approved the transfer to West Brothers Transfer & Storage, Hauling & Storage Division, Inc. of Raleigh, NC, of Certificate of Registration No. MC–99044 (Sub-No. 1) issued May 25, 1964 to West Brothers and Storage, Inc., evidencing a right to engage in transportation in interstate commerce corresponding in scope to Common Carrier Certificate No. C–275 dated May 7, 1953 and incorporated in Certificate No. CP–16, dated August 19, 1960, issued by the North Carolina Utilities Commission authorizing the transportation of (1) *general commodities*, except those requiring special equipment and except unmanufactured leaf tobacco, between points and places within a radius of 150 miles of Raleigh, NC; (2) household goods and family moving to points and places within a radius of 150 miles of Raleigh; and (3) retail store delivery service including delivery of merchandise from retail stores to their customers within a 50 mile radius of Raleigh, NC, and the return or exchange of said merchandise, subject to the following condition: Applicant must submit a statement in writing confirming the date of consummation of the intrastate transaction which was approved by the North Carolina Utilities Commission. Applicant's representative is: Herbert Alan Dubin, 818 Connecticut Ave., NW., Washington, DC 20006.

Note.—Transferee is a non-carrier. TA has not been filed.

MC–FC–79159. By decision of May 18, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to Allen Mitchek of Certificate No. MC–127175 (Sub-No. 3) issued March 8, 1968, to Remo Transports, Inc., authorizing the transportation of dry potash compounds and boron compounds, from points in Eddy and Lea Counties, NM, to points in Kansas, Missouri, and Oklahoma, and of Certificate No. MC–127175 (Sub-No. 5), issued November 20, 1970, to Remo Transports, Inc., authorizing the transportation of boron compounds and potash, from points in Eddy and Lea Counties, NM, to points in Arkansas, Colorado, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wisconsin. Applicant's representative is: Charles J. Kimball, 350 Capitol Life Center, 1600 Sherman Street, Denver, CO 80203.

Notes.—(1) Authority has been granted permitting Mr. Mitchek to temporary lease these rights, pending disposition of the transfer proposed.

(2) By the same application Mr. Mitchek who operates under his Docket No. MC–139483 series certificate and who is president and a stockholder of Remo, seeks Commission approval of his common control of Jetwal, Inc., which operates under the Docket No. MC–148846 series certificate. Such requests are properly made in an application for number OP–F–45, rather than an OP–FC–1. Further such approval is unnecessary where, as here, the aggregate gross operating revenues of these carriers did not exceed $2,000,000 for the prior calendar year.

MC–79168. By decision of May 20, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to H & L Wells, Ltd., of Reno, NV, of Certificate No. MC–43269 and all subs thereunder issued to Wells Cargo, Inc., of Reno, NV, authorizing: general and specified commodities, over regular and irregular routes, from and to named points in the United States. Applicant's representative: Howard A. Wells, P.O. Box 1511, Reno, NV 89505. TA lease is not sought. Transferee is not a carrier.

MC–FC–79169. By decision of May 19, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Crooks Warehouses of Kansas City, Inc. of Permit No. MC–146249 (Sub-No. 2F) issued April 21, 1980, to Bill's Transfer, Inc., authorizing the transportation of (1) paper and paper products and (2) such commodities as are used in the manufacture of paper and paper products (except commodities in bulk), between Kansas City, KS, on the one hand, and, on the other, points in Arkansas, Illinois, Iowa, Missouri, Nebraska, and Oklahoma, under continuing contract(s) with Packing Corporation of America. Applicants' representative: Clyde N. Christey, Kansas Credit Union Bldg., 1010 Tyler, Suite 110–L, Topeka, KS 66612.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035–01–M

Motor Carriers; Finance Applications; Decision-Notice

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find:

Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If the petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

MC–FC–79022. By decision issued May 22, 1981 under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to BILLIE RAY MYERS d/b/a MYERS TRUCK LINE of Farmington, MO of Permit No. MC–125685 (Sub-No. 1) issued May 8, 1964 to BYRON GENE SMITH d/b/a B. GENE SMITH TRUCKING of Flat River, MO authorizing the transportation by irregular routes, of *groceries* and *such other commodities* usually sold in grocery stores, from Esther, MO, to points in Randolph, Perry, Franklin, Jackson, Williamson, Saline, Gallatin, Johnson, Union, Alexander, and Pulaski Counties, IL, restricted to transportation service performed under a continuing contract(s) or with Mineral Area Grocers Corporation of Esther, MO. Applicant's representative is Eric C. Harris, P.O. Box 246, Flat River, MO 63601.

Note.—The application also contemplates transfer of permit No. MC–125685 (Sub-No. 2); however, the parties did not furnish a copy of that permit nor is there any record of its existence.

MC–FC–79133. By decision of May 22, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to STOVER LINES, INC. of 5636 N.W. 17th St., Topeka, KS 66618 of Certificate No. MC–126489 and Sub-No. 2 thereunder issued to GASTON FEED TRANSPORTS, INC. of P.O. Box 1066, Hutchinson, KS 67501 authorizing: Irregular routes: *Bone meal*, from St. Joseph, MO, and Omaha, NE to points in Oklahoma and Texas, and that part of New Mexico lying on and east of U.S. Highway 85, with no transportation for compensation on return except as otherwise authorized: *Feed and feed ingredients*, from points in Texas, to points in Oklahoma and Kansas (except from Sherman, TX, to points in Oklahoma, except salt and salt products, and except cottonseed products to points in Kansas), with no transportation for compensation on return except as otherwise authorized; *Soybean meal*, from Fredonia, KS, to points in Nebraska and Missouri, with no transportation for compensation on return except as otherwise authorized; from points in Missouri to Hutchinson, KS, with no transportation for compensation on return except as otherwise authorized; *Wheat shorts, wheat bran*, and *wheat mill run*, from points in Kansas, to points in Nebraska, Missouri, Oklahoma, and Texas, and that part of Colorado lying on and east of U.S. Highway 87, with no transportation for compensation on return except as otherwise authorized; *Dehydrated alfalfa*, from Maize, Larned, and Rozel, KS, to points in Oklahoma on return except as otherwise authorized. Irregular routes: *Dry feed* and *dry feed ingredients* (except salt and urea), from Carthage, MO, to points in Arkansas, Colorado, Kansas, Oklahoma, and Texas, with no transportation for compensation on return except as otherwise authorized; from Kansas City, McPherson, and Wichita, KS, to points in Arkansas, Colorado, Oklahoma, and Texas, with no transportation for compensation on return except as otherwise authorized; *liquid feed ingredients*, from Houston, TX, to points in Arkansas, Colorado, Kansas, and Oklahoma, with no transportation for compensation on return except as otherwise authorized. Applicant's representative is: Clyde N. Christey, 1010 Tyler, Suite 110–L, Topeka, KS 66612. TA lease is sought. Transferee is a carrier.

MC–FC–79136. By decision of May 22, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to SHORTYS HEAVY DUTY WRECKER SERVICE, INC. of 4656 2 & 1 Half St. N.E., Fridely, MN 55421 of Certificate No. MC–109741 issued to SHORTYS TOWING & TRANSPORTATION SERVICE, INC. of 4656 2 & 1 Half St., N.E., Fridley, MN 55421 authorizing: Irregular routes: *Wrecked or disabled motor vehicles, and tractors* for replacement or wrecked or disabled tractors, in truckaway service, between points in Illinois, Iowa, Minnesota, North Dakota, South Dakota, and Wisconsin. Applicant's representative: Courtny Roger Schuur, 4656 2 & 1 Half St., N.E., Fridley, MN 55421. TA lease is not sought. Transferee is not a carrier.

MC–FC–79149. By decision of May 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Pioneer Freight Systems, Inc., of Whippany, NJ, Certificate No. MC–63178 and Sub-No. 1 issued to Kitchell Express, Inc., of Whippany, NJ, authorizing: general and specified commodities, over regular routes, from and to rawed points in New Jersey, New York, Delaware, and Connecticut. Applicant's representative: Charles E. Creager, P.O. Box 1417, Hagerstown, MD 21740.

MC–FC–79150. By decision of May 20, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Ark City Express, Inc. of a portion of Certificate No. MC–57393 (Sub-No. 7) issued March 19, 1981 to Winters Truck Line, Inc. authorizing the transportation of *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Wichita, KS, and Caldwell KS, over U.S. Highway 81, serving all intermediate points: Between South Haven, KS, and Hunnewell, KS, over U.S. Highway 177, serving all intermediate points; from South Haven, KS, to junction Kansas Turnpike (Interstate Highway 35) and U.S. Highway 81, serving all intermediate points; from South Haven, KS east 5 miles over U.S. Highway 166 to junction unnumbered county highway, thence north 1.5 miles to Portland, KS, thence return over unnumbered county Highway to junction U.S. Highway 166, thence east 4 miles over U.S. Highway 166, thence north 2 miles to Ashton, KS, thence return over unnumbered county highways to U.S. Highway 166, thence east 5 miles over junction U.S. Highway 166 to junction unnumbered county highway, thence return over unnumbered county highway to Geuda Springs, KS, thence return over unnumbered county highway junction U.S. Highway 166, thence west over U.S. Highway 66 to junction Kansas Turnpike (Interstate Highway 35) and U.S. Highway 81; between Ashton, KS, and junction U.S. Highway 160 and Kansas Turnpike (Interstate Highway 35) or U.S. Highway 81, as an alternate route for operating convenience only in

connection with carriers regular route operations, serving no intermediate points: From Ashton north 1.5 miles on unnumbered county highway, thence east 5 miles on unnumbered county highway to Geuda Springs, KS, thence .5 miles over unnumbered county highway, thence north 11 miles over unnumbered highway to Oxford, KS, and thence west over U.S. Highway 160 to junction Kansas Turnpike (Interstate Highway 35) or U.S. Highway 81; between Wellington, KS, and junction unnumbered county highway and U.S. Highway 81, serving all intermediate points: from Wellington south 6 miles over U.S. Highway 81, thence west 6 miles over unnumbered county highway to Perth, KS, thence west 2 miles and south 3 miles over unnumbered county highways to Corbin, KS, thence east 1 mile and south 6.5 miles over unnumbered county highway to junction U.S. Highway 81; between Wellington, KS, and Caldwell, KS, as an alternate route for operating convenience only in connection with carriers regular route operations, serving no intermediate points; from Wellington over U.S. Highway 160 to junction Kansas Highway 49, and thence over Kansas Highway 49 to Caldwell between Caldwell, KS, and Wichita, KS, serving all intermediate points including the Wellington Service Area on Interstate Highway 35 (Kansas Turnpike; from Caldwell over U.S. Highway 81 to South Haven, KS, thence over U.S. Highway 166 to junction Interstate Highway 35 (Kansas Turnpike), thence over Interstate Highway 35 to Wichita, and return over the same route.

MC–FC–79151. By decision of May 18, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 U.S.C. 1132, Review Board Number 3 approved the transfer to Dente Bros. Towing, Inc. of 1977 to Matty's Gulf & Towing Service, Inc. also of Newark, *Disabled vehicles*, in driveaway service, or in truckaway service using wrecker vehicles, between points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, West Virginia, and the District of Columbia restricted against service from or to points in Cuyahoga, Summit, Medina, and Portage Counties, OH. Applicant's representative is: George A. Olsen, P.O. Box 357, Gladestone, NJ 07934.

MC–FC–79152. By decision of May 15, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to James R. Smith, doing business as Fikes Truck Line, of Certificate No. MC–109583 (Sub-Nos. 4 and 5) issued March 7, 1978 and January 3, 1978 to H. J. Fikes, doing business as Fikes Truck Line authorizing the transportation of (Sub-No. 4) *Roofing, roofing supplies, and roofing materials* (except commodities in bulk), from the facilities of the Roofing Division of the Masonite Corporation, in Palaski County, AR, to points in Alabama, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, and Tennessee (except points in the Memphis, TN, Commercial Zone); and (Sub-No. 5) *Lumber*, between points in Arkansas. Applicant's representative: Horace Fikes, Jr., P.O. Box 5632, Pine Bluff, AR 71611, (501) 536–8378.

MC 79153. By decision of May 15, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Donald R. Hagy, of Beaver Falls, PA, Certificate of Registration No. MC–120335 (Sub-No. 1) issued February 2, 1965, to Gertrude Irene Hazlett, of Beaver Falls, PA, authorizing the transportation of (1) articles not exceeding 100 pounds in weight, except for automobile tires not exceeding 200 pounds, between Beaver Falls, Beaver, New Brighton, Rochester, Monaca, West Bridgewater, and Fallston (Beaver County), PA, on the one hand, and, on the other, Pittsburgh (Allegheny County), PA, and (2) general commodities between Pittsburgh (Allegheny County), PA, on the one hand, and, on the other, Darlington, New Galilee, West Darlington, Cannelton, and Black Hawk (Beaver County), PA, and Bessemer, Enon Valley, Edinburg, Hillsville, and New Bedford (Lawrence County), PA, subject to the following conditions: Restricted against the transportation of (1) household goods and used office furniture between points in Allegheny County, PA, except as presently authorized, (2) petroleum products, in bulk in tank vehicles, and (3) commodities the transportation of which requires the use of special equipment. Applicant's representative is: Thomas M. Mulroy, Esq., Pillar and Mulroy, 1500 Bank Tower, 307 Fourth Avenue, Pittsburgh, PA 15222.

MC–FC–79163. By decision of May 22, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Arizona Transportation, Inc., of Certificate No. MC–1483197 (Sub-No. 3) and Permit No. MC–147170 and MC–147170 (Sub-Nos. 1 and 3)F, issued, respectively on November 6, 1980, July 15, 1980, August 18, 1980, and August 18, 1980, to Kenneth Ducher, d/b/a K & L Truck Service, authorizing the transportation of (A)(1) adhesives, boiler cleansing compounds, crude petroleum treating compounds, cleaning compounds, organic compounds, inedible fatty alcohols, testile softening compound, paint additives, synthetic plastic erosol resins, leather finishing materials, and fireproofing flame retardant compounds (except commodities in bulk) from the facilities of Henkel Corporation (a) at Hoboken, NJ and (b) Hawthorne, CA, to points in the United States (except Alaska and Hawaii); and (2) materials, equipment and supplies used in the manufacture and distribution of the commodities in (1) above (except commodities in bulk and those requiring special equipment) from points in the United States (except Alaska and Hawaii) to the facilities of Henkel Corporation at (a) Hoboken, NJ, and (b) Hawthorne, CA, (B) plastic materials (except commodities in bulk) from points in Texas to points in California, under continuing contract(s) with Bolcof Plastics, Inc., of Azusa, CA, (C) insecticides, fasteners, tape, ties, fertilizer carts, grass catchers, pruning shears, wooden plant stakes, sprayers and steel shelving, from the facilities of Dexol Industries, at Torrance, CA, to the facilities of Dexol Industries at Dallas, TX, and points in Arizona, Colorado, Idaho, Iowa, Kansas, Montana, Nebraska, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming, under contining contract(s) with Dexol Industries, of Torrance, CA, and (D) clothing from the facilities of Petrie Stores Corporation at Dallas, TX, to Los Angeles, Oakland, and San Francisco, CA, under continuing contract(s) with Petrie Stores, of Secaucus, NJ. Applicant's representative: Milton W. Flack, 8383 Wilshire Blvd., Suite 900, Beverly Hills, CA 90211.

MC–FC–79172. By decision of May 20, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3, approved the transfer to Ned Bard & Son Co., of Leola, PA, to Certificate Nos. MC–20723 and MC–20723 (Sub-No. 4 and 5), issued to Ned E. Bard, and Individual, of Leola, PA, authorizing the transportation of MC–20723—*Lumber*, (a) from Philadelphia, PA, Baltimore, MD and Camden, NJ, to points in Lancaster County, PA, and (b) from Wilmington, DE, to Leola, Witmer and Ronks, PA; *fertilizer, from Baltimore, MD, to points in Lancaster County, PA; Ground oyster shells, dairy feed* and *such materials* as are used in the manufacture of dairy feed, from Baltimore, MD to Leola,

Witmer, Ronks, New Holland and Hinkletown, PA: (Sub-4) (1) *metal and metal products and machinery and machinery parts,* and (2) *equipment, materials and supplies* used in the manufacture, distribution and installation of the commodities in (1) above (except commodities in bulk, in dump vehicles), between points in Lancaster and Chester Counties, PA, on the one hand, and, on the other, points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Delaware, Ohio, West Virginia, Virginia, Indiana, Illinois, Michigan, Iowa, Wisconsin, Kentucky, Tennessee, North Carolina, South Carolina, Georgia, Flordia, Mississippi and Alabama, restricted to traffic originating at the indicated origins or destined to the indicated destinations; and (Sub-5) *General Commodities* (except used household goods, hazardous or secret materials, and sensitive weapons and munitions), for the United States Government, between points in the United States. Applicant's Representative: J. Bruce Walter, 410 North Third Street, P.O. Box 1146, Harrisburg, PA 17108.

Note.—TA application has been decided. Transferee is a non-carrier.

Agatha L. Mergenovich,

Secretary.

BILLING CODE 7035-01-M

Motor Carriers, Permanent Authority Decisions; Decision-Notice

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involvng duly noted problems (e.g., unresolved common control, fitness, water carrier dual operaitons, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitile IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservaton Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication, (or, if the application later becomes unopposed) appropriate authorizing documents will be issued to applicants with regulated operatons (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applicatons involvng new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 2, Members Carleton, Fisher, and Williams.

Agatha L. Mergenovich,

Secretary.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Volume No. OPY-3-091

Decided: June 8, 1981.

MC 2245 (Sub-17), filed May 29, 1981. Applicant: THE O. K. TRUCKING COMPANY, A Corporation, 3000 E. Crescentville Rd., Cincinnati, OH 45241. Representative: Robert H. Kinker, 314 West Main St., P.O Box 464, Frankfort, KY 40602, (502) 223-8244. Over regular routes, transporting *general commodities* (except classes A and B explosives), (1) Between Chicago, IL and Valdosta, GA: From Chicago over U.S. Hwy 41 to Nashville, TN, then over Interstate Hwy 24 to Chattanooga, TN, then over Interstate Hwy 75 to Valdosta, and return over the same route; (2) Between Louisville, KY and Savannah, GA: From Louisville over Interstate Hwy 65 to Montgomery, AL, then over U.S. Hwy 231 to Dothan, AL, then over U.S. Hwy 84 to Brunswick, GA, then over Interstate Hwy 95 to junction Interstate Hwy 16, then over Interstate Hwy 16 to Savannah, and return over the same route; (3) Between Lexington, KY and Vicksburg, MS: From Lexington over Interstate Hwy 75 to Chattanooga, TN, then over Interstate Hwy 24 to junction Interstate Hwy 59, then over Interstate Hwy 59 to Birmingham, AL, then over Interstate Hwy 20 to Vicksburg, and return over the same route; (4) Between Cleveland, OH and Mobile, AL: From Cleveland over Interstate Hwy 77 to Charlotte, NC, then over Interstate Hwy 85 to Montgomery, AL, then over Interstate Hwy 65 to Mobile, and return over the same route; (5) Between St. Louis, MO and Mobile, AL: From St. Louis over Interstate Hwy 55 to Jackson, MS, then over U.S. Hwy 49 to Gulfport, MS, then over Interstate Hwy 10 to Mobile, and return over the same route; (6) Between St. Louis, MO and Joplin, MO, over Interstate Hwy 44; (7) Between St. Louis, MO and Little Rock, AR, over U.S. Hwy 67; (8) Between St. Louis, MO and Louisville, KY, over Interstate Hwy 64; (9) Between Champaign, IL and junction Interstate Hwys 55 and 57 at or near Sikeston, MO, over Interstate Hwy 57; (10) between Versailles, KY and junction U.S. Hwy 62 and Interstate Hwy 55 at or near Sikeston, MO, over U.S. Hwy 62; (11) Between Memphis, TN and Arlington, VA: From Memphis over Interstate Hwy 40 to junction Interstate Hwy 81, then over Interstate Hwy 81 to junction U.S. Hwy 50, then over U.S. Hwy 50 to Arlington, and return over the same route; (12) Between Arlington, VA and Macon, GA: From Arlington over Interstate Hwy 395 to junction Interstate Hwy 95, then over Interstate Hwy 95 to junction Interstate Hwy 16, then over Interstate Hwy 16 to Macon, and return over the same route; (13) Between Charleston, WV and Norfolk, VA over (a) U.S. Hwy 60, and (b) Interstate Hwy 64; (14) Between Memphis, TN and Chattanooga, TN, over U.S. Hwy 72; (15) Between Knoxville, TN and Charleston, SC: From Knoxville over Interstate Hwy 40 to Asheville, NC, then over Interstate Hwy 26 to Charleston, and return over the same route; (16) between Asheville, NC and junction U.S. Hwy 64 and

Interstate Hwy 95 near Rocky Mount, NC: From Asheville over Interstate Hwy 40 to Raleigh, NC, then over U.S. Hwy 64 to junction Interstate Hwy 95, and return over the same route; (17) Between Texarkana, AR and junction Interstate Hwys 20 and 95: From Texarkana over Interstate Hwy 30 to Little Rock, AR, then over Interstate Hwy 40 to Memphis, TN, then over U.S. Hwy 78 to Birmingham, AL, then over Interstate Hwy 20 to junction Interstate Hwy 95, and return over the same route; (18) between Peoria, IL and Kansas City, MO: From Peoria over U.S. Hwy 24 to junction U.S. Hwy 36, then over U.S. Hwy 36 to St. Joseph, MO, then over Interstate Hwy 29 to Kansas City, and return over the same route; (19) Between Kansas City, MO and Montgomery, AL: From Kansas City over U.S. Hwy 71 to Texarkana, AR, then over U.S. Hwy 82 to Montgomery, and return over the same route; (20) Between Macon, MO and Little Rock, AR: From Macon over U.S. Hwy 63 to Jefferson City, MO, then over U.S. Hwy 54 to junction U.S. Hwy 65, then over U.S. Hwy 65 to Little Rock, and return over the same route; (21) Between Fort Smith, AR and Vicksburg, MS: From Fort Smith over Interstate Hwy 40 to Little Rock, then over U.S. Hwy 65 to junction U.S. Hwy 82, then over U.S. Hwy 82 to junction U.S. Hwy 61, then over U.S. Hwy 61 to Vicksburg, and return over the same route; (22) Between Nashville, TN and junction Interstate Hwys 24 and 57 near Pulleys Mills, IL, over Interstate Hwy 24; (23) Between Kingdom City, MO and Jefferson City, MO, over U.S. Hwy 54; (24) serving in (1) through (23) all points in AL, AR, GA, KY, MO, MS, NC, SC, TN and VA as off route points.

Note.—Applicant intends to tack this authority with its existing authority.

MC 3104 (Sub-7), filed May 29, 1981. Applicant: Z & M MOTOR LINE, INC., P.O. Box 2345, Cumberland, MD 21502. Representative: Dixie C. Newhouse, 1329 Pennsylvania Ave., P.O. Box 1417, Hagerstown, MD 21740, (301) 797–6060. [FR Doc. 81–17734 Filed 6–12–81; 8:45 am]
BILLING CODE 7035–01–M

[Volume No. OPY–5–80]

Motor Carriers; Permanent Authority Decisions; Decision-Notice

Decided: June 5, 1981.

The following applications, filed on or after February 9, 1981, are governed by Special Rule of the Commission's Rules of Practice, see 49 CFR 1100.251. Special Rule 251 was published in the **Federal Register** of December 31, 1980, at 45 FR 86771. For compliance procedures, refer to the **Federal Register** issue of December 3, 1980, at 45 FR 80109.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.252. A copy of any application, including all supporting evidence, can be obtained from applicant's representative upon request and payment to applicant's representative of $10.00.

Amendments to the request for authority are not allowed. Some of the applications may have been modified prior to pulbication to conform to the Commission's policy of simplifying grants of operating authority.

Findings

With the exception of those applications involving duly noted problems (e.g., unresolved common control, fitness, water carrier dual operations, or jurisdictional questions) we find, preliminarily, that each applicant has demonstrated its proposed service warrants a grant of the application under the governing section of the Interstate Commerce Act. Each applicant is fit, willing, and able to perform the service proposed, and to conform to the requirements of Title 49, Subtitle IV, United States Code, and the Commission's regulations. Except where noted, this decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

To the extent that any of the authority granted may duplicate an applicant's other authority, the duplication shall be construed as conferring only a single operating right.

By the Commission, Review Board No. 3, Members Krock, Joyce, and Dowell.

Note.—All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract".

Agatha L. Mergenovich,
Secretary.

MC 10169 (Sub-7), filed May 15, 1981. Applicant: HATCHER TRUCKING COMPANY, INCORPORATED, 1515 11th St., NE., Roanoke, VA 24012. Representative: Nancy Pyeatt, 815 15th St. NW., Washington, DC 20005, (202) 347–4332. Transporting *general commodities* (except classes A and B explosives), between points in Guilford and Mecklenburg Counties, NC, on the one hand, and, on the other, points in Amherst, Carroll, Grayson, Montgomery, Pulaski, Smyth, Washington, and Wythe Counties, VA.

BILLING CODE 7035-01-M

Motor Carriers; Decision-Notice; Finance Applications

The following applications, filed on or after July 3, 1980, seek approval to consolidate, purchase, merge, lease operating rights and properties, or acquire control of motor carriers pursuant to 49 U.S.C. 11343 or 11344. Also, applications directly related to these motor finance applications (such as conversions, gateway eliminations, and securities issuances) may be involved.

The applications are governed by Special Rule 240 of the Commission's Rules of Practice (49 CFR 1100.240). See Ex Parte 55 (Sub-No. 44), *Rules Governing Applications Filed By Motor Carriers Under 49 U.S.C. 11344 and 11349*, 363 ICC 740 (1981). These rules provide among other things, that opposition to the granting of an application must be filed with the Commission in the form of verified statements within 45 days after the date of notice of filing of the application is published in the **Federal Register**. Failure seasonably to oppose will be construed as a waiver of opposition and participation in the proceeding. If the protest includes a request for oral hearing, the request shall meet the requirements of Rule 242 of the special rules and shall include the certification required.

Persons wishing to oppose an application must follow the rules under 49 CFR 1100.241. A copy of any application, together with applicant's supporting evidence, can be obtained from any applicant upon request and payment to applicant of $10.00, in accordance with 49 CFR 1100.241(d).

Amendments to the request for authority will not be accepted after the date of this publication. However, the Commission may modify the operating authority involved in the application to conform to the Commission's policy of simplifying grants of operating authority.

We find, with the exception of those applications involving impediments (e.g., jurisdictional problems, unresolved fitness questions, questions involving possible unlawful control, or improper divisions of operating rights) that each applicant has demonstrated, in accordance with the applicable provisions of 49 U.S.C. 11301, 11302, 11343, 11344, and 11349, and with the Commission's rules and regulations, that the proposed transaction should be authorized as stated below. Except where specifically noted this decision is neither a major Federal action significantly affecting the quality of the human environment nor does it appear to qualify as a major regulatory action under the Energy Policy and Conservation Act of 1975.

In the absence of legally sufficient protests as to the finance application *or* to any application directly related thereto filed within 45 days of publication (or, if the application later becomes unopposed), appropriate authority will be issued to each applicant (unless the application involves impediments) upon compliance with certain requirements which will be set forth in a notification of effectiveness of this decision-notice. To the extent that the authority sought below may duplicate an applicant's existing authority, the duplication shall not be construed as conferring more than a single operating right.

Applicant(s) must comply with all conditions set forth in the grant or grants of authority within the time period specified in the notice of effectiveness of this decision-notice, or the application of a non-complying applicant shall stand denied.

Dated: June 8, 1981.

By the Commission, Krock, Joyce, and Dowell.

MC-F-14635, filed May 20, 1981. Applicant: WILLIAM S. GILCHRIST, JR., continuance in control of A&B DELIVERY, INC., William S. Gilchrist, Jr. is seeking authority to continue in control of A&B Delivery, Inc. upon the institution by A&B Delivery, Inc. of operations as a motor common carrier. Mr. Gilchrist is also sole stockholder of Northeast Delivery, Inc., a motor common carrier, MC-145018 and sub numbers thereunder. A&B Delivery, Inc. presently holds temporary authority from the Interstate Commerce Commission in MC-153809 Sub-No. II-1TA. A&B seeks authority to transport food and related products between points in WA, CA, TX, NV, OR, AZ, and NM, published in the **Federal Register** of February 26, 1981, with the condition that Applicant file this Application for approval of common control under 49 U.S.C. 11343. Representative: Edward F. V. Pietrowki, 3300 Birney Ave., Moosic, PA 18507. Condition: Approval herein is conditioned upon the receipt by A&B Delivery, Inc. of a certificate of public convenience and necessity from this Commission and institution of operations thereunder.

MC-F-14633, filed May 14, 1981. SEACASTLE & FORBES, INC. (SEACASTLE) (5223 So. 9th St., Milwaukee, WI 53221)—continuance in control—COLORADO & EASTERN, INC. (COLORADO) (P.O. Box 30, Delafield, WI 53018). Representative: Arnold L. Burke, Burke, Kerwin, Towle & Andrin, 180 No. La Salle St., Chicago, IL 60601. Seacastle, the sole stockholder of Colorado, seeks authority to continue in control of Colorado upon the institution by Colorado of operations in interstate or foreign commerce as a motor common carrier. Also, Melvin Nashban, who controls Seacastle through stock ownership, seeks authority to continue in control of Colorado through the transaction. Seacastle holds no authority from the Commission; however, it controls Container Transit, Inc. which operates in interstate commerce pursuant to a certificate of public convenience and necessity issued in MC-118989, authorizing transportation of specified commodities in all of the contiguous 48 states. By application published February 12, 1981, in No. MC-151927 (Sub-No. 1), Colorado seeks authority to transport (1) *pulp, paper and related products,* (2) *rubber and plastic products,* and (3) *metal products,* between points in the United States. Condition: Our approval will be conditioned upon the receipt by Colorado & Eastern, Inc., of a certificate in No. MC-151927 (Sub-No. 1) and institution of operations thereunder. Impediment: Container Transit, Inc., to the extent pertinent here, has operating authority for the transportation of various products of plastic and metal, generally in the eastern part of the United States. Since the authority sought by Colorado & Eastern, Inc., covers those two commodities throughout the entire United States, a duplication exists within the meaning of 49 CFR 1134.51. Accordingly, the parties must submit a plan and timetable for the elimination of such duplications.

MC-F-14534F, filed December 18, 1980 (supplemental publication). JOHNSON'S BUS SERVICE, INC. (JOHNSON) (704 Main Street, Joy, PA 17552)—purchase—BROWN'S BUS SERVICE, INC., d.b.a. CAN-AM TOURS (BROWN) (Coatesville, PA 19320). Representative: J. Bruce Walter, P.O. Box 1146, Harrisburg, PA 17108. Johnson seeks to purchase the interstate operating rights contained in Brown's certificate No. MC-94774 which authorizes the transportation of *passengers and their baggage,* restricted to traffic originating at the points indicated, in charter operations: From Collingswood, NJ, and points within 10 miles of Collingswood, to points in that area bounded by a line beginning at Philadelphia, PA, and extending to Reading, PA, then to

Baltimore, MD, then to Washington, DC, then to Princess Anne, MD, then to Ocean City, MD, and then along the shores of the Atlantic Ocean, Delaware Bay, and the Delaware River to point of beginning, and return, and from Philadelphia, PA, to points in NJ, and return; and *passengers and their baggage*, restricted to the transportation of passengers who are picked up or discharged at the site of the New York Ship Building Corporation's plant at Camden, NJ, and whose origin or destination is Chester, PA, in special operations: Between Chester, PA, and Camden, NJ.

Note.—(1) MC–F–14534 was originally published January 21, 1981. The purpose of this supplemental publication is to give proper notice of the lead certificate originally omitted from the original publication.

Agatha L. Mergenovich,

Secretary.

[FR Doc. 81–17726 Filed 6–12–81; 8:45 am]

BILLING CODE 7035–01–M

Motor Carriers; Decision Notice; Finance Applications

As indicated by the findings below, the Commission has approved the following applications filed under 49 U.S.C. 10924, 10926, 10931 and 10932.

We find: Each transaction is exempt from section 11343 (formerly section 5) of the Interstate Commerce Act, and complies with the appropriate transfer rules.

This decision is neither a major Federal action significantly affecting the quality of the human environment nor a major regulatory action under the Energy Policy and Conservation Act of 1975.

Petitions seeking reconsideration must be filed within 20 days from the date of this publication. Replies must be filed within 20 days after the final date for filing petitions for reconsiderations; any interested person may file and serve a reply upon the parties to the proceeding. Petitions which do not comply with the relevant transfer rules at 49 CFR 1132.4 may be rejected.

If petitions for reconsideration are not timely filed, and applicants satisfy the conditions, if any, which have been imposed, the application is granted and they will receive an effective notice. The notice will indicate that consummation of the transfer will be presumed to occur on the 20th day following service of the notice, unless either applicant has advised the Commission that the transfer will not be consummated or that an extension of time for consummation is needed. The notice will also recite the compliance requirements which must be met before the transferee may commence operations.

Applicants must comply with any conditions set forth in the following decision-notices within 30 days after publication, or within any approved extension period. Otherwise, the decision-notice shall have no further effect.

By the Commission, Review Board Number 3, Members Krock, Joyce and Dowell.

MC–FC–78765. By decision of April 16, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Metropolitan Trucking, Inc., of Portland, OR, of Certificate No. MC–145548 issued in No. MC–FC–77730, served February 2, 1979 to Albina Moving & Storage Co., of Portland, OR, authorizing the transportation of *household goods*, as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, between Portland, OR, on the one hand, and, on the other, points in Washington. Applicants' representative: Lawrence V. Smart, Jr., 419 N.W. 23rd Avenue, Portland, OR 97210. Transferee presently holds no authority from the Commission.

MC–FC–78973. By decision of May 26, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 granted applicants' petition filed May 4, 1981, and approved the transfer to Tri-Key Van Lines, Inc., of Levittown, NY, of a portion of Certificate No. MC–43161 issued to J.D. Carton & Son, Inc., of Chattam, NJ, authorizing: household goods as defined by the Commission, between points in New York, Kings, Queens, Richmond, Bronx, Nassau and Suffolk Counties, NY, on the one hand, and, on the other, points in Florida, Georgia, Illinois, Indiana, North Carolina, Ohio, and South Carolina; the first paragraph of transferor's retained authority in Certificate No. MC–43161 (Sub-No. 2) is to be modified as follows: household goods, as defined by the Commission, between points in Florida, Georgia, Illinois, Indiana, North Carolina, Ohio, and South Carolina, on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, Pennsylvania, Rhode Island, Virginia, and New York (except New York, Kings, Queens, Richmond, Bronx, Nassau and Suffolk Counties, NY). Applicant's representative: Ronald I. Shapss, 450 Seventh Ave., New York, NY 10123. TA lease is not sought. Transferee is not a carrier.

MC–FC–79004. By decision of February 20, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 5 approved the transfer to Certificate No. MC–136389 (Sub-No. 1) issued December 14, 1972 to Wright's Moving and Storage, Inc. authorizing the transportation of used household goods, between New Albany, IN, on the one hand, and, on the other, points in Brown, Bartholomew, Jackson, Jennings, Jefferson, Switzerland, Ohio, Scott, Washington, Clark, Crawford, Floyd, and Hanson Counties, IN. Applicant's representative is: Mr. Robert Worrall, Vice President, Wright's Van & Storage, Inc., 128 West Main Street, New Albany, IN 47150.

MC–FC–79075. By decision of April 9, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Canadian Pacific Express & Transfer, Ltd. of Certificate No. MC–141603 (Sub-No. 2) issued June 3, 1977 to Canadian Pacific Express, Ltd authorizing the transportation of general commodities (except commodities in bulk and classes A and B explosives), between ports of entry on the United States-Canada Boundary line near Buffalo, NY, on the one hand, and, on the other, Buffalo, NY and between ports of entry on the United States-Canada Boundary line at or near Detroit, MI, on the one hand, and, on the other Detroit, MI, and the Detroit Metropolitan Wayne county Airport restricted against the transportation of shipments weighing in the aggregate 300 punds or more from any one consignor to any one consignee on any one day, with no individual piece weighing more than 70 pounds. Applicant's Representative: Harry J. Jordan, Suite 502 Solar Building, 1000 16th Street, NW., Washington, DC 20036.

MC–FC–79076. by decision of April 9, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Canadian Pacific Express & Transfer, Ltd. of Permit No. MC–143806 (Sub-No. 1) issued February 5, 1981 to Canadian Pacific Transport Company Limited authorizing the transportation of lime, in bulk, from ports of entry on the International Boundary line between the United States and Canada in Washington and Idaho, on the one hand, and, on the other, points in Washington and Idaho under continuing contract(s) with Steel Brothers Canada, Ltd, of Calgary, Alberta, Canada. Applicants representative: Harry J. Jordan, Suite 502 Solar Building, 1000 16th Street, NW, Washington, DC 20036.

MC-FC-79131. By decision of May 6, 1981 issued under 49 U.S.C. 10926 and the transfer rules of 49 CFR 1132, Review Board Number 3 approved the transfer to Provisioners Brokerage, Inc. of Certificate No. MC-117589 and sub-numbers thereunder issued to Provisioners Frozen Express, Inc., authorizing the transportation of general and specified commodities between points in Arizona, California, Colorado, Idaho, Massachusetts, Maryland Montana, Nebraska, New Jersey, New Mexico, New York, Nevada, Oregon, Pennsylvania, South Dakota, Utah, Washington, and Wyoming.

Notes.—(1) Transferee is a non-carrier. (2) An application for temporary authority has not been filed. (3) This application was originally docketed MC-F-14618. Applicant's representative: Michael Duppenthaler, 211 S. Washington Street, Seattle, WA 98104.

MC-FC-79145. By decision of May 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to Norman Lines, Inc. of Certificate No. MC-119170 (Sub-No. 1) issued March 29, 1974, to Reefer Transit Line, Inc., an Illinois Corporation, and Certificates No. MC-133775 issued September 10, 1971, No. MC-133775 (Sub-No. 7) issued January 5, 1971, No. MC-133775 (Sub-No. 8) issued August 2, 1972, No. MC-133775 (Sub-No. 9) issued December 8, 1971, No. MC-133775 (Sub-No. 10) issued September 11, 1972, No. MC-133775 (Sub-No. 11) issued July 25, 1973, No. MC-133775 (Sub-No. 14) issued September 26, 1974, No. MC-133775 (Sub-No. 16) issued August 21, 1974, No. MC-133775 (Sub-No. 18F) issued September 8, 1980, No. MC-133775 (Sub-No. 19F) issued October 21, 1980, and No. MC-133775 (Sub-No. 21F) issued September 3, 1980, to Reefer Transit Line, Inc., a Minnesota Corporation. The operating authorities approved for transfer authorize common carrier transportation over irregular routes as follows:

Certificate No. MC-119170 (Sub-1)

Meats, meat products, meat by-products, dairy products, and *articles distributed by meat packinghouses,* as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, except liquid commodities in bulk, in tank vehicles, between the plant site of Swift & Co., at Rochelle, IL, on the one hand, and, on the other, St. Louis and Kansas City, MO, and Omaha, NE, restricted to the transportation of shipments originating at, or destined to, the plant site of Swift & Co., at Rochelle, IL. *Meats, meat products, and meat by-products,* and *articles distributed by meat packinghouses,* as described in section A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates,* 61 M.C.C. 209 and 766, except commodities in bulk, in tank vehicles, from the plant site of Wilson & Co., Inc. at Monmouth, IL, to points in Iowa, Missouri, and Nebraska, restricted to the transportation of shipments originating at the plant site of Wilson & Co., at Monmouth, IL. *Packinghouse products, packinghouse supplies, dressed poultry,* and *dairy products,* between Chicago, IL, on the one hand, and, on the other, Kansas City, KS, St. Louis and Kansas City, MO, East St. Louis, IL, and points in Iowa except those on and south of Interstate Highway 80 and on and west of U.S. Highway 71.

Certificate No. MC-133775

Petroleum products in containers, from Bradford and Rouseville, PA, to Chicago, IL. *Iron and steel products,* from Martins Ferry, OH, and Wheeling, Benwood, Warwood, and Beech Bottom, WV, to Chicago, IL, and St. Louis, MO. *Tinplate,* from Canton and Toronto, OH, and Follansbee, WV, to Chicago, IL. *Packinghouse products, packinghouse supplies, dressed poultry* and *dairy products,* from Chicago, IL, to Jamestown, Buffalo, and New York, NY, Newark, NJ, Wheeling, WV, and points in West Virginia within 25 miles of Wheeling, points in that part of Ohio on and east of a described line, and that part of Pennsylvania on and west of U.S. Highway 219. *Dressed poultry* and *dairy products,* from points in Iowa and Nebraska, to Buffalo and New York, NY, Newark, NJ, points in that part of Ohio on and east of a described line, and that part of Pennsylvania on and west of U.S. Highway 219. *Dairy products,* as defined by the Commission, from Rochester, IN, to Baltimore, MD, Washington, DC, and points in Pennsylvania, New Jersey, and New York; and *Equipment and supplies* used in meat packinghouses, from Baltimore, MD, Washington, DC, and points in Pennsylvania, New Jersey, and New York, to Rochester, IN. *Fresh meat,* from Milwaukee, WI, to Pittsburgh, PA. *Cheese,* from Rochester, IN, to Wilmington, DE, and points in that part of Ohio on and east of U.S. Highway 21 from Cleveland, Ohio, through Massillon, New Philadelphia, Newcomerstown, Cambridge, and Marietta, Ohio, to the Ohio-West Virginia State line. *Lubricating oils* and *greases,* in containers, from Bradford, PA, to Benton Harbor, MI; and *Empty containers,* from Benton Harbor, MI, to Bradford, PA. Note.—Transferee has indicated that certain of the operating rights to be required may be combined or tacked with transferee's presently held operating rights for the performance of a through service. In the absence of the filing and subsequent approval of a directly-related gateway elimination application, such combination or tacking of operating authorities is prohibited (49 CFR 1065(b)).

Applicant's representative is: Patrick H. Smyth, 19 South LaSalle Street, Suite 401, Chicago, IL 60603.

MC–FC–79146. By decision of May 14, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Miller Express Freight, Inc., of Findlay, OH of Certificate No. MC–147579 and Permit No. MC–142894 Sub-No. 1, issued January 5, 1981 and May 8, 1978, respectively to Miller Delivery Service, Inc., of Findlay, OH authorizing in No. MC–147579 the transportation of *materials, equipment, and supplies,* used in the manufacture, distribution, or

repair of gas and electrical appliances, between the facilities of Whirlpool Corporation, at or near Findlay, OH, on the one hand, and, on the other, (1) Detroit, MI, and (2) points in Ohio, restricted in part (2) to the transportation of traffic having a prior or subsequent movement by air or motor carrier, and authorizing in No. MC–142894 (Sub-No. 1) the transportation of *automobile and truck panels*, from Findlay, OH, to Willow Run Airport and Detroit, MI, limited to a transportation service to be performed under a continuing contract(s) with Findlay Industries, Inc., and Superior Trim Company of Findlay, OH, and restricted to the transportation of shipments weighing 2000 pounds or less. Applicants' representative: James M. Bortch, Columbus, OH 43215. Transferee presently holds no authority from the Commission. TA has not been filed.

MC–FC–79147. By decision of May 15, 1981 issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132 Review Board Number 3 approved the transfer to Morgan Transportation Co., Inc., of Wethersfield, CT, of Permit No. MC–141767 (Sub-No. 4) issued December 5, 1980 to Harris Express Company, Inc., of East Hartford, CT, authorizing the transportation of silica sand and silica sand products, between points in Connecticut, Massachusetts, New Hampshire, Rhode Island, Vermont, Maine, New Youk, New Jersey, Pennsylvania, Delaware, Virginia, West Virginia, North Carolina, South Carolina, Illinois, Indiana, Iowa, Michigan, Kentucky, Ohio, and Maryland, under continuing contract(s) with Ottawa Silica Company, of Ottawa, IL. Applicant's representative: Paul F. Moran, Moran's Transportation Co., Inc., 273 Forest Drive, Wethersfield, CT 06100.

MC–FC–79160. By decision of May 19, 1981, issued under 49 U.S.C. 10926 and the transfer rules at 49 CFR 1132, Review Board Number 3 approved the transfer to Paul H. Giannetti and Robert J. Giannetti, A Partnership, d/b/a Giannetti Brothers Express of Certificate No. MC–34735 issued March 1, 1941, to Paul E. Giannetti d/b/a Giannetti Brothers Express authorizing the transportation of *general commodities*, (except those of unusual value, classes A and B explosives, household goods (when transported as a separate and distinct service in connection with so called "house hold movers"), commodities in bulk, and those requiring special equipment), between Wrentham, MA and Boston, MA over MA Hwy 1A.Q04

Notes.—(1) Transferee is a non-carrier. (2) An application for TA has not been filed. Applicants' representative: George C. O'Brien, 12 Vernon Street, Norwood, MA 02062.

BILLING CODE 7035–01–M

[Volume No. 100]

Motor Carriers; Permanent Authority Decisions; Restriction Removals; Decision-Notice.

Decided: June 9, 1981.

The following restriction removal applications, filed after December 28, 1980, are governed by 49 CFR 1137. Part 1137 was published in the Federal Register of December 31, 1980, at 45 FR 86747.

Persons wishing to file a comment to an application must follow the rules under 49 CFR 1137.12. A copy of any application can be obtained from any applicant upon request and payment to applicant of $10.00.

Amendments to the restriction removal applications are not allowed.

Some of the applications may have been modified prior to publication to conform to the special provisions applicable to restriction removal.

Findings

We find, preliminarily, that each applicant has demonstrated that its requested removal of restrictions or broadening of unduly narrow authority is consistent with 49 U.S.C. 10922(h).

In the absence of comments filed within 25 days of publication of this decision-notice, appropriate reformed authority will be issued to each applicant. Prior to beginning operations under the newly issued authority, compliance must be made with the normal statutory and regulatory requirements for common and contract carriers.

By the Commission, Restriction Removal Board, Members Sporn, Alspaugh, and Shaffer.

Agatha L. Mergenovich,

Secretary.

MC 64832 (Sub-12)X, filed May 27, 1981. Applicant: MAGNOLIA TRUCK LINE, INC., 3097 Fontaine Road, Memphis, TN 38116. Representative: Donald B. Morrison, P.O. Box 22628, Jackson, MS 39205. Applicant seeks to remove restrictions in its Sub-Nos. 3, 4, 6, 7F, 10F, and 11 certificates to (A) remove all restrictions in its general commodity authorities "except classes A and B explosives" in all certificates; (B) remove restrictive language in its Sub-No. 3 regular-route authority, limiting service to "that part of the Memphis, TN commerical zone lying soley within TN and MS," to allow service between Memphis, TN and Jena, LA; (C) authorize service at all intermediate points between the following regular routes: Memphis, TN and Jena, LA in Sub-No. 3; Jena, LA and Alexandria, LA in Sub-No. 6; and Memphis, TN and Baton Rouge, LA in Sub-No. 7; and (D) broaden its off-route authority from named service points and facilities to county-wide authority, as follows: Sub-No. 3, Franklin County, MS (Bude, MS); Sub-No. 4, Claiborne County, MS (facilities near Grand Gulf, MS); Sub-No. 10, Avoyelles and Vernon Parishes, LA (military reservation and Hamburg, Leesville, and Simmesport, LA); and Sub-No. 11, Acadia and Landry Parishes, LA (Church Point and Eunice, LA).

MC 74169 (Sub-8)X, filed May 28, 1981. Applicant: CHIEFTAIN VAN LINES, INC., 7201 Main Street, Ralston, NE 68127. Representative: Robert J. Gallagher, Esq., 1000 Connecticut Avenue, NW., Suite 1200, Washington, DC 20036 Applicant seeks to remove the restrictions in its lead and Sub-Nos. 7 certificate by broadening the commodity description from household goods to "household goods and furniture and fixtures."

equipment and supplies used in the manufacture and installation thereof in Sub-No. 22F; (6) "machinery and metal products and related products" from cooling towers, fluid coolers, and accessories, components, equipment, and parts thereof, and equipment, materials, and supplies used in the installation, manufacture or distribution thereof in Sub-No. 25F; (7) "metal articles and related products" from wire products and materials and equipment used in the manufacture thereof in Sub-No. 26F; (8) "metal products and pipe and related products" from iron and steel articles and pipe other than iron and steel in Sub-No. 27F; (b) eliminate the facilities restrictions in the lead (parts 1 and 2) and Sub-Nos. 16, 20F, 22F, 23F, 24F, and 27, and eliminate restrictions originating at or destined to in the lead (parts 1 and 2) and Sub-Nos. 16, and 18; (c) replace city-wide with county-wide authority: in the lead, Burkburnett with Wichita County, TX; in Sub-Nos. 16 and 22F, Wichita Falls with Wichita County, TX; in Sub-No. 23F, Conroe with Montgomery County, TX; in Sub-No. 24F, Greybull with Big Horn County, WY; in Sub-No. 25F, Chickasha with Grady County, OK; in Sub-No. 26F, Madill with Marshall County, OK; and in Sub-No. 27F, Union with Franklin County, MO; (d) authorize radial service in lieu of one-way authorit between a combination of points in the U.S. in the lead (parts 1 and 2) and Sub-Nos. 16, 18, 20F, 23F, 24F, 26F, and 27F; (e) remove the restrictions except AK and HI, in the lead (part 2) and Sub-Nos. 16, 18, 20F, 22F, and 25F and the restriction except HI in Sub-No. 23F; and (f) remove the restrictions against commodities in bulk in Sub-Nos. 16, 18, 20F, 22F, and 25F, in tank vehicles, in Sub-No. 22F, and in bags, in Sub-No. 24F.

MC 107103 (Sub-28)X, filed April 13, 1981, published in the **Federal Register** of May 1, 1981, republished as follows: Applicant: ROBINSON CARTAGE CO., 2712 Chicago Drive, SW., Grand Rapids, MI 49509. Representative: Ronald J. Mastej, 900 Guardian Building, Detroit, MI 48226. Applicant seeks to remove restrictions in its lead and Sub-Nos. 3, 5, 6, 13F, 14F, 15F, 18F, 20F, 21F, 23F, 26F, 27F certificates and E1 letter notice to (1) broaden the commodity descriptions (a) pipe casing and pipe to "clay, concrete, glass or stone products; lumber and wood products; metal products; and pulp, paper and related products" in its Sub-No. 13F (b) iron and steel articles, rough cast iron castings, to "metal products" in Sub-Nos. 14, part (1) 20, and 23; (c) iron and steel articles, to "size and weight commodities" in Sub-Nos. 15, 21, and 27; (d) lumber, lumber products, forest products and lumber mill products to "forest products and lumber and wood products" in Sub-No. 18; (e) gypsum and gypsum products to "building materials" in Sub-No. 26; (2) remove restrictions requiring that transportation of related machinery parts and related contractors, materials and supplies be incidental to transportation of size and weight commodities in the lead, Sub-Nos. 3, 5, and 6, and E1; (3) remove restrictions in size and weight authorities against transportation of named commodities such as aircraft and aircraft parts in Sub-Nos. 3, 5 and 6F; (4) remove a restriction against transportation of traffic the origin and destination of which are within 35 miles of Detroit, MI in its lead; (5) remove the AK to HI exceptions in Sub-Nos. 13F, 21F; and AK, HI, and MI in Sub-Nos. 6 and 15, (6) broaden the port of entry at Sault Ste. Marie, MI to authorize service to and from all ports of entry in MI in Sub-Nos. 14, 15 and 18; (7) remove restrictions to transportation "in foreign commerce only" in Sub-Nos. 15 and 18; (8) eliminate restrictions to traffic originating at the origin points in Sub-No. 6; (9) authorize county-wide in place of city-wide service: Holland, MI, with Allegan County, in Sub-No. 6; Dafter, MI, with Chippewa County, MI, in Sub-No. 13; Sebewaing, MI, with Huron County, MI, in Sub-No. 20; Monroe, MI, with Monroe County, MI, in Sub-No. 21; East Jordan, MI, with Charlevoix County, MI, and Siloam Springs, AR, with Benton County, AR, and Delaware and Adair Counties, OK, in Sub-No. 23; Grand Rapids, MI, with Kent County, MI, in Sub-No. 26; (10) remove plantsite restrictions in Sub-Nos. 13, 20, 21, 23, 26, 27; (11) authorize two-way authority for one-way authority in Sub-Nos. 6 and 18.

Note.—Carrier's authority to tack will be governed by 49 CFR 1042.

The purpose of this republication is to give notice of "building materials" from gypsum and gypsum products, Allegan County for Holland, MI, Benton County, AR, and Delaware and Adair Counties, OK, for Siloam Springs, AR, and two way authority in Sub-Nos. 6 and 18.

MC 114274 (Sub-76)X, filed May 11, 1981. Applicant: VITALIS TRUCK LINES, INC., 137 N.E. 48th St. Place, Des Moines, IA 50306. Representative: William H. Towle, 180 North LaSalle Street, Chicago, IL 60601. Applicant seeks to remove restrictions from its Sub-Nos. 1, 15, 17, 18, 20, 25, 27, 31, 33, 36, 38, 40, 42, 43, 44, 45, 47, 48, 49, 50, 52, 53, 54, 55 and 57 certificates to (1) broaden the commodity description to "food and related products" from meat, meat products, and meat by-products, and articles distributed by meat packinghouse in Sub-Nos. 1, 15, 18, 31, 36, 38, 40, 42, 43, 48, 52 and 57; from frozen foodstuffs in Sub-Nos. 17, 20 and 45; from carbonated beverages in Sub-No. 33 from foodstuffs in Sub-No. 47; and, from canned and preserved foodstuffs in Sub-No. 53, to "chemicals and related products and miscellaneous products of manufacturing" from shampoo, toilet preparations, and permanent hair waving kits in Sub-No. 49; to "chemicals and related products" from chemicals, toilet preparations, shampoo and packing materials in Sub-No. 50; from paint in Sub-No. 55; to "such commodities as are dealt in or used by manufacturers and distributors of household cleaning products" from household cleaning products and household cleaning articles and materials and supplies; to "pulp, paper and related products, rubber and plastic products, and clay, concrete, glass or stone products" from containers, closures and packaging materials used in the production and distribution of carbonated beverages in Sub-No. 33, sheet 2, (2) remove the in bulk restrictions from Sub-Nos. 1, 15, 18, 31, 36, 38, 40, 42, 43, 48, 52, 57, 20, 25, 45, 49, 50, and 55, (3) remove the restrictions against the transportation of (a) hides in Sub-Nos. 1, 15, 18, 31, 36, 38, 40, 42, 43, 48, 52 and 57, (b) of electric articles in Sub-No. 49, and (c) of foodstuffs and meats in Sub-No. 50, (4) remove the "originating at and destined to" restrictions in Sub-Nos. 15, 17, 18, 20, 25, 27, 31, 33, 36, 38, 40, 42, 43, 44, 45, 47, 48, 49, 50, 52, 53, 54, 55, and 57, (5) remove the restriction to shipment moving from, to, or between warehouses and wholesale, retail, or chain outlets of grocery and food business houses on sheet 2 of Sub-No. 1, (6) remove the plantsite limitations (a) in Sub-No. 1 sheets 2 and 3 and replace Perry, IA and Beardstown, IL with Dallas County, IA and Cass County, IL, (b) in Sub-No. 15 and replace Marshalltown, IA with Marshall County, IA, (c) in Sub-Nos. 17, 27, 45, 47 and 55 (d) in Sub-Nos. 18, 42 and 57 and replace Carroll, Denison and Iowa Falls, IA with Carroll, Crawford and Hardin Counties, IA, (e) in Sub-No. 25 and replace Iowa City and Muscatine, IA with Johnson and Muscatine Counties, IA (f) in Sub-Nos. 31 and 42 and replace Crete, NE with Saline County, NE, (g) in Sub-No. 33 and replace Cedar Rapids, IA with Linn County, IA, (h) in Sub-No. 36 and replace Marshalltown, IA with Marshall County, IA (i) in Sub-No. 38 and replace Hartley and Spencer, IA and Schuyler, NE with Clay and O'Brien Counties, IA and Colfax County, NE (j) in Sub-No. 40

and replace Denison, IA with Crawford County, IA, (k) in Sub-No. 44 and replace Glenwood and Marshalltown, IA and Grand Island, NE with Mills and Marshsll Counties, IA and Hall County, NE (1) in Sub-No. 52 and replace Schuyler, NE with Colfax County, NE, and (m) in Sub-No. 53 and replace Pittsburgh, PA with Alleghany County, PA, (7) change city to county-wide authority (a) in Sub-No. 1 from Alton, IL, Anderson, Curtisville, Elwood, Greenfield, Greenwood, Kokomo, Peru, St. Paul, Tipton, and Whiteland, IN; Blue Earth, Lakeland, and LeSueur, MN and Astico, Beaver Dam, Bloomer, Brandon, Cassville, Clear Lake, Cobb, Cumberland, Duck Creek, Frederic, Gillett, Green Bay, Hustisford, Ladysmith, Marshfield, Milltown, Mineral Point, Oconto, Onalaska, Prairie du Chien, and Plymouth, WI to Madison County, IL, Madison, Hancock, Johnson, Howard, Miami, Shelby, Deacatur, and Tipton Counties, IN, Dodge, Chippewa, Fond du Lac, Grant, Polk, Iowa, Barron, Oconto, Brown, Rusk, Wood, LaCrosse, Crawford, Marathon and Sheboygan Counties, WI and Fairbault, Washington and LeSueur Counties, MN; from Columbus and Fremont, NE to Platte and Dodge Counties, NE; from Denison, IA to Crawford County, IA (b) in Sub-No. 20 from Iowa City and Muscatine, IA to Johnson and Muscatine Counties, IA, (c) in Sub-No. 27 from Rochester, MN to Olmstead County, MN (d) in Sub-No. 33 from Lincoln and Norfolk, NE and Faribault, MN to Lancaster and Madison Counties, NE, and Rice County, MN (e) in Sub-No. 43 from Storm Lake and Cherokee, IA to Buena Vista and Cherokee Counties, IA (f) in Sub-No. 47 from McKessport and New Stanton, PA to Alleghany and Westmoreland Counties, PA (g) in Sub-No. 48 from Crete, NE and Carroll, Denison and Iowa Falls, IA to Saline County, NE and Carroll, Crawford and Hardin Counties, IA, (h) in Sub-No. 49 from Iowa City, IA to Johnson County, IA, (i) Sub-No. 50 from Ft. Madison, IA to Lee County, IA and (j) in Sub-No. 54 from Rockford, IL to Winnebago County, IL, and (8) change one-way to radial authority between various combinations of points in central U.S. in all authorities except Sub-No. 54.

MC 118612 (Sub-14)X, filed May 11, 1981, previously noticed in the **Federal Register** of May 22, 1981, republished as corrected this issue. Applicant: COLUMBIA TRUCKING, INC., 700—131st Place, Hammond, IN 46320. Representative: Richard A. Kerwin, 180 North La Salle Street, Chicago, IL 60601. Applicant seeks to remove restrictions from it Sub-Nos. 9F, 10 and 12 certificates to: (1) broaden the commodity description from asphalt and tar in Sub-No. 9F and hot asphalt in Sub-No. 10 to "petroleum or coal products"; (2) remove the "in bulk, in tank vehicles" restrictions in Sub-No. 10; (3) remove the facilities limitation in Sub-No. 9F; (4) replace Summit, IL with Cook County, IL, in Sub-No. 10; and (5) expand its one-way authority to radial authority in Sub-No. 9F, between IN, and Lake County, IL; in Sub-No. 10, between Cook County, IL, and, IN, IA, WI, MN, OH, MI, and MO; and in Sub-No. 12 between La Porte County, IN, and, IL. The purpose of this republication is to correct the territorial description in Sub-No. 9F from Waukegan, IL to Lake County, IL.

MC 123765 (Sub-14)X, filed May 22, 1981. Applicant: BARRY TRANSFER & STORAGE CO., INC., 120 East National Avenue, Milwaukee, WI 53204. Representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, WI 53203. Applicant seeks to remove restrictions in its MC 6031 Sub-Nos. 34, 45, 46F, 48F, 49F, 51F, 54F, 55F, and 58F permits to (1) broaden the commodity descriptions from (a) plumbing and heating materials and supplies, and scrap, metals, to "such commodities as are dealt in by manufacturers of plumbing fixtures or heating apparatus", in Sub-No. 34; (b) outboard engines, inboard engines, power lawn and turf-care equipment, power chain saws, and light industrial vehicles (except commodities in bulk), and materials, equipment, and supplies used in the manufacturer distribution of the above commodities (except commodities in bulk), to "machinery and miscellaneous products of manufacturing and materials, equipment, and supplies used in the manufacture, sale, and distribution in Sub-No. 49F; (c) coke to "coal and coal products" in Sub-No. 51F; (d) fiberglass insulation and materials and supplies used in the installation of insulation to "such commodities as are dealt in by manufacturers of insulation" in Sub-No. 55F; and (e) castings to "metal products" in Sub-No. 58F; and (2) broaden the territorial descriptions in all of the above-numbered permits to between points in the U.S., under contract(s) with named shippers.

MC 124109 (Sub-22)X, filed May 26, 1981. Applicant: B. F. C. TRANSPORTATION, INC., P.O. Box 985, Cedar Rapids, IA 52406. Representative: William L. Fairbank, 2400 Financial Center, Des Moines, IA 50309. Applicant seeks to remove restrictions in its Sub-No. 17F permit to (A) change the commodity description to "food and related products" from foodstuffs and pet foods, advertising materials, and materials and supplies (except frozen commodities and commodities in bulk); and (B) broaden its territorial description to authorize service between points in the U.S., under continuing contract(s) with a named shipper.

MC 134375 (Sub-20)X, filed May 22, 1981. Applicant: ELDON GRAVES, d.b.a. ELDON GRAVES TRUCKING, P.O. Box 9156, Yakima, WA 98909. Representative: Philip G. Skofstad, 1525 N.E. Weidler, Portland, OR 97232. Applicant seeks to remove restrictions in its Sub-Nos. 2, 5, 6, 8, 11, 13, 18F and 19F certificates to (1) broaden the commodity description in Sub-No. 2 to "food and related products and chemicals and related products" from meat cracklings; in Sub-No. 5 to "farm products, food and related products and chemicals and related products" from animal and poultry feed and feed supplements; in Sub-No. 6 to "pulp, paper and related products" from apple top pads; in Sub-No. 8 to "pulp, paper and related products" from molded pulp articles and hard surface corrugated paper; in Sub-No. 11 to "farm products, food and related products and chemicals and related products" from feed, feed ingredients and feed supplements; in Sub-No. 13 to "pulp, paper and related products and lumber and wood products" from paper packing partitions and wood pulp packing partitions; in Sub-No. 18F to "lumber and wood products" from wood fiber products; and in Sub-No. 19F to "lumber and wood products" from cedar shakes, shingles and shake bolts; (2) authorize county-wide authority: Multnomah County, OR, for Portland, OR, in Sub-No. 2; Yakima County, WA, for facilities at Yakima, WA, in Sub-No. 6; Alameda County, CA, for Berkeley, CA, and Yakima County, WA, for Yakima, WA, in Sub-No. 8; and acramento County, CA, for Sacramento, CA in Sub-No. 13; (3) remove the facilities restriction in Sub-Nos. 6 and 8; (4) remove the in bulk restriction in Sub-No. 2, the liquids in bulk in tank vehicles and canned pet foods restriction in Sub-No. 11; (5) eliminate the originating at restrictions in Sub-Nos. 6 and 8; (6) replace one-way authority with radial authority in Sub-Nos. 2, 5, 6, 8, 11, 13, 18F and 19F.

MC 144509 (Sub-5)X, filed June 1, 1981. Applicant: HOLSTON MOTOR FREIGHT, INC., P.O. Box 1670, Kingsport, TN 37662. Representative: Henry E. Seaton, 929 Pennsylvania Bldg., 425 13th Street, N.W., Washington, DC 20004. Applicant seeks to remove

restrictions in its lead and Sub-Nos. 3F and 4F certificates to (1) broaden its commodity descriptions from general commodities (with exceptions), to "general commodities (except classes A and B explosives)", in all of the above authorities; (2) authorize service at all intermediate points between Knoxville and Chattanooga, TN, in Sub-No. 4F; and (3) eliminate: in the lead, the restriction against the receipt of interline traffic from other motor carriers at Kingsport, TN, and points in its commercial zone.

MC 144889 (Sub-12)X, filed May 20, 1981. Applicant: RONWAL TRANSPORTATION, INC., 2600 Calumet Ave., Hammond, IN 46320. Representative: Norman R. Garvin, Andrew K. Light, Scopelitis & Garvin, 1301 Merchants Plaza, Indianapolis, IN 46204. Applicant seeks to remove restrictions in its Sub-Nos. 1F, 8F, 9F, and 10F certificates to (1) broaden the commodity descriptions in (a) Sub-Nos. 1F, 8F, 9F, and 10F from iron and steel articles, iron and steel, and wrought iron pipe to "metal products," and (b) Sub-No. 1F from building materials and sound deadening materials to "building materials;" (2) expand specific plantsite authority to county-wide and/or city-wide authority in (a) Sub-No. 1F from the facilities of (i) LaSalle Steel Company at Griffith and Hammond, IN, and Globe Industries, at Lowell, IN, to Lake County, IN, (ii) Union Rolls Corporation, at Valpariaiso, IN, and Midwest Steel Division of National Steel Corp., at Portage, IN, to Porter County, IN, and (iii) Globe Industries, at Whiting, IN, to Lake County, IN; (b) Sub-No. 8F from the facilities of (i) Inland Steel Company at East Chicago, IN, to Lake County, IN, (ii) Bethlehem Steel Corporation at Burns Harbor, IN, to Porter County, IN, and (iii) J & L Steel Corporation, at or near Chicago, IL, to Chicago, IL, (c) in Sub-No. 9F, from the facilities of United States Steel Corporation at or near Gary, IN, to Lake County, IN; and (d) Sub-No. 10F, from the facilities of (i) Dietrich Industries, Inc., at Hammond, IN, to Lake County, IN; and (ii) Unarco-Leavitt, Division of Unarco Indus., Inc., at Chicago, IL, to Chicago, IL; (3) expand one-way authority to radial authority between specified points located in the eastern and central portion of the U.S. and (4) delete restriction in Sub-No. 1F against commodities in bulk, in tank vehicles.

MC 146402 (Sub-35)X, filed May 26, 1981. Applicant: CONALCO CONSTRACT CARRIER, INC., P.O. Box 968, Jackson, TN 38301. Representative: Robert L. Baker, 618 United American Bank Bldg., Nashville, TN 37219. Applicant seeks to remove restrictions in its Sub-Nos. 2F and 17 certificates to: (1) in Sub-No. 2F broaden the commodity description from part (1) food products, food concessions, displays for food concessions and from part (2) popcorn and peanuts, to "food and related products and machinery," (2) in Sub-Nos. 2F and 17 replace facility limitations at Ridgeway, IL and Atlanta, GA with city-wide authority; (3) in Sub-Nos. 2F and 17 remove "in bulk, in tank vehicles," restrictions; (4) in Sub-No. 17 broaden the commodity restriction from wine to "food and related products," (5) in Sub-No. 17 replace one-way with radial authority between 7 counties in CA and Atlanta, GA, and (6) remove the restriction limiting transportation to traffic originating at or destined to named facilities.

MC 147019 (Sub-5)X, filed May 22, 1981. Applicant: WENGERT TRANSPORTATION, INC., d.b.a. CITY DELIVERY, 651–58th Avenue Court S.W., Cedar Rapids, IA 52404. Representative: A. William Brackett, 623 S. Henderson, 2nd Floor, Fort Worth, TX 76104. Applicant seeks to remove restrictions in its certificates Sub-No. 2F and 4F to (1) change city to county-wide authority from Cedar Rapids, IA, to Lynn County, IA, in Sub-No. 2 and from Washington and West Union, IA to Washington and Fayette Counties, IA, in Sub-No. 4, (2) remove the restriction limiting service to traffic having a prior or subsequent movement by air, and (3) remove limitation to service at O'Hare International Airport at Chicago, IL and replace with Chicago, IL in both subs.

MC 147323 (Sub-29)X, filed May 26, 1981. Applicant: HADDAD TRANSPORTATION, INC., 5000 Wyoming Avenue, Dearborn, MI 48126. Representative: Edward P. Bocko, P.O. Box 496, Mineral Ridge, OH 44440. Applicant seeks to remove restriction in its lead and Sub-Nos. 3F, 5F,6F, 8F, 9F, 11 and 12F certificates to (1) broaden the commodity descriptions: in the lead from iron and steel articles and aluminum and in part (1) of the remaining Sub-Nos., from iron and steel articles (except commodities in bulk), to "commodities which, because of size or weight require the use of sepcial equipment or special handling"; (2) replace facilities limitations with county-wide authority as follows: in the lead, Southfield, Riverview and Detroit with Oakland and Wayne Counties, MI; in Sub-No. 3F, Sterling with Whiteside County, IL; in Sub-No. 5F, Hinsdale with Du Page County, IL; in Sub-No. 6F, Prospect with Champaign County, IL; in Sub-No. 8F, Morganville with Monmouth County, NJ; in Sub-No. 9F, Detroit and Petersburg with Monroe County, MI; in Sub-No. 11, Atlanta, GA and Nashville, TN, with Fulton County, GA and Davidson County, TN; and in Sub-No. 12F, Utica with Macomb County, MI; and (3) in the lead and Sub-Nos. 6F, 11 and 12F remove the restriction limiting transportation to traffic originating at or destined to named facilities.

MC 147969 (Sub-7)X, filed May 21, 1981. Applicant: JOE S. BOWEN, INC., East Highway 264, P.O. Box 262, Springdale, AR 72764. Representative: John C. Everett, 140 E. Buchanan, P.O. Box A, Prairie Grove, AR 72753. Applicant seeks to remove restrictions in its Sub-Nos. 1F, 2F, 4F and 5F certificates to (1) remove the facilities restrictions in all subs and authorize county-wide authority: Sebastian County, AR (for facility at Fort Smith, AR), in Sub-No. 1F, and Benton and White Counties, AR (for facilities at Bentonville and Searcy, AR, respectively), in Sub-No. 2F, (2) replace one-way authority with radial authority, in Sub-No. 5F, and (3) remove the AK and HI exceptions, in Sub-Nos. 1F, 4F and 5F.

MC 150090 (Sub-1)X, filed June 8, 1981. Applicant: CHEMLINE DELIVERY SERVICE, INC., 2700 River Road-Suite 408, Des Plaines, IL 60018. Representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Applicant seeks to remove restrictions in its MC–150090 permit to (1) broaden the commodity description from acids and chemicals to "chemicals and related products and petroleum, natural gas, and their products", (2) remove the "in bulk, in tank vehicles" restrictions and (3) broaden the territorial description to between points in the U.S., under continuing contract(s) with named shippers.

[Docket No. 125 (Sub-4F)]

Norfolk Southern Railway Co.—Abandonment—Between Dallas and Lincolnton, NC; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that on June 5, 1981, the Commission issued a certificate authorizing the Norfolk Southern Railway Company to abandon its rail line between Dallas (milepost HG 52.0) and Lincolnton (milepost HG 62.4) in Gaston and Lincolnton Counties, NC, a total distance of 10.4 miles, subject to the conditions for employee protection provided in *Oregon Short Line R. Co.—Abandonment Goshen*, 360 I.C.C. 91

(1979), and subject to the further condition that Norfolk Southern shall keep intact all of the right-of-way underlying the track, including all the bridges and culverts, for a period of 120 days from this date to permit any State or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of the right-of-way. The abandonment certificate will become effective 30 days after this publication unless the Commission also finds that:

(1) A financially responsible person (or government entity) has offered financial assistance (through subsidy or purchase) to enable the rail service to be continued; and

(2) It is likely that:

(a) If a subsidy, the assistance would cover the difference between the revenues attributable to the line and the avoidable cost of providing rail freight service on the line, together with a reasonable return on the value of the line, or

(b) If a purchase, the assistance would cover the acquisition cost of all or any portion of the line.

Any financial assistance offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice.

If the Commission makes the findings described above, the effectiveness of the abandonment certificate will be postponed. An offeror may request the Commission to set conditions and amount of compensation within 30 days after an offer is made. If no agreement is reached within 30 days of an offer, and no request is made for the Commission to set conditions or amount of compensation, the abandonment certificate will become effective. Upon notification to the Commission of the execution of a subsidy or purchase agreement, the Commission shall further postpone the effectiveness of a certificate for such time as the agreement is in effect. Information and procedures regarding financial assistance for continued rail service are contained in 49 U.S.C. 10905 (as amended by the Staggers Rail Act of 1980, Pub. L. 96–448) and 49 CFR 1121.38.

Agatha L Mergenovich,

Secretary.

BILLING CODE 7035–01–M

[Docket No. AB–124 (Sub-1F)]

Waterloo Railroad Co.—Abandonment—Between Evansdale and Gilbertville, IA; Findings

Notice is hereby given pursuant to 49 U.S.C. 10903 that by a Certificate and Decision decided June 9, 1981, a finding, which is administratively final, was made by the Commission, Review Board Number 3, stating that, the present and future public convenience and necessity permit the abandonment by the Waterloo Railroad Company of its main line extending from railroad milepost 4.87 Evansdale, IA, to milepost 11.44 at Gilbertville, IA, in Blackhawk County, IA, a distance of 6.57 miles, subject to the conditions for the protection of employees discussed in *Oregon Short Line R. Co—Abandonment Goshen*, 360 I.C.C. 91 (1979), and further that applicant shall keep intact all of the right-of-way underlying the track, including all the bridges and culverts for a period of 120 days from June, 1981, to permit any state or local government agency or other interested party to negotiate the acquisition for public use of all or any portion of the right-of-way. A certificate of public convenience and necessity permitting abandonment was issued to the Waterloo Railroad Company. Since no investigation was instituted, the requirement of § 1121.38(b) of the Regulations that publication of notice of abandonment decisions in the **Federal Register** be made only after such a decision becomes administratively final was waived.

Upon receipt by the carrier of an actual offer of financial assistance, the carrier shall make available to the offeror the records, accounts, appraisals, working papers, and other documents used in preparing Exhibit I (Section 1121.45 of the Regulations). Such documents shall be made available during regular business hours at a time and place mutually agreeable to the parties.

The offer must be filed with the Commission and served concurrently on the applicant, with copies to Ms. Ellen Hanson, Room 5417, Interstate Commerce Commission, Washington, DC 20423, no later than 10 days from publication of this Notice. The offer, as filed, shall contain information required pursuant to § 1121.38(b) (2) and (3) of the Regulations. If no such offer is received, the certificate of public convenience and necessity authorizing abandonment shall become effective 30 days from the service date of the certificate.

Agatha L. Mergenovich,

Secretary.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-389]

Florida Power & Light Co. and Orlando Utilities Commission of the City of Orlando, Fla.; Notice of Issuance of Amendment to Construction Permit

Notice is hereby given that pursuant to a Memorandum and Order dated April 24, 1981 by the Atomic Safety and Licensing Board, the U.S. Nuclear Regulatory Commission has issued Amendment No. 3 to Construction Permit No. CPPR-144, which was issued to Florida Power and Light Company for construction of the St. Lucie Plant Unit 2, located in St. Lucie County, Florida. Effective with the issuance of amendment No. 2 on November 14, 1980, the current permit holders are Florida Power and Light Company and Orlando Utilities Commission of the City of Orlando, Florida. The Board's Order authorizes the addition of antitrust conditions to the construction permit.

The Commission has found that the provisions of the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I. Since the amendment only involves the addition of antitrust conditions, this action involves no safety questions or environmental impacts; i.e., this action does not involve a significant hazards consideration, does not constitute an unreasonable risk to the health and safety of the public, and is not inimical to the common defense and security. In adddition, the issuance of this amendment will not result in any significant environmental impact and that pursuant to 10 CFR 51.5(d)(4) an environmental impact statement or negative declaration and environmental impact appraisal need not be prepared in connection with issuance of the amendment.

A copy of the Memorandum and Order, dated April 24, 1981, the construction permit, the amendment and other related documents are available for public inspection at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. and at the Indian River Community College Library, 3900 Virginia Avenue, Ft. Pierce, Florida. Single copies of the amendment may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C., 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Maryland, this 26th day of May, 1981.

For the Nuclear Regulatory Commission.

F. Miraglia,

Acting Chief, Licensing Branch No. 3, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-111]

North Carolina State University; Order Authorizing Dismantling of Facility and Disposition of Component Parts

By application dated June 5, 1980, as revised by letters dated Feburary 19 and March 27, 1981, North Carolina State University (the licensee) requested authorization to dismantle the 10 Kw Research and Training Reactor (the facility), at North Carolina State University, Raleigh, North Carolina, and to dispose of the component parts, in accordance with the plan submitted as part of the application. A "Notice of Proposed Issuance of Orders Authorizing Dismantling of Facility, Disposition of Component Parts, and Termination of Facility License" was published in the **Federal Register** on April 3, 1981(46 FR 20338). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Nuclear Regulatory Commission (the Commission) has reviewed the application in accordance with the provisions of the Commission's rules and regulations and has found that the dismantling and disposal of component parts in accordance with the licensee's dismantling plan will be in accordance with the regulations in 10 CFR Chapter I, and will not be inimical to the common defense and security or to the health and safety of the public. The basis for the findings is set forth in the concurrently issued Safety Evaluation by the Office of Nuclear Reactor Regulation.

The Commission has prepared an environmental impact appraisal for this action. Based on that appraisal, the Commission has determined that this action will not result in any significant environmental impact and that an environmental impact statement need not be prepared.

Accordingly, North Carolina State University is hereby authorized to dismantle the facility covered by Facility License No. R-63, and dispose of the component parts in accordance with their dismantling plan and the Commission's rules and regulations.

After completion of the dismantling and decontamination, the submission of a report on the radiation survey to confirm that radiation levels in the facility area meet the values defined in the dismantling plan and inspection by representatives of the Commission, consideration will be given to whether a further order should be issued terminating Facility License No. R-63.

For further details with respect to this action see (1) the application for authorization to dismantle facility and dispose of component parts dated June 5, 1980, as revised by letters dated February 19 and March 27, 1981, (2) the Commission's related Safety Evaluation, (3) the Commission's Environmental Impact Appraisal, and (4) the Commission's Negative Declaration dated June 1, 1981 (which is also being published in the **Federal Register**). All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 1st day of June 1981.

For the Nuclear Regulatory Commission.

Thomas M. Novak,

Assistant Director for Operating Reactors, Division of Licensing.

Negative Declaration for the North Carolina State University Research and Training Reactor, Docket No. 50-111

The U.S. Nuclear Regulatory Commission (the Commission) has considered the order authorizing dismantling of facility and disposition of component parts for the North Carolina State University (the licensee) Research and Training Reactor operated under Facility License No. R-63. The order authorizes the licensee to disassemble the reactor which operated at power levels up to 10 Kw (thermal), and to dispose of the component parts.

The U.S. Nuclear Regulatory Commission, Office of Nuclear Reactor Regulation, has prepared an environmental impact appraisal for this research reactor. On the basis of this appraisal, the Commission has concluded that an environmental impact

statement for this particular action is not warranted because there will be no significant environmental impact attributable to the proposed action. The environmental impact appraisal is available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

Dated at Bethesda, Md., this 1st day of June 1981.

For the Nuclear Regulatory Commission.

John F. Stolz,

Chief, Operating Reactors Branch No. 4, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-206]

Southern California Edison Co. and San Diego Gas & Electric Co.; Notice of Issuance of Amendment to Provisional Operating License and Negative Declaration

The U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 55 to Provisional Operating License No. DPR-13, issued to Southern California Edison Company and San Diego Gas and Electric Company (the licensees), which revised the license and its related Appendix A Technical Specifications and Bases for operation of the San Onofre Nuclear Generating Station Unit No. 1 (the facility) located in San Diego County, California. The amendment is effective as of its date of issuance.

The amendment authorizes changes to the Appendix A Technical Specifications and Bases which are required to allow San Onofre Nuclear Generating Station (SONGS) Unit No. 1 to resume power operation for Cycle II following extensive repair to the steam generator tubes, and changes to allow modifications of the primary to secondary leakage limits, action statements in the event of leakage, and clarification of the preventative plugging limits. The amendment also reinstates a License Condition 3.E (Steam Generator Inspections) which requires shutdown for a steam generator inspection within six effective full-power months following restart from the current outage.

The applications for the amendment comply with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment was not required since the amendment does not involve a significant hazards consideration.

The Commission has prepared an environmental impact appraisal for this action and has concluded that the action will not significantly affect the quality of the human environment. Therefore, the Commission has determined that an Environmental Impact Statement need not be prepared, and that, pursuant to 10 CFR 51.5(c)(1), the issuance of a negative declaration to this effect is appropriate.

For further details with respect to this action, see (1) the application for amendment dated December 10, 1980, including its supplements April 10, and 15, 1981 and application dated May 5, 1981, in addition to the supporting submittals identified in the transmittal letter for the amendment, (2) Amendment No. 55 to License No. DPR-13, (3) the Commission's related Safety Evaluation and (4) the Commission's Environmental Impact Appraisal. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555 and at the Mission Viejo Branch Library, 24851 Chrisanta Drive, Mission Viejo, California. A copy of items (2), (3) and (4) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Licensing.

Dated at Bethesda, Md., this 8th day of June 1981.

For the Nuclear Regulatory Commission.

Dennis M. Crutchfield,

Chief, Operating Reactors Branch No. 5, Division of Licensing.

BILLING CODE 7590-01-M

[Docket No. 50-395]

South Carolina Electric & Gas Co. and Virgil C. Summer Nuclear Station; Notice of Relocation of Local Public Document Room

Notice is hereby given that the Nuclear Regulatory commission (NRC) has relocated the local public document room (LPDR) for South Carolina Electric and Gas Company's Virgil C. Summer Nuclear Station from the Richland County Public Library, Columbia, to the Fairfield County Library, Winnsboro, South Carolina.

Members of the public may now inspect and copy documents and correspondence related to the licensing and operation of the Virgil C. Summer Nuclear Station at the Fairfield County Library, Garden and Washington Streets, Winnsboro, S.C. 29180. The Library is open on the following schedule: Monday, Tuesday, Wednesday, and Friday 9:00 a.m. to 6:00 p.m., Thursday 9:00 a.m. to 9:00 p.m. and Saturday 9:00 a.m. to 1:00 p.m.

For further information, interested parties in the Winnsboro area may contact the LPDR directly through Ms. Sarah McMaster, telephone number (803) 635-4971. Parties outside the service area of the LPDR may address their request for records to the NRC's Public Document Room, 1717 H Street NW., Washington, D.C. 20555, telephone number (202) 634-3273. The cost of ordering records from the Public Document Room is $0.05 per page, plus postage and handling, for copies made from hardcopy documents. Costs vary for copies made from oversize engineering drawings or microfiche and for microfiche duplicates (diazos.)

Questions concerning the availability of documents at the Virgil C. Summer LPDR and the NRC's local public document room program in general should be addressed to Ms. Jona L. Souder, Chief, Local Public Document Room Branch, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, telephone number 800-638-8081 toll free.

Dated at Bethesda, Md., this 9th day of June 1981.

For the Nuclear Regulatory Commission.

Joseph M. Felton,

Director, Division of Rules and Records, Office of Administration.

BILLING CODE 7590-01-M

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-17851; File No. SR-NSCC-81-6]

National Securities Clearing Corp.; Self-Regulatory Organizations; Proposed Rule Change

Proposed rule change by National Securities Clearing Corporation relating to the deletion from National Securities Clearing Corporation's (NSCC) Clearing Fund Rule of any Reference to The Depository Trust Company's (DTC) Right to Assess the Clearing Fund. Comments requested on or before July 6, 1981.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934, 15 U.S.C. 78s(b)(1), notice is hereby given that on May 27, 1981, the National Securities Clearing Corporation filed with the Securities and Exchange Commission the proposed rule change

as described in Items I, II, and III below, which Items have been prepared by National Securities Clearing Corporation. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change deletes all references in NSCC's Clearing Fund Rule (NSCC Rule 4) to The Depository Trust Company's (DTC) right to assess the Clearing Fund. Currently DTC has the right under certain circumstances to assess NSCC's Clearing Fund. DTC relinquished this right in filing SR–DTC–81–2.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, National Securities Clearing Corporation included statements concerning the purpose of and basis for the proposed rule change and discussed concurrences it received from DTC on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NSCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to delete all references in Rule 4 to The Depository Trust Company's (DTC) right to assess NSCC's Clearing Fund as DTC has relinquished this right in rule filing SR–DTC–81–2. NSCC will put the proposed rule change into effect concurrent with the effectiveness of the aforementioned DTC rule filing. The proposed rule change is consistent with the Securities Exchange Act of 1934 and the rules and regulations thereunder applicable to NSCC as the deletion of this reference will permit NSCC to limit, within required constraints, the purposes to which the Clearing Fund may be put. The proposed rule change will be implemented consistently with the safeguarding of securities and funds in NSCC's custody or control because the elimination of DTC's right to assess NSCC's Clearing Fund will leave NSCC's Clearing Fund intact and available for the purposes for which use of the Clearing Fund may be put by NSCC.

(B) Self-Regulatory Organization's Statement on Burden on Competition

NSCC does not believe that the proposed rule change will have an impact on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

While no comments on the proposed rule change have been solicited or received, DTC has concurred with the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Securities Exchange Act of 1934 and subparagraph (e) of the Securities Exchange Act Rule 19b–4. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. 20549. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Section, 1100 L Street, N.W., Washington, D.C. Copies of such filing will also be available for inspection and copying at the principal office of the above-mentioned self-regulatory organization. All submissions should refer to the file number in the caption above and should be submitted on or before July 6, 1981.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.

Dated: June 9, 1981.

George A. Fitzsimmons,

Secretary.

BILLING CODE 8010–01–M

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area No. 1990]

Texas; Declaration of Disaster Loan Area

Tarrant County and adjacent counties within the State of Texas constitute a disaster area as a result of damage caused by tornado force winds, rain and hail which occurred on May 8, 1981. Eligible persons, firms and organizations may file application for loans for physical damage until the close of business on August 6, 1981, and for economic injury until the close of business on March 5, 1982, at: Small Business Administration, District Office, 1100 Commerce Street, Room 3C 36, Dallas, Texas 75242, or other locally announced locations.

For recent change in disaster loan eligibility see 46 FR 18526 (March 25, 1981).

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: June 5, 1981.

BILLING CODE 8025–01–M

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 81–047]

Rules of the Road Advisory Council

The Coast Guard is seeking applicants who are interested in being appointed members of the Rules of the Road Advisory Council (RORAC). Creation of RORAC, to become effective not earlier than 1 October 1981, was mandated in Section 5 of Public Law 96–591, *The Inland Navigation Rules Act of 1980.*

RORAC will advise, consult with, and make recommendations to: the Secretary on matters relating to any major proposals for changes to the Inland Rules. The Council may recommend changes to the Inland Rules and Intrernational Regulations to the Secretary. Any advice or recommendation made by the Council to the Secretary shall reflect the

independent judgement of the Council on the matter concerned.

The Council will consist of not more than 21 members. To assure balanced representation, members shall be chosen, insofar as practical, from the following groups: (1) recognized experts and leaders in organizations having an active interest in the Rules of the Road and vessel and port safety, (2) representatives of owners and operators of vessels, professional mariners, recreational boaters, and the recreational boating industry, (3) individuals with an interest in maritime law, and (4) Federal & State officials with responsibility for vessel and port safety.

In order to insure balance of membership required by the Federal Advisory Committee Act, the Coast Guard is particularly interested in receiving applications from minorities, women, and public interest representatives. Selection will be based upon expertise in the subjects under consideration.

The Council will meet at least once a year at a location selected by the sponsor. Council members will be compensated at a daily rate fixed by the Secretary, not to exceed that of a GS-18 of the General Schedule, and including travel expenses and per diem as authorized by current travel regulations.

Interested person should apply to: Commandant (G-WWM-2), U.S. Coast Guard, Washington, D.C. 20593, before August 1, 1981. Supplemental information will then be forwarded. For further information contact Ensign Edward G. LeBlanc of the Waterways Safety Branch at the above address or call (202) 426-4958.

Dated: June 9 1981.

K. G. Wiman,

Rear Admiral, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

Air Traffic Procedures Advisory Committee; Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. 1) notice is hereby given of a meeting of the Federal Aviation Administration Air Traffic Procedures Advisory Committee to be held from, July 13 at 1 p.m. through July 17 at 1 p.m., in the Executive Conference Room, at the FAA Northwest Region Headquarters, FAA Building, Boeing Field, Seattle, Washington.

The agenda for this meeting is as follows: A continuation of the Committee's review of present air traffic control procedures and practices for standardization, clarification, and upgrading of terminology and procedures.

Attendance is open to the interested public but limited to the space available. With the approval of the Chairman, members of the public may present oral statements at the meeting. Persons wishing to attend and persons wishing to present oral statements should notify, not later than the day before the meeting, and information may be obtained from, Mr. L. Lane Speck, Executive Director, Air Traffic Procedures Advisory Committee, Air Traffic Service, AAT-300, 800 Independence Avenue, Washington, D.C. 20591, telephone (202) 426-3725.

Any member of the public may present a written statement to the Committee at any time.

Issued in Washington, D.C. on June 5, 1981.

L. Lane Speck,

Executive Director, Air Traffic Procedures Advisory Committee.

BILLING CODE 4910-13-M

Federal Highway Administration

Environmental Impact Statement: City of Alameda, Calif.

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice of intent.

SUMMARY: The FHWA is issuing this notice to advise the public that an environmental impact statement will be prepared for a proposed roadway in the City of Alameda, California.

FOR FURTHER INFORMATION CONTACT: D. L. Eyres, District Engineer, Federal Highway Administration, P.O. Box 1915, Sacramento, California 95809, Telephone: (916) 440-3541.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with the California Department of Transportation will prepare an environmental impact statement (EIS) on the proposed Patton Way Project. The project would consist of a four-lane roadway to bypass Webster Street, as the connection to the Webster Street and Posey Tubes, and to provide a more direct access for the traffic destined for the eastern and southern parts of Alameda. The approximately 4,000-foot roadway would be developed in the vacant right-of-way extending from the tubes to Lincoln Avenue and Eighth Street, at which point traffic would be directed onto the existing street system. The project would relieve traffic congestion on Webster Street and reduce the potential for accidents.

The EIS will include a discussion of seven alternatives, including: (1) the no-build alternative; (2) the proposed project; (3) the proposed project with a barrier to southbound traffic at Eighth and Lincoln; (4) the proposed project with barriers at Eighth and Lincoln and Eighth and Central; (5) the proposed project with Atlantic Avenue from Sherman to Webster and no barriers; (6) the proposed project with direct access from Patton Way to Marina Village; and (7) a one-way couplet of Webster Street and Eighth Street.

A public hearing was held March 19, 1980 to determine the scope of the Environmental Document (Environmental Assessment/ Environmental Impact Report). Additional public hearings were held, when the Environmental Document was completed, to provide the public additional opportunity for comment. These comments will be incorporated into the draft EIS.

To ensure that the full range of issues related to this proposed action are addressed and all significant issues identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to the FHWA at the address provided above.

Issued on June 5, 1981.

D. L. Eyres,

District Engineer, Sacramento, Calif.

[FR Doc. 81-17406 Filed 6-12-81; 8:45 am]

BILLING CODE 4910-22-M

Federal Railroad Administration

Availability of a Final Environmental Impact Statement

The Federal Railroad Administration (FRA) hereby announces the availability of the Final Environmental Impact/4(f) Statement (FEIS) entitled Providence, Rhode Island Railroad and Highway Improvements. The FRA has acted as the lead federal agency in the preparation of this FEIS, in cooperation with the Federal Highway Administration (FHWA). The proposed action includes elements of the Northeast Corridor Improvement Project, as authorized by Title VII of the Railroad Revitalization and Regulatory Reform Act of 1976 (45 U.S.C. 851 et seq.), and the federal-aid highway program.

Components of the proposed action include relocation of the railroad in downtown Providence from its existing elevated alignment immediately adjacent to the Central Business District to a new, at-grade alignment at the base of the State House lawn; construction of a new railroad station over the tracks and a parking garage beneath the station's south entrance plaza; removal of the existing railroad viaduct; construction of an interchange between Interstate 95 (I-95) and States Routes 6 and 195, with the extension of Route 6 as an at-grade boulevard along the abandoned railroad right-of-way between I-95 and Memorial Square; and ancillary road realignments and improvements.

Scoping sessions and public informational meetings were conducted prior to thepreparation of the draft EIS, which was distributed for comments in June 1980. Subsequent to the comments received during the official comment period and a July 23, 1980 public hearing, various modifications were made to the proposed action, as outlined in the FEIS, resulting in a proposed project which would still satisfy the transportation needs of the area while complementing local land use and economic development planning to the greatest extent possible.

As the proposed action would have various effects upon buildings, sites, and districts that are either on or eligible for inclusion in the *National Register of Historic Places*, the requirements of Section 106 of the National Historic Preservation Act of 1966 and Section 4(f) of the Department of Transportation Act of 1966 were addressed. A Memorandum of Agreement between the FRA, the FHWA, the Rhode Island State Historic Preservation Officer, and the Advisory Council on Historic Preservation addressing mitigation measures that must be implemented is included in the FEIS.

For further information, or receipt of the FEIS, contact Mr. Donald C. Smith, Environmental/Permit Coordinator, Northeast Corridor Project, Federal Railroad Administration, 400 7th Street, SW., Washington, D.C. 20590; telephone (202)-472-5890. Should the supply of documents be depleted, additional copies may be obtained for the cost of reproduction.

Louis S. Thompson,

Associate Administrator for Intercity Programs.

BILLING CODE 4910-06-M

DEPARTMENT OF THE TREASURY

Customs Service

Availability of Reprinted Looseleaf Edition of Customs Regulations

AGENCY: Customs Service, Treasury.

ACTION: Notice of availability.

SUMMARY: This document informs the public that an updated reprinted looseleaf edition of the Customs Regulations (19 CFR Chapter I) is available from the Government Printing Office. In addition to the Customs Regulations, with a complete up-to-date index, including all changes made through March 31, 1981, the reprint includes Treasury Department and Customs Service Delegation Orders, and an appendix containing the text of, or references to sections of law and the text of regulations administered by other Government departments or agencies and enforced wholly or in part by Customs.

SUPPLEMENTARY INFORMATION:

Background

The regulations of the Customs Service, codified in Title 19, Chapter I, Code of Federal Regulations (19 CFR Chapter I), have been issued by the Commissioner of Customs, with the approval of the Secretary of the Treasury, for the purpose of carrying out Customs and navigation laws and other laws administered by Customs.

Title 19, Code of Federal Regulations, is published annually, revised as of April 1 of each year, by the Office of the Federal Register. In the interest of having the regulations as up to date as possible, Customs has the Government Printing Office print a looseleaf edition which is updated by the issuance of sets of revised pages three or four times each year. In addition to the regulations, with a complete up-to-date index, the looseleaf edition also includes orders of the Secretary of the Treasury relating to the rights, privileges, powers, and duties of the Commissioner of Customs and other Customs personnel, and Customs Delegation Orders. An appendix to the looseleaf edition contains the text of, or references to, sections of law and the text of regulations administered by other Government departments or agencies and enforced wholly or in part by Customs.

Two sets of revised pages to the regulations have been issued since the last general reprint was prepared in 1979. As part of an on-going cost-effective program to improve the utility of the regulations, Customs has prepared a new reprint, including all changes through March 31, 1981.

FOR FURTHER INFORMATION CONTACT: Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402 (783-3238). Subscribers may order the reprint by requesting the "Customs Regulations of

the United States, 1981 Reprint." The renewal rates are $10.00 for current domestic subscribers and $12.50 for current foreign subscribers. The rates for new subscribers are $29.00 for domestic purchasers and $36.25 for foreign purchasers. Orders for the new reprint are being accepted *only* by the Government Printing Office. Copies are not available from the U.S. Customs Service.

While every effort has been made to ensure correctness, users may notify the U.S. Customs Service, Regulations and Information Division, Washington, D.C. 20229, of any typographical or printing errors in order that corrections may be made. Suggestions for improvement also also requested.

Drafting Information

The principal author of this document was Robert J. Pisani, Regulations and Information Division, U.S. Customs Service.

Dated: June 9, 1981.

William T. Archey,

Acting Commissioner of Customs.

[FR Doc. 81-17641 Filed 6-12-81; 8:45 am]

BILLING CODE 4810-22-M

VETERANS ADMINISTRATION

120-Bed Nursing Home Care Unit, Veterans Administration Medical Center, Hines, Ill.; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential environmental impacts that may occur as a result of the construction of a 120-Bed Nursing Home Care Unit (NHCU), at the Veterans Administration Medical Center (VAMC), Hines Illinois.

This project proposes to construct a second floor addition to the existing 120-Bed nursing Home Care Unit. The addition will contain another 120 Nursing Home Care Beds. A Land Use Master Plan has been prepared for VAMC Hines. Parking to serve the 120-Bed addition was included in the plans for the existing Nursing Home. This project does not require any site development.

This project is a vertical expansion of an existing NHCU and therefore no other alternatives were considered.

Temporary impacts on air quality and noise levels will occur during the construction phase. Short term effects on air quality and noise level will be reduced by control measures applied during the construction phase through the application of the Environmental Protection Specifications as put forth in the VA Construction Specifications.

There are no anticipated long term impacts associated with this proposed action.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, DC. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs, Room 950, Veterans Administration, 1425 K Street, NW, Washington, DC. Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Environmental Affairs Office (003A), 810 Vermont Avenue, NW, Washington, DC 20420, (202) 389-2526.

Dated: June 8, 1981.

Donald L. Custis,

Acting Administrator.

[FR Doc. 81-17616 Filed 6-12-81; 8:45 am]

BILLING CODE 8320-01-M

Fort Logan National Cemetery, Denver, Colo.; Finding of No Significant Impact

The Veterans Administration (VA) has assesed the potential environmental impacts that may occur as a result of acquiring an easement to convey irrigation water to the cemetery. The ultimate development of Fort Logan National Cemetery will result in approximately 110 acres of cemetery grounds requiring irrigation. Presently the irrigation water is pumped from a lake on cemetery grounds.

This lake is supplied by overland flow from its watershed, from seepage originating at Marston Lake, and from Johnson Ditch. The portion of Johnson Ditch which would supply Cemetery Lake has been inoperable for years. The ditch is overgrown with weeds, filled-in sections and collapsed in others. Due to this, the water flow of Johnson Ditch has taken a new path and follows an alignment known as the Pinehurst Turnout, which feeds the three interconnected lakes on the Pinehurst Country Club. The outfall of these lakes feeds Cemetery Lake. This existing means of conveyance has been operating and in continued use for several years. Whereas, no formal easement agreement existed to date, the VA is entering into an easement agreement with Norgren Properties Company, owners of the Pinehurst Country Club property, to allow the conveyance of water across their property. This easement will be for the Pinehurst Turnout and interconnected lakes to be used as a means of continuous conveyance of irrigation water to Cemetery Lake.

Five alternatives were considered prior to the decision to reestablish Johnson Ditch. These alternatives were: (1) Reestablishing Johnson Ditch; (2) Replacing Johnson Ditch with pipe; (3) Contracting with Denver Water Board; (4) Direct purchase of water; (5) Drill a well.

Alternative (1) Repairing the abandoned alignment was abandoned when the owners of the Pinehurst Turnout came forward and offered the Government an easement. Alternative (2) the piping of the entire alignment of Johnson's Ditch from the Pinehurst Turnout to Cemetery Lake was not selected because of the high cost. Alternative (3) would supply Cemetery Lake with water from Marston Lake, via the lower end of the Johnson Ditch, on a contract basis. The Denver Water Board decided that they would not consider contracting for water in this way, unless water rights were exchanged. The proposal was an exchange of the Government's existing water rights to Harriman Lake, Bear and Turkey Creek and Soda Lakes for some sort of long-term water supply contract. The Government chose not to negotiate the exchange. Alternative (4) which is the direct purchase of water from the Denver Water Board, was not selected because the Board could supply treated water only, which at the going rates proved to be too costly for irrigation purposes. Alternative (5) is to drill a well. This alternative was presented by the consultant who studied the water supply situation.

The consultant's position in drilling a well is the interpretation of the Colorado Drainage Law, which may entitle the Government to using its water rights on site, by drilling a well rather than from surface water in Johnson Ditch. This avenue appears promising but too much investigation to determine the legal position of the Government would have been necessary to implement such a proposal. Therefore, this possibility was abandoned because of time and costly legal fees.

The easement facilities agreement will not alter the existing waterflow.

Therefore, no environmental impacts will be incurred, nor will any mitigative measures be necessary.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (Title 40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§ 1501.3 and 1508.9. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, DC. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs, Room 950, Veterans Administration, 1425 K Street, NW, Washington, DC. Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Office of Environmental Affairs (003A), 810 Vermont Avenue, NW, Washington, DC. 20420, (202) 389–2526.

Dated: June 8, 1981.

Donald L. Custis,

Acting Administrator.

BILLING CODE 8320–01–M

Outpatient and Clinic Addition, Veterans Administration Medical Center, Grand Junction, Colo.; Finding of No Significant Impact

The Veterans Administration (VA) has assessed the potential environmental impacts that may occur as a result of the construction of an Outpatient and Clinical Addition at the Veterans Administration Medical Center, Grand Junction, Colorado. A definite site has not been identified; however, the addition will be located adjacent to the north face of Building No. 1 (Main Hospital). Based on early conceptual plans, the new construction will be approximately 44,200 gross square feet (gsf). Approximately 49,810 gsf of space vacated by services being relocated in the new addition will be renovated. The estimated project cost is $13,369,000, inclusive of contingencies, professional design services and inflation to time of construction.

Several schemes involving different functional adjacencies and points of attachment to the existing hospital have been examined along with the no action alternative.

Temporary construction related impacts that will exist through project completion include noise, dust, fumes, and soil erosion. The environmental impacts will be minimal.

Soil erosion control, noise control, and air quality control measures will be implemented and will comply with all Federal, State and local codes, as well as the VA construction specifications which include the Environmental Protection section.

Specifically noted for compliance is Colorado Air Pollution Control Regulation No. 1.

The increased demand for parking will be mitigated by the construction of additional parking spaces as allowed by VA criteria.

The significance of the identified impacts has been evaluated relative to the considerations of both context and intensity, as defined by the Council on Environmental Quality (40 CFR 1508.27).

This Environmental Assessment has been performed in accordance with the requirements of the National Environmental Policy Act Regulations, §§1501.3 and 1508.9, Title 40, Code of Federal Regulations. A "Finding of No Significant Impact" has been reached based on the information presented in this assessment.

The assessment is being placed for public examination at the Veterans Administration, Washington, D.C. Persons wishing to examine a copy of the document may do so at the following office: Mr. Willard Sitler, P.E., Director, Office of Environmental Affairs, Room 950, Veterans Administration, 1425 K Street, NW, Washington, DC. Questions or requests for single copies of the Environmental Assessment may be addressed to: Director, Office of Environmental Affairs (003A), 810 Vermont Avenue, NW, Washington, DC 20420, (202) 389–2526.

Dated: June 8, 1981.

Donald L. Custis,

Acting Administrator.

CIVIL AERONAUTICS BOARD.

[M-318 Amdt. 1, June 11, 1981]

Addition of item to the closed meeting

TIME AND DATE: 9:30 a.m., June 10, 1981.

PLACE: Room 1012, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428.

SUBJECT: 5. Negotiations/Consultations with France, Scheduled to begin in Paris, France June 12 or June 13, 1981. (BIA)

STATUS: Closed.

PERSON TO CONTACT: Phyllis T. Kaylor, the Secretary 202/673-5068.

[S-927-81 Filed 6-11-81; 3:01 pm]

BILLING CODE 6320-01-M

2

CONSUMER PRODUCT SAFETY COMMISSION.

DATE AND TIME: Tuesday, June 17, 1981, 3 p.m.

LOCATION: Third floor hearing room, 1111 18th Street, NW., Washington, DC.

STATUS: Open to the public.

MATTERS TO BE CONSIDERED: The Commission is meeting with representatives of the Upholstered Furniture Action Council (UFAC) to discuss upholstered furniture flammability. UFAC requested the meeting.

FOR ADDITIONAL INFORMATION, CONTACT: Sheldon D. Butts, Deputy Secretary, Office of the Secretary, Consumer Product Safety Commission, Suite 300, 1111 18th Street, NW., Washington, DC 20207; Telephone (202) 634-7700.

4

FEDERAL ENERGY REGULATORY COMMISSION.

TIME AND DATE: 10 a.m., June 17, 1981.

PLACE: Room 9306, 825 North Capitol Street, N.E., Washington, D.C. 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note.—Items listed on the agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION: Kenneth F. Plumb, Secretary; Telephone (202) 357-8400.

This is a list of matters to be considered by the Commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the Division of Public Information.

Consent Power Agenda—493rd Meeting, June 17, 1981, Regular Meeting (10 a.m.)

CAP-1. Project No. 2752, Northern Lights, Inc.
CAP-2. Docket No. E-9530, Pyramid Lake Tribe of Indians v. Sierra Pacific Power Co.; Project Nos. 4161-000, 4162-000, 4163-000 and 4164-000, Sierra Pacific Power Co.
CAP-3. Docket No. ER81-305-000, Union Light, Heat & Power Co.
CAP-4. Docket No. ER81-436-000, South Carolina Electric & Gas Co.
CAP-5. Docket No. ER78-409, Philadelphia Electric Co.
CAP-6. Docket No. ER77-533, Louisiana Power & Light Co.
CAP-7. Docket No. EF81- , Pacific Northwest Electric Power Planning and Conservation Act—rates for sales to Bonneville Power Administration
CAP-8. Docket No. ES81-35-000, El Paso Electric Co.

Consent Miscellaneous Agenda

CAM-1. Docket No. QF81-25-000, Tulsa Energy Corp.
CAM-2. Docket No. RM79-76 (Colorado—15), high-cost gas produced from tight formations
CAM-3. Docket No. RM79-76 (Alabama—1), high-cost gas produced from tight formations
CAM-4. Docket No. RM79-76 (West Virginia—1), high-cost gas produced from tight formations
CAM-5. Docket No. GP81- , State of Ohio, Section 103 NGPA well category determinations: Charles O. Lighthizer, A. R. Crawford No.1 Well, FERC No. JD79-6124; Marshall No.1 Well, FERC No. JD79-1252

Consent Gas Agenda

CAG-1. Docket No. RP81-51-000, Border Gas, Inc.
CAG-2. Docket No. RP81-64-000, Cities Service Gas Co.
CAG-3. Docket No. RP81-65-000, National Fuel Gas Supply Corp.

SECURITIES AND EXCHANGE COMMISSION.

"FEDERAL REGISTER" CITATION OF PREVIOUS ANNOUNCEMENT: 46 FR 30299, June 5, 1981.

STATUS: Closed meeting.

PLACE: Room 824, 500 North Capitol Street, Washington, D.C.

DATE PREVIOUSLY ANNOUNCED: Tuesday, June 2, 1981.

CHANGES IN THE MEETING: Additional/deletion items. The following additional items were considered at a closed meeting scheduled for Tuesday, June 9, 1981, at 10:00 a.m.

Consideration of *amicus* participation.
Litigation matter.

The following additional items will be considered at a closed meeting scheduled for Thursday, June 11, 1981, following the 10:00 a.m. open meeting.

Settlement of injunctive action.
Freedom of Information Act appeal.

The following items will not be considered at a closed meeting scheduled for Thursday, June 11, 1981, following the 10:00 a.m. open meeting.

Institution of injunctive actions.
Administrative proceeding of an enforcement nature.

Chairman Shad and Commissioners Loomis, Evans and Thomas determined that Commission business required the above changes and that no earlier notice thereof was possible.

At times changes in Commission priorities require alterations in the scheduling of meeting items. For further information and to ascertain what, if any, matters have been added, deleted or postponed, please contact: Arthur C. Delibert at (202) 272–2467.

June 10, 1981.

BILLING CODE 8010–01–M

7

TENNESSEE VALLEY AUTHORITY.

TIME AND DATE: 7 p.m. (CDT), Thursday, June 18, 1981 (Meeting No. 1268).

PLACE: Goosepond Civic Center, Highway 79 South, Scottsboro, Alabama.

STATUS: Open.

A—Project Authorizations

1. Project Authorization No. 3551—Residential room unit thermal storage demonstration project.

B—Purchase Awards

1. Req. No. 827420—Thermal reflective all-metal insulation for piping and equipment inside containment at Yellow Creek Nuclear Plant units 1 and 2.
2. Amendment to Contract No. 81K51826976 with Blount Brothers Corporation, Montgomery, Alabama, for construction of Office of Power buildings for Chattanooga office complex.

C—Power Items

*1. Letter agreement with Maryville College, Maryville, Tennessee, covering development and implementation of a project to evaluate the performance of wood-burning boilers in the TVA region.
2. Lease, rental, and amendatory agreement with Lenoir City, Tennessee, covering arrangements for 161-kV deliveries at TVA's Fort Loudoun Hydro and Solway 161-kV Substations.
3. Lease and amendatory agreement with Hartselle, Alabama, covering arrangements for consolidated 46-kV service at TVA's Hartselle 161-kV Substation.
4. New Power contract with Monsanto Company, Decatur, Alabama.

D—Personnel Items

*1. Change of status for Robert C. Steffy, Jr., from Assistant Director, to Director, Energy Conservation and Rates, Office of Power, Chattanooga, Tennessee.

E—Real Property Transactions

1. Abandonment of permanent flooding and certain limited land management rights affecting approximately one acre of Fort Loudoun Reservoir land located in Knox County, Tennessee, owned by the Regal Corporation—Tract No. FL–990F.
2. Supplemental deed modifications affecting two tracts of land on Guntersville Reservoir to facilitate recreational use and waterfront residential development—Tract Nos. XGR–11 and XGR–105.
3. Memorandum of agreement between Alabama Department of Conservation and Natural Resources and TVA covering arrangements for the management of 1500 acres of TVA land in the Mallard-Fox Creek area in northern Alabama for wildlife and public recreation. (TVA's designation of 450 acres of the Mallard-Fox Creek area for future industrial development, as proposed in the final environmental impact statement, will be implemented by concurrent action of the General Manager.)

F—Unclassified

1. Revised TVA policy code relating to development and utilization of recreation resources.

CONTACT PERSON FOR MORE INFORMATION: Craven H. Crowell, Jr., Director of Information, or a member of his staff can respond to request for information about this meeting. Call (615) 632–3247, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 245–0101.

Dated: June 11, 1981.

[S–926–81 Filed 6–11–81; 2:41 pm]

BILLING CODE 8120–01–M

*Item approved by individual Board members. This would give formal ratification of the Board's action.

AGENCY PUBLICATION ON ASSIGNED DAYS OF THE WEEK

The following agencies have agreed to publish all documents on two assigned days of the week (Monday/Thursday or Tuesday/Friday).

This is a voluntary program. (See OFR NOTICE 41 FR 32914, August 6, 1976.)

Monday	Tuesday	Wednesday	Thursday	Friday
DOT/SECRETARY	USDA/ASCS		DOT/SECRETARY	USDA/ASCS
DOT/COAST GUARD	USDA/FNS		DOT/COAST GUARD	USDA/FNS
DOT/FAA	USDA/FSQS		DOT/FAA	USDA/FSQS
DOT/FHWA	USDA/REA		DOT/FHWA	USDA/REA
DOT/FRA	MSPB/OPM		DOT/FRA	MSPB/OPM
DOT/NHTSA	LABOR		DOT/NHTSA	LABOR
DOT/RSPA	HHS/FDA		DOT/RSPA	HHS/FDA
DOT/SLSDC			DOT/SLSDC	
DOT/UMTA			DOT/UMTA	
CSA			CSA	

Documents normally scheduled for publication on a day that will be a Federal holiday will be published the next work day following the holiday.
Comments on this program are still invited.
Comments should be submitted to the Day-of-the-Week Program Coordinator, Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408.

List of Public Laws

Note: No public bills which have become law were received by the Office of the Federal Register for inclusion in today's **List of Public Laws.**

Last Listing June 10, 1981
